### Fanhua Announces Quarterly Dividend Policy and Increase of Dividend Payout Ratio

GUANGZHOU, China, September 18, 2017 (GLOBENEWSWIRE) – Fanhua Inc.(Nasdaq:FANH) (the “Company” or “Fanhua”), a leading independent online-to-offline financial services provider operating in China, today announced that its board of directors (the “Board”) has modified its dividend policy to adopt a quarterly payment schedule in lieu of an annual dividend. Under the revised policy, dividends will be declared and paid on a quarterly basis, at an amount equivalent to no less than 50% of net income attributable to the Company’s shareholders in each quarter instead of no less than 30% under the annual dividend policy previously announced on April 20, 2017. The Company expects to declare the first quarterly dividend by the end of November.

Mr. Chunlin Wang, Chairman of the Board and Chief Executive Officer of Fanhua, stated, “My team and I believe that no business, large or small, can be considered successful without making a profit. We also believe that management’s value lies in their ability to create long term value for shareholders while enabling employees and, in our case, our sales agents, to have a highly respected and fulfilling career that can provide them a strong sense of accomplishment.

“We have enjoyed strong growth in operating profit over the past consecutive four quarters. Fanhua has shown great potential for sustained profitability and operating cash flow, which demonstrates the success of the adjustment to our business strategy over the past seven years. Therefore, with the approval of the Board, management has decided to implement a more generous dividend policy to better reward our shareholders for their trust and support.

“We believe our ability to generate strong cash flow and our solid cash position will provide sufficient capital to support both the boost in dividend payments and our long term business development.”
