Exhibit 99.1 — Press Release

### **CNinsure Announces Revised Strategic Objective and Focus**

GUANGZHOU, China, July 7, 2009 — CNinsure Inc. (Nasdaq: CISG) (the “Company” or “CNinsure”), a leading independent insurance intermediary company operating in China, today announced its revised long-term strategic objective to become a first-class diversified financial services group in lieu of being an insurance product distributor and after-sales services provider, and its strategic focus on improving the Company’s earnings per share (EPS) primarily through net income growth, pursuant to resolutions passed by its Board of Directors.

To achieve this strategic objective, the Company expects to move into the consumer financial services sector when time is appropriate. In addition to selling insurance products and providing insurance-related after-sales services, CNinsure will broaden its product offerings to include other financial products, such as mortgage loans, mutual funds and securities. The Board resolution also emphasized that the Company would stay focused on its business model and market positioning, limiting its business scope only to brokerage and service outsourcing without assuming underwriting or credit risks. Meanwhile, the Company will further develop its nationwide distribution network while continually building its operating platform to attract and retain more top entrepreneurial sales agents.

Commenting on the new strategic objective, CNinsure’s Chairman and Chief Executive Officer, Mr. Yinan Hu said, “As Chinese people accumulate significant levels of wealth as a result of China’s economic growth, we have seen growing demand for more diversified financial solutions and huge potential in the consumer financial market. Expansion into the consumer finance services arena will not only enable us to better meet our customers’ needs with access to a wide range of value-added financial products and services, but also further increase our profitability by leveraging our existing sales distribution network and operating platform to achieve better economies of scale and lower operating costs.”

In addition, the Board also passed a resolution to adopt strategies to increase the Company’s earnings per share primarily through net income growth. Pursuant to this resolution, the strategic focus of the Company will be shifted to the growth of net income and EPS in lieu of revenue growth. The Company will continue to improve its management efficiency and adapt its business model to achieve the goal of maximizing profits at lowest cost. Organic growth and acquisitions are expected to play equally important roles in driving its future growth. “The change reaffirms the Board and the management’s commitment to maximize shareholder value and deliver greater returns to our shareholders.”

Mr. Hu concluded, “With further deregulation in China’s financial services market, CNinsure’s leading position in the insurance intermediary sector, our proven competitive business model and market positioning, vision-oriented board of directors and result-driven management will become CNinsure’s key success factors for a long-term sustainable growth. The management has the determination and confidence to achieve our long-term strategic objective to become a premier financial services group in the future.”
