(Name, Telephone, E-mail and/or Facsimile number and Address of Company Contact Person)

Securities registered or to be registered pursuant to Section 12(b) of the Act:

Title of Each Class	Name of Each Exchange on Which Registered
Ordinary shares, par value US\$0.001 per share* American depositary shares, each representing 20 ordinary shares	The NASDAQ Stock Market LLC (The NASDAQ Global Select Market)

*Not for trading, but only in connection with the listing on The NASDAQ Global Select Market of American depositary shares, each representing 20 ordinary shares.

Securities registered or to be registered pursuant to Section 12(g) of the Act:

None

(Title of Class)

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:

None

(Title of Class)

Indicate the number of outstanding shares of each of the Issuer's classes of capital or common stock as of the close of the period covered by the annual report.

1,150,565,906 ordinary shares, par value US\$0.001 per share as of December 31, 2014

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP International Financial Reporting Standards as issued

Other

by the International Accounting Standards Board

If "Other" has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow.

Item 17 Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

(APPLICABLE ONLY TO ISSUERS INVOLVED IN BANKRUPTCY PROCEEDINGS DURING THE PAST FIVE YEARS)

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court.

Yes No

INTRODUCTION

In this annual report, unless the context otherwise requires:

- “we,” “us,” “our company,” “our” or “CNinsure” refer to CNinsure Inc., its subsidiaries and our consolidated affiliated entities;
- “China” or “PRC” refers to the People’s Republic of China, excluding, solely for the purpose of this annual report, Taiwan, Hong Kong and Macau;
- “provinces” of China refers to the 22 provinces, the four municipalities directly administered by the central government (Beijing, Shanghai, Tianjin and Chongqing) and the five autonomous regions (Xinjiang, Tibet, Inner Mongolia, Ningxia and Guangxi);
- “shares” or “ordinary shares” refers to our ordinary shares, par value US\$0.001 per share;
- “ADSs” refers to our American depository shares, each of which represents 20 ordinary shares;
- “consolidated affiliated entities” refers to Sichuan Yihe Investment Co., Ltd., or Yihe Investment, Shenzhen Xinbao Investment Management Co., Ltd., or Xinbao Investment and its subsidiaries and Shenzhen Dianliang Information Technology Co., Ltd., or Dianliang Information;
- all references to “RMB” or “Renminbi” are to the legal currency of China, all references to “US\$” and “U.S. dollars” are to the legal currency of the United States and all references to “HK\$” and “HK dollars” are to the legal currency of the Hong Kong Special Administrative Region; and
- all discrepancies in any table between the amounts identified as total amounts and the sum of the amounts listed therein are due to rounding.

PART I

Item 1. Identity of Directors, Senior Management and Advisers

Not Applicable.

Item 2. Offer Statistics and Expected Timetable

Not Applicable.

Item 3. Key Information

A. Selected Financial Data

The following selected consolidated statements of income (loss) data for the years ended December 31, 2012, 2013 and 2014 and the consolidated balance sheets data as of December 31, 2013 and 2014 have been derived from our audited consolidated financial statements, which are included in this annual report beginning on page F-1. The selected consolidated statements of income (loss) data for the years ended December 31, 2010 and 2011 and the selected consolidated balance sheets data as of December 31, 2010, 2011 and 2012 have been derived from our audited consolidated financial statements, which are not included in this annual report.

On March 25, 2011, we disposed of our 55% equity interest in Datong International Holding Limited and its subsidiaries, or Datong, which were primarily engaged in the distribution of life insurance products. Following the sale of Datong, we present our financial results for the years ended December 2010 and 2011 on both a continuing and discontinued basis. Profits and losses related to Datong were presented as discontinued operations while profits and losses for the remaining business were presented as continuing operations. Our historical results do not necessarily indicate results expected for any future periods. The selected consolidated financial data should be read in conjunction with, and are qualified in their entirety by reference to, our audited consolidated financial statements

and related notes and “Item 5. Operating and Financial Review and Prospects” below. Our audited consolidated financial statements are prepared and presented in accordance with U.S. GAAP.

In the first quarter of 2014, we realigned our financial reporting structure into three business segments that more accurately reflect our organizational structure and changing business mix. Under the realigned business structure, our business is divided into three reporting operating segments: (1) insurance agency, (2) insurance brokerage, and (3) claims adjusting. See “Item 4. Information on the Company — B. Business Overview — Segment Information.” Historical results reflecting the new business segments for 2010, 2011, 2012, 2013 and 2014 are also restated.

Exchange Rate Information

Our business is primarily conducted in China and all of our revenues are denominated in RMB. This annual report contains translations of RMB amounts into U.S. dollars at specific rates solely for the convenience of the readers. Unless otherwise noted, all translations from RMB to U.S. dollars in this annual report were made at a rate of RMB6.2046 to US\$1.00, the noon buying rate in effect as of December 31, 2014 in The City of New York for cable transfers of RMB, as set forth in H.10 weekly statistical release of the Federal Reserve Bank of New York.

We make no representation that any RMB or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or RMB, as the case may be, at any particular rate, or at all. The PRC government imposes control over its foreign currency reserves in part through direct regulation of the conversion of RMB into foreign exchange and through restrictions on foreign trade. On April 17, 2015, the noon buying rate was RMB6.1976 to US\$1.00.

The following table sets forth information concerning exchange rates between the RMB and the U.S. dollar for the periods indicated. These rates are provided solely for your convenience and are not necessarily the exchange rates that we used in this annual report or will use in the preparation of our future periodic reports or any other information to be provided to you.

D. Risk Factors

Risks Related to Our Business and Our Industry

If our investments in our mobile and online platforms are not successful, our business and results of operations may be adversely affected.

We have devoted significant efforts to developing our mobile and online platforms. On January 1, 2012, we launched Baowang (www.baoxian.com), an online insurance marketplace which allows customers to search, and purchase a wide range of insurance products, including travel insurance, accident insurance and homeowner insurance from various insurance carriers. In October 2012, we launched CNpad, the mobile workstation of our proprietary sales support system, which enables sales agents to help their clients to compare price, policy benefits and services from different insurance carriers' policies, and to apply for and complete the purchase of the policy that best suits their clients' needs anywhere and anytime. In August 2014, we unveiled eHuzhu (www.ehuzhu.com), an online non-profit mutual aid platform that provides low-cost risk-protection programs on a mutual aid basis among program members. In August 2014, we also rolled out Chetong.net (www.chetong.net), a public service platform for the insurance industry that integrates claims adjustment and auto service resources from around the country to

provide services such as damage assessment, loss estimations, emergency assistance, quick repair and valet services through a location-based services system. In the next few years, we intend to continue to devote significant resources to improving the technology and content of our existing online and mobile initiatives and launching marketing campaigns to increase consumer awareness of these online and mobile solutions or platforms. However, our efforts to develop our mobile and online platforms may not be successful or yield the benefits that we anticipate due to our limited experience in the online and mobile insurance distribution business. In addition, our expansion may depend on a number of factors, many of which are beyond our control, including but not limited to:

- the effectiveness of our marketing campaign to build brand recognition among consumers and our ability to attract and retain customers;
- the acceptance of third-party e-commerce platforms as an effective channel for underwriters to distribute their insurance products;
- the acceptance of CNpad as an effective tool for sales agents;
- public concerns over security of e-commerce transactions and confidentiality of information;
- increased competition from insurance companies which directly sell insurance products through their own websites, call centers, portal websites which provide insurance product information and links to insurance companies' websites, and other professional insurance intermediary companies which may launch independent websites in the future;
- further improvement in our information technology system designed to facilitate smoother online transactions; and
- further development and changes in applicable rules and regulations which may increase our operating costs and expenses, impede the execution of our business plan or change the competitive landscape.

On December 10, 2014, the China Insurance Regulatory Commission, or CIRC, released and solicited public comments on the Interim Measures for the Supervision of Internet Insurance Business (Draft for Comment), or Interim Measures, which sets forth the qualifications and procedures for insurance intermediaries to operate internet insurance businesses in China. Since online insurance distribution has emerged only recently in China and is evolving rapidly, the CIRC may implement new laws and regulations to govern this sector from time to time. Although we have obtained necessary approvals and licenses and meet qualification requirements for the operation of the Interim Measures, we cannot assure you that our operation will always be consistent with the changes and further development of regulations applicable to us or we will be able to obtain necessary approvals and licenses as required on a timely basis.

Any failure to successfully identify the risks as part of our expansion into the online and mobile insurance distribution business may have a material adverse impact on our growth, business prospects and results of operations, which could lead to a decline in the price of our ADSs.

In addition, our efforts to enhance our technological capabilities and establish a leading position in the online and mobile insurance distribution and online claims settlement markets requires us to incur significant research and development and marketing expenses which may adversely impact our profitability in the near term.

If we fail to attract and retain productive agents, especially entrepreneurial agents, and qualified claims adjustors, our business could suffer.

A substantial portion of our sales of property and casualty insurance products and all of our sales of life insurance products are conducted through our individual sales agents, who are not our employees. Some of these sales agents are significantly more productive than others in generating sales. In recent years, some entrepreneurial management staff or senior sales agents of major insurance companies in China have chosen to leave their employers or principals and become independent agents. We refer to these individuals as entrepreneurial agents. An entrepreneurial agent is usually able to assemble and lead a team of sales agents. We have been actively recruiting and will continue to recruit entrepreneurial agents to join our distribution and service network as our sales agents. Entrepreneurial agents have been instrumental to the development of our life insurance business. In addition, we rely entirely on our in-house claims adjustors to provide claims adjusting services. Because claims adjusting

requires technical skills, the technical competence of claims adjustors is essential to establishing and maintaining our brand image and relationships with our customers. If we are unable to attract and retain the core group of highly productive sales agents, particularly entrepreneurial agents, and qualified claims adjustors, our business could be materially and adversely affected. Competition for sales personnel and claims adjustors from insurance companies and other insurance intermediaries may also force us to increase the compensation of our sales agents, in-house sales representatives and claims adjustors, which would increase operating costs and reduce our profitability.

Our business and prospects could be materially and adversely affected if we are not able to manage our growth successfully.

We commenced our insurance intermediary business in 1999 and have expanded our operations substantially in recent years. Our distribution and service networks expanded from one company in one province to 37 insurance agencies, two insurance brokerages and four claims adjusting firms in 27 provinces as of March 31, 2015. Meanwhile, we have broadened our service offerings from the distribution of only automobile insurance products to cover a wide variety of property and casualty insurance and life insurance products and insurance claims adjusting services. In addition, in 2014 we unveiled eHuzhu, an online non-profit mutual aid platform, and Chetong.net, an online insurance service platform. We anticipate continued growth in the future through multiple means. Our expansion has placed, and will continue to place, substantial demands on our managerial, operational, technological and other resources. To manage and support our continued growth, we must continue to improve our operational, administrative, financial and technological systems, procedures and controls, and expand, train and manage our growing employee and agent base. Furthermore, our management will be required to maintain and expand our relationships with insurance companies, other insurance intermediaries, regulators and other third parties. We cannot assure you that our current and planned personnel, systems, procedures and controls will be adequate to support our future operations. We also cannot assure you that new product and platform offerings will be accepted by consumers or other industry participants or that we will be able to successfully integrate new products into our greater insurance service platform. Any failure to effectively and efficiently manage our expansion could materially and adversely affect our ability to capitalize on new business opportunities, which in turn could have a material adverse effect on our results of operations.

We may be unsuccessful in identifying and acquiring suitable acquisition candidates, which could adversely affect our growth.

Since our initial public offering in October 2007, we have significantly expanded our operations through a number of acquisitions. We expect some portion of our future growth to come from acquisitions of high-quality independent insurance intermediary companies or companies that can complement our existing business and help improve our customers' experience. There is no assurance that we can successfully identify suitable acquisition candidates. Even if we identify suitable candidates, we may not be able to complete an acquisition on terms that are commercially acceptable to us. In addition, we compete with other entities to acquire high-quality independent insurance agencies, brokerages and claims adjusting firms. Our competitors may be able to outbid us for these acquisition targets. If we are unable to complete acquisitions, our growth strategy may be impeded and our earnings or revenue growth may be negatively affected.

If we fail to integrate acquired companies efficiently, or if the acquired companies do not perform to our expectations, our business and results of operations may be adversely affected.

Even if we succeed in acquiring other insurance agencies, brokerages and claims adjusting firms, our ability to integrate an acquired entity and its operations is subject to a number of factors. These factors include difficulties in the integration of acquired operations and retention of personnel, especially the sales agents who are not employees of the acquired company, entry into unfamiliar markets, unanticipated problems or legal liabilities, tax and accounting issues. The need to address these factors may divert management's attention from other aspects of our business and materially and adversely affect our business prospects. In addition, costs associated with integrating newly acquired companies could negatively affect our operating margins.

Furthermore, the acquired companies may not perform to our expectations for various reasons, including legislative or regulatory changes that affect the insurance products in which a company specializes, the loss of key clients after the acquisition closes, general economic factors that impact a company in a direct way and the cultural incompatibility of an acquired company's management team with us. If an acquired company cannot be operated at the same profitability level as our existing operations, the acquisition would have a negative impact on our operating margin. Our inability to successfully integrate an acquired entity or its failure to perform to our expectations may materially and adversely affect our business, prospects, results of operations and financial condition.

If we are required to write down goodwill and other intangible assets, our financial condition and results may be materially and adversely affected.

When we acquire a business, a substantial portion of the purchase price of the acquisition is generally allocated to goodwill and other identifiable intangible assets. The amount of the purchase price that is allocated to goodwill and other intangible assets is determined by the excess of the fair value of purchase price and any controlling interest over the net identifiable tangible assets acquired. As of December 31, 2014, goodwill represented RMB133.5 million (US\$21.5 million), or 4.0% of our total shareholders' equity, and other net intangible assets represented RMB31.6 million (US\$5.1 million), or 0.9% of our total shareholders' equity. Our management performs impairment assessment annually, and in 2011 we recognized an impairment loss of RMB1.1 billion, though we did not recognize any impairment loss in 2012, 2013 or 2014. Under current accounting standards, if we determine that goodwill or intangible assets are impaired, we will be required to write down the value of such assets and recognize corresponding impairment charges. As we implement our growth strategy through acquisitions, goodwill and intangible assets may comprise an increasingly larger percentage of our shareholders' equity. As such, any write-down related to such goodwill and intangible assets may adversely and materially affect our shareholders' equity and financial results.

Because the commission and fee revenue we earn on the sale of insurance products is based on premiums, commission and fee rates set by insurance companies, any decrease in these premiums, commission or fee rates may have an adverse effect on our results of operations.

We are engaged in the insurance agency, insurance brokerage and claims adjusting businesses and derive revenues primarily from commissions and fees paid by the insurance companies whose policies our customers purchase and to whom we provide claims adjusting services. The commission and fee rates are set by insurance companies and are based on the premiums that the insurance companies charge or the amount recovered from insurance companies. Commission and fee rates and premiums can change based on the prevailing economic, regulatory, taxation-related and competitive factors that affect insurance companies. These factors, which are not within our control, include the ability of insurance companies to place new business, underwriting and non-underwriting profits of insurance companies, consumer demand for insurance products, the availability of comparable products from other insurance companies at a lower cost, the availability of alternative insurance products such as government benefits and self-insurance plans, as well as the tax deductibility of commissions and fees and the consumers themselves. In addition, premium rates for certain insurance products, such as the mandatory automobile liability insurance that each automobile owner in the PRC is legally required to purchase, are tightly regulated by CIRC.

Because we do not determine, and cannot predict, the timing or extent of premium or commission and fee rate changes, we cannot predict the effect any of these changes may have on our operations. Any decrease in premiums or commission and fee rates may significantly affect our profitability. In addition, our budget for future acquisitions, capital expenditures and other expenditures may be disrupted by unexpected decreases in revenues caused by decreases in premiums or commission and fee rates, thereby adversely affecting our operations.

Competition in our industry is intense and, if we are unable to compete effectively, we may lose customers and our financial results may be negatively affected.

The insurance intermediary industry in China is highly competitive, and we expect competition to persist and intensify. In insurance product distribution, we face competition from insurance companies that use their in-house sales force, exclusive sales agents, telemarketing and internet channels to distribute their products, and from business entities that distribute insurance products on an ancillary basis, such as commercial banks, postal offices and automobile dealerships, as well as from other professional insurance intermediaries. In our claims adjusting business, we primarily compete with other independent claims adjusting firms. We compete for customers on the basis of product offerings, customer services and reputation. Many of our competitors have greater financial and marketing resources than we do and may be able to offer products and services that we do not currently offer and may not offer in the future. If we are unable to compete effectively against those competitors, we may lose customers and our financial results may be negatively affected.

Quarterly and annual variations in our commission and fee revenue may have unexpected impacts on our results of operations.

Our commission and fee revenue is subject to both quarterly and annual fluctuations as a result of the seasonality of our business, the timing of policy renewals and the net effect of new and lost business. Historically,

our commission and fee revenue, particularly revenue derived from distribution of property and casualty insurance products, for the fourth quarter of any given year has been the highest among all four quarters, while our commission and fee revenue for the first quarter of any given year has been the lowest among all four quarters. The factors that cause the quarterly and annual variations are not within our control. Specifically, consumer demand for insurance products can influence the timing of renewals, new business and lost business, which generally includes policies that are not renewed, and cancellations. As a result, you may not be able to rely on quarterly or annual comparisons of our operating results as an indication of our future performance.

If our contracts with insurance companies are terminated or changed, our business and operating results could be adversely affected.

We primarily act as agents for insurance companies in distributing their products to retail customers. We also provide claims adjusting services principally to insurance companies. Our relationships with the insurance companies are governed by agreements between us and the insurance companies. We have entered into strategic partnership agreements with most of our major insurance company partners for the distribution of life, property and casualty insurance products and the provision of claims adjusting services at the corporate headquarters level. While this approach allows us to obtain more favorable terms from insurance companies by combining the sales volumes of our affiliated insurance agencies and brokerages, it also means that the termination of a major contract could have a material adverse effect on our business. Under the framework of the headquarter-to-headquarter agreements, our affiliated insurance agencies, brokerages and claims adjusting firms generally also enter into contracts at a local level with the respective provincial, city and district branches of the insurance companies. Generally, each branch of these insurance companies has independent authority to enter into contracts with our affiliated insurance agencies, brokerages and claims adjusting firms, and the termination of a contract with one branch has no significant effect on our contracts with the other branches. See “Item 4. Information on the Company — B. Business Overview — Insurance Company Partners.” These contracts establish, among other things, the scope of our authority, the pricing of the insurance products we distribute and our fee rates. These contracts typically have a term of one year and some of them can be terminated by the insurance companies with little advance notice. Moreover, before or upon expiration of a contract, the insurance company that is a party to that contract may agree to renew it only with changes in its terms, including the amount of commissions and fees we receive, which could reduce our revenues from that contract.

For the year ended December 31, 2014, our top five insurance company partners were PICC Property and Casualty Company Limited, or PICC P&C, Ping An Property & Casualty Insurance Company of China, Ltd., or Ping An, China Pacific Property Insurance Co., Ltd., or CPIC, Taiping General Insurance Co., Ltd., or Taiping and Alltrust Property Insurance Company Ltd, or Alltrust. Among them, PICC P&C, Ping An and CPIC each accounted for more than 10% of our total net revenues in 2014, with PICC P&C accounting for 20.6%, Ping An accounting for 13.7%, and CPIC accounting for 11.9% of our total net revenues. The termination of our contracts with insurance companies that in aggregate account for a significant portion of our business, or changes to material terms of these contracts, could adversely affect our business and operating results.

Our operating structure may make it difficult to respond quickly to operational or financial problems, which could negatively affect our financial results.

We currently operate through our majority-owned and affiliated insurance agencies, brokerages and claims adjusting firms located in 27 provinces in China. These companies report their results to our corporate headquarters monthly. If these companies delay either reporting results or informing corporate headquarters of negative business developments such as losses of relationships with insurance companies, regulatory inquiries or any other negative events, we may not be able to take action to remedy the situation in a timely fashion. This in turn could have a negative effect on our financial results. In addition, if one of these companies were to report inaccurate financial information, we might not learn of the inaccuracies on a timely basis and be able to take corrective measures promptly, which could negatively affect our ability to report our financial results.

Our dependence on the founders and key managers of firms that we acquire may limit our ability to effectively manage our business.

In the acquisitions we have completed to date, some of the founders and key managers of the acquired firms continue to manage the acquired businesses. They are responsible for ordinary course operational decisions, including personnel and office location, subject to our oversight. They also maintain the primary relationship with customers and the local branches of insurance companies. Although we maintain internal controls to oversee our nationwide operations, this operating structure exposes us to the risk of losses resulting from day-to-day decisions

of the managers of the acquired firms. Unsatisfactory performance by these managers could hinder our ability to grow and could have a material adverse effect on our business.

Our future success depends on the continuing efforts of our senior management team and other key personnel, and our business may be harmed if we lose their services.

Our future success depends heavily upon the continuing services of the members of our senior management team and other key personnel, in particular, Mr. Chunlin Wang, our chief executive officer, Mr. Qiuping Lai, our president, and Mr. Peng Ge, our chief financial officer. If one or more of our senior executives or other key personnel, are unable or unwilling to continue in their present positions, we may not be able to replace them easily, or at all. As such, our business may be disrupted and our financial condition and results of operations may be materially and adversely affected. Competition for senior management and key personnel is intense, the pool of qualified candidates is very limited, and we may not be able to retain the services of our senior executives or key personnel, or attract and retain high-quality senior executives or key personnel in the future. As is customary in the PRC, we do not have insurance coverage for the loss of our senior management team or other key personnel.

In addition, if any member of our senior management team or any of our other key personnel joins a competitor or forms a competing company, we may lose customers, sensitive trade information, key professionals and staff members. Each of our executive officers and key employees has entered into an employment agreement with us which contains confidentiality and non-competition provisions. These agreements generally have an initial term of three years, and are automatically extended for successive one-year terms unless terminated earlier pursuant to the terms of the agreement. See “Item 6. Directors, Senior Management and Employees — A. Directors and Senior Management — Employment Agreements” for a more detailed description of the key terms of these employment agreements. If any disputes arise between any of our senior executives or key personnel and us, we cannot assure you of the extent to which any of these agreements may be enforced.

Salesperson and employee misconduct is difficult to detect and deter and could harm our reputation or lead to regulatory sanctions or litigation costs.

Salesperson and employee misconduct could result in violations of law by us, regulatory sanctions, litigation or serious reputational or financial harm. Misconduct could include:

- making misrepresentations when marketing or selling insurance to customers;
- hindering insurance applicants from making full and accurate mandatory disclosures or inducing applicants to make misrepresentations;
- hiding or falsifying material information in relation to insurance contracts;
- fabricating or altering insurance contracts without authorization from relevant parties, selling false policies, or providing false documents on behalf of the applicants;
- falsifying insurance agency business or fraudulently returning insurance policies to obtain commissions;
- colluding with applicants, insureds, or beneficiaries to obtain insurance benefits;
- engaging in false claims; or
- otherwise not complying with laws and regulations or our control policies or procedures.

We cannot always deter salesperson or employee misconduct, and the precautions we take to prevent and detect these activities may not be effective in all cases. We cannot assure you, therefore, that salesperson or employee misconduct will not lead to a material adverse effect on our business, results of operations or financial condition.

Our investments in certain financial products may not yield the benefits we anticipate or incur financial loss, which could adversely affect our cash position.

In order to improve our return on capital, we may from time to time, upon board approval, invest certain portion of our cash in financial products, such as trust products, with terms of one to two years. These products may involve various risks, including default risks, interest risks, and other risks. We cannot guarantee these investments will yield the returns we anticipate and we could suffer financial loss resulting from the purchase of these financial products.

All of our personnel engaging in insurance agency, brokering or claims adjusting activities are required under relevant PRC regulations to have a qualification certificate issued by the CIRC. If these qualification requirements are strictly enforced in the future, our business may be materially and adversely affected.

All of our personnel who engage in insurance agency, brokering and claims adjusting activities are required under relevant PRC regulations to obtain a qualification certificate from the CIRC and a “Qualification Certificate” from the insurance company or insurance intermediary company to which he or she belongs. See “Item 4. Information on the Company — B. Business Overview — Regulation.” In addition, we understand that the CIRC requires that every individual agent or broker carry the qualification certificate issued by the insurance company or insurance intermediary company to which he or she belongs and other credentials showing specified information when conducting agency and brokerage business. Under the relevant PRC regulations, such as the Measures on the Supervision and Administration of Insurance Salespersons, and the Measures on the Supervision and Administration of insurance brokers and claims adjusters issued by the CIRC in January 2013, an insurance agency, brokerage or claims adjusting firm that retains unqualified personnel to engage in insurance intermediary activities may be imposed a fine ranging from RMB20,000 to RMB100,000 per agency by the CIRC. As of March 31, 2015, approximately 88.2% of our sales professionals had received a qualification certificate. If more local CIRC agencies were to strictly enforce these regulations in the future, and if a substantial portion of our sales force remains unqualified, our business may be adversely affected. Moreover, we may be subject to fines and other administrative proceedings for the failure of our insurance professionals to obtain the necessary CIRC qualification certificate. Such fines or administrative proceedings could materially and adversely affect our business, financial condition and results of operations.

The fee-based revenue scheme adopted by several of our affiliated property and casualty insurance agencies may be subject to challenge by the PRC tax authorities.

From the second quarter of 2009 to the first quarter of 2011, several of our affiliated property and casualty insurance agencies had adopted a trial fee-based revenue scheme. Under this scheme, revenues of these affiliated agencies were reported on a net basis. If the PRC tax authorities determine that the tax liability assessment of those eight affiliated agencies under the trial revenue scheme is inappropriate, the business tax liabilities of our affiliated agencies could increase and our affiliated agencies may be subject to fines for tax underpayment, which may materially adversely affect our results of operations.

Our businesses are highly regulated, and the administration, interpretation and enforcement of the laws and regulations currently applicable to us involve uncertainties, which could materially and adversely affect our business and results of operations.

We operate in a highly regulated industry. The CIRC has extensive authority to supervise and regulate the insurance industry in China. In exercising its authority, the CIRC is given wide discretion, and the administration, interpretation and enforcement of the laws and regulations applicable to us involve uncertainties that could materially and adversely affect our business and results of operations. For example, it is not clear when the CIRC will start strictly enforcing the qualification requirements for sales professionals affiliated with professional insurance intermediaries like us. Although we have not had any material violations to date, we cannot assure you that our operations will always be consistent with the interpretation and enforcement of the laws and regulations by the CIRC from time to time.

Our business could be negatively impacted if we are unable to adapt our services to continued regulatory change in China.

China’s insurance regulatory regime is undergoing significant changes. Some of these changes and the further development of regulations applicable to us may result in additional restrictions on our activities or more intensive competition in this industry. For example, pursuant to the Decision on Revising the Regulatory Provisions on

Professional Insurance Agencies and the Decision on Revising the Regulatory Provisions on the Supervision of Insurance Brokerages, both promulgated on April 27, 2013, the minimum registered capital requirements for insurance agencies and brokerages increased substantially. See “Item 4. Information on the Company — B. Business Overview — Regulation.” This increase reduced the amount of cash available for other business purposes. According to the Opinions on Improving Sales Agent Management System and Opinions on Encouraging and Supporting the Healthy Development of Private Investment issued by the CIRC on September 20, 2010 and June 15, 2012, respectively, insurance companies are encouraged to establish exclusive sales agencies or insurance sales companies and all types of capital, including foreign capital and capital from the private sectors are encouraged to invest in large scale insurance agencies and insurance sales companies. Furthermore, the CIRC promulgated the Circular on Supporting the Specialized Operation of Automobile Companies’ Insurance Intermediary Business which encouraged automobile companies to establish insurance agencies or insurance brokerage companies, or to outsource their insurance business to professional insurance agencies or brokerage companies. These changes may lead to greater competition among insurance agencies and our business operations and growth outlook could be materially and adversely affected.

In July 2014, the CIRC promulgated the Consultation Paper of the Rules on Deepening the Pricing Reform of Commercial Auto Insurance Policies, allowing insurers to set their own premium rates for auto insurance policies based on a new pricing model. Under the new pricing model, the premium of an auto insurance policy will be determined based on pure risk premium, loadings and premium adjustment factors, and the pricing in both direct sales and through intermediary channels will be based on the same pricing model. In January 2015, the CIRC promulgated the Guidelines on Deepening the Pricing Reform of Commercial Auto Insurance Policies, granting insurers more flexibility in auto insurance premiums based on their own operational conditions. If we are unable to successfully adapt our services to the changes resulting from this or similar regulatory action, our business could be adversely impacted.

If we fail to maintain an effective system of internal controls over financial reporting, we may not be able to accurately report our financial results or prevent fraud.

We are subject to reporting obligations under U.S. securities laws. Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 and the related rules adopted by the Securities and Exchange Commission, or the SEC, every public company is required to include a management report on the company’s internal controls over financial reporting in its annual report, which contains management’s assessment of the effectiveness of the company’s internal controls over financial reporting. In addition, an independent registered public accounting firm must attest to and report on the effectiveness of the company’s internal controls over financial reporting. These requirements first applied to our annual report on Form 20-F for the fiscal year ended on December 31, 2008.

Our management has concluded that our internal control over financial reporting was effective as of December 31, 2014. See “Item 15. Controls and Procedures.” However, there is no assurance that we will be able to maintain effective internal controls over financial reporting in the future. If we fail to do so, we may not be able to produce reliable financial reports and prevent fraud. Moreover, if we are not able to conclude that we have effective internal controls over financial reporting, investors may lose confidence in the reliability of our financial statements, which would negatively impact the trading price of our ADSs. Our reporting obligations as a public company, including our efforts to comply with Section 404 of the Sarbanes-Oxley Act, will continue to place a significant strain on our management, operational and financial resources and systems for the foreseeable future.

We may face legal action by former employers or principals of entrepreneurial agents who join our distribution and service network.

Competition for productive sales agents is intense within the Chinese insurance industry. When an entrepreneurial agent leaves his or her employer or principal to join our distribution and service network as our sales agent, we may face legal action by his or her former employer or principal of the entrepreneurial agent on the ground of unfair competition or breach of contract. As of the date of this annual report, there has been no such action filed or threatened against us. We cannot assure you that this will not happen in the future. Any such legal actions, regardless of merit, could be expensive and time-consuming and could divert resources and management’s attention from the operation of our business. If we were found liable in such a legal action, we might be required to pay substantial damages to the former employer or principal of the entrepreneurial agent, and our business reputation might be harmed. Moreover, the filing of such a legal action may discourage potential entrepreneurial agents from leaving their employers or principals, thus reducing the number of entrepreneurial agents we can recruit and potentially harming our growth prospects.

If we are unable to successfully expand into the consumer financial services and wealth management sectors, our business and results of operations may be adversely affected.

We have previously expanded into complementary business areas to leverage our existing sales network, customer resources and operating platform so as to better serve our customers' needs for insurance protection, financing and wealth management. For example, in October 2009, we acquired 20.6% equity interest in Sincere Fame International Limited, or Sincere Fame, which owns 100% of the equity interest in China Financial Services Group Limited, or CFSG, a consumer financial services provider. In November 2010 we formed a joint venture, named CNinsure Puyi Investment Management Co., Ltd., or Puyi Investment, (which we later renamed as CNinsure Puyi Fund Sales Co. Ltd., or Puyi Fund Sales, after obtaining the license to distribute mutual funds in March 2013) in which we beneficially own 19.5% of the equity interests. See "Item 4. Information on the Company — C.Organizational Structure — Principle Changes in Corporate Structure" for information on the restructuring of Puyi Fund Sales. Puyi Fund Sales is a financing platform for mutual funds and trust companies. However, in 2014 we discontinued offering wealth management products to our customers on a referral basis because of tightened regulation on the distribution of wealth management products by insurance intermediaries. If we decide to again attempt offering wealth management products, our efforts to do so may not be successful and may subject us to risks associated with operating in the consumer financial services sectors in China, including but not limited to, changes in monetary or industry policies and other economic measures that may affect our cooperation with financial institutions and their product supply, as well as competition from other consumer credit brokerage companies and other financial services companies that offer wealth management products. Any failure to successfully identify, execute and integrate acquisitions, investments, joint ventures and alliances as part of any attempted expansion into the consumer financial services sector may have a material adverse impact on our growth, business prospects and results of operations, which could lead to a decline in the price of our ADSs.

Any significant failure in our information technology systems could have a material adverse effect on our business and profitability.

Our business is highly dependent on the ability of our information technology systems to timely process a large number of transactions across different markets and products at a time when transaction processes have become increasingly complex and the volume of such transactions is growing rapidly. The proper functioning of our financial control, accounting, customer database, customer service and other data processing systems, together with the communication systems of our various subsidiaries and consolidated affiliated entities and our main offices in Guangzhou, is critical to our business and our ability to compete effectively. We cannot assure you that our business activities would not be materially disrupted in the event of a partial or complete failure of any of these primary information technology or communication systems, which could be caused by, among other things, software malfunction, computer virus attacks or conversion errors due to system upgrading. In addition, a prolonged failure of our information technology system could damage our reputation and materially and adversely affect our future prospects and profitability.

We may face potential liability, loss of customers and damage to our reputation for any failure to protect the confidential information of our customers.

Our customer database holds confidential information concerning our customers. We may be unable to prevent third parties, such as hackers or criminal organizations, from stealing information provided by our customers to us. Confidential information of our customers may also be misappropriated or inadvertently disclosed through employee misconduct or mistake. We may also in the future be required to disclose to government authorities certain confidential information concerning our customers.

In addition, many of our customers pay for our insurance services through third-party online payment services. In such transactions, maintaining complete security during the transmission of confidential information, such as personal information, is essential to maintaining consumer confidence. We have limited influence over the security measures of third-party online payment service providers. In addition, our third-party merchants may violate their confidentiality obligations and disclose information about our customers. Any compromise of our security or third-party service providers' security could have a material adverse effect on our reputation, business, prospects, financial condition and results of operations.

If we are accused of failing to protect the confidential information of our customers, we may be forced to expend significant financial and managerial resources in defending against these accusations and we may face potential liability. Any negative publicity may adversely affect our public image and reputation. In addition, any

perception by the public that online commerce is becoming increasingly unsafe or that the privacy of customer information is vulnerable to attack could inhibit the growth of online services generally, which in turn may reduce the number of our customers.

If we are unable to respond in a timely and cost-effective manner to rapid technological change in the insurance intermediary industry, it may result in an adverse effect.

The insurance industry is increasingly influenced by rapid technological change, frequent new product and service introductions and evolving industry standards. For example, the insurance intermediary industry has increased use of the internet to communicate benefits and related information to consumers and to facilitate information exchange and transactions. We believe that our future success will depend on our ability to continue to anticipate technological changes and to offer additional product and service opportunities that meet evolving standards on a timely and cost-effective basis. There is a risk that we may not successfully identify new product and service opportunities or develop and introduce these opportunities in a timely and cost-effective manner. In addition, product and service opportunities that our competitors develop or introduce may render our products and services uncompetitive. As a result, we can give no assurances that technological changes that may affect our industry in the future will not have a material adverse effect on our business and results of operations.

We face risks related to health epidemics, severe weather conditions and other catastrophes, which could materially and adversely affect our business.

Our business could be materially and adversely affected by the outbreak of avian flu, severe acute respiratory syndrome, or SARS, another health epidemic, severe weather conditions or other catastrophes. In April 2009, influenza A (H1N1), a new strain of flu virus commonly referred to as “swine flu,” was first discovered in North America and quickly spread to other parts of the world, including China. In January and February 2008, a series of severe winter storms afflicted extensive damages and significantly disrupted people’s lives in large portions of southern and central China. In May 2008, an earthquake measuring 8.0 on the Richter scale hit Sichuan Province in southwestern China, causing huge casualties and property damages. In February 2013, H7N9 Avian influenza was first discovered in Shanghai, China and quickly widened its geographical spread in China. Because our business operations rely heavily on the efforts of individual sales agents, in-house sales representatives and claims adjusters, any prolonged recurrence of avian flu or SARS, or the occurrence of other adverse public health developments such as influenza A (H1N1), severe weather conditions such as the massive snow storms in January and February 2008 and other catastrophes such as the Sichuan earthquake may significantly disrupt our staffing and otherwise reduce the activity level of our work force, thus causing a material and adverse effect on our business operations.

Risks Related to Our Corporate Structure

If the PRC government finds that the agreements that establish the structure for operating part of our China business do not comply with applicable PRC laws and regulations, we could be subject to severe penalties.

Historically, PRC laws and regulations have restricted foreign investment in and ownership of insurance intermediary companies. In recent years, some rules and regulations governing the insurance intermediary sector in China have begun to encourage foreign investment. For instance, under the Closer Economic Partnership Arrangement, or CEPA, Supplement IV signed in July 2007 and CEPA Supplement VIII signed on December 13, 2011, between the PRC Ministry of Commerce and the governments of Hong Kong and Macao Special Administrative Region, local insurance agencies in Hong Kong and Macao are allowed to set up wholly-owned insurance agency companies in Guangdong Province if they meet certain threshold requirements. On December 26, 2007, the CIRC issued an Announcement on the Establishment of Wholly-owned Insurance Agencies in Mainland China by Hong Kong and Macao Insurance Agencies, which sets forth specific qualification criteria for implementation purposes. On August 26, 2010, the CIRC released a Circular on the Cancellation of the Fifth Batch of Administrative Approval Items, pursuant to which foreign ownership in a professional insurance intermediary in excess of 25% only requires a filing to be made with the relevant authorities and no longer requires prior approval. Accordingly, in October 2011 we commenced a restructuring of our Company which resulted in us obtaining direct controlling equity ownership in all of our insurance intermediary companies. See “Item 4. Information on the Company — C. Organizational Structure.”

However, there remains uncertainty regarding the interpretation and implementation of the relevant regulations and the timing of the restructuring process. In addition, restrictions by PRC laws and regulations on foreign investments in and ownership of internet businesses still exists. Therefore, we conduct a small part of our operations in China through contractual arrangements among our PRC subsidiaries and consolidated affiliated entities (namely

Yihe Investment, Xinbao Investment and their subsidiaries and Dianliang Information, the holding company of eHuzhu.com, an online non-profit mutual aid platform that we launched in July 2014). The subsidiaries of our consolidated affiliated entities hold the licenses and permits necessary to conduct our online operations in China. Our contractual arrangements with our consolidated affiliated entities and their shareholders enable us to:

- exercise effective control over our consolidated affiliated entities;
- have an exclusive option to purchase part of the equity interests in each of our consolidated affiliated entities when and to the extent permitted by PRC law; and/or
- receive a substantial portion of the economic benefits from our consolidated affiliated entities in consideration for the services provided by our subsidiaries in China.

Because of these contractual arrangements, we are the primary beneficiary of our consolidated affiliated entities and have consolidated them into our consolidated financial statements. If we, our PRC subsidiaries and consolidated affiliated entities are found to be in violation of any existing or future PRC laws or regulations, or fail to obtain or maintain any of the required permits or approvals, the relevant PRC regulatory authorities, including the CIRC, will have broad discretion in dealing with such violations, including:

- revoking the business and operating licenses of our PRC subsidiaries and consolidated affiliated entities;
- restricting or prohibiting any related-party transactions among our PRC subsidiaries and consolidated affiliated entities;
- imposing fines or other requirements with which we, our PRC subsidiaries or our consolidated affiliated entities may not be able to comply;
- requiring us, our PRC subsidiaries or our consolidated affiliated entities to restructure the relevant ownership structure or operations; or
- restricting or prohibiting us from providing additional funding for our business and operations in China.

Any of these or similar actions could cause disruptions to our business, as well as reduce our revenues, profitability and cash flows. In addition, if any of these actions results in our inability to direct the activities of our consolidated affiliated entities and their subsidiaries that most significantly impact their economic performance, and/or such actions prevent us from receiving the economic benefits from our consolidated variable interest entities, we may not be able to consolidate the financial results of these variable interest entities into our consolidated financial statements in accordance with U.S. GAAP.

In January 2015, the Ministry of Commerce, or the MOC, published a draft of the proposed Foreign Investment Law, which expands the definition of foreign investment and introduces the principle of “actual control” in determining whether a company is considered a foreign-invested enterprise, or an FIE. The draft Foreign Investment Law specifically provides that entities established in China but “controlled” by foreign investors will be treated as FIEs, whereas an entity set up in a foreign jurisdiction would nonetheless be, upon market entry clearance by the MOC, treated as a PRC domestic investor provided that the entity is “controlled” by PRC entities and/or citizens. In this connection, “control” is broadly defined in the draft law to cover the following summarized categories: (i) holding 50% or more of the voting rights of the subject entity; (ii) holding less than 50% of the voting rights of the subject entity but having the power to secure at least 50% of the seats on the board or other equivalent decision making bodies, or having the voting power to exert material influence on the board, the shareholders’ meeting or other equivalent decision making bodies; or (iii) having the power to exert decisive influence, via contractual or trust arrangements, over the subject entity’s operations, financial matters or other key aspects of business operations. Once an entity is determined to be an FIE, it will be subject to the foreign investment restrictions or prohibitions set forth in a “negative list,” to be separately issued by the State Council later, if the FIE is engaged in the industry listed in the negative list. Unless the underlying business of the FIE falls within the negative list, which calls for market entry clearance by the MOC, prior approval from the government authorities as mandated by the existing foreign investment legal regime would no longer be required for establishment of the FIE.

There is substantial uncertainty regarding the draft Foreign Investment Law, including, the content of its final form and the timing of its adoption and implementation. It is uncertain whether the internet industry or online operation,

in which our variable interest entities operate, will be subject to the foreign investment restrictions or prohibitions set forth in the “negative list” to be issued. If the enacted version of the Foreign Investment Law and the final “negative list” mandate further actions, such as MOC market entry clearance, to be completed by companies with existing VIE structure like us, we face uncertainties as to whether such clearance can be timely obtained, or at all.

We rely on contractual arrangements with our consolidated affiliated entities and their shareholders to conduct part of our China operations, which may not be as effective in providing operational control as direct ownership.

Although we have obtained full ownership in Meidiya Investment Co. Ltd., and its subsidiaries, the organizational restructuring is still an ongoing process and we have relied and expect to continue to rely on contractual arrangements with our PRC consolidated affiliated entities and individual shareholders to operate part of our business in China. For a description of these contractual arrangements, see “Item 4. Information on the Company — C.Organizational Structure.” These contractual arrangements may not be as effective in providing us with control over our consolidated affiliated entities as direct ownership.

If we had direct controlling ownership of our consolidated affiliated entities, we would be able to exercise our rights as a controlling shareholder to effect changes in the board of directors of these entities, which in turn could effect changes, subject to any applicable fiduciary obligations, at the management level. But under the current contractual arrangements, as a legal matter, if our consolidated affiliated entities and their shareholders fails to perform their obligations under these contractual arrangements, we may have to incur substantial costs and expend significant resources to enforce such arrangements and rely on legal remedies under PRC law, including seeking specific performance or injunctive relief and claiming damages, which may not be effective. For example, if the shareholders of our consolidated affiliated entities were to refuse to transfer their equity interest in such entities to us or our designee when we exercise the call option pursuant to these contractual arrangements, or if they were otherwise to act in bad faith toward us, then we may have to take legal action to compel them to fulfill their contractual obligations.

All of our contractual arrangements with our consolidated affiliated entities and their individual shareholders are governed by PRC law and provide for the resolution of disputes through arbitration in the PRC. Accordingly, these contracts would be interpreted in accordance with PRC law and any disputes would be resolved in accordance with PRC legal procedures. The legal environment in the PRC is not as developed as in some other jurisdictions, such as the United States. As a result, uncertainties in the PRC legal system could limit our ability to enforce these contractual arrangements. In the event we are unable to enforce these contractual arrangements, we may not be able to exert effective control over our consolidated affiliated entities, and our ability to conduct our business may be negatively affected.

The individual shareholders of Yihe Investment, Xinbao Investment and Dianliang Information, our consolidated affiliated entities, may have potential conflicts of interest with us, which may materially and adversely affect our business and financial condition.

As of March 31, 2015, Mr. Qiuping Lai and Mr. Peng Ge together held 80% in Yihe Investment, Mr. Chunlin Wang and Mr. Yuan Tian together held 100% of the equity interest in Xinbao Investment, and Mr. Rannuo Hu, held 100% of the equity interest in Dianliang Information. Conflicts of interest may arise between the dual roles of Mr. Qiuping Lai, Mr. Peng Ge, Mr. Chunlin Wang, Mr. Yuan Tian and Mr. Rannuo Hu as a shareholder of our consolidated affiliated entities and as an executive officer or employee of our company. We do not have existing arrangements to address these potential conflicts of interest and cannot assure you that when conflicts arise, those individuals will act in the best interest of our company or that conflicts will be resolved in our favor.

Contractual arrangements we have entered into with our consolidated affiliated entities may be subject to scrutiny by the PRC tax authorities. A finding that we owe additional taxes could substantially reduce our consolidated net income and the value of your investment.

Under PRC laws and regulations, arrangements and transactions among related parties may be subject to audit or challenge by the PRC tax authorities. We could face material and adverse tax consequences if the PRC tax authorities determine that the contractual arrangements between us and our consolidated affiliated entities are not on an arm’s-length basis and adjust the income of our consolidated affiliated entities in the form of a transfer pricing adjustment. Particularly, the State Administration of Taxation issued a Public Notice, or Public Notice 16, on March 18, 2015, to further regulate and strengthen the transfer pricing administration on outbound payments by a PRC enterprise to its overseas related parties. In addition to emphasizing that outbound payments by a PRC enterprise to its overseas related parties must comply with arm’s-length principles, Public Notice 16 specifies certain

circumstances whereby such payments are not deductible for the purpose of the enterprise income tax of the PRC enterprise, including payments to an overseas related party which does not undertake any function, bear any risk or has no substantial operation or activities, payments for services which do not enable the PRC enterprise to obtain direct or indirect economic benefits, or for services that are unrelated to the functions and risks borne by the PRC enterprise, or relate to the protection of the investment interests of the direct or indirect investor of the PRC enterprise, or for services that have already been purchased from a third party or undertaken by the PRC enterprise itself, and royalties paid to an overseas related party which only owns the legal rights of the intangible assets but has no contribution to the creation of such intangible assets. Although we believe all our related party transactions, including all payments by our PRC subsidiaries and consolidated affiliated entities to our non-PRC entities, are made on an arm's-length basis and our estimates are reasonable, the ultimate decisions by the relevant tax authorities may differ from the amounts recorded in our financial statements and may materially affect our financial results in the period or periods for which such determination is made. A transfer pricing adjustment could, among other things, result in a reduction, for PRC tax purposes, of expense deductions recorded by our consolidated affiliated entities, which could in turn increase their respective tax liabilities. Moreover, the PRC tax authorities may impose penalties on our consolidated affiliated entities for underpayment of taxes. Our consolidated net income may be materially and adversely affected by the occurrence of any of the foregoing.

PRC regulation of loans and direct investment by offshore holding companies to PRC entities may delay or prevent us from making loans to our PRC subsidiaries and consolidated affiliated entities or making additional capital contributions to our PRC subsidiaries, which could materially and adversely affect our liquidity and our ability to fund and expand our business.

We are an offshore holding company conducting our operations in China through PRC subsidiaries and consolidated affiliated entities. In order to provide additional funding to our PRC subsidiaries and consolidated affiliated entities, we may make loans to our PRC subsidiaries and consolidated affiliated entities, or we may make additional capital contributions to our PRC subsidiaries.

Any loans we make to any of our directly-held PRC subsidiaries (which are treated as foreign-invested enterprises under PRC law), CNinsure Zhonglian Enterprise Image Planning (Shenzhen) Co., Ltd. (also known as Fanhua Zhonglian Enterprise Image Planning (Shenzhen) Co., Ltd.), or Zhonglian Enterprise, CNinsure Xinlian Information Technology Consulting (Shenzhen) Co., Ltd. (also known as Fanhua Xinlian Information Technology Consulting (Shenzhen) Co., Ltd.), or Xinlian Information, and Bao Si Kang Information Technology (Shenzhen) Co., Ltd., or Bao Si Kang Information, cannot exceed statutory limits and must be registered with the State Administration of Foreign Exchange, or the SAFE, or its local counterparts. Under applicable PRC law, the Chinese regulators must approve the amount of a foreign-invested enterprise's registered capital, which represents shareholders' equity investments over a defined period of time, and the foreign-invested enterprise's total investment, which represents the total of the company's registered capital plus permitted loans. The registered capital/total investment ratio cannot be lower than the minimum statutory requirement and the excess of the total investment over the registered capital represents the maximum amount of borrowings that a foreign-invested enterprise is permitted to have under PRC law. Our directly-held PRC subsidiaries were allowed to incur a total of HK\$300 million (US\$48.4 million) in foreign debts as of March 31, 2015. If we were to provide loans to our directly-held PRC subsidiaries in excess of the above amount, we would have to apply to the relevant government authorities for an increase in their permitted total investment amounts. The various applications could be time-consuming and their outcomes would be uncertain. Concurrently with the loans, we might have to make capital contributions to these subsidiaries in order to maintain the statutory minimum registered capital/total investment ratio, and such capital contributions involve uncertainties of their own, as discussed below. Furthermore, even if we make loans to our directly-held PRC subsidiaries that do not exceed their current maximum amount of borrowings, we will have to register each loan with the SAFE or its local counterpart within 15 days after the signing of the relevant loan agreement. Subject to the conditions stipulated by the SAFE, the SAFE or its local counterpart will issue a registration certificate of foreign debts to us within 20 days after reviewing and accepting our application. In practice, it may take longer to complete such SAFE registration process.

Any loans we make to any of our indirectly-held PRC subsidiaries (those PRC subsidiaries which we hold indirectly through Zhonglian Enterprise, Xinlian Information and Bao Si Kang Information) or to any of our PRC consolidated affiliated entities, all of which are treated as PRC domestic companies rather than foreign-invested enterprises under PRC law, are also subject to various PRC regulations and approvals. Under applicable PRC regulations, medium- and long-term international commercial loans to PRC domestic companies are subject to approval by the National Development and Reform Commission. Short-term international commercial loans to PRC domestic companies are subject to the balance control system effected by the SAFE. Due to the above restrictions,

we are not likely to make loans to any of our indirectly-held PRC subsidiaries or to any of our consolidated affiliated entities.

Any capital contributions we make to our PRC subsidiaries, including directly-held and indirectly-held PRC subsidiaries, must be approved by the PRC Ministry of Commerce or its local counterparts, and registered with the SAFE or its local counterparts. Such applications and registrations could be time consuming and their outcomes would be uncertain.

We cannot assure you that we will be able to complete the necessary government registrations or obtain the necessary government approvals on a timely basis, if at all, with respect to future loans by us to our PRC subsidiaries or PRC consolidated affiliated entities, or with respect to future capital contributions by us to our PRC subsidiaries. If we fail to complete such registrations or obtain such approvals, our ability to capitalize or otherwise fund our PRC operations may be negatively affected, which could adversely and materially affect our liquidity and our ability to fund and expand our business.

On August 29, 2008, SAFE promulgated Circular 142, a notice regulating the conversion by a foreign-invested company of its capital contribution in foreign currency into RMB. The notice requires that the capital of a foreign-invested company settled in RMB converted from foreign currencies shall be used only for purposes within the business scope as approved by the authorities in charge of foreign investment or by other government authorities and as registered with the State Administration for Industry and Commerce and, unless set forth in the business scope or in other regulations, may not be used for equity investments within the PRC. In addition, SAFE strengthened its oversight of the flow and use of the capital of a foreign-invested company settled in RMB converted from foreign currencies. The use of such RMB capital may not be changed without SAFE's approval, and may not in any case be used to repay RMB loans if the proceeds of such loans have not been used. Violations of Circular 142 will result in severe penalties, including heavy fines. As a result, Circular 142 may significantly limit our ability to provide additional funding to our PRC subsidiaries and consolidated affiliated entities through our directly-held PRC subsidiaries in the PRC, which may adversely affect our ability to expand our business.

However, on March 30, 2015, SAFE promulgated Circular 19, a notice on reforming the administrative approach regarding the settlement of the foreign exchange capitals of foreign-invested enterprises, which will become effective on June 1, 2015. The new notice states that foreign-invested enterprises shall be allowed to settle their foreign exchange capitals on a discretionary basis. The discretionary settlement by a foreign-invested enterprise of its foreign exchange capital shall mean that the foreign-invested enterprise may, according to its actual business needs, settle with a bank the portion of the foreign exchange capital in its capital account for which the relevant foreign exchange bureau has confirmed monetary contribution rights and interests (or for which the bank has registered the account-crediting of monetary contribution). For the time being, foreign-invested enterprises are allowed to settle 100% of their foreign exchange capitals on a discretionary basis. The SAFE may adjust the foregoing percentage as appropriate according to balance of payments situations. As a result, Circular 19 will relax the limitation of our ability to provide additional funding to our PRC subsidiaries and consolidated affiliated entities through our directly-held PRC subsidiaries in the PRC.

Risks Related to Doing Business in China

Adverse changes in economic and political policies of the PRC government could have a material adverse effect on the overall economic growth of China, which could adversely affect our business.

Substantially all of our business operations are conducted in China. Accordingly, our results of operations, financial condition and prospects are subject to a significant degree to economic, political and legal developments in China. China's economy differs from the economies of most developed countries in many respects, including with respect to the amount of government involvement, level of development, growth rate, control of foreign exchange and allocation of resources. While the PRC economy has experienced significant growth in the past 30 years or so, growth has been uneven across different regions and among various economic sectors of China. The PRC government has implemented various measures to encourage economic development and guide the allocation of resources. While some of these measures benefit the overall PRC economy, they may also have a negative effect on us. For example, our financial condition and results of operations may be adversely affected by government control over capital investments or changes in tax regulations that are applicable to us.

Although the PRC government has implemented measures since the late 1970s emphasizing the utilization of market forces for economic reform, the reduction of state ownership of productive assets and the establishment of improved corporate governance in business enterprises, the PRC government still owns a substantial portion of

productive assets in China. In addition, the PRC government continues to play a significant role in regulating industry development by imposing industrial policies. The PRC government also exercises significant control over China's economic growth through the allocation of resources, controlling payment of foreign currency-denominated obligations, setting monetary policy and providing preferential treatment to particular industries or companies. Actions and policies of the PRC government could materially affect our ability to operate our business.

Uncertainties with respect to the PRC legal system could adversely affect us.

We conduct our business primarily through our subsidiaries and consolidated affiliated entities in China. Our operations in China are governed by PRC laws and regulations. Our subsidiaries are generally subject to laws and regulations applicable to foreign investments in China and, in particular, laws applicable to wholly foreign-owned enterprises. The PRC legal system is based on written statutes. Prior court decisions may be cited for reference but have limited precedential value.

Although since 1979, PRC legislation and regulations have significantly enhanced the protections afforded to various forms of foreign investments in China, China has not developed a fully integrated legal system, and recently enacted laws and regulations may not sufficiently cover all aspects of economic activities in China. In particular, because these laws and regulations are relatively new, and because of the limited volume of published decisions and their nonbinding nature, the interpretation and enforcement of these laws and regulations involve uncertainties. In addition, the PRC legal system is based in part on government policies and internal rules (some of which are not published on a timely basis or at all) that may have a retroactive effect. As a result, we may not be aware of our violation of these policies and rules until some time after the violation. In addition, any litigation in China may be protracted and result in substantial costs and diversion of resources and management attention.

Governmental control of currency conversion may affect the value of your investment.

The PRC government imposes controls on the convertibility of the RMB into foreign currencies and, in certain cases, the remittance of currency out of China. Under existing PRC foreign exchange regulations, payments of current account items, including profit distributions, interest payments and expenditures from trade-related transactions, can be made in foreign currencies without prior approval from the SAFE by complying with certain procedural requirements. But approval from appropriate government authorities is required where RMB is to be converted into foreign currency and remitted out of China to pay capital expenses such as the repayment of loans denominated in foreign currencies. The PRC government may also at its discretion restrict access in the future to foreign currencies for current account transactions. Under our current corporate structure, the primary source of our income at the holding company level is dividend payments from our PRC subsidiaries. Shortages in the availability of foreign currency may restrict the ability of our PRC subsidiaries and our consolidated affiliated entities to remit sufficient foreign currency to pay dividends or other payments to us, or otherwise satisfy their foreign currency denominated obligations. If the foreign exchange control system prevents us from obtaining sufficient foreign currency to satisfy our currency needs, we may not be able to pay dividends in foreign currencies to our shareholders, including holders of our ADSs.

The PRC Enterprise Income Tax Law may increase the enterprise income tax rate applicable to some of our PRC subsidiaries and consolidated affiliated entities, which could have a material adverse effect on our result of operations.

According to the PRC Enterprise Income Tax Law, or the EIT Law, which became effective on January 1, 2008, as further clarified by subsequent tax regulations implementing the EIT Law, foreign-invested enterprises and domestic enterprises are subject to enterprise income tax, or EIT, at a uniform rate of 25%, unless otherwise provided. Enterprises that were established and enjoyed preferential tax treatments before March 16, 2007 will continue to enjoy such preferential tax treatments in the following manners: (1) in the case of preferential tax rates, for a five-year transition period starting from January 1, 2008, during which the EIT rate of such enterprises will gradually increase to the uniform 25% EIT rate by January 1, 2012; or (2) in the case of preferential tax exemption or reduction with a specified term, until the expiration of such term. However, if such an enterprise has not enjoyed the preferential treatments yet because of its failure to make a profit, its term for preferential treatments will be deemed to start from 2008.

As a result of the implementation of the EIT Law, certain preferential tax treatments enjoyed by some of our consolidated affiliated entities expired on January 1, 2008. According to the EIT Law and related regulations, the preferential tax rates enjoyed by some of our PRC subsidiaries and consolidated affiliated entities incorporated in Shenzhen, a special economic zone, will gradually increase to the uniform 25% EIT rate during the five year

transition period. An increase in the EIT rates for those entities pursuant to the EIT Law could result in an increase in our effective tax rate, which could materially and adversely affect our results of operations.

Our global income or the dividends we receive from our PRC subsidiaries may be subject to PRC tax under the EIT Law, which could have a material adverse effect on our results of operations.

Under the EIT Law, an enterprise established outside of the PRC with “de facto management bodies” within the PRC is considered a resident enterprise and will be subject to the EIT at the rate of 25% on its worldwide income. The Implementation Rules of the EIT Law, or the Implementation Rules, define the term “de facto management bodies” as “establishments that carry out substantial and overall management and control over the manufacturing and business operations, personnel, accounting, properties, etc. of an enterprise.” If we are deemed a resident enterprise, we may be subject to the EIT at 25% on our global income, except that the dividends we receive from our PRC subsidiary will be exempt from the EIT. If we are considered a resident enterprise and earn income other than dividends from our PRC subsidiaries, a 25% EIT on our global income could significantly increase our tax burden and materially and adversely affect our cash flow and profitability.

We have been advised by our PRC counsel, Global Law Office, that pursuant to the EIT Law and the Implementation Rules, dividends payable by a foreign-invested enterprise in China to its foreign investors will be subject to a 10% withholding tax, unless any such foreign investor’s jurisdiction of incorporation has a tax treaty with China that provides for a different withholding arrangement. Pursuant to the Arrangement between the PRC and the Hong Kong Special Administrative Region on the Avoidance of Double Taxation and Prevention of Fiscal Evasion, or the Double Taxation Arrangement, which became effective on January 1, 2007, dividends from our PRC subsidiaries paid to us through our Hong Kong subsidiary InsCom HK Limited, in which we indirectly hold a 65.1% equity interest, may be subject to a withholding tax at a rate of 5%. The British Virgin Islands, where our wholly-owned subsidiary and the 100% shareholder of Zhonglian Enterprise and Xinlian Information is incorporated, does not have such a tax treaty with China. Under the EIT Law and the Implementation Rules, if we are regarded as a resident enterprise, the dividends we receive from our PRC subsidiaries will be exempt from the EIT. If, however, we are not regarded as a resident enterprise, our PRC subsidiaries will be required to pay a 5% or 10% withholding tax, as the case may be, for any dividends they pay to us. As a result, the amount of fund available to us to meet our cash requirements, including the payment of dividends to our shareholders and ADS holders, could be materially reduced.

Under the EIT Law, dividends payable by us and gains on the disposition of our shares or ADSs could be subject to PRC taxation.

We have been advised by our PRC counsel, Global Law Office, that because there remains uncertainty regarding the interpretation and implementation of the EIT Law and its Implementation Rules, it is uncertain whether any dividends to be distributed by us, if we are regarded as a PRC resident enterprise, to our non-PRC shareholders and ADS holders would be subject to any PRC withholding tax. If we are required under the EIT Law to withhold PRC income tax on our dividends payable to our non-PRC corporate shareholders and ADS holders, or if gains on the disposition of our shares or ADSs are subject to the PRC EIT, your investment in our ADSs or ordinary shares may be materially and adversely affected.

We rely principally on dividends and other distributions on equity paid by our subsidiaries to fund any cash and financing requirements we may have, and any limitation on the ability of our subsidiaries to make payments to us could have a material adverse effect on our ability to conduct our business.

We are a holding company, and we rely principally on dividends from our subsidiaries in China and service, license and other fees paid to our subsidiaries by our consolidated affiliated entities for our cash requirements, including any debt we may incur. Current PRC regulations permit our PRC subsidiaries to pay dividends to us only out of their accumulated profits, if any, determined in accordance with PRC accounting standards and regulations. In addition, each of our PRC subsidiaries is required to set aside at least 10% of its after-tax profits each year as reported in its PRC statutory financial statements, if any, to fund a statutory reserve until such reserve reaches 50% of its registered capital. In addition, each of our PRC subsidiaries that are considered foreign-invested enterprises is required to further set aside a portion of its after-tax profits as reported in its PRC statutory financial statements to fund the employee welfare fund at the discretion of its board. These reserves are not distributable as cash dividends. As of December 31, 2014, the total retained earnings of our PRC subsidiaries available for dividend distributions were RMB2.0 billion (US\$317.1 million). Furthermore, if our subsidiaries and consolidated affiliated entities in China incur debt on their own behalf in the future, the instruments governing the debt may restrict their ability to pay dividends or make other payments to us. In addition, the PRC tax authorities may require us to adjust our

taxable income under the contractual arrangements we currently have in place in a manner that would materially and adversely affect our subsidiaries' ability to pay dividends and other distributions to us. Any limitation on the ability of our subsidiaries and consolidated affiliated entities to distribute dividends or other payments to us could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our businesses, pay dividends, or otherwise fund and conduct our business.

PRC regulations relating to the establishment of offshore special purpose companies by PRC residents and employee stock options granted by overseas-listed companies may increase our administrative burden, restrict our overseas and cross-border investment activity, or otherwise adversely affect us. If our shareholders who are PRC residents, or our PRC employees who are granted or exercise stock options, fail to make any required registrations or filings under such regulations, we may be unable to distribute profits and may become subject to liability under PRC laws.

On October 21, 2005, the SAFE issued a Notice on Relevant Issues Concerning Foreign Exchange Administration for PRC Residents to Engage in Financing and Inbound Investment via Overseas Special Purpose Vehicles, generally known in China as SAFE Circular 75, requiring PRC residents to register with the local SAFE branch before establishing or controlling any company outside of China, referred to in the notice as an "offshore special purpose company," for the purpose of raising capital backed by assets or equities of PRC companies. PRC residents that are shareholders of offshore special purpose companies established before November 1, 2005 were required to register with the local SAFE branch before March 31, 2006. On July 4, 2014, the SAFE issued the Notice on the Administration of Foreign Exchange Involved in Overseas Investment, Financing and Return on Investment Conducted by PRC Residents via Special-Purpose Companies, or SAFE Circular 37, simultaneously repealing SAFE Circular 75. SAFE Circular 37 also requires PRC residents to register with relevant Foreign Exchange Bureau for foreign exchange registration of overseas investment before making contribution to a special purpose company, or SPC,

with legitimate holdings of domestic or overseas assets or interests. See "Item 4. Information on the Company — B. Business Overview — Regulation — Regulations on Foreign Exchange — Foreign Exchange Registration of Offshore Investment by PRC Residents."

We have requested our beneficial owners who to our knowledge are PRC residents to make the necessary applications, filings and amendments as required under SAFE Circular 37 and other related rules. We attempt to comply, and attempt to ensure that our beneficial owners who are subject to these rules comply with the relevant requirements. However, we cannot assure you that all of our beneficial owners who are PRC residents will comply with our request to make or obtain any applicable registrations or comply with other requirements under SAFE Circular 37 or other related rules. The failure of these beneficial owners to timely amend their SAFE registrations pursuant to SAFE Circular 37 or the failure of future beneficial owners of our company who are PRC residents to comply with the registration procedures set forth in SAFE Circular 37 may subject such beneficial owners to fines and legal sanctions and may also limit our ability to contribute capital into our PRC subsidiaries, limit our PRC subsidiaries' ability to distribute dividends to our company or otherwise adversely affect our business.

On December 25, 2006, the People's Bank of China, or the PBOC, promulgated the Measures for the Administration of Individual Foreign Exchange, and on January 5, 2007, the SAFE further promulgated implementation rules for those measures. We refer to these regulations collectively as the Individual Foreign Exchange Rules. The Individual Foreign Exchange Rules became effective on February 1, 2007. According to these regulations, PRC citizens who are granted shares or share options by a company listed on an overseas stock market according to its employee share option or share incentive plan are required, through the PRC subsidiary of such overseas listed company or any other qualified PRC agent, to register with the SAFE and to complete certain other procedures related to the share option or other share incentive plan. Foreign exchange income received from the sale of shares or dividends distributed by the overseas listed company may be remitted into a foreign currency account of such PRC citizen or be exchanged into Renminbi. Our PRC citizen employees who have been granted share options became subject to the Individual Foreign Exchange Rules upon the listing of our ADSs on the Nasdaq stock exchange.

On February 15, 2012, SAFE promulgated the Notice of the State Administration of Foreign Exchange on Issues Related to Foreign Exchange Administration in Domestic Individuals' Participation in Equity Incentive Plans of Companies Listed Abroad, or the No. 7 Notice, which supersedes the Operation Rules on Foreign Exchange Administration for Domestic Individuals Participating in Employee Stock Holding Plan or Stock Option Plan of Overseas-Listed Company, or the Stock Option Rule, in its entirety and immediately became effective upon circulation. According to the No. 7 Notice, domestic individuals, which include any directors, supervisors, senior

managerial personnel or other employees of a domestic company who are Chinese citizens (including citizens of Hong Kong, Macao and Taiwan) or foreign individuals who consecutively reside in the territory of RPC for one year, who participate in the same equity incentive plan of an overseas listed company shall, through the domestic companies they serve, collectively entrust a domestic agency to handle issues like foreign exchange registration, account opening, funds transfer and remittance, and entrust an overseas institution to handle issues like exercise of options, purchasing and sale of related stocks or equity, and funds transfer. As an overseas publicly listed company, we and our employees who have been granted stock options or any type of equity awards may be subject to the No. 7 Notice. If we or our employees who are subject to the No. 7 Notice fail to comply with these regulations, we may be subject to fines and legal sanctions. See “Item 4. Information on the Company — B. Business Overview — Regulation — Regulations on Foreign Exchange — SAFE Regulations on Employee Share Options.”

Fluctuation in the value of the RMB may have a material adverse effect on your investment.

The value of the RMB against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in political and economic conditions. On July 21, 2005, the PRC government changed its decade-old policy of pegging the value of the RMB to the U.S. dollar. Under the new policy, the PRC government allowed the RMB to appreciate by more than 20% against the U.S. dollar between July 2005 and July 2008. Between July 2008 and June 2010, this appreciation halted and the exchange rate between the RMB and the U.S. dollar remained within a narrow band. Since June 2010, the PRC government has allowed the RMB to appreciate slowly against the U.S. dollar again, though there have been periods when the U.S. dollar has appreciated against the Renminbi as well. It is difficult to predict how market forces or PRC or U.S. government policy may impact the exchange rate between the RMB and the U.S. dollar in the future.

Our revenues and costs are mostly denominated in the RMB, and a significant portion of our financial assets are also denominated in RMB. We rely entirely on dividends and other fees paid to us by our subsidiaries and consolidated affiliated entities in China. Any significant appreciation or depreciation of the RMB against the U.S. dollar may affect our cash flows, revenues, earnings and financial position, and the value of, and any dividends payable on, our ADSs in U.S. dollars. For example, a further appreciation of the RMB against the U.S. dollar would make any new RMB-denominated investments or expenditures more costly to us, to the extent that we need to convert U.S. dollars into RMB for such purposes. An appreciation of the RMB against the U.S. dollar would also result in foreign currency translation losses for financial reporting purposes when we translate our U.S. dollar denominated financial assets into the RMB, as the RMB is our reporting currency. Conversely, a significant depreciation of the RMB against the U.S. dollar may significantly reduce the U.S. dollar equivalent of our reported earnings, and may adversely affect the price of our ADSs.

The approval of the China Securities Regulatory Commission, or the CSRC, may have been required in connection with our initial public offering in October 2007 under a PRC regulation adopted in August 2006. Based on the advice of our PRC counsel, we did not seek CSRC’s approval for our initial public offering. Any requirement to obtain prior CSRC approval and a failure to obtain this approval, if required, could have a material adverse effect on our business, operating results, reputation and trading price of our ADSs.

On August 8, 2006, six PRC regulatory agencies, namely, the PRC Ministry of Commerce, the State Assets Supervision and Administration Commission, the State Administration for Taxation, the State Administration for Industry and Commerce, the CSRC and the SAFE, jointly adopted the Regulations on Mergers and Acquisitions of Domestic Enterprises by Foreign Investors, or the M&A Rule, which became effective on September 8, 2006 and was revised by the PRC Ministry of Commerce on June 22, 2009. These regulations purport, among other things, to require offshore special purpose vehicles, or SPVs, formed for overseas listing purposes and controlled by PRC companies or individuals to obtain the approval of the CSRC prior to publicly listing their securities on an overseas stock exchange. On September 21, 2006, the CSRC published a notice on its official website specifying documents and materials required to be submitted to it by SPVs seeking CSRC approval of their overseas listings.

At the time of our initial public offering in October 2007, while the application of the new regulations remained unclear, our then PRC counsel, Commerce & Finance Law Offices, advised us that, based on their understanding of the PRC laws and regulations effective at that time as well as the procedures announced on September 21, 2006:

- the CSRC had jurisdiction over our offering;
- the CSRC by then had not issued any definitive rule or interpretation concerning whether offerings like our initial public offering were subject to this new procedure; and

- despite the above, given that we had completed our inbound investment before September 8, 2006, the effective date of the M&A Rule, an application was not required under the M&A Rule to be submitted to the CSRC for its approval of the listing and trading of our ADSs on the Nasdaq Global Market, unless we were clearly required to do so by subsequent rules of the CSRC.

Our PRC counsel, Global Law Office, fundamentally identifies with the advice on the application of the new regulations given by our then PRC counsel, Commerce & Finance Law Offices at the time of our initial public offering. Based on advice of our PRC counsel, we did not seek CSRC's approval for our initial public offering. We, however, cannot assure you that the relevant PRC government agencies, including the CSRC, would have reached the same conclusion as our PRC counsel. If the CSRC or other PRC regulatory agencies subsequently determine that the CSRC's approval was required for our initial public offering, we may face sanctions by the CSRC or other PRC regulatory agencies. In such event, these regulatory agencies may impose fines and penalties on our operations in the PRC, limit our operating privileges in the PRC, or take other actions that could have a material adverse effect on our business, financial condition, results of operations, reputation and prospects, as well as the trading price of our ADSs.

The regulation discussed above could also make it more difficult for us to pursue growth through acquisitions.

The regulation discussed in the preceding risk factor also established additional procedures and requirements that could make merger and acquisition activities by foreign investors more time-consuming and complex, including requirements in some instances that the Ministry of Commerce be notified in advance of any change-of-control transaction in which a foreign investor takes control of a PRC domestic enterprise. To date, we have conducted our acquisitions in China exclusively through our PRC consolidated affiliated entities. In the future, we may grow our business in part by directly acquiring complementary businesses rather than through our PRC consolidated affiliated entities. Complying with the requirements of the new regulations to complete such transactions could be time consuming, and any required approval processes, including obtaining approval from the Ministry of Commerce, may prevent us from completing such transactions on a timely basis, or at all, which could affect our ability to expand our business or maintain our market share.

The PRC Labor Contract Law and its implementing rules may adversely affect our business and results of operations.

On June 29, 2007, the Standing Committee of the National People's Congress of China enacted the Labor Contract Law, which became effective on January 1, 2008. On September 18, 2008, the State Council adopted the implementing rules for the Labor Contract Law, which became effective upon adoption. On December 28, 2012, the Standing Committee of the National People's Congress of China promulgated the Decision on Revising the Labor Contract Law, which became effective on July 1, 2013. The Labor Contract Law and its implementing rules together with the aforesaid revising decision impose and will impose greater liabilities on employers and significantly affect the cost of an employer's decision to reduce its workforce. In the event that we decide to significantly reduce our workforce, the Labor Contract Law and its implementing rules together with the aforesaid revising decision could adversely affect our ability to effect these changes cost-effectively or in the manner we desire, which could lead to a negative impact on our business and results of operations.

Risks Related to Our ADSs

The market price for our ADSs may be volatile.

The market price for our ADSs may be volatile and subject to wide fluctuations in response to factors including the following:

- actual or anticipated fluctuations in our quarterly operating results;
- changes in financial estimates by securities research analysts;
- conditions in the Chinese insurance industry;
- changes in the economic performance or market valuations of other insurance intermediaries;

- announcements by us or our competitors of new products, acquisitions, strategic partnerships, joint ventures or capital commitments;
- addition or departure of key personnel;
- fluctuations of exchange rates between the RMB and U.S. dollar or other foreign currencies;
- potential litigation or administrative investigations;
- sales of additional ADSs; and
- general economic or political conditions in China and abroad.

In addition, the securities market has from time to time experienced significant price and volume fluctuations that are not related to the operating performance of particular companies. These market fluctuations may also materially and adversely affect the market price of our ADSs.

We may need additional capital, and the sale of additional ADSs or other equity securities could result in additional dilution to our shareholders.

We believe that our current cash and cash equivalents and anticipated cash flow from operations will be sufficient to meet our anticipated cash needs for the foreseeable future. We may, however, require additional cash resources due to changed business conditions or other future developments, including any investments or acquisitions we may decide to pursue. If these resources are insufficient to satisfy our cash requirements, we may seek to sell additional equity or debt securities or obtain a credit facility. The sale of additional equity securities could result in additional dilution to our shareholders. The incurrence of indebtedness would result in increased debt service obligations and could result in operating and financing covenants that would restrict our operations. We cannot assure you that financing will be available in amounts or on terms acceptable to us, if at all.

Substantial future sales of our ordinary shares or ADSs, or the perception that these sales could occur, could cause the price of our ADSs to decline.

Additional sales of our ADSs in the public market, or the perception that these sales could occur, could cause the market price of our ADSs to decline. If any existing shareholder or shareholders sell a substantial amount of ordinary shares in the form of ADSs, the market price of our ADSs could decline. In addition, we may issue additional ordinary shares as considerations for future acquisitions. If we do so, your ownership interests in our company would be diluted and this in turn could have an adverse effect on the price of our ADSs.

Our corporate actions are substantially controlled by our officers, directors and principal shareholders.

As of March 31, 2015, our executive officers, directors and principal shareholders beneficially owned approximately 47.2% of our outstanding shares. These shareholders could exert substantial influence over matters requiring approval by our shareholders, including electing directors and approving mergers or other business combination transactions, and they may not act in the best interests of other noncontrolling shareholders. This concentration of our share ownership also may discourage, delay or prevent a change in control of our company, which could deprive our shareholders of an opportunity to receive a premium for their shares as part of a sale of our company and might reduce the price of our ADSs. These actions may be taken even if they are opposed by our other shareholders.

You may not have the same voting rights as the holders of our ordinary shares and may not receive voting materials in time to be able to exercise your right to vote.

Except as described in this annual report and in the deposit agreement, holders of our ADSs will not be able to exercise voting rights attaching to the shares evidenced by our ADSs on an individual basis. Holders of ADSs may instruct the depositary to exercise the voting rights attaching to the shares represented by the ADSs. If no instructions are received by the depositary on or before a date established by the depositary, the depositary shall deem the holders to have instructed it to give a discretionary proxy to a person designated by us to exercise their voting rights. You may not receive voting materials in time to instruct the depositary to vote, and it is possible that

you, or persons who hold their ADSs through brokers, dealers or other third parties, will not have the opportunity to exercise a right to vote.

You may not be able to participate in rights offerings and may experience dilution of your holdings as a result.

We may from time to time distribute rights to our shareholders, including rights to acquire our securities. Under the deposit agreement for the ADSs, the depository will not offer those rights to ADS holders unless both the rights and the underlying securities to be distributed to ADS holders are either registered under the Securities Act of 1933 or exempt from registration under the Securities Act with respect to all holders of ADSs. We are under no obligation to file a registration statement with respect to any such rights or underlying securities or to endeavor to cause such a registration statement to be declared effective. In addition, we may not be able to take advantage of any exemptions from registration under the Securities Act. Accordingly, holders of our ADSs may be unable to participate in our rights offerings and may experience dilution in their holdings as a result.

You may be subject to limitations on transfer of your ADSs.

Your ADSs are transferable on the books of the depository. However, the depository may close its transfer books at any time or from time to time when it deems expedient in connection with the performance of its duties. In addition, the depository may refuse to deliver, transfer or register transfers of ADSs generally when our books or the books of the depository are closed, or at any time if we or the depository deem it advisable to do so because of any requirement of law or of any government or governmental body, or under any provision of the deposit agreement, or for any other reason.

You may face difficulties in protecting your interests, and your ability to protect your rights through the U.S. federal courts may be limited, because we are incorporated under Cayman Islands law, conduct substantially all of our operations in China and most of our directors and officers reside outside the United States. In addition, Cayman Islands securities laws provide significantly less protection to investors as compared to U.S. laws.

We are incorporated in the Cayman Islands, and conduct substantially all of our operations in China through our wholly owned subsidiaries and consolidated affiliated entities in China. Most of our directors and officers reside outside the United States and some or all of the assets of those persons are located outside of the United States. As a result, it may be difficult for you to effect service of process within the United States or elsewhere outside China upon these persons. It may also be difficult for you to enforce in U.S. courts judgments obtained in U.S. courts based on the civil liability provisions of the U.S. federal securities laws against us and our officers and directors, most of whom are not residents in the United States and some or all of whose assets are located outside of the United States. In addition, there is uncertainty as to whether the courts of the Cayman Islands or the PRC would recognize or enforce judgments of U.S. courts against us or our officers and directors predicated upon the civil liability provisions of the securities laws of the United States or any state. Our PRC counsel has advised us that China does not have treaties with the United States or many other countries providing for the reciprocal recognition and enforcement of judgment of courts. It is also uncertain whether the Cayman Islands or PRC courts would be competent to hear original actions brought in the Cayman Islands or the PRC against us or our officers and directors predicated upon the securities laws of the United States or any state.

Our corporate affairs are governed by our memorandum and articles of association and by the Companies Law (2013 Revision) and common law of the Cayman Islands. The rights of shareholders to take legal action against our directors, actions by noncontrolling shareholders and the fiduciary responsibilities of our directors to us under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as from English common law, which has persuasive, but not binding, authority on a court in the Cayman Islands. The rights of our shareholders and the fiduciary responsibilities of our directors under Cayman Islands law are not as clearly established as they would be under statutes or judicial precedents in the United States. In particular, because Cayman Islands law has no legislation specifically dedicated to the rights of investors in securities, and thus no statutorily defined private causes of action specific to investors in securities such as those found under the Securities Act or the Securities Exchange Act of 1934 in the United States, it provides significantly less protection to investors. In addition, Cayman Islands companies may not have standing to initiate a shareholder derivative action before the federal courts of the United States.

As a result of all of the above, our public shareholders may have more difficulty in protecting their interests through actions against our management, directors or controlling shareholders than would shareholders of a corporation incorporated in a jurisdiction in the United States.

Our auditor is not inspected fully by the Public Company Accounting Oversight Board, or PCAOB and, as such, you are deprived of the benefits of such inspection.

As an auditor of companies that are publicly traded in the United States and a firm registered with the PCAOB, Deloitte Touche Tohmatsu is required by the laws in the United States to undergo regular inspections by PCAOB to assess its compliance with the laws of the United States and the professional standards of the PCAOB. However, because we have substantial operations within the PRC, a jurisdiction where the PCAOB is currently unable to conduct inspections without the approval of the Chinese government authorities, our auditor is not currently inspected fully by the PCAOB.

Inspections of other auditors conducted by the PCAOB outside of China have at times identified deficiencies in those auditors' audit procedures and quality control procedures, which may be addressed as part of the inspection process to improve future audit quality. The lack of PCAOB inspections in China prevents the PCAOB from regularly evaluating our auditor's audits and its quality control procedures. As a result, shareholders may be deprived of the benefits of PCAOB inspections, and may lose confidence in our reported financial information and procedures and the quality of our financial statements.

If additional remedial measures are imposed on the "big four" PRC-based accounting firms, including our independent registered public accounting firm, in administrative proceedings brought by the SEC alleging the firms' failure to meet specific criteria set by the SEC, with respect to requests for the production of documents, we could be unable to timely file future financial statements in compliance with the requirements of the Securities Exchange Act of 1934, as amended, or the Exchange Act.

Starting in 2011 the Chinese affiliates of the "big four" accounting firms, (including our independent registered public accounting firm) were affected by a conflict between US and Chinese law. Specifically, for certain US listed companies operating and audited in mainland China, the SEC and the PCAOB sought to obtain from the Chinese firms access to their audit work papers and related documents. The firms were, however, advised and directed that under China law they could not respond directly to the US regulators on those requests, and that requests by foreign regulators for access to such papers in China had to be channeled through the CSRC.

In late 2012 this impasse led the SEC to commence administrative proceedings under Rule 102(e) of its Rules of Practice and also under the Sarbanes-Oxley Act of 2002 against the Chinese accounting firms, (including our independent registered public accounting firm). A first instance trial of the proceedings in July 2013 in the SEC's internal administrative court resulted in an adverse judgment against the firms. The administrative law judge proposed penalties on the firms including a temporary suspension of their right to practice before the SEC, although that proposed penalty did not take effect pending review by the Commissioners of the SEC. On February 6, 2015, before a review by the Commissioner had taken place, the firms reached a settlement with the SEC. Under the settlement, the SEC accepts that future requests by the SEC for the production of documents will normally be made to the CSRC. The firms will receive matching Section 106 requests, and are required to abide by a detailed set of procedures with respect to such requests, which in substance require them to facilitate production via the CSRC. If they fail to meet specified criteria, the SEC retains authority to impose a variety of additional remedial measures on the firms depending on the nature of the failure. Remedies for any future noncompliance could include, as appropriate, an automatic six-month bar on a single firm's performance of certain audit work, commencement of a new proceeding against a firm, or in extreme cases the resumption of the current proceeding against all four firms.

In the event that the SEC restarts the administrative proceedings, depending upon the final outcome, listed companies in the United States with major PRC operations may find it difficult or impossible to retain auditors in respect of their operations in the PRC, which could result in financial statements being determined to not be in compliance with the requirements of the Exchange Act, including possible delisting. Moreover, any negative news about any such future proceedings against these audit firms may cause investor uncertainty regarding China-based, United States-listed companies and the market price of our ADSs may be adversely affected.

If our independent registered public accounting firm were denied, even temporarily, the ability to practice before the SEC and we were unable to timely find another registered public accounting firm to audit and issue an opinion on our financial statements, our financial statements could be determined not to be in compliance with the requirements of the Exchange Act of 1934, as amended. Such a determination could ultimately lead to the delisting of our ordinary shares from the Nasdaq Global Market or deregistration from the SEC, or both, which would substantially reduce or effectively terminate the trading of our ADSs in the United States.

Our articles of association contain anti-takeover provisions that could have a material adverse effect on the rights of holders of our ordinary shares and ADSs.

Our articles of association contain provisions limiting the ability of others to acquire control of our company or cause us to enter into change-of-control transactions. These provisions could have the effect of depriving our shareholders of an opportunity to sell their shares at a premium over prevailing market prices by discouraging third parties from seeking to obtain control of our company in a tender offer or similar transaction. For example, our board of directors has the authority, without further action by our shareholders, to issue preferred shares in one or more series and to fix their designations, powers, preferences, privileges, and relative participating, optional or special rights and the qualifications, limitations or restrictions, including dividend rights, conversion rights, voting rights, terms of redemption and liquidation preferences, any or all of which may be greater than the rights associated with our ordinary shares, in the form of ADS or otherwise. Preferred shares could be issued quickly with terms calculated to delay or prevent a change in control of our company or make removal of management more difficult. If our board of directors decides to issue preferred shares, the price of our ADSs may fall and the voting and other rights of the holders of our ordinary shares and ADSs may be materially and adversely affected.

You may have to rely on price appreciation of our ADSs for any return on your investment.

Our board of directors has discretion as to whether to distribute dividends, subject to applicable laws. Even if our board of directors decides to declare and pay dividends, the timing, amount and form of future dividends, if any, will depend on, among other things, our future results of operations and cash flow, our capital requirements and surplus, the amount of distributions, if any, received by us from our subsidiaries, our financial condition, contractual restrictions and other factors deemed relevant by our board of directors. Accordingly, the return on your investment in our ADSs will likely depend entirely upon any future price appreciation of our ADSs. There is no guarantee that our ADSs will appreciate in value or even maintain the price at which you purchased the ADSs. You may not realize a return on your investment in our ADSs and you may even lose your entire investment in our ADSs.

We were a passive foreign investment company for the taxable year ended December 31, 2014, which could result in adverse United States federal income tax consequences to U.S. Holders of our ADSs or ordinary shares.

Based on the market price of our ADSs, the value of our assets, and the composition of our income and assets, we believe we were a “passive foreign investment company,” or PFIC, for U.S. federal income tax purposes for our taxable year ended December 31, 2014. In addition, it is likely that one or more of our subsidiaries were also PFICs for such year. A non-U.S. corporation will be a PFIC for any taxable year if either (1) at least 75% of its gross income for such year is passive income or (2) at least 50% of the value of its assets (based on an average of the quarterly values of the assets) during such year is attributable to assets that produce passive income or are held for the production of passive income. We must make a separate determination after the close of each taxable year as to whether we were a PFIC for that year. Because the value of our assets for purposes of the PFIC test will generally be determined by reference to the market price of our ADSs or ordinary shares, our PFIC status will depend in large part on the market price of the ADSs or ordinary shares, which may fluctuate significantly. Because we believe we were a PFIC for the taxable year ended December 31, 2014, certain adverse U.S. federal income tax consequences could apply to U.S. Holders (as defined in “Item 10. Additional Information — E. Taxation — U.S. Federal Income Taxation”) of our ADSs or ordinary shares with respect to any “excess distribution” received from us and any gain from a sale or other disposition of the ADSs or ordinary shares. See “Item 10. Additional Information — E. Taxation — U.S. Federal Income Taxation — Passive Foreign Investment Company.”

Item 4. Information on the Company

A. History and Development of the Company

Our founders, Mr. Yinan Hu and Mr. Qiuping Lai, formed two PRC companies, Guangzhou Nanyun Car Rental Services Co., Ltd. and Guangdong Nanfeng Automobile Association Co., Ltd., initially to provide automobile-related services, such as car rental and emergency services. In 1999, we began distributing automobile insurance products and automobile loans on an ancillary basis. In 2001, our founders transferred their interests in the two PRC companies to China United Financial Services Holdings Limited (then known as China Automobile Association Holdings Limited), or China United Financial Services, a British Virgin Islands company, as part of a series of transactions in which Cathay Capital Group, a private equity group, made an investment in China United Financial Services by subscribing for 40% of the equity interests.

We established two insurance agencies to distribute insurance products in Beijing and Guangdong in April and May 2002, respectively.

In June 2004, as part of its corporate restructuring to facilitate international fundraising, China United Financial Services incorporated CISG Holdings Ltd., or CISG Holdings, in the British Virgin Islands to be the holding company for its insurance agency and brokerage businesses. China United Financial Services transferred to CISG Holdings all of its rights and interests in four PRC insurance intermediary companies it then controlled. In September 2004, Cathay Capital Group subscribed for approximately 27.8% of the equity interests in CISG Holdings.

From June 2004 to December 2005, we expanded our operations by establishing eight insurance agencies and brokerages in Beijing, Sichuan and Guangdong.

In December 2005, an entity affiliated with CDH Growth Capital Holdings Company Limited, or CDH Growth Capital Holdings, a private equity firm, subscribed for approximately 26.4% of the equity interests in CISG Holdings, through CDH China Holdings Management Company Limited. In January 2015, CDH Growth Capital Holdings agreed to sell all of its equity interests in our company to certain members of our management.

We commenced our life insurance business by acquiring controlling interests in three insurance agencies in Sichuan, Hebei and Fujian in 2006. From 2006 to 2007, we further expanded our operations by establishing five insurance agencies and one insurance brokerage in Shandong, Hunan, Shenzhen, Shanghai, Fujian and Guangdong in 2006.

In anticipation of our initial public offering, we incorporated CNinsure Inc. in the Cayman Islands in April 2007. In July 2007, CNinsure Inc., on a 10,000-for-one basis, issued its ordinary shares to the then existing shareholders of CISG Holdings in exchange for all of the outstanding shares of CISG Holdings. After this restructuring transaction, CNinsure Inc. became the ultimate holding company of our group.

On October 31, 2007, we listed our ADSs on the Nasdaq Global Market under the symbol "CISG." We and certain selling shareholders of our company completed the initial public offering of 13,526,773 ADSs, each representing 20 ordinary shares, on November 5, 2007.

On July 14, 2010, we completed a follow-on public offering of 4,600,000 ADSs, each representing 20 ordinary shares.

Since 2008, we have further extended our distribution and service network by establishing six insurance agencies and acquiring controlling interests in 18 insurance intermediary companies (excluding Datong and its subsidiaries).

We have also further expanded our product and service portfolio. In 2008, we began offering claims adjusting services by acquiring controlling interests in four claims adjusting firms. In October 2009, we invested in CFSG to expand into the consumer financial services sector. In 2010, we acquired a majority equity interest in InsCom Holdings Limited, or InsCom Holdings, to build our e-commerce platform. In June 2010, we established an insurance brokerage business unit to expand our product offerings from retail to commercial lines. In 2012, we started to offer wealth management products to our customers on a referral basis, though for regulatory reasons we have temporarily discontinued such sales since 2014.

In April 2014, we established Dianliang Information, as the holding company for eHuzhu (www.ehuzhu.com), an online mutual aid platform that we launched in July 2014. In June 2014, we established Shenzhen Chetong Network Technology Co., Ltd., or Chetong Network, as the holding company for Chetong.net, an internet-based service platform for the insurance industry, which we launched in August 2014.

As of March 31, 2015, we, through our PRC subsidiaries and our consolidated affiliated entities, directly or indirectly, own majority interests of 37 insurance agencies, two insurance brokerage companies, four insurance claims adjusting firms, one online insurance marketplace, one online insurance service platform and one online mutual aid platform in the PRC. We also own a 20.6% equity interest in a financial services company and a 19.5% equity interest in a wealth management service company.

See "Item 4. Information on the Company-C. Organizational Structure" for more information on our corporate structure changes.

Our principal executive offices are located at 22/F, Yin Hai Building, No. 299 Yanjiang Zhong Road, Guangzhou, Guangdong 510110, People's Republic of China. Our telephone number at this address is +86-20-6122-2777. Our registered office is at the offices of Maples Corporate Services Limited, PO Box 309, Umland House, Grand Cayman, KY1-1104, Cayman Islands, or at such other place as our board of directors may from time to time decide. Our agent for service of process in the United States is CT Corporation System, located at 111 Eighth Avenue, New York, New York 10011.

Recent Acquisitions

In January 2015, we acquired the remaining 49% of the equity interest in Henan CNinsure Anlian Insurance Agency Co., Ltd. or Henan Anlian, for a total consideration of RMB68 million (US\$11.0 million), increasing our shareholdings in Henan Anlian from 51% to 100%.

In January 2015, we acquired an additional 36.5% of the equity interest in Hebei Fanlian Insurance Agency Co., Ltd. or Hebei Fanlian, for a total consideration consisting of RMB40 million (US\$6.4 million) in cash and 12.5% equity interest in the business of Hebei Branch of CNinsure Lianxing Insurance Sales Co., Ltd., increasing our shareholdings in Hebei Fanlian from 51% to 87.5%.

On April 30, 2014, we, through CNinsure Times Insurance & Sales Service Co., Ltd., or CNinsure Times, our wholly-owned subsidiary, acquired an additional 70% of the equity interest in Jiaxing Lianbao Insurance Agency Co., Ltd. or Jiaxing Lianbao, for a total consideration of RMB21 million (US\$3.4 million), increasing our shareholdings in Jiaxing Lianbao from 30% to 100%.

On April 30, 2014, we, through CNinsure Times, acquired 100% of the equity interest in Wenzhou Huilian Insurance Agency Co., Ltd., or Wenzhou Huilian, an insurance agency primarily engaged in the distribution of property and casualty insurance products to individuals, for a total consideration of RMB16 million (US\$2.6 million).

On April 30, 2014, we, through CNinsure Times, acquired 100% of the equity interest in Nanjing Yukai Insurance Agency Co., Ltd., or Nanjing Yukai, an insurance agency primarily engaged in the distribution of property and casualty insurance products to individuals, for a total consideration of RMB27 million (US\$4.4 million).

In July 2014, we also acquired an additional 90% of the equity interest in a claims adjusting firm at its book value of RMB4.2 million (US\$0.7 million) increasing our shareholdings in the claims adjusting firm from 10% to 100%, and 100% of the equity interest in a health management company for a nominal consideration of RMB1.0.

Capital Expenditure

Our capital expenditures have been used primarily to construct our online platforms, including CNpad, Chetong.net, Baoxian.com and eHuzhu, construct our operating platform, including our Core Business System and ERP-based financial and accounting system and to purchase automobiles and office equipment for newly established insurance intermediary companies. See "Item 5. Operating and Financial Review and Prospects – B. Liquidity and Capital Resources."

B. Business Overview

We are a leading independent online-to-offline financial services provider in China. Through our online platforms and offline sales and service network, we distribute to individual and institutional customers in China a wide variety of property, casualty and life insurance products underwritten by domestic and foreign insurance companies operating in China and provide insurance claims adjusting services, such as damage assessments, surveys, authentications and loss estimations. We also provide certain insurance and vehicle-related value-added services, such as 24-hour emergency services in select cities and assistance with claim settlement, to individuals and institutions.

We distribute insurance products to customers primarily through our sales agents and brokers, and provide claims adjustment services through our claims adjusters. With 66,859 sales agents, 26 brokers, 1,434 claims adjusters, 13,724 service representatives and 574 sales and service outlets as of March 31, 2015, our distribution and service network reaches 27 out of 34 provinces in China, including some of the most economically developed regions and affluent cities.

Technological developments and the growth of mobile internet access have significantly changed the way we operate our business. For instance, we develop and implement mobile applications for our sales agents, through which they can access a broad range of auto insurance and life insurance products from multiple insurance companies, and compare prices and purchase insurance products on their mobile devices for their clients.

We also operate an insurance marketplace, www.baoxian.com, which allows customers to directly compare and shop for hundreds of accident, health, travel and homeowner insurance products from dozens of insurance companies online.

In August 2014, we launched Chetong.net, an online service platform for the insurance industry. This online platform integrates auto and insurance service resources across the nation by using location-based services technology. As of March 31, 2015, this platform enables insurance companies to locate the nearest service representative from over 13,724 registered service representatives for various value-added services such as surveys, loss estimations, designated driving, repairing assistance and emergency assistance.

In July 2014, we launched eHuzhu, www.ehuzhu.com, a non-profit online mutual aid platform. eHuzhu provides low-cost alternative risk-protection programs on a mutual aid basis among program members. As of March 31, 2015, eHuzhu has attracted over 291,716 registered members.

We are compensated for our insurance agency, insurance brokerage and claims adjusting services primarily by commissions and fees paid by insurance companies, typically based on a percentage of the premium paid by the insured or a percentage of the amount recovered from insurance companies. Commission and fee rates generally depend on the type of insurance products, the particular insurance company and the region in which the products are sold.

As of March 31, 2015, we had one online insurance marketplace, one online insurance service platform and one online mutual aid platform, and 43 insurance intermediary companies in the PRC, of which 37 are insurance agencies including three with national operating licenses, two are insurance brokerages and four are insurance adjusting firms. We also own 20.6% of the equity interests in a financial service company which is primarily engaged in the origination and management of small loans made to individuals, loan repackaging, asset management-related services to financial institutions and mortgage agency services to individuals, as well as 19.5% of the equity interests in a wealth management service company.

The professional insurance intermediary sector in China is highly fragmented. We believe this offers substantial opportunities for further growth and consolidation. The proliferation of internet access also presents us with huge opportunities to directly reach out to a much broader customer base. We intend to take advantage of these opportunities to increase our market share by aggressively developing and promoting our online platforms, expanding our offline distribution and service network and broadening our product portfolio.

Segment Information

In the first quarter of 2014, we realigned our financial reporting structure to more accurately reflect our organizational structure and changing business mix. Under the realigned business structure, our business is divided into three major reporting operating segments: (1) insurance agency, (2) insurance brokerage, and (3) claims adjusting. The insurance agency segment provides a broad range of property and casualty and life insurance products to individual customers. The insurance brokerage segment primarily provides commercial lines of property and casualty insurance, group life insurance programs and risk management consulting services to businesses and reinsurance brokerage services to insurance companies. The claims adjusting segment provides claims adjusting services to insurance companies that choose to outsource some or all of their claims functions. Our businesses which fall outside of the three principal operating segments are classified as other services, which mainly include non-insurance related services such as the wealth management products we offered in 2012 and 2013.

Insurance Agency Segment

Our insurance agency segment accounted for 82.3%, 80.7% and 75.6% of our net revenues in 2012, 2013 and 2014, respectively. Revenue from this segment is derived from two broad categories of insurance products: (i) property and casualty insurance products, and (ii) life insurance products, both primarily focused on meeting the insurance needs of individuals. The insurance products we sell are underwritten by leading insurance companies in China.

Property and Casualty Insurance Products

Our main property and casualty insurance product is automobile insurance. In addition, we also offer individual accident insurance, travel insurance, disability income insurance, commercial property insurance, construction insurance products and other property and casualty products. The property and casualty insurance products we distribute to individual customers can be further classified into the following categories:

- *Automobile Insurance.* Automobile insurance is the largest segment of property and casualty insurance in the PRC in terms of gross written premiums. We distribute both standard automobile insurance policies and supplemental policies, which we refer to as riders. The standard automobile insurance policies we sell generally have a term of one year and cover damages caused to the insured vehicle by collision and other traffic accidents, falling or flying objects, fire, explosion and natural disasters. We also sell standard third-party liability insurance policies, which cover bodily injury and property damage caused by an accident involving an insured vehicle to a person not in the insured vehicle. The riders we distribute cover additional losses, such as liability to passengers, losses arising from vehicle theft and robbery, broken glass and vehicle body scratches.
- *Individual Accident Insurance.* The individual accident insurance products we distribute generally provide a guaranteed benefit during the coverage period, which usually is one year or a shorter period, in the event of death or disability of the insured as a result of an accident, or a reimbursement of medical expenses to the insured in connection with an accident. These products typically require only a single premium payment for each coverage period. Because most of the individual accident insurance products we distribute are underwritten by property and casualty insurance companies, we classify individual accident insurance products as property and casualty insurance products.
- *Travel Insurance.* The travel insurance products we distribute are short-term insurance providing guaranteed benefit in the event of death or disability and covering travel-related emergencies and losses, either within one's own country, or internationally. These products typically require only a single premium payment for each coverage period.
- *Disability Income Insurance.* The disability income insurance products we distribute generally have a term of one year and provide supplementary income before the insured can get back to their regular employment or for a specified period in the event of illness or disability. These products typically require only a single premium payment for each coverage period. Because most of the disability income insurance products we distribute are underwritten by property and casualty insurance companies, we classify them as property and casualty insurance products.
- *Commercial Property Insurance.* The commercial property insurance products we distribute include basic, comprehensive and all risk policies. Basic commercial property insurance policies generally cover damage to the insured property caused by fire, explosion and thunder and lightning. Comprehensive commercial property insurance policies generally cover damage to the insured property caused by fire, explosion and certain natural disasters. All risk commercial property insurance policies cover all causes of damage to the insured property not specifically excluded from the policies.
- *Homeowner Insurance.* The homeowner insurance products we distribute primarily cover the damage to the insured house, furniture and household electrical appliance caused by a number of standard risks such as fire, flood and explosion.

The property and casualty insurance products we distributed in 2014 were primarily underwritten by PICC P&C, CPIC, Ping An, Taiping and Alltrust.

Life Insurance Products

The life insurance products we distribute can be broadly classified into the categories set forth below. Due to constant product innovation by insurance companies, some of the insurance products we distribute combine features of one or more of the categories listed below:

- *Individual Whole Life Insurance.* The individual whole life insurance products we distribute provide insurance for the insured person's entire life in exchange for the periodic payment of fixed premiums over a pre-determined period, generally ranging from five to 20 years, or until the insured reaches a

certain age. The face amount of the policy or, for some policies, the face amount plus accumulated interest is paid upon the death of the insured.

- *Individual Term Life Insurance.* The individual term life insurance products we distribute provide insurance for the insured for a specified time period or until the attainment of a certain age, in return for the periodic payment of fixed premiums over a pre-determined period, generally ranging from five to 20 years. Term life insurance policies generally expire without value if the insured survives the coverage period.
- *Individual Endowment Life Insurance.* The individual endowment products we distribute generally provide insurance coverage for the insured for a specified time period and maturity benefits if the insured reaches a specified age, and provide to a beneficiary designated by the insured guaranteed benefits upon the death of the insured within the coverage period. In return, the insured makes periodic payment of premiums over a pre-determined period, generally ranging from five to 25 years.
- *Individual Education Annuity.* The individual annuity products we distribute are primarily education related products. They provide annual benefit payments after the insured attains a certain age, or for a fixed time period, and provide a lump payment at the end of the coverage period. In addition, the beneficiary designated in the annuity contract will receive guaranteed benefits upon the death of the insured during the coverage period. In return, the purchaser of the annuity products makes periodic payment of premiums during a pre-determined accumulation period.
- *Universal Insurance.* We distribute certain universal insurance products that provide not only insurance coverage but also a minimum guaranteed return on the amount the insured puts into an individual investment account. In return, the insured makes periodic payment of premiums over a pre-determined period, generally ranging from five to 25 years.
- *Participating Insurance.* The participating insurance products we distribute not only provide insurance coverage but also pay dividends generated from the profits of the insurance company providing the policy. The dividends are typically paid out on an annual basis over the life of the policy. In return, the insured makes periodic payment of premiums over a pre-determined period, generally ranging from five to 25 years.
- *Individual Health Insurance.* The individual health insurance products we distribute primarily consist of catastrophic health insurance products, which provide guaranteed benefits for specified serious illnesses and medical insurance, which provides conditional reimbursement for medical expenses during the coverage period. In return, the insured makes periodic payment of premiums over a pre-determined period.
- *Group Life Insurance.* We distribute several group life insurance products, including group health insurance. These group products generally have a policy period of one year and require a single premium payment.

In addition to the periodic premium payment schedules described above, most of the individual life insurance products we distribute also allow the insured to choose to make a single, lump-sum premium payment at the beginning of the policy term. If a periodic payment schedule is adopted by the insured, a life insurance policy can generate periodic payment of fixed premiums to the insurance company for a specified period of time. This means that once we sell a life insurance policy with a periodic premium payment schedule, we will be able to derive commission and fee income from that policy for an extended period of time, sometimes up to 25 years. Because of this attractive feature and the expected sustained growth of life insurance sales in China, we have focused significant resources since 2006 on developing our capability to distribute individual life insurance products with periodic payment schedules. We expect that sales of life insurance products will continue to become an important source of our revenue in the next several years. The life insurance products we distributed in 2014 were primarily underwritten by AVIVA-COFCO Life Insurance Co., Ltd., Taikang Life Insurance Co., Ltd., Great Wall Life Insurance Co., Ltd., Huaxia Life Insurance Co., Ltd., and Haikang Life Insurance Co., Ltd.

Insurance Brokerage Segment

Our insurance brokerage segment accounted for 3.1%, 3.6% and 10.8% of our net revenues in 2012, 2013 and 2014, respectively. Our insurance brokerage segment primarily markets and sells commercial lines of property and casualty insurance products, group life insurance products, liability insurance products and credit insurance products to corporate clients. This segment also offers risk management services to enterprises in various industries and reinsurance brokerage services to insurance companies. The insurance products that our insurance brokerage segment provides can be broadly classified into the categories set forth below.

- *Cargo Insurance.* The cargo insurance products we distribute cover damage to or loss of goods in transit by sea, land or air.
- *Hull Insurance.* The hull insurance products we distribute cover vessels against losses, liabilities and expenses caused by natural calamities, negligence of crew members and marine accidents, as well as collision liability.
- *Liability Insurance.* The liability insurance products we distribute are primarily product liability, employer's liability, public liability and professional liability insurance products. These products generally cover losses to third parties due to the misconduct or negligence of the insured party, but exclude losses due to fraud or the willful misconduct of the insured party.
- *Construction and Erection Insurance.* The construction and erection insurance products we distribute cover property damages and personal injury losses caused by natural disasters and accidents in connection with construction and erection projects in China and abroad.
- *Credit Insurance.* The credit insurance products we distribute are primarily trade credit insurance, which protects the account receivables of business entities from loss due to credit risk, and consumer credit insurance, which enables the borrower to ensure the repayment of a personal consumption loan in the event of the borrower's death, illness or disability, unemployment or other circumstances that may prevent him or her from earning income to service the debt.
- *Extended Warranty Insurance.* The extended warranty insurance products we distribute provide coverage for expenses associated with any repair or replacement of the sold items, such as an electrical appliance or auto vehicle, after the manufacturer's warranty has expired.
- *Bank Account Crime Insurance.* The bank account crime insurance products we distribute provide for the recovery of funds stolen from bank accounts.

As an insurance broker, we primarily place insurance programs for corporate clients with PICC P&C, China Life Property and Casualty Insurance Company Limited, Beibu Gulf Property and Casualty Insurance Company Limited, CPIC and China Coal Insurance Co., Ltd in 2014.

Claims Adjusting Segment

Total net revenues derived from our claims adjusting segment accounted for 13.7%, 14.9% and 13.6% of our total net revenue in 2012, 2013 and 2014, respectively. We offer the following insurance claims adjusting services:

- *Pre-underwriting Survey.* Before an insurance policy is sold, we conduct a survey of the item to be insured to assess its current value and help our clients determine the insurable value and the amount to be insured. We also help our clients assess the underwriting risk with respect to the item to be insured through surveys, appraisals and analysis.
- *Claims Adjusting.* When an accident involving the insured subject matter has occurred, we conduct an onsite survey to determine the cause of the accident and assess damage. We then determine the extent of the loss to the insured subject matter and prepare and submit a report to the insurance company summarizing our preliminary findings. Upon final conclusion of the case, we prepare and submit a detailed report to the insurance company setting forth details of the accident, cause of the loss, details of the loss, adjustment and determination of loss, an indemnity proposal and, where appropriate, a request for payment.

- *Disposal of Residual Value.* In the course of providing claims adjusting services, we also can appraise the residual value of the insured property and offer suggestions on the disposal of such property. Upon appointment by the insurance company, we handle the actual disposal of the insured property through auction, discounted sale, lease or other means.
- *Loading and Unloading Supervision.* Upon appointment by ship owners, shippers, consignees or insurance companies, we can monitor and record the loading and unloading processes of specific cargos.
- *Consulting Services.* We provide consulting services to both the insured and the insurance companies on risk assessment and management, disaster and damage prevention, investigation, and loss assessment.

We are compensated primarily by insurance companies for our claims adjusting services, which we provide on behalf of insurance companies. The fees we receive are calculated based on the types of insurance involved. For services provided in connection with property and casualty insurance (other than marine cargo insurance and automobile insurance), our fees are calculated as a percentage of the recovered amount from insurance companies plus travel expenses. For services provided in connection with marine cargo insurance, our fees are charged primarily on an hourly basis and, in some cases, as a percentage of the amount recovered from insurance companies. For automobile insurance, our fees are generally fixed on a per case basis and the amounts collected are based on the types of services provided. In some cases, our fees are charged based on the number of claim adjusters engaged in the adjusting service. We primarily provided claims adjusting services to Ping An, PICC P&C, CPIC, and Taiping and Dinghe Property Insurance Co., Ltd. in 2014.

As competition intensifies and the insurance market becomes more mature in China, we believe there will be a further division of labor in the insurance intermediary sector. We expect that more insurance companies will choose to outsource claims adjusting functions to professional service providers while they focus on the core aspects of their business, including product development and asset and risk management. We believe we are well-positioned to capture such outsourcing opportunities.

Other Services

Other services contributed 0.9%, 0.8% and nil of our total net revenue in 2012, 2013 and 2014, respectively, which mainly represented service fees derived from the referral of wealth management products to our insurance customers and the provision of IT services provided to a subsidiary of CFSG.

In conjunction with the sale of automobile insurance products, we provide our customers with a number of value-added services under our service slogan, “You take care of driving, and we’ll take care of the rest.” For example, we assist our customers with obtaining vehicle licenses and subsequent annual inspections. We maintain 24-hour service hotlines in most of our principal markets. When an accident involving an insured vehicle occurs within these markets, our service staff can arrive at the scene quickly after being notified through the 24-hour service hotline and provide onsite assistance to our customers. Fees derived from these services related to insurances products are recorded as net revenues from insurance agency business.

Seasonality

See “Item 5. Operating and Financial Review and Prospects — A. Operating Results — Factors Affecting Our Results of Operations — Seasonality.”

Distribution and Service Network and Marketing

We have an offline distribution and service network that, as of March 31, 2015, consisted of 37 insurance agencies, two insurance brokerages and four claims adjusting firms, with 574 sales and service outlets, 66,707 registered sales agents, 152 in-house sales representatives, 1,434 in-house claims adjusters and 26 in-house insurance brokers. Our distribution and service network covers 27 provinces and reaches some of the most economically developed regions and wealthiest cities in China, such as Beijing, Shanghai, Guangzhou and Shenzhen.

The following table sets forth additional information concerning our distribution and service network as of March 31, 2015, broken down by provinces:

Province	Number of Sales and Service Outlets	Number of Sales Agents	Number of In-house Sales Representatives	Number of In-house Adjustors	Number of In-house Brokers
Guangdong.....	94	11,908	117	233	—

We market and sell personal lines of property and casualty insurance products and life insurance products to customers through both registered sales agents, who are not our employees, and our in-house sales representatives. We also market and sell accidental, health, travel and homeowner insurance products directly to customers through a website (www.baoxian.com). We market and sell insurance claims adjusting services primarily to insurance companies through our in-house professional claims adjustors and to non-affiliated service representatives through Chetong.net, our online service platform, by bidding for claims adjusting business contracts. We provide insurance brokerage services to customers through both our in-house brokers and non-affiliated independent brokers.

Customers

We sell automobile insurance, individual accident insurance and homeowner insurance products primarily to individual customers. We sell commercial property insurance, cargo insurance, hull insurance, liability insurance and construction insurance products to institutional customers. Customers for the life insurance products we distribute are primarily individuals under 50 years of age. Our customers for the claims adjusting services are primarily insurance companies. For the year ended December 31, 2014, no single customer of insurance products accounted for more than 1% of our net revenues.

As of December 31, 2014, we had accumulated approximately 4.7 million individual customers and 1.0 million institutional customers as compared to 3.6 million individual customers and 0.7 million institutional customers as of December 31, 2013. By providing certain value-added services to these customers at no additional charge, we seek to build a loyal customer base that generates referrals and cross-selling opportunities.

Insurance Company Partners

As of March 31, 2015, we had established business relationships with 76 insurance companies in the PRC. In the Chinese insurance market, local branches of insurance companies generally have the authority to enter into contracts in their own names with insurance intermediaries. Historically, we have entered into and maintained business relationships with insurance companies at the local level. That is, our insurance agencies, brokerages and claims adjusting firms enter into contracts with different local branches of an insurance company that are located within their respective regions. The termination of a business relationship between one of our insurance agencies, brokerages or claims adjusting firms and a local branch of an insurance company generally would have no significant impact on the business relationships between our other insurance agencies, brokerages and claims adjusting firms and the other branches of the same insurance company. Since 2007, we have also sought to establish business relationships with insurance companies at the corporate headquarters level in order to leverage the combined sales volumes of our various affiliated insurance agencies and brokerages located in different parts of the country. As of March 31, 2015, we had outstanding contracts with 17 life insurance companies and 31 property and casualty insurance companies at the corporate headquarters level for the distribution of insurance products and outsourcing of claims adjusting services.

Competition

A number of industry players are involved in the distribution of insurance products in the PRC. We compete for customers on the basis of product offerings, customer services and reputation. Because we primarily distribute individual insurance products, our principal competitors include:

- *Professional insurance intermediaries.* The professional insurance intermediary sector in China is highly fragmented, accounting for only 5.3% of the total insurance premiums generated in China in the first quarter of 2013, according to the latest Chinese Insurance Intermediary Market Report. Several insurance intermediary companies have received private equity or venture capital funding in recent years and are actively pursuing expansion. We believe that we can compete effectively with these insurance intermediary companies because we have a longer operating history, we have a strong and stable team of managers and sales professionals equipped with CNpad (our proprietary sales support workstation), we offer diversified products to our sales agents and clients, we have built a unified operating platform and we were the first to adopt mobile technology to distribute insurance products among professional insurance intermediaries in China. With increasing consolidation expected in the insurance intermediary sector in the coming years, we expect competition within this sector to intensify.
- *Insurance companies.* The distribution of individual life insurance products in China historically has been dominated by insurance companies, which usually use both in-house sales forces and exclusive sales agents to distribute their own products. In addition, in recent years several major insurance companies have increasingly used telemarketing and the internet to distribute auto insurance. We believe that we can compete effectively with insurance companies because we focus only on distribution and offer our customers a broad range of insurance products underwritten by multiple insurance companies.
- *Entities that offer insurance products online.* In recent years, domestic insurance companies, portal websites and professional insurance intermediaries have begun providing online information to consumers interested in purchasing insurance products. However, each of their insurance e-commerce operations has its own limitations. The insurance products offered on an insurance company's website are usually confined to those under its own brand. Most portal websites provide separate product information with little ability to compare among insurance plans. None of the professional insurance intermediaries that organize online product distribution has a nation-wide sales and service network to support after-sale service. We believe that we can compete effectively with these business entities because our independent online insurance marketplace offers a broad range of insurance products underwritten by multiple insurance companies, product comparisons between prices, services and policy benefits and good after-sale services that are backed by our call center and nation-wide service network.
- *Other business entities.* In recent years, business entities that distribute insurance products as an ancillary business, primarily commercial banks and postal offices, have been playing an increasingly important role in the distribution of insurance products, especially life insurance products. However, the insurance products distributed by these entities are mostly confined to those related to their main lines of business, such as investment-related life insurance products. We believe that we can compete effectively with these business entities because we offer our customers a broader variety of products.

In addition to individual insurance products, we also distribute commercial property and casualty insurance products. As a result, we also compete, to a lesser degree, with insurance intermediaries that focus on the distribution of commercial property and casualty insurance products, such as large insurance brokerages backed by state-owned enterprises and major international insurance brokerage companies that have entered the Chinese market, including Marsh & McLennan Companies, Inc., Aon Corporation and Willis Group Holdings Limited. However, those insurance brokerages backed by state-owned enterprises tend to dominantly rely on business from their shareholders or affiliates while the businesses of the international insurance brokerage companies in China, lacking localized operations, are usually confined to the extension of their global businesses. We believe that we can compete effectively with these business entities because our expertise and localized operations allow us to reach out to a broader customer base and better serve customers' needs. In addition, we can leverage our leading position in the distribution of individual insurance products and provision of property-related claims services, including our strong relationship with insurance companies, existing abundant customer resources and large distribution network, to rapidly develop our brokerage business.

We compete primarily with the other major claims adjusting firms in China, particularly Min Tai'an Insurance Surveyors & Loss Adjusters Co., Ltd., or Min Tai'an. We believe that we can compete effectively with Min Tai'an and other major insurance claims adjusting firms because we offer our customers a diversified range of claims adjusting services covering property insurance, automobile insurance and marine and cargo insurance and are able to leverage the business relationships we have developed with insurance companies through the distribution of property and casualty insurance products.

Intellectual Property

Our brand, trade names, trademarks, trade secrets and other intellectual property rights distinguish our business platform, services and products from those of our competitors and contribute to our competitive advantage in the professional insurance intermediary sector. To protect our intellectual property, we rely on a combination of trademark, copyright and trade secret laws as well as confidentiality agreements with our employees, sales agents, contractors and others. As of March 31, 2015, we had 19 registered trademarks in China, including our corporate logo. Our main website is www.cninsure.net.

Regulation

Regulations of the Insurance Industry

The insurance industry in the PRC is highly regulated. CIRC is the regulatory authority responsible for the supervision of the Chinese insurance industry. Insurance activities undertaken within the PRC are primarily governed by the Insurance Law and the related rules and regulations.

Initial Development of Regulatory Framework

The Chinese Insurance Law was enacted in 1995. The original insurance law, which we refer to as the 1995 Insurance Law, provided the initial framework for regulating the domestic insurance industry. Among the steps taken under the 1995 Insurance Law were the following:

- Licensing of insurance companies and insurance intermediaries, such as agencies and brokerages. The 1995 Insurance Law established requirements for minimum registered capital levels, form of organization, qualification of senior management and adequacy of the information systems for insurance companies and insurance agencies and brokerages.
- Separation of property and casualty insurance businesses and life insurance businesses. The 1995 Insurance Law classified insurance between property, casualty, liability and credit insurance businesses, on the one hand, and life, accident and health insurance businesses on the other, and prohibited insurance companies from engaging in both types of businesses.
- Regulation of market conduct by participants. The 1995 Insurance Law prohibited fraudulent and other unlawful conduct by insurance companies, agencies and brokerages.
- Substantive regulation of insurance products. The 1995 Insurance Law gave insurance regulators the authority to approve the basic policy terms and premium rates for major insurance products.

- Financial condition and performance of insurance companies. The 1995 Insurance Law established reserve and solvency standards for insurance companies, imposed restrictions on investment powers and established mandatory reinsurance requirements, and put in place a reporting regime to facilitate monitoring by insurance regulators.
- Supervisory and enforcement powers of the principal regulatory authority. The principal regulatory authority, then the PBOC, was given broad powers under the 1995 Insurance Law to regulate the insurance industry.

Establishment of the CIRC and 2002 Amendments to the Insurance Law

China's insurance regulatory regime was further strengthened with the establishment of the CIRC in 1998. The CIRC was given the mandate to implement reform in the insurance industry, minimize insolvency risk for Chinese insurers and promote the development of the insurance market.

The 1995 Insurance Law was significantly amended in 2002 and the amended insurance law, which we refer to as the 2002 Insurance Law, became effective on January 1, 2003. The major amendments to the 1995 Insurance Law include:

- Authorizing the CIRC to be the insurance supervisory and regulatory body nationwide. The 2002 Insurance Law expressly grants the CIRC the authority to supervise and administer the insurance industry nationwide.
- Expanding the permitted scope of business of property and casualty insurers. Under the 2002 Insurance Law, property and casualty insurance companies may engage in the short-term health insurance and accident insurance businesses upon the CIRC's approval.
- Providing additional guidelines for the relationship between insurance companies and insurance agents. The 2002 Insurance Law requires an insurance company to enter into an agent agreement with each insurance agent that will act as an agent for that insurance company. The agent agreement sets forth the rights and obligations of the parties to the agreement as well as other matters pursuant to law. An insurance company is responsible for the acts of its agents when the acts are within the scope authorized by the insurance company.
- Relaxing restrictions on the use of funds by insurance companies. Under the 2002 Insurance Law, an insurance company may use its funds to make equity investments in insurance-related enterprises, such as asset management companies.
- Allowing greater freedom for insurance companies to develop insurance products. The 2002 Insurance Law allowed insurance companies to set their own policy terms and premium rates, subject to the approval of, or a filing with, the CIRC.

2009 Amendments to the Insurance Law

The 2002 Insurance Law was amended again in 2009 and the amended insurance law, which we refer to as the 2009 Insurance Law, became effective on October 1, 2009. The major amendments to the 2009 Insurance Law include:

- Strengthening protection of the insured's interests. The 2009 Insurance Law added a variety of clauses such as incontestable clause, abstained and estoppels clause, common disaster clause and amending immunity clause, claims-settlement prescription clause, reasons for claims rejection and contract modification clause.
- Strengthening supervision on the qualification of the shareholders of the insurance companies and setting forth specific qualification requirements for the major shareholders, directors, supervisors and senior managers of insurance companies.
- Expanding the business scope of insurers and further relaxing restriction on the use of fund by insurers.

- Strengthening supervision on solvency of insurers with stricter measures.
- Tightening regulations governing the administration of insurance intermediary companies, especially those relating to behaviors of insurance agents.

According to the 2009 Insurance Law, the minimum registered capital required to establish an insurance agency or insurance brokerage as a company must comply with the PRC Company Law. The registered capital or the capital contribution of insurance agencies or insurance brokerages must be paid-up capital in cash. The 2009 Insurance Law also sets forth some specific qualification requirements for insurance agency and brokerage practitioners. The senior managers of insurance agencies or insurance brokerages must meet specific qualification requirements, and their appointments are subject to approval of the CIRC. Personnel of an insurance agency or insurance brokerage engaging in the sales of insurance products must meet the qualification requirements set by the CIRC and obtain a qualification certificate issued by the CIRC. Under the 2009 Insurance Law, the parties to an insurance transaction may engage insurance adjusting firms or other independent appraisal firms that are established in accordance with applicable laws, or persons who possess the requisite professional expertise, to conduct assessment and adjustment of the insured subject matters. Additionally, the 2009 Insurance Law specifies additional legal obligations for insurance agencies and brokerages.

2014 Amendments to the Insurance Law

The 2002 Insurance Law was amended again in 2014 and the amended insurance law, which we refer to as the 2014 Insurance Law, became effective on August 31, 2014. The major amendments to the 2014 Insurance Law include:

- Relaxing restrictions on actuaries. The 2014 Insurance Law no longer requires Insurance companies shall employ actuaries recognized by the insurance regulatory authority under the State Council. However, an insurance company shall also engage professionals, and establish an actuarial reporting system and a compliance reporting system as before.

The CIRC

The CIRC has extensive authority to supervise insurance companies and insurance intermediaries operating in the PRC, including the power to:

- promulgate regulations applicable to the Chinese insurance industry;
- investigate insurance companies and insurance intermediaries;
- establish investment regulations;
- approve policy terms and premium rates for certain insurance products;
- set the standards for measuring the financial soundness of insurance companies and insurance intermediaries;
- require insurance companies and insurance intermediaries to submit reports concerning their business operations and condition of assets;
- order the suspension of all or part of an insurance company or an insurance intermediary's business;
- approve the establishment, change and dissolution of an insurance company, an insurance intermediary or their branches;
- review and approve the appointment of senior managers of an insurance company, an insurance intermediary or their branches; and
- punish insurance companies or intermediaries for improper behaviors or misconducts.

Regulation of Insurance Agencies

The principal regulation governing insurance agencies is the Provisions on the Supervision of Professional Insurance Agencies promulgated by the CIRC on September 18, 2009 and effective on October 1, 2009, which replaced the Provisions on the Administration of Insurance Agencies issued by the CIRC on December 1, 2004 and effective on January 1, 2005. According to the regulation, the establishment of an insurance agency is subject to minimum registered capital requirement and other requirements and to the approval of the CIRC. The term “insurance agency” refers to an entity that meets the qualification requirements specified by the CIRC, has obtained the license to conduct an insurance agency business with the approval of the CIRC, engages in the insurance business by and within the authorization of, and which collects commissions from, insurance companies. An insurance agency may take any of the following forms: (i) a limited liability company; or (ii) a joint stock limited company. According to the CIRC’s Decision on Revising the Regulatory Provisions on Professional Insurance Agencies, or the Insurance Agency Decision, promulgated on April 27, 2013, unless otherwise stipulated by the CIRC, the minimum registered capital for establishing a new insurance agency is RMB50 million instead of RMB2 million for a regional insurance agency and RMB10 million for a nationwide insurance agency as previously required. An additional increase of registered capital is no longer required to establish a branch or sales office. Pursuant to the Notice of the CIRC on Further Clarifying Certain Issues Relating to the Access to the Professional Insurance Intermediary Market, a professional insurance agency that was established prior to the promulgation of the Insurance Agency Decision and has a registered capital of no more than RMB50 million may apply to establish branches only in the province in which it is registered. A professional insurance agency company that was established prior to the promulgation of the Insurance Agency Decision, has a registered capital of not more than RMB50 million and has already established branches in provinces other than its place of registration may apply to establish additional branches in those provinces. An insurance agency may engage in the following insurance agency businesses:

- selling insurance products on behalf of the insurance companies;
- collecting insurance premiums on behalf of the insurance companies;
- conducting loss surveys and handling claims of insurance businesses on behalf of the insurer principal; and
- other business activities approved by the CIRC.

The name of an insurance agency must contain the words “insurance agency” or “insurance sales.” The license of an insurance agency is valid for a period of three years. Division of or merger with an insurance agency or change of organizational form thereof shall be subject to approval by the CIRC. An insurance agency shall submit a written report to the CIRC for approval within five days from the date of occurrence of any of the following matters:(i) change of name or a branch’s name;(ii) change of domicile or a branch’s business premises;(iii) change of names of sponsors or major shareholders;(iv) change of major shareholders;(v) change of registered capital;(vi) major changes to equity structure;(vii) amendment to the articles of association; or (viii) divestment of a branch. According to the Measures on the Supervision and Administration of Insurance Brokers and Insurance Claims Adjustors issued by the CIRC in January 2013, personnel of an insurance agency and its branches engaging in the sales of insurance products or relevant loss survey and claim settlement shall comply with the conditions prescribed by the CIRC and possess the “Qualification Certificate” required by the CIRC. The senior managers of an insurance agency or its branches must meet specific qualification requirements set forth in the revised Regulatory Provisions on Professional Insurance Agencies. The appointment of the senior managers of an insurance agency or its branches is subject to review and approval of the CIRC.

Regulation of Insurance Brokerages

The principal regulation governing insurance brokerages is the Regulatory Provisions on Insurance Brokerages promulgated by the CIRC on September 18, 2009 and effective on October 1, 2009, which replaced the Provisions on the Administration of Insurance Brokerages issued by the CIRC on December 15, 2004 and effective on January 1, 2005. According to this regulation, the establishment of an insurance brokerage is subject to the approval of the CIRC. The term “insurance brokerage” refers to an entity engaging in the insurance brokering business that meets the qualification requirements specified by the CIRC and has obtained the license to operate an insurance brokering business with the approval of the CIRC. Insurance brokering business includes both direct insurance brokering, which refers to brokering activities on behalf of insurance applicants or the insured in their dealings with the insurance companies, and reinsurance brokering, which refers to brokering activities on behalf of insurance

companies in their dealings with reinsurance companies. An insurance brokerage may take any of the following forms: (i) a limited liability company; or (ii) a joint stock limited company. According to the Decision on Revising the Regulatory Provisions on the Supervision of Insurance Brokerages, or the Insurance Brokerage Decision, promulgated on April 27, 2013, unless otherwise stipulated by the CIRC, the minimum registered capital for establishing a new insurance brokerage is RMB50 million instead of RMB10 million as previously required. An additional increase of registered capital is no longer required for establishing a branch or sales office. Pursuant to the Notice of the CIRC on Further Clarifying Certain Issues Relating to the Access for Professional Insurance Intermediary Companies Market, a professional insurance brokerage company that was established prior to the promulgation of the Insurance Brokerage Decision and has a registered capital of no more than RMB50 million may apply to establish branches only in the province in which it is registered. A professional insurance brokerage company that was established prior to the promulgation of the Insurance Brokerage Decision, has a registered capital of not more than RMB50 million and has already established branches in provinces other than its place of registration may apply to establish additional branches in those provinces. Insurance brokerage companies that provide internet insurance services must have a registered capital of not less than RMB50 million, unless they were already engaged in internet insurance services prior to the promulgation of the Insurance Brokerages Decision.

An insurance brokerage may conduct the following insurance brokering businesses:

- making insurance proposals, selecting insurance companies and handling the insurance application procedures for the insurance applicants;
- assisting the insured or the beneficiary to claim compensation;
- reinsurance brokering business;
- providing consulting services to clients with respect to disaster and damage prevention, risk assessment and risk management; and
- other business activities approved by the CIRC.

The name of an insurance brokerage must contain the words “insurance brokerage.” The license of an insurance brokerage is valid for a period of three years. Division of or merger with an insurance brokerage or change of organizational form thereof shall be subject to approval by the CIRC. An insurance brokerage shall submit a written report to the CIRC within five days from the date of occurrence of any of the following matters: (i) change of name or a branch’s name; (ii) change of domicile or a branch's business premises; (iii) change of names of sponsors or major shareholders; (iv) change of major shareholders; (v) change of registered capital; (vi) major changes to equity structure; (vii) amendment to the articles of association; or (viii) divestment of a branch. Personnel of an insurance brokerage and its branches who engage in any of the insurance brokering businesses described above must comply with the qualification requirements prescribed by the CIRC and obtain a qualification certificate for insurance brokering practitioners. The senior managers of an insurance brokerage must meet specific qualification requirements set forth in the Provisions on the Supervision of Insurance Brokerages. Appointment of the senior managers of an insurance brokerage is subject to review and approval by the CIRC.

Regulation of Insurance Claims Adjusting Firms

The principal regulations governing insurance adjusting firms are the Regulatory Provisions on Insurance Claims Adjusting Firms issued by the CIRC on September 18, 2009 and effective on October 1, 2009, which replaced the Provisions on the Administration of Insurance Claims Adjusting Firms promulgated on November 16, 2001 and effective on January 1, 2002, and the Decision on Revising the Regulatory Provisions on Insurance Claims Adjusting Firms issued by the CIRC on September 29, 2013 and effective on December 1, 2013. According to the regulation, the term “insurance adjusting firm” refers to an entity that is established in accordance with applicable laws and regulations and with the approval of the CIRC and engages in the assessment, survey, authentication, loss estimation and adjustment of the insured subject matters upon the entrustment of the parties concerned. An insurance adjusting firm may take any of the following forms: (i) a limited liability company; (ii) a joint stock limited company; or (iii) a partnership. An insurance adjusting firm must have a registered capital or capital contribution of at least RMB2 million. The registered capital must be paid up in cash.

Upon approval of the CIRC, an insurance adjusting firm may engage in the following businesses:

- inspecting, appraising the value of and assessing the risks of the subject matter before it is insured;
- surveying, inspecting, estimating the loss of and adjusting the insured subject matter after loss has been incurred;
- risk management consulting; and
- other business activities approved by the CIRC.

The name of an insurance adjusting firm must contain the words “insurance adjusting” and must avoid duplicating names of existing insurance claims adjusting firms. The license of an insurance adjusting firm is valid for a period of three years. In any of the following situations, an insurance adjusting firm shall submit a written report to the CIRC for approval when it within five days from the date the resolution for change has been passed: (i) change of name or a branch’s name; (ii) change of domicile or a branch's business premises; (iii) change of names of sponsor, major shareholders or capital contributors; (iv) change of major shareholders or capital contributors; (v) major changes to the equity structure or the proportion of capital contributions; (vi) change of registered capital or capital contributions; (vii) amendment to the articles of association or the partnership agreement; (viii) division, merger and dissolution or any change in the form of organization; or (ix) divestment of a branch. Personnel of an insurance adjusting firm or its branches engaged in any of the insurance adjusting businesses described above comply with the qualification requirements prescribed by the CIRC and obtain a qualification certificate for insurance adjusting practitioners. The senior managers of an insurance adjusting firm must meet specific qualification requirements set forth in the Provisions on the Supervision of Insurance Adjusting Firms. Appointment of the senior managers of an insurance adjusting firm or its branches is subject to review and approval by the CIRC.

Regulation of Ancillary-Business Insurance Agencies

The principal regulation governing ancillary-business insurance agencies is the Interim Measures on the Administration of Ancillary-Business Insurance Agency issued by the CIRC on and effective as of August 4, 2000. The term “ancillary-business insurance agencies” refer to entities that are engaged by insurers to handle insurance business on behalf of insurers while concurrently engaging in another non-insurance-related business. Ancillary-business insurance agencies must meet the qualifications requirements set forth in this regulation. Upon reviewing and approving the qualifications of an entity applying to become an ancillary-business insurance agency, the CIRC will issue a “License for Ancillary-Business Insurance Agency,” which will be valid for three years. An ancillary-business insurance agency may only undertake insurance business on behalf of one insurance company, and the scope of the undertaken business is limited to the scope specified in the License for Ancillary- Business Insurance Agency.

Regulation of Insurance Salespersons

The principal regulation governing individual insurance salespersons is the Measures on the Supervision and Administration of Insurance Salespersons issued by the CIRC on January 6, 2013 and effective on July 1, 2013, which replaced the Provisions on the Administration of Insurance Salespersons promulgated on April 6, 2006 and effective on July 1, 2006. Under this regulation, the term “insurance salesperson” refers to an individual who sells insurance products for an insurance company, including those who are engaged by insurance companies or by insurance agencies. In order to engage in insurance sales activities as an insurance salesperson, a person first must pass the qualification examination organized by the CIRC to obtain a “Qualification Certificate.” The person must have a college degree or above to be qualified for the examination. In addition to the qualification certificate, a person must be registered with the CIRC’s Insurance Intermediaries Regulatory Information System and obtain a “Practice Certificate of Insurance Salespersons” issued by the insurance company or insurance agency to which he or she belongs in order to conduct insurance sales activities.

Regulation of Insurance Brokers and Insurance Adjustors

The principal regulation governing insurance brokerage practitioners and insurance adjustment practitioners is the Measures on the Supervision and Administration of Insurance Brokers and Insurance Claims Adjustors issued by the CIRC on January 6, 2013 and effective on July 1, 2013. In order to engage in the insurance brokerage activities as an insurance brokers, or to engage in the insurance adjustment activities as an claims adjustors, a person first must pass the qualification examination organized by the CIRC for the insurance brokers or for the insurance claims adjustors to obtain a “Qualification Certificate of Insurance Brokers” or a “Qualification Certificate of

Claims Adjustors.” The person must have a college degree or above to be qualified for the examination. In addition to the qualification certificate, a person also must be registered with the CIRC’s Insurance Intermediary Supervision Information System and obtain a “Practice Certificate of Insurance Brokers” or “Practice Certificate of Claims Adjustors” issued by the insurance brokerage firm or insurance claims adjusting company to which he or she belongs in order to conduct insurance brokerage or claims adjustment activities. An insurance broker is not allowed to conduct insurance brokerage activities on behalf of himself or herself.

Regulation of Insurance Intermediary Service Group Companies

The principal regulation governing insurance intermediary groups is the Provisional Measures for Supervision and Administration of the Insurance Intermediary Service Group Companies (for Trial Implementation) issued by the CIRC on September 22, 2011 with immediate effect. According to the regulation, the term “insurance intermediary service group company” refers to a professional insurance intermediary company that is established in accordance with applicable laws and regulations and with the approval of the CIRC that exercises sole or shared control of, or is able to exert major influence over, at least two subsidiaries that are professional insurance intermediary companies primarily engaged in the insurance intermediary business.

An insurance intermediary service group company must have:

- a registered capital of at least RMB100 million;
- no record of material violation by investors of applicable laws and regulations in the previous three years; and
- at least five subsidiaries, among which at least two are professional insurance intermediary companies which contribute at least 50% of the total revenues of the group.

The name of an insurance intermediary service group must contain the words “Group” or “Holding.” Its principal business must be equity investment, management and provision of supporting services. An insurance intermediary service group company shall, submit a written report to the CIRC and its local counterparts at the place of registration within five working days after the date of occurrence of the following: (i) changing its registered name or address; (ii) changing its registered capital; (iii) changing its equity structure by more than 5% or shareholders holding more than 5% of shares; (iv) changing its articles of association; (v) establishing, acquiring, merging or closing its subsidiary; (vi) engaging in related party transactions between member companies; (vii) disincorporating; (viii) significantly changing its business scope; or (ix) making a major strategic investment, suffering a significant investment loss or experiencing other material events or emergencies that affect or may affect the business management, financial status or risk control of the group. Senior managers of an insurance intermediary service group company must meet specific qualification requirements and appointment of the senior managers of an insurance intermediary service group company is subject to review and approval by the CIRC.

Content Related to Insurance Industry in the Legal Documents of China’s Accession to the WTO

According to the Circular of the CIRC on Distributing the Content Related to Insurance Industry in the Legal Documents of China’s Accession to the World Trade Organization, or WTO, for the life insurance sector, within three years of China’s accession to the WTO on December 11, 2001, geographical restrictions were to be lifted, equity joint venture companies allowed to provide health insurance, group insurance, and pension/annuity services to Chinese citizens and foreign citizens, and for there to be no other restrictions except those on the proportion of foreign investment (no more than 50%) and establishment conditions. For the non-life insurance sector, within three years of China’s accession, the geographical restrictions were to be lifted and no restrictions allowed other than establishment conditions. For the insurance brokerage sector, within five years of China’s accession, the establishment of wholly foreign-funded subsidiary companies was to be allowed, and no restriction other than establishment conditions and restrictions on business scope.

Content Related to Insurance Industry in the Closer Economic Partnership Arrangements

Under CEPA Supplement IV signed in July 2007 and CEPA Supplement VIII signed in December 2011, local insurance agencies in Hong Kong and Macao are allowed to set up wholly-owned insurance agency companies and conduct insurance intermediary businesses in Guangdong Province (including Shenzhen) on a pilot basis if they fulfill the following criteria:

- The applicant must have operated an insurance brokerage businesses in Hong Kong and Macao for over 10 years;
- The applicant's average annual revenue of insurance brokerage business for the past three years before application must not be less than HKD500,000 and the total assets as at the end of the year before application must not be less than HKD500,000;
- Within the years before application, there has been no serious misconduct or record of disciplinary action; and
- The applicant must have set up a representative office in mainland China for over one year

Regulations on Foreign Exchange

Foreign Currency Exchange

Foreign exchange regulation in China is primarily governed by the following rules:

- Foreign Currency Administration Rules (1996), as amended pursuant to the Decision on Revising the Foreign Currency Administration Rules promulgated by the State Council on January 14, 1997 and the Foreign Currency Administration Rules promulgated by the State Council on August 5, 2008; and
- Administration Rules of the Settlement, Sale and Payment of Foreign Exchange.

Under the Foreign Currency Administration Rules, the RMB is convertible for current account items, including the distribution of dividends, interest payments, trade and service-related foreign exchange transactions. Conversion of RMB for capital account items, such as direct investment, loan, security investment and repatriation of investment, however, is still subject to the approval of the SAFE.

Under the Administration Rules of the Settlement, Sale and Payment of Foreign Exchange, foreign-invested enterprises may only buy, sell or remit foreign currencies at those banks authorized to conduct foreign exchange business after providing valid commercial documents and, in the case of capital account item transactions, obtaining approval from the SAFE. Capital investments by foreign-invested enterprises outside of China are also subject to limitations, which include approvals by the Ministry of Commerce, the SAFE and the State Development and Reform Commission.

Foreign Exchange Registration of Offshore Investment by PRC Residents

Pursuant to the SAFE Circular 37, issued on July 4, 2014, prior to making contribution to a SPC with legitimate holdings of domestic or overseas assets or interests, a PRC resident (including PRC institutions and resident individuals) shall apply to the relevant Foreign Exchange Bureau for foreign exchange registration of overseas investment. A PRC resident who makes contribution with legitimate holdings of domestic assets or interests shall apply for registration to the Foreign Exchange Bureau at its place of registration or the Foreign Exchange Bureau at the locus of the assets or interests of the relevant PRC enterprise. A PRC resident who makes contribution with legitimate holdings of overseas assets or interests shall apply for registration to the Foreign Exchange Bureau at its place of registration or household register. Where a registered overseas SPC experiences changes of its PRC resident individual shareholder, its name, operating period or other basic information, or experiences changes of material matters, such as the increase or reduction of contribution by the PRC resident individual, the transfer or replacement of equity, or merger or division, the PRC resident shall promptly change the foreign exchange registration of overseas investment with the Foreign Exchange Bureau concerned. Under SAFE Circular 37, failure to comply with the registration procedures set forth above may result in the penalties, including imposition of restrictions on a PRC subsidiary's foreign exchange activities and its ability to distribute dividends to the SPV. See "Item 3. Key Information — D. Risk Factors — Risks Related to Doing Business in China — PRC regulations relating to the establishment of offshore special purpose companies by PRC residents and employee stock options granted by overseas-listed companies may increase our administrative burden, restrict our overseas and cross-border investment activity, or otherwise adversely affect us. If our shareholders who are PRC residents, or our PRC employees who are granted or exercise stock options, fail to make any required registrations or filings under such regulations, we may be unable to distribute profits and may become subject to liability under PRC laws.

SAFE Regulations on Employee Share Options

On December 25, 2006, the PBOC promulgated the “Measures for the Administration of Individual Foreign Exchange,” and on January 5, 2007, the SAFE further promulgated the implementation rules on those measures. Both became effective on February 1, 2007. According to the implementation rules, PRC citizens who are granted shares or share options by a company listed on an overseas stock market according to its employee share option or share incentive plan are required, through the PRC subsidiary of such overseas listed company or any other qualified PRC agent, to register with the SAFE and to complete certain other procedures related to the share option or other share incentive plan. Foreign exchange income received from the sale of shares or dividends distributed by the overseas listed company may be remitted into a foreign currency account of such PRC citizen or be exchanged into Renminbi. Our PRC citizen employees who have been granted share options are subject to the Individual Foreign Exchange Rules.

On March 28, 2007, SAFE promulgated the Operating Rules for Administration of Foreign Exchange in Domestic Individuals’ Participation in Employee Stock Ownership Plans and Stock Option plans of Companies Listed Abroad, or the Operating Rules, or the Operating Rules. Stock Option Rule. On February 15, 2012, SAFE promulgated the No. 7 Notice, which supersedes the Stock Option Rule in its entirety and immediately became effective upon circulation. According to the No. 7 Notice, domestic individuals, which include any directors, supervisors, senior managerial personnel or other employees of a domestic company who are Chinese citizens (including citizens of Hong Kong, Macao and Taiwan) or foreign individuals who consecutively reside in the territory of PRC for one year, who participate in the same equity incentive plan of an overseas listed company shall, through the domestic companies they serve, collectively entrust a domestic agency to handle issues like foreign exchange registration, account opening, funds transfer and remittance, and entrust an overseas institution to handle issues like exercise of options, purchasing and sale of related stocks or equity, and funds transfer. Where a domestic agency needs to remit funds out of China as required for individuals’ participation in an equity incentive plan, the domestic agency shall apply with the local office of the SAFE for a foreign exchange payment quota on a yearly basis. A domestic agency shall open a domestic special foreign exchange account in the bank. After repatriation of foreign currency income earned by individuals from participation in an equity incentive plan, the domestic agency shall request the bank to transfer the funds from its special foreign currency account to respective personal foreign currency deposit accounts. In the case of any significant change to the equity incentive plan of a company listed abroad (such as amendment to any major terms of the original plan, addition of a new plan, or other changes to the original plan due to merger, acquisition or reorganization of the overseas listed company or the domestic company or other major events), the domestic agency or the overseas trustee, the domestic agency shall, within three months of the occurrence of such changes, go through procedures for change of foreign exchange registration with the local office of the SAFE. The SAFE and its branches shall supervise, administer and inspect foreign exchange operations related to individuals’ participation in equity incentive plans of companies listed abroad, and may take regulatory measures and impose administrative sanctions on individuals, domestic companies, domestic agencies and banks violating the provisions of the No. 7 Notice.

We and our employees who have been granted applicable equity awards shall be subject to the No. 7 Notice. If we fail to comply with the No. 7 Notice, we and/or our employees who are subject to the No. 7 Notice may face sanctions imposed by foreign exchange authority or any other PRC government authorities.

Regulations on Dividend Distribution

The principal regulations governing dividend distributions of wholly foreign-owned companies include:

- Wholly Foreign-Owned Enterprise Law (1986), as amended pursuant to the Decision of the Standing Committee of the National People's Congress on Revising the Wholly Foreign-Owned Enterprise Law promulgated on October 31, 2000; and
- Wholly Foreign-Owned Enterprise Law Implementing Rules (1990), as amended pursuant to the Decision of the State Council on Amending the Rules for the Implementation of the Law on Foreign-Owned Enterprises promulgated by the State Council on April 12, 2001 and the Decision of the State Council on Revising the "Detailed Implementing Rules for the Wholly Foreign-Owned Enterprise Law which took effect as of the promulgation date of March 1, 2014.

Under these regulations, wholly foreign-owned companies in the PRC may pay dividends only out of their accumulated profits as determined in accordance with PRC accounting standards. In addition, these wholly foreign-owned companies are required to set aside at least 10% of their respective accumulated profits each year, if any, to

fund certain reserve funds, until the accumulative amount of such fund reaches 50% of its registered capital. These reserve funds are not distributable as cash dividends.

Regulation on Overseas Listing

On August 8, 2006, six PRC regulatory agencies, namely, the PRC Ministry of Commerce, the State Assets Supervision and Administration Commission, the State Administration for Taxation, the State Administration for Industry and Commerce, the CSRC and the SAFE, jointly adopted the Provisions on Foreign Investors' Merger with and Acquisition of Domestic Enterprises, or the Order No. 10 (2006) which became effective on September 8, 2006. The Order No. 10 (2006) purports, among other things, to require offshore SPVs, formed for overseas listing purposes and controlled by PRC companies or individuals, to obtain the approval of the CSRC prior to publicly listing their securities on an overseas stock exchange. On September 21, 2006, the CSRC published a notice on its official website specifying documents and materials required to be submitted to it by SPVs seeking CSRC approval of their overseas listings.

At the time of our initial public offering in October 2007, while the application of the M&A Rule remained unclear, our then PRC counsel at the time, Commerce & Finance Law Offices, had advised us that, based on their understanding of the then PRC laws and regulations as well as the procedures announced on September 21, 2006:

- the CSRC had jurisdiction over our initial public offering;
- the CSRC had not issued any definitive rule or interpretation concerning whether offerings like our initial public offering are subject to the M&A Rule; and
- despite the above, given that we had completed our inbound investment before September 8, 2006, the effective date of the M&A Rule, an application was not required under the M&A Rule to be submitted to the CSRC for its approval of the listing and trading of our ADSs on the Nasdaq Global Market, unless we are clearly required to do so by subsequent rules of the CSRC.

See “Item 3. Key Information — D. Risk Factors — Risks Related to Doing Business in China — The approval of the China Securities Regulatory Commission, or the CSRC, may have been required in connection with our initial public offering in October 2007 under a PRC regulation adopted in August 2006. Based on the advice of our PRC counsel, we did not seek CSRC’s approval for our initial public offering. Any requirement to obtain prior CSRC approval and a failure to obtain this approval, if required, could have a material adverse effect on our business, operating results, reputation and trading price of our ADSs.”

Regulations on Tax

PRC Enterprise Income Tax

The PRC EIT is calculated based on the taxable income determined under the PRC accounting standards and regulations, as well as the EIT law. On March 16, 2007, the National People’s Congress of China enacted the EIT Law, a new EIT law which became effective on January 1, 2008. On December 6, 2007, the State Council promulgated the Implementation Rules which also became effective on January 1, 2008. On December 26, 2007, the State Council issued the Notice on Implementation of Enterprise Income Tax Transition Preferential Policy under the EIT Law, or the Transition Preferential Policy Circular, which became effective simultaneously with the EIT Law. The EIT Law imposes a uniform EIT rate of 25% on all domestic enterprises and foreign-invested enterprises unless they qualify under certain exceptions. Under the EIT Law, as further clarified by the Implementation Rules, the Transition Preferential Policy Circular and other related regulations, enterprises that were established and already enjoyed preferential tax treatments before March 16, 2007 will continue to enjoy them in the following manners: (i) in the case of preferential tax rates, for a five-year period starting from January 1, 2008, during which the tax rate will gradually increase to 25%; or (ii) in the case of preferential tax exemption or reduction for a specified term, until the expiration of such term. However, if such an enterprise has not enjoyed the preferential treatments yet because of its failure to make a profit, its term for preferential treatment will be deemed to start from 2008. See “Item 3. Key Information — D. Risk Factors — Risks Related to Doing Business in China — The PRC Enterprise Income Tax Law may increase the enterprise income tax rate applicable to some of our PRC subsidiaries and consolidated affiliated entities, which could have a material adverse effect on our result of operations.”

Under the New Income Tax law, enterprises are classified as either resident or non-resident. A resident enterprise refers to one that is incorporated under the PRC law or under the law of a jurisdiction outside the PRC

with its "de facto management organization" located within the PRC. Non-resident enterprise refers to one that is incorporated under the law of a jurisdiction outside the PRC with its "de facto management organization" located also outside the PRC, but which has either set up institutions or establishments in the PRC or has income originating from the PRC without setting up any institution or establishment in the PRC. Under the New Enterprise Income Tax, Implementation Regulation, or the New EIT Implementation Regulations, "de facto management organization" is defined as the organization of an enterprise through which substantial and comprehensive management and control over the business, operations, personnel, accounting and properties of the enterprise are exercised. Under the New Income Tax Law and the New EIT Implementation Regulation, a resident enterprise's global net income will be subject to a 25% EIT rate. On April 22, 2009, the State Administration of Taxation, or the SAT, issued SAT Circular 82, which provides certain specific criteria for determining whether the "de facto management body" of a PRC-controlled enterprise that is incorporated offshore is located in China. In addition, the SAT issued a bulletin on July 27, 2011 providing more guidance on the implementation of Circular 82 and clarifies matters such as resident status determination. Due to the present uncertainties resulting from the limited PRC tax guidance on this issue and because substantially all of our operations and all of our senior management are located within China, we may be considered a PRC resident enterprise for EIT purposes, in which case: (i) we would be subject to the PRC EIT at the rate of 25% on our worldwide income; and (ii) dividends income received by us from our PRC subsidiaries, however, would be exempt from the PRC withholding tax since such income is exempted under the EIT Law for a PRC resident enterprise recipient. See "Item 3. Key Information — D.Risk Factors — Risks Related to Doing Business in China — Our global income or the dividends we receive from our PRC subsidiaries may be subject to PRC tax under the EIT Law, which could have a material adverse effect on our results of operations."

PRC Business Tax

Taxpayers providing taxable services in China are required to pay a business tax at a normal tax rate of 5% of their revenues, unless otherwise provided. According to the Announcement on the VAT Reform Pilot Program of the Transportation and Selected Modern Service Sectors issued by the State Tax Bureau in July 2012, the transportation and some selected modern service sectors, including research and development and technical services, information technology services, cultural creative services, logistics support services, tangible personal property leasing services, and assurance and consulting service sectors, should pay value-added tax instead of business tax based on a predetermined timetable (hereinafter referred to as the "VAT Reform"), effective September 1, 2012 for entities in Beijing and November 1, 2012 for entities in Guangdong. The VAT Reform expanded nation-wide from August 1, 2013. A total of seven of our entities that engage in consulting and information technology services meet the VAT Reform requirements, and have started to pay value-added tax since the respectively effective days. Total value-added taxes paid during the year ended December 31, 2014 amounted to RMB15.0 million (US\$2.4 million).

Dividend Withholding Tax

Under the PRC tax laws effective prior to January 1, 2008, dividends paid to foreign investors by foreign-invested enterprises are exempt from PRC withholding tax. Pursuant to the EIT Law and the Implementation Rules, dividends generated after January 1, 2008 and distributed to us by our PRC subsidiaries through our BVI subsidiary are subject to a 10% withholding tax, provided that we are determined by the relevant PRC tax authorities to be a "non-resident enterprise" under the EIT Law. Pursuant to the Double Taxation Arrangement, which became effective on January 1, 2007, dividends from our PRC subsidiaries paid to us through our Hong Kong subsidiary InsCom HK Limited, in which we indirectly hold a 65.1% equity interest, may be subject to a withholding tax at a rate of 5%. However, as described above, we may be considered a PRC resident enterprise for EIT purposes, in which case dividends received by us from our PRC subsidiary would be exempt from the PRC withholding tax because such income is exempted under the EIT Law for a PRC resident enterprise recipient.

As there remains uncertainty regarding the interpretation and implementation of the EIT Law and the Implementation Rules, it is uncertain whether any dividends to be distributed by us, if we are deemed a PRC resident enterprise, to our non-PRC shareholders and ADS holders would be subject to any PRC withholding tax. See "Item 3. Key Information — D.Risk Factors — Risks Related to Doing Business in China — Under the EIT Law, dividends payable by us and gains on the disposition of our shares or ADSs could be subject to PRC taxation."

C. Organizational Structure

Principal Changes in Corporate Structure

Historically, PRC laws and regulations restricted foreign investment in and ownership of insurance intermediary companies. Accordingly, we conducted our business in China through contractual arrangements among our PRC subsidiaries, consolidated affiliated entities and their shareholders.

Changes in relation to Meidiya Investment and Yihe Investment

Prior to March 2009, three individuals, Mr. Jianguo Cui, Mr. Zhenyu Wang and Mr. Qiuping Lai held 24.7%, 26.4% and 48.9%, respectively, of the equity interests in each of Meidiya Investment, and Yihe Investment. Mr. Cui and Mr. Zhenyu Wang were designated by two of our shareholders, Cathay Auto Services Limited and CDH Inservice Limited, or CDH Inservice, respectively, and Mr. Lai is our president and co-founder. In March 2009, Mr. Cui and Mr. Zhenyu Wang transferred all of their respective equity interests in Meidiya Investment and Yihe Investment to Mr. Peng Ge, our chief financial officer. Following these transfers, Mr. Lai and Mr. Ge, both of whom are PRC citizens, held 48.9% and 51.1%, respectively, of the equity interests in each of Meidiya Investment and Yihe Investment.

In October 2010 and February 2011, our wholly-owned PRC subsidiary, CNinsure Insurance Sales Service Group Company Limited or CNinsure Group Company formerly known as Shenzhen Fanhua Nanfeng Investment Holding Co., Ltd., our wholly-owned PRC subsidiary, invested to subscribe for 20% of the equity interests in each of Yihe Investment and Meidiya Investment. In February 2012, CNinsure Group Company subscribed for additional interests in Meidiya Investment, increasing its shareholding in Meidiya Investment from 20% to 90%, and diluting the interests of Mr. Lai and Mr. Ge to 5.1% and 4.9%, respectively.

In August 2011, CISG Holdings acquired Minkfair Insurance Management Limited, or Minkfair, a Hong Kong company whose principal business is insurance distribution in Hong Kong. Subsequently, CNinsure Holdings Ltd., or CNinsure Holdings, a wholly-owned subsidiary of CISG Holdings, issued 1,000 of its shares to Minkfair. At the same time, CNinsure Holdings repurchased from CISG Holdings one ordinary share of CNinsure Holdings for total consideration of US\$1.00. As a result of these transactions, Minkfair directly owns 100% of the equity interests in CNinsure Holdings.

In October 2012, we obtained license approval from the CIRC to establish an insurance sales service group company and renamed Nanfeng Investment Shenzhen Fanhua Nanfeng Investment Holding Co., Ltd. as “CNinsure Insurance Sales Service Group Company Limited” to serve as the holding company of our PRC operating entities.

Since May 2012, Meidiya Investment and Yihe Investment have transferred their equity interests in five of our subsidiaries, including CNinsure Lianxing Insurance Sales Co., Ltd. (also known as Fanhua Lianxing Insurance Sales Co., Ltd.), or CNinsure Lianxing, and CNinsure Times Insurance Sales & Service Co., Ltd., or CNinsure Times, both of which have national operating licenses, to CNinsure Group Company. Meidiya Investment and Yihe Investment have also transferred their equity interests in 19 of our affiliated entities to CNinsure Lianxing and CNinsure Times.

In January 2015, Mr. Lai and Mr. Ge transferred their respective equity interests in Meidiya Investment to CNinsure Group Company, our wholly-owned subsidiary. In addition, the contractual arrangements among Meidiya Investment, and their respective shareholders and subsidiaries were terminated. Consequently, Meidiya Investment became our wholly-owned subsidiary and ceased being a consolidated affiliated entity.

We are in the process of converting our insurance agencies, which are our wholly-owned subsidiaries or affiliates, into branches of CNinsure Lianxing and CNinsure Times. As of March 31, 2015, 11 of our 43 insurance intermediary companies have been converted into branches of CNinsure Lianxing and CNinsure Times. Consequently, Yihe Investment also no longer owns controlling interests in any of our insurance intermediary companies.

Changes in relation to InsCom Holdings and its Affiliates

In July 2010, CISG Holdings, our wholly owned subsidiary, acquired a 65.1% interest in InsCom Holdings to build our e-commerce platform.

Prior to April 26, 2011, two individual shareholders, Mr. Chunlin Wang, our chief executive officer, and Mr. Yuan Tian, vice president of our e-commerce insurance unit, held 95% and 5%, respectively, of the equity interests in Xinbao Investment. In April 2011, Ying Si Kang Information Technology (Shenzhen) Co., Ltd., or Ying Si Kang Information, a then wholly-owned PRC subsidiary of InsCom Holdings, Mr. Chunlin Wang and Mr. Tian

contributed RMB2.0 million, RMB7.5 million and RMB0.5 million, respectively, to increase the registered capital of Xinbao Investment. In March 2013, Ying Si Kang Information withdrew its capital contribution in Xinbao investment. As a result, Mr. Chunlin Wang and Mr. Tian now hold 93.75% and 6.25%, respectively, of the equity interests in Xinbao Investment.

In March 2014, InsCom HK Limited, a wholly-owned subsidiary of InsCom Holdings, transferred its 100% equity interest in Ying Si Kang Information to Litian Zhuoyue Software (Beijing) Co., Ltd, or Litian Zhuoyue, and established Bao Si Kang Information.

Corporate Structure

As of March 31, 2015, we, through CNinsure Group Company, have a controlling equity ownership in 37 insurance agencies, four insurance claims adjusting firms, two insurance brokerage companies and one online insurance service company. We also own 20.6% equity interests of a consumer financial service company and 19.5% equity interest of one wealth management company. In addition through contractual arrangements with Yihe Investment, Xinbao Investment and Dianliang Information, our current consolidated affiliated entities, we control one e-commerce insurance intermediary company, and one online mutual aid organization.

Most of the noncontrolling shareholders of the insurance intermediary companies majority-owned by CNinsure Group Company are the founders of those companies, entrepreneurial agents with whom we jointly set up the company or a venture capital firm who invests in start-up insurance agency companies. Some of those noncontrolling shareholders are in charge of the day-to-day operations of these companies. The direct and indirect subsidiaries or affiliates of CNinsure Group Company, Yihe Investment, Xinbao Investment and Dianliang Information hold the licenses and permits necessary to conduct our insurance intermediary business and internet insurance distribution business in China.

However, because of restrictions under PRC laws and regulations on foreign investment in the internet businesses and on the provision of wealth management products by insurance intermediaries, we rely on contractual arrangements to control and receive economic benefits from our consolidated affiliated entities.

Our contractual arrangements with our consolidated affiliated entities and their shareholders which include loan agreements, equity pledge agreements, powers of attorney, exclusive purchase option agreements, enable us to:

- exercise effective control over our consolidated affiliated entities;
- have an exclusive option to purchase all or part of the equity interests in each of our consolidated affiliated entities when and to the extent permitted by PRC law; and
- receive a substantial portion of the economic benefits from our consolidated affiliated entities in consideration for the services provided by our subsidiaries in China.

The following diagram illustrates our corporate structure, including our principal subsidiaries and consolidated affiliated entities as of March 31, 2015:

--- Ownership through nominee arrangements among Xinlian Information, Bao Si Kang Information, our consolidated entities Yihe Investment, Dianliang Information and Xinbao Investment and their individual shareholders

(1) The remaining 1% is owned by Sichuan Yihe Investment Co., Ltd.

(2) Direct or indirect ownership attributable to CNinsurance Sales Group through Meidiya Investment, CNinsure Times Insurance Sales & Service and CNinsure Lianxing Insurance Sales Co., Ltd.

The diagram above omits the names of subsidiaries and consolidated affiliated entities that are immaterial individually and in the aggregate. For a complete list of our subsidiaries and consolidated affiliated entities as of March 31, 2015, see Exhibit 8.1 to this annual report. In March 2015, we completed converting one insurance agency wholly-owned by Yihe Investment into a branch of CNinsure Lianxing. In January 2015, Mr. Lai and Mr. Ge, transferred their respective equity interests in Meidiya Investment to CNinsure Group Company. As a result, Meidiya Investment becomes our wholly-owned subsidiary and we have obtained direct equity ownership in all of our insurance intermediary businesses in the PRC.

The following is a summary of the key terms of our contractual arrangements with Yihe Investment, Xinbao Investment and Dianliang Information, our consolidated affiliated entities, and their shareholders. We had previously entered into similar contractual agreements with Meidiya Investment. These contractual agreements were terminated in January 2015.

Agreements that Provide Us Effective Control over Our Consolidated Affiliated Entities

Loan Agreements.

Yihe Investment. Each of the original individual shareholders of Yihe Investment, being Mr. Lai, Mr. Zhenyu Wang and Mr. Cui, entered into a loan agreement on December 20, 2005 with our subsidiary Xinlian Information, or the Xinlian Loans, for a zero interest loan from Xinlian Information. On February 27, 2009, in connection with the transfer of their respective equity interests in Yihe Investment to Mr. Ge, both Mr. Cui and Mr. Zhenyu Wang transferred all of their rights and obligations under their respective Xinlian Loan to Mr. Ge. As a result, the principal loan amounts to Mr. Lai and Mr. Ge were RMB9.8 million and RMB10.2 million, respectively, equal to their respective capital contributions in Yihe Investment.

The term of the Xinlian Loans are each ten years and may be extended upon written agreement of the parties, but it does not extend automatically. If the Xinlian Loans are not extended, then upon its expiration and subject to then applicable PRC laws, the loan can be repaid only with the proceeds from a transfer of the individual shareholder's equity interests in Yihe Investment to Xinlian Information or another person designated by Xinlian Information. Xinlian Information may accelerate the loan repayment upon certain events, including if the individual shareholder resigns or is dismissed from employment by us or if Xinlian Information exercises its option to purchase the shareholder's equity interests in Yihe Investment pursuant to the exclusive equity purchase option agreement described below.

The Xinlian Loans contain a number of covenants that restrict the actions the individual shareholder can take or cause Yihe Investment to take, and also requires the individual shareholder to take or cause Yihe Investment to take specific actions. For example, the individual shareholder must:

- not transfer, pledge or otherwise dispose of or encumber his equity interests in Yihe Investment, except for equity pledge for the benefit of Xinlian Information, without the prior written consent of Xinlian Information;
- not take any action that will have a material impact on the assets, business and liabilities of Yihe Investment without the prior written consent of Xinlian Information;
- not vote for, or execute any resolution to approve, the sale, transfer, mortgage, or disposal of, or the creation of any encumbrance on, any legal or beneficial interests in the equity of Yihe Investment, except to Xinlian Information or its designee, without the prior written consent of Xinlian Information;
- not vote for, or execute any resolutions to approve, any merger or consolidation with any person, or any acquisition of or investment in any person by Yihe Investment without the prior written consent of Xinlian Information;
- vote to elect the director candidates nominated by Xinlian Information;
- cause Yihe Investment not to supplement, amend or modify its articles of association in any manner, increase or decrease its registered capital or change the capital structure in any way without the prior written consent of Xinlian Information; and

- cause Yihe Investment not to execute any contract with a value exceeding RMB100,000, except in the ordinary course of business, without the prior written consent of Xinlian Information.

Xinbao Investment. On December 10, 2014, Mr. Chunlin Wang and Mr. Tian, the two shareholders of Xinbao Investment, entered into loan agreements, or, the Bao Si Kang Loans, with our subsidiary, Bao Si Kang Information, in which we indirectly hold a 65.1% equity interest. These loans replace the loan agreements entered into on December 3, 2010 and amended on April 2011 among Mr. Chunlin Wang, Mr. Tian and Bao Si Kang Information. The principal amounts lent to Mr. Chunlin Wang and Mr. Tian are RMB7.5 million and RMB0.5 million, respectively, equal to their respective capital contributions in Xinbao Investment. The terms of the Bao Si Kang Loans are similar to those in the Xinlian Loans described above.

Dianliang Information. The individual shareholder of Dianliang Information, being Mr. Rannuo Hu, who is our employee, entered into a loan agreement on April 2, 2014 with our subsidiary Xinlian Information, or the Dianliang Loan, for a zero interest loan from Xinlian Information. The principal amount lent to Mr. Rannuo Hu is RMB10 million (US\$1.6 million). The terms of the Dianliang Loan are similar to those of the Xinlian Loans described above.

Equity Pledge Agreements.

Yihe Investment. Mr. Lai and Mr. Ge entered into separate equity pledge agreements on December 20, 2005 and March 31, 2009, respectively, pledging their respective equity interests in Yihe Investment to Xinlian Information to secure their obligations under their respective Xinlian Loan. Mr. Lai and Mr. Ge also agreed not to transfer or create any encumbrances adverse to Xinlian Information on their respective equity interests in Yihe Investment. During the term of the equity pledge agreement, Xinlian Information is entitled to all the dividends declared on the pledged equity interests. The equity pledge agreement will expire when the individual shareholder fully performs his obligations under the Xinlian Loan. The equity pledges were recorded on the shareholders register of Yihe Investment, and registered with the relevant local administration of industry and commerce.

Xinbao Investment. Mr. Chunlin Wang and Mr. Tian entered into separate equity pledge agreements on December 10, 2014, pledging their respective equity interests in Xinbao Investment to Bao Si Kang Information to secure their obligations under the Bao Si Kang Loans, replacing the equity pledge agreements as amended in April 2011 and the supplemental agreement entered into in December 2013. The terms of the equity pledge agreements are substantially similar to equity pledge agreements for Yihe Investment. The equity pledges were recorded on the shareholders' register of Xinbao Investment, and registered with the relevant local administration of industry and commerce.

Dianliang Information. Mr. Rannuo Hu, entered into an equity pledge agreement on April 2, 2014, pledging his equity interests in Dianliang Information to Xinlian Information to secure his obligations under the Dianliang Loan. Terms of the equity pledge agreement is substantially similar to equity pledge agreements for Yihe Investment. The equity pledge was recorded on the shareholders' register of Dianliang Information, and registered with the relevant local administration of industry and commerce.

Power of Attorney.

Yihe Investment. Mr. Lai and Mr. Ge executed powers of attorney on December 20, 2005 and March 31, 2009, respectively, each appointing a person designated by Xinlian Information as his attorney-in-fact on all matters requiring shareholder approval. Further, if Xinlian Information designates the shareholder to attend a shareholder's meeting of Yihe Investment, the individual shareholder agrees to vote his shares as instructed by Xinlian Information. The term of the power of attorney is ten years.

Xinbao Investment. Mr. Chunlin Wang and Mr. Tian executed powers of attorney on December 10, 2014, each appointing a person designated by Bao Si Kang Information as his attorney-in-fact on all matters requiring shareholder approval. Further, if Bao Si Kang Information designates the shareholder to attend a shareholder's meeting of Xinbao Investment, the individual shareholder agrees to vote his shares as instructed by Bao Si Kang Information. The term of the power of attorney is for ten years.

Dianliang Information. Mr. Rannuo Hu, the individual shareholders of Dianliang Information, executed powers of attorney on April 2, 2014, appointing a person designated by Xinlian Information as his attorney-in-fact on all matters requiring shareholder approval. Further, if Xinlian Information designates the shareholder to attend a shareholder's meeting of Dianliang Information, the individual shareholder agrees to vote his shares as instructed by Xinlian Information. The term of the power of attorney is for ten years.

Agreements that Provide Us the Option to Purchase the Equity Interests in Our Consolidated Affiliated Entities

Exclusive Purchase Option Agreements.

Yihe Investment. Mr. Lai and Mr. Ge entered into separate exclusive purchase option agreements on December 20, 2005 and March 31, 2009 to irrevocably grant Xinlian Information an exclusive option to purchase part or all of his equity interests in Yihe Investment, when and to the extent permitted by PRC law.

Xinbao Investment. Mr. Chunlin Wang and Mr. Tian entered into separate exclusive purchase option agreements on December 10, 2014 to irrevocably grant Bao Si Kang Information an exclusive option to purchase part or all of his equity interests in Xinbao Investment, when and to the extent permitted by PRC law. The purchase price will be the minimum price permitted under applicable PRC law. These agreements replace the exclusive purchase option agreements and the supplemental agreements entered into between Ying Si Kang Information, Xinbao Investment and each individual shareholder of Xinbao Investment.

Dianliang Information. Mr. Rannuo Hu entered into exclusive purchase option agreement on April 2, 2014 to irrevocably grant Xinlian an exclusive option to purchase part or all of his equity interests in Dianliang Information, when and to the extent permitted by PRC law. The purchase price will be the minimum price permitted under applicable PRC law.

Agreements that Transfer Economic Benefits to Us

Technology Service Agreements. Pursuant to technology service agreements between (i) Ying Si Kang Information, a subsidiary of Xinlian Information, and (ii) a subsidiary of Xinbao Investment, as well as certain other of our subsidiaries and affiliates, Ying Si Kang Information agreed to provide these entities with services to support the use of Mobile Sales Support System, such as transaction support, data maintenance, system security and efficiency maintenance and on-site support. In exchange, these entities each agree to pay a quarterly fee calculated primarily based on a percentage of their revenues. Each of these agreements has a term of one year.

Because of our contractual arrangements with Yihe Investment, Xinbao Investment, Dianliang Information and their shareholders, we are the primary beneficiary of Yihe Investment, Xinbao Investment and its subsidiaries and Dianliang Information and we consolidate them into our consolidated financial statements. In the years ended December 31, 2012, 2013 and 2014, aggregate revenues derived from these and other of our then-existing consolidated affiliated entities contributed 23.6%, 7.2% and 3.4%, respectively, of our total consolidated net revenues, based on our corporate structure as of the end of each year. As of December 31, 2012, 2013 and 2014, our consolidated affiliated entities accounted for an aggregate of 5.4%, 3.2% and 1.7%, respectively, of our consolidated total assets.

Due to the restriction on foreign investment in the internet industry, we expect to continue to rely on contractual arrangements to control and receive economic benefits from our current consolidated affiliated entities. In the opinion of Global Law Office, our PRC legal counsel: the ownership structures of our consolidated affiliated entities and our subsidiaries in China comply with all existing PRC laws and regulations;

- the contractual arrangements among our PRC subsidiaries, our consolidated affiliated entities and their individual shareholders, governed by PRC law are valid, binding and enforceable, and will not result in any violation of PRC laws or regulations currently in effect; and
- the business operations of our PRC subsidiaries and our consolidated affiliated entities comply in all material respects with existing PRC laws and regulations.

We have been advised by our PRC legal counsel, however, that there are substantial uncertainties regarding the interpretation and application of PRC laws and regulations. Accordingly, the PRC regulatory authorities may in the future take a view that is contrary to the above opinion of our PRC legal counsel. We have been further advised by our PRC counsel that if the PRC government finds that the agreements establishing the structure for operating our online operations do not comply with PRC government restrictions on foreign investment in the internet industry, we could be subject to severe penalties including being prohibited from continuing operations. See “Item 3. Key Information — D. Risk Factors — Risks Related to Our Corporate Structure — If the PRC government finds that the agreements that establish the structure for operating part of our China business do not comply with applicable PRC laws and regulations, we could be subject to severe penalties” and “Item 3. Key Information — D. Risk Factors — Risks Related to Doing Business in China — Uncertainties with respect to the PRC legal system could

adversely affect us.” To date we have not encountered any interference or encumbrance from the PRC government on account of operating our business through these agreements.

D. Property, Plant and Equipment

Our headquarters are located in Guangzhou, China, where we leased approximately 2,382.6 square meters of office space as of December 31, 2014. Our subsidiaries and consolidated affiliated entities leased approximately 35,314.5 square meters of office space as of December 31, 2014. In 2014, our total rental expenses were RMB27.5 million (US\$4.4 million).

Item 4A. Unresolved Staff Comments

None.

Item 5. Operating and Financial Review and Prospects

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and the related notes included in this annual report. This discussion and analysis contains forward-looking statements based upon current expectations that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of various factors, including those set forth under “Item 3. Key Information — D. Risk Factors” or in other parts of this annual report.

Following the sale of Datong on March 25, 2011, we present our financial results for the years ended December 31, 2010 and 2011 on both a continuing and discontinued basis. Profits and losses related to Datong were presented as discontinued operations while profits and losses for the remaining business were presented as continuing operations.

A. Operating Results

Factors Affecting Our Results of Operations

As an insurance intermediary in China, our financial condition and results of operations are affected by a variety of factors, including:

- total premium payments to Chinese insurance companies;
- the extent to which insurance companies in the PRC outsource the distribution of their products and claims adjusting functions;
- premium rate levels and commission and fee rates;
- the size and productivity of our sales force;
- acquisitions;
- commission rates for individual sales agents;
- product and service mix;
- share-based compensation expenses; and
- seasonality.

Total Premium Payments to Chinese Insurance Companies

The Chinese insurance industry has grown substantially in the past decade. Between 2003 and 2014, total insurance premiums increased from RMB388.0 billion to RMB2.0 trillion, representing a compound annual growth rate, or CAGR, of 16.2%, according to the CIRC. We believe that certain macroeconomic and demographic factors,

such as increasing per capita GDP and an aging population, have contributed to and will continue to drive the growth of the Chinese insurance industry in the long term.

We derive our revenue primarily from commissions and fees paid by insurance companies, typically calculated as a percentage of premiums paid by our customers to the insurance companies. Accordingly, industry-wide premium growth will have a positive impact on us. However, there is uncertainty when the rapid growth trend will resume. Any continued downturn in the Chinese insurance industry, whether caused by a general slowdown of the PRC economy or otherwise, may adversely affect our financial condition and results of operations.

The Extent to Which Insurance Companies in the PRC Outsource the Distribution of their Products and Claims Adjusting Functions

Historically, insurance companies in the PRC have relied primarily on their exclusive individual sales agents and direct sales force to sell their products. Only in recent years, as a result of increased competition, have some insurance companies gradually expanded their distribution channels to include insurance intermediaries such as commercial banks, postal offices, insurance agencies and insurance brokerages. In addition, because of a lack of established distribution networks of their own, some newly established insurance companies have chosen to rely primarily on insurance intermediaries to distribute their products while they focus on other aspects of their business.

As insurance companies in the PRC become more accustomed to outsourcing the distribution of their products to insurance intermediaries, they may allow insurance intermediaries to distribute a wider variety of insurance products and may provide more monetary incentives to more productive and effective insurance intermediaries. These and other similar measures designed to boost sales through insurance intermediaries can have a positive impact on our financial condition and results of operations. Similarly, as competition intensifies and the insurance market becomes more mature in China, we expect that more insurance companies will choose to outsource claims adjusting functions to professional service providers such as our affiliated claims adjusting firms while they focus on the core aspects of their business, including product development, asset and risk management.

Premium Rate Levels and Commission and Fee Rates

Because the commissions and fees we receive from insurance companies for the distribution of insurance products are generally calculated as a percentage of premiums paid by our customers to the insurance companies, our revenue and results of operations are affected by premium rate levels and commission and fee rates. Premium rate levels and commission and fee rates can change based on the prevailing economic conditions, competitive and regulatory landscape, and other factors that affect insurance companies. These other factors include the ability of insurance companies to place new business, underwriting and non-underwriting profits of insurance companies, consumer demand for insurance products, the availability of comparable products from other insurance companies at a lower cost, and the tax deductibility of commissions and fees. In addition, premium rates for certain insurance products, such as the mandatory automobile liability insurance that each automobile owner in the PRC is legally required to purchase, are tightly regulated by the CIRC. In some instances, we can negotiate for better rates as an incentive for generating a larger volume of business.

Since China's entry into the WTO in December 2001, competition among insurance companies has intensified as a result of a significant increase in the number of insurance companies and the existing insurance companies' expansion into new geographic markets. This competition has led to a gradual increase in the commission and fee rates offered to insurance intermediaries, and such increase has had a positive impact on our results of operations. Meanwhile, the intense competition among insurance companies also has led to a gradual decline in premium rate levels of some property and casualty insurance products. While such decline has had a negative impact on the commissions and fees we earned on a per policy sold basis, it also may have had a positive impact on our total commissions and fees revenue by increasing demand for, and our total sales volume of, those policies.

The Size and Productivity of Our Sales Force

As a distributor of insurance products, we generate revenue primarily through our sales force, which consists of individual sales agents in our distribution and service network and a relatively small number of in-house sales representatives. The size of our sales force and its productivity, as measured by the average number of insurance products sold per person, the average premium per product sold and the average premiums generated per person during any specified period, directly affect our revenue and results of operations. In recent years, some entrepreneurial management staffs or senior sales agents of major insurance companies in China have chosen to leave their employers or principals and become independent agents. We refer to these independent agents as

“entrepreneurial agents.” An entrepreneurial agent is usually able to assemble and lead a team of sales agents. We have been actively recruiting and will continue to recruit entrepreneurial agents to join our distribution and service network as our sales agents. Entrepreneurial agents have been instrumental to the development of our life insurance business.

Acquisitions

The professional insurance intermediary sector in China is still at an early development stage and highly fragmented. Historically, we have expanded our distribution and service network in part through selective acquisitions of high-quality independent insurance intermediary companies. Since 2008, we, through our consolidated affiliated entities in the PRC, acquired controlling interests in 18 insurance agencies (excluding Datong and its subsidiaries), five insurance claims adjusting firms (one of which was restructured into a holding company of the three claims adjusting firms) and one online insurance service company as of March 31, 2015. In recent years, market opportunities for independent insurance intermediaries have expanded rapidly due to the growth of the internet and we have launched several online platforms to embrace these opportunities. In order to strengthen the core competitiveness of our online platforms, we intend to seek acquisitions of businesses including leading wealth management companies engaged in internet finance, or companies that have innovative business models or leading technologies in internet finance. We expect acquisitions to have a positive impact on our results of operations in the long run. However, acquisitions also involve significant risks and uncertainties. See “Item 3. Key Information — Risk Factors — D.Risks Related to Our Business and Our Industry — If we fail to integrate acquired companies efficiently, or if the acquired companies do not perform to our expectations, our business and results of operations may be adversely affected.” In addition, any write-down of goodwill due to impairment and the amortization of intangible assets acquired could have a negative impact on our results of operations. See “Item 3. Key Information — D.Risk Factors — Risks Related to Our Business and Our Industry — If we are required to write down goodwill and other intangible assets, our financial condition and results may be materially and adversely affected.”

Commission Rates for Individual Sales Agents

A large component of our operating costs and expenses is commissions paid to our individual sales agents. In order to retain sales agents, we must pay commissions at a level comparable to the commissions paid by our competitors. Intensified competition for productive sales agents within the Chinese insurance industry and rising salaries in China have led to a significant increase in commission rates in recent years. The increase in commission rates has had a negative impact on our results of operations. If we are forced to further increase our commission rates for individual sales agents due to competition or otherwise, our operating costs and expenses will increase correspondingly.

Product and Service Mix

We began distributing automobile insurance products in 1999 and expanded our product offerings to other property and casualty insurance products in 2002 and then to individual life insurance products in 2006, primarily to individual customers. We further broadened our service offering to cover insurance claims adjusting services in 2008. We started to offer insurance brokerage services for commercial line insurance to corporate clients and reinsurance brokerage services in 2010 and referral services for wealth management products in 2012.

In the first quarter of 2014, we realigned our financial reporting structure into three business segments that more accurately reflect our organizational structure and changing business mix. Under the realigned business structure, our business is divided into three reporting operating segments: (1) insurance agency, (2) insurance brokerage, and (3) claims adjusting.

Insurance Agency Segment

Our largest segment by revenue, the insurance agency segment, provides a broad range of property and casualty and life insurance products to individual customers. The property and casualty insurance policies we distribute are typically for one-year terms, with a single premium payable at the beginning of the term. Accordingly, we receive a single commission or fee for each property and casualty policy our customers purchase. In order for us to have recurring commission and fee revenue from property and casualty insurance products, our customers have to renew their policies or purchase new policies through us every year. Most individual life insurance policies we sell require periodic payment of premiums, typically annually, during a pre-determined payment period, generally ranging from five to 25 years. For each such policy that we sell, insurance companies will pay us a first-year commission and fee based on a percentage of the first year’s gross premiums, and subsequent commissions and fees

based on smaller percentages of the renewal premiums paid by the insured throughout the payment period of the policy. Therefore, once we sell a life insurance policy with a periodic payment schedule, it can bring us a steady flow of commission and fee revenue throughout the payment period as long as the insured meets his or her premium payment commitment.

Because insurance companies pay us first-year commissions and fees for most life insurance products at rates higher than those for property and casualty insurance products, we expect a positive impact on our revenue if our distribution of life insurance products increases in the future. However, we will also incur a corresponding increase in operating costs because we pay our sales agents a higher commission and fee for distributing life insurance products. Hence, gross margin attributable to the agency segment remained relatively stable in 2012, 2013 and 2014.

Insurance Brokerage Segment

For insurance brokerage services in connection with commercial line insurance, insurance companies typically pay us brokerage fees as a percentage of the insurance premiums. We pay our in-house insurance brokers salary or non-affiliated brokers who we assist in the negotiation or placement of insurance programs with underwriters a share of the commissions we receive from insurance companies. Gross margin of this line of business was slightly higher than that of our retail line of property and casualty insurance business and our life insurance business and lower than that of claims adjusting business. We expect the revenues from our insurance brokerage business as a percentage of our total net revenues to increase over the next few years and that such an increase will have a positive impact on our gross margin and operating margin.

Claims Adjusting Segment

The fees we receive for our claims adjusting services are calculated based on the types of insurance involved. For services provided in connection with property and casualty insurance (other than marine cargo insurance and automobile insurance), our fees are calculated as a percentage of the recovered amount from insurance companies plus travel expenses. For services provided in connection with marine cargo insurance, our fees are charged primarily on an hourly basis and, in some cases, as a percentage of the amount recovered from insurance companies. For automobile insurance, our fees are generally fixed and the amounts collected are based on the types of services provided. In some cases, our fees are charged based on the number of claims adjustors involved in providing the services. We pay our in-house claims adjustors a base salary plus a commission calculated based on a small percentage of the service fees we receive from insurance companies or the insured. The claims adjusting business has become and likely will continue to be an important source of our net revenues. The gross margin and operating margin attributable to the claims adjusting business were higher than those for both property and casualty insurance products and life insurance product. We expect that revenues from our claims adjusting business as a percentage of our total net revenues to remain stable over the next few years.

Other Services

During 2012 and 2013, we received service fees from a subsidiary of CFSG for the provision of IT services and referral service fees from our wealth management product supplier if customers referred by our sales agents purchase wealth management products from the supplier. We paid commissions to our sales agents, which are calculated as a percentage of the value of wealth management products purchased by the customers. Gross margin from this business was higher than other business lines except for the claim adjustment business. However, in 2014 we discontinued providing IT services to the subsidiary of CFSG. We also ceased offering wealth management products to our customers because of tightened regulations on the distribution of wealth management products by insurance intermediaries.

Share-based Compensation Expenses

Our historical results of operations have been materially affected by the share-based compensation expenses incurred. In 2012, 2013 and 2014, we incurred share-based compensation expenses of RMB66.9 million, RMB45.3 million and RMB23.6 million (US\$3.8 million), respectively. See “Item 5. Operating and Financial Review and Prospects — A. Operating Results — Key Performance Indicators — Operating Costs and Expenses — Share-based Compensation Expenses” for a more detailed discussion of our historical share-based compensation expenses. In order to attract and retain the best personnel for positions of substantial responsibility, provide additional incentive to employees, directors and consultants and promote the success of our business, we adopted a share incentive plan

Net revenues from the insurance agency segment, in particular, automobile insurance products, have been our primary source of revenue since our inception. Net revenues from the insurance agency segment increased from 2012 to 2014. As the per capita automobile ownership in China is still low, automobile sales in China still have significant growth potential. Therefore, we expect that automobile insurance products will continue to be a significant contributor to our total net revenues in the next several years.

We established an insurance brokerage business unit to expand into the business of offering commercial lines of property and casualty insurance in 2010. Net revenues from the insurance brokerage segment increased from 2012 to 2014 in both absolute amounts and as a percentage of our total net revenues, primarily reflecting the strong growth of our insurance brokerage business during the period. As we continue to grow our insurance brokerage business, we expect that net revenues from the insurance brokerage segment will remain stable as a percentage of our total net revenues in the next few years.

We began providing claims adjusting services in 2008. Net revenues from our claims adjusting segment increased from 2012 to 2014 in absolute amounts, primarily reflecting the stable growth of our claims adjusting business during the period. As we continue to grow our claims adjusting business, we expect that net revenues from claims adjusting services will remain stable as a percentage of our total net revenues in the next few years.

Net revenues from other services mainly includes non-insurance related services such as referral services of wealth management products and IT service fees. We began to offer wealth management products to our insurance customers in 2012 and ceased the service in 2014 due to tightened regulations on the distribution of wealth management products by insurance intermediaries. In 2012 and 2013, we provided IT platform and software services to a third party and an affiliated entity through one of our affiliated entities, Litian Zhuoyue, including system operation, data storage, data maintenance, system security and efficiency maintenance, on-site support, software optimization and maintenance and other IT platform related services. We ceased providing IT services to these entities in 2014. We do not expect these service fees to constitute a significant portion of our total net revenues in the future.

The commissions and fees we receive from the distribution of insurance products are based on a percentage of the premiums paid by the insured. Commission and fee rates generally depend on the type of insurance products, the particular insurance company and the region in which the insurance products are sold. We typically receive payment of the commissions and fees from insurance companies for insurance products on a monthly basis. Some of the fees are paid to us annually or semi-annually in the form of performance bonuses after we achieve specified premium volume or policy renewal goals as agreed upon between the insurance companies and us.

We are compensated primarily by insurance companies for our claims adjusting services. The fees we receive for our claims adjusting services depend on the types of insurance involved. For services provided in connection with marine cargo insurance, our fees are charged primarily on an hourly basis and, in some cases, as a percentage of the amount recovered from insurance companies. For claims adjusting services related to automobile insurance, our fees are generally fixed on a per claim basis, or in some cases, on a per head basis. These fees are typically paid to us on a quarterly basis. For services provided in connection with other property and casualty insurance, our fees are calculated as a percentage of the recovered amount from insurance companies plus travel expenses. We typically receive payment for these fees on a semi-annual or annual basis.

Operating Costs and Expenses

Our operating costs and expenses consist of costs incurred in connection with the distribution of insurance products and the provision of claims adjusting services, selling expenses and general and administrative expenses. The following table sets forth the components of our operating costs and expenses, both in absolute amounts and as percentages of our net revenues, for the periods indicated.

	Year Ended December 31,						
	2012		2013		2014		
	RMB	%	RMB	%	RMB	US\$	
	(in thousands except percentages)						
Total net revenues	1,586,117	100.0	1,757,024	100.0	2,150,011	346,519	100.0
Operating costs	(1,085,809)	(68.5)	(1,293,372)	(73.6)	(1,615,157)	(260,316)	(75.1)
Selling expenses	(78,449)	(4.9)	(96,461)	(5.5)	(107,263)	(17,288)	(5.0)
General and administrative expenses	(356,033)	(22.4)	(349,205)	(19.9)	(396,692)	(63,935)	(18.5)
Total operating costs and expenses	(1,520,291)	(95.8)	(1,739,038)	(99.0)	(2,119,112)	(341,539)	(98.6)

Operating Costs

We incur costs primarily in connection with the distributions of insurance products and provisions of insurance brokerage and claims adjusting services. The costs that we incurred increased in absolute amounts each year from 2012 to 2014 primarily as a result of an increase in net revenues and an increase in the size of our sales force and claims adjusters. We rely mainly on individual sales agents and a small number of in-house sales representatives, and to a much lesser degree, on our online insurance marketplace for the distributions of insurance products. For insurance and reinsurance brokerage services, we mainly rely on our in-house brokers and non-affiliated brokers. For claims adjusting services, we rely entirely on our in-house claims adjusters. Costs incurred as a percentage of net revenues increased from 2012 to 2014, primarily due to a significant rise in policy acquisition costs and commission costs as a result of increasing labor cost pressure and greater market competition. We anticipate that our costs will continue to increase in absolute amounts as we further grow our business.

Selling Expenses

Our selling expenses primarily consist of:

- salaries and employment benefits for employees who work in back office below the provincial management level;
- office rental, telecommunications and office supply expenses incurred in connection with sales activities; and
- advertising and marketing expenses.

We expect that our selling expenses will continue to increase as we expand our distribution and service network in both existing markets and new geographic regions. As we grow in size, we also intend to spend more on marketing and advertising to enhance our brand recognition and promote our online platforms.

General and Administrative Expenses

Our general and administrative expenses principally comprise:

- salaries and benefits for our administrative staff;
- share-based compensation expenses for managerial and administrative staff;
- research and development expenses in relation to our mobile and online programs;
- professional fees paid for valuation, market research, legal and auditing services;
- compliance-related expenses, including expenses for professional services;
- depreciations and amortizations;
- office rental expenses;

- travel and telecommunications expenses;
- entertainment expenses;
- office supply expenses for our administrative staff; and
- foreign exchange loss.

We expect that our general and administrative expenses will increase as we hire additional administrative personnel, pay higher labor costs and incur additional costs in connection with the expansion of our business, and our efforts to develop our e-commerce platform.

Share-based compensation expenses. Share-based compensation expenses constituted one of the largest components of our general and administrative expenses in 2012, 2013 and 2014. We incurred share-based compensation with respect to certain managerial and administrative staff and a small number of sales agents in 2012, 2013 and 2014. The following table sets forth our share-based compensation expenses, both in absolute amounts and as percentages of our general and administrative expenses, for the periods indicated.

	For the Year Ended December 31,						
	2012		2013		2014		
	RMB	%	RMB	%	RMB	US\$	%
	(in thousands except percentages)						
Share-based compensation expenses	66,878	18.8	45,317	13.0	23,598	3,803	5.9
Others	289,155	81.2	303,888	87.0	373,094	60,132	94.1
General and administrative expenses	356,033	100.0	349,205	100.0	396,692	63,935	100.0

Our share-based compensation expenses in 2012, 2013 and 2014 were primarily attributable to the options granted in November 2008, March 2009 and March 2012.

For more information about our share-based compensation expenses, please see Note 19 to our audited consolidated financial statements included in this annual report.

Taxation

We and each of our subsidiaries and consolidated affiliated entities file separate income tax returns.

The Cayman Islands, the British Virgin Islands and Hong Kong

Under the current laws of the Cayman Islands and the British Virgin Islands, we and our subsidiaries incorporated in the British Virgin Islands are not subject to income or capital gains taxes. In addition, dividend payments are not subject to withholding tax in those jurisdictions. Our subsidiary incorporated in Hong Kong is subject to a normal profits tax rate of 16.5% of its assessable profits for the years of assessment ending March 31, 2013, 2014 and 2015. Payment of dividends is not subject to withholding tax in Hong Kong.

PRC

Pursuant to the PRC EIT laws in effect before January 1, 2008, most of our subsidiaries and consolidated affiliated entities in China were subject to the standard EIT rate, which was 33%. Our subsidiaries and consolidated affiliated entities located in Shenzhen, a special economic zone, were subject to an EIT rate of 15%. The EIT was calculated based on taxable income under PRC accounting principles. For some entities, the EIT is calculated based on the actual revenue at a deemed tax rate according to the local practices of the respective local tax bureaus in charge. In addition, our subsidiaries and consolidated affiliated entities in China are subject to a 5% business tax on gross revenues generated from providing services and two additional fees, the city construction fee and the education fee, which are generally calculated at 7% and 3%, respectively, on business tax.

On March 16, 2007, the National People's Congress of China enacted the EIT Law which became effective on January 1, 2008. On December 6, 2007, the State Counsel issued the Implementation Rules which became effective

on January 1, 2008. On December 26, 2007, the State Council issued the Transition Preferential Policy Circular which also became effective on January 1, 2008. According to the EIT Law, as further clarified by the Implementation Rules, the Transition Preferential Policy Circular and other related regulations, foreign-invested enterprises and domestic enterprises are subject to EIT at a uniform rate of 25%. The EIT rate of enterprises established before March 16, 2007 that were eligible for preferential tax treatments according to then effective tax laws and regulations will continue to enjoy such preferential tax treatments in the following manners: (1) in the case of preferential tax rates, for a five-year transition period starting from January 1, 2008, during which the EIT rate of such enterprises will gradually increase to the uniform 25% EIT rate by January 1, 2012; or (2) in the case of preferential tax exemption or reduction with a specified term, until the expiration of such term. However, if such an enterprise has not enjoyed the preferential treatments yet because of its failure to make a profit, its term for preferential treatment will be deemed to start from 2008.

As a result of the implementation of the EIT Law, certain preferential tax treatments enjoyed by some of our consolidated affiliated entities expired on January 1, 2008. Our effective tax rate increased significantly in 2008 and 2009 compared to 2007, primarily due to these expirations. According to the EIT Law and related regulations, the preferential tax rates enjoyed by some of our PRC subsidiaries and consolidated affiliated entities incorporated in Shenzhen, a special economic zone, will gradually increase to the uniform 25% EIT rate during the five year transition period. An increase in the EIT rates for those entities pursuant to the EIT Law could result in an increase in our effective tax rate, which could materially and adversely affect our results of operations.

Pursuant to a Notice of Preferential Policies of EIT, jointly issued by the PRC Ministry of Finance and the SAT on February 22, 2008, a newly established software enterprise was entitled to an exemption from EIT for the first two years and a 50% reduction of EIT for the following three years starting from the first profit-making year. Our affiliated entities, Litian Zhuoyue and Shenzhen CNinsure Software Technology Co., Ltd. (also known as Shenzhen Fanhua Software Technology Co., Ltd.), are entitled to the tax holidays under this notice from 2010 to 2014 and 2012 to 2016, respectively.

Critical Accounting Policies

We prepare financial statements in accordance with U.S. GAAP, which requires us to make judgments, estimates and assumptions that affect the reported amounts of our assets and liabilities and the disclosure of our contingent assets and liabilities at the end of each fiscal period, as well as the reported amounts of revenues and expenses during each fiscal period. We continually evaluate these judgments and estimates based on our own historical experience, knowledge and assessment of current business and other conditions, our expectations regarding the future based on available information and assumptions that we believe to be reasonable. This forms our basis for making judgments about matters that are not readily apparent from other sources. Since the use of estimates is an integral component of the financial reporting process, our actual results could differ from those estimates. Some of our accounting policies require a higher degree of judgment than others in their application.

The selection of critical accounting policies, the judgments and other uncertainties affecting application of those policies and the sensitivity of reported results to changes in conditions and assumptions are factors that should be considered when reviewing our financial statements. We believe the following accounting policies involve the most significant judgments and estimates used in the preparation of our financial statements.

Revenue Recognition

Our revenue is derived principally from the provision of insurance brokerage, agency and claims adjusting services. We recognize revenue when all of the following have occurred: persuasive evidence of an agreement with the insurance companies or insurance agencies exists, services have been provided, the fees for such services are fixed or determinable and collectability of the fee is reasonably assured.

Insurance agency services are considered to be rendered and completed, and revenue is recognized, at the time an insurance policy becomes effective, that is, when the signed insurance policy is in place and the premium is collected from the insured. We have met all the four criteria of revenue recognition when the premiums are collected by us or the respective insurance companies and not before, because collectability is not ensured until receipt of the premium. Accordingly, we do not accrue any commission and fees prior to the receipt of the related premiums. Insurance brokerage services revenue is recognized when the signed insurance policy is in place and the premium is collected from the insured and the commission settlement confirmation is received from insurance companies, because the commission rate for brokerage services is negotiated case by case and our fees are fixed when such confirmation is received. No allowance for cancellation has been recognized for agency and brokerage

businesses as we estimate, based on its past experience that the cancellation of policies rarely occurs. Any subsequent commission adjustments in connection with policy cancellations which have been de minimis to date are recognized upon notification from the insurance carriers. Actual commission and fee adjustments in connection with the cancellation of policies were 0.1%, 0.2% and 0.2% of the total commission and fee revenues during years ended December 31, 2012, 2013 and 2014, respectively. For agency and brokerage services, we may receive a performance bonus from insurance companies as agreed and per contract provisions. Once an agency and brokerage company achieves its performance target, typically a certain sales volume, the bonus will become due. The bonus amount is computed based on the insurance premium amount multiplied by an agreed-upon percentage. The contingent commissions are recorded when a performance target is being achieved.

Insurance claims adjusting services are considered to be rendered and completed, and revenue is recognized at the time loss adjusting reports are confirmed being received by insurance companies. We have met all the four criteria of revenue recognition when the service is provided and the loss adjusting report is accepted by insurance companies. We do not accrue any service fee before the receipt of an insurance company's acknowledgement of receiving the adjusting reports. Any subsequent adjustments in connection with discounts which have been de minimis to date are recognized in revenue upon notification from the insurance companies.

Other service fees include commission revenues derived from the referral of wealth management products to our customers. Revenues are recorded when the products have been sold to customers, at which time we have fulfilled all our services obligations.

We present revenue net of sales taxes incurred. The sales taxes amounted to RMB99.0 million, RMB99.9 million and RMB121.0 million (US\$19.5 million) for the years ended December 31, 2012, 2013 and 2014, respectively. According to the Announcement on the VAT Reform Pilot Program of the Transportation and Selected Modern Service Sectors issued by the State Tax Bureau in July 2012, the transportation and some selected modern service sectors, including research and development (R&D) and technical services, information technology services, cultural creative services, logistics support services, tangible personal property leasing services, and assurance and consulting service, should pay value-added tax instead of business tax based on a predetermined timetable (hereinafter referred to as the "VAT Reform"), effective September 1, 2012 for entities in Beijing and November 1, 2012 for entities in Guangdong. The VAT Reform expanded nation-wide in August 1, 2013.

Share-based Compensation

Employee share-based compensation

All forms of share-based payments to employees, including employee stock options and employee stock purchase plans, are treated the same as any other form of compensation by recognizing the related cost in the consolidated statement of income and comprehensive income (loss). Compensation cost related to employee stock options or similar equity instruments is measured at the grant date based on the fair value of the award and is recognized over the service period, which is usually the vesting period. If an award requires satisfaction of one or more performance, or service conditions (or any combination thereof), compensation cost is recognized if the requisite service is rendered, and no compensation cost is recognized if the requisite service is not rendered. We recognize compensation cost for an award with only service conditions that has a graded vesting schedule on a straight-line basis over the requisite service period for the entire award, provided that the amount of compensation cost recognized at any date must at least equal the portion of the grant-date value of the award that is vested at that date.

For awards with both service and performance conditions, if each tranche has an independent performance condition for a specified period of service, we recognize the compensation cost of each tranche as a separate award on a straight-line basis; if each tranche has performance conditions that are dependent of activities that occur in the prior service periods, we recognize the compensation cost on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was, in-substance, multiple awards.

No compensation cost is recognized for instruments that employees forfeit because a service condition or a performance condition is not satisfied.

Non-employee share-based compensation

Share-based compensation related to non-employees is recognized as compensation expenses ratably over the requisite service periods. We measure the cost of non-employee services received in exchange for share-based

compensation based on the fair value of the equity instruments issued. We measure the fair value of the equity instruments in these transactions on the measurement date, which is determined as the earlier of the date at which a commitment for performance by the counterparty to earn the equity instruments is reached, or the date at which the counterparty's performance is complete. The quantity and terms of the equity instruments issued to non-employees are not known up front as they are dependent upon counterparty performance conditions, we measure the equity instruments at their then-current lowest aggregate fair value at each reporting dates, and attributes the changes in those fair values over the future services period until the measurement date has been established.

Modification of an Award

A modification of the terms or conditions of an equity award is treated as an exchange of the original award for a new award. We measure the effects of a modification as follows:

a. Incremental compensation cost shall be measured as the excess, if any, of the fair value of the modified award determined over the fair value of the original award immediately before its terms are modified, measured based on the share price and other pertinent factors at that date; and

b. the total recognized compensation cost for an equity award shall at least equal the fair value of the award at the grant date unless at the date of the modification the performance or service conditions of the original award are not expected to be satisfied.

We record the incremental fair-value-based measure, if any, of the modified award, as compensation cost on the date of modification (for vested awards) or over the remaining service (vesting) period (for unvested awards).

Cancellation of an Award

A cancellation of an award that is not accompanied by the concurrent grant of (or offer to grant) a replacement award or other valuable consideration shall be accounted for as a repurchase for no consideration. Accordingly, any previously unrecognized compensation cost shall be recognized at the cancellation date.

We use the Black-Scholes and Binomial option-pricing model to determine the fair value of stock options. Determining the value of our share-based compensation expense in future periods requires the input of highly subjective assumptions, including estimated forfeitures and the price volatility of the underlying shares. The management estimates the forfeitures of the shares based on past employee retention rates and its expectations of future retention rates, and it will prospectively revise the forfeiture rates based on actual history. The share compensation charges may change based on changes to the actual forfeitures. The actual share-based compensation expenses may be materially different from the current expectations.

Share-based compensation expenses of RMB66.9 million, RMB45.3 million and RMB23.6 million (US\$3.8 million) for the years ended December 31, 2012, 2013 and 2014, respectively, were included in the general and administrative expenses.

Impairment of Goodwill, Intangible Assets and Long-lived Assets

Goodwill and intangible assets with indefinite lives are required to be tested for impairment at least annually or more frequently if events or changes in circumstances indicate that these assets might be impaired. If we determine that the carrying value of our goodwill or acquired intangible assets have been impaired, the carrying value will be written down.

To assess potential impairment of goodwill, we perform an assessment of the carrying value of our reporting units at least on an annual basis or when events and changes in circumstances occur that would more likely than not reduce the fair value of our reporting units below their carrying value. If the carrying value of a reporting unit exceeds its fair value, we would perform the second step in our assessment process and record an impairment loss to earnings to the extent the carrying amount of the reporting unit's goodwill exceeds its implied fair value. We estimate the fair value of our reporting units through internal analysis and external valuations as needed, which utilize income and market valuation approaches through the application of capitalized earnings and discounted cash flow. These valuation techniques are based on a number of estimates and assumptions, including the projected future operating results of the reporting unit, appropriate discount rates and long-term growth rates.

The fair value of each reporting unit is determined by analysis of discounted cash flows. The significant assumptions regarding our future operating performance are revenue growth rates, commission and fees growth rates, discount rates and terminal values. If any of these assumptions changes, the estimated fair value of our reporting units will change, which could affect the amount of goodwill impairment charges, if any.

In 2012, 2013 and 2014, management compared the carrying value of each reporting unit, including assigned goodwill, to its respective fair value, which is step one of the two-step impairment test. The fair values of all reporting units were estimated by using the income approach. Based on this quantitative test, it was determined that the fair value of each reporting unit tested exceeded its carrying amount and, therefore, step two of the two-step goodwill impairment test was not required. Management concluded that goodwill was not impaired as of December 31, 2012, 2013 and 2014.

- For the insurance agency segment, we projected a five-year discounted cash flow. Basic assumptions in the cash flow projection included, among others, an estimated annual growth of between 5% to 15% in net revenues in the coming 5 years with reference to the stabilizing growth rate in 2014 a terminal revenue growth rate of 3%, and gross profit of 23% to 25%, which is similar to the level in 2014. Any projection beyond 5 years by us cannot be estimated with reasonable accuracy, since the business environment is rapidly changing. The discount rate was set at 22%, based on the segment's weighted average cost of capital and adjusted to reflect our and business-specific risks. For the agency segment, we had goodwill of RMB133.5 million (US\$21.5 million) as of December 31, 2014. The estimated fair value of the reporting unit exceeded its carrying value at December 31, 2014. Consequently, no goodwill impairment has been recognized.
- For the claims adjusting segment, related goodwill was completely written off in 2011.

The use of discounted cash flow methodology requires significant judgments including estimating future revenues and costs, industry economic factors, future profitability, determination of our weighted average cost of capital and other variables. Although we believe that the assumptions adopted in our discounted cash flow model are reasonable, those assumptions are inherently unpredictable and uncertain. If the reporting unit is at risk of failing step one of the impairment test, we will describe the material events, trends and uncertainties that affect the reported income and the extent to which income is so affected.

Amortizable intangible assets and long-lived assets are required to be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable from its undiscounted future cash flow. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge shall be recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset.

Impairment of intangible assets with definite lives

We evaluate the recoverability of identifiable intangible assets with determinable useful lives, whenever events or changes in circumstances indicate that these assets' carrying amounts may not be recoverable. We measure the carrying amount of identifiable intangible asset with determinable useful live against the estimated undiscounted future cash flows associated with it. Impairment exists when the sum of the expected future net cash flows is less than the carrying value of the asset being evaluated. Impairment loss is calculated as the amount by which the carrying value of the asset exceeds its fair value. Fair value is estimated based on various valuation techniques, including the discounted value of estimated future cash flows. The evaluation of asset impairment requires us to make assumptions about future cash flows over the life of the asset being evaluated. These assumptions require significant judgment and actual results may differ from assumed and estimated amounts. During the years ended December 31, 2012, 2013 and 2014, no impairment loss on identifiable intangible assets with determinable useful lives was recognized.

Impairment of indefinite-lived intangible assets

An intangible asset that is not subject to amortization is tested for impairment at least annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. Such impairment test is to compare the fair values of assets with their carrying amounts and an impairment loss is recognized if and when the carrying amounts exceed the fair values. The estimates of fair values of intangible assets not subject to amortization are determined using various discounted cash flow valuation methodologies. Significant assumptions are inherent in this process, including estimates of discount rates or market price. Discount rate assumptions are based on an assessment of the risk inherent in the respective intangible assets. Market prices are based on potential purchase quote from third party, if any. During the years ended December 31, 2012, 2013 and 2014, no impairment loss on its indefinite-lived intangible assets was recognized.

Income Taxes

We recognize deferred tax assets and liabilities for temporary differences between the tax basis of assets and liabilities and their reported amounts in the financial statements, net operating loss carry-forwards and credits by applying enacted statutory tax rates applicable to future years. Deferred tax assets are reduced by a valuation allowance when, in our opinion, it is more likely than not that some portion or all of the deferred tax assets will not be realized. We record a valuation allowance to reduce our deferred income tax assets to an amount that we believe will more likely than not be realized. We have considered future taxable income and ongoing prudent and feasible tax planning strategies in assessing the need and amount for the valuation allowance. In the event we were to determine that we would be able to realize our deferred income tax assets in the future in excess of our net recorded amount, an adjustment to our deferred income tax assets would increase income in the period such determination was made. Alternatively, should we determine that we would not be able to realize all or part of our net deferred income tax assets in the future, an adjustment to our deferred income tax assets would decrease income in the period such determination was made. Current income taxes are provided for in accordance with the laws of the relevant taxing authorities. The components of the deferred tax assets and liabilities are individually classified as current and non-current based on their characteristics.

We recognize in our financial statements uncertainties in income taxes by prescribing a recognition threshold and measurement attributes for financial statement disclosure of tax positions taken, or expected to be taken on a tax return, based on the standards of ASC subtopic 740-10 ("ASC 740-10"), *Income taxes*. The impact of an uncertain income tax position on the income tax return is recognized at the largest amount that is more-likely-than- not to be sustained upon audit by the relevant taxing authority. An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained.

In 2014, we have adopted FASB ASU No. 2013-11—Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists prospectively, to present an unrecognized tax benefit, or a portion of an unrecognized tax benefit, in the balance sheets as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except to the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require us to use, and we do not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit is presented in the balance sheets as a liability.

Recent Accounting Pronouncements

In May 2014, the FASB issued a new pronouncement which affects any entity using U.S. GAAP that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets unless those contracts are within the scope of other standards (e.g., insurance contracts or lease contracts). This ASU will supersede the revenue recognition requirements in Topic 605, *Revenue Recognition*, and most industry-specific guidance. This ASU also supersedes some cost guidance included in Subtopic 605-35, *Revenue Recognition—Construction-Type and Production-Type Contracts*. In addition, the existing requirements for the recognition of a gain or loss on the transfer of nonfinancial assets that are not in a contract with a customer (e.g., assets within the scope of Topic 360, *Property, Plant, and Equipment*, and intangible assets within the scope of Topic 350, *Intangibles—Goodwill and Other*) are amended to be consistent with the guidance on recognition and measurement (including the constraint on revenue) in this ASU.

The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the following steps:

- Step 1: Identify the contract(s) with a customer.
- Step 2: Identify the performance obligations in the contract.
- Step 3: Determine the transaction price.
- Step 4: Allocate the transaction price to the performance obligations in the contract.
- Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation.

For a public entity, the amendments in this ASU are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted.

An entity should apply the amendments in this ASU using one of the following two methods:

1. Retrospectively to each prior reporting period presented and the entity may elect any of the following practical expedients:

- For completed contracts, an entity needs not restate contracts that begin and end within the same annual reporting period.
- For completed contracts that have variable consideration, an entity may use the transaction price at the date the contract was completed rather than estimating variable consideration amounts in the comparative reporting periods.
- For all reporting periods presented before the date of initial application, an entity needs not disclose the amount of the transaction price allocated to remaining performance obligations and an explanation of when the entity expects to recognize that amount as revenue.

2. Retrospectively with the cumulative effect of initially applying this ASU recognized at the date of initial application. If an entity elects this transition method it should also provide the additional disclosures in reporting periods that include the date of initial application of:

- The amount by which each financial statement line item is affected in the current reporting period by the application of this ASU as compared to the guidance that was in effect before the change.
- An explanation of the reasons for significant changes.

We are in the process of assessing the impact of adoption of this pronouncement on its consolidated financial condition or results from operations.

In June 2014, the FASB issued a new pronouncement which requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Topic 718, *Compensation – Stock Compensation*, as it relates to awards with performance conditions that affect vesting to account for such awards. The performance target should not be reflected in estimating the grant-date fair value of the award. Compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the period(s) for which the requisite service has already been rendered. If the performance target becomes probable of being achieved before the end of the requisite service period, the remaining unrecognized compensation cost should be recognized prospectively over the remaining requisite service period. The total amount of compensation cost recognized during and after the requisite service period should reflect the number of awards that are expected to vest and should be adjusted to reflect those awards that ultimately vest. The requisite service period ends when the employee can cease rendering service and still be eligible to vest in the award if the performance target is achieved.

The amendments in this ASU are effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. Earlier adoption is permitted.

Entities may apply the amendments in this ASU either: (a) prospectively to all awards granted or modified after the effective date; or (b) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. If retrospective transition is adopted, the cumulative effect of applying this ASU as of the beginning of the earliest annual period presented in the financial statements should be recognized as an adjustment to the opening retained earnings balance at that date. In addition, if retrospective transition is adopted, an entity may use hindsight in measuring and recognizing the compensation cost. We do not expect the adoption of this pronouncement to have a significant impact on our consolidated financial condition or results from operations.

In January 2015, the FASB issued a new pronouncement which eliminates from U.S. GAAP the concept of extraordinary items. Subtopic 225-20, *Income Statement - Extraordinary and Unusual Items*, required that an entity separately classify, present, and disclose extraordinary events and transactions. Presently, an event or transaction is presumed to be an ordinary and usual activity of the reporting entity unless evidence clearly supports its classification as an extraordinary item.

If an event or transaction meets the criteria for extraordinary classification, an entity is required to segregate the extraordinary item from the results of ordinary operations and show the item separately in the income statement, net of tax, after income from continuing operations. The entity also is required to disclose applicable income taxes and either present or disclose earnings-per-share data applicable to the extraordinary item.

The FASB heard from stakeholders that the concept of extraordinary items causes uncertainty because it is unclear when an item should be considered both unusual and infrequent. Additionally, some stakeholders said that although users find information about unusual or infrequent events and transactions useful, they do not find the extraordinary item classification and presentation necessary to identify those events and transactions. Other

stakeholders noted that it is extremely rare in current practice for a transaction or event to meet the requirements to be presented as an extraordinary item.

The amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. A reporting entity may apply the amendments prospectively. A reporting entity also may apply the amendments retrospectively to all prior periods presented in the financial statements. Early adoption is permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. We do not expect the adoption of this pronouncement to have a significant impact on our consolidated financial condition or results from operations.

Results of Operations

The following table sets forth our net revenues, operating costs and expenses and income from operations by reportable segments for the periods indicated.

Before January 1, 2014, we operated in three operating segments: (1) property and casualty insurance; (2) life insurance; and (3) insurance claims adjusting services. In the first quarter of 2014, we realigned our financial reporting structure to more accurately reflect our organizational structure and changing business mix. Under the realigned business structure, our business is divided into three reporting operating segments: (1) insurance agency, (2) insurance brokerage, and (3) claims adjusting. Historical results reflecting the new business segments for 2012, 2013 and 2014 are also restated.

For the Year Ended December 31,

Year ended December 31, 2014 Compared to Year Ended December 31, 2013

Net Revenues

Our total net revenues increased by 22.4% from RMB1.8 billion in 2013 to RMB2.2 billion (US\$346.5 million) in 2014 primarily attributable to increases in net revenues from our insurance agency, claims adjusting and insurance brokerage segments.

- Net revenues from our insurance agency segment increased by 14.5% from RMB1.4 billion in 2013 to RMB1.6 billion (US\$261.8 million) in 2014, primarily resulting from the increases in sales volume and acquisition of three agency companies in April 2014.
- Net revenues from insurance brokerage segment increased by 266.8% from RMB63.4 million in 2013 to RMB232.6 million (US\$37.5 million) in 2014, primarily due to an increase in our customer base as a result of efforts to expand sales channels, develop innovative product offerings and cultivate markets in the past three years and the low base in this segment during year of 2013.
- Net revenues from our claims adjusting segment increased by 12.2% from RMB261.2 million in 2013 to RMB293.0 million (US\$47.2 million) in 2014. The increase primarily resulted from sales volume growth in the auto-related claims adjustment business.

Operating Costs and Expenses

Operating costs and expenses increased by 21.9% from RMB1.7 billion in 2013 to RMB2.1 billion (US\$341.5 million) in 2014.

Operating Costs. Our operating costs increased by 24.9% from RMB1.3 billion in 2013 to RMB1.6 billion (US\$260.3 million) in 2014, primarily because of increases in operating costs for our agency insurance, brokerage insurance and claims adjusting segments.

- Operating costs for our agency insurance segment increased by 15.3% from RMB1.1 billion in 2013 to RMB1.3 billion (US\$203.4 million) in 2014. The significant increase was primarily due to the increase in commissions and fees paid to our sales agents, which reflected higher incentives to sales agents to promote the adoption of CNpad applications.
- Operating costs for our brokerage insurance segment increased by 292.0% from RMB47.4 million in 2013 to RMB185.6 million (US\$29.9 million) in 2014. The increase was primarily due to sales growth.

- Operating costs for our claims adjusting segment increased by 17.9% from RMB142.2 million in 2013 to RMB167.7 million (US\$27.0 million) in 2014. The increase was primarily due to an increase in sales volume and increased salaries for claims adjustors.

Selling Expenses. Our selling expenses increased by 11.2% from RMB96.5 million in 2013 to RMB107.3 million (US\$17.3 million) in 2014 primarily due to an increase in vehicle, office and marketing expenses.

General and Administrative Expenses. Our general and administrative expenses increased by 13.6% from RMB349.2 million in 2013 to RMB396.7 million (US\$63.9 million) in 2014. The increases is mainly due to expenses incurred on research and development of online projects like CNpad, eHuzhu and Chetong.net, offset by a decrease in share-based compensation expense.

Income from Operations

As a result of the foregoing factors, income from operations increased by 71.8% from RMB18.0 million in 2013 to RMB30.9 million (US\$5.0 million) in 2014.

- Income from operations for our agency insurance segment increased by 21.5% from RMB113.2 million in 2013 to RMB137.5 million (US\$22.1 million) in 2014.
- Income from operations for our brokerage insurance segment significantly increased by 267.0% from RMB9.7 million in 2013 to RMB35.6 million (US\$5.7 million) in 2014.
- Income from operations for our claims adjusting segment decreased by 35.6% from RMB27.1 million in 2013 to RMB17.4 million (US\$2.8 million) in 2014.

Other Income

Investment Income. Investment income represents income received from short term investments in collective trust products and interbank deposits. Our investment income increase by 397.9% from RMB8.9 million in 2013 to RMB44.2 million (US\$7.1 million) in 2014. The increase was primarily attributable to an increase in short term investment products.

Interest Income. Our interest income decreased by 2.4% from RMB84.3 million in 2013 to RMB82.3 million (US\$13.3 million) in 2014. The decrease was primarily due to a decrease in term deposits as a result of the increased short-term investments.

Others, Net. Our other income, net, was a loss of RMB4.6 million in 2013 compared to an income of RMB2.3 million(US\$0.4 million) in 2014, primarily due to the write-down of dividends receivables from Datong in 2013.

Income from Operations before Income Taxes and Income of Affiliates

As a result of the foregoing factors, our income from operations before income taxes and income of affiliates increased by 49.9% from RMB106.5 million in 2013 to RMB159.7 million(US\$25.7 million) in 2014.

Income Tax Expense

Our income tax expense decreased by 10.6% from RMB27.2 million in 2013 to RMB24.3 million (US\$3.9 million) in 2014. The effective tax rate in 2014 was 15.2% compared with 25.5% in 2013 due to (1) a tax exemption for two years and a 50% tax reduction for the succeeding three years enjoyed by our subsidiary, Ying Si Kang Information, starting from January 1, 2014; and (2) higher share-based compensation expenses charged for fiscal year 2013 which were non-tax deductible.

Share of Income of Affiliates

Our share of income of affiliates increased by 48.6% from RMB20.6 million in 2013 to RMB30.6 million (US\$4.9 million) in 2014, primarily due to the rapid growth of net income generated by CFSG.

Net Income

As a result of foregoing factors, our net income increased by 66.1% from RMB100.0 million in 2013 to RMB166.1 million (US\$26.8 million) in 2014.

Net Income Attributable to the Noncontrolling Interests

Our net income attributable to the non-controlling interests slightly decreased by 0.5% from RMB4.3 million in 2013 to RMB4.3 million (US\$0.7 million) in 2014.

Net Income Attributable to the Company's Shareholders

As a result of the foregoing, our net income attributable to our shareholders increased by 69.1% from RMB95.6 million in 2013 to RMB161.8 million (US\$26.1 million) in 2014.

Year ended December 31, 2013 Compared to Year Ended December 31, 2012

Net Revenues

Our total net revenues increased by 10.8% from RMB1.6 billion in 2012 to RMB1.8 billion in 2013 primarily attributable to increases in net revenues from our insurance agency segment, claims adjusting segment and insurance brokerage segment.

- Net revenues from our insurance agency segment increased by 8.7% from RMB1.3 billion in 2012 to RMB1.4 billion in 2013, primarily resulting from the increases in both commission rates and sales volume of property and casualty insurance products, offset by a decrease in revenue of life insurance products due to shifted focus to the sales of protection insurance products which have lower average premium per policy compared to participating insurance products.
- Net revenues from our brokerage segment increased by 29.8% from RMB48.9 million in 2012 to RMB63.4 million in 2013, primarily due to an increase of sale volume.
- Net revenues from our claims adjusting segment increased by 20.1% from RMB217.5 million in 2012 to RMB261.2 million in 2013. The increase primarily resulted from sales volume growth in the auto-related claims adjustment business.
- Net revenues from other services decreased by 3.9% from RMB14.5 million in 2012 to RMB13.9 million in 2013. Other services represented commission from wealth management products recommendation and IT services provided to an affiliate.

Operating Costs and Expenses

Operating costs and expenses increased by 14.4% from RMB1.5 billion in 2012 to RMB1.7 billion in 2013. The increase was primarily due to the increase in commissions and fees paid to our property and casualty insurance sales agents, which reflected higher commission rates in the automobile insurance market and higher policy acquisition costs due to increased competition from telemarketing by insurance companies, offset by the decrease of commission paid to life insurance agency due to the decrease in sales volume of life insurance products.

Operating Costs. Our operating costs increased by 19.1% from RMB1.1 billion in 2012 to RMB1.3 billion in 2013, primarily because of increases in operating costs for our agency insurance, brokerage insurance and claims adjusting segments.

- Operating costs for our agency insurance segment increased by 16.9% from RMB936.2 million in 2012 to RMB1.1 billion in 2013. The increase was primarily due to the increase in commissions and fees paid to our property and casualty insurance sales agents, which reflected higher commission rates in the automobile insurance market and higher policy acquisition costs due to increased competition from telemarketing by insurance companies, offset by the decrease of commission paid to life insurance agency due to the decrease in sales volume of life insurance products.
- Operating costs for our brokerage insurance segment increased by 59.3% from RMB29.7 million in 2012 to RMB47.4 million in 2013. The increase was primarily due to an increase in sales volume.

- Operating costs for our claims adjusting segment increased by 25.1% from RMB113.7 million in 2012 to RMB142.2 million in 2013. The increase was primarily due to increases in sales volume.
- Operating costs for other services increased by 45.3% from RMB6.1 million in 2012 to RMB8.9 million in 2013. Other services represented costs from wealth management products.

Selling Expenses. Our selling expenses increased by 23.0% from RMB78.4 million in 2012 to RMB96.5 million in 2013 primarily due to sales increases and increases in staff salary, travel, gasoline and office expenses mostly incurred by the claims adjusting segment due to staff increase.

General and Administrative Expenses. Our general and administrative expenses decreased slightly by 1.9% from RMB356.0 million in 2012 to RMB349.2 million in 2013.

Income from Operations

As a result of the foregoing factors, income from operations decreased by 72.7% from RMB65.8 million in 2012 to RMB18.0 million in 2013.

- Income from operations for our agency insurance segment decreased by 32.3 % from RMB167.2 million in 2012 to RMB113.2 million in 2013.
- Income from operations for our brokerage insurance segment significantly decreased by 32.5% from RMB14.4 million in 2012 to RMB9.7 million in 2013.
- Income from operations for our claims adjusting segment decreased by 12.1% from RMB30.8 million in 2012 to RMB27.1 million in 2013

Other Income

Interest Income. Our interest income decreased by 6.7% from RMB90.3 million in 2012 to RMB84.3 million in 2013. The decrease was primarily due to a decrease in the bank deposits as we increased short-term investment.

Others, Net. Our other income, net, decreased by 168.2% from RMB6.7 million in 2012 to a loss of RMB4.6 million in 2013, primarily due to the write-down of dividends receivables from Datong.

Income from Operations before Income Taxes and Income of Affiliates

As a result of the foregoing factors, our income from operations before income taxes and income of affiliates decreased by 33.6% from RMB160.5 million in 2012 to RMB106.5 million in 2013.

Income Tax Expense

Our income tax expense decreased from RMB50.4 million in 2012 to RMB27.2 million in 2013, primarily due to decrease in operating income. The effective tax rate in 2013 was 25.5% compared with 31.4% in 2012 due to higher share-based compensation expenses charged in 2012 which were non-tax deductible.

Share of Income of Affiliate

Our share of income of affiliates increased from RMB14.7 million in 2012 to RMB20.6 million in 2013, primarily due to the rapid growth of net income generated by CFSG.

Net Income

As a result of foregoing factors, our net income decreased by 19.8% from RMB124.7 million in 2012 to RMB100.0 million in 2013.

Net Income Attributable to the Noncontrolling Interests

We recorded RMB4.3 million in net income attributable to noncontrolling interests in 2013. In comparison, we recorded a RMB5.8 million net loss attributable to noncontrolling interests in 2012. The increase was primarily due to certain noncontrolling interest holding entities generated profit in 2013.

Net Income Attributable to the Company's Shareholders

As a result of the foregoing, our net income attributable to our shareholders decreased by 26.7% from RMB130.5 million in 2012 to RMB95.6 million in 2013.

Inflation

Inflation in China has impacted our results of operations. According to the National Bureau of Statistics of China, the consumer price index in China increased by 2.6% and 2.6% and 2.0% in 2012, 2013, and 2014, respectively. Our operating costs and expenses, such as sales agent and employee compensation and office operating expenses, increased significantly partly as a result of inflation in 2013 and 2014. Additionally, because a substantial portion of our assets consists of cash and cash equivalents, high inflation significantly reduced the value and purchasing power of these assets. We are not able to hedge our exposures to higher inflation in China. If high inflation persists in China in the future, our operational results may continue to be significantly affected.

Foreign Currency

The exchange rate between U.S. dollar and RMB has declined from an average of RMB8.2264 per U.S. dollar in July 2005 to RMB6.1886 per U.S. dollar in December 2014. The fluctuation of the exchange rate between the RMB and U.S. dollar and HK dollar resulted in foreign currency translation gain of RMB6.0 million (US\$1.0 million) in 2014, when we translated our financial assets from U.S. dollar and HK dollar into RMB. We have not hedged exposures to exchange fluctuations using any hedging instruments. See "Item 3. Key Information — D.Risk Factors — Risks Related to Doing Business in China — Fluctuation in the value of the RMB may have a material adverse effect on your investment." and "Item 11. Quantitative and Qualitative Disclosures about Market Risk — Foreign Exchange Risk."

B. Liquidity and Capital Resources

Cash Flows and Working Capital

Our principal sources of liquidity have been cash generated from our operating activities. As of December 31, 2014, we had RMB2.1 billion (US\$339.0 million) in cash. Our cash and cash equivalents consist of cash on hand, bank deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash, and have insignificant risk of changes in value related to changes in interest rates. Our principal uses of cash have been to fund acquisitions, developments of online projects including CNpad, Chetong.net, eHuzhu, establishing sales outlets, working capital requirements, automobiles and office equipment purchases, office renovation and rental deposits.

Although we consolidate the results of our PRC consolidated affiliated entities, we do not have direct access to their cash and cash equivalents or future earnings. But we can direct the use of their cash through agreements that provide us with effective control of these entities. Moreover, we receive quarterly fees from some of these consolidated affiliated entities in exchange for certain consulting and other services provided by us. See "Item 4. Information on the Company — C. Organizational Structure." We expect to require cash to fund our ongoing business needs, particularly the further expansion of our distribution and service network, expansion into the financial services business and development of online platforms.

We believe that our current cash and cash equivalents and anticipated cash flow from operations will be sufficient to meet our anticipated cash needs, including our cash needs for working capital and capital expenditures, for at least the next 12 months. We may, however, require additional cash due to changing business conditions or other future developments, including any investments or acquisitions we may decide to pursue. If our existing cash is insufficient to meet our requirements, we may seek to sell additional equity securities, debt securities or borrow from lending institutions. Financing may be unavailable in the amounts we need or on terms acceptable to us, if at all. The sale of additional equity securities, including convertible debt securities, would dilute our earnings per share. The incurrence of debt would divert cash for working capital and capital expenditures to service debt obligations and could result in operating and financial covenants that restrict our operations and our ability to pay dividends to

our shareholders. If we are unable to obtain additional equity or debt financing as required, our business operations and prospects may suffer.

The following table sets forth a summary of our cash flows for the periods indicated:

	Year Ended December 31,			
	2012	2013	2014	
	RMB	RMB	RMB	US\$
	(in thousands)			
Net cash generated from operating activities	157,808	185,945	261,649	42,170
Net cash (used in) generated from investing activities.....	234,914	(419,308)	(445,395)	(71,784)
Net cash (used in) generated from financing activities	(86,696)	3,350	(7,817)	(1,260)
Net increase (decrease) in cash and cash equivalents	306,026	(230,013)	(191,563)	(30,874)
Cash and cash equivalents at the beginning of the year	2,222,160	2,525,618	2,288,623	368,859
Cash and cash equivalents at the end of the year	2,525,618	2,288,623	2,103,068	338,953

Operating Activities

Net cash generated from operating activities amounted to RMB261.6 million (US\$42.2 million) for the year ended December 31, 2014, primarily attributable to (i) a net income of RMB166.1 million (US\$26.8 million), (ii) an add-back of depreciation of RMB28.2 million (US\$4.6 million), amortization of acquired intangible assets of RMB16.8 million and compensation expenses associated with stock options of RMB23.6 million (US\$3.8 million), which were non-cash items, and (iii) an increase of accounts payable of RMB27.5 million (US\$4.4 million), partially offset by (i) share of income of affiliates of RMB30.6 million (US\$4.9 million) which was also included in net income but did not have cash flow effect during the period and (ii) RMB15.4 million (US\$ 2.5 million) in investment income from investment in collective trust funds and inter-bank deposit.

Net cash generated from operating activities amounted to RMB185.9 million for the year ended December 31, 2013, primarily attributable to (i) a net income of RMB100.0 million; (ii) RMB45.3 million of share-based compensation cost which decreased from 2012 mainly because options granted to employees in March 2012 were recognized on an accelerated basis, (iii) RMB31.3 million of depreciation of fixed assets which increased significantly from 2012 due to the purchase of more fixed assets for our e-commerce operations in late 2012 and (iv) RMB13.7 million of amortization of acquired intangible assets, which were included in net income but did not affect cash flow during the period, offset by (i) share of income of affiliates amounting to RMB20.6 million, which was also included in net income but did not have cash flow effect during the period; and (ii) an increase of RMB12.5 million in accounts receivable, which negatively affected operating cash flow, primarily as a result of more bonuses due from insurance companies not yet collected as of December 31, 2013.

Net cash generated from operating activities amounted to RMB157.8 million for the year ended December 31, 2012, primarily attributable to (i) a net income of RMB124.7 million; and (ii) RMB66.9 million of share-based compensation cost, RMB26.3 million of depreciation of fixed assets and RMB15.3 million of amortization of acquired intangible assets, which were included in net income but did not affect cash flow during the period, offset by (i) share of income of affiliates amounting to RMB14.7 million, which was also included in net income but did not have cash flow effect during the period; and (ii) an increase of RMB34.4 million in accounts receivable, which negatively affected operating cash flow, primarily as a result of more bonuses due from insurance companies not yet collected as of December 31, 2012.

Investing Activities

Net cash used in investing activities for the year ended December 31, 2014 was RMB445.4 million (US\$71.8 million), primarily attributable to (i) cash used to purchase short term investments in financial products of RMB546.6 million (US\$88.1 million), (ii) cash paid out for acquisitions of subsidiaries of RMB62.7 million (US\$10.1 million), and (iii) cash advance to related parties of RMB62.7 million (US\$10.1 million), which mainly consisted of advances made to Sincere Fame, partially offset by (i) proceeds from disposal of short term investments of RMB118.2 million (US\$ 19.1 million) and (ii) a decrease in other receivables of RMB113.6 million (US\$18.3 million), mainly representing a repayment in loans from Jintaiping.

Net cash used in investing activities for the year ended December 31, 2013 was RMB419.3 million, primarily attributable to (i) purchases of short term investments in financial products of RMB283.9 million, (ii) payment for the purchase of office equipment of RMB36.2 million, (iii) increase in other receivables of RMB67.7 million,

mainly representing an increase in loans to Jintaiping, and (iv) advance made to related parties of RMB62.3 million, of which mainly consist of advances made to CFSG.

Net cash generated from investing activities for the year ended December 31, 2012 was RMB234.9 million, primarily attributable to (i) net repayment of RMB205.9 million from an affiliate, CFSG, during the year, and (ii) proceeds from disposal of short term investments of RMB71.1 million, offset by purchases of short term investments and office equipment of RMB40.6 million and RMB11.6 million, respectively.

Financing Activities

Net cash used in financing activities was RMB7.8 million (US\$1.3 million) for the year ended December 31, 2014, attributable to payment of RMB11.0 million (US\$1.8 million) for acquisitions of noncontrolling interests in subsidiaries, offset by proceeds received on exercise of stock options of RMB3.2 million (US\$0.5 million).

Net cash generated from financing activities was RMB3.4 million for the year ended December 31, 2013, attributable to a capital injection from noncontrolling interests of RMB3.4 million.

Net cash used in financing activities was RMB86.7 million for the year ended December 31, 2012, primarily attributable to (i) payment of RMB90.5 million for acquisitions of noncontrolling interests in subsidiaries; and (ii) a share repurchase amounting to RMB9.2 million, partially offset by a capital injection from noncontrolling interests of RMB12.7 million.

Capital Expenditures

We incurred capital expenditures of RMB41.5 million, RMB6.3 million and RMB6.2 million (US\$1.0 million) for the years ended December 31, 2012, 2013 and 2014, respectively. Our capital expenditures have been used primarily to construct our online platforms including CNpad, Chetong.net, Baoxian.com and eHuzhu, construct our operating platform, including our Core Business System and ERP-based financial and accounting system and to purchase automobiles and office equipment for newly established insurance intermediary companies. We estimate that our capital expenditures will increase in the following two or three years as we further expand our distribution and service network in China, and construct our e-commerce insurance platform. We anticipate funding our future capital expenditures primarily with net cash flows from financing and operating activities.

Borrowings

As of each of December 31, 2013 and 2014, we had no short-term or long-term bank borrowings.

Holding Company Structure

We are a holding company with no material operations of our own. We conduct our operations primarily through our subsidiaries in China and our consolidated affiliated entities, Yihe Investment, Xinbao Investment and its subsidiaries and Dianliang Information. As a result, our ability to pay dividends and to finance any debt we may incur depends upon dividends paid by our subsidiaries and consulting and service fees paid by our subsidiaries and consolidated affiliated entities. If our subsidiaries or any consolidated affiliated entities incur debt on their own behalf in the future, the instruments governing their debt may restrict their ability to pay dividends to us. Our wholly owned subsidiaries are permitted to pay dividends to us only out of their retained earnings, if any, as determined in accordance with PRC accounting standards and regulations. Under PRC law, each of our subsidiaries and consolidated affiliated entities in China is required to set aside at least 10% of its after-tax profits as reported in the PRC statutory financial statements each year, if any, to fund a statutory reserve until such reserve reach 50% of its registered capital, and to further set aside a portion of its after-tax profits to fund the employee welfare fund at the discretion of its board. Although the statutory reserves can be used, among other ways, to increase the registered capital and eliminate future losses in excess of retained earnings of the respective companies, the reserve funds are not distributable as cash dividends except in the event of liquidation of the companies. Furthermore, the EIT Law that took effect on January 1, 2008 has eliminated the exemption of EIT on dividend derived by foreign investors from foreign-invested enterprises and imposes on foreign-invested enterprises an obligation to withhold tax on dividend distributed by such foreign-invested enterprises. As of December 31, 2014, our restricted net asset was RMB2.1 billion (US\$331.3 million), including RMB131.3 million (US\$21.2 million) restricted net assets of our consolidated affiliated entities. This amount is composed of the registered equity of our PRC subsidiaries and consolidated affiliated entities and the statutory reserves described above.

We conduct part of our operations through our consolidated affiliated entities. In the years ended December 31, 2012, 2013 and 2014, aggregate revenues derived from our consolidated affiliated entities contributed 23.6%, 7.2% and 3.4%, respectively, of our total consolidated net revenues, based on our corporate structure as of the end of each year. Our operations that are not conducted through contractual arrangements with our consolidated affiliated entities primarily consist of our insurance agency, insurance brokerage and claims adjusting businesses. As of December 31, 2013 and 2014, our consolidated affiliated entities accounted for an aggregate of 3.2% and 1.7%, respectively, of our consolidated total assets. The assets that are not associated with our consolidated affiliated entities primarily consists of cash and cash equivalents, restricted cash, short term investments, accounts receivable, insurance premium receivables, other receivables, deferred tax assets, amounts due from related parties, other current assets, property, plant and equipment, goodwill, intangible assets, deferred tax assets, investments in affiliates and other non-current assets. As of December 31, 2013 and 2014, our consolidated affiliated entities accounted for an aggregate of 10.7% and 9.3%, respectively, of our consolidated current liabilities. Our ability to pay dividends depends upon dividends paid by our subsidiaries, which in turn partially depend upon earnings of our consolidated affiliated entities transferred to our subsidiaries in the form of payments under the technology consulting and services agreements. As of December 31, 2014, the total amount of service fees payable to our wholly owned subsidiaries from our consolidated affiliated entities was nil. As of December 31, 2014, we had aggregate undistributed earnings of approximately RMB1.9 billion (US\$317.1 million) that were available for distribution, including RMB50.6 million (US\$8.2 million) undistributed earnings of our consolidated affiliated entities. These undistributed earnings are considered to be indefinitely reinvested, and will be subject to PRC dividend withholding taxes upon distribution.

C. Research and Development, Patents and Licenses, etc.

None.

D. Trend Information

Other than as disclosed elsewhere in this annual report, we are not aware of any trends, uncertainties, demands, commitments or events for the period from January 1, 2014 to December 31, 2014 that are reasonably likely to have a material adverse effect on our net revenues, income, profitability, liquidity or capital resources, or that would cause the disclosed financial information to be not necessarily indicative of future operating results or financial conditions.

E. Off-Balance Sheet Commitments and Arrangements

We have not entered into any financial guarantees or other commitments to guarantee the payment obligations of third parties. We have not entered into any derivative contracts that are indexed to our shares and classified as shareholders' equity, or that are not reflected in our consolidated financial statements. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity. We do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or that engages in leasing, hedging or research and development services with us. As a result, as of December 31, 2014, we did not have any off-balance sheet arrangements that had or were reasonably likely to have a current or future effect on our financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

F. Contractual Obligations

The following table sets forth our contractual obligations and commercial commitments as of December 31, 2014:

	Payment Due by Period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
	(in thousands of RMB)				
Operating lease obligations.....	42,456	20,598	21,231	627	—
Total	<u>42,456</u>	<u>20,598</u>	<u>21,231</u>	<u>627</u>	<u>—</u>

Not included in the table above are uncertain tax liabilities of RMB53.9 million (US\$8.7 million). As we are unable to make reasonably reliable estimates of the period of cash settlement with the respective taxing authority, such liabilities are excluded from the contractual obligations table above.

Other than the contractual obligations and commercial commitments set forth above, we did not have any other material long-term debt obligations, operating lease obligations, purchase obligations or other material long-term liabilities as of December 31, 2014.

G. Safe Harbor

This annual report on Form 20-F contains statements of a forward-looking nature. These statements are made under the “safe harbor” provisions of the U.S. Private Securities Litigation Reform Act of 1995. You can identify some of these forward-looking statements by words or phrases such as “may,” “will,” “expect,” “anticipate,” “aim,” “estimate,” “intend,” “plan,” “believe,” “is/are likely to” or other similar expressions. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy and financial needs. These forward-looking statements include statements relating to:

- our anticipated growth strategies;
- the anticipated growth of our life insurance business;
- the anticipated growth of our e-commerce business;
- our future business development, results of operations and financial condition;
- factors that affect our future revenues and expenses;
- the future growth of the Chinese insurance industry as a whole and the professional insurance intermediary sector in particular;
- trends and competition in the Chinese insurance industry; and
- economic and demographic trends in the PRC.

You should thoroughly read this annual report and the documents that we refer to with the understanding that our actual future results may be materially different from and worse than what we expect. We qualify all of our forward-looking statements by these cautionary statements. We would like to caution you not to place undue reliance on forward-looking statements and you should read these statements in conjunction with the risk factors disclosed in “Item 3. Key Information — D. Risk Factors” of this annual report. Those risks are not exhaustive. We operate in an emerging and evolving environment. New risk factors emerge from time to time and it is impossible for our management to predict all risk factors, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statement.

You should not rely upon forward-looking statements as predictions of future events. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required under applicable law.

Item 6. Directors, Senior Management and Employees

A. Directors and Senior Management

The following table sets forth information regarding our directors and executive officers as of the date of this annual report.

Directors and Executive Officers	Age	Position/Title
Chunlin Wang.....	45	Chief Executive Officer
Qiuping Lai.....	61	President and Director
Peng Ge.....	43	Chief Financial Officer
Yinan Hu.....	49	Chairman
Xiaojun Shang.....	41	Director
Yunxiang Tang.....	69	Independent Director
Stephen Markscheid.....	61	Independent Director
Allen Warren Lueth.....	46	Independent Director
Mengbo Yin.....	59	Independent Director

Mr. Chunlin Wang became our chief executive officer in October 2011. From April 2011 to October 2011, he was our chief operating officer. From January 2007 to October 2011, he was vice president and head of the property and casualty insurance unit of our company. From 2003 to January 2007, he served as assistant to our chairman. From 2002 to 2005, he served as the general manager of Guangdong Nanfeng, one of our first affiliated insurance intermediaries in the PRC. From 1998 to 2002, Mr. Wang served as a branch manager at Guangzhou Nanyun Car Rental Services Co., Ltd. and later Guangdong Nanfeng Automobile Association Co., Ltd., our predecessors. Mr. Wang received his bachelor's degree in law from Central-Southern University of Politics and Law in China.

Mr. Qiuping Lai is our co-founder and has been our president and director since 2004. Mr. Lai has served as chairman of the board of directors of Guangdong Nanfeng, one of our first affiliated insurance intermediaries in the PRC, since 2002. From 1998 to 2002, he served as the general manager of Guangdong Nanfeng Automobile Association Co., Ltd., one of our predecessor companies that he co-founded in 1998. From 1994 to 1998, he served as the general manager of Guangdong Nanfeng Enterprises Co., Ltd., a company he co-founded that engaged in import and export, manufacturing of wooden doors and construction. From 1990 to 1994, Mr. Lai was an instructor of philosophy and later an associate dean of the department of law at Guangdong Institute for Managers in Finance and Trade. Mr. Lai received his bachelor's degree in philosophy from Jiangxi University in China.

Mr. Peng Ge has been our chief financial officer since April 2008. From 2005 to April 2008, he served as the general manager of the finance and accounting department and vice president of our company. From August 2007 to September 2008, he was also a director of our company. From 1999 to 2005, Mr. Ge headed our Beijing operations. From 1994 to 1999, Mr. Ge was a financial manager at a subsidiary of China National Native Produce and Animal By-Products Import & Export Corporation. Mr. Ge received his bachelor's degree in international accounting and his MBA degree from the University of International Business and Economics in China.

Mr. Yinan Hu is our co-founder and has been chairman of our board of directors since our inception in 1998. From 1998 to October 2011, Mr. Hu served as our chief executive officer. From 1993 to 1998, Mr. Hu served as chairman of the board of directors of Guangdong Nanfeng Enterprises Co., Ltd., a company he co-founded that engaged in import and export, manufacturing of wooden doors and construction. From 1991 to 1995, Mr. Hu was an instructor of money and banking at Guangdong Institute for Managers in Finance and Trade. Mr. Hu received a bachelor's degree and a master's degree in economics from Southwestern University of Finance and Economics in China.

Ms. Xiaojun Shang has been our director since August 2012. Ms. Shang has been an executive director of CDH Investments Management (Hong Kong) Limited, an asset management company based in Hong Kong, since October 2010. Prior to that, She was an executive director of CDH Investment Advisory Private Limited, a private equity fund management company based in Singapore, from 2009 to 2010, a vice president of CDH Investments Management (Hong Kong) Limited from 2007 to 2009 and a vice president of CDH China Management Company Limited from 2003 to 2007. Prior to joining CDH China Management Company Limited in 2003, Ms. Shang was an assistant vice president of GIC Special Investments' Asia Pacific private equity group, focusing on direct investment opportunities in China. From 1997 to 2001, she worked for DBS Land Limited and CapitaLand Residential Limited in business development, strategic planning, asset management and corporate planning areas.

Ms. Shang graduated with a Bachelor's degree in Business Administration with first class honors in 1996 from the National University of Singapore.

Mr. Yunxiang Tang, a senior economist, has been our independent director since May 2012. Mr. Tang served as general manager of the People's Insurance Company (Group) of China Limited, or the PICC and chairman of the Board of Directors of PICC P&C, PICC Asset Management Company Limited, PICC Life Insurance Company Limited and PICC Health Insurance Company Limited from 2000 to 2007. He was the president of Insurance Association of China from 2001 to 2003 and vice chairman of the CIRC from 1998 to 2000. Prior to that, he served in different senior leadership roles in the financial regulatory authorities, including head of the PBOC Guangdong Branch and chief of State Administration of Foreign Exchange, Guangdong Branch and assistant governor of the PBOC.

Mr. Stephen Markscheid has been our independent director since August 2007. Mr. Markscheid is currently a member of the board of directors and a member of the audit committee, compensation committee and/or nomination committee of Jinko Solar, Inc., China Ming Yang Wind Group Limited and ChinaCast Education Corporation and receiver of China Clean Energy Inc., all of which are public companies listed in U.S. He is currently the chief executive officer of Synergenz BioScience, Inc., a genomics company based in Hong Kong. Prior to that, Mr. Markscheid was the chief executive officer of HuaMei Capital Company, Inc., a Sino-U.S. investment advisory firm from 2006 to 2007. From 1998 to 2006, Mr. Markscheid served as senior vice president for global risk for GE Healthcare Financial Services and director of business development of GE Capital. Prior to joining GE, Mr. Markscheid worked as case leader for the Boston Consulting Group throughout Asia from 1994 to 1997. Prior to that, Mr. Markscheid had been a commercial banker for ten years in London, Chicago, New York, Hong Kong and Beijing with Chase Manhattan Bank and First National Bank of Chicago. Mr. Markscheid received his bachelor's degree in East Asian studies from Princeton University, a master's degree in international affairs and economics from the School of Advanced International Studies at Johns Hopkins University, and an MBA degree from Columbia University.

Mr. Allen Lueth has been our independent director since August 2007. Mr. Lueth is currently a member of the board of director, the remuneration committee and the audit committee of Greatview Aseptic Packaging Company Limited, a company listed in Hong Kong. Since December 2010, he has been the head of finance of Cardinal Health China, one of the world's leading pharmaceutical distributors, which acquired Zuellig Pharma China in November 2010. Prior to that, he was the vice president of finance and strategy of Zuellig Pharma China, a private company focused on pharmaceutical distribution, and was its chief financial officer from 2005 to February 2009. Mr. Lueth worked for GE Capital from 1998 to 2004 in a variety of roles, including chief financial officer and chief executive officer for the Taiwan operations, and the representative for China. Earlier, he served with Coopers & Lybrand as an auditor. Mr. Lueth obtained his certificate as a certified public accountant in 1991 and a certified management accountant in 1994. Mr. Lueth received his bachelor of science in accounting degree from the University of Minnesota and an MBA degree from the J.L. Kellogg School of Management.

Dr. Mengbo Yin has been our independent director since September 2008. He is currently a PhD advisor at Southwestern University of Finance and Economics in China, where he also serves as head of the university's postgraduate department. Previously, he was the dean of the university's school of finance from 1996 to 2007. Professor Yin received his master's and PhD degrees in finance from Southwestern University of Finance and Economics in China.

Employment Agreements

Each of our executive officers has entered into an employment agreement with us. Under these agreements, each of our executive officers is employed for a specified time period. We may terminate the employment for cause, at any time, without notice or remuneration, for certain acts of the employee, including but not limited to a conviction or plea of guilty to a felony, negligence or dishonesty to our detriment, failure to perform the agreed-to duties after a reasonable opportunity to cure the failure and failure to achieve the performance measures specified in the employment agreement. An executive officer may terminate his employment at any time with one-month prior written notice if there is a material reduction in his authority, duties and responsibilities or in his annual salary before the next annual salary review. Furthermore, we may terminate an executive officer's employment at any time without cause upon two-month advance written notice. In the event of a termination without cause by us, we will provide the executive officer a lump-sum severance payment in the amount of RMB500,000, unless otherwise specifically required by applicable law.

Each executive officer has agreed to hold, both during and after the employment agreement expires or is earlier terminated, in strict confidence and not to use, except as required in the performance of his duties in connection with the employment, any confidential information, trade secrets and know-how of our company or the confidential information of any third-party, including our consolidated affiliated entities and our subsidiaries, received by us. In addition, each executive officer has agreed to be bound by non-competition restrictions set forth in his employment agreement. Specifically, each executive officer has agreed not to, while employed by us and for one year following the termination or expiration of the employment agreement, (i) approach our clients, customers or contacts or other persons or entities introduced to the executive officer for the purpose of doing business with such person or entities, and will not interfere with the business relationship between us and such persons and/or entities; (ii) assume employment with or provide services as a director for any of our competitors, or engage, whether as principal, partner or otherwise, in any business which is in direct or indirect competition with our business; or (iii) seek directly or indirectly, to solicit the services of any of our employees who is employed by us at the date of the executive officer's termination, or in the year preceding such termination.

B. Compensation

In 2014, the aggregate cash compensation, including reimbursement of expenses, to our executive officers was approximately RMB2.3 million (US\$0.4 million), and the aggregate cash compensation to our non-executive directors was approximately RMB2.2 million (US\$0.4 million).

Share Incentives

2007 Share Incentive Plan

Our 2007 Share Incentive Plan is intended to attract and retain the best available personnel for positions of substantial responsibility, provide additional incentive to employees, directors and consultants and promote the success of our business. We have reserved 136,874,658 ordinary shares for issuance under our 2007 Share Incentive Plan, which was approximately 15% of our outstanding ordinary shares at the time we authorized the number of ordinary shares reserved for issuance.

On November 21, 2008, our board of directors approved the grant of options to purchase an aggregate of 32,000,000 ordinary shares to various directors, officers and employees pursuant to the 2007 Share Incentive Plan (the "2008 Option"). The exercise price of these options is US\$0.28 per ordinary share, equal to the closing price of our ADS on the Nasdaq Global Market at the grant date (after adjusting for the 20 ordinary shares to 1 ADS ratio). The options are scheduled to vest over a four-year period starting from March 31, 2010, subject to the achievement of certain key performance indicators by the option holders and their continued employment with us. As of December 31, 2014, in connection with the 2008 Option, options to purchase 2,685,300 ordinary shares had been exercised and options to purchase 1,314,220 ordinary shares had been forfeited due to certain employee's failure to meet performance target or to render the requisite service.

On March 9, 2009, our board of directors voted to grant options to purchase an aggregate of 10,000,000 ordinary shares to employees under the amended and restated 2007 Share Incentive Plan (the "2009 Option"). The exercise price of these options is US\$0.34 per ordinary share, equal to the closing price of our ADS on the Nasdaq Global Select Market at the grant date (after adjusting for the 20 ordinary shares to 1 ADS ratio). These options are scheduled to vest over a four-year period starting from March 31, 2010, subject to the achievement of certain key performance indicators by the option holders and their continued employment with us. As of December 31, 2014, in connection with the 2009 Option, options to purchase 1,348,280 ordinary shares had been exercised, and options to purchase 1,651,720 ordinary shares had been forfeited due to certain employee's failure to meet performance target or to render the requisite service.

On February 8, 2010, our board of directors approved the grant of options to purchase an aggregate of 48,000,000 ordinary shares to various directors, officers and employees pursuant to the amended and restated 2007 Share Incentive Plan. The exercise price of these options is US\$0.84 per ordinary share, equal to the closing price of our ADS on the Nasdaq Global Select Market at the grant date (after adjusting for the 20 ordinary shares to 1 ADS ratio). These options were scheduled to vest over a four-year period starting from March 31, 2011, subject to the achievement of certain key performance indicators by the option holders and their continued employment with our company. None of the options were exercised. Options to purchase 20,328,116 ordinary shares were forfeited due to a cessation of the option holders' employment and failure to fulfill certain key performance indicators by certain option holders during 2011. Options to purchase an aggregate of 27,671,884 ordinary shares, which represented all the remaining options granted on February 8, 2010, were cancelled in November 2011.

On April 28, 2011, our board of directors approved the grant of options to purchase an aggregate of 28,400,000 ordinary shares to certain directors, officers and employees pursuant to the amended and restated 2007 Share Incentive Plan (the “2011 Option”). The exercise price of these options is US\$0.73 per ordinary share, equal to the closing price of our ADS on the Nasdaq Global Select Market at the grant date (after adjusting for the 20 ordinary shares to one ADS ratio). These options were scheduled to vest over a four-year period starting from March 31, 2012, subject to the achievement of certain key performance indicators by the option holders and their continued employment with us. None of the options were exercised. Options to purchase 11,425,400 ordinary shares were forfeited due to a cessation of the option holders’ employment and failure to fulfill certain key performance indicators by certain option holders during 2011. Options to purchase an aggregate of 16,974,600 ordinary shares, which represented all the remaining 2011 Options, were cancelled in November 2011.

On March 12, 2012, pursuant to the amended and restated 2007 Share Incentive Plan, our board of directors approved the grant of options to certain directors, officers, key employees and sales agents to purchase an aggregate of 93,445,000 ordinary shares at an exercise price of US\$0.30 per ordinary share and approved the grant of options to two independent directors who are residents of the United States in an aggregate of 3,200,000 ordinary shares at an exercise price of US\$0.31 per ordinary share (the “2012 Options”). These options are scheduled to vest over a five-year period starting from May 31, 2012, subject to the achievement of certain key performance indicators by certain option holders and all option holders' continued employment with us. As of December 31, 2014, options to purchase 972,640 ordinary shares had been exercised and 2,761,379 ordinary shares had been forfeited due to option holders’ failure to meet the performance target or termination of employment or agency contracts.

In December 2013, the board of directors approved an option modification to extend the expiration dates of the outstanding 2008 Options and 2009 Options to December 31, 2017.

In November 2014, the board and compensation committee passed a resolution to modify the exercise price of the 2012 Options. The exercise price of the rest of the 2012 Options was reduced from US\$0.30 per ordinary share (for certain directors, officers, key employees and sales agents) and US\$0.31 per ordinary share (for two independent directors who are residents of the United States) to US\$0.001 per ordinary share while the maximum aggregate award of 96,645,000 ordinary shares was reduced to 46,722,500 ordinary shares. The options are subject to the same service period. As of December 31, 2014, except for the options granted to one of the independent directors, outstanding options to purchase 91,327,722 ordinary shares were modified into 45,663,861 shares options. There was no incremental cost as a result of such option modification. The following paragraphs describe the principal terms of our amended and restated 2007 Share Incentive Plan as currently in effect.

Types of Awards. The types of awards we may grant under our 2007 Share Incentive Plan include the following:

- options to purchase our ordinary shares;
- restricted shares, which represent non-transferable ordinary shares, that may be subject to forfeiture, restrictions on transferability and other restrictions; and
- restricted share units, which represent the right to receive our ordinary shares at a specified date in the future, which may be subject to forfeiture.

Awards may be designated in the form of ADSs instead of ordinary shares. If we designate an award in the form of ADSs, the number of shares issuable under the 2007 Share Incentive Plan will be adjusted to reflect the ratio of ADSs to ordinary shares.

Eligibility. We may grant awards to employees, directors and consultants of our company or any of our related entities, which include our subsidiaries or any entities in which we hold a substantial ownership interest. However, we may grant options that are intended to qualify as incentive share options, or ISOs, only to our employees and employees of our majority-owned subsidiaries.

Plan Administration. The compensation committee of our board of directors, or a committee designated by the compensation committee, will administer the 2007 Share Incentive Plan. However, awards made to our independent directors must be approved by the entire board of directors. The compensation committee or the full board of directors, as appropriate, will determine the individuals who will receive grants, the types of awards to be granted and terms and conditions of each award grant, including any vesting or forfeiture restrictions.

Award Agreement. Awards granted under our 2007 Share Incentive Plan will be evidenced by an award agreement that will set forth the terms, conditions and limitations for each award. In addition, in the case of options, the award agreement may also specify whether the option constitutes an ISO or a non-qualifying share option.

Acceleration of Awards upon Corporate Transactions. The outstanding awards will accelerate upon occurrence of a change-of-control corporate transaction where the successor entity does not assume our outstanding awards under the 2007 Share Incentive Plan. In such event, each outstanding award will become fully vested and immediately exercisable, and the transfer restrictions on the awards will be released and any forfeiture provisions will terminate immediately before the date of the change-of-control transaction. If the successor entity assumes our outstanding awards and later terminates the grantee's service without cause within 12 months of the change-of-control transaction, the outstanding awards will automatically become fully vested and exercisable.

Exercise Price and Term of Awards. The exercise price per share subject to an option will be determined by the plan administrator and set forth in the award agreement which may be a fixed or variable price related to the fair market value of our ordinary shares; *provided, however*, that no options may be granted to an individual subject to taxation in the United States at less than the fair market value on the date of grant. To the extent not prohibited by applicable laws or any exchange rule, a downward adjustment of the exercise prices of any outstanding options may be made in the absolute discretion of the plan administrator and will be effective without the approval of our shareholders or the approval of the affected participants. If we grant an ISO to an employee who, at the time of that grant, owns shares representing more than 10% of the voting power of all classes of our share capital, the exercise price cannot be less than 110% of the fair market value of our ordinary shares on the date of that grant. The term of each award will be stated in the award agreement. The term of an award shall not exceed 10 years from the date of the grant, except that five years is maximum term of an ISO granted to an employee who holds more than 10% of the voting power of our share capital.

Amendment and Termination. Our board of directors may at any time amend, suspend or terminate the 2007 Share Incentive Plan. Amendments to the 2007 Share Incentive Plan are subject to shareholder approval to the extent required by law, or stock exchange rules or regulations. Additionally, shareholder approval will be specifically required to increase the number of shares available for issuance under the 2007 Share Incentive Plan or to extend the term of an option beyond ten years. Unless terminated earlier, the 2007 Share Incentive Plan will expire and no further awards may be granted after the tenth anniversary of the shareholder approval of the 2007 Share Incentive Plan.

As of March 31, 2015, options to purchase 82,247,600 ordinary shares of CNinsure were outstanding. The following table summarizes, as of March 31, 2015, the outstanding options that we granted to our directors and executive officers and to other individuals as a group.

<u>Name</u>	<u>Options Outstanding</u>	<u>Exercise Price (Per Ordinary Share)(US\$)</u>	<u>Grant Date</u>	<u>Expiration Date</u>

InsCom Holdings Options

On March 29, 2012, the shareholders of InsCom Holdings, a subsidiary in which we hold 65.1% equity interests, adopted a share incentive plan, under which a maximum number of 202,400,000 ordinary shares of InsCom Holdings can be granted as options, equal to 20% of the total number of ordinary shares outstanding of InsCom Holdings as at March 28, 2012.

On April 2, 2012, InsCom Holdings granted options to purchase 36,515,586 ordinary shares of InsCom Holdings to certain property and casualty insurance sales agents and options to purchase 24,492,750 ordinary shares of InsCom Holdings to certain employees of InsCom Holdings and the headquarter at an exercise price of RMB1.00 per ordinary share. Pursuant to the option agreements entered into between InsCom Holdings and the option grantees, the options are scheduled to vest over a two-year period from 2012 to 2013. The number of options that the grantees are entitled to in each year will be calculated based on the key performance indicator scores of the grantees in the respective prior year and subject to their continued services. The expiration dates for options granted to agents and employees are December 31, 2014 and June 30, 2017, respectively.

On June 24, 2013, InsCom Holdings granted stock options to purchase 5,914,312 of its ordinary shares to certain sales agents and 14,744,000 of its ordinary shares to the employees of InsCom Holdings and its affiliates and the headquarter at an exercise price of RMB1.2 per ordinary share. Pursuant to the option agreements entered into between InsCom Holdings and the option grantees, the options are scheduled to vest over a two-year period from 2013 to 2014. The number of options that the grantees are entitled to in each year will be calculated based on the key performance indicator scores of the grantees in the respective prior year and subject to their continued services. The expiration dates for options granted to agents and employees are December 31, 2014 and June 30, 2018, respectively.

In December, 2013, the chairman of InsCom Holdings approved an option modification to extend the expiration dates of all InsCom options for one year and revised the exercise price of the options to RMB0.025 per ordinary share, the fair value as of the modification date.

On July 1, 2014, InsCom Holdings granted stock options to purchase 3,477,281 of its ordinary shares to its entrepreneurial agents and 8,189,000 ordinary shares to the employees of InsCom Holdings and CNinsure at an exercise price of RMB0.028 per ordinary share. Pursuant to the option agreements entered into between InsCom Holdings and the option grantees, the options are scheduled to vest over a two-year period from 2014 to 2015. The number of options that the grantees are entitled to in each year will be calculated based on the key performance indicator scores of the grantees in the respective prior year and subject to their continued services. The expiration dates for options granted to agents and employees are December 31, 2016 and June 30, 2018, respectively.

C. Board Practices

Board of Directors

Our board of directors consists of seven directors. Under our currently effective memorandum and articles of association, a director is not required to hold any shares in our company by way of qualification. A director may vote with respect to any contract, proposed contract or arrangement in which he is materially interested. The directors may exercise all the powers of our company to borrow money, mortgage its undertaking, property and uncalled capital, and issue debentures or other securities whenever money is borrowed or as security for any obligation of our company or of any third-party. The directors may receive such remuneration as our board of directors may determine from time to time. There is no age limit requirement for directors.

In compliance with Rule 5605 of the Nasdaq Listing Rules, a majority of our directors and all of the committee members of our board of directors are independent directors. During 2014, our board of directors met in person or passed resolutions by unanimous written consent nine times. In addition, our independent directors held executive sessions without the presence of non-independent directors or members of management twice during 2014. We have no specific policy with respect to director attendance at our annual general meetings of shareholders.

Committees of the Board of Directors

We have established three committees under the board of directors: the audit committee, the compensation committee and the corporate governance and nominating committee, and have adopted a charter for each of the committees. Each committee's members and functions are described below.

Audit Committee. Our audit committee consists of Allen Lueth (chairman), Stephen Markscheid and Mengbo Yin, all of whom satisfy the "independence" requirements of Rule 5605 of the Nasdaq Listing Rules and Rule 10A-3 under the Securities Exchange Act of 1934. The audit committee oversees our accounting and financial reporting processes and the audits of the financial statements of our company. The audit committee is responsible for, among other things:

- selecting the independent auditors and pre-approving all auditing and non-auditing services permitted to be performed by the independent auditors;
- reviewing with the independent auditors any audit problems or difficulties and management's response;
- reviewing and approving all proposed related-party transactions;
- discussing the annual audited financial statements with management and the independent auditors;
- reviewing major issues as to the adequacy of our internal controls and any special audit steps adopted in light of material control deficiencies;
- annually reviewing and reassessing the adequacy of our audit committee charter;
- meeting separately and periodically with management, the independent auditors and the internal auditor; and
- reporting regularly to the full board of directors.

In 2014, our audit committee held meetings or passed resolutions by unanimous written consent seven times.

Compensation Committee. Our compensation committee consists of Stephen Markscheid (chairman), Allen Lueth and Yunxiang Tang, all of whom satisfy the “independence” requirements of Rule 5605 of the Nasdaq Listing Rules. Our compensation committee assists the board of directors in reviewing and approving the compensation structure of our directors and executive officers, including all forms of compensation to be provided to our directors and executive officers. Our chief executive officer may not be present at any committee meeting during which his compensation is deliberated. The compensation committee is responsible for, among other things:

- reviewing and recommending to the board with respect to the total compensation package for our chief executive officer;
- approving and overseeing the total compensation package for our executives other than the chief executive officer;
- reviewing and making recommendations to the board with respect to the compensation of our directors; and
- reviewing periodically and approving any long-term incentive compensation or equity plans, programs or similar arrangements, annual bonuses, employee pension and welfare benefit plans.

In 2014, our compensation committee held meetings or passed resolutions by unanimous written consent four times.

Corporate Governance and Nominating Committee. Our corporate governance and nominating committee consists of Mengbo Yin (chairman), Allen Lueth and Stephen Markscheid, all of whom satisfy the “independence” requirements of Rule 5605 of the Nasdaq Listing Rules. The corporate governance and nominating committee assists our board of directors in identifying individuals qualified to become our directors and in determining the composition of the board and its committees. The corporate governance and nominating committee is responsible for, among other things:

- identifying and recommending to the board nominees for election or re-election to the board, or for appointment to fill any vacancy;
- reviewing annually with the board the current composition of the board in light of the characteristics of independence, skills, experience and availability of service to us;
- identifying and recommending to the board the names of directors to serve as members of the audit committee and the compensation committee, as well as the corporate governance and nominating committee itself;
- advising the board periodically with respect to significant developments in the law and practice of corporate governance, as well as our compliance with applicable laws and regulations, and making recommendations to the board on all matters of corporate governance and on any corrective action to be taken; and
- monitoring compliance with our code of business conduct and ethics, including reviewing the adequacy and effectiveness of our procedures to ensure proper compliance.

In 2014, our corporate governance and nominating committee held meetings or passed resolutions by unanimous written consent twice.

Duties of Directors

Under Cayman Islands law, our directors have a fiduciary duty to act honestly, in good faith and with a view to our best interests. Our directors also owe to our company a duty to act with skill and care. It was previously considered that a director need not exhibit in the performance of his duties a greater degree of skill than may reasonably be expected from a person of his knowledge and experience. However, English and Commonwealth courts have moved towards an objective standard with regard to the required skill and care and these authorities are likely to be followed in the Cayman Islands. In fulfilling their duty of care to us, our directors must ensure compliance with our memorandum and articles of association as amended and restated from time to time. In certain

limited circumstances, it may be possible for our shareholders to bring a derivative action on behalf of our company if a duty owed by the directors to our company is breached.

Terms of Directors and Executive Officers

All directors hold office until their successors have been duly elected and qualified. Outside of certain specified circumstances, including a director becoming bankrupt or of unsound mind or being absent from board meetings without special leave of absence for six consecutive months, a director may only be removed by the shareholders. Officers are elected by and serve at the discretion of the board of directors. We do not have contracts in place with any of our directors providing for benefits upon termination of employment. For the period during which the directors and executives have served in the office, please see “Item 6. Directors, Senior Management and Employees — A. Directors and Senior Management.”

D. Employees

Employees, Sales Agents and Training

We had 4,108, 4,288 and 3,867 employees as of December 31, 2012, 2013 and 2014, respectively. We consider our relations with our employees to be good. The following table sets forth the number of our employees by function as of December 31, 2014:

	<u>Number of Employees</u>	<u>% of Total</u>
Management and administrative staff	1,879	48.6
Financial and accounting staff	345	8.9
Sales and marketing staff	178	4.6
Professional claims adjustors	1,372	35.5
Information technology staff.....	93	2.4
Total	<u>3,867</u>	<u>100</u>

As of December 31, 2012, 2013 and 2014, we had contractual relationships with 46,795, 51,416 and 62,248 sales agents, respectively. The sales agents are not our employees and are only compensated by commissions. For the sale of each property and casualty insurance policy or life insurance policy with a single premium payment schedule, we pay the sales agent who has generated the sale a single commission based on a percentage of the commission and fee we receive from the insurance company for the sale of that policy. For the sale of each life insurance policy with a periodic premium payment schedule, we pay the sales agent who has generated the sale periodic commissions based on a percentage of the commissions and fees we receive from the insurance company for the sale and renewal of that policy, up to the first five years of the premium payment period, and retain all commissions and fees we continue to receive from insurance companies for the rest of the premium payment period.

Our life insurance sales agents are typically organized into sales teams with a multilevel hierarchy, though we are reducing this hierarchy to only two layers in certain cities. A life insurance sales agent not only receives a commission for the insurance policies that he or she sells, but also a smaller commission for insurance policies sold by agents under his or her management.

Our sales agents, in-house sales representatives and claims adjustors are our most valuable asset and are instrumental in helping us build and maintain long-term relationships with our customers. Therefore, we place a strong emphasis on training our sales force. We provide trainings to both new sales agents and existing sales agents, on a monthly or quarterly basis, with a different emphasis. For new sales agents, we offer orientation courses that are designed to familiarize them with the industry background, regulatory environment, corporate culture, insurance products, and sales skills. For the existing sales agents, we offer on-the-job training courses that aim to enhance their sales skills and knowledge of different insurance products.

E. Share Ownership

The following table sets forth information with respect to the beneficial ownership of our shares, as of March 31, 2015, by:

- each of our current directors and executive officers; and

- each person known to us to own beneficially more than 5% of our shares.

As of March 31, 2015, there were 1,150,565,906 ordinary shares outstanding. Beneficial ownership is determined in accordance with the rules and regulations of the SEC. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, we include shares that the person has the right to acquire within 60 days, including through the exercise of any option, warrant or other right or the conversion of any other security. These shares, however, are not included in the computation of the percentage ownership of any other person.

	Ordinary Shares Beneficially Owned^{(1) (2)}	
	Number	%
Directors and Executive Officers:		
Chunlin Wang ⁽³⁾	14,772,560	1.3

* Less than 0.5% of our total outstanding ordinary shares.

† Except for Ms. Shang and independent directors, the business address of our directors and executive officers is c/o 22/F, Yin Hai Building, No. 299 Yanjiang Zhong Road, Guangzhou, Guangdong 510110, People's Republic of China.

- (1) The number of shares beneficially owned by each director and executive officer includes the shares beneficially owned by such person, the shares underlying all options held by such person that have vested or will vest within 60 days after March 31, 2015.
- (2) Percentage of beneficial ownership of each director and executive officer is based on 1,150,565,906 ordinary shares outstanding as of March 31, 2015, and the number of ordinary shares underlying options held by such person that have vested or will vest within 60 days after March 31, 2015.
- (3) Mr. Chunlin Wang holds approximately 32.9% of the total outstanding shares of Better Rise Investments. Better Rise Investments owns approximately 30.6% of Kingsford Resources Limited, or Kingsford Resources. Kingsford Resources holds 38,172,080 ordinary shares and 75,342,980 ordinary shares in the form of ADSs of our company. Therefore, Mr. Chunlin Wang may be deemed to beneficially own, indirectly through Better Rise Investments and Kingsford Resources, approximately 3,841,100 ordinary shares and 7,581,460 ordinary shares in the form of ADSs of our company. 3,350,000 ordinary shares held by Mr. Chunlin Wang are issuable upon exercise of options

within 60 days after March 31, 2015. Mr. Wang disclaims direct beneficial ownership of all of our shares held by Kingsford Resources except to the extent of his pecuniary interest through Better Rise Investment therein.

- (4) Includes 26,487,130 ordinary shares, 52,279,560 ordinary shares in the form of ADSs of our Company and 4,650,000 ordinary shares issuable upon exercise of options within 60 days after March 30, 2015 held by Mr. Lai who is the sole shareholder of High Rank Investments Limited, or High Rank Investments. High Rank Investments holds approximately 69.4% of the total outstanding shares of Kingsford Resources. Mr. Lai disclaims beneficial ownership of all of our shares held by Kingsford Resources except to the extent of his pecuniary interest therein.
- (5) Mr. Ge holds approximately 67.3% of the total outstanding shares of Better Rise Investments. Therefore, Mr. Ge may be deemed to beneficially own, indirectly through Better Rise Investments and Kingsford Resources, approximately 7,843,850 ordinary shares and 15,481,960 ordinary shares in the form of ADSs of our company. 4,650,000 ordinary shares held by Mr. Ge are issuable upon exercise of options within 60 days after March 31, 2015. Mr. Ge disclaims beneficial ownership of all of our shares held by Kingsford Resources except to the extent of his pecuniary interest therein.
- (6) Includes 10,070,000 ordinary shares in the form of ADSs of our Company acquired by Mr. Hu on the open market, 5,800,000 ordinary shares issuable upon exercise of options within 60 days after March 31, 2015 held by Mr. Hu and 183,198,110 ordinary shares of our Company directly held by Sea Synergy Limited, or Sea Synergy. Mr. Hu and his wife hold approximately 98.6% and 1.4%, respectively, of the total outstanding shares of Sea Synergy. Mr. Hu disclaims beneficial ownership of all of our shares held by Sea Synergy except to the extent of his pecuniary interest therein. 54,959,433 of the ordinary shares beneficially owned by Mr. Hu through Sea Synergy have been pledged under a loan from an individual entered into in November 2012.
- (7) Includes ordinary shares beneficially owned by all of our directors and executive officers as a group and ordinary shares underlying all options held by such persons that have vested or will vest within 60 days after March 31, 2015.
- (8) Includes 183,198,110 ordinary shares of our Company directly held by Sea Synergy. Mr. Hu and his wife hold approximately 98.6% and 1.4%, respectively, of the total outstanding shares of Sea Synergy. The registered address of Sea Synergy is P.O. Box 957, Offshore Incorporations Centre, Road Town, Tortola, British Virgin Islands.
- (9) Includes 38,172,080 ordinary share and 75,342,980 ordinary shares in the form of ADSs of our Company directly held by Kingsford Resources. High Rank Investments and Better Rise Investments hold 69.4% and 30.6% of the total outstanding shares of Kingsford Resources, respectively. Mr. Lai holds 100% of the outstanding shares of High Rank Investments. Mr. Chunlin Wang and Mr. Ge hold 32.9% and 67.1% of the outstanding shares of Better Rise Investments, respectively. Mr. Lai, Mr. Chunlin Wang and Mr. Ge hold 69.4%, 10.1% and 20.5% shared voting power of Kingsford Resources, respectively, and each has the authority to vote the percentage of shares owned by Kingsford Resources that is proportionate to their respective interests in Kingsford Resources. The registered address of Kingsford Resources is Beaufort House, P.O. Box 438, Road Town, Tortola, British Virgin Islands. The principal business address for High Rank Investments is P.O. Box 957, Offshore Incorporations Centre, Road Town, Tortola, British Virgin Islands. The principal business address for Better Rise Investments is P.O. Box 957, Offshore Incorporations Centre, Road Town, Tortola, British Virgin Islands.
- (10) As reported on Schedule 13D/A filed by CDH Inservice Limited, or CDH Inservice, on January 14, 2015, the number includes 77,311,480 ordinary shares of our Company held by CDH Inservice, a British Virgin Islands company. All of the issued and outstanding shares of CDH Inservice are owned by CDH China Growth Capital Fund II, L.P., or CDH Fund II, a Cayman Islands exempted limited partnership. CDH China Growth Capital Holdings Company Limited, or CDH China Growth, a Cayman Islands exempted limited liability company, is the general partner of CDH Fund II and has the power to direct CDH Fund II as to the voting and disposition of shares directly and indirectly held by CDH Fund II. The percentage of beneficial ownership was calculated based on the total number of our ordinary shares outstanding as of March 31, 2015. The business address of CDH Inservice is One Temasek Avenue #18-02, Millenia Tower, Singapore 039192.
- (11) As reported on Schedule 13D/A filed by Cathay Capital Holdings II, L.P., or Cathay Capital, on January 8, 2013, the number includes (1) 21,511,600 ordinary shares in the form of ADS of our Company directly held by Mr. Sussman, (2) 271,320 ordinary shares in the form of ADS of our Company held by a grantor retained annuity trust, of which Mr. Sussman is a co-trustee, acquired through transfers of ordinary shares from Mr. Sussman to the grantor retained annuity trust, (3) 4,292,420 ordinary shares in the form of ADSs of our Company held by Caremi Partners Ltd., of which Mr. Sussman is the sole shareholder, (4) 10,013,120 ordinary shares in the form of ADS of our Company directly held collectively by Paloma Partners LLC, or Paloma Partners, and Paloma International Limited, or Paloma Limited. Mr. Sussman is Chairman and founder of Paloma Partners Management Company, or PPMC, and co-owns PPMC with certain of its senior employees. PPMC is the special member of Paloma Partners, provides advisory and non-advisory services to Paloma Limited and Paloma Partners based on a services agreement, (5) 32,294,420 ordinary shares of in the form of ADS of our Company directly held by Cathay Capital. Mr. Sussman is the co-owner of Cathay Master GP, Ltd., the general partner of Cathay Capital. He is also the owner of New China Capital Management, LP, the investment manager for Cathay Capital, and (6) 104,400 ordinary shares in the form of ADS of our Company directly held by Cathay Investment Fund, Limited, or CIF. Mr. Sussman directly and/or indirectly owns 50% of New China Investment Management, Inc., the investment manager for CIF. The percentage of beneficial ownership was calculated based on the total number of our ordinary shares outstanding as of March 31, 2015. The business address of Mr. Sussman is 6100 Red Hook Quarters, Suite C1-C6 St. Thomas, United Virgin Islands 00802-1348.
- (12) Represents 78,300,000 ordinary shares in the form of ADSs of our Company held by Norges Bank, as reported on Schedule 13G/A filed by Norges Bank on February 7, 2013. The percentage of beneficial ownership was calculated based on the total number of our ordinary shares outstanding as of March 31, 2015. The address of Norges Bank is Bankplassen 2, PO Box 1179 Sentrum, NO 0107 Oslo, Norway.

In January 5, 2015, Kingsford Resources entered into a share purchase and sale agreement with CDH Inservice in a privately negotiated transaction, pursuant to which Kingsford Resources, collectively held by Mr. Qiuping Lai, Mr. Chunlin Wang and Mr. Peng Ge, has agreed to purchase from CDH Inservice 7,731,149 ADSs, or its equivalent in ordinary shares of our company, at a price of US\$7 per ADS, or US\$0.35 per ordinary share, for total

compensation of US\$54.1 million. The 7,731,149 ADSs represent the entire interests in our company held by CDH Inservice as of January 5, 2015. 3,865,575 ADSs or its equivalent in ordinary shares were delivered by CDH Inservice to Kingsford Resources on January 15, 2015 and the remaining 3,865,574 ADSs or its equivalent in ordinary shares will be delivered on or prior to January 15, 2016.

None of our existing shareholders have different voting rights from other shareholders. We are not aware of any arrangement that may, at a subsequent date, result in a change of control of our company. As of March 31, 2015, J.P. Morgan Chase Bank, N.A., or J.P. Morgan, the depository for our ADS program, is our only record holder in the United States, holding approximately 61.0% of our total outstanding ordinary shares. The number of beneficial owners of our ADSs in the United States is likely much larger than the number of record holders of our ordinary shares in the United States.

Item 7. Major Shareholders and Related Party Transactions

A. Major Shareholders

Please refer to “Item 6. Directors, Senior Management and Employees — E. Share Ownership.”

B. Related Party Transactions

Amounts Due from an Affiliate and its Subsidiaries

We agreed to grant a revolving loan with a maximum amount of US\$50.0 million (equivalent to RMB318.0 million as per the agreement) to Sincere Fame, and its subsidiaries, pursuant to a facility letter, or the Facility entered in October 2011. The facility is valid for two years and was renewed for another two years in October 2013. On January 1, 2012, we and Sincere Fame further entered into a supplemental loan agreement, which established the legal rights to offset the interests and amounts receivable and payable between us and Sincere Fame, and all subsidiaries of us and Sincere Fame. As of December 31, 2014, the amount due from Sincere Fame and its subsidiaries represented RMB179.7 million (US\$29.0 million) principal receivable, RMB28.4 million (US\$4.6 million) interest receivable and RMB1.5 million (US\$0.2 million) account receivables. These amounts are unsecured, bear interest at 7.3% and are repayable on demand.

Shares Sold to Employee Companies and Subscription Receivables from Employee Companies

In November 2014, we entered into share purchase agreements with companies established on behalf of our employees, or the Employee Companies, for the issuance of up to 100,000,000 ordinary shares of our company. In December 2014, we increased the new shares issued to the employees to 150,000,000 ordinary shares, representing approximately 15% of our then total outstanding share capital. The purchase price for the 100,000,000 ordinary shares is US\$0.27 per ordinary share or US\$5.40 per ADS, while the purchase price for the additional 50,000,000 ordinary shares is US\$0.29 per ordinary share or US\$5.8 per ADS, both of which are the average closing prices for the 20 trading days prior to the board approvals. The shares purchased by the Employee Companies are subject to a 180 days lock-up. The sale of shares to the Employee Companies was completed on December 17, 2014.

In order to facilitate the purchase of shares by our employees pursuant to the share purchase agreement as described above, we also obtained approval from our board of directors to grant a US\$41.5 million loan to the Employee Companies. The loan bears interest at a rate of 3% per annum, is guaranteed by the individual employees and is repayable upon the sale of the shares by employees, termination of employment or within two years, whichever comes first. According to FASB ASC 505-10-45, the loan is recorded as a separate line of deduction from equity in our consolidated balance sheet as of December 31, 2014. Interest income accruing from the loan is recognized as non-operating income and other receivables. None of the loan to Employee Companies has been repaid as of March 31, 2015 and the total balance thereof as of December 31, 2014 was RMB257.5 million (US\$41.5 million).

Revenues and Other Incomes from Affiliates

We charged affiliates interest of RMB12.2 million (US\$2.0 million) for loans receivable during the year ended December 31, 2014.

Equity Interest Held on Behalf of an Affiliate

One of our subsidiaries held a 30% equity interest of Beijing Fanhua Micro-credit Company Limited, a subsidiary of Sincere Fame, on behalf of Shenzhen Fanhua United Investment Group, which is also a subsidiary of Sincere Fame.

Contractual Arrangements with Our Consolidated Affiliated Entities and Their Shareholders

Historically, PRC laws and regulations have restricted foreign investment in and ownership of insurance agencies and brokerages and internet business. Accordingly, we conducted part of our operations in China through contractual arrangements among our PRC subsidiaries, two affiliated entities in China, Yihe Investment and Xinbao Investment, their shareholders and their subsidiaries. In April 2014, we entered into similar contractual arrangements with Dianliang Information and its individual shareholder. For a description of these contractual arrangements, see “Item 4. Information on the Company — C. Organizational Structure.”

Employment Agreements

See “Item 6. Directors, Senior Management and Employees — A. Directors and Senior Management — Employment Agreements” for a description of the employment agreements we have entered into with our senior executive officers.

Share Options

Please refer to “Item 6. Directors, Senior Management and Employees — B. Compensation.”

C. Interests of Experts and Counsel

Not applicable.

Item 8. Financial Information

A. Consolidated Statements and Other Financial Information

See “Item 18. Financial Statements.”

Legal Proceedings

On October 17, 2011, Pieter Van Dongen, individually and on behalf of an alleged class of similarly situated holders of our ADSs, filed a class action lawsuit in the United States District Court for the Southern District of New York, or the Court, against us and three of our then executive officers. The complaint alleges that we made a series of false or misleading statements or omissions regarding our business, prospects and operations. The complaint principally alleges that we improperly accounted for the compensation that we paid to our insurance agents, thereby understating our expenses and overstating our net income. The complaint asserts claims under Section 10(b) of the Security Exchange Act of 1934, or the Exchange Act, and Rule 10b-5 thereunder and under Section 20(a) of the Exchange Act.

On March 19, 2014, we signed a settlement agreement with the plaintiff to settle the lawsuit at US\$6.6 million (approximately RMB40.1 million), to be paid as consideration for full and complete settlement of all the released claims. The settlement agreement contains no admission of liability, fault or wrongdoing by our company. On April 7, 2014, the Court preliminarily approved the settlement. On April 23, 2014, we and the individual defendants executed an agreement with XL Insurance Company PLC (Singapore Branch), or XL Insurance, in which, inter alia, XL Insurance agreed to pay the settlement amount of US\$6.6 million pursuant to the Directors and Officers and Company Reimbursement Insurance policy purchased by us, and the parties exchanged certain releases. On August 15, 2014, the Court granted final approval of the settlement agreement and entered a final judgment dismissing the case.

Except as disclosed above, we are not currently a party to any material litigation or other legal proceeding that may have a material adverse impact on our business or operations. However, we are and may continue to be subject to various claims and legal actions arising in the ordinary course of business.

Dividend Policy

Our board of directors has discretion as to whether to distribute dividends, subject to applicable laws. Even if our board of directors decides to pay dividends, the timing, amount and form of future dividends, if any, will depend on, among other things, our future results of operations and cash flow, our capital requirements and surplus, the amount of distributions, if any, received by us from our subsidiaries, our financial condition, contractual restrictions and other factors deemed relevant by our board of directors.

If we pay any dividends, we will pay our ADS holders to the same extent as holders of our ordinary shares, subject to the terms of the deposit agreement, including the fees and expenses payable thereunder. Any dividend we declare will be distributed by the depository bank to the holders of our ADSs. Cash dividends on our ordinary shares, if any, will be paid in U.S. dollars.

We are a holding company incorporated in the Cayman Islands. We rely on dividends from our subsidiaries in China to fund our payment of dividends, if any, to our shareholders. Current PRC regulations permit our subsidiaries to pay dividends to us only out of their accumulated profits, if any, determined in accordance with PRC accounting standards and regulations. In addition, each of our subsidiaries in China is required to set aside a certain amount of its accumulated after-tax profits each year, if any, to fund certain statutory reserves. These reserves may not be distributed as cash dividends. Further, if our subsidiaries in China incur debt on their own behalf, the instruments governing the debt may restrict their ability to pay dividends or make other payments to us. Furthermore, there are still uncertainties under the new PRC EIT law and the related regulations regarding whether the dividends we receive from our PRC subsidiaries or dividends paid to our shareholders will be subject to PRC withholding tax. See “Item 3. Key Information — D. Risk Factors — Risks Related to Doing Business in China — Our global income or the dividends we receive from our PRC subsidiaries may be subject to PRC tax under the EIT Law, which could have a material adverse effect on our results of operations.” and “Item 3. Key Information — D. Risk Factors — Risks Related to Doing Business in China — Under the EIT Law, dividends payable by us and gains on the disposition of our shares or ADSs could be subject to PRC taxation.”

B. Significant Changes

We have not experienced any significant changes since the date of our audited consolidated financial statements included in this annual report.

Item 9. The Offer and Listing

A. Offer and Listing Details

The following table provides the high and low trading prices for our ADSs on the Nasdaq Global Select Market since January 4, 2010 for the periods indicated.

	Sales Price	
	High US\$	Low US\$
Annual High and Low		
2010	28.62	15.33
2011	20.88	5.28
2012	9.02	5.00
2013	7.00	4.75
2014	9.44	4.90
Quarterly Highs and Lows		
First Quarter of 2013	7.00	5.73
Second Quarter of 2013	6.77	5.99
Third Quarter of 2013	6.31	4.75
Fourth Quarter of 2013	6.10	4.85

B. Plan of Distribution

Not applicable.

C. Markets

Our ADSs, each representing 20 ordinary shares, have been listed on the Nasdaq Global Select Market since January 2, 2009 under the symbol “CISG.” From October 31, 2007 until January 1, 2009, our ADSs were listed on the Nasdaq Global Market.

D. Selling Shareholders

Not applicable.

E. Dilution

Not applicable.

F. Expenses of the Issue

Not applicable.

Item 10. Additional Information

A. Share Capital

Not applicable.

B. Memorandum and Articles of Association

The following are summaries of material provisions of our amended and restated memorandum and articles of association, including certain amendments adopted by our shareholders at the annual general meeting of shareholders held on December 18, 2008, as well as the Companies Law (2013 Revision) insofar as they relate to the material terms of our ordinary shares.

Registered Office and Objects

The registered office of our company is at the offices of Maples Corporate Services Limited, PO Box 309, Ugland House, Grand Cayman, KY1-1104, Cayman Islands, or at such other place as our board of directors may from time to time decide. The objects for which our company is established are unrestricted and we have full power and authority to carry out any object not prohibited by the Companies Law (2013 Revision) or as the same may be revised from time to time, or any other law of the Cayman Islands.

Board of Directors

See “Item 6. Directors, Senior Management and Employees — C. Board Practices — Board of Directors.”

Ordinary Shares

General. Our authorized share capital consists of 10,000,000,000 shares, with a par value of US\$0.001 each. All of our outstanding ordinary shares are fully paid and non-assessable. Certificates representing the ordinary shares are issued in registered form. Our shareholders who are nonresidents of the Cayman Islands may freely hold and vote their shares.

Dividend Rights. The holders of our ordinary shares are entitled to such dividends as may be declared by our board of directors subject to the Companies Law.

Voting Rights. On a show of hands, each shareholder present in person or by proxy (or, for a corporation or other non-natural person, present by its duly authorized representative or proxy) at general meeting shall have one vote and on a poll, shall have one vote for each share registered in his name in the register of members of our company. Voting at any meeting of shareholders is by show of hands unless a poll is demanded. A poll may be demanded by the chairman of the meeting or by any one or more shareholders together holding at least ten percent of our paid up voting share capital, present in person or by proxy.

A quorum required for a meeting of shareholders consists of shareholders holding in aggregate not less than one-third of our issued voting share capital present in person or by proxy or, if a corporation or other non-natural person, by its duly authorized representative. We may, but are not obliged, to hold an annual general meeting of shareholders. General meetings may be convened by our board of directors on its own initiative or upon a request to the directors by shareholders holding in aggregate not less than one-third of our voting share capital. Advance notice of at least 14 days is required for the convening of our annual general meeting and other shareholders meetings.

An ordinary resolution to be passed by the shareholders requires the affirmative vote of a simple majority of the votes attaching to the ordinary shares cast in a general meeting, while a special resolution requires the affirmative vote of no less than two-thirds of the votes attaching to the ordinary shares cast in a general meeting. A special resolution is required for important matters such as a change of name. Holders of the ordinary shares may effect certain changes by ordinary resolution, including consolidating and dividing all or any of our share capital into shares of larger amount than our existing shares, and canceling any shares which have not been taken or agreed to be taken.

Transfer of Shares. Subject to the restrictions of our articles of association, as applicable, any of our shareholders may transfer all or any of his or her ordinary shares by an instrument of transfer in the usual or common form or any other form approved by our board.

Liquidation. On a return of capital on winding up or otherwise (other than on conversion, redemption or purchase of shares), assets available for distribution among the holders of ordinary shares may be distributed among the holders of the ordinary shares as determined by the liquidator, subject to sanction of an ordinary resolution of our company.

Calls on Shares and Forfeiture of Shares. Our board of directors may from time to time make calls upon shareholders for any amounts unpaid on their shares in a notice served to such shareholders at least 14 days prior to the specified time of payment. The shares that have been called upon and remain unpaid on the specified time are subject to forfeiture.

Redemption and Repurchase of Shares. Subject to the provisions of the Companies Law and our articles of association, we may issue shares on terms that they are subject to redemption, at our option or at the option of the holders, on such terms and in such manner as our board of directors may determine before the issue of such shares. We also may purchase our own shares, provided that our shareholders have approved the manner of purchase by ordinary resolution or the manner of purchase is in accordance with that specified in our articles of association. The manner of purchase specified in our articles of association, which cover purchases of shares listed on an internationally recognized stock exchange and shares not so listed, is in accordance with Section 37(2) of the Companies Law or any modification or reenactment thereof for the time being in force. Pursuant to Companies Law (2013 Revision) as amended, upon the repurchase, redemption or surrender of shares, instead of cancelling them the board of directors can determine whether or not cancel those shares or hold them as treasury shares pending cancellation, transfer or sale. The company must obtain authorization to hold such shares as treasury shares either in accordance with the procedures set out in the company's articles of association or (if there are none) by a board resolution before being repurchased, redeemed or surrendered in accordance with the usual rules and articles.

Variations of Rights of Shares. All or any of the special rights attached to any class of shares may, subject to the provisions of the Companies Law, be varied either with the written consent of the holders of a majority of the issued shares of that class or with the sanction of a special resolution passed at a general meeting of the holders of the shares of that class.

Inspection of Books and Records. Holders of our ordinary shares have no general right under Cayman Islands law to inspect or obtain copies of our list of shareholders or our corporate records. However, we make our annual reports, which contain our audited financial statements, available to our shareholders. See “Item 10. Additional Information — H. Documents on Display.”

C. Material Contracts

We have not entered into any material contracts other than in the ordinary course of business and other than those described in “Item 4. Information on the Company” or elsewhere in this annual report.

D. Exchange Controls

See “Item 4. Information on the Company — B. Business Overview — Regulation — Regulations on Foreign Exchange.”

E. Taxation

The following summary of the material Cayman Islands, PRC and United States federal income tax consequences of an investment in our ADSs or ordinary shares is based upon laws and relevant interpretations thereof in effect as of the date of this annual report, all of which are subject to change. This summary does not deal with all possible tax consequences relating to an investment in our ADSs or ordinary shares, such as the tax consequences under state, local and other tax laws.

Cayman Islands Taxation

According to Maples and Calder, our Cayman Islands counsel, the Cayman Islands currently levies no taxes on individuals or corporations based upon profits, income, gains or appreciation and there is no taxation in the nature of inheritance tax or estate duty. No Cayman Islands stamp duty will be payable unless an instrument is executed in, or brought within the jurisdiction of the Cayman Islands, or produced before a court of the Cayman Islands. The Cayman Islands is not party to any double tax treaties that are applicable to any payment made to or by our Company. There are no exchange control regulations or currency restrictions in the Cayman Islands.

PRC Taxation

Under the former PRC Income Tax Law for Enterprises with Foreign Investment and Foreign Enterprises, any dividends payable by foreign-invested enterprises to non-PRC investors were exempt from any PRC withholding tax. In addition, any interest or dividends payable, or distributions made, by us to holders or beneficial owners of our ADSs or ordinary shares would not have been subject to any PRC tax, provided that such holders or beneficial owners, including individuals and enterprises, were not deemed to be PRC residents under the PRC tax law and had not become subject to PRC tax.

Under the EIT Law, which took effect as of January 1, 2008, enterprises established under the laws of non-PRC jurisdictions but whose “de facto management body” is located in China are considered “resident enterprises” for PRC tax purposes. Under the implementation regulations issued by the State Council relating to the new law, “de facto management bodies” are defined as the bodies that have material and overall management control over the business, personnel, accounts and properties of an enterprise. On April 22, 2009, SAT, issued SAT Circular 82, which provides certain specific criteria for determining whether the “de facto management body” of a PRC-controlled enterprise that is incorporated offshore is located in China. In addition, the SAT issued a bulletin on July 27, 2011 providing more guidance on the implementation of Circular 82 and clarifies matters such as resident status determination. Substantially all of our management are currently based in China, and may remain in China in the future. If we were treated as a “resident enterprise” for PRC tax purposes, we would be subject to PRC income tax on our worldwide income at a uniform tax rate of 25%, but dividends received by us from our PRC subsidiaries may be exempt from the income tax.

Under the new law and its implementation regulations, dividends paid to a non-PRC investor are generally subject to a 10% PRC withholding tax, if such dividends are derived from sources within China and the non-PRC investor is considered to be a non-resident enterprise without any establishment or place of business within China or if the dividends paid have no connection with the non-PRC investor's establishment or place of business within China, unless such tax is eliminated or reduced under an applicable tax treaty. Similarly, any gain realized on the transfer of ADSs or shares by such investor is also subject to a 10% PRC withholding tax if such gain is regarded as income derived from sources within China, unless such tax is eliminated or reduced under an applicable tax treaty. Pursuant to the Double Taxation Arrangement, which became effective on January 1, 2007, dividends from our PRC subsidiaries paid to us through our Hong Kong subsidiary, InsCom HK Limited, in which we indirectly hold a 65.1% equity interest, or CNinsure Holdings, which is 100% owned by our wholly-owned Hong Kong subsidiary, Minkfair, may be subject to a withholding tax at a rate of 5%.

If we were considered a PRC "resident enterprise," it is possible that the dividends we pay with respect to our ADSs or ordinary shares, or the gain you may realize from the transfer of our ADSs or ordinary shares, would be treated as income derived from sources within China and be subject to the 10% PRC withholding tax.

U.S. Federal Income Taxation

The following discussion describes material U.S. federal income tax consequences to U.S. Holders (as defined below) of an investment in our ADSs or ordinary shares under current law. This discussion applies only to U.S. Holders that hold the ADSs or ordinary shares as capital assets (generally, property held for investment) and have the U.S. dollar as their functional currency. This discussion is based on the tax laws of the United States as in effect on the date of this annual report and on U.S. Treasury regulations in effect or, in some cases, proposed as of the date of this annual report, as well as judicial and administrative interpretations thereof available on or before such date. All of the foregoing authorities are subject to change, which change could apply retroactively and could affect the tax consequences described below.

The following discussion does not deal with the tax consequences to any particular investor or to persons in special tax situations such as:

- banks and other financial institutions;
- insurance companies;
- broker-dealers;
- traders that elect to use a mark-to-market method of accounting;
- tax-exempt entities;
- persons liable for alternative minimum tax;
- U.S. expatriates;
- entities subject to the United States anti-inversion rules;
- regulated investment companies or real estate investment trusts;
- persons holding an ADS or ordinary share as part of a straddle, hedging, conversion or integrated transaction;
- persons holding ADSs or ordinary shares through a bank, financial institution or other entity, or a branch thereof, located, organized or resident outside the United States;
- persons who acquired ADSs or ordinary shares pursuant to the exercise of any employee stock options or otherwise as compensation;
- persons that actually or constructively own 10% or more of the total combined voting power of all classes of our voting stock; or

- partnerships or other pass-through entities, or persons holding ADSs or ordinary shares through such entities.

In addition, the discussion below does not describe any tax consequences arising out of the recently enacted Medicare tax on certain “net investment income.”

INVESTORS SHOULD CONSULT THEIR TAX ADVISORS REGARDING THE APPLICATION OF THE U.S. FEDERAL TAX RULES TO THEIR PARTICULAR CIRCUMSTANCES AS WELL AS THE STATE, LOCAL, FOREIGN AND OTHER TAX CONSEQUENCES TO THEM OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF OUR ADSs OR ORDINARY SHARES.

The discussion below of the U.S. federal income tax consequences to “U.S. Holders” will apply to you if you are a beneficial owner of our ADSs or ordinary shares and you are, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) organized under the laws of the United States, any state thereof or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust that (i) is subject to the primary supervision of a court within the United States and the control of one or more U.S. persons for all substantial decisions; or (ii) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

If you are a partner in a partnership (or other entity treated as a partnership for U.S. federal income tax purposes) that holds our ADSs or ordinary shares, your tax treatment will generally depend on your status and the activities of the partnership.

The discussion below assumes that the representations contained in the deposit agreement are true and that the obligations in the deposit agreement and any related agreement have been and will be complied with in accordance with their terms. If you hold our ADSs, you should be treated as the beneficial owner of the underlying ordinary shares represented by those ADSs for U.S. federal income tax purposes.

The U.S. Treasury has expressed concerns that U.S. holders of ADSs may be claiming foreign tax credits in situations where an intermediary in the chain of ownership between the holder of an ADS and the issuer of the security underlying the ADS has taken actions inconsistent with the ownership of the underlying security by the person claiming the credit. Such actions (for example, a pre-release of an ADS by a depository) may also be inconsistent with the claiming of the reduced rate of tax applicable to dividends received by certain non-corporate U.S. holders of ADSs, including individual U.S. holders (discussed below). Accordingly, the availability of foreign tax credits or the reduced tax rate for dividends received by certain non-corporate U.S. Holders, including individual U.S. Holders, could be affected by actions taken by the U.S. Treasury or the depository.

Passive Foreign Investment Company

Based on the market price of our ADSs, the value of our assets, and the composition of our income and assets, we believe we were a “passive foreign investment company,” or PFIC, for U.S. federal income tax purposes for our taxable year ended December 31, 2014. A non-U.S. corporation will be a PFIC for any taxable year if either:

- at least 75% of its gross income for such year is passive income; or
- at least 50% of the value of its assets (based on an average of the quarterly values of the assets) during such year is attributable to assets that produce passive income or are held for the production of passive income (the “asset test”).
- For this purpose, we will be treated as owning our proportionate share of the assets and earning our proportionate share of the income of any other corporation in which we own, directly or indirectly, at least 25% (by value) of the stock. We must make a separate determination after the close of each taxable year as to whether we were a PFIC for that year. The composition of our income and assets will be affected by

how, and how quickly, we use the cash we generate from our operations and raise in any offering. Because the value of our assets for purposes of the asset test will generally be determined by reference to the market price of our ADSs or ordinary shares, fluctuations in the market price of the ADSs or ordinary shares may affect our status as a PFIC. If we are a PFIC for any taxable year during which you hold ADSs or ordinary shares (as we believe we were for 2014), we will generally continue to be treated as a PFIC with respect to you for all succeeding years during which you hold the ADSs or ordinary shares, unless we cease to be a PFIC and you make a “deemed sale” election with respect to the ADSs or ordinary shares, as applicable. If such election is made, you will be deemed to have sold the ADSs or ordinary shares you hold at their fair market value and any gain from such deemed sale would be subject to the rules described in the following two paragraphs. After the deemed sale election, your ADSs or ordinary shares with respect to which such election was made will not be treated as shares in a PFIC unless we subsequently become a PFIC. **You are strongly urged to consult your tax advisors as to the possibility and consequences of making a deemed sale election if we cease to be a PFIC and such election becomes available to you.**

For each taxable year that we are treated as a PFIC with respect to you, you will be subject to special tax rules with respect to any “excess distribution” you receive and any gain you recognize from a sale or other disposition (including a pledge) of the ADSs or ordinary shares, unless you make a “mark-to-market” election as discussed below. Distributions you receive in a taxable year that are greater than 125% of the average annual distributions you received during the shorter of the three preceding taxable years or your holding period for the ADSs or ordinary shares will be treated as an excess distribution. Under these special tax rules:

- the excess distribution or recognized gain will be allocated ratably over your holding period for the ADSs or ordinary shares;
- the amount allocated to the current taxable year, and any taxable years in your holding period prior to the first taxable year in which we were a PFIC, will be treated as ordinary income; and
- the amount allocated to each other year will be subject to the highest tax rate in effect for individuals or corporations, as applicable, for each such year, and the interest charge generally applicable to underpayments of tax will be imposed on the resulting tax attributable to each such year.

The tax liability for amounts allocated to years prior to the year of disposition or excess distribution cannot be offset by any net operating losses for such years, and gains (but not losses) from a sale or other disposition of the ADSs or ordinary shares cannot be treated as capital, even if you hold the ADSs or ordinary shares as capital assets.

If we are treated as a PFIC with respect to you for any taxable year (as we believe we were for 2014), to the extent any of our subsidiaries are also PFICs or we make direct or indirect equity investments in other entities that are PFICs, you will be deemed to own shares in such lower-tier PFICs directly or indirectly owned by us in the proportion that the value of the ADSs or ordinary shares you own bears to the value of all of our ADSs and ordinary shares, and you may be subject to the rules described in the preceding two paragraphs with respect to the shares of such lower-tier PFICs that you would be deemed to own. It is likely that one or more of our subsidiaries were PFICs for the taxable year ended December 31, 2014. You should consult your tax advisors regarding the application of the PFIC rules to any of our subsidiaries.

A U.S. Holder of “marketable stock” (as defined below) of a PFIC may make a mark-to-market election for such stock to elect out of the PFIC rules regarding excess distributions and recognized gains described above. If you make a mark-to-market election for our ADSs or ordinary shares, you will include in income for each year that we are a PFIC an amount equal to the excess, if any, of the fair market value of the ADSs or ordinary shares you hold as of the close of your taxable year over your adjusted basis in such ADSs or ordinary shares. You will be allowed a deduction for the excess, if any, of the adjusted basis of the ADSs or ordinary shares over their fair market value as of the close of the taxable year. However, deductions will be allowable only to the extent of any net mark-to-market gains on the ADSs or ordinary shares included in your income for prior taxable years. Amounts included in your income under a mark-to-market election, as well as any gain from the actual sale or other disposition of the ADSs or ordinary shares, will be treated as ordinary income. Ordinary loss treatment will apply to the deductible portion of any mark-to-market loss on the ADSs or ordinary shares, as well as to any loss from the actual sale or other disposition of the ADSs or ordinary shares, to the extent that the amount of such loss does not exceed the net mark-to-market gains previously included for such ADSs or ordinary shares. Your basis in the ADSs or ordinary shares will be adjusted to reflect any such income or loss amounts. If you make a valid mark-to-market election, any distributions we make would generally be subject to the tax rules discussed above under “ — Taxation of Dividends

and Other Distributions on the ADSs or Ordinary Shares,” except the lower capital gains rate applicable to qualified dividend income would not apply.

The mark-to-market election is available only for “marketable stock,” which is stock that is traded in greater than *de minimis* quantities on at least 15 days during each calendar quarter (“regularly traded”) on a qualified exchange or other market, as defined in applicable U.S. Treasury regulations. Our ADSs are listed on the Nasdaq Global Select Market, which is a qualified exchange or other market for these purposes. Consequently, if the ADSs continue to be listed on the Nasdaq Global Select Market and are regularly traded, and you are a holder of ADSs, we expect the mark-to-market election would be available to you. Because a mark-to-market election cannot be made for equity interests in any lower-tier PFICs that we own, a U.S. Holder may continue to be subject to the PFIC rules described above regarding excess distributions and recognized gains with respect to its indirect interest in any investments held by us that are treated as an equity interest in a PFIC for U.S. federal income tax purposes.

Alternatively, a U.S. Holder of stock of a PFIC may make a “qualified electing fund” election with respect to such corporation to elect out of the PFIC rules described above regarding excess distributions and recognized gains. A U.S. Holder that makes a valid qualified electing fund election with respect to a PFIC will generally include in income for a taxable year such holder’s *pro rata* share of the corporation’s income for the taxable year. However, the qualified electing fund election is available only if the PFIC provides such U.S. Holder with certain tax information as required under applicable U.S. Treasury regulations. We do not intend to prepare or provide the information that would enable you to make a qualified electing fund election.

Unless otherwise provided by the U.S. Treasury, each U.S. shareholder of a PFIC is required to file an annual report containing such information as the U.S. Treasury may require. If we are a PFIC (as we believe we were for 2014), you should consult your tax advisors regarding any reporting requirements that may apply to you.

YOU ARE STRONGLY URGED TO CONSULT YOUR TAX ADVISORS REGARDING THE IMPACT OF OUR BEING A PFIC FOR 2014 ON YOUR INVESTMENT IN OUR ADSs AND ORDINARY SHARES AS WELL AS THE APPLICATION OF THE PFIC RULES AND THE ELECTIONS DISCUSSED ABOVE.

Taxation of Dividends and Other Distributions on the ADSs or Ordinary Shares

Subject to the passive foreign investment company rules discussed above, the gross amount of any distributions we make to you with respect to our ADSs or ordinary shares (including the amount of any taxes withheld therefrom) will generally be included in your gross income as dividend income on the date of actual or constructive receipt by the depository, in the case of ADSs, or by you, in the case of ordinary shares, but only to the extent the distribution is paid out of our current or accumulated earnings and profits (as determined under U.S. federal income tax principles). To the extent the amount of the distribution exceeds our current and accumulated earnings and profits (as determined under U.S. federal income tax principles), such excess amount will be treated first as a tax-free return of your tax basis in your ADSs or ordinary shares, and then, to the extent such excess amount exceeds your tax basis, as capital gain. We currently do not, and we do not intend to, calculate our earnings and profits under U.S. federal income tax principles. Therefore, a U.S. Holder should expect that a distribution will generally be treated as a dividend even if that distribution would otherwise be reported as a non-taxable return of capital or as capital gain under the rules described above. Any dividends we pay will not be eligible for the dividends-received deduction allowed to corporations in respect of dividends received from other U.S. corporations.

With respect to certain non-corporate U.S. Holders, including individual U.S. Holders, dividends generally will be “qualified dividend income” that is taxed at the lower applicable capital gains rate, provided certain conditions are satisfied, including (1) our ADSs or ordinary shares are readily tradable on an established securities market in the United States, or we are eligible for the benefits of a qualifying income tax treaty with the United States that includes an exchange of information program, (2) we are neither a passive foreign investment company nor treated as such with respect to you for our taxable year in which the dividend is paid and the preceding taxable year, and (3) certain holding period and other requirements are met. Based on U.S. Treasury guidance, we expect the ADSs will be considered readily tradable on an established securities market in the United States for purposes of clause (1) above so long as they remain listed on the Nasdaq Global Select Market. If we are deemed to be a “resident enterprise” under PRC tax law (see “Item 10. Additional Information — E. Taxation — PRC Taxation”), we may be eligible for the benefits of the income tax treaty between the United States and the PRC. As discussed above in “—Passive Foreign Investment Company,” we believe we were a PFIC for the taxable year ending December 31, 2014, and there is a significant risk that we will be a PFIC for future taxable years. You should consult your tax advisors regarding the availability of the lower capital gains rate applicable to qualified dividend income for any

dividends paid with respect to the ADSs or ordinary shares and any possible change in law relating to the availability of such lower rate for dividends paid by us.

Dividends we pay generally will constitute foreign source income for foreign tax credit limitation purposes. If the dividends are qualified dividend income (discussed above), the amount of the dividend taken into account for purposes of calculating the foreign tax credit limitation will generally be limited to the gross amount of the dividend, multiplied by the reduced tax rate applicable to qualified dividend income and divided by the highest tax rate normally applicable to dividends. The limitation on foreign taxes eligible for credit is calculated separately with respect to specific classes of income. For this purpose, any dividends distributed by us with respect to our ADSs or ordinary shares will be “passive category income” or, in the case of certain U.S. Holders, “general category income.” In addition, if PRC withholding taxes apply to dividends paid to you with respect to the ADSs or ordinary shares (see “Item 10. Additional Information — E. Taxation — PRC Taxation”), subject to certain conditions and limitations, such PRC withholding taxes may be treated as foreign taxes eligible for credit against your U.S. federal income tax liability. The rules relating to the determination of the foreign tax credit are complex, and you should consult your tax advisors regarding the availability of a foreign tax credit in your particular circumstances, as well as the effects of any change in applicable law after the date of this annual report.

Taxation of Disposition of the ADSs or Ordinary Shares

You will recognize taxable gain or loss on any sale, exchange or other taxable disposition of an ADS or ordinary share equal to the difference between the amount realized (in U.S. dollars) for the ADS or ordinary share and your tax basis (in U.S. dollars) in the ADS or ordinary share, subject to the passive foreign investment company rules discussed above. The gain or loss will be capital gain or loss. If you are a non-corporate U.S. Holder, including an individual U.S. Holder, who has held the ADS or ordinary share for more than one year, you will be eligible for reduced tax rates on capital gains. The deductibility of capital losses is subject to limitations.

Any gain or loss you recognize on a disposition of our ADSs or ordinary shares will generally be treated as U.S. source income or loss for foreign tax credit limitation purposes. However, if we are deemed to be a “resident enterprise” under PRC tax law and PRC tax were to be imposed on any gain from the disposition of the ADSs or ordinary shares (see “Item 10. Additional Information — E. Taxation — PRC Taxation”), a U.S. Holder that is eligible for the benefits of the treaty may elect to treat such gain as PRC source income. You should consult your tax advisors regarding the proper treatment of gain or loss in your particular circumstances.

Information Reporting and Backup Withholding

Dividend payments with respect to ADSs or ordinary shares and proceeds from the sale, exchange or other disposition of ADSs or ordinary shares may be subject to information reporting to the Internal Revenue Service and possible U.S. backup withholding, unless the conditions of an applicable exception are satisfied. Backup withholding will not apply to a U.S. Holder that furnishes a correct taxpayer identification number and makes any other required certification on Internal Revenue Service Form W-9 or that is otherwise exempt from backup withholding. U.S. Holders that are required to establish their exempt status generally must provide such certification on Internal Revenue Service Form W-9. Certain individuals holding the ADSs or ordinary shares other than in an account at certain financial institutions may be subject to additional information reporting requirements.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against your U.S. federal income tax liability, and you may obtain a refund of any excess amounts withheld under the backup withholding rules by filing the appropriate claim for refund with the Internal Revenue Service and furnishing any required information in a timely manner.

Certain U.S. Holders who are individuals are required to report information relating to an interest in our ADSs or ordinary shares, subject to certain exceptions (including an exception for ADSs or ordinary shares held in accounts maintained by certain financial institutions). U.S. Holders should consult their tax advisors regarding the effect, if any, of this legislation on their ownership and disposition of the ADSs or ordinary shares.

U.S. Holders should consult their tax advisors regarding the application of the U.S. information reporting and backup withholding rules.

F. Dividends and Paying Agents

Not applicable.

G. Statement by Experts

Not applicable.

H. Documents on Display

We previously filed with the SEC a registration statement on Form F-1 (File No. 333-146605) and a prospectus under the Securities Act with respect to the ordinary shares represented by the ADSs. We also filed with the SEC a related registration statement on Form F-6 (File Number 333-146765) with respect to the ADSs.

We are subject to periodic reporting and other informational requirements of the Exchange Act as applicable to foreign private issuers. Accordingly, we are required to file reports, including annual reports on Form 20-F, and other information with the SEC. All documents filed by us with the SEC can be inspected and copied at the public reference facilities maintained by the SEC at 100 F Street, N.E., Washington, D.C. 20549. You can request copies of these documents, upon payment of a duplicating fee, by writing to the SEC. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference rooms. The SEC also maintains a web site at www.sec.gov that contains reports, proxy and information statements, and other information regarding registrants that make electronic filings with the SEC using its EDGAR system.

As a foreign private issuer, we are exempt from the rules of the Exchange Act prescribing the furnishing and content of quarterly reports and proxy statements, and our executive officers, directors and principal shareholders are exempt from the reporting and short-swing profit recovery provisions contained in Section 16 of the Exchange Act. In addition, we are not required under the Exchange Act to file periodic reports and financial statements with the SEC as frequently or as promptly as U.S. companies whose securities are registered under the Exchange Act.

We intend to furnish J.P. Morgan, the depository of our ADSs, with all notices of shareholders' meeting and other reports and communications that are made generally available to our shareholders. The depository will make such notices, reports and communications available to holders of ADSs and, upon our written request, will mail to all record holders of ADSs the information contained in any notice of a shareholders' meeting received by the depository from us.

In accordance with Rule 5250(d) of the Nasdaq Listing Rules, we will post this annual report on Form 20-F on our website at <http://ir.cninsure.net/sec.cfm>. In addition, we will provide hard copies of our annual report free of charge to shareholders and ADS holders upon request.

I. Subsidiary Information

For a list of our subsidiaries as of March 31, 2015, see Exhibit 8.1 to this annual report.

Item 11. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

Our exposure to interest rate risk primarily relates to the interest income generated by bank deposits and short-term, highly-liquid investments with original maturities of 90 days or less. Interest-earning instruments carry a degree of interest rate risk, and our future interest income may be lower than expected. We have not been exposed nor do we anticipate being exposed to material risks due to changes in interest rates. We have not used any derivative financial instruments to manage our interest risk exposure. As of December 31, 2014, we had no short-term or long-term bank borrowings. If we borrow money in future periods, we may be exposed to additional interest rate risk.

Foreign Exchange Risk

Substantially all of our revenues and expenses are denominated in RMB. Our exposure to foreign exchange risk primarily relates to a small amount of cash and cash equivalent denominated in U.S. dollars resulting from the remaining proceeds from our follow-on offering completed in July 2010. We have not hedged exposures denominated in foreign currencies using any derivative financial instruments. Although in general, our exposure to foreign exchange risks should be limited, the value of your investment in our ADSs will be affected by the foreign exchange rate between U.S. dollars and RMB because the value of our business is effectively denominated in RMB, while the ADSs will be traded in U.S. dollars.

The value of the RMB against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in China's political and economic conditions. The conversion of RMB into foreign currencies, including U.S. dollars, has been based on rates set by the PBOC. On July 21, 2005, the PRC government changed its decade-old policy of pegging the value of the RMB to the U.S. dollar. Under the current policy, the RMB is permitted to fluctuate within a narrow and managed band against a basket of certain foreign currencies. This change in policy has resulted in an approximately more than 25.0% appreciation of the RMB against the U.S. dollar over the following eight years. To the extent that we need to convert our U.S. dollar or other currencies-denominated assets into RMB for our operations, appreciation of the RMB against the U.S. dollar or other currencies would have an adverse effect on the RMB amount we receive from the conversion. We had U.S. dollar-denominated financial assets amounting to US\$3.4 million and HK dollar-denominated financial assets amounting to HK\$1.7 million as of December 31, 2014. A 10% appreciation of the RMB against the U.S. dollar and HK dollar would have resulted in a decrease of RMB2.2 million (US\$0.4 million) in the value of our U.S. dollar-denominated and HK dollar-denominated financial assets. Conversely, if we decide to convert our RMB denominated cash amounts into U.S. dollars amounts or other currencies amounts for the purpose of making payments for dividends on our ordinary shares or ADSs or for other business purposes, appreciation of the U.S. dollar or other currencies against the RMB would have a negative effect on the U.S. dollar or other currencies amount available to us.

Item 12. Description of Securities Other than Equity Securities

A. Debt Securities

Not applicable.

B. Warrants and Rights

Not applicable.

C. Other Securities

Not applicable.

D. American Depositary Shares

Fees Payable by ADS Holders

We have appointed J.P. Morgan as our depository. A copy of our Form of Deposit Agreement with J.P. Morgan was filed with the SEC as an exhibit to our Form F-6 registration statement initially filed on October 17, 2007, or the Deposit Agreement. Pursuant to the Deposit Agreement, holders of our ADSs may have to pay to J.P. Morgan, either directly or indirectly, fees or charges up to the amounts set forth in the table below.

Category	Depository Actions	Associated Fees
(a) Depositing or substituting the underlying shares	Each person to whom ADRs are issued against deposits of shares, including deposits and issuances in respect of: <ul style="list-style-type: none"> • Share distributions, stock split, rights, merger • Exchange of securities or any other transaction or event or other distribution affecting the ADSs or the Deposited Securities 	US\$5.00 for each 100 ADSs (or portion thereof) evidenced by the new ADRs delivered
(b) Receiving or distributing dividends	Distribution of dividends	US\$0.02 or less per ADS
(c) Selling or exercising rights	Distribution or sale of securities, the fee being in an amount equal to the fee for the execution and delivery of ADSs which would have been charged as a result of the deposit of such securities	US\$5.00 for each 100 ADSs (or portion thereof)
(d) Withdrawing an underlying security	Acceptance of ADRs surrendered for withdrawal of deposited securities	US\$5.00 for each 100 ADSs (or portion thereof) evidenced by the ADRs surrendered

(e) Transferring, splitting or grouping receipts	Transfers, combining or grouping of depositary receipts	US\$1.50 per ADS
(f) General depositary services, particularly those charged on an annual basis.	<ul style="list-style-type: none"> • Other services performed by the depositary in administering the ADRs • Provide information about the depositary's right, if any, to collect fees and charges by offsetting them against dividends received and deposited securities 	US\$0.02 per ADS (or portion thereof) not more than once each calendar year and payable at the sole discretion of the depositary by billing Holders or by deducting such charge from one or more cash dividends or other cash distributions
(g) Expenses of the depositary	<p>Expenses incurred on behalf of Holders in connection with</p> <ul style="list-style-type: none"> • Compliance with foreign exchange control regulations or any law or regulation relating to foreign investment • The depositary's or its custodian's compliance with applicable law, rule or regulation • Stock transfer or other taxes and other governmental charges • Cable, telex, facsimile transmission/delivery • Expenses of the depositary in connection with the conversion of foreign currency into U.S. dollars (which are paid out of such foreign currency) • Any other charge payable by depositary or its agents 	Expenses payable at the sole discretion of the depositary by billing Holders or by deducting charges from one or more cash dividends or other cash distributions

Payment from the Depositary

Direct Payments

J.P. Morgan, as depositary, has agreed to reimburse certain reasonable company expenses related to our ADR program and incurred by us in connection with the program. For the years ended December 31, 2013 and 2014, the depositary reimbursed US\$0.2 million and US\$0.1 million, respectively. For the year ended December 31, 2013 and 2014, the depositary reimbursement has been deducted US\$0.1 million and US\$0.1 million withholding income tax, respectively. The amounts the depositary reimbursed are not perforce related to the fees collected by the depositary from ADR holders. The table below sets forth the types of expenses that J.P. Morgan has agreed to reimburse and the amounts reimbursed for the year ended December 31, 2013 and 2014.

	For the Year Ended December 31,	
	2013	2014
	(in thousands of US\$)	
Investor relations ⁽¹⁾	50.6	—
Directors and officers liability insurance	122.8	140
Legal fees incurred in connection with preparation of Form 20-F and ongoing SEC compliance and listing requirements.....	0.9	—
Listing fees	—	—
Others	21.8	—
	196.1	140

(1) Includes expenses in relation with roadshows, press release distribution, maintenance of investor relations website and printing.

PART II

Item 13. Defaults, Dividend Arrearages and Delinquencies

None.

Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds

A. – D. Material Modifications to the Rights of Security Holders

None.

E. Use of Proceeds

On July 14, 2010, we completed a follow-on public offering of 4,600,000 ADSs, each representing 20 ordinary shares. The ordinary shares underlying the ADSs offered and sold were registered pursuant to our automatic shelf registration statement on Form F-3 (File No. 333-168009) filed with the SEC on July 7, 2010. Morgan Stanley and BofA Merrill Lynch acted as joint bookrunners of this offering. We received net proceeds of approximately US\$109.7 million. As of December 31, 2014, we used the net proceeds as follows:

- approximately US\$23.2 million to fund development of our online and mobile platforms including CNpad, Baoxian.com, Chetong.net and eHuzhu;
- approximately US\$55.8 million to fund acquisitions; and
- approximately US\$1.3 million to fund development of wealth management business.;

None of the net proceeds from the follow-on offering were paid directly or indirectly to directors or officers of our company or their associates, persons owning 10% or more of our equity securities or our affiliates.

Item 15. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, has performed an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report, as required by Rule 13a-15(b) under the Exchange Act.

Based upon that evaluation, our chief executive officer and chief financial officer have concluded that, as of December 31, 2014, our disclosure controls and procedures were effective in ensuring that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act was recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our chief executive officer and chief financial officer, to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such item is defined in Rules 13a-15(f) under the Exchange Act, for our company. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements in accordance with U.S. GAAP and includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of a company's assets, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that a company's receipts and expenditures are being made only in accordance with authorizations of a company's management and directors, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of a company's assets that could have a material effect on the consolidated financial statements.

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper override. Because of

such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process, and it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

As required by Section 404 of the Sarbanes-Oxley Act and related rules as promulgated by the SEC, our management assessed the effectiveness of the internal control over financial reporting as of December 31, 2014 using criteria established in “Internal Control — Integrated Framework (2013)” issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Based on this assessment, management concluded that our internal control over financial reporting was effective as of December 31, 2014, based on the criteria established in “Internal Control—Integrated Framework (2013)” issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Report of the Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of CNinsure Inc.:

We have audited the internal control over financial reporting of CNinsure Inc., its subsidiaries and variable interest entities (collectively, the “Group”) as of December 31, 2014, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Group’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Group’s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company’s internal control over financial reporting is a process designed by, or under the supervision of, the company’s principal executive and principal financial officers, or persons performing similar functions, and effected by the company’s board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Group maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on the criteria established in *Internal Control - Integrated Framework(2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended December 31, 2014 of the Group, and our report dated April 23, 2015 expressed an unqualified opinion on those consolidated financial statements and financial statement schedule.

Hong Kong
April 23, 2015

Changes in Internal Control over Financial Reporting

Management has evaluated, with the participation of our chief executive officer and chief financial officer, whether any changes in our internal control over financial reporting that occurred during our last fiscal year have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Based on the evaluation we conducted, management has concluded that no such changes occurred during the period covered by this annual report on Form 20-F.

Item 16A. Audit Committee Financial Expert

Our board of directors has determined that Allen Lueth, an independent director (under the standards set forth in Rule 5605 of the Nasdaq Listing Rules and Rule 10A-3 under the Exchange Act) and member of our audit committee, is an audit committee financial expert.

Item 16B. Code of Ethics

Our board of directors adopted a code of business conduct and ethics that applies to our directors, officers and employees. We have posted a copy of our code of business conduct and ethics on our investor relations website [at http://ir.cninsure.net/governance.cfm](http://ir.cninsure.net/governance.cfm).

Item 16C. Principal Accountant Fees and Services

The following table sets forth the aggregate fees by categories specified below in connection with certain professional services rendered by Deloitte Touche Tohmatsu Certified Public Accountants, our independent registered public accounting firm, for the periods indicated.

	For the Year Ended December 31,	
	2013	2014
	(in thousands of US\$)	
Audit fees ⁽¹⁾	1,770.9	1,475.0
Audit-related fees ⁽²⁾	—	—
Tax fees ⁽³⁾	28.1	—

(1) “Audit fees” meant the aggregate fees billed and expected to be billed in each of the fiscal years listed for professional services rendered by our independent registered public accounting firm for the audit of our annual financial statements and review of quarterly financial statements included in our reports on Form 6-K, services that are normally provided in connection with statutory and regulatory filings or engagements for those fiscal years.

(2) “Audit-related fees” meant the aggregate fees billed in each of the fiscal years listed for assurance and related services by our independent registered public accounting firm that are reasonably related to the performance of the audit or review of our financial statements and are not reported under “Audit fees.”

(3) “Tax fees” meant the aggregate fees billed in each of the fiscal years listed for professional services rendered by our independent registered public accounting firm for tax compliance, tax advice, and tax planning.

The policy of our audit committee is to pre-approve all audit and non-audit services provided by our independent registered public accounting firm, including audit services, audit-related services, tax services and other services as described above, other than those for *de minimis* services which are approved by the Audit Committee prior to the completion of the audit.

Item 16D. Exemptions from the Listing Standards for Audit Committees

Not applicable.

Item 16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers

None

Item 16F. Change in Registrant's Certifying Accountant

Not applicable.

Item 16G. Corporate Governance

NASDAQ Stock Market Rule 5620(a) requires each issuer to hold an annual meeting of shareholders no later than one year after the end of the issuer's fiscal year-end. However, NASDAQ Stock Market Rule 5615(a)(3) permits foreign private issuers like us to follow "home country practice" in certain corporate governance matters. Maples and Calder, our Cayman Islands counsel, has provided a letter to the NASDAQ Stock Market certifying that under Cayman Islands law, we are not required to hold annual shareholder meetings every year. We follow home country practice with respect to annual meetings and did not hold an annual meeting of shareholders in 2009, 2010, 2011, 2012, 2013 and 2014. We may, however, hold annual shareholder meetings in the future if there are significant issues that require shareholders' approvals.

We obtained approvals from the board of directors on November 27, 2014 and December 12, 2014 to issue up to 150,000,000 ordinary shares of the Company (the "Shares") to our employees, excluding directors and officers. The purchase prices for the Shares are based on the average closing prices for the then 20 trading days prior to the board approvals. See "Item 7. Major Shareholders and Related Party Transactions — B. Related Party Transactions — Shares Sold to Employee Companies and Subscription Receivables from Employee Companies."

Pursuant to the NASDAQ Stock Market Rule 5635(c), shareholder approval is required prior to the issuance of securities when a stock option or purchase plan is to be established or materially amended or other equity compensation arrangement made or materially amended, pursuant to which stock may be acquired by officers, directors, employees, or consultants, except for a few situations stated thereunder. Maples and Calder, our Cayman Island counsel, has provided a letter to the NASDAQ Stock Market certifying that under Cayman Islands law, we are not required to obtain shareholder approval in respect of the issuance of securities in the circumstances set out in NASDAQ Stock Market Rule 5635(C). We follow home country practice accordingly.

Other than the annual meeting and share purchase plan to employees practices described above, there are no significant differences between our corporate governance practices and those followed by U.S. domestic companies under NASDAQ Stock Market Rules.

Item 16H. Mine Safety Disclosure

Not applicable

PART III

Item 17. Financial Statements

We have elected to provide financial statements pursuant to Item 18.

Item 18. Financial Statements

The consolidated financial statements of CNinsure Inc. and its subsidiaries are included at the end of this annual report.

CNINSURE INC.
INDEX TO CONSOLIDATED FINANCIAL STATEMENTS

	<u>Page</u>
Report of Independent Registered Public Accounting Firm	F-2
Consolidated Balance Sheets as of December 31, 2013 and 2014	F-3
Consolidated Statements of Income and Comprehensive Income (Loss) for the Years Ended December 31, 2012, 2013 and 2014	F-6
Consolidated Statements of Shareholder’s Equity for the Years Ended December 31, 2012, 2013 and 2014	F-8
Consolidated Statements of Cash Flows for the Years Ended December 31, 2012, 2013 and 2014	F-10
Notes to the Consolidated Financial Statements	F-12
Schedule 1—Condensed Financial Statements of CNinsure Inc.	F-52

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of CNinsure Inc.:

We have audited the accompanying consolidated balance sheets of CNinsure Inc. (the "Company"), its subsidiaries and variable interest entities (the "Group") as of December 31, 2013 and 2014, and the related consolidated statements of income and comprehensive income (loss), shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2014. Our audits also include the financial statement schedule included in schedule 1. These consolidated financial statements and the financial statement schedule are the responsibilities of the Group's management. Our responsibility is to express an opinion on the consolidated financial statements and the financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of CNinsure Inc., its subsidiaries and variable interest entities as of December 31, 2013 and 2014, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2014 in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Group's internal control over financial reporting as of December 31, 2014, based on the criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated April 23, 2015 expressed an unqualified opinion on the Group's internal control over financial reporting.

Our audits also comprehended the translation of Renminbi amounts into United States dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 2. Such United States dollar amounts are presented solely for the convenience of readers in the United States of America.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

(1) Organization and Description of Business

CISG Holdings Ltd ("CISG") was incorporated in the British Virgin Islands ("BVI") on June 8, 2004. CISG undertook a separate restructuring in anticipation of an initial public offering ("IPO") involving CNinsure Inc. (the "Company") that was incorporated in the Cayman Islands on April 10, 2007 as a shell company for listing purpose. On July 31, 2007, prior to its IPO, the Company issued 684,210,526 ordinary shares to the existing shareholders of CISG for exchange of their shares of CISG on a 10,000-for-1 basis and thereafter, became the ultimate holding company of CISG. The Company, its subsidiaries and variable interest entities (the "VIEs") are collectively referred to as the "Group". The Group is principally engaged in the provision of insurance brokerage and agency services, and insurance claims adjusting services, and services for wealth management products in the People's Republic of China (the "PRC").

Current PRC laws and regulations place certain restrictions on foreign investment in and ownership of insurance agencies, brokerages and on-line business. Accordingly, the Group conducts some of its operations in China through contractual arrangements among its PRC subsidiaries, two PRC affiliated entities and the equity shareholders of these PRC affiliated entities, who are PRC nationals. The contractual arrangements include a series of contracts entered into between the Group's PRC subsidiaries and the equity shareholders of these PRC affiliated entities and these PRC affiliated entities, including loan agreements, equity pledge agreements, irrevocable powers of attorney, exclusive purchase option agreements, consulting and service agreements, information technology ("IT") platform service agreements and technology service agreements. The consulting and service agreements and IT platform service agreements were not renewed since 2013. Through these contractual arrangements, the Group is entitled to: (1) receive service fees from the subsidiaries of these PRC affiliated entities; (2) exercise all of the voting powers of the owners of these PRC affiliated entities; (3) receive dividends declared by these PRC affiliated entities and their subsidiaries; (4) acquire all the equity interests of these PRC affiliated entities and their subsidiaries once PRC laws permit; and (5) exercise its substantive kick out right under the terms of the exclusive purchase option agreement. As the Company is the sole primary beneficiary of these VIEs, the Company consolidates them into its consolidated financial statements (See note 8).

(2) Summary of Significant Accounting Policies

(a) *Basis of Presentation and Consolidation*

The consolidated financial statements of the Group have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). The consolidated financial statements include the financial statements of the Company, all its majority-owned subsidiaries and those VIEs of which the Company is the primary beneficiary, from the dates they were acquired or incorporated. All intercompany balances and transactions have been eliminated in consolidation. In addition, the Group consolidates VIEs of which it is deemed to be the primary beneficiary and absorbs all of the expected losses and residual returns of the entity.

(b) *Use of Estimates*

The preparation of the consolidated financial statements in conformity with US GAAP requires management of the Group to make a number of estimates and assumptions relating to the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. Significant accounting estimates reflected in the Group's consolidated financial statements included the valuation of deferred tax assets, valuation of goodwill and intangible assets and liabilities of acquired businesses on acquisition day for impairment analysis, allowance for doubtful receivables, fair values of the subsidiaries being transferred within the Group at the dates of transactions, the valuation of non-controlling interests acquired from related parties at acquisition dates, valuation of transfer pricing and fair value of share based compensation. Actual results could differ from those estimates.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

(c) Cash and Cash Equivalents and Restricted Cash

Cash and cash equivalents consist of cash on hand, bank deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash, and have insignificant risk of changes in value related to changes in interest rates.

In its capacity as an insurance agent and broker, the Group collects premiums from certain insureds and remits the premiums to the appropriate insurance companies. Accordingly, as reported in the consolidated balance sheets, "premiums" are receivables from the insureds. Unremitted net insurance premiums are held in a fiduciary capacity until disbursed by the Group. The Group invests these unremitted funds only in cash accounts held for a short term, and reports such amounts as restricted cash in the consolidated balance sheets. Also included in the restricted cash is a guarantee deposits required by China Insurance Regulatory Commission ("CIRC") in order to protect insurance premium appropriation by insurance agency of RMB7,034 and RMB4,536 as of December 31, 2013 and 2014, respectively.

(d) Short Term Investment

Short term investments are mainly available-for-sale investments in debt securities that do not have a quoted market price in an active market. They are measured at costs which approximate their fair values in the consolidated balance sheets. The Group benchmark the costs against fair values of comparable investments as of balance sheet date, and categorized all fair value measures of short term investments as level 2 of the fair value hierarchy. No impairment loss on short term investments was identified for each of the years ended December 31, 2013 and 2014.

(e) Accounts Receivable and Insurance Premium Receivables

Accounts receivable are recorded at the invoiced amount and do not bear interest. Accounts receivable represent fees receivable on agency, brokerage and claims adjusting services primarily from insurance companies. Amounts collected on accounts receivable are included in net cash provided by operating activities in the consolidated statements of cash flows. The allowance for doubtful accounts is the Group's best estimate of the amount of probable credit losses in the Group's existing accounts receivable. The Group determines the allowance based on historical write-off experience. The Group reviews its allowance for doubtful accounts regularly. Past due balances over 90 days and over a specified amount are reviewed individually for collectability.

Accounts receivable, net is analyzed as follows:

	As of December 31,	
	2013	2014
	RMB	RMB
Accounts receivable	212,137	202,737
Allowance for doubtful accounts	(12,655)	(16,587)
Accounts receivable, net	199,482	186,150

The following table summarizes the movement of the Group's allowance for doubtful accounts:

	2012	2013	2014
	RMB	RMB	RMB
Balance at the beginning of the year	9,348	9,903	12,655
Provision for doubtful accounts	4,523	5,303	3,932
Write-offs	(3,968)	(2,551)	—
Balance at the ending of the year	9,903	12,655	16,587

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

Insurance premium receivables consist of insurance premium to be collected from insured, and is recorded at the invoiced amount and do not bear interest. Amounts collected on insurance premium receivables are included in net cash provided by operating activities in the consolidated statements of cash flows.

(f) Property, Plant and Equipment

Property, plant and equipment are stated at cost. Depreciation and amortization are calculated using the straight-line method over the following estimated useful lives, taking into account residual value:

	Estimated useful life (Years)	Estimated residual value
Building	20-36	0%
Office equipment, furniture and fixtures	3-5	0%-3%
Motor vehicles	5-10	0%-3%
Leasehold improvements	5	0%

The depreciation methods and estimated useful lives are reviewed regularly. The following table summarizes the depreciation recognized in the consolidated statement of income and comprehensive income (loss):

	2012	2013	2014
	RMB	RMB	RMB
Commission and fees under operating costs	3,585	4,988	5,508
Selling expenses.....	1,880	1,636	1,282
General and administrative expenses	20,884	24,629	21,445
Depreciation for the year	<u>26,349</u>	<u>31,253</u>	<u>28,235</u>

(g) Goodwill and Other Intangible Assets

Goodwill represents the excess of costs over fair value of net assets of businesses acquired. Goodwill is not amortized, but is tested for impairment at the reporting unit level at least on an annual basis at the balance sheet date or more frequently if certain indicators arise. The Group operated in three reporting units for the year ended December 31, 2014. The goodwill impairment review is a two-step process. Step 1 consists of a comparison of the fair value of a reporting unit with its carrying amount. An impairment loss may be recognized if the review indicates that the carrying value of a reporting unit exceeds its fair value. Estimates of fair value are primarily determined by using discounted cash flows. If the carrying amount of a reporting unit exceeds its fair value, step 2 requires the fair value of the reporting unit to be allocated to the underlying assets and liabilities of that reporting unit, resulting in an implied fair value of goodwill. If the carrying amount of the goodwill of the reporting unit exceeds the implied fair value, an impairment charge is recorded equal to the excess of the carrying amount over the implied fair value.

The impairment review is highly judgmental and involves the use of significant estimates and assumptions. These estimates and assumptions have a significant impact on the amount of any impairment charge recorded. Discounted cash flow methods are dependent upon assumptions of future sales trends, market conditions and cash flows of each reporting unit over several years. Actual cash flows in the future may differ significantly from those previously forecasted. Other significant assumptions include growth rates and the discount rate applicable to future cash flows.

In 2012, 2013 and 2014, management compared the carrying value of each reporting unit, inclusive of assigned goodwill, to its respective fair value which is the step one of the two-step impairment test. The fair value of all reporting units was estimated

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

by using the income approach. Based on this quantitative test, it was determined that the fair value of each reporting unit tested exceeded its carrying amount and, therefore, step 2 of the two-step goodwill impairment test was unnecessary. The management concluded that goodwill was not impaired as of December 31, 2012, 2013 and 2014.

Identifiable intangibles assets are required to be determined separately from goodwill based on their fair values. In particular, an intangible asset acquired in a business combination should be recognized as an asset separate from goodwill if it satisfies either the “contractual-legal” or “separability” criterion. Intangible assets with a finite economic life are carried at cost less accumulated amortization. Amortization for identifiable intangibles assets of customer relationship is computed using the accelerated method, while amortization for other identifiable intangibles assets is computed using the straight-line method over the intangible assets' economic lives. Intangible assets with indefinite economic lives are not amortized but carried at cost less any subsequent accumulated impairment losses. If an intangible asset that is not being amortized is subsequently determined to have a finite economic life, it will be tested for impairment and then amortized prospectively over its estimated remaining economic life and accounted for in the same manner as other intangible assets that are subject to amortization. Intangible assets with indefinite economic lives are tested for impairment annually or more frequently if events or changes in circumstances indicate that they might be impaired.

Separately identifiable intangible assets consist of brand name, trade name, customer relationship, non-compete agreement, agency agreement and license, and software and system.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

The intangible assets, net consisted of the following:

		As of December 31, 2013			
	Useful life (Years)	Cost	Accumulated amortization	Accumulated Impairment loss	Net carrying values
		RMB	RMB	RMB	RMB
Brand name.....	Indefinite	24,091	—	(20,384)	3,707
Trade name	9.4 to 10	8,898	(2,925)	—	5,973
Customer relationship	4.6 to 9.8	54,706	(39,738)	(5,760)	9,208
Non-compete agreement	3 to 6.25	68,215	(29,835)	(34,692)	3,688
Agency agreement and license	4.6 to 9.8	16,004	(10,989)	(581)	4,434

		177,654	(87,122)	(61,417)	29,115

		As of December 31, 2014			
	Useful life (Years)	Cost	Accumulated amortization	Accumulated Impairment loss	Net carrying values
		RMB	RMB	RMB	RMB
Brand name.....	Indefinite	24,091	—	(20,384)	3,707
Trade name	9.4 to 10	8,898	(3,867)	—	5,031
Customer relationship	4.6 to 9.8	67,096	(48,012)	(5,760)	13,324
Non-compete agreement	3 to 6.25	69,485	(32,557)	(34,692)	2,236
Agency agreement and license	4.6 to 9.8	21,394	(14,789)	(581)	6,024
Software and system	5 to 10	5,999	(4,723)	—	1,276
		196,963	(103,948)	(61,417)	31,598

Aggregate amortization expenses for intangible assets were RMB15,285, RMB13,665 and RMB16,826 for the years ended December 31, 2012, 2013 and 2014, respectively.

Impairment of intangible assets with definite lives

The Group evaluates the recoverability of identifiable intangible assets with determinable useful lives, whenever events or changes in circumstances indicate that these assets' carrying amounts may not be recoverable. The Group measures the carrying amount of identifiable intangible asset with determinable useful live against the estimated undiscounted future cash flows associated with it. Impairment exists when the sum of the expected future net cash flows is less than the carrying value of the asset being evaluated. Impairment loss is calculated as the amount by which the carrying value of the asset exceeds its fair value. Fair value is estimated based on various valuation techniques, including the discounted value of estimated future cash flows. The evaluation of asset impairment requires the Group to make assumptions about future cash flows over the life of the asset being evaluated. These assumptions require significant judgment and actual results may differ from assumed and estimated amounts. During the years ended December 31, 2012, 2013 and 2014, the Group recognized no impairment losses on identifiable intangible assets with determinable useful lives.

Impairment of indefinite-lived intangible assets

An intangible asset that is not subject to amortization is tested for impairment at least annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. Such impairment test is to compare the fair values of assets with their carrying amounts and an impairment loss is recognized if and when the carrying amounts exceed the fair values. The estimates of fair values of intangible assets not subject to amortization are determined using various discounted cash flow

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

valuation methodologies. Significant assumptions are inherent in this process, including estimates of discount rates or market price. Discount rate assumptions are based on an assessment of the risk inherent in the respective intangible assets. Market prices are based on potential purchase quote from third party, if any. During the years ended December 31, 2012, 2013 and 2014, the Group recognized no impairment losses on its indefinite-lived intangible assets.

The estimated amortization expenses for the next five years are: RMB11,626 in 2015, RMB5,259 in 2016, RMB3,936 in 2017, RMB3,722 in 2018 and RMB2,557 in 2019, and an aggregate amount of RMB791 in years thereafter.

(h) Other Receivables and Other Current Assets

Other receivables and other current assets mainly consist of receivables from third parties, advances, deposits, interest receivables, value-added tax recoverable and prepaid expenses.

(i) Investment in Affiliates

Investments in affiliates are accounted for using the equity method. The Group does not control the affiliates but exerts significant influence over them.

(j) Other Non-current Assets

Other non-current assets represent investments in equity security of private companies which the group owns equity interest of less than 20%, over which the Group exerts no significant influence and are measured initially at cost. As of December 31, 2012, the other non-current assets also included dividend receivable from Datong of RMB7,561, recorded at amortized cost after discounting with the effective interest rate. As of December 31, 2013, dividend receivable from Datong of RMB7,561 was fully impaired.

(k) Impairment of Long-Lived Assets

Property, plant, and equipment, and purchased intangible assets with definite life, subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset.

(l) Insurance Premium Payables

Insurance premium payables are insurance premiums collected on behalf of insurance companies but not yet remitted as of the balance sheet dates.

(m) Subscription Receivables

The Group entered into share purchase agreements with companies established on behalf of our employees (the "Employee Companies") for the issuance of 100,000,000 ordinary shares with US\$0.27 per ordinary share and 50,000,000 ordinary shares with US\$0.29 per ordinary share in 2014. The issue prices are the average closing prices for the 20 trading days prior to the board approval dates of such subscriptions. The sale of shares to the Employee Companies was completed on December 17, 2014.

In order to facilitate the purchase of shares by employees as described above, the Group has granted a loan to the Employee Companies. The loan bears interest at a rate of 3% per annum and is repayable upon the sale of the shares by employees,

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

termination of employment or within two years, whichever comes first. Please refer to note 12 for details. The interest rate is determined with reference to fair market prices and therefore no interest-related compensation expense is recorded.

According to FASB ASC 505-10-45, the loan is recorded as a separate line of deduction from equity in the Group's consolidated balance sheet as of December 31, 2014. Interest income accruing from the loan is recognized as non-operating income. None of the loans to employees have been repaid up to the date of this report and total balance thereof as of year-end was RMB257,491 (US\$41,500).

(n) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred income taxes are recognized for temporary differences between the tax bases of assets and liabilities and their reported amounts in the consolidated financial statements, net operating loss carryforwards and credits by applying enacted statutory tax rates applicable to future years. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

In 2014, the Group has adopted FASB ASU No. 2013-11—Income Taxes (Topic 740): *Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists prospectively*, to present an unrecognized tax benefit, or a portion of an unrecognized tax benefit, in the balance sheets as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except to the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require the Group to use, and the Group does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit is presented in the balance sheets as a liability.

(o) Share-based Compensation

Employee share-based compensation

All forms of share-based payments to employees, including employee stock options and employee stock purchase plans, are treated the same as any other form of compensation by recognizing the related cost in the consolidated statement of income and comprehensive income (loss). Compensation cost related to employee stock options or similar equity instruments is measured at the grant date based on the fair value of the award and is recognized over the service period, which is usually the vesting period. If an award requires satisfaction of one or more performance, or service conditions (or any combination thereof), compensation cost is recognized if the requisite service is rendered, and no compensation cost is recognized if the requisite service is not rendered. The Group recognizes compensation cost for an award with only service conditions that has a graded vesting schedule on a straight-line basis over the requisite service period for the entire award, provided that the amount of compensation cost recognized at any date must at least equal the portion of the grant-date value of the award that is vested at that date. For awards with both service and performance conditions, if each tranche has an independent performance condition for a specified period of service, the Group recognizes the compensation cost of each tranche as a separate award on a straight-line basis; if each tranche has performance conditions that are dependent of activities that occur in the prior service periods, the Group recognizes the compensation cost on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was, in-substance, multiple awards. No compensation cost is recognized for instruments that employees forfeit because a service condition or a performance condition is not satisfied.

Non-employee share-based compensation

Share-based compensation related to non-employees is recognized as compensation expenses ratably over the requisite service periods. The Group measures the cost of non-employee services received in exchange for share-based compensation based on the fair value of the equity instruments issued. The Group measures the fair value of the equity instruments in these transactions on the measurement date, which is determined as the earlier of the date at which a commitment for performance by the counterparty to earn the equity instruments is reached, or the date at which the counterparty's performance is complete. The

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

quantity and terms of the equity instruments issued to non-employees are not known up front as they are dependent upon counterparty performance conditions, the Group measures the equity instruments at their then-current lowest aggregate fair value at each reporting dates, and attributes the changes in those fair values over the future services period until the measurement date has been established.

Modification of an Award

A modification of the terms or conditions of an equity award is treated as an exchange of the original award for a new award. The Group measures the effects of a modification as follows:

c. Incremental compensation cost shall be measured as the excess, if any, of the fair value of the modified award determined over the fair value of the original award immediately before its terms are modified, measured based on the share price and other pertinent factors at that date; and

d. The total recognized compensation cost for an equity award shall at least equal the fair value of the award at the grant date unless at the date of the modification the performance or service conditions of the original award are not expected to be satisfied.

The Group records the incremental fair-value-based measure, if any, of the modified award, as compensation cost on the date of modification (for vested awards) or over the remaining service (vesting) period (for unvested awards).

Cancellation of an Award

A cancellation of an award that is not accompanied by the concurrent grant of (or offer to grant) a replacement award or other valuable consideration shall be accounted for as a repurchase for no consideration. Accordingly, any previously unrecognized compensation cost shall be recognized at the cancellation date.

The Group uses the Black-Scholes or the Binominal option-pricing model to determine the fair value of stock options. Determining the value of share-based compensation expense in future periods requires the input of highly subjective assumptions, including estimated forfeitures and the price volatility of the underlying shares. The Group estimates the forfeitures of the shares based on past employee retention rates and its expectations of future retention rates, and prospectively revises the forfeiture rates based on actual history. The share compensation charges may change based on changes to the actual forfeitures. The actual share-based compensation expenses may be materially different from the current expectations.

Share-based compensation expenses of RMB66,878, RMB45,317 and RMB23,598 for the years ended December 31, 2012, 2013 and 2014, respectively, were included in the general and administrative expenses.

(p) Employee Benefit Plans

As stipulated by the regulations of the PRC, the Group's subsidiaries and VIEs in the PRC participate in various defined contribution plans organized by municipal and provincial governments for its employees. The Group is required to make contributions to these plans at a percentage of the salaries, bonuses and certain allowances of the employees. Under these plans, certain pension, medical and other welfare benefits are provided to employees. The Group has no other material obligation for the payment of employee benefits associated with these plans other than the annual contributions described above. The contributions are charged to the consolidated statement of income and comprehensive income (loss) as they become payable in accordance with the rules of the above mentioned defined contribution plans.

(q) Revenue Recognition

The Group's revenue is derived principally from the provision of insurance brokerage, agency and claims adjusting services. The Group recognizes revenue when all of the following have occurred: persuasive evidence of an agreement with the insurance companies or insurance agencies exists, services have been provided, the fees for such services are fixed or determinable and collectability of the fee is reasonably assured.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

Insurance agency services are considered to be rendered and completed, and revenue is recognized, at the time an insurance policy becomes effective, that is, when the signed insurance policy is in place and the premium is collected from the insured. The Group has met all the four criteria of revenue recognition when the premiums are collected by the Group or the respective insurance companies and not before, because collectability is not ensured until receipt of the premium. Accordingly, the Group does not accrue any commission and fees prior to the receipt of the related premiums. Insurance brokerage services revenue is recognized when the signed insurance policy is in place and the premium is collected from the insured and the commission settlement confirmation is received from insurance companies, because the commission rate for brokerage services is negotiated case by case and the Group's fees are fixed when such confirmation is received. No allowance for cancellation has been recognized for agency and brokerage businesses as the management of the Group estimates, based on its past experience that the cancellation of policies rarely occurs. Any subsequent commission adjustments in connection with policy cancellations which have been de minimis to date are recognized upon notification from the insurance carriers. Actual commission and fee adjustments in connection with the cancellation of policies were 0.1%, 0.2% and 0.2% of the total commission and fee revenues during years ended December 31, 2012, 2013 and 2014, respectively. For property insurance and life insurance, agency and brokerage services, the Group may receive a performance bonus from insurance companies as agreed and per contract provisions. Once an agency and brokerage company achieves its performance target, typically a certain sales volume, the bonus will become due. The bonus amount is computed based on the insurance premium amount multiplied by an agreed-upon percentage. The contingent commissions are recorded when a performance target is being achieved. Insurance claims adjusting services are considered to be rendered and completed, and revenue is recognized at the time loss adjusting reports are confirmed being received by insurance companies. The Group has met all the four criteria of revenue recognition when the service is provided and the loss adjusting report is accepted by insurance companies. The Group does not accrue any service fee before the receipt of an insurance company's acknowledgement of receiving the adjusting reports. Any subsequent adjustments in connection with discounts which have been de minimis to date are recognized in revenue upon notification from the insurance companies.

Other service fees include commission revenues earned from distribution of wealth management products and revenue from the provision of IT services. Commission from distribution of wealth management products are recorded when the products have been sold to customers, at which time the Group has fulfilled all its services obligations. Revenue from the provision of IT services is recognized when the services are rendered.

The Group presents revenue net of sales taxes incurred. The sales taxes amounted to RMB99,001, RMB99,931 and RMB120,965 for the years ended December 31, 2012, 2013 and 2014, respectively. According to the Announcement on the VAT Reform Pilot Program of the Transportation and Selected Modern Service Sectors issued by the State Tax Bureau in July 2012, the transportation and some selected modern service sectors, including research and development (R&D) and technical services, information technology services, cultural creative services, logistics support services, tangible personal property leasing services, and assurance and consulting service, should pay value-added tax instead of business tax based on a predetermined timetable (hereinafter referred to as the "VAT Reform"), effective September 1, 2012 for entities in Beijing and November 1, 2012 for entities in Guangdong. The VAT Reform expanded nation-wide from August 1, 2013. A total of seven subsidiaries or VIEs in the Group that engage in consulting and information technology services met the VAT Reform requirements, and have started to pay value-added tax since the respectively effective days. Total Value-added taxes paid by the Group during the year ended December 31, 2013 and 2014 amounted to RMB12,013 and RMB14,997.

(r) *Contingent Consideration*

The Group recognizes all the assets acquired and liabilities assumed in a business combination at the acquisition-date fair values, which will include an estimation of the fair value of contingent consideration payables if any. Subsequent changes in the fair value of contingent consideration payables will be recorded in the consolidated statement of income and comprehensive income (loss) when incurred. No change in fair value of contingent consideration payable was charged to consolidated statement of income and comprehensive income (loss) for the years ended December 31, 2012, 2013 and 2014.

The selling shareholders of the acquired entities agreed to return part of considerations to the Group, if certain performance criteria cannot be met. The fair value of such contingent arrangements was charged to consolidated statement of income and

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

comprehensive income (loss) in the amount of RMB4,500, nil and nil for the years ended December 31, 2012, 2013 and 2014, respectively.

(s) *Fair Value of Financial Instruments.*

Authoritative literature provides a fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The level in the hierarchy within which the fair value measurement in its entirety falls is based upon the lowest level of input that is significant to the fair value measurement as follows:

Level 1-inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.

Level 2-inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3-inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques. The carrying amounts of accounts receivable, insurance premium receivables, other receivables, accounts payable, other payables, amounts due from (to) related parties and insurance premium payables are approximate their fair values due to the short-term maturity of these instruments.

Measured at fair value on a recurring basis

The Group measured its short-term investments at fair value on a recurring basis as of December 31, 2013 and 2014.

Short-term investments are measured at costs which approximate their fair values in the consolidated balance sheets. The Group benchmarks the costs against fair values of comparable investments as of balance sheet date, and categorized all fair value measures of short term investments as Level 2 of the fair value hierarchy. The fair value of the Company's short-term investments measured at recurring basis was RMB253,900 and RMB688,900, as of December 31, 2013 and 2014, respectively, all classified as Level 2 with fair value measurement at reporting date using significant other observable inputs.

The Group did not have Level 3 investments as of December 31, 2013 and 2014.

Measured at fair value on a non-recurring basis

Goodwill and intangible assets are measured at fair value on a nonrecurring basis and they are recorded at fair value only when impairment is recognized.

The Group measures certain assets, including the cost method investments, equity method investments and intangible assets, at fair value on a nonrecurring basis when they are deemed to be impaired. The fair values of these investments and intangible assets are determined based on valuation techniques using the best information available, and may include management judgments, future performance projections, etc. An impairment charge to these investments is recorded when the cost of the investment exceeds its fair value and this condition is determined to be other-than-temporary, and impairment charge to the intangible assets is recorded when their carrying amounts may not be recoverable.

(t) *Foreign Currencies*

The functional currency of the Company is the United States dollar ("USD"). Assets and liabilities are translated at the exchange rates at the balance sheet date, equity accounts are translated at historical exchange rates and revenues, expenses, gains and losses are translated using the average rate for the year. Translation adjustments are reported as cumulative translation adjustments and

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

are shown as a separate component of other comprehensive income or loss in the consolidated statements of income and comprehensive income (loss). The Group has chosen the Renminbi ("RMB") as their reporting currency.

The functional currency of the most of the Company's subsidiaries and VIEs is RMB. Transactions in other currencies are recorded in RMB at the rates of exchange prevailing when the transactions occur. Monetary assets and liabilities denominated in other currencies are translated into RMB at rates of exchange in effect at the balance sheet dates. Exchange gains and losses are recorded in the consolidated statements of income and comprehensive income (loss).

(u) *Foreign Currency Risk*

The RMB is not a freely convertible currency. The State Administration for Foreign Exchange, under the authority of the People's Bank of China, controls the conversion of RMB into foreign currencies. The value of RMB is subject to changes in central government policies and international economic and political developments that affect supply and demand in the China Foreign Exchange Trading System market of cash and cash equivalents. The Group had aggregate amounts of RMB2,262,712 and RMB2,080,842 of cash and cash equivalents denominated in RMB as of December 31, 2013 and 2014, respectively.

(v) *Translation into United States Dollars*

The consolidated financial statements of the Group are stated in RMB. Translations of amounts from RMB into U.S. dollars are solely for the convenience of the readers and were calculated at the rate of US\$1.00 = RMB6.2046, representing the noon buying rate in the City of New York for cable transfers of RMB on December 31, 2014, as set forth in H.10 statistical release of the Federal Reserve Board. The translation is not intended to imply that the RMB amounts could have been, or could be, converted, realized or settled into U.S. dollars at that rate on December 31, 2014, or at any other rate.

(w) *Segment Reporting*

The Group distributes a variety of property and casualty, and life insurance products underwritten by domestic and foreign insurance companies operating in the PRC, and provides insurance claims adjusting services as well as other insurance-related services and distribution of wealth management products. Before January 1, 2014, the Group operated three operating segments: (1) property and casualty insurance ("P&C"), (2) life insurance ("Life"), and (3) insurance claims adjusting services ("Claims Adjusting"). From January 1, 2014, the Group realigned its financial reporting structure into three business segments that more accurately reflect its organizational structure and changing business mix. Historical results reflecting the new business segments for the corresponding period of the previous year have been restated. The new business segments are as follows: (1) insurance agency segment, which mainly consists of providing agency services for P&C insurance products and life insurance products to individual clients, (2) insurance brokerage segment, which mainly consists of providing P&C and life insurance brokerage services to institutional clients, and (3) claims adjusting segment, which consists of providing pre-underwriting survey, claim adjusting, disposal of residual value, loading and unloading supervision and consulting services. Details of these operating segments are described in note 21. Operating segments are defined as components of an enterprise about which separate financial information is available and evaluated regularly by the Group's chief operating decision maker in deciding how to allocate resources and in assessing performance.

Substantially all revenues are derived in the PRC and all long-lived assets are located in the PRC.

(x) *Earnings per Share ("EPS") or ADS*

Basic EPS is calculated by dividing the net income available to common shareholders by the weighted average number of ordinary shares /ADS outstanding during the year. Diluted EPS is calculated by using the weighted average number of ordinary shares /ADS outstanding adjusted to include the potentially dilutive effect of outstanding share-based awards, unless their inclusion in the calculation is anti-dilutive.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

(y) *Advertising Costs*

Advertising costs are expensed as incurred. Advertising costs amounted to RMB5,048, RMB5,724 and RMB6,553 for the years ended December 31, 2012, 2013 and 2014, respectively.

(z) *Operating Leases*

Leases where substantially all the rewards and risks of ownership of assets remain with the leasing company are accounted for as operating leases. Payments made under operating leases are charged to the consolidated statements of income and comprehensive income (loss) over the lease period.

(aa) *Accumulated Other Comprehensive Income (Loss)*

The Group presents comprehensive income in the consolidated statements of income and comprehensive income (loss) with net income in a continuous statement.

Accumulated other comprehensive income (loss) represents foreign currency translation adjustments for the period.

(ab) *Recently Issued Accounting Standards*

In May 2014, the FASB issued a new pronouncement which affects any entity using U.S. GAAP that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets unless those contracts are within the scope of other standards (e.g., insurance contracts or lease contracts). This ASU will supersede the revenue recognition requirements in Topic 605, *Revenue Recognition*, and most industry-specific guidance. This ASU also supersedes some cost guidance included in Subtopic 605-35, *Revenue Recognition—Construction-Type and Production-Type Contracts*. In addition, the existing requirements for the recognition of a gain or loss on the transfer of nonfinancial assets that are not in a contract with a customer (e.g., assets within the scope of Topic 360, *Property, Plant, and Equipment*, and intangible assets within the scope of Topic 350, *Intangibles—Goodwill and Other*) are amended to be consistent with the guidance on recognition and measurement (including the constraint on revenue) in this ASU.

The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the following steps:

- Step 1: Identify the contract(s) with a customer.
- Step 2: Identify the performance obligations in the contract.
- Step 3: Determine the transaction price.
- Step 4: Allocate the transaction price to the performance obligations in the contract.
- Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation.

For a public entity, the amendments in this ASU are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted.

An entity should apply the amendments in this ASU using one of the following two methods:

1. Retrospectively to each prior reporting period presented and the entity may elect any of the following practical expedients:

- For completed contracts, an entity need not restate contracts that begin and end within the same annual reporting period.
- For completed contracts that have variable consideration, an entity may use the transaction price at the date the

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

contract was completed rather than estimating variable consideration amounts in the comparative reporting periods.

- For all reporting periods presented before the date of initial application, an entity need not disclose the amount of the transaction price allocated to remaining performance obligations and an explanation of when the entity expects to recognize that amount as revenue.

2. Retrospectively with the cumulative effect of initially applying this ASU recognized at the date of initial application. If an entity elects this transition method it also should provide the additional disclosures in reporting periods that include the date of initial application of:

- The amount by which each financial statement line item is affected in the current reporting period by the application of this ASU as compared to the guidance that was in effect before the change.
- An explanation of the reasons for significant changes.

The Group is in the process of assessing the impact of adoption of this pronouncement on its consolidated financial condition or results from operations.

In June 2014, the FASB issued a new pronouncement which requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Topic 718, *Compensation – Stock Compensation*, as it relates to awards with performance conditions that affect vesting to account for such awards. The performance target should not be reflected in estimating the grant-date fair value of the award. Compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the period(s) for which the requisite service has already been rendered. If the performance target becomes probable of being achieved before the end of the requisite service period, the remaining unrecognized compensation cost should be recognized prospectively over the remaining requisite service period. The total amount of compensation cost recognized during and after the requisite service period should reflect the number of awards that are expected to vest and should be adjusted to reflect those awards that ultimately vest. The requisite service period ends when the employee can cease rendering service and still be eligible to vest in the award if the performance target is achieved.

The amendments in this ASU are effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. Earlier adoption is permitted.

Entities may apply the amendments in this ASU either: (a) prospectively to all awards granted or modified after the effective date; or (b) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. If retrospective transition is adopted, the cumulative effect of applying this ASU as of the beginning of the earliest annual period presented in the financial statements should be recognized as an adjustment to the opening retained earnings balance at that date. In addition, if retrospective transition is adopted, an entity may use hindsight in measuring and recognizing the compensation cost. The Group does not expect the adoption of this pronouncement to have a significant impact on its consolidated financial condition or results from operations.

In January 2015, the FASB issued a new pronouncement which eliminates from U.S. GAAP the concept of extraordinary items. Subtopic 225-20, *Income Statement - Extraordinary and Unusual Items*, required that an entity separately classify, present, and disclose extraordinary events and transactions. Presently, an event or transaction is presumed to be an ordinary and usual activity of the reporting entity unless evidence clearly supports its classification as an extraordinary item.

If an event or transaction meets the criteria for extraordinary classification, an entity is required to segregate the extraordinary item from the results of ordinary operations and show the item separately in the income statement, net of tax, after income from continuing operations. The entity also is required to disclose applicable income taxes and either present or disclose earnings-per-share data applicable to the extraordinary item.

The FASB heard from stakeholders that the concept of extraordinary items causes uncertainty because it is unclear when an item should be considered both unusual and infrequent. Additionally, some stakeholders said that although users find information about unusual or infrequent events and transactions useful, they do not find the extraordinary item classification and

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

presentation necessary to identify those events and transactions. Other stakeholders noted that it is extremely rare in current practice for a transaction or event to meet the requirements to be presented as an extraordinary item.

The amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. A reporting entity may apply the amendments prospectively. A reporting entity also may apply the amendments retrospectively to all prior periods presented in the financial statements. Early adoption is permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. The Group does not expect the adoption of this pronouncement to have a significant impact on its consolidated financial condition or results from operations.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

(3) Acquisitions

Acquisitions in 2014

In April 2014, the Group entered into agreements to acquire 100% equity interests in Nanjing Yukai Insurance Agency Co., Ltd. ("Nanjing") and Wenzhou Huilian Insurance Agency Co., Ltd ("Wenzhou") at the cash consideration of RMB27,000 and RMB16,000, respectively.

In April 2014, the Group also entered into an agreement to acquire the remaining 70% equity interests in Jiaxing Lianbao Insurance Agency Co., Ltd ("Jiaxing") at the cash consideration of RMB21,000. The fair value of 30% equity interests in Jiaxing previously held by the Group was remeasured to RMB9,000, hence the Group recognized gain from step acquisition of RMB8,812 at acquisition date.

The acquisitions of Nanjing, Wenzhou and Jiaxing were completed on May 1, 2014. Pursuant to the agreements, the selling shareholders of Nanjing, Wenzhou and Jiaxing agreed to return part of considerations to the Group, if the performance criteria of Nanjing, Wenzhou and Jiaxing for years 2014 to 2016 cannot be met. The fair value of such contingent arrangements approximates to zero at the acquisition date. As for the year ended December 31, 2014, Wenzhou has met the performance criteria but Nanjing and Jiaxing has failed to meet the performance criteria. The Group has issued waivers to the sellers of Nanjing and Jiaxing to release the return of considerations related to these two companies' under-performance for fiscal 2014.

The following table summarizes the estimated fair values for major classes of assets acquired and liabilities assumed at the date of acquisition:

	<u>Nanjing</u>	<u>Wenzhou</u>	<u>Jiaxing</u>
	RMB	RMB	RMB
Net tangible assets (liabilities) acquired	(4,116)	2,708	3,670
Intangible assets	7,650	4,110	7,290
Goodwill	23,850	10,209	20,862
Deferred tax assets	1,529	—	—
Deferred tax liabilities.....	(1,913)	(1,027)	(1,822)
Total consideration	<u>27,000</u>	<u>16,000</u>	<u>30,000</u>

The excess of purchase price over tangible assets and identifiable intangible assets acquired and liabilities assumed was recorded as goodwill. The goodwill of RMB54,921 arising from the acquisitions consists largely of the synergies and economies of scale expected from combining the operations of the Group and the acquired companies. All of the goodwill was assigned to the Group's agency segment. None of the goodwill recognized is expected to be deductible for income tax purposes.

The acquired intangible assets were composed of the following:

	<u>Useful life</u>	<u>Fair Value Acquired</u>		
		<u>RMB</u>		
	<u>(Years)</u>	<u>Nanjing</u>	<u>Wenzhou</u>	<u>Jiaxing</u>
Customer relationship	6.7	4,840	2,920	4,630
Non-compete agreement	3.0	520	270	480
Agency agreement	6	2,290	920	2,180
Total.....		<u>7,650</u>	<u>4,110</u>	<u>7,290</u>

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

The weighted average amortization period of the intangible asset acquired is 6.3 years

The following unaudited pro forma information summarizes the effect of the acquisitions, as if the acquisitions had occurred as of January 1, 2013. This unaudited pro forma information is presented for information purposes only. It is based on historical information and does not purport to represent the actual results that may have occurred had the Group consummated the acquisitions on January 1, 2013, nor is it necessarily indicative of future results of operations of the consolidated enterprises:

Pro forma for year ended December 31, 2013

	<u>Nanjing</u>	<u>Wenzhou</u>	<u>Jiaying</u>
	RMB	RMB	RMB
	(unaudited)	(unaudited)	unaudited)
Pro forma net revenues	1,769,665	1,769,4	1,780,360
Pro forma income from operations	16,563	17,553	16,348
Pro forma net income	94,541	95,289	94,215
Pro forma net income per share	0.09	0.10	0.09

Pro forma for year ended December 31, 2014

	<u>Nanjing</u>	<u>Wenzhou</u>	<u>Jiaying</u>
	RMB	RMB	RMB
	(unaudited)	(unaudited)	(unaudited)
Pro forma net revenues	2,159,466	2,155,319	2,163,231
Pro forma income from operations	30,613	30,840	31,355
Pro forma net income	161,793	161,736	162,318
Pro forma net income per share	0.16	0.16	0.16

The amounts of Nanjing, Wenzhou and Jiaying's net revenue and earnings included in the Group's consolidated income statement from May 1, 2014 to December 31, 2014 are RMB19,060, RMB11,902 and RMB22,136, respectively and RMB2,323, RMB1,151 and RMB619, respectively.

(4) Other Receivables

Other receivables, net are analyzed as follows:

	<u>As of December 31,</u>	
	<u>2013</u>	<u>2014</u>
	RMB	RMB
Advances to staff (i).....	9,494	8,159
Advances to entrepreneurial agents (ii).....	1,984	981
Rental deposits	6,213	5,701
Interest income receivables (iii).....	47,273	46,472
Value-added tax recoverable (iv).....	1,867	2,786
Receivable from third parties(v)	141,938	17,020

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

	As of December 31,	
	2013	2014
	RMB	RMB
Reimbursement from insurance company (vi)	40,106	—
Other	5,901	7,030
	254,776	88,149

- (i) This represented advances to staff of the Group for daily business operations which are unsecured, interest-free and repayable on demand.
- (ii) This represented advances to entrepreneurial agents who provide services to the Group. The advances are used by agents to develop business. The advances were unsecured, interest-free and repayable on demand.
- (iii) This represented accrued interest income on bank deposits and interest bearing receivable from third parties as described in (v).
- (iv) As of December 31, 2013 and December 31, 2014, the amount represented value-added tax to be refunded from tax bureau. The amount of value-added tax outstanding as of December 31, 2013 had been refunded during the year 2014, and the amount as of December 31, 2014 had not been refunded up to this report date.
- (v) Receivable from third parties mainly included receivables from two third parties: 1) receivable from Guangdong Jintaiping Asset Management Co. Ltd (“Jintaiping”). The Group held 19.5% equity interest of Jintaiping before December 2013. In December 2013, the Group disposed of the equity share of Jintaiping. Accordingly, receivable from Jintaiping was reclassified from amount due from related parties to other receivables. The loan receivable from Jintaiping is payable within one year and bears annual interest rate at 8%. As of December 31, 2014, the amount due from Jintaiping was 17,020 (2013: RMB130,651). The receivable were unsecured and repayable on demand; and 2) other receivable from third parties as of December 31, 2013 also included receivable from Shanghai Puyi Investment Consulting Co.,Ltd (“Shanghai Puyi”). On December 2, 2013, the Group signed an equity transfer agreement to sell its 19.5% shareholdings of Jintaiping to Shanghai Puyi at a consideration of RMB7,987, which should be settled within 30 days after the legal registration of equity transfer and had been settled in 2014.
- (vi) On April 23, 2014, the company has signed a settlement agreement with an insurance company. Please refer to note 16 (iii) for details. The legal case has been settled in August 2014.

(5) Property, Plant and Equipment

Property, plant and equipment, net, is comprised of the following:

	As of December 31,	
	2013	2014
	RMB	RMB
Building	11,346	12,317
Office equipment, furniture and fixtures.....	127,849	127,498
Motor vehicles	40,039	35,229
Leasehold improvements	9,033	10,817
Total.....	188,267	185,861
Less: Accumulated depreciation	(118,705)	(138,690)
Property, plant and equipment, net	69,562	47,171

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

No impairment for property, plant and equipment was recorded for the years ended December 31, 2012, 2013 and 2014.

(6) Goodwill

The movements in carrying amount of goodwill by reportable segments are as follows:

Goodwill of the P&C and Life insurance operating segments as of December 31, 2012 and 2013 has been grouped together under the agency segment due to the Group's realignment of its financial reporting structure in 2014 (see note 2(w)).

	Agency segment
	RMB
Balance as of January 1, 2013 & 2014.....	78,553
Addition for acquisitions in 2014.....	54,921
Balance as of December 31, 2014.....	133,474

The gross amount and accumulated impairment losses by segment as of December 31, 2013 and 2014 are as follows:

	Agency segment	Claims Adjusting segment	Total
	RMB	RMB	RMB
Goodwill, gross as of January 1, 2013	1,041,181	38,077	1,079,258
Accumulated impairment loss	(962,628)	(38,077)	(1,000,705)
Goodwill, net as of December 31, 2013.....	78,553	—	78,553
Goodwill, gross as of January 1, 2014	1,096,102	38,077	1,134,179
Accumulated impairment loss	(962,628)	(38,077)	(1,000,705)
Goodwill, net as of December 31, 2014.....	133,474	—	133,474

The Group performed the annual impairment analysis as of the balance sheet date. There has been no impairment loss recognized in goodwill for the years ended December 31, 2012, 2013 and 2014, respectively.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

(7) Investment in Affiliates

As of December 31, 2013, investments in affiliates represent (i) 40% equity interest in Shanghai Teamhead Automobile Surveyors Co., Ltd. ("Teamhead Automobile") which is a PRC registered company that provides insurance surveyor and loss adjustors services, (ii) 30% equity interest in Jiaxing which is a PRC registered company that distributes property and casualty insurance products and (iii) 20.6% equity interest in Sincere Fame International Limited ("Sincere Fame") which is a BVI company that is a financial services company, primarily engages in the origination and management of small loans made to individuals, loan repackaging transaction, asset management-related services to financial institutions and mortgage agency services to individuals based in Guangzhou, PRC.

During the year of 2014, the Group acquired the remaining 70% equity interest in Jiaxing and become 100% owner of Jiaxing. Hence Jiaxing is derecognized from investment in affiliates.

During the years ended December 31, 2012, 2013 and 2014, the Group recognized its share of income of affiliates in the amount of RMB14,658, RMB20,621 and RMB30,649 respectively.

Investment as of December 31, 2013 and 2014 were as follows:

	As of December 31,	
	2013	2014
	RMB	RMB
Teamhead Automobile	473	498
Jiaxing	192	—
Sincere Fame	188,576	219,205
Total	189,241	219,703

The summarized financial information of equity method investees is illustrated as below:

	As of December 31,	
	2013	2014
	RMB	RMB
Balance sheet		
Current assets	641,314	364,045
Non-current assets	556,067	1,335,315
Current liabilities	582,734	929,731
Non-current liabilities	1,057	2,904

	Year Ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Results of operation			
Net Revenues	328,385	365,521	403,908
Gross profit	240,644	295,954	346,688
Income from operations	89,963	139,211	184,531
Net profit	73,869	116,674	148,891

(8) Variable Interest Entities

Historically, PRC laws and regulations place certain restrictions on foreign investment in and ownership of insurance agencies and brokerages. As a Cayman Islands corporation, the Company is deemed a foreign legal person under PRC laws. Accordingly, the Group had conducted its business in China through contractual arrangements.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

In recent years, some rules and regulations governing the insurance intermediary sector in China have begun to encourage foreign investment. The Group has commenced a restructuring which has resulted in obtaining controlling equity ownership in a majority of its affiliated insurance intermediary companies. However, there remains uncertainty regarding the interpretation and implementation of the relevant regulations and the timing of the restructuring process. In addition, restrictions by PRC laws and regulations on foreign investments in and ownership of internet businesses still exists and the Group is still in the process to complete its restructuring plan. Therefore, the Group still conducts part of its operations in China through contractual arrangements among its PRC subsidiaries and consolidated affiliated entities, Sichuan Yihe Investment Co., Ltd. ("Yihe Investment") and Shenzhen Xinbao Investment Management Co., Ltd. ("Xinbao Investment") and Shenzhen Dianliang Information Technology Co., Ltd ("Dianliang Information") (collectively referred as the "Three PRC Affiliated Entities") and the equity holders of the Three PRC Affiliated Entities who are PRC nationals. To provide the Company effective control over the Three PRC Affiliated Entities, and the ability to receive substantially all of the economic benefits of the Three PRC Affiliated Entities and their subsidiaries, a series of contractual arrangements were entered amongst CNinsure Xinlian Information Technology Consulting (Shenzhen) Co., Ltd. ("Xinlian Information"), CNinsure Zhonglian Enterprise Image Planning (Shenzhen) Co., Ltd. ("Zhonglian Enterprise"), Litian Zhuoyue Software (Beijing) Co., Ltd ("Litian") and Ying Si Kang Information Technology (Shenzhen) Co., Ltd. ("Ying Si Kang Information"), which are PRC subsidiaries of the Company, and the Three PRC Affiliated Entities and their direct equity holders, refer to as the "VIE arrangements".

Agreements that provide the Group effective control over the Three PRC Affiliated Entities

Loan Agreements

Each of the equity holders of Yihe Investment entered into loan agreements with Xinlian Information, evidencing a zero interest loan granted to them, equal to their respective capital contributions to Yihe Investment. The term of the loan agreement is ten years and may be extended upon written agreement of the parties, but it is not extended automatically. In the event that the loan is not renewed, then upon the expiration of its term and subject to then applicable PRC laws, the loan can be repaid only with the proceeds from the transfer of the individual shareholder's equity interests in Yihe Investment to Xinlian Information or another person designated by Xinlian Information. In addition, the loan agreements contain a number of covenants that restrict the actions the individual shareholder can take or cause Yihe Investment to take specific actions.

Each of the individual shareholders of Xinbao Investment entered into a loan agreement with the Group's subsidiary Ying Si Kang Information, evidencing a zero interest loan granted to them, equal to their respective capital contributions to Xinbao Investment. Since Ying Si Kang is transferred to Litian during the year, each of the individual shareholders of Xinbao Investment has been released from the agreement with Ying Si Kang and entered into a new loan agreement with another Group's subsidiary Bao Si Kang Information Technology (Shenzhen) Co., Ltd. ("Bao Si Kang Information"). The terms of the loan agreement are substantially similar to those in the loan agreements of Yihe Investment described above.

The individual shareholder of Dianliang Information entered into a loan agreement with the Group's subsidiary Xinlian Information. The terms of the loan agreement are substantially similar to those in the loan agreements of Yihe Investment described above.

Equity Pledge Agreements

Pursuant to the equity pledge agreements between (1) Yihe Investment, Xinlian Information and the equity holders of Yihe Investment; and (2) Xinbao Investment, Ying Si Kang Information, and from the later year of 2014 Bao Si Kang Information and the equity holders of Xinbao Investment; and (3) Dianliang Information, Xinlian Information and the equity holder of Dianliang Information, the equity holders of the Three PRC Affiliated Entities have pledged their equity interests in the Three PRC Affiliated Entities to Xinlian Information and Ying Si Kang Information (later year of 2014 to Bao Si Kang Information) to secure their obligations under the loan agreements between (1) Yihe Investment and Xinlian Information; and (2) Xinbao Investment and

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

Ying Si Kang Information (later year of 2014 replaced with Bao Si Kang Information); (3) Dianliang Information and Xinlian Information. During the term of the equity pledge agreements, Xinlian Information and Ying Si Kang Information (later year of 2014 replaced with Bao Si Kang Information) are entitled to all the dividends declared on the pledged equity interests. The equity pledge agreements will expire when the individual shareholder fully performed his obligations under the loan agreements.

Irrevocable Power of attorney

Pursuant to the power of attorney, the nominee equity holders of the Three PRC Affiliated Entities each executed an irrevocable power of attorney, appointing a person designated by Xinlian Information or Ying Si Kang Information (later year of 2014 replaced with Bao Si Kang Information) as their attorney-in-fact to vote on their behalf on all matters of the Three PRC Affiliated Entities requiring equity holder approval. If Xinlian Information or Ying Si Kang Information (later year of 2014 replaced with Bao Si Kang Information) designates the individual shareholders of the Three PRC Affiliated Entities to attend a shareholder's meeting of the Three PRC Affiliated Entities, the individual shareholder agrees to vote his shares as instructed by Xinlian Information or Ying Si Kang information (later year of 2014 replaced with Bao Si Kang Information).

The Articles of Association of the Three PRC Affiliated Entities state that the major rights of the equity holders include the power to review and approve annual budget, operating strategy and investment plan, elect the members of board of directors and approve their compensation plan. Therefore, through the power of attorney arrangement, Xinlian Information and Ying Si Kang Information (later year of 2014 replaced with Bao Si Kang Information) have the ability to exercise effective control over the Three PRC Affiliated Entities through equity holder votes and, through such votes, to also control the composition of the board of directors. In addition, the senior management teams of the Three PRC Affiliated Entities are the same as that of Xinlian Information and Ying Si Kang Information (later year of 2014 replaced with Bao Si Kang Information).

Agreements that provide the Group the option to purchase the equity interests in the Three PRC Affiliated Entities

Exclusive Purchase Option Agreements

Pursuant to the exclusive purchase right agreements, Xinlian Information and Ying Si Kang Information (later year of 2014 replaced with Bao Si Kang Information) may purchase the entire equity interests in, or all the assets of the Three PRC Affiliated Entities, for a purchase price equal to the amount of the individual shareholder's actual capital contributions to the Three PRC Affiliated Entities or the minimum price permitted by PRC laws, if and when PRC laws are amended to permit such a transaction.

Agreements that transfer economic benefits to Xinlian Information, Zhonglian Enterprise, and Litian

IT platform related service, consulting service and technology service agreements

Pursuant to IT platform service, technology service and consulting service agreements entered into between the Group's PRC subsidiaries Litian, Xilian Information, Zhonglian Enterprise (collectively referred as the "Three Service Providers") and Ying Si Kang Information and most of the subsidiaries of the Three PRC Affiliated Entities, the Three Service Providers and Ying Si Kang Information agreed to grant rights to use the "CNinsure" brand and provide consulting and training services related to finance, taxation, IT platform and internal control compliance and services to ensure the normal operation of the mobile sales support system to most of subsidiaries of the Three PRC Affiliated Entities in exchange for fees payable quarterly calculated as a percentage of revenues of each insurance intermediary. Each of these agreements has an initial term of one year from the signing date. The consulting service and IT platform service agreements will be automatically renewed for one-year term unless the three Service Providers decides not to renew the agreement. Each agreement may be terminated by the insurance intermediary companies only upon gross negligence, fraud, other illegal conduct or bankruptcy, or by the Three Service Providers with 30 days' notice. The consulting service and IT platform service agreements have not been renewed since 2013.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

These contractual arrangements allow the Group to effectively control the Three PRC Affiliated Entities and their subsidiaries, and to derive substantially all of the economic benefits from them. Accordingly, the Group treats the Three PRC Affiliated Entities as VIEs and because the Group is the primary beneficiary of the Three PRC Affiliated Entities, the Group has consolidated the financial results of the Three PRC Affiliated Entities and their subsidiaries.

In addition to the above agreements, which allow the Group to exercise effective control, have an exclusive option to purchase all or part of the equity interests and receive a substantial portion of the economic benefits from the Three PRC Affiliated Entities and their subsidiaries, before January 2015, the Group had also entered into similar contractual arrangements with the non-controlling interest shareholders of Guangdong Meidiya Investment Co., Ltd. ("Meidiya Investments"). As a result of these contractual arrangements, the Company has the right to exercise control over, purchase and receive the economic benefits from all of the equity interests in Meidiya Investments that it currently did not directly hold. In January 2015, the individual minority shareholders of Meidiya Investment transferred their respective equity interests in Meidiya Investment to CNinsure Insurance Sales Service Group Company Limited, a wholly-owned subsidiary of the Group. In addition, the contractual arrangements among Meidiya Investment, and their respective shareholders and subsidiaries were terminated.

-
- **Risks in relation to VIE Arrangement**

The Company believes that the contractual arrangements with PRC Affiliated Entities and their subsidiaries and their current shareholders are in compliance with PRC laws and regulations and are legally enforceable. However, uncertainties in the PRC legal system could limit the Company's ability to enforce the contractual arrangements. If the legal structure and contractual arrangements were found to be in violation of PRC laws and regulations, the PRC government could:

- revoking the business and operating licenses of the Group's PRC subsidiaries and VIEs;
- restricting or prohibiting any related-party transactions among the Group's PRC subsidiaries and VIEs;
- imposing fines or other requirements with which the Group may not be able to comply;
- requiring the Group to restructure the relevant ownership structure or operations; or
- restricting or prohibiting the Group from providing additional funding for its business and operations in China.

The Company's ability to conduct its business may be negatively affected if the PRC government were to carry out any of the aforementioned actions. As a result, the Company may not be able to consolidate the VIEs and their subsidiaries in its financial statements as it may lose the ability to exert effective control over the VIEs and their subsidiaries and its shareholders, and it may lose the ability to receive economic benefits from the VIEs and their subsidiaries.

The interests of the shareholders of the PRC Affiliated Entities may diverge from that of the Company and that may potentially increase the risk that they would seek to act contrary to the contractual terms, for example by influencing the PRC Affiliated Entities not to pay the service fees when required to do so. The Company cannot assure that when conflicts of interest arise, shareholders of the PRC Affiliated Entities will act in the best interests of the Company or that conflicts of interests will be resolved in the Company's favor. Currently, the Company does not have existing arrangements to address potential conflicts of interest the shareholders of PRC Affiliated Entities may encounter in their capacity as beneficial owners and directors of PRC Affiliated Entities, on the one hand, and as beneficial owners and directors of the Company, on the other hand. The Company believes the shareholders of PRC Affiliated Entities will not act contrary to any of the contractual arrangements and the exclusive option agreements provide the Company with a mechanism to remove the current shareholders of PRC Affiliated Entities should they act to the detriment of the Company. The Company relies on certain current shareholders of PRC Affiliated Entities, as directors and executive officers of the Company, to fulfill their fiduciary duties and abide by laws of the PRC and Cayman Islands and act in the best interest of the Company. If the Company cannot resolve any conflicts of interest or disputes between the Company and the shareholders of PRC Affiliated Entities, the Company would have to rely on legal proceedings, which could result in disruption of its business, and there is substantial uncertainty as to the outcome of any such legal proceedings.

The VIEs are principally engaged in the provision of agency and e-business in the PRC.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

Relevant PRC laws and regulations restrict the VIE from transferring a portion of its net assets, equivalent to the balance of its statutory reserve and its share capital, to the Company in the form of loans and advances or cash dividends. Please refer to Note 20 for disclosure of restricted net assets.

The financial information of the Company's VIEs and VIEs' subsidiaries as of December 31, 2013 and 2014 and for the years ended December 31, 2012, 2013 and 2014, before adjustments for intercompany eliminations, is as follows:

	As of December 31,		
	2013	2014	
	RMB	RMB	
Total assets.....	114,232	63,090	
Total liabilities	110,133	38,716	

	Year Ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Net Revenues	374,529	125,961	72,645
Net loss	(4,755)	(3,767)	(9,636)
Net cash used in operating activities.....	(34,601)	(13,500)	(49,782)
Net cash generated from investing activities	81,593	12,041	14,709
Net cash (used in) generated from financing activities	(38,305)	—	33,370

In order to simplify the Group's corporate structure to enable more effective control over the PRC affiliated subsidiaries, the Group commenced a corporate restructuring onshore and offshore in October 2011.

In August 2011, CISG Holdings Ltd. ("CISG Holdings"), a wholly-owned subsidiary of the Company, acquired Minkfair Insurance Management Limited ("Minkfair"), a Hong Kong incorporated company whose principal business is insurance distribution in Hong Kong, for a total consideration of HK\$1,200. Subsequently, CNinsure Holdings Ltd. ("CNinsure Holdings"), a wholly-owned subsidiary of CISG Holdings, issued 1,000 of its shares with par value of US\$0.001 to Minkfair. At the same time, CNinsure Holdings repurchased from CISG Holdings one issued and fully paid ordinary share of par value US\$0.001 of CISG Holdings for a total consideration of US\$0.001. As a result of these transactions, Minkfair directly owns 100% of the equity interests in CNinsure Holdings.

- In February 2012, CNinsure Group Company, subscribed for a share capital of RMB52,500 in Meidiya. As a result, CNinsure Group Company's shareholdings in Meidiya increased from 20% to 90%, and the equity holders' shareholdings in Meidiya decreased to 10%.

In October 2012, the Group obtained license approval from the CIRC to establish CNinsure Group Company as an insurance sales service group company.

Ying Si Kang Information withdrew all its capital contribution at cost of RMB2,000 in Xinbao Investment in December 2012. After the transaction, the two nominee equity shareholders collectively hold 100% equity interests in Xinbao Investment.

On various dates since May 2012, Meidiya and Yihe Investment transferred their equity interests in five of the Group's affiliated subsidiaries, including CNinsure Lianxing Insurance Sales Co., Ltd. ("CNinsure Lianxing") and CNinsure Times Insurance Sales & Service Co., Ltd., (or CNinsure Times, formerly known as Guangzhou Fanhua Insurance Agency Co., Ltd.) to CNinsure Group

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

Company, Meidiya and Yihe have also transferred their equity interests in 19 of our affiliated entities to CNinsure Lianxing and CNinsure Times.

On July 1, 2013, Xinbao Investment transferred its equity interests in six of the Group's affiliated subsidiaries to CNinsure Times.

As a result of these equity transfers, the Group through contractual arrangements with Yihe Investment, Dianliang Information and Xinbao Investment, it controls the remaining seven VIEs as of December 31, 2013 and 2014.

(9) Other Payables and Accrued Expenses

Components of other payables and accrued expenses are as follows:

	As of December 31,	
	2013	2014
	RMB	RMB
Business and other tax payable.....	28,313	24,987
Refundable deposits from employees and agents.....	12,452	9,705
Professional fees	11,818	17,340
Advances from third parties.....	22,490	32,219
Payables for addition of office equipment, furniture and fixtures	8,618	8,618
Insurance compensation claim payable to customers	1,487	1,563
Payable for equity transfers of investment in affiliates/subsidiaries.....	15,006	4,685
Consideration payable to settle the lawsuit (i)	40,106	—
Contributions from members of eHuzhu mutual aid program	—	2,341
Others.....	7,664	7,954
Total.....	147,954	109,412

Other payables and accrued expenses are unsecured, interest-free and repayable on demand.

(i) On March 19, 2014, the Company signed a settlement agreement with the plaintiff to settle the lawsuit at US\$6,625 (approximately RMB40,106) and the lawsuit has been fully settled in August 2014. Please refer to note (16) (iii) for details of the lawsuit.

(10) Employee Benefit Plans

Employees of the Group located in the PRC are covered by the retirement schemes defined by local practice and regulations, which are essentially defined contribution plans. The calculation of contributions for these eligible employees is based on 10% to 22% of the applicable payroll cost according to the specific requirements of the local regime government.

In addition, the Group is required by law to contribute certain percentage of applicable salaries for medical insurance benefits, unemployment and other statutory benefits. The contribution percentages may differ from district to district which is subject to the specific requirement of local regime government. The PRC government is directly responsible for the payments of the benefits to these employees.

For the years ended December 31, 2012, 2013 and 2014, the Group contributed RMB34,931, RMB42,919 and RMB45,467, respectively.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

(11) Income Taxes

The Company is a tax exempted company incorporated in the Cayman Islands. Under the current laws of the Cayman Islands, the Company is not subject to tax on their income or capital gains. In addition, upon any payments of dividends by the Group to its shareholders, no Cayman Islands withholding tax is imposed.

The Group's subsidiaries and VIEs incorporated in PRC are subject to Income Tax in the PRC.

The provision for current income taxes of the subsidiaries operating in Hong Kong has been calculated by applying the current rate of taxation of 16.5% for the years ended December 31, 2012, 2013 and 2014, if applicable.

On March 16, 2007, the PRC promulgated New Enterprise Income Tax Law (the "New Taxation Law"). The New Taxation Law which becomes effective from January 1, 2008. Under the New Taxation Law, all enterprises (both domestic enterprises and FIEs) have one unified income tax rate of 25%. On December 6, 2007, the State Council of the PRC issued Implementation Regulations on the New Taxation Law. The New Taxation Law and Implementation Regulations have changed the tax rate from 15% to 18%, 20%, 22%, 24% and 25% for the years ending December 31, 2008, 2009, 2010, 2011 and 2012, respectively, for Shenzhen PRC subsidiaries.

Pursuant to the relevant laws and regulations in the PRC, Litian, Shenzhen CNinsure Software Technology Co., Ltd ("CNinsure Software") and Ying Si Kang Information, the subsidiaries of the Group, were regarded as software companies and thus exempted from PRC Income Tax for two years starting from its first profit-making year, followed by a 50% reduction for the next three years. For Litian, year 2010 was the first profit-making year and accordingly, Litian has not made any provision for PRC income tax for the year ended December 31, 2010 and 2011, and has made a 12.5% tax provision for its profits for the years ended December 31, 2012, 2013 and 2014. For CNinsure Software, year 2012 was the first profit-making year and accordingly, CNinsure Software has not made any provision for PRC income tax for the years ended December 31, 2012 and 2013, and has made a 12.5% tax provision for its profits for the year ended December 31, 2014. For Ying Si Kang Information, year 2014 is the first profit-making year and accordingly it has not made any provision for PRC income tax for the year ended December 31, 2014.

The Group accounts for uncertain income tax positions by prescribing a minimum recognition threshold in the financial statements.

As of December 31, 2014, the Group's liabilities for unrecognized tax benefits were included in other tax liabilities. The movements of unrecognized tax benefits are as follows:

	<u>RMB</u>
Balance as of January 1, 2012.....	43,586
Gross increase in prior-period tax positions.....	4,003
Balance as of December 31, 2012.....	47,589
Gross increase in prior-period tax positions.....	3,146
Balance as of December 31, 2013.....	50,735
Offset per FASB ASU No. 2013-11—Income Taxes (Topic 740)	(4,808)
Gross increase in prior-period tax positions.....	7,928
Balance as of December 31, 2014.....	<u>53,855</u>

The uncertain tax positions are related to tax years that remain subject to examination by the relevant tax authorities. Based on the outcome of any future examinations, or as a result of the expiration of statute of limitations for specific jurisdictions, it is reasonably possible that the related unrecognized tax benefits for tax positions taken regarding previously filed tax returns, might materially change from those recorded as liabilities for uncertain tax positions in the Group's consolidated financial statements as of December 31, 2013 and 2014. In addition, the outcome of these examinations may impact the valuation of certain deferred tax assets (such as net operating losses) in future periods. The Group's policy is to recognize interest and penalties accrued on any unrecognized tax benefits, if any, as a component of income tax expense. The Company does not anticipate any significant increases or decreases to its liability for unrecognized tax benefit within the next twelve months.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

According to the PRC Tax Administration and Collection Law, the statute of limitations is three years if the underpayment of income taxes is due to computational errors made by the taxpayer. The statute of limitations will be extended to five years under special circumstances, which are not clearly defined, but an underpayment of income tax liability exceeding RMB100 is specifically listed as a special circumstance. In the case of a transfer pricing related adjustment, the statute of limitations is ten years. There is no statute of limitations in the case of tax evasion.

Income tax expenses are comprised of the following:

	Year Ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Current tax expense.....	56,467	29,436	25,607
Deferred tax income.....	(6,094)	(2,278)	(1,318)
Income tax expense.....	50,373	27,158	24,289

The principal components of the deferred income tax assets and liabilities are as follows:

	As of December 31,	
	2013	2014
	RMB	RMB
Current deferred tax assets:		
Operating loss carryforward	4,858	4,313
Less: valuation allowances	—	(4,313)
Current deferred tax asset, net	4,858	—
Non-current deferred tax assets:		
Operating loss carryforward	36,053	33,930
Less: valuation allowances	(32,671)	(31,292)
Non-current deferred tax asset, net.....	3,382	2,638
Total	8,240	2,638
Deferred tax liabilities:		
Intangible assets, net	5,646	6,769
Investment income	18,162	18,162
Total.....	23,808	24,931

Due to the uncertainty of the level of PRC subsidiaries or VIEs' taxable income, management does not believe certain subsidiaries or VIEs will generate sufficient taxable income such that it is more likely than not that the deferred tax assets will not be realized. As such, a valuation allowance has been established for these deferred tax assets as of December 31, 2013 and 2014. The Group had total operating loss carry-forwards of RMB164,108 and RMB166,557 for the years ended December 31, 2013 and 2014, respectively. Such operating loss carry-forwards expire five years after the PRC subsidiaries or VIEs incur the loss unless utilized. As of December 31, 2014, the operating loss carry-forwards of RMB10,086, RMB30,860, RMB32,400, RMB40,546 and RMB52,665 is to expire for the years ended December 31, 2015, 2016, 2017, 2018 and 2019, respectively.

Reconciliation between the provision for income taxes computed by applying the PRC enterprise income rate of 25% to net income before income taxes and income of affiliates, and the actual provision for income taxes is as follows:

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

	Year Ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Net income before income taxes and income of affiliates and discontinued operations	160,452	106,521	159,720
PRC statutory tax rate	25%	25%	25%
Income tax at statutory tax rate	40,113	26,630	39,930
Expenses not deductible for tax purposes:			
Entertainment.....	668	494	579
Other	3,312	1,635	1,664
Tax exemption and tax relief:			
Tax rate differential	(3,947)	(16,347)	(29,497)
Change in valuation allowance	5,003	13,812	2,934
Uncertain tax provisions	4,003	3,148	7,928
Other	1,221	(2,214)	751
Income tax expense.....	<u>50,373</u>	<u>27,158</u>	<u>24,289</u>

Additional PRC income taxes that would have been payable without the tax exemption amounted to approximately RMB26,784, RMB19,364 and RMB17,054 for the years ended December 31, 2012, 2013 and 2014, respectively. Without such exemption, the Group's basic and diluted net profit per share for the year ended December 31, 2014 would have been decreased by RMB0.02.

Under the New Taxation Law, enterprises are classified as either resident or non-resident. A resident enterprise refers to one that is incorporated under the PRC law or under the law of a jurisdiction outside the PRC with its "de facto management organization" located within the PRC. Non-resident enterprise refers to one that is incorporated under the law of a jurisdiction outside the PRC with its "de facto management organization" located also outside the PRC, but which has either set up institutions or establishments in the PRC or has income originating from the PRC without setting up any institution or establishment in the PRC. Under the New Enterprise Income Tax ("EIT") Implementation Regulation, "de facto management organization" is defined as the organization of an enterprise through which substantial and comprehensive management and control over the business, operations, personnel, accounting and properties of the enterprise are exercised. Under the New Taxation Law and the New EIT Implementation Regulation, a resident enterprise's global net income will be subject to a 25% EIT rate. On April 22, 2009, the State Administration of Taxation (the "SAT"), issued SAT Circular 82, which provides certain specific criteria for determining whether the "de facto management body" of a PRC-controlled enterprise that is incorporated offshore is located in China. In addition, the SAT issued a bulletin on July 27, 2012 providing more guidance on the implementation of Circular 82 and clarifies matters such as resident status determination. Due to the present uncertainties resulting from the limited PRC tax guidance on this issue, it is unclear that the legal entities organized outside of PRC should be treated as residents for New Taxation Law purposes. Nevertheless, even if one or more of those entities were characterized as PRC tax residents, no significant impact would be expected on the net current tax payable balance and the net deferred tax balance.

If the entities were to be non-resident for PRC tax purpose, dividends paid to it out of profits earned after January 1, 2008 would be subject to a withholding tax. In the case of dividends paid by PRC subsidiaries the withholding tax would be 10% whereas in the case of dividends paid by PRC subsidiaries which are 25% or more directly owned by tax residents in the Hong Kong SAR, the withholding tax would be 5%.

Aggregate undistributed earnings of the Group's subsidiaries and VIEs in the PRC that are available for distribution to the Group of approximately RMB1,882,224 and RMB1,967,287 as of December 31, 2013 and 2014 respectively, are considered to be indefinitely reinvested, and accordingly, no provision for has been made for the dividend withholding taxes that would be payable upon the distribution of those amounts to the Group. If those earnings were to be distributed or they were determined to be no longer permanently reinvested, the Group would have to record a deferred tax liability in respect of those undistributed earnings of approximately RMB188,222 and RMB196,729 respectively.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

Under applicable accounting principles, a deferred tax liability should be recorded for taxable temporary differences attributable to the excess of financial reporting over tax basis, including those differences attributable to a more than 50% interest in a domestic subsidiary. However, recognition is not required in situations where the tax law provides a means by which the reported amount of that investment can be recovered tax-free and the enterprise expects that it will ultimately use that means. The Group has not recorded any such deferred tax liability attributable to the undistributed earnings of its financial interest in VIE affiliates because the Group believes such excess earnings can be distributed in a manner that would not be subject to tax.

(12) Capital Structure

During 2012, the Company issued 183,380 new shares for the exercise of options, representing 0.01% of the total shares outstanding as of December 31, 2012.

During 2012, the Company had repurchased 193,165 ADS (equal to 3,863,300 ordinary shares), representing 0.38% of the total shares outstanding as of December 31, 2012, for an aggregate price of approximately RMB9,244 on the open market.

During 2014, the Company issued 1,704,380 new shares for the exercise of options, representing 0.15% of the total shares outstanding as of December 31, 2014.

In November 2014, the Group entered into share purchase agreements with the Employee Companies, for the issuance of up to 100,000,000 ordinary shares of the Group. In December 2014, the Group increased the new shares issued to the Employee Companies to 150,000,000 ordinary shares. The total 150,000,000 ordinary shares represented approximately 13.04% of the total enlarged outstanding share capital as of December 31, 2014. The subscription price for the 100,000,000 ordinary shares is US\$0.27 per ordinary share or US\$5.40 per ADS, while the subscription price for the additional 50,000,000 ordinary shares is US\$0.29 per ordinary share or US\$5.8 per ADS, both of which were the average closing prices for the 20 trading days prior to the board approvals of such transactions. Accordingly, the Group considers that the employees have subscribed these shares at prices that were set at the best estimation of the future market prices on issuance date, and the Group has no intention to compensate the employees with a below market price subscription; therefore, the Group has not recorded any share-based compensation expenses related to any price deviations of the Group's ordinary shares from the board approval dates to issuances of these shares. The shares purchased by the Employee Companies are subject to 180 days lock-up. The sale of shares to the Employee Companies was completed on December 17, 2014.

In order to facilitate the purchase of shares by employees as described above, the Group has granted a loan to Employee Companies. The loans bear interest at a rate of 3% per annum and is repayable upon the sale of the shares by employees, termination of employment or within two years, whichever comes first. The interest rate is determined with reference to fair market prices and therefore no interest-related compensation expense is recorded. Please refer to note 2(m) for accounting policy details.

(13) Net Income per Share

The computation of basic and diluted net income per ordinary share is as follows:

	Year Ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
<i>Basic:</i>			
Net income.....	124,737	99,984	166,080
Less: Net (loss) income attributable to the noncontrolling interests	(5,773)	4,341	4,320
Net income attributable to the Company's shareholders ..	130,510	95,643	161,760
Weighted average number of ordinary shares outstanding	1,002,308,275	998,861,526	1,005,842,212

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

	Year Ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Basic net income per ordinary share.....	0.13	0.10	0.16
Basic net income per ADS.....	2.60	1.92	3.22
<i>Diluted:</i>			
Net income.....	124,737	99,984	166,080
Less: Net (loss) income attributable to the noncontrolling interests.....	(5,773)	4,341	4,320
Net income attributable to the Company's shareholders ..	130,510	95,643	161,760
Weighted average number of ordinary shares outstanding.....	1,002,308,275	998,861,526	1,005,842,212
Share options.....	2,993,694	1,708,492	6,749,175
Total.....	1,005,301,969	1,000,570,018	1,012,591,387
Diluted net income per ordinary share.....	0.13	0.10	0.16
Diluted net income per ADS.....	2.60	1.91	3.19

During the years ended December 31, 2012, 2013 and 2014, the Company had share options of which would potentially dilute earnings per share in the future, but which were excluded from the computation of diluted earnings per share as their effect would have been antidilutive, such share options consist of 46,225,381, 38,222,880 and 16,920, respectively.

(14) Distribution of Profits

As stipulated by the relevant PRC laws and regulations applicable to China's foreign investment enterprise, the Group's subsidiaries and VIEs in the PRC are required to maintain non-distributable reserves which include a statutory surplus reserve as of December 31, 2014. Appropriations to the statutory surplus reserve are required to be made at not less than 10% of individual company's net profit as reported in the PRC statutory financial statements of the Company's subsidiaries and VIEs. The appropriations to statutory surplus reserve are required until the balance reaches 50% of the registered capital of respective subsidiaries and VIEs.

The statutory surplus reserve is used to offset future losses. These reserves represent appropriations of retained earnings determined according to PRC law and may not be distributed. There are no appropriations to reserves by the Company other than the Group's subsidiaries and VIEs in the PRC during the periods presented. Amounts contributed to the statutory reserves were RMB182,740 and RMB198,422 as of December 31, 2013 and 2014, respectively.

(15) Related Party Balances and Transactions

The principal related party balances and transactions as of and for the years ended December 31, 2013 and 2014 are as follows:

- a) Amounts due from related parties:

	As of December 31,	
	2013	2014
	RMB	RMB
Amount due from an affiliate and its subsidiaries, net (i) ...	144,371	209,601
Subscription receivables(note 2(m) & note 12)	—	257,491

- (i) The Group agreed to grant a revolving loan with a maximum amount of US\$50,000 (equivalent to RMB317,990 as per the agreement) to Sincere Fame and its subsidiaries pursuant to a facility letter entered in October 2011 (the "Facility"). The

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

Facility is valid for two years and is renewed upon mutual agreement for another two years in October 2013. On January 1, 2012, the Group and Sincere Fame further entered into a supplemental loan agreement, which established the legal rights to offset the interests and amounts receivable or payable between the Group and Sincere Fame, and all the subsidiaries of the Group and Sincere Fame. As of December 31, 2013 and 2014, the amount due from Sincere Fame and its subsidiaries represented RMB126,621 and RMB179,681 (US\$28,959) principal receivable, RMB16,250 and RMB28,420 (US\$4,580) interest receivable and RMB1,500 and RMB1,500 (US\$242) account receivables. These amounts are unsecured, bear interest at 7.3% and are repayable on demand.

- b) A subsidiary of the Company provided information technology service to an affiliate and charged RMB5,660 RMB1,415 and nil for the years ended December 31, 2012, 2013, and 2014, respectively.

The Group charged affiliates interest income of RMB10,298, RMB6,843 and RMB12,170 for loans receivable for the years ended December 31, 2012, 2013, and 2014, respectively.

- c) A subsidiary of the Group held a 30% equity interest in Beijing Fanhua Micro-credit Company Limited, on behalf of Shenzhen Fanhua United Investment Group, which is a subsidiary of Sincere Fame.
- d) The Group had acquired non-controlling interests of a number of its subsidiaries from shareholders who are also employees of the Group in 2012. The excess of the fair values of these non-controlling interests acquired from these equity shareholders over the transaction prices as of the respective transaction dates were considered to be compensation expenses, which amounted to RMB7,900, and had been charged to the consolidated statement of income and comprehensive income (loss) for the years ended December 31, 2012. The valuation of the equity of a private company is highly judgmental, so changes in the significant assumptions related to these valuations could materially affect the fair values of these entities and the related compensation expenses. There was no such transaction for the year ended December 31, 2013 and 2014.
- e) Puyi Asset Management Co., Ltd (“Puyi Asset”), previously one of its subsidiaries, distributed certain wealth management products supplied by one of our affiliates. Commission revenues generated from such affiliate were RMB7,522, RMB13,112 and nil for the years ended December 31, 2012, 2013 and 2014. However, Puyi Asset was disposed of in December, 2013 and no longer a subsidiary of the Group as of December 31, 2013.

(16) Commitments and Contingencies

- (i) The Group has several non-cancelable operating leases, primarily for office premises.

Future minimum lease payments under non-cancelable operating leases (with initial or remaining lease terms in excess of one year) and future minimum operating lease payments as of December 31, 2014 are:

	Minimum Lease Payment
	RMB
Year ending December 31:	
2015.....	20,598
2016.....	15,203
2017.....	6,028
2018.....	516
2019.....	111
Total	<u>42,456</u>

Rental expenses incurred under operating leases for the years ended December 31, 2012, 2013 and 2014 amounted to RMB31,858, RMB30,509 and RMB27,455, respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

(ii) The Group entered into various acquisition agreements which contain certain purchase considerations that are contingent upon future performance of the acquired companies. Please refer to note 3 for more details.

(iii) On October 17, 2011, Pieter Van Dongen, individually and on behalf of an alleged class of similarly situated holders of our ADSs, filed a class action lawsuit in the United States District Court for the Southern District of New York against the Group and three of our then executive officers. On March 19, 2014, the Company signed a settlement agreement with the plaintiff, to settle the lawsuit at US\$6,625 (approximately RMB40,106), to be paid as consideration for full and complete settlement of all the released claims. The settlement has been fully settled subsequently during 2014. On August 15, 2014, the Court granted final approval of the settlement agreement.

(17) Concentrations of Credit Risk

Concentration risks

Details of the customers accounting for 10% or more of total net revenues from commissions and fees are as follows:

The Group performs ongoing credit evaluations of its customers and related parties and generally does not require collateral on accounts receivable.

The Group places its cash and cash equivalents with financial institutions with high-credit ratings and quality.

The Group performs ongoing credit evaluations on the amounts due from Sincere Fame and its subsidiaries (note 15(a)(i)). As the Group has significant influences over the operations of Sincere Fame through its equity investment in Sincere Fame, and the historically positive operating results of Sincere Fame and its subsidiaries, the Group considered that the credit risks on the amounts due from an affiliate and its subsidiaries are not significant.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

Currency risk

Except for the proceeds from the initial public offering and the follow-on offering (which were in USD), substantially all of the revenue-generating operations of the Group are transacted in RMB, which is not freely convertible into foreign currencies. On January 1, 1994, the PRC government abolished the dual rate system and introduced a single rate of exchange as quoted by the People's Bank of China. However, the unification of the exchange rate does not imply convertibility of RMB into USD or other foreign currencies. All foreign exchange transactions must take place either through the People's Bank of China or other institutions authorized to buy and sell foreign exchange or at a swap center. Approval of foreign currency payments by the People's Bank of China or other institutions requires submitting a payment application form together with suppliers' invoices, shipping documents and signed contracts.

(18) Non-Cash Transactions

The Group entered into the following non-cash investing and financing activities:

	Year ended December 31,

(19) Share-based Compensation

2014 InsCom Options

On March 29, 2012, the shareholders of InsCom Holdings Limited ("InsCom"), a private subsidiary of which the Group has a 65.10% equity interest, has resolved on the adoption of a share incentive plan, under which the maximum number of ordinary shares that can be granted is 202,400,000 shares, equal to 20% of the total number of ordinary shares outstanding at InsCom as at March 28, 2012, and that the board of directors are authorized to grant such options.

On July 1, 2014, InsCom granted stock options to purchase 3,477,281 of its ordinary shares to its entrepreneurial agents and 8,189,000 ordinary shares to its employees (the "2014 InsCom Options"). The number of options that the grantees are entitled to in each year will be calculated based on the key performance indicator scores of the grantees in the respective prior year and subject to their continued services to the InsCom and the Group. For options granted to agents, 3,477,281 ordinary shares ("Option K1") shall vest on June 30, 2015, and the expiration date is December 31, 2016. For options granted to employees, ordinary shares of 4,259,000 ("Option K2") shall vest on July 1, 2014, and the remaining ordinary shares of 3,930,000 ("Option K3") shall vest on June 30, 2015, the expiration date is June 30, 2020. The 2014 InsCom Options have an exercise price of RMB0.028 per ordinary share. There is no intrinsic value of the options as of the date of grant.

As of the grant date and December 31, 2014, the fair values of the 2014 InsCom Options were estimated to be of nominal values. The share-based compensation expenses related to the 2014 InsCom Options was RMB109 for the year ended December 31, 2014. No shares of 2014 InsCom Options had been exercised.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

2013 InsCom Options

On June 24, 2013, InsCom granted stock options to purchase 5,914,312 of its ordinary shares to its entrepreneurial agents and 14,744,000 ordinary shares to its and the Group's employees (the "2013 InsCom Options"). The number of options that the grantees are entitled to in each year will be calculated based on the key performance indicator scores of the grantees in the respective prior year and subject to their continued services to the InsCom and the Group. For options granted to agents, 60,000 ordinary shares ("Option J1") was vested immediately on June 24, 2013, and the remaining ("Option J2") of the award options shall vest on June 30, 2014, the expiration date for options granted to agents is December 31, 2014. For options granted to employees ("Option J3"), the vesting date is June 30, 2014, and the expiration date is June 30, 2018. The 2013 InsCom Options have an exercise price of RMB1.20 per ordinary share. The exercise price and expiration date for 2013 InsCom Options was later modified) (See "option modification" section of the note). There is no intrinsic value of the options as of the date of grant.

As of the grant date and December 31, 2014, the fair values of the 2013 InsCom Options were estimated to be of nominal values. The share-based compensation expenses related to the 2013 InsCom Options was RMB6 and nil for the year ended December 31, 2013 and 2014, respectively. No shares of 2013 InsCom Options had been exercised.

2012 InsCom Options

On April 2, 2012, InsCom granted stock options to purchase 36,515,586 of its ordinary shares to its entrepreneurial agents and 24,492,750 ordinary shares to its and the Group's employees (the "2012 InsCom Options"). Pursuant to the option agreements entered into between the Company and the option grantees, the options shall vest over a two-year period from 2012 to 2013. The number of options that the grantees are entitled to in each year will be calculated based on the key performance indicator scores of the grantees in the respective prior year and subject to their continued services to the InsCom and the Group. For options granted to agents, 86% ("Option I1") was vested immediately on April 2, 2012, and the remaining 14% ("Option I2") of the award options shall vest on June 30, 2013. The expiration date for options granted to agents is December 31, 2014. For options granted to employees, 36% ("Option I3") was vested immediately on April 2, 2012, and the remaining 64% ("Option I4") of the award options shall vest on June 30, 2013, and the expiration date for options granted to employees is June 30, 2017. The 2012 InsCom Options have an exercise price of RMB1.00 per ordinary share. The exercise price and expiration date for 2012 InsCom Options was later modified) (See "option modification" section of the note). There is no intrinsic value of the options as of the date of grant.

As of the grant date and the periods presented, the fair values of the 2012 InsCom Options were estimated to be of nominal values. The share-based compensation expenses related to the 2012 InsCom Options was RMB3, RMB6 and nil for the years ended December 31, 2012, 2013 and 2014 respectively. As of December 31, 2014, no shares of 2012 InsCom Options had been exercised.

2012 Option

a. 2012 Options G

On March 12, 2012, the Company granted options ("2012 Options G") to its directors and employees to purchase up to 92,845,000 ordinary shares of the Company. Pursuant to the option agreements entered into between the Company and the option grantees, the options shall vest over a five-year service period from 2012 to 2016. The members of the board of directors of the Company received 8,800,000 stock options, which require continued services to the Company but with no other performance conditions. For the rest of the 2012 Option G awards, the number of options that the grantees are entitled to in each year will be calculated based on the key performance indicator scores of the grantees in the respective prior year and subject to their continued employment with the Company. Accordingly, 20% ("Option G1"), 20% ("Option G2"), 25% ("Option G3"), 20% ("Option G4") and 15% ("Option G5") of the award options shall vest on May 31 each of the years 2012 to 2016, respectively. The expiration date of the 2012 Options is March 12, 2022. The 2012 Options G had an exercise price of US\$0.30 (RMB1.90) and an intrinsic value of US\$0.04 (RMB0.26) per ordinary share, except for the 3,200,000 options granted to the two independent directors which had an exercise price of US\$0.31 (RMB1.98) and an intrinsic value of US\$0.03 (RMB0.17) per ordinary share. The exercise price

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

for Option G was later modified to US\$0.001 (RMB0.006) and the number of shares are reduced by half (See "option modification" section of the note). The fair value of the options was determined by using the Black-Scholes option pricing model with the following assumptions:

	Option G1	Option G2	Option G3	Option G4	Option G5
Weight average assumptions – expected dividend yield	0%	0%	0%	0%	0%
Risk-free interest rate	2.02%	2.16%	2.29%	2.42%	2.55%
Expected life (years)	5.11	5.61	6.11	6.61	7.11
Expected volatility	74.54%	74.54%	74.54%	74.54%	74.54%

The expected dividend yield was estimated by the Company based on its dividend policy over the expected life of the options. Risk-free interest rate was estimated based on the USD Treasury Bond Yield and pro-rated according to the tenor of the options plus a risk premium of 1.05% to cater the higher sovereign risk of China. The expected term was estimated by taking into consideration the expiration period and the vesting terms. Expected volatility was estimated based on the longest available historical annualized daily volatilities of the Company.

For the year ended December 31, 2012, 2013 and 2014, share-based compensation expenses of RMB60,666, RMB35,732 and RMB22,200 were recognized in connection with the 2012 Options G, respectively. As of December 31, 2014, 972,640 shares of 2012 Options G had been exercised. During the years ended December 31, 2012, 2013 and 2014, nil, 786,670 and 932,305 shares of 2012 Options G, respectively, were forfeited due to employee resignations. No share-based compensation expense related to the forfeited options was recognized.

b. 2012 Options H

On March 12, 2012, the Company granted options ("2012 Options H") to its entrepreneurial agents and captains (non-employees) to purchase 3,800,000 ordinary shares of the Company, of which 3,000,000 and 800,000 options were granted to agents and captains respectively. Pursuant to the option agreements entered into between the Company and the option grantees, 40% ("Option H1"), 40% ("Option H2") and 20% ("Option H3") of the 3,000,000 award options granted to agents shall vest in May 31, 2014, 2015 and 2016 of each year respectively; and 40% ("Option H4"), 40% ("Option H5") and 20% ("Option H6") of the 800,000 award options granted to captains shall vest in May 31, 2013, 2014 and 2015 of each year respectively. The number of options that the grantees are entitled to in each year of 2013 to 2016 will be calculated based on the key performance indicator scores of the grantees in the respective prior year and subject to their continued agent services with the Company. The expiration date of the 2012 Options H is March 12, 2022. The 2012 Options H had an exercise price of US\$0.30 (RMB1.90), which was later modified to US\$0.001 (RMB0.006) (See "option modification" section of the note) and an intrinsic value of US\$0.04 (RMB0.26) per ordinary share as of the date of grant.

The fair value of the options was determined by using the Black-Scholes option pricing model with the following assumptions as of December 31, 2014, exclude Option H1, H4 and H5 which were vested on May 31, 2013 and May 31, 2014:

	Option H2	Option H3	Option H6
Stock price per ordinary shares	US\$0.30	US\$0.30	US\$0.30
Weight average assumptions – expected dividend yield.....	0%	0%	0%
Risk-free interest rate	1.43%	1.60%	1.43%
Expected life (years)	4.81	5.31	4.81
Expected volatility	60.32%	64.83%	60.32%

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

The expected dividend yield was estimated by the Company based on its dividend policy over the expected life of the options. Risk-free interest rate was estimated based on the USD Treasury Bond Yield and pro-rated according to the tenor of the options plus a risk premium of 1.05% to cater the higher sovereign risk of China. The expected term was estimated by taking into consideration the expiration period and the vesting terms. Expected volatility was estimated based on daily stock prices of comparable companies for a period with length commensurate to expected term.

For the years ended December 31, 2012, 2013 and 2014, share-based compensation expenses of RMB1,100, RMB1,288 and RMB1,289 were recognized in connection with the 2012 Options H, respectively. As of December 31, 2014, no shares of 2012 Options H had been exercised. During the years ended December 31, 2012, 2013 and 2014, nil, 143,664 and 898,740 shares of 2012 Options H, respectively, were forfeited due to termination of agency contracts. No share-based compensation expense related to the forfeited options was recognized.

2009 Options

On March 9, 2009, the Company granted options ("2009 Options") to its employees to purchase 10,000,000 ordinary shares of the Company. Pursuant to the option agreements entered into between the Company and the option grantees, the options shall vest over a four-year period, with 30% ("Option D1"), 30% ("Option D2"), 20% ("Option D3") and the remaining 20% ("Option D4") of the options vesting on March 31 of each of the years 2010 to 2013, respectively, subject to the continuous employment of the option grantees and their key performance indicators ("KPI") results for the years 2009. The expiration date of the 2009 Options is March 31, 2015, which was later modified to December 31, 2017 (See "option modification" section of the note). The 2009 Options have an exercise price of US\$0.34 (RMB2.30) per ordinary share, equal to the price per ordinary share quoted on the Nasdaq Global Select Market at the date of passing the resolutions. There is no intrinsic value of the options as of the date of grant. The fair value of the options was determined by using the Black-Scholes option pricing model with the following assumptions:

	Option D1	Option D2	Option D3	Option D4
Weight average assumptions – expected dividend yield.....	0%	0%	0%	0%
Risk-free interest rate.....	3.35%	3.51%	3.55%	3.61%
Expected life (years).....	3.56	4.06	4.56	5.06
Expected volatility.....	33.0%	31.9 %	32.2%	31.2%

As of December 31, 2014, 1,348,280 shares of 2009 Options had been exercised. The expected term was estimated by taking into consideration the expiration period and the vesting terms. Expected volatility was estimated based on daily stock prices of comparable companies for a period with length commensurate to expected term.

For the years ended December 31, 2012, 2013 and 2014, share-based compensation expenses of RMB1,353, RMB238 and nil was recognized in connection with the 2009 Options respectively, excluding the incremental expenses related to the option modification in December 2013 (See "option modification" section of the note). During the years ended December 31, 2012, 2013 and 2014, 200,410, 231,600 and 110,900 shares of 2009 Options, respectively, were forfeited due to employee resignations. No share-based compensation expense related to the forfeited options was recognized.

2008 Options

On November 21, 2008, the Company granted options to purchase 32,000,000 ordinary shares of the Company to certain directors and employees ("2008 Options"). Pursuant to the option agreements entered into between the Company and the option grantees, the options shall vest over a four-year period, with 30% ("Option C1"), 30% ("Option C2"), 20% ("Option C3") and the remaining 20% ("Option C4") of the options vesting on March 31 of each of the years 2010 to 2013, respectively, subject to the

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

continuous employment of the option grantees and their KPI results for the years 2009. The expiration date of the 2008 Options is March 31, 2015, which was later modified to December 31, 2017 (See "option modification" section of the note). The 2008 Options have an exercise price of US\$0.28 (RMB1.90), equal to the fair value of the Company's share price at the grant date. There is no intrinsic value of the options as of the date of grant. The fair value of the options was determined by using the Black-Scholes option pricing model with the following assumptions:

	Option C1	Option C2	Option C3	Option C4
Weight average assumptions – expected dividend yield.....	0%	0%	0%	0%
Risk-free interest rate.....	3.70%	3.71%	3.93%	4.07%
Expected life (years).....	3.86	4.36	4.86	5.36
Expected volatility.....	28.2%	28.9%	28.0%	27.6%

As of December 31, 2014, 2,685,300 shares of 2008 Options had been exercised. The expected term was estimated by taking into consideration the expiration period and the vesting terms. Expected volatility was estimated based on daily stock prices of comparable companies for a period with length commensurate to expected term.

For the years ended December 31, 2012, 2013 and 2014, share-based compensation expenses of RMB3,756, RMB946 and nil was recognized in connection with 2008 Options, excluding the incremental expenses related to the option modification in December 2013 (See "option modification" section of the note). During the years ended December 31, 2012, 2013 and 2014 respectively, 211,080, 269,800 and 171,700 shares of 2008 Options, respectively, were forfeited due to employee resignations. No share-based compensation expense related to the forfeited options was recognized.

2007 Options

Option A

On February 3, 2007, CISG granted share options ("2007 Option A") to the Company's former Chief Financial Officer, Mr. David Tang to purchase 5,473,684 ordinary shares. The options grant represents 0.8% of the issued share capital of CISG on a fully diluted basis upon full exercise of all outstanding options. The options vest over a two-year period, with 40% of the options vesting upon public listing of the Company and 30% on each of the first and second anniversaries of his employment. The 2007 Option A has an exercise price of RMB2.32 per ordinary share, equal to the fair value of CISG's share price at the grant date, as determined by using the Black-Scholes option pricing model. The management of the Company determined the value of the Company's shares as of January 31, 2007, with the assistance of a third party valuation company. There was no intrinsic value of the option as of the date of grant.

The assumptions used in determining the fair value of the options were as follows:

Weighted average assumptions—expected dividend yield.....	0%
Risk-free interest rate.....	2.71%
Expected life (years).....	5.6
Expected volatility.....	28.5%

The expected term was estimated by taking into consideration the expiration period and the vesting terms. Expected volatility is estimated based on daily stock prices of comparable companies for a period with length commensurate to expected term. As of December 31, 2014, 4,652,620 shares of 2007 Option A had been exercised.

Option modification

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

In December, 2013, the board of directors approved an option modification to extend the expiration dates of the outstanding 2008 Options and 2009 Options to December 31, 2017. Other terms of the options grants remain unchanged. The Company had taken a modification charge for the incremental compensation cost of RMB6,700 to the consolidated statement of income and comprehensive income (loss) for the year ended December 31, 2013, the period in which the modification occurred.

In December, 2013, the chairman of InsCom approved an option modification to extend the expiration dates of all InsCom options for one year and revised the exercise price of the options to RMB0.025 per ordinary share, the fair value as of the modification date. The Company had taken a modification charge for the incremental compensation cost of RMB401 to the consolidated statement of income and comprehensive income (loss) for the year ended December 31, 2013, the period in which the modification occurred.

In November 2014, the board and compensation committee passed a resolution to modify the exercise price of the 2012 Options that the exercise price of the rest of the 2012 Options was reduced from \$0.30 per ordinary share (for certain directors, officers, key employees and sales agents) and \$0.31 per ordinary share (for two independent directors who are residents of the United States) to \$0.001 per ordinary share while the maximum aggregate award of 96,645,000 ordinary shares was reduced to 46,722,500 ordinary shares. The options are subject to the same service period. As of December 31, 2014, except for the options granted to one of the independent directors, outstanding options to purchase 91,327,722 ordinary shares were modified into 45,663,861 shares options. There was no incremental cost as a result of such option modification.

For each of the three years ended December 31, 2012, 2013 and 2014, changes in the status of outstanding options, excluding the InsCom options, were as follows:

	Number of options	Weighted average exercise price in RMB	Aggregate Intrinsic Value RMB
Outstanding as of January 1, 2012	37,111,101	1.99	7,070
Granted on March 12, 2012	96,645,000	1.90	
Exercised.....	(183,380)	1.95	
Forfeited.....	(411,490)	2.09	
Outstanding as of December 31, 2012	133,161,231	1.92	15,436
Forfeited.....	(1,431,734)	1.96	
Outstanding as of December 31, 2013	131,729,497	1.92	15,436
Exercised.....	(1,704,380)	2.09	
Forfeited.....	(2,113,656)	1.92	
Modification of the 2012 Options	(45,663,861)	1.90	
Outstanding as of December 31, 2014	82,247,600	1.93	10,177
Exercisable as of December 31, 2014.....	65,234,609	1.94	7,517

As of December 31, 2014, there were a total of 17,012,991 outstanding unvested options for the Group. As of December 31, 2014, there was RMB18,793 of total unrecognized compensation cost related to share options granted in 2012, which was expected to be recognized over a period of 1.5 years as of December 31, 2014.

No 2012 InsCom Options was exercised, or cancelled during the year ended December 31, 2013 and 2014. There was negligible unrecognized cost as of December 31, 2014. As of December 31, 2014, 4,476,505 shares of 2012 InsCom Options were forfeited because of resignation of the option holders. As of December 31, 2014, 56,531,831 shares of the 2012 InsCom Options are outstanding and exercisable, with weighted average remaining contractual life of 2 years and exercise price of RMB0.025 per ordinary share.

No 2013 InsCom Options was exercised or cancelled during the year ended December 31, 2014, and there was nil of unrecognized cost expected to be recognized over a period of one year as of December 31, 2014. As of December 31, 2014, 3,036,879 shares

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

were forfeited. As of December 31, 2014, 17,621,433 shares of the 2013 InsCom Options are outstanding and exercisable, with weighted average remaining contractual life of 3.5 years and exercise price of RMB0.025 per ordinary share.

No 2014 InsCom Options was exercised or cancelled during the year ended December 31, 2014, and there was nil of unrecognized cost expected to be recognized over a period of one year as of December 31, 2014. During the year of 2014, 120,000 shares were forfeited. As of December 31, 2014, 11,546,281 shares of the 2014 InsCom Options are outstanding, 4,259,000 options are exercisable, with weighted average remaining contractual life of 4.5 years and exercise price of RMB0.028 per ordinary share.

The following table summarizes information about the Company's share option plans for the years ended December 31, 2012, 2013 and 2014, excluding the InsCom options, were:

	Year ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Weighted-average grant-date fair value per share of options granted	1.48	—	—
Total intrinsic value of options exercised	74	—	837
Total fair value of share options vested	30,513	34,362	44,912

The following table summarizes information about the Company's stock option plans as of December 31, 2014, excluding the InsCom options, were:

	Options outstanding	Weighted average remaining contractual life (Years)	Weighted average exercise price in RMB	Options Exercisable
2012 Options G.....	45,876,692	7.3	0.006	29,663,817
2012 Options H.....	1,370,428	7.3	0.006	570,312
2009 Options	7,000,000	3.0	2.30	7,000,000
2008 Options	28,000,480	3.0	1.90	28,000,480
Total	82,247,600			65,234,609

There is no 2007 Options A outstanding as of December 31, 2014.

(20) Restricted Net Assets

Relevant PRC statutory laws and regulations permit payments of dividends by the Group's PRC subsidiaries only out of their retained earnings, if any, as determined in accordance with PRC accounting standards and regulations. As a result of these PRC laws and regulations, the Group's PRC subsidiaries are restricted in their ability to transfer a portion of their net assets either in the form of dividends, loans or advances. As of December 31, 2013 and 2014, the Company had restricted net assets of RMB1,907,730 and RMB2,055,417 (including RMB135,678 and RMB131,313 restricted net assets of the VIEs), respectively, which were not eligible to be distributed. These amounts were comprised of the registered capital of the Company's PRC subsidiaries and the statutory reserves disclosed in note 14.

(21) Segment Reporting

Before January 1, 2014, the Group operated three operating segments: (1) property and casualty insurance ("P&C"), (2) life insurance ("Life"), and (3) insurance claims adjusting services ("Claims Adjusting"). From January 1, 2014, the Group realigned its financial reporting structure into three principal business segments that more accurately reflect its organizational

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

structure and changing business mix. Historical results reflecting the new business segments for the corresponding period of the previous year have been restated.

The new principal business segments are as follows: (1) insurance agency business segment, which mainly consists of providing agency services for P&C insurance products and life insurance products to individual clients, (2) insurance brokerage business segment, which mainly consists of providing P&C and life insurance brokerage services to institutional clients, and (3) claims adjusting segment, which consists of providing pre-underwriting survey, claim adjusting, disposal of residual value, loading and unloading supervision and consulting services. Operating segments are defined as components of an enterprise about which separate financial information is available and evaluated regularly by the Group's chief operating decision maker in deciding how to allocate resources and in assessing performance.

The following table shows the Group's operations by business segment for the years ended December 31, 2012, 2013 and 2014. Other includes revenue and expenses that are not allocated to reportable segments and corporate related items.

Substantially all of the Group's revenues for the three years ended December 31, 2012, 2013 and 2014 were generated from the PRC. A substantial portion of the identifiable assets of the Group is located in the PRC. Accordingly, no geographical segments are presented.

(22) Subsequent event

(a) In January 5, 2015, Kingsford Resources Limited ("Kingsford Resources") entered into a share purchase and sale agreement with CDH Inservice Limited ("CDH Inservice") in a privately negotiated transaction, pursuant to which Kingsford Resources, collectively held by Mr. Qiuping Lai, Mr. Chunlin Wang and Mr. Peng Ge, has agreed to purchase from CDH Inservice 7,731,149 ADSs, or its equivalent in ordinary shares of our company, at a price of US\$7 per ADS, or US\$0.35 per ordinary share, for total compensation of US\$54.1 million. The 7,731,149 ADSs represent the entire interests in our company held by CDH Inservice as of January 5, 2015. 3,865,575 ADSs or its equivalent in ordinary shares were delivered by CDH Inservice to Kingsford Resources on January 15, 2015 and the remaining 3,865,574 ADSs or its equivalent in ordinary shares will be delivered on or prior to January 15, 2016.

(b) In January, 2015, the Group acquired the remaining 49% equity share of Henan Fanhua Anlian Insurance Agency Co., Ltd. ("Henan Anlian") for a cash consideration of RMB68,000, increasing our shareholdings in Henan Anlian from 51% to 100%. The Group also acquired 36.5% equity share of Hebei Fanlian Insurance Agency Co., Ltd. ("Hebei Fanlian") for a total consideration including cash consideration of RMB40,000 and 12.5% equity interest in business of Hebei branch of Fanhua Lianxing Insurance Sales Co., Ltd., increasing our shareholdings in Hebei Fanlian from 51% to 87.5%.

INTRODUCTION

In this annual report, unless the context otherwise requires:

- “we,” “us,” “our company,” “our” or “CNinsure” refer to CNinsure Inc., its subsidiaries and our consolidated affiliated entities;
- “China” or “PRC” refers to the People’s Republic of China, excluding, solely for the purpose of this annual report, Taiwan, Hong Kong and Macau;
- “provinces” of China refers to the 22 provinces, the four municipalities directly administered by the central government (Beijing, Shanghai, Tianjin and Chongqing) and the five autonomous regions (Xinjiang, Tibet, Inner Mongolia, Ningxia and Guangxi);
- “shares” or “ordinary shares” refers to our ordinary shares, par value US\$0.001 per share;
- “ADSs” refers to our American depository shares, each of which represents 20 ordinary shares;
- “consolidated affiliated entities” refers to Sichuan Yihe Investment Co., Ltd., or Yihe Investment, Shenzhen Xinbao Investment Management Co., Ltd., or Xinbao Investment and its subsidiaries and Shenzhen Dianliang Information Technology Co., Ltd., or Dianliang Information;
- all references to “RMB” or “Renminbi” are to the legal currency of China, all references to “US\$” and “U.S. dollars” are to the legal currency of the United States and all references to “HK\$” and “HK dollars” are to the legal currency of the Hong Kong Special Administrative Region; and
- all discrepancies in any table between the amounts identified as total amounts and the sum of the amounts listed therein are due to rounding.

PART I

Item 1. Identity of Directors, Senior Management and Advisers

Not Applicable.

Item 2. Offer Statistics and Expected Timetable

Not Applicable.

Item 3. Key Information

A. Selected Financial Data

The following selected consolidated statements of income (loss) data for the years ended December 31, 2012, 2013 and 2014 and the consolidated balance sheets data as of December 31, 2013 and 2014 have been derived from our audited consolidated financial statements, which are included in this annual report beginning on page F-1. The selected consolidated statements of income (loss) data for the years ended December 31, 2010 and 2011 and the selected consolidated balance sheets data as of December 31, 2010, 2011 and 2012 have been derived from our audited consolidated financial statements, which are not included in this annual report.

On March 25, 2011, we disposed of our 55% equity interest in Datong International Holding Limited and its subsidiaries, or Datong, which were primarily engaged in the distribution of life insurance products. Following the sale of Datong, we present our financial results for the years ended December 2010 and 2011 on both a continuing and discontinued basis. Profits and losses related to Datong were presented as discontinued operations while profits and losses for the remaining business were presented as continuing operations. Our historical results do not necessarily indicate results expected for any future periods. The selected consolidated financial data should be read in conjunction with, and are qualified in their entirety by reference to, our audited consolidated financial statements

and related notes and “Item 5. Operating and Financial Review and Prospects” below. Our audited consolidated financial statements are prepared and presented in accordance with U.S. GAAP.

In the first quarter of 2014, we realigned our financial reporting structure into three business segments that more accurately reflect our organizational structure and changing business mix. Under the realigned business structure, our business is divided into three reporting operating segments: (1) insurance agency, (2) insurance brokerage, and (3) claims adjusting. See “Item 4. Information on the Company — B. Business Overview — Segment Information.” Historical results reflecting the new business segments for 2010, 2011, 2012, 2013 and 2014 are also restated.

	For the Year Ended December 31,

Exchange Rate Information

Our business is primarily conducted in China and all of our revenues are denominated in RMB. This annual report contains translations of RMB amounts into U.S. dollars at specific rates solely for the convenience of the readers. Unless otherwise noted, all translations from RMB to U.S. dollars in this annual report were made at a rate of RMB6.2046 to US\$1.00, the noon buying rate in effect as of December 31, 2014 in The City of New York for cable transfers of RMB, as set forth in H.10 weekly statistical release of the Federal Reserve Bank of New York.

We make no representation that any RMB or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or RMB, as the case may be, at any particular rate, or at all. The PRC government imposes control over its foreign currency reserves in part through direct regulation of the conversion of RMB into foreign exchange and through restrictions on foreign trade. On April 17, 2015, the noon buying rate was RMB6.1976 to US\$1.00.

The following table sets forth information concerning exchange rates between the RMB and the U.S. dollar for the periods indicated. These rates are provided solely for your convenience and are not necessarily the exchange rates that we used in this annual report or will use in the preparation of our future periodic reports or any other information to be provided to you.

Risks Related to Our Business and Our Industry

If our investments in our mobile and online platforms are not successful, our business and results of operations may be adversely affected.

We have devoted significant efforts to developing our mobile and online platforms. On January 1, 2012, we launched Baowang (www.baoxian.com), an online insurance marketplace which allows customers to search, and purchase a wide range of insurance products, including travel insurance, accident insurance and homeowner insurance from various insurance carriers. In October 2012, we launched CNpad, the mobile workstation of our proprietary sales support system, which enables sales agents to help their clients to compare price, policy benefits and services from different insurance carriers' policies, and to apply for and complete the purchase of the policy that best suits their clients' needs anywhere and anytime. In August 2014, we unveiled eHuzhu (www.ehuzhu.com), an online non-profit mutual aid platform that provides low-cost risk-protection programs on a mutual aid basis among program members. In August 2014, we also rolled out Chetong.net (www.chetong.net), a public service platform for the insurance industry that integrates claims adjustment and auto service resources from around the country to

provide services such as damage assessment, loss estimations, emergency assistance, quick repair and valet services through a location-based services system. In the next few years, we intend to continue to devote significant resources to improving the technology and content of our existing online and mobile initiatives and launching marketing campaigns to increase consumer awareness of these online and mobile solutions or platforms. However, our efforts to develop our mobile and online platforms may not be successful or yield the benefits that we anticipate due to our limited experience in the online and mobile insurance distribution business. In addition, our expansion may depend on a number of factors, many of which are beyond our control, including but not limited to:

- the effectiveness of our marketing campaign to build brand recognition among consumers and our ability to attract and retain customers;
- the acceptance of third-party e-commerce platforms as an effective channel for underwriters to distribute their insurance products;
- the acceptance of CNpad as an effective tool for sales agents;
- public concerns over security of e-commerce transactions and confidentiality of information;
- increased competition from insurance companies which directly sell insurance products through their own websites, call centers, portal websites which provide insurance product information and links to insurance companies' websites, and other professional insurance intermediary companies which may launch independent websites in the future;
- further improvement in our information technology system designed to facilitate smoother online transactions; and
- further development and changes in applicable rules and regulations which may increase our operating costs and expenses, impede the execution of our business plan or change the competitive landscape.

On December 10, 2014, the China Insurance Regulatory Commission, or CIRC, released and solicited public comments on the Interim Measures for the Supervision of Internet Insurance Business (Draft for Comment), or Interim Measures, which sets forth the qualifications and procedures for insurance intermediaries to operate internet insurance businesses in China. Since online insurance distribution has emerged only recently in China and is evolving rapidly, the CIRC may implement new laws and regulations to govern this sector from time to time. Although we have obtained necessary approvals and licenses and meet qualification requirements for the operation of the Interim Measures, we cannot assure you that our operation will always be consistent with the changes and further development of regulations applicable to us or we will be able to obtain necessary approvals and licenses as required on a timely basis.

Any failure to successfully identify the risks as part of our expansion into the online and mobile insurance distribution business may have a material adverse impact on our growth, business prospects and results of operations, which could lead to a decline in the price of our ADSs.

In addition, our efforts to enhance our technological capabilities and establish a leading position in the online and mobile insurance distribution and online claims settlement markets requires us to incur significant research and development and marketing expenses which may adversely impact our profitability in the near term.

If we fail to attract and retain productive agents, especially entrepreneurial agents, and qualified claims adjustors, our business could suffer.

A substantial portion of our sales of property and casualty insurance products and all of our sales of life insurance products are conducted through our individual sales agents, who are not our employees. Some of these sales agents are significantly more productive than others in generating sales. In recent years, some entrepreneurial management staff or senior sales agents of major insurance companies in China have chosen to leave their employers or principals and become independent agents. We refer to these individuals as entrepreneurial agents. An entrepreneurial agent is usually able to assemble and lead a team of sales agents. We have been actively recruiting and will continue to recruit entrepreneurial agents to join our distribution and service network as our sales agents. Entrepreneurial agents have been instrumental to the development of our life insurance business. In addition, we rely entirely on our in-house claims adjustors to provide claims adjusting services. Because claims adjusting

requires technical skills, the technical competence of claims adjustors is essential to establishing and maintaining our brand image and relationships with our customers. If we are unable to attract and retain the core group of highly productive sales agents, particularly entrepreneurial agents, and qualified claims adjustors, our business could be materially and adversely affected. Competition for sales personnel and claims adjustors from insurance companies and other insurance intermediaries may also force us to increase the compensation of our sales agents, in-house sales representatives and claims adjustors, which would increase operating costs and reduce our profitability.

Our business and prospects could be materially and adversely affected if we are not able to manage our growth successfully.

We commenced our insurance intermediary business in 1999 and have expanded our operations substantially in recent years. Our distribution and service networks expanded from one company in one province to 37 insurance agencies, two insurance brokerages and four claims adjusting firms in 27 provinces as of March 31, 2015. Meanwhile, we have broadened our service offerings from the distribution of only automobile insurance products to cover a wide variety of property and casualty insurance and life insurance products and insurance claims adjusting services. In addition, in 2014 we unveiled eHuzhu, an online non-profit mutual aid platform, and Chetong.net, an online insurance service platform. We anticipate continued growth in the future through multiple means. Our expansion has placed, and will continue to place, substantial demands on our managerial, operational, technological and other resources. To manage and support our continued growth, we must continue to improve our operational, administrative, financial and technological systems, procedures and controls, and expand, train and manage our growing employee and agent base. Furthermore, our management will be required to maintain and expand our relationships with insurance companies, other insurance intermediaries, regulators and other third parties. We cannot assure you that our current and planned personnel, systems, procedures and controls will be adequate to support our future operations. We also cannot assure you that new product and platform offerings will be accepted by consumers or other industry participants or that we will be able to successfully integrate new products into our greater insurance service platform. Any failure to effectively and efficiently manage our expansion could materially and adversely affect our ability to capitalize on new business opportunities, which in turn could have a material adverse effect on our results of operations.

We may be unsuccessful in identifying and acquiring suitable acquisition candidates, which could adversely affect our growth.

Since our initial public offering in October 2007, we have significantly expanded our operations through a number of acquisitions. We expect some portion of our future growth to come from acquisitions of high-quality independent insurance intermediary companies or companies that can complement our existing business and help improve our customers' experience. There is no assurance that we can successfully identify suitable acquisition candidates. Even if we identify suitable candidates, we may not be able to complete an acquisition on terms that are commercially acceptable to us. In addition, we compete with other entities to acquire high-quality independent insurance agencies, brokerages and claims adjusting firms. Our competitors may be able to outbid us for these acquisition targets. If we are unable to complete acquisitions, our growth strategy may be impeded and our earnings or revenue growth may be negatively affected.

If we fail to integrate acquired companies efficiently, or if the acquired companies do not perform to our expectations, our business and results of operations may be adversely affected.

Even if we succeed in acquiring other insurance agencies, brokerages and claims adjusting firms, our ability to integrate an acquired entity and its operations is subject to a number of factors. These factors include difficulties in the integration of acquired operations and retention of personnel, especially the sales agents who are not employees of the acquired company, entry into unfamiliar markets, unanticipated problems or legal liabilities, tax and accounting issues. The need to address these factors may divert management's attention from other aspects of our business and materially and adversely affect our business prospects. In addition, costs associated with integrating newly acquired companies could negatively affect our operating margins.

Furthermore, the acquired companies may not perform to our expectations for various reasons, including legislative or regulatory changes that affect the insurance products in which a company specializes, the loss of key clients after the acquisition closes, general economic factors that impact a company in a direct way and the cultural incompatibility of an acquired company's management team with us. If an acquired company cannot be operated at the same profitability level as our existing operations, the acquisition would have a negative impact on our operating margin. Our inability to successfully integrate an acquired entity or its failure to perform to our expectations may materially and adversely affect our business, prospects, results of operations and financial condition.

If we are required to write down goodwill and other intangible assets, our financial condition and results may be materially and adversely affected.

When we acquire a business, a substantial portion of the purchase price of the acquisition is generally allocated to goodwill and other identifiable intangible assets. The amount of the purchase price that is allocated to goodwill and other intangible assets is determined by the excess of the fair value of purchase price and any controlling interest over the net identifiable tangible assets acquired. As of December 31, 2014, goodwill represented RMB133.5 million (US\$21.5 million), or 4.0% of our total shareholders' equity, and other net intangible assets represented RMB31.6 million (US\$5.1 million), or 0.9% of our total shareholders' equity. Our management performs impairment assessment annually, and in 2011 we recognized an impairment loss of RMB1.1 billion, though we did not recognize any impairment loss in 2012, 2013 or 2014. Under current accounting standards, if we determine that goodwill or intangible assets are impaired, we will be required to write down the value of such assets and recognize corresponding impairment charges. As we implement our growth strategy through acquisitions, goodwill and intangible assets may comprise an increasingly larger percentage of our shareholders' equity. As such, any write-down related to such goodwill and intangible assets may adversely and materially affect our shareholders' equity and financial results.

Because the commission and fee revenue we earn on the sale of insurance products is based on premiums, commission and fee rates set by insurance companies, any decrease in these premiums, commission or fee rates may have an adverse effect on our results of operations.

We are engaged in the insurance agency, insurance brokerage and claims adjusting businesses and derive revenues primarily from commissions and fees paid by the insurance companies whose policies our customers purchase and to whom we provide claims adjusting services. The commission and fee rates are set by insurance companies and are based on the premiums that the insurance companies charge or the amount recovered from insurance companies. Commission and fee rates and premiums can change based on the prevailing economic, regulatory, taxation-related and competitive factors that affect insurance companies. These factors, which are not within our control, include the ability of insurance companies to place new business, underwriting and non-underwriting profits of insurance companies, consumer demand for insurance products, the availability of comparable products from other insurance companies at a lower cost, the availability of alternative insurance products such as government benefits and self-insurance plans, as well as the tax deductibility of commissions and fees and the consumers themselves. In addition, premium rates for certain insurance products, such as the mandatory automobile liability insurance that each automobile owner in the PRC is legally required to purchase, are tightly regulated by CIRC.

Because we do not determine, and cannot predict, the timing or extent of premium or commission and fee rate changes, we cannot predict the effect any of these changes may have on our operations. Any decrease in premiums or commission and fee rates may significantly affect our profitability. In addition, our budget for future acquisitions, capital expenditures and other expenditures may be disrupted by unexpected decreases in revenues caused by decreases in premiums or commission and fee rates, thereby adversely affecting our operations.

Competition in our industry is intense and, if we are unable to compete effectively, we may lose customers and our financial results may be negatively affected.

The insurance intermediary industry in China is highly competitive, and we expect competition to persist and intensify. In insurance product distribution, we face competition from insurance companies that use their in-house sales force, exclusive sales agents, telemarketing and internet channels to distribute their products, and from business entities that distribute insurance products on an ancillary basis, such as commercial banks, postal offices and automobile dealerships, as well as from other professional insurance intermediaries. In our claims adjusting business, we primarily compete with other independent claims adjusting firms. We compete for customers on the basis of product offerings, customer services and reputation. Many of our competitors have greater financial and marketing resources than we do and may be able to offer products and services that we do not currently offer and may not offer in the future. If we are unable to compete effectively against those competitors, we may lose customers and our financial results may be negatively affected.

Quarterly and annual variations in our commission and fee revenue may have unexpected impacts on our results of operations.

Our commission and fee revenue is subject to both quarterly and annual fluctuations as a result of the seasonality of our business, the timing of policy renewals and the net effect of new and lost business. Historically,

our commission and fee revenue, particularly revenue derived from distribution of property and casualty insurance products, for the fourth quarter of any given year has been the highest among all four quarters, while our commission and fee revenue for the first quarter of any given year has been the lowest among all four quarters. The factors that cause the quarterly and annual variations are not within our control. Specifically, consumer demand for insurance products can influence the timing of renewals, new business and lost business, which generally includes policies that are not renewed, and cancellations. As a result, you may not be able to rely on quarterly or annual comparisons of our operating results as an indication of our future performance.

If our contracts with insurance companies are terminated or changed, our business and operating results could be adversely affected.

We primarily act as agents for insurance companies in distributing their products to retail customers. We also provide claims adjusting services principally to insurance companies. Our relationships with the insurance companies are governed by agreements between us and the insurance companies. We have entered into strategic partnership agreements with most of our major insurance company partners for the distribution of life, property and casualty insurance products and the provision of claims adjusting services at the corporate headquarters level. While this approach allows us to obtain more favorable terms from insurance companies by combining the sales volumes of our affiliated insurance agencies and brokerages, it also means that the termination of a major contract could have a material adverse effect on our business. Under the framework of the headquarter-to-headquarter agreements, our affiliated insurance agencies, brokerages and claims adjusting firms generally also enter into contracts at a local level with the respective provincial, city and district branches of the insurance companies. Generally, each branch of these insurance companies has independent authority to enter into contracts with our affiliated insurance agencies, brokerages and claims adjusting firms, and the termination of a contract with one branch has no significant effect on our contracts with the other branches. See “Item 4. Information on the Company — B. Business Overview — Insurance Company Partners.” These contracts establish, among other things, the scope of our authority, the pricing of the insurance products we distribute and our fee rates. These contracts typically have a term of one year and some of them can be terminated by the insurance companies with little advance notice. Moreover, before or upon expiration of a contract, the insurance company that is a party to that contract may agree to renew it only with changes in its terms, including the amount of commissions and fees we receive, which could reduce our revenues from that contract.

For the year ended December 31, 2014, our top five insurance company partners were PICC Property and Casualty Company Limited, or PICC P&C, Ping An Property & Casualty Insurance Company of China, Ltd., or Ping An, China Pacific Property Insurance Co., Ltd., or CPIC, Taiping General Insurance Co., Ltd., or Taiping and Alltrust Property Insurance Company Ltd, or Alltrust. Among them, PICC P&C, Ping An and CPIC each accounted for more than 10% of our total net revenues in 2014, with PICC P&C accounting for 20.6%, Ping An accounting for 13.7%, and CPIC accounting for 11.9% of our total net revenues. The termination of our contracts with insurance companies that in aggregate account for a significant portion of our business, or changes to material terms of these contracts, could adversely affect our business and operating results.

Our operating structure may make it difficult to respond quickly to operational or financial problems, which could negatively affect our financial results.

We currently operate through our majority-owned and affiliated insurance agencies, brokerages and claims adjusting firms located in 27 provinces in China. These companies report their results to our corporate headquarters monthly. If these companies delay either reporting results or informing corporate headquarters of negative business developments such as losses of relationships with insurance companies, regulatory inquiries or any other negative events, we may not be able to take action to remedy the situation in a timely fashion. This in turn could have a negative effect on our financial results. In addition, if one of these companies were to report inaccurate financial information, we might not learn of the inaccuracies on a timely basis and be able to take corrective measures promptly, which could negatively affect our ability to report our financial results.

Our dependence on the founders and key managers of firms that we acquire may limit our ability to effectively manage our business.

In the acquisitions we have completed to date, some of the founders and key managers of the acquired firms continue to manage the acquired businesses. They are responsible for ordinary course operational decisions, including personnel and office location, subject to our oversight. They also maintain the primary relationship with customers and the local branches of insurance companies. Although we maintain internal controls to oversee our nationwide operations, this operating structure exposes us to the risk of losses resulting from day-to-day decisions

of the managers of the acquired firms. Unsatisfactory performance by these managers could hinder our ability to grow and could have a material adverse effect on our business.

Our future success depends on the continuing efforts of our senior management team and other key personnel, and our business may be harmed if we lose their services.

Our future success depends heavily upon the continuing services of the members of our senior management team and other key personnel, in particular, Mr. Chunlin Wang, our chief executive officer, Mr. Qiuping Lai, our president, and Mr. Peng Ge, our chief financial officer. If one or more of our senior executives or other key personnel, are unable or unwilling to continue in their present positions, we may not be able to replace them easily, or at all. As such, our business may be disrupted and our financial condition and results of operations may be materially and adversely affected. Competition for senior management and key personnel is intense, the pool of qualified candidates is very limited, and we may not be able to retain the services of our senior executives or key personnel, or attract and retain high-quality senior executives or key personnel in the future. As is customary in the PRC, we do not have insurance coverage for the loss of our senior management team or other key personnel.

In addition, if any member of our senior management team or any of our other key personnel joins a competitor or forms a competing company, we may lose customers, sensitive trade information, key professionals and staff members. Each of our executive officers and key employees has entered into an employment agreement with us which contains confidentiality and non-competition provisions. These agreements generally have an initial term of three years, and are automatically extended for successive one-year terms unless terminated earlier pursuant to the terms of the agreement. See “Item 6. Directors, Senior Management and Employees — A. Directors and Senior Management — Employment Agreements” for a more detailed description of the key terms of these employment agreements. If any disputes arise between any of our senior executives or key personnel and us, we cannot assure you of the extent to which any of these agreements may be enforced.

Salesperson and employee misconduct is difficult to detect and deter and could harm our reputation or lead to regulatory sanctions or litigation costs.

Salesperson and employee misconduct could result in violations of law by us, regulatory sanctions, litigation or serious reputational or financial harm. Misconduct could include:

- making misrepresentations when marketing or selling insurance to customers;
- hindering insurance applicants from making full and accurate mandatory disclosures or inducing applicants to make misrepresentations;
- hiding or falsifying material information in relation to insurance contracts;
- fabricating or altering insurance contracts without authorization from relevant parties, selling false policies, or providing false documents on behalf of the applicants;
- falsifying insurance agency business or fraudulently returning insurance policies to obtain commissions;
- colluding with applicants, insureds, or beneficiaries to obtain insurance benefits;
- engaging in false claims; or
- otherwise not complying with laws and regulations or our control policies or procedures.

We cannot always deter salesperson or employee misconduct, and the precautions we take to prevent and detect these activities may not be effective in all cases. We cannot assure you, therefore, that salesperson or employee misconduct will not lead to a material adverse effect on our business, results of operations or financial condition.

Our investments in certain financial products may not yield the benefits we anticipate or incur financial loss, which could adversely affect our cash position.

In order to improve our return on capital, we may from time to time, upon board approval, invest certain portion of our cash in financial products, such as trust products, with terms of one to two years. These products may involve various risks, including default risks, interest risks, and other risks. We cannot guarantee these investments will yield the returns we anticipate and we could suffer financial loss resulting from the purchase of these financial products.

All of our personnel engaging in insurance agency, brokering or claims adjusting activities are required under relevant PRC regulations to have a qualification certificate issued by the CIRC. If these qualification requirements are strictly enforced in the future, our business may be materially and adversely affected.

All of our personnel who engage in insurance agency, brokering and claims adjusting activities are required under relevant PRC regulations to obtain a qualification certificate from the CIRC and a “Qualification Certificate” from the insurance company or insurance intermediary company to which he or she belongs. See “Item 4. Information on the Company — B. Business Overview — Regulation.” In addition, we understand that the CIRC requires that every individual agent or broker carry the qualification certificate issued by the insurance company or insurance intermediary company to which he or she belongs and other credentials showing specified information when conducting agency and brokerage business. Under the relevant PRC regulations, such as the Measures on the Supervision and Administration of Insurance Salespersons, and the Measures on the Supervision and Administration of insurance brokers and claims adjusters issued by the CIRC in January 2013, an insurance agency, brokerage or claims adjusting firm that retains unqualified personnel to engage in insurance intermediary activities may be imposed a fine ranging from RMB20,000 to RMB100,000 per agency by the CIRC. As of March 31, 2015, approximately 88.2% of our sales professionals had received a qualification certificate. If more local CIRC agencies were to strictly enforce these regulations in the future, and if a substantial portion of our sales force remains unqualified, our business may be adversely affected. Moreover, we may be subject to fines and other administrative proceedings for the failure of our insurance professionals to obtain the necessary CIRC qualification certificate. Such fines or administrative proceedings could materially and adversely affect our business, financial condition and results of operations.

The fee-based revenue scheme adopted by several of our affiliated property and casualty insurance agencies may be subject to challenge by the PRC tax authorities.

From the second quarter of 2009 to the first quarter of 2011, several of our affiliated property and casualty insurance agencies had adopted a trial fee-based revenue scheme. Under this scheme, revenues of these affiliated agencies were reported on a net basis. If the PRC tax authorities determine that the tax liability assessment of those eight affiliated agencies under the trial revenue scheme is inappropriate, the business tax liabilities of our affiliated agencies could increase and our affiliated agencies may be subject to fines for tax underpayment, which may materially adversely affect our results of operations.

Our businesses are highly regulated, and the administration, interpretation and enforcement of the laws and regulations currently applicable to us involve uncertainties, which could materially and adversely affect our business and results of operations.

We operate in a highly regulated industry. The CIRC has extensive authority to supervise and regulate the insurance industry in China. In exercising its authority, the CIRC is given wide discretion, and the administration, interpretation and enforcement of the laws and regulations applicable to us involve uncertainties that could materially and adversely affect our business and results of operations. For example, it is not clear when the CIRC will start strictly enforcing the qualification requirements for sales professionals affiliated with professional insurance intermediaries like us. Although we have not had any material violations to date, we cannot assure you that our operations will always be consistent with the interpretation and enforcement of the laws and regulations by the CIRC from time to time.

Our business could be negatively impacted if we are unable to adapt our services to continued regulatory change in China.

China’s insurance regulatory regime is undergoing significant changes. Some of these changes and the further development of regulations applicable to us may result in additional restrictions on our activities or more intensive competition in this industry. For example, pursuant to the Decision on Revising the Regulatory Provisions on

Professional Insurance Agencies and the Decision on Revising the Regulatory Provisions on the Supervision of Insurance Brokerages, both promulgated on April 27, 2013, the minimum registered capital requirements for insurance agencies and brokerages increased substantially. See “Item 4. Information on the Company — B. Business Overview — Regulation.” This increase reduced the amount of cash available for other business purposes. According to the Opinions on Improving Sales Agent Management System and Opinions on Encouraging and Supporting the Healthy Development of Private Investment issued by the CIRC on September 20, 2010 and June 15, 2012, respectively, insurance companies are encouraged to establish exclusive sales agencies or insurance sales companies and all types of capital, including foreign capital and capital from the private sectors are encouraged to invest in large scale insurance agencies and insurance sales companies. Furthermore, the CIRC promulgated the Circular on Supporting the Specialized Operation of Automobile Companies’ Insurance Intermediary Business which encouraged automobile companies to establish insurance agencies or insurance brokerage companies, or to outsource their insurance business to professional insurance agencies or brokerage companies. These changes may lead to greater competition among insurance agencies and our business operations and growth outlook could be materially and adversely affected.

In July 2014, the CIRC promulgated the Consultation Paper of the Rules on Deepening the Pricing Reform of Commercial Auto Insurance Policies, allowing insurers to set their own premium rates for auto insurance policies based on a new pricing model. Under the new pricing model, the premium of an auto insurance policy will be determined based on pure risk premium, loadings and premium adjustment factors, and the pricing in both direct sales and through intermediary channels will be based on the same pricing model. In January 2015, the CIRC promulgated the Guidelines on Deepening the Pricing Reform of Commercial Auto Insurance Policies, granting insurers more flexibility in auto insurance premiums based on their own operational conditions. If we are unable to successfully adapt our services to the changes resulting from this or similar regulatory action, our business could be adversely impacted.

If we fail to maintain an effective system of internal controls over financial reporting, we may not be able to accurately report our financial results or prevent fraud.

We are subject to reporting obligations under U.S. securities laws. Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 and the related rules adopted by the Securities and Exchange Commission, or the SEC, every public company is required to include a management report on the company’s internal controls over financial reporting in its annual report, which contains management’s assessment of the effectiveness of the company’s internal controls over financial reporting. In addition, an independent registered public accounting firm must attest to and report on the effectiveness of the company’s internal controls over financial reporting. These requirements first applied to our annual report on Form 20-F for the fiscal year ended on December 31, 2008.

Our management has concluded that our internal control over financial reporting was effective as of December 31, 2014. See “Item 15. Controls and Procedures.” However, there is no assurance that we will be able to maintain effective internal controls over financial reporting in the future. If we fail to do so, we may not be able to produce reliable financial reports and prevent fraud. Moreover, if we are not able to conclude that we have effective internal controls over financial reporting, investors may lose confidence in the reliability of our financial statements, which would negatively impact the trading price of our ADSs. Our reporting obligations as a public company, including our efforts to comply with Section 404 of the Sarbanes-Oxley Act, will continue to place a significant strain on our management, operational and financial resources and systems for the foreseeable future.

We may face legal action by former employers or principals of entrepreneurial agents who join our distribution and service network.

Competition for productive sales agents is intense within the Chinese insurance industry. When an entrepreneurial agent leaves his or her employer or principal to join our distribution and service network as our sales agent, we may face legal action by his or her former employer or principal of the entrepreneurial agent on the ground of unfair competition or breach of contract. As of the date of this annual report, there has been no such action filed or threatened against us. We cannot assure you that this will not happen in the future. Any such legal actions, regardless of merit, could be expensive and time-consuming and could divert resources and management’s attention from the operation of our business. If we were found liable in such a legal action, we might be required to pay substantial damages to the former employer or principal of the entrepreneurial agent, and our business reputation might be harmed. Moreover, the filing of such a legal action may discourage potential entrepreneurial agents from leaving their employers or principals, thus reducing the number of entrepreneurial agents we can recruit and potentially harming our growth prospects.

If we are unable to successfully expand into the consumer financial services and wealth management sectors, our business and results of operations may be adversely affected.

We have previously expanded into complementary business areas to leverage our existing sales network, customer resources and operating platform so as to better serve our customers' needs for insurance protection, financing and wealth management. For example, in October 2009, we acquired 20.6% equity interest in Sincere Fame International Limited, or Sincere Fame, which owns 100% of the equity interest in China Financial Services Group Limited, or CFSG, a consumer financial services provider. In November 2010 we formed a joint venture, named CNinsure Puyi Investment Management Co., Ltd., or Puyi Investment, (which we later renamed as CNinsure Puyi Fund Sales Co. Ltd., or Puyi Fund Sales, after obtaining the license to distribute mutual funds in March 2013) in which we beneficially own 19.5% of the equity interests. See "Item 4. Information on the Company — C.Organizational Structure — Principle Changes in Corporate Structure" for information on the restructuring of Puyi Fund Sales. Puyi Fund Sales is a financing platform for mutual funds and trust companies. However, in 2014 we discontinued offering wealth management products to our customers on a referral basis because of tightened regulation on the distribution of wealth management products by insurance intermediaries. If we decide to again attempt offering wealth management products, our efforts to do so may not be successful and may subject us to risks associated with operating in the consumer financial services sectors in China, including but not limited to, changes in monetary or industry policies and other economic measures that may affect our cooperation with financial institutions and their product supply, as well as competition from other consumer credit brokerage companies and other financial services companies that offer wealth management products. Any failure to successfully identify, execute and integrate acquisitions, investments, joint ventures and alliances as part of any attempted expansion into the consumer financial services sector may have a material adverse impact on our growth, business prospects and results of operations, which could lead to a decline in the price of our ADSs.

Any significant failure in our information technology systems could have a material adverse effect on our business and profitability.

Our business is highly dependent on the ability of our information technology systems to timely process a large number of transactions across different markets and products at a time when transaction processes have become increasingly complex and the volume of such transactions is growing rapidly. The proper functioning of our financial control, accounting, customer database, customer service and other data processing systems, together with the communication systems of our various subsidiaries and consolidated affiliated entities and our main offices in Guangzhou, is critical to our business and our ability to compete effectively. We cannot assure you that our business activities would not be materially disrupted in the event of a partial or complete failure of any of these primary information technology or communication systems, which could be caused by, among other things, software malfunction, computer virus attacks or conversion errors due to system upgrading. In addition, a prolonged failure of our information technology system could damage our reputation and materially and adversely affect our future prospects and profitability.

We may face potential liability, loss of customers and damage to our reputation for any failure to protect the confidential information of our customers.

Our customer database holds confidential information concerning our customers. We may be unable to prevent third parties, such as hackers or criminal organizations, from stealing information provided by our customers to us. Confidential information of our customers may also be misappropriated or inadvertently disclosed through employee misconduct or mistake. We may also in the future be required to disclose to government authorities certain confidential information concerning our customers.

In addition, many of our customers pay for our insurance services through third-party online payment services. In such transactions, maintaining complete security during the transmission of confidential information, such as personal information, is essential to maintaining consumer confidence. We have limited influence over the security measures of third-party online payment service providers. In addition, our third-party merchants may violate their confidentiality obligations and disclose information about our customers. Any compromise of our security or third-party service providers' security could have a material adverse effect on our reputation, business, prospects, financial condition and results of operations.

If we are accused of failing to protect the confidential information of our customers, we may be forced to expend significant financial and managerial resources in defending against these accusations and we may face potential liability. Any negative publicity may adversely affect our public image and reputation. In addition, any

perception by the public that online commerce is becoming increasingly unsafe or that the privacy of customer information is vulnerable to attack could inhibit the growth of online services generally, which in turn may reduce the number of our customers.

If we are unable to respond in a timely and cost-effective manner to rapid technological change in the insurance intermediary industry, it may result in an adverse effect.

The insurance industry is increasingly influenced by rapid technological change, frequent new product and service introductions and evolving industry standards. For example, the insurance intermediary industry has increased use of the internet to communicate benefits and related information to consumers and to facilitate information exchange and transactions. We believe that our future success will depend on our ability to continue to anticipate technological changes and to offer additional product and service opportunities that meet evolving standards on a timely and cost-effective basis. There is a risk that we may not successfully identify new product and service opportunities or develop and introduce these opportunities in a timely and cost-effective manner. In addition, product and service opportunities that our competitors develop or introduce may render our products and services uncompetitive. As a result, we can give no assurances that technological changes that may affect our industry in the future will not have a material adverse effect on our business and results of operations.

We face risks related to health epidemics, severe weather conditions and other catastrophes, which could materially and adversely affect our business.

Our business could be materially and adversely affected by the outbreak of avian flu, severe acute respiratory syndrome, or SARS, another health epidemic, severe weather conditions or other catastrophes. In April 2009, influenza A (H1N1), a new strain of flu virus commonly referred to as “swine flu,” was first discovered in North America and quickly spread to other parts of the world, including China. In January and February 2008, a series of severe winter storms afflicted extensive damages and significantly disrupted people’s lives in large portions of southern and central China. In May 2008, an earthquake measuring 8.0 on the Richter scale hit Sichuan Province in southwestern China, causing huge casualties and property damages. In February 2013, H7N9 Avian influenza was first discovered in Shanghai, China and quickly widened its geographical spread in China. Because our business operations rely heavily on the efforts of individual sales agents, in-house sales representatives and claims adjusters, any prolonged recurrence of avian flu or SARS, or the occurrence of other adverse public health developments such as influenza A (H1N1), severe weather conditions such as the massive snow storms in January and February 2008 and other catastrophes such as the Sichuan earthquake may significantly disrupt our staffing and otherwise reduce the activity level of our work force, thus causing a material and adverse effect on our business operations.

Risks Related to Our Corporate Structure

If the PRC government finds that the agreements that establish the structure for operating part of our China business do not comply with applicable PRC laws and regulations, we could be subject to severe penalties.

Historically, PRC laws and regulations have restricted foreign investment in and ownership of insurance intermediary companies. In recent years, some rules and regulations governing the insurance intermediary sector in China have begun to encourage foreign investment. For instance, under the Closer Economic Partnership Arrangement, or CEPA, Supplement IV signed in July 2007 and CEPA Supplement VIII signed on December 13, 2011, between the PRC Ministry of Commerce and the governments of Hong Kong and Macao Special Administrative Region, local insurance agencies in Hong Kong and Macao are allowed to set up wholly-owned insurance agency companies in Guangdong Province if they meet certain threshold requirements. On December 26, 2007, the CIRC issued an Announcement on the Establishment of Wholly-owned Insurance Agencies in Mainland China by Hong Kong and Macao Insurance Agencies, which sets forth specific qualification criteria for implementation purposes. On August 26, 2010, the CIRC released a Circular on the Cancellation of the Fifth Batch of Administrative Approval Items, pursuant to which foreign ownership in a professional insurance intermediary in excess of 25% only requires a filing to be made with the relevant authorities and no longer requires prior approval. Accordingly, in October 2011 we commenced a restructuring of our Company which resulted in us obtaining direct controlling equity ownership in all of our insurance intermediary companies. See “Item 4. Information on the Company — C. Organizational Structure.”

However, there remains uncertainty regarding the interpretation and implementation of the relevant regulations and the timing of the restructuring process. In addition, restrictions by PRC laws and regulations on foreign investments in and ownership of internet businesses still exists. Therefore, we conduct a small part of our operations in China through contractual arrangements among our PRC subsidiaries and consolidated affiliated entities (namely

Yihe Investment, Xinbao Investment and their subsidiaries and Dianliang Information, the holding company of eHuzhu.com, an online non-profit mutual aid platform that we launched in July 2014). The subsidiaries of our consolidated affiliated entities hold the licenses and permits necessary to conduct our online operations in China. Our contractual arrangements with our consolidated affiliated entities and their shareholders enable us to:

- exercise effective control over our consolidated affiliated entities;
- have an exclusive option to purchase part of the equity interests in each of our consolidated affiliated entities when and to the extent permitted by PRC law; and/or
- receive a substantial portion of the economic benefits from our consolidated affiliated entities in consideration for the services provided by our subsidiaries in China.

Because of these contractual arrangements, we are the primary beneficiary of our consolidated affiliated entities and have consolidated them into our consolidated financial statements. If we, our PRC subsidiaries and consolidated affiliated entities are found to be in violation of any existing or future PRC laws or regulations, or fail to obtain or maintain any of the required permits or approvals, the relevant PRC regulatory authorities, including the CIRC, will have broad discretion in dealing with such violations, including:

- revoking the business and operating licenses of our PRC subsidiaries and consolidated affiliated entities;
- restricting or prohibiting any related-party transactions among our PRC subsidiaries and consolidated affiliated entities;
- imposing fines or other requirements with which we, our PRC subsidiaries or our consolidated affiliated entities may not be able to comply;
- requiring us, our PRC subsidiaries or our consolidated affiliated entities to restructure the relevant ownership structure or operations; or
- restricting or prohibiting us from providing additional funding for our business and operations in China.

Any of these or similar actions could cause disruptions to our business, as well as reduce our revenues, profitability and cash flows. In addition, if any of these actions results in our inability to direct the activities of our consolidated affiliated entities and their subsidiaries that most significantly impact their economic performance, and/or such actions prevent us from receiving the economic benefits from our consolidated variable interest entities, we may not be able to consolidate the financial results of these variable interest entities into our consolidated financial statements in accordance with U.S. GAAP.

In January 2015, the Ministry of Commerce, or the MOC, published a draft of the proposed Foreign Investment Law, which expands the definition of foreign investment and introduces the principle of “actual control” in determining whether a company is considered a foreign-invested enterprise, or an FIE. The draft Foreign Investment Law specifically provides that entities established in China but “controlled” by foreign investors will be treated as FIEs, whereas an entity set up in a foreign jurisdiction would nonetheless be, upon market entry clearance by the MOC, treated as a PRC domestic investor provided that the entity is “controlled” by PRC entities and/or citizens. In this connection, “control” is broadly defined in the draft law to cover the following summarized categories: (i) holding 50% or more of the voting rights of the subject entity; (ii) holding less than 50% of the voting rights of the subject entity but having the power to secure at least 50% of the seats on the board or other equivalent decision making bodies, or having the voting power to exert material influence on the board, the shareholders’ meeting or other equivalent decision making bodies; or (iii) having the power to exert decisive influence, via contractual or trust arrangements, over the subject entity’s operations, financial matters or other key aspects of business operations. Once an entity is determined to be an FIE, it will be subject to the foreign investment restrictions or prohibitions set forth in a “negative list,” to be separately issued by the State Council later, if the FIE is engaged in the industry listed in the negative list. Unless the underlying business of the FIE falls within the negative list, which calls for market entry clearance by the MOC, prior approval from the government authorities as mandated by the existing foreign investment legal regime would no longer be required for establishment of the FIE.

There is substantial uncertainty regarding the draft Foreign Investment Law, including, the content of its final form and the timing of its adoption and implementation. It is uncertain whether the internet industry or online operation,

in which our variable interest entities operate, will be subject to the foreign investment restrictions or prohibitions set forth in the “negative list” to be issued. If the enacted version of the Foreign Investment Law and the final “negative list” mandate further actions, such as MOC market entry clearance, to be completed by companies with existing VIE structure like us, we face uncertainties as to whether such clearance can be timely obtained, or at all.

We rely on contractual arrangements with our consolidated affiliated entities and their shareholders to conduct part of our China operations, which may not be as effective in providing operational control as direct ownership.

Although we have obtained full ownership in Meidiya Investment Co. Ltd., and its subsidiaries, the organizational restructuring is still an ongoing process and we have relied and expect to continue to rely on contractual arrangements with our PRC consolidated affiliated entities and individual shareholders to operate part of our business in China. For a description of these contractual arrangements, see “Item 4. Information on the Company — C.Organizational Structure.” These contractual arrangements may not be as effective in providing us with control over our consolidated affiliated entities as direct ownership.

If we had direct controlling ownership of our consolidated affiliated entities, we would be able to exercise our rights as a controlling shareholder to effect changes in the board of directors of these entities, which in turn could effect changes, subject to any applicable fiduciary obligations, at the management level. But under the current contractual arrangements, as a legal matter, if our consolidated affiliated entities and their shareholders fails to perform their obligations under these contractual arrangements, we may have to incur substantial costs and expend significant resources to enforce such arrangements and rely on legal remedies under PRC law, including seeking specific performance or injunctive relief and claiming damages, which may not be effective. For example, if the shareholders of our consolidated affiliated entities were to refuse to transfer their equity interest in such entities to us or our designee when we exercise the call option pursuant to these contractual arrangements, or if they were otherwise to act in bad faith toward us, then we may have to take legal action to compel them to fulfill their contractual obligations.

All of our contractual arrangements with our consolidated affiliated entities and their individual shareholders are governed by PRC law and provide for the resolution of disputes through arbitration in the PRC. Accordingly, these contracts would be interpreted in accordance with PRC law and any disputes would be resolved in accordance with PRC legal procedures. The legal environment in the PRC is not as developed as in some other jurisdictions, such as the United States. As a result, uncertainties in the PRC legal system could limit our ability to enforce these contractual arrangements. In the event we are unable to enforce these contractual arrangements, we may not be able to exert effective control over our consolidated affiliated entities, and our ability to conduct our business may be negatively affected.

The individual shareholders of Yihe Investment, Xinbao Investment and Dianliang Information, our consolidated affiliated entities, may have potential conflicts of interest with us, which may materially and adversely affect our business and financial condition.

As of March 31, 2015, Mr. Qiuping Lai and Mr. Peng Ge together held 80% in Yihe Investment, Mr. Chunlin Wang and Mr. Yuan Tian together held 100% of the equity interest in Xinbao Investment, and Mr. Rannuo Hu, held 100% of the equity interest in Dianliang Information. Conflicts of interest may arise between the dual roles of Mr. Qiuping Lai, Mr. Peng Ge, Mr. Chunlin Wang, Mr. Yuan Tian and Mr. Rannuo Hu as a shareholder of our consolidated affiliated entities and as an executive officer or employee of our company. We do not have existing arrangements to address these potential conflicts of interest and cannot assure you that when conflicts arise, those individuals will act in the best interest of our company or that conflicts will be resolved in our favor.

Contractual arrangements we have entered into with our consolidated affiliated entities may be subject to scrutiny by the PRC tax authorities. A finding that we owe additional taxes could substantially reduce our consolidated net income and the value of your investment.

Under PRC laws and regulations, arrangements and transactions among related parties may be subject to audit or challenge by the PRC tax authorities. We could face material and adverse tax consequences if the PRC tax authorities determine that the contractual arrangements between us and our consolidated affiliated entities are not on an arm’s-length basis and adjust the income of our consolidated affiliated entities in the form of a transfer pricing adjustment. Particularly, the State Administration of Taxation issued a Public Notice, or Public Notice 16, on March 18, 2015, to further regulate and strengthen the transfer pricing administration on outbound payments by a PRC enterprise to its overseas related parties. In addition to emphasizing that outbound payments by a PRC enterprise to its overseas related parties must comply with arm’s-length principles, Public Notice 16 specifies certain

circumstances whereby such payments are not deductible for the purpose of the enterprise income tax of the PRC enterprise, including payments to an overseas related party which does not undertake any function, bear any risk or has no substantial operation or activities, payments for services which do not enable the PRC enterprise to obtain direct or indirect economic benefits, or for services that are unrelated to the functions and risks borne by the PRC enterprise, or relate to the protection of the investment interests of the direct or indirect investor of the PRC enterprise, or for services that have already been purchased from a third party or undertaken by the PRC enterprise itself, and royalties paid to an overseas related party which only owns the legal rights of the intangible assets but has no contribution to the creation of such intangible assets. Although we believe all our related party transactions, including all payments by our PRC subsidiaries and consolidated affiliated entities to our non-PRC entities, are made on an arm's-length basis and our estimates are reasonable, the ultimate decisions by the relevant tax authorities may differ from the amounts recorded in our financial statements and may materially affect our financial results in the period or periods for which such determination is made. A transfer pricing adjustment could, among other things, result in a reduction, for PRC tax purposes, of expense deductions recorded by our consolidated affiliated entities, which could in turn increase their respective tax liabilities. Moreover, the PRC tax authorities may impose penalties on our consolidated affiliated entities for underpayment of taxes. Our consolidated net income may be materially and adversely affected by the occurrence of any of the foregoing.

PRC regulation of loans and direct investment by offshore holding companies to PRC entities may delay or prevent us from making loans to our PRC subsidiaries and consolidated affiliated entities or making additional capital contributions to our PRC subsidiaries, which could materially and adversely affect our liquidity and our ability to fund and expand our business.

We are an offshore holding company conducting our operations in China through PRC subsidiaries and consolidated affiliated entities. In order to provide additional funding to our PRC subsidiaries and consolidated affiliated entities, we may make loans to our PRC subsidiaries and consolidated affiliated entities, or we may make additional capital contributions to our PRC subsidiaries.

Any loans we make to any of our directly-held PRC subsidiaries (which are treated as foreign-invested enterprises under PRC law), CNinsure Zhonglian Enterprise Image Planning (Shenzhen) Co., Ltd. (also known as Fanhua Zhonglian Enterprise Image Planning (Shenzhen) Co., Ltd.), or Zhonglian Enterprise, CNinsure Xinlian Information Technology Consulting (Shenzhen) Co., Ltd. (also known as Fanhua Xinlian Information Technology Consulting (Shenzhen) Co., Ltd.), or Xinlian Information, and Bao Si Kang Information Technology (Shenzhen) Co., Ltd., or Bao Si Kang Information, cannot exceed statutory limits and must be registered with the State Administration of Foreign Exchange, or the SAFE, or its local counterparts. Under applicable PRC law, the Chinese regulators must approve the amount of a foreign-invested enterprise's registered capital, which represents shareholders' equity investments over a defined period of time, and the foreign-invested enterprise's total investment, which represents the total of the company's registered capital plus permitted loans. The registered capital/total investment ratio cannot be lower than the minimum statutory requirement and the excess of the total investment over the registered capital represents the maximum amount of borrowings that a foreign-invested enterprise is permitted to have under PRC law. Our directly-held PRC subsidiaries were allowed to incur a total of HK\$300 million (US\$48.4 million) in foreign debts as of March 31, 2015. If we were to provide loans to our directly-held PRC subsidiaries in excess of the above amount, we would have to apply to the relevant government authorities for an increase in their permitted total investment amounts. The various applications could be time-consuming and their outcomes would be uncertain. Concurrently with the loans, we might have to make capital contributions to these subsidiaries in order to maintain the statutory minimum registered capital/total investment ratio, and such capital contributions involve uncertainties of their own, as discussed below. Furthermore, even if we make loans to our directly-held PRC subsidiaries that do not exceed their current maximum amount of borrowings, we will have to register each loan with the SAFE or its local counterpart within 15 days after the signing of the relevant loan agreement. Subject to the conditions stipulated by the SAFE, the SAFE or its local counterpart will issue a registration certificate of foreign debts to us within 20 days after reviewing and accepting our application. In practice, it may take longer to complete such SAFE registration process.

Any loans we make to any of our indirectly-held PRC subsidiaries (those PRC subsidiaries which we hold indirectly through Zhonglian Enterprise, Xinlian Information and Bao Si Kang Information) or to any of our PRC consolidated affiliated entities, all of which are treated as PRC domestic companies rather than foreign-invested enterprises under PRC law, are also subject to various PRC regulations and approvals. Under applicable PRC regulations, medium- and long-term international commercial loans to PRC domestic companies are subject to approval by the National Development and Reform Commission. Short-term international commercial loans to PRC domestic companies are subject to the balance control system effected by the SAFE. Due to the above restrictions,

we are not likely to make loans to any of our indirectly-held PRC subsidiaries or to any of our consolidated affiliated entities.

Any capital contributions we make to our PRC subsidiaries, including directly-held and indirectly-held PRC subsidiaries, must be approved by the PRC Ministry of Commerce or its local counterparts, and registered with the SAFE or its local counterparts. Such applications and registrations could be time consuming and their outcomes would be uncertain.

We cannot assure you that we will be able to complete the necessary government registrations or obtain the necessary government approvals on a timely basis, if at all, with respect to future loans by us to our PRC subsidiaries or PRC consolidated affiliated entities, or with respect to future capital contributions by us to our PRC subsidiaries. If we fail to complete such registrations or obtain such approvals, our ability to capitalize or otherwise fund our PRC operations may be negatively affected, which could adversely and materially affect our liquidity and our ability to fund and expand our business.

On August 29, 2008, SAFE promulgated Circular 142, a notice regulating the conversion by a foreign-invested company of its capital contribution in foreign currency into RMB. The notice requires that the capital of a foreign-invested company settled in RMB converted from foreign currencies shall be used only for purposes within the business scope as approved by the authorities in charge of foreign investment or by other government authorities and as registered with the State Administration for Industry and Commerce and, unless set forth in the business scope or in other regulations, may not be used for equity investments within the PRC. In addition, SAFE strengthened its oversight of the flow and use of the capital of a foreign-invested company settled in RMB converted from foreign currencies. The use of such RMB capital may not be changed without SAFE's approval, and may not in any case be used to repay RMB loans if the proceeds of such loans have not been used. Violations of Circular 142 will result in severe penalties, including heavy fines. As a result, Circular 142 may significantly limit our ability to provide additional funding to our PRC subsidiaries and consolidated affiliated entities through our directly-held PRC subsidiaries in the PRC, which may adversely affect our ability to expand our business.

However, on March 30, 2015, SAFE promulgated Circular 19, a notice on reforming the administrative approach regarding the settlement of the foreign exchange capitals of foreign-invested enterprises, which will become effective on June 1, 2015. The new notice states that foreign-invested enterprises shall be allowed to settle their foreign exchange capitals on a discretionary basis. The discretionary settlement by a foreign-invested enterprise of its foreign exchange capital shall mean that the foreign-invested enterprise may, according to its actual business needs, settle with a bank the portion of the foreign exchange capital in its capital account for which the relevant foreign exchange bureau has confirmed monetary contribution rights and interests (or for which the bank has registered the account-crediting of monetary contribution). For the time being, foreign-invested enterprises are allowed to settle 100% of their foreign exchange capitals on a discretionary basis. The SAFE may adjust the foregoing percentage as appropriate according to balance of payments situations. As a result, Circular 19 will relax the limitation of our ability to provide additional funding to our PRC subsidiaries and consolidated affiliated entities through our directly-held PRC subsidiaries in the PRC.

Risks Related to Doing Business in China

Adverse changes in economic and political policies of the PRC government could have a material adverse effect on the overall economic growth of China, which could adversely affect our business.

Substantially all of our business operations are conducted in China. Accordingly, our results of operations, financial condition and prospects are subject to a significant degree to economic, political and legal developments in China. China's economy differs from the economies of most developed countries in many respects, including with respect to the amount of government involvement, level of development, growth rate, control of foreign exchange and allocation of resources. While the PRC economy has experienced significant growth in the past 30 years or so, growth has been uneven across different regions and among various economic sectors of China. The PRC government has implemented various measures to encourage economic development and guide the allocation of resources. While some of these measures benefit the overall PRC economy, they may also have a negative effect on us. For example, our financial condition and results of operations may be adversely affected by government control over capital investments or changes in tax regulations that are applicable to us.

Although the PRC government has implemented measures since the late 1970s emphasizing the utilization of market forces for economic reform, the reduction of state ownership of productive assets and the establishment of improved corporate governance in business enterprises, the PRC government still owns a substantial portion of

productive assets in China. In addition, the PRC government continues to play a significant role in regulating industry development by imposing industrial policies. The PRC government also exercises significant control over China's economic growth through the allocation of resources, controlling payment of foreign currency-denominated obligations, setting monetary policy and providing preferential treatment to particular industries or companies. Actions and policies of the PRC government could materially affect our ability to operate our business.

Uncertainties with respect to the PRC legal system could adversely affect us.

We conduct our business primarily through our subsidiaries and consolidated affiliated entities in China. Our operations in China are governed by PRC laws and regulations. Our subsidiaries are generally subject to laws and regulations applicable to foreign investments in China and, in particular, laws applicable to wholly foreign-owned enterprises. The PRC legal system is based on written statutes. Prior court decisions may be cited for reference but have limited precedential value.

Although since 1979, PRC legislation and regulations have significantly enhanced the protections afforded to various forms of foreign investments in China, China has not developed a fully integrated legal system, and recently enacted laws and regulations may not sufficiently cover all aspects of economic activities in China. In particular, because these laws and regulations are relatively new, and because of the limited volume of published decisions and their nonbinding nature, the interpretation and enforcement of these laws and regulations involve uncertainties. In addition, the PRC legal system is based in part on government policies and internal rules (some of which are not published on a timely basis or at all) that may have a retroactive effect. As a result, we may not be aware of our violation of these policies and rules until some time after the violation. In addition, any litigation in China may be protracted and result in substantial costs and diversion of resources and management attention.

Governmental control of currency conversion may affect the value of your investment.

The PRC government imposes controls on the convertibility of the RMB into foreign currencies and, in certain cases, the remittance of currency out of China. Under existing PRC foreign exchange regulations, payments of current account items, including profit distributions, interest payments and expenditures from trade-related transactions, can be made in foreign currencies without prior approval from the SAFE by complying with certain procedural requirements. But approval from appropriate government authorities is required where RMB is to be converted into foreign currency and remitted out of China to pay capital expenses such as the repayment of loans denominated in foreign currencies. The PRC government may also at its discretion restrict access in the future to foreign currencies for current account transactions. Under our current corporate structure, the primary source of our income at the holding company level is dividend payments from our PRC subsidiaries. Shortages in the availability of foreign currency may restrict the ability of our PRC subsidiaries and our consolidated affiliated entities to remit sufficient foreign currency to pay dividends or other payments to us, or otherwise satisfy their foreign currency denominated obligations. If the foreign exchange control system prevents us from obtaining sufficient foreign currency to satisfy our currency needs, we may not be able to pay dividends in foreign currencies to our shareholders, including holders of our ADSs.

The PRC Enterprise Income Tax Law may increase the enterprise income tax rate applicable to some of our PRC subsidiaries and consolidated affiliated entities, which could have a material adverse effect on our result of operations.

According to the PRC Enterprise Income Tax Law, or the EIT Law, which became effective on January 1, 2008, as further clarified by subsequent tax regulations implementing the EIT Law, foreign-invested enterprises and domestic enterprises are subject to enterprise income tax, or EIT, at a uniform rate of 25%, unless otherwise provided. Enterprises that were established and enjoyed preferential tax treatments before March 16, 2007 will continue to enjoy such preferential tax treatments in the following manners: (1) in the case of preferential tax rates, for a five-year transition period starting from January 1, 2008, during which the EIT rate of such enterprises will gradually increase to the uniform 25% EIT rate by January 1, 2012; or (2) in the case of preferential tax exemption or reduction with a specified term, until the expiration of such term. However, if such an enterprise has not enjoyed the preferential treatments yet because of its failure to make a profit, its term for preferential treatments will be deemed to start from 2008.

As a result of the implementation of the EIT Law, certain preferential tax treatments enjoyed by some of our consolidated affiliated entities expired on January 1, 2008. According to the EIT Law and related regulations, the preferential tax rates enjoyed by some of our PRC subsidiaries and consolidated affiliated entities incorporated in Shenzhen, a special economic zone, will gradually increase to the uniform 25% EIT rate during the five year

transition period. An increase in the EIT rates for those entities pursuant to the EIT Law could result in an increase in our effective tax rate, which could materially and adversely affect our results of operations.

Our global income or the dividends we receive from our PRC subsidiaries may be subject to PRC tax under the EIT Law, which could have a material adverse effect on our results of operations.

Under the EIT Law, an enterprise established outside of the PRC with “de facto management bodies” within the PRC is considered a resident enterprise and will be subject to the EIT at the rate of 25% on its worldwide income. The Implementation Rules of the EIT Law, or the Implementation Rules, define the term “de facto management bodies” as “establishments that carry out substantial and overall management and control over the manufacturing and business operations, personnel, accounting, properties, etc. of an enterprise.” If we are deemed a resident enterprise, we may be subject to the EIT at 25% on our global income, except that the dividends we receive from our PRC subsidiary will be exempt from the EIT. If we are considered a resident enterprise and earn income other than dividends from our PRC subsidiaries, a 25% EIT on our global income could significantly increase our tax burden and materially and adversely affect our cash flow and profitability.

We have been advised by our PRC counsel, Global Law Office, that pursuant to the EIT Law and the Implementation Rules, dividends payable by a foreign-invested enterprise in China to its foreign investors will be subject to a 10% withholding tax, unless any such foreign investor’s jurisdiction of incorporation has a tax treaty with China that provides for a different withholding arrangement. Pursuant to the Arrangement between the PRC and the Hong Kong Special Administrative Region on the Avoidance of Double Taxation and Prevention of Fiscal Evasion, or the Double Taxation Arrangement, which became effective on January 1, 2007, dividends from our PRC subsidiaries paid to us through our Hong Kong subsidiary InsCom HK Limited, in which we indirectly hold a 65.1% equity interest, may be subject to a withholding tax at a rate of 5%. The British Virgin Islands, where our wholly-owned subsidiary and the 100% shareholder of Zhonglian Enterprise and Xinlian Information is incorporated, does not have such a tax treaty with China. Under the EIT Law and the Implementation Rules, if we are regarded as a resident enterprise, the dividends we receive from our PRC subsidiaries will be exempt from the EIT. If, however, we are not regarded as a resident enterprise, our PRC subsidiaries will be required to pay a 5% or 10% withholding tax, as the case may be, for any dividends they pay to us. As a result, the amount of fund available to us to meet our cash requirements, including the payment of dividends to our shareholders and ADS holders, could be materially reduced.

Under the EIT Law, dividends payable by us and gains on the disposition of our shares or ADSs could be subject to PRC taxation.

We have been advised by our PRC counsel, Global Law Office, that because there remains uncertainty regarding the interpretation and implementation of the EIT Law and its Implementation Rules, it is uncertain whether any dividends to be distributed by us, if we are regarded as a PRC resident enterprise, to our non-PRC shareholders and ADS holders would be subject to any PRC withholding tax. If we are required under the EIT Law to withhold PRC income tax on our dividends payable to our non-PRC corporate shareholders and ADS holders, or if gains on the disposition of our shares or ADSs are subject to the PRC EIT, your investment in our ADSs or ordinary shares may be materially and adversely affected.

We rely principally on dividends and other distributions on equity paid by our subsidiaries to fund any cash and financing requirements we may have, and any limitation on the ability of our subsidiaries to make payments to us could have a material adverse effect on our ability to conduct our business.

We are a holding company, and we rely principally on dividends from our subsidiaries in China and service, license and other fees paid to our subsidiaries by our consolidated affiliated entities for our cash requirements, including any debt we may incur. Current PRC regulations permit our PRC subsidiaries to pay dividends to us only out of their accumulated profits, if any, determined in accordance with PRC accounting standards and regulations. In addition, each of our PRC subsidiaries is required to set aside at least 10% of its after-tax profits each year as reported in its PRC statutory financial statements, if any, to fund a statutory reserve until such reserve reaches 50% of its registered capital. In addition, each of our PRC subsidiaries that are considered foreign-invested enterprises is required to further set aside a portion of its after-tax profits as reported in its PRC statutory financial statements to fund the employee welfare fund at the discretion of its board. These reserves are not distributable as cash dividends. As of December 31, 2014, the total retained earnings of our PRC subsidiaries available for dividend distributions were RMB2.0 billion (US\$317.1 million). Furthermore, if our subsidiaries and consolidated affiliated entities in China incur debt on their own behalf in the future, the instruments governing the debt may restrict their ability to pay dividends or make other payments to us. In addition, the PRC tax authorities may require us to adjust our

taxable income under the contractual arrangements we currently have in place in a manner that would materially and adversely affect our subsidiaries' ability to pay dividends and other distributions to us. Any limitation on the ability of our subsidiaries and consolidated affiliated entities to distribute dividends or other payments to us could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our businesses, pay dividends, or otherwise fund and conduct our business.

PRC regulations relating to the establishment of offshore special purpose companies by PRC residents and employee stock options granted by overseas-listed companies may increase our administrative burden, restrict our overseas and cross-border investment activity, or otherwise adversely affect us. If our shareholders who are PRC residents, or our PRC employees who are granted or exercise stock options, fail to make any required registrations or filings under such regulations, we may be unable to distribute profits and may become subject to liability under PRC laws.

On October 21, 2005, the SAFE issued a Notice on Relevant Issues Concerning Foreign Exchange Administration for PRC Residents to Engage in Financing and Inbound Investment via Overseas Special Purpose Vehicles, generally known in China as SAFE Circular 75, requiring PRC residents to register with the local SAFE branch before establishing or controlling any company outside of China, referred to in the notice as an "offshore special purpose company," for the purpose of raising capital backed by assets or equities of PRC companies. PRC residents that are shareholders of offshore special purpose companies established before November 1, 2005 were required to register with the local SAFE branch before March 31, 2006. On July 4, 2014, the SAFE issued the Notice on the Administration of Foreign Exchange Involved in Overseas Investment, Financing and Return on Investment Conducted by PRC Residents via Special-Purpose Companies, or SAFE Circular 37, simultaneously repealing SAFE Circular 75. SAFE Circular 37 also requires PRC residents to register with relevant Foreign Exchange Bureau for foreign exchange registration of overseas investment before making contribution to a special purpose company, or SPC,

with legitimate holdings of domestic or overseas assets or interests. See "Item 4. Information on the Company — B. Business Overview — Regulation — Regulations on Foreign Exchange — Foreign Exchange Registration of Offshore Investment by PRC Residents."

We have requested our beneficial owners who to our knowledge are PRC residents to make the necessary applications, filings and amendments as required under SAFE Circular 37 and other related rules. We attempt to comply, and attempt to ensure that our beneficial owners who are subject to these rules comply with the relevant requirements. However, we cannot assure you that all of our beneficial owners who are PRC residents will comply with our request to make or obtain any applicable registrations or comply with other requirements under SAFE Circular 37 or other related rules. The failure of these beneficial owners to timely amend their SAFE registrations pursuant to SAFE Circular 37 or the failure of future beneficial owners of our company who are PRC residents to comply with the registration procedures set forth in SAFE Circular 37 may subject such beneficial owners to fines and legal sanctions and may also limit our ability to contribute capital into our PRC subsidiaries, limit our PRC subsidiaries' ability to distribute dividends to our company or otherwise adversely affect our business.

On December 25, 2006, the People's Bank of China, or the PBOC, promulgated the Measures for the Administration of Individual Foreign Exchange, and on January 5, 2007, the SAFE further promulgated implementation rules for those measures. We refer to these regulations collectively as the Individual Foreign Exchange Rules. The Individual Foreign Exchange Rules became effective on February 1, 2007. According to these regulations, PRC citizens who are granted shares or share options by a company listed on an overseas stock market according to its employee share option or share incentive plan are required, through the PRC subsidiary of such overseas listed company or any other qualified PRC agent, to register with the SAFE and to complete certain other procedures related to the share option or other share incentive plan. Foreign exchange income received from the sale of shares or dividends distributed by the overseas listed company may be remitted into a foreign currency account of such PRC citizen or be exchanged into Renminbi. Our PRC citizen employees who have been granted share options became subject to the Individual Foreign Exchange Rules upon the listing of our ADSs on the Nasdaq stock exchange.

On February 15, 2012, SAFE promulgated the Notice of the State Administration of Foreign Exchange on Issues Related to Foreign Exchange Administration in Domestic Individuals' Participation in Equity Incentive Plans of Companies Listed Abroad, or the No. 7 Notice, which supersedes the Operation Rules on Foreign Exchange Administration for Domestic Individuals Participating in Employee Stock Holding Plan or Stock Option Plan of Overseas-Listed Company, or the Stock Option Rule, in its entirety and immediately became effective upon circulation. According to the No. 7 Notice, domestic individuals, which include any directors, supervisors, senior

managerial personnel or other employees of a domestic company who are Chinese citizens (including citizens of Hong Kong, Macao and Taiwan) or foreign individuals who consecutively reside in the territory of RPC for one year, who participate in the same equity incentive plan of an overseas listed company shall, through the domestic companies they serve, collectively entrust a domestic agency to handle issues like foreign exchange registration, account opening, funds transfer and remittance, and entrust an overseas institution to handle issues like exercise of options, purchasing and sale of related stocks or equity, and funds transfer. As an overseas publicly listed company, we and our employees who have been granted stock options or any type of equity awards may be subject to the No. 7 Notice. If we or our employees who are subject to the No. 7 Notice fail to comply with these regulations, we may be subject to fines and legal sanctions. See “Item 4. Information on the Company — B. Business Overview — Regulation — Regulations on Foreign Exchange — SAFE Regulations on Employee Share Options.”

Fluctuation in the value of the RMB may have a material adverse effect on your investment.

The value of the RMB against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in political and economic conditions. On July 21, 2005, the PRC government changed its decade-old policy of pegging the value of the RMB to the U.S. dollar. Under the new policy, the PRC government allowed the RMB to appreciate by more than 20% against the U.S. dollar between July 2005 and July 2008. Between July 2008 and June 2010, this appreciation halted and the exchange rate between the RMB and the U.S. dollar remained within a narrow band. Since June 2010, the PRC government has allowed the RMB to appreciate slowly against the U.S. dollar again, though there have been periods when the U.S. dollar has appreciated against the Renminbi as well. It is difficult to predict how market forces or PRC or U.S. government policy may impact the exchange rate between the RMB and the U.S. dollar in the future.

Our revenues and costs are mostly denominated in the RMB, and a significant portion of our financial assets are also denominated in RMB. We rely entirely on dividends and other fees paid to us by our subsidiaries and consolidated affiliated entities in China. Any significant appreciation or depreciation of the RMB against the U.S. dollar may affect our cash flows, revenues, earnings and financial position, and the value of, and any dividends payable on, our ADSs in U.S. dollars. For example, a further appreciation of the RMB against the U.S. dollar would make any new RMB-denominated investments or expenditures more costly to us, to the extent that we need to convert U.S. dollars into RMB for such purposes. An appreciation of the RMB against the U.S. dollar would also result in foreign currency translation losses for financial reporting purposes when we translate our U.S. dollar denominated financial assets into the RMB, as the RMB is our reporting currency. Conversely, a significant depreciation of the RMB against the U.S. dollar may significantly reduce the U.S. dollar equivalent of our reported earnings, and may adversely affect the price of our ADSs.

The approval of the China Securities Regulatory Commission, or the CSRC, may have been required in connection with our initial public offering in October 2007 under a PRC regulation adopted in August 2006. Based on the advice of our PRC counsel, we did not seek CSRC’s approval for our initial public offering. Any requirement to obtain prior CSRC approval and a failure to obtain this approval, if required, could have a material adverse effect on our business, operating results, reputation and trading price of our ADSs.

On August 8, 2006, six PRC regulatory agencies, namely, the PRC Ministry of Commerce, the State Assets Supervision and Administration Commission, the State Administration for Taxation, the State Administration for Industry and Commerce, the CSRC and the SAFE, jointly adopted the Regulations on Mergers and Acquisitions of Domestic Enterprises by Foreign Investors, or the M&A Rule, which became effective on September 8, 2006 and was revised by the PRC Ministry of Commerce on June 22, 2009. These regulations purport, among other things, to require offshore special purpose vehicles, or SPVs, formed for overseas listing purposes and controlled by PRC companies or individuals to obtain the approval of the CSRC prior to publicly listing their securities on an overseas stock exchange. On September 21, 2006, the CSRC published a notice on its official website specifying documents and materials required to be submitted to it by SPVs seeking CSRC approval of their overseas listings.

At the time of our initial public offering in October 2007, while the application of the new regulations remained unclear, our then PRC counsel, Commerce & Finance Law Offices, advised us that, based on their understanding of the PRC laws and regulations effective at that time as well as the procedures announced on September 21, 2006:

- the CSRC had jurisdiction over our offering;
- the CSRC by then had not issued any definitive rule or interpretation concerning whether offerings like our initial public offering were subject to this new procedure; and

- despite the above, given that we had completed our inbound investment before September 8, 2006, the effective date of the M&A Rule, an application was not required under the M&A Rule to be submitted to the CSRC for its approval of the listing and trading of our ADSs on the Nasdaq Global Market, unless we were clearly required to do so by subsequent rules of the CSRC.

Our PRC counsel, Global Law Office, fundamentally identifies with the advice on the application of the new regulations given by our then PRC counsel, Commerce & Finance Law Offices at the time of our initial public offering. Based on advice of our PRC counsel, we did not seek CSRC's approval for our initial public offering. We, however, cannot assure you that the relevant PRC government agencies, including the CSRC, would have reached the same conclusion as our PRC counsel. If the CSRC or other PRC regulatory agencies subsequently determine that the CSRC's approval was required for our initial public offering, we may face sanctions by the CSRC or other PRC regulatory agencies. In such event, these regulatory agencies may impose fines and penalties on our operations in the PRC, limit our operating privileges in the PRC, or take other actions that could have a material adverse effect on our business, financial condition, results of operations, reputation and prospects, as well as the trading price of our ADSs.

The regulation discussed above could also make it more difficult for us to pursue growth through acquisitions.

The regulation discussed in the preceding risk factor also established additional procedures and requirements that could make merger and acquisition activities by foreign investors more time-consuming and complex, including requirements in some instances that the Ministry of Commerce be notified in advance of any change-of-control transaction in which a foreign investor takes control of a PRC domestic enterprise. To date, we have conducted our acquisitions in China exclusively through our PRC consolidated affiliated entities. In the future, we may grow our business in part by directly acquiring complementary businesses rather than through our PRC consolidated affiliated entities. Complying with the requirements of the new regulations to complete such transactions could be time consuming, and any required approval processes, including obtaining approval from the Ministry of Commerce, may prevent us from completing such transactions on a timely basis, or at all, which could affect our ability to expand our business or maintain our market share.

The PRC Labor Contract Law and its implementing rules may adversely affect our business and results of operations.

On June 29, 2007, the Standing Committee of the National People's Congress of China enacted the Labor Contract Law, which became effective on January 1, 2008. On September 18, 2008, the State Council adopted the implementing rules for the Labor Contract Law, which became effective upon adoption. On December 28, 2012, the Standing Committee of the National People's Congress of China promulgated the Decision on Revising the Labor Contract Law, which became effective on July 1, 2013. The Labor Contract Law and its implementing rules together with the aforesaid revising decision impose and will impose greater liabilities on employers and significantly affect the cost of an employer's decision to reduce its workforce. In the event that we decide to significantly reduce our workforce, the Labor Contract Law and its implementing rules together with the aforesaid revising decision could adversely affect our ability to effect these changes cost-effectively or in the manner we desire, which could lead to a negative impact on our business and results of operations.

Risks Related to Our ADSs

The market price for our ADSs may be volatile.

The market price for our ADSs may be volatile and subject to wide fluctuations in response to factors including the following:

- actual or anticipated fluctuations in our quarterly operating results;
- changes in financial estimates by securities research analysts;
- conditions in the Chinese insurance industry;
- changes in the economic performance or market valuations of other insurance intermediaries;

- announcements by us or our competitors of new products, acquisitions, strategic partnerships, joint ventures or capital commitments;
- addition or departure of key personnel;
- fluctuations of exchange rates between the RMB and U.S. dollar or other foreign currencies;
- potential litigation or administrative investigations;
- sales of additional ADSs; and
- general economic or political conditions in China and abroad.

In addition, the securities market has from time to time experienced significant price and volume fluctuations that are not related to the operating performance of particular companies. These market fluctuations may also materially and adversely affect the market price of our ADSs.

We may need additional capital, and the sale of additional ADSs or other equity securities could result in additional dilution to our shareholders.

We believe that our current cash and cash equivalents and anticipated cash flow from operations will be sufficient to meet our anticipated cash needs for the foreseeable future. We may, however, require additional cash resources due to changed business conditions or other future developments, including any investments or acquisitions we may decide to pursue. If these resources are insufficient to satisfy our cash requirements, we may seek to sell additional equity or debt securities or obtain a credit facility. The sale of additional equity securities could result in additional dilution to our shareholders. The incurrence of indebtedness would result in increased debt service obligations and could result in operating and financing covenants that would restrict our operations. We cannot assure you that financing will be available in amounts or on terms acceptable to us, if at all.

Substantial future sales of our ordinary shares or ADSs, or the perception that these sales could occur, could cause the price of our ADSs to decline.

Additional sales of our ADSs in the public market, or the perception that these sales could occur, could cause the market price of our ADSs to decline. If any existing shareholder or shareholders sell a substantial amount of ordinary shares in the form of ADSs, the market price of our ADSs could decline. In addition, we may issue additional ordinary shares as considerations for future acquisitions. If we do so, your ownership interests in our company would be diluted and this in turn could have an adverse effect on the price of our ADSs.

Our corporate actions are substantially controlled by our officers, directors and principal shareholders.

As of March 31, 2015, our executive officers, directors and principal shareholders beneficially owned approximately 47.2% of our outstanding shares. These shareholders could exert substantial influence over matters requiring approval by our shareholders, including electing directors and approving mergers or other business combination transactions, and they may not act in the best interests of other noncontrolling shareholders. This concentration of our share ownership also may discourage, delay or prevent a change in control of our company, which could deprive our shareholders of an opportunity to receive a premium for their shares as part of a sale of our company and might reduce the price of our ADSs. These actions may be taken even if they are opposed by our other shareholders.

You may not have the same voting rights as the holders of our ordinary shares and may not receive voting materials in time to be able to exercise your right to vote.

Except as described in this annual report and in the deposit agreement, holders of our ADSs will not be able to exercise voting rights attaching to the shares evidenced by our ADSs on an individual basis. Holders of ADSs may instruct the depositary to exercise the voting rights attaching to the shares represented by the ADSs. If no instructions are received by the depositary on or before a date established by the depositary, the depositary shall deem the holders to have instructed it to give a discretionary proxy to a person designated by us to exercise their voting rights. You may not receive voting materials in time to instruct the depositary to vote, and it is possible that

you, or persons who hold their ADSs through brokers, dealers or other third parties, will not have the opportunity to exercise a right to vote.

You may not be able to participate in rights offerings and may experience dilution of your holdings as a result.

We may from time to time distribute rights to our shareholders, including rights to acquire our securities. Under the deposit agreement for the ADSs, the depository will not offer those rights to ADS holders unless both the rights and the underlying securities to be distributed to ADS holders are either registered under the Securities Act of 1933 or exempt from registration under the Securities Act with respect to all holders of ADSs. We are under no obligation to file a registration statement with respect to any such rights or underlying securities or to endeavor to cause such a registration statement to be declared effective. In addition, we may not be able to take advantage of any exemptions from registration under the Securities Act. Accordingly, holders of our ADSs may be unable to participate in our rights offerings and may experience dilution in their holdings as a result.

You may be subject to limitations on transfer of your ADSs.

Your ADSs are transferable on the books of the depository. However, the depository may close its transfer books at any time or from time to time when it deems expedient in connection with the performance of its duties. In addition, the depository may refuse to deliver, transfer or register transfers of ADSs generally when our books or the books of the depository are closed, or at any time if we or the depository deem it advisable to do so because of any requirement of law or of any government or governmental body, or under any provision of the deposit agreement, or for any other reason.

You may face difficulties in protecting your interests, and your ability to protect your rights through the U.S. federal courts may be limited, because we are incorporated under Cayman Islands law, conduct substantially all of our operations in China and most of our directors and officers reside outside the United States. In addition, Cayman Islands securities laws provide significantly less protection to investors as compared to U.S. laws.

We are incorporated in the Cayman Islands, and conduct substantially all of our operations in China through our wholly owned subsidiaries and consolidated affiliated entities in China. Most of our directors and officers reside outside the United States and some or all of the assets of those persons are located outside of the United States. As a result, it may be difficult for you to effect service of process within the United States or elsewhere outside China upon these persons. It may also be difficult for you to enforce in U.S. courts judgments obtained in U.S. courts based on the civil liability provisions of the U.S. federal securities laws against us and our officers and directors, most of whom are not residents in the United States and some or all of whose assets are located outside of the United States. In addition, there is uncertainty as to whether the courts of the Cayman Islands or the PRC would recognize or enforce judgments of U.S. courts against us or our officers and directors predicated upon the civil liability provisions of the securities laws of the United States or any state. Our PRC counsel has advised us that China does not have treaties with the United States or many other countries providing for the reciprocal recognition and enforcement of judgment of courts. It is also uncertain whether the Cayman Islands or PRC courts would be competent to hear original actions brought in the Cayman Islands or the PRC against us or our officers and directors predicated upon the securities laws of the United States or any state.

Our corporate affairs are governed by our memorandum and articles of association and by the Companies Law (2013 Revision) and common law of the Cayman Islands. The rights of shareholders to take legal action against our directors, actions by noncontrolling shareholders and the fiduciary responsibilities of our directors to us under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as from English common law, which has persuasive, but not binding, authority on a court in the Cayman Islands. The rights of our shareholders and the fiduciary responsibilities of our directors under Cayman Islands law are not as clearly established as they would be under statutes or judicial precedents in the United States. In particular, because Cayman Islands law has no legislation specifically dedicated to the rights of investors in securities, and thus no statutorily defined private causes of action specific to investors in securities such as those found under the Securities Act or the Securities Exchange Act of 1934 in the United States, it provides significantly less protection to investors. In addition, Cayman Islands companies may not have standing to initiate a shareholder derivative action before the federal courts of the United States.

As a result of all of the above, our public shareholders may have more difficulty in protecting their interests through actions against our management, directors or controlling shareholders than would shareholders of a corporation incorporated in a jurisdiction in the United States.

Our auditor is not inspected fully by the Public Company Accounting Oversight Board, or PCAOB and, as such, you are deprived of the benefits of such inspection.

As an auditor of companies that are publicly traded in the United States and a firm registered with the PCAOB, Deloitte Touche Tohmatsu is required by the laws in the United States to undergo regular inspections by PCAOB to assess its compliance with the laws of the United States and the professional standards of the PCAOB. However, because we have substantial operations within the PRC, a jurisdiction where the PCAOB is currently unable to conduct inspections without the approval of the Chinese government authorities, our auditor is not currently inspected fully by the PCAOB.

Inspections of other auditors conducted by the PCAOB outside of China have at times identified deficiencies in those auditors' audit procedures and quality control procedures, which may be addressed as part of the inspection process to improve future audit quality. The lack of PCAOB inspections in China prevents the PCAOB from regularly evaluating our auditor's audits and its quality control procedures. As a result, shareholders may be deprived of the benefits of PCAOB inspections, and may lose confidence in our reported financial information and procedures and the quality of our financial statements.

If additional remedial measures are imposed on the "big four" PRC-based accounting firms, including our independent registered public accounting firm, in administrative proceedings brought by the SEC alleging the firms' failure to meet specific criteria set by the SEC, with respect to requests for the production of documents, we could be unable to timely file future financial statements in compliance with the requirements of the Securities Exchange Act of 1934, as amended, or the Exchange Act.

Starting in 2011 the Chinese affiliates of the "big four" accounting firms, (including our independent registered public accounting firm) were affected by a conflict between US and Chinese law. Specifically, for certain US listed companies operating and audited in mainland China, the SEC and the PCAOB sought to obtain from the Chinese firms access to their audit work papers and related documents. The firms were, however, advised and directed that under China law they could not respond directly to the US regulators on those requests, and that requests by foreign regulators for access to such papers in China had to be channeled through the CSRC.

In late 2012 this impasse led the SEC to commence administrative proceedings under Rule 102(e) of its Rules of Practice and also under the Sarbanes-Oxley Act of 2002 against the Chinese accounting firms, (including our independent registered public accounting firm). A first instance trial of the proceedings in July 2013 in the SEC's internal administrative court resulted in an adverse judgment against the firms. The administrative law judge proposed penalties on the firms including a temporary suspension of their right to practice before the SEC, although that proposed penalty did not take effect pending review by the Commissioners of the SEC. On February 6, 2015, before a review by the Commissioner had taken place, the firms reached a settlement with the SEC. Under the settlement, the SEC accepts that future requests by the SEC for the production of documents will normally be made to the CSRC. The firms will receive matching Section 106 requests, and are required to abide by a detailed set of procedures with respect to such requests, which in substance require them to facilitate production via the CSRC. If they fail to meet specified criteria, the SEC retains authority to impose a variety of additional remedial measures on the firms depending on the nature of the failure. Remedies for any future noncompliance could include, as appropriate, an automatic six-month bar on a single firm's performance of certain audit work, commencement of a new proceeding against a firm, or in extreme cases the resumption of the current proceeding against all four firms.

In the event that the SEC restarts the administrative proceedings, depending upon the final outcome, listed companies in the United States with major PRC operations may find it difficult or impossible to retain auditors in respect of their operations in the PRC, which could result in financial statements being determined to not be in compliance with the requirements of the Exchange Act, including possible delisting. Moreover, any negative news about any such future proceedings against these audit firms may cause investor uncertainty regarding China-based, United States-listed companies and the market price of our ADSs may be adversely affected.

If our independent registered public accounting firm were denied, even temporarily, the ability to practice before the SEC and we were unable to timely find another registered public accounting firm to audit and issue an opinion on our financial statements, our financial statements could be determined not to be in compliance with the requirements of the Exchange Act of 1934, as amended. Such a determination could ultimately lead to the delisting of our ordinary shares from the Nasdaq Global Market or deregistration from the SEC, or both, which would substantially reduce or effectively terminate the trading of our ADSs in the United States.

Our articles of association contain anti-takeover provisions that could have a material adverse effect on the rights of holders of our ordinary shares and ADSs.

Our articles of association contain provisions limiting the ability of others to acquire control of our company or cause us to enter into change-of-control transactions. These provisions could have the effect of depriving our shareholders of an opportunity to sell their shares at a premium over prevailing market prices by discouraging third parties from seeking to obtain control of our company in a tender offer or similar transaction. For example, our board of directors has the authority, without further action by our shareholders, to issue preferred shares in one or more series and to fix their designations, powers, preferences, privileges, and relative participating, optional or special rights and the qualifications, limitations or restrictions, including dividend rights, conversion rights, voting rights, terms of redemption and liquidation preferences, any or all of which may be greater than the rights associated with our ordinary shares, in the form of ADS or otherwise. Preferred shares could be issued quickly with terms calculated to delay or prevent a change in control of our company or make removal of management more difficult. If our board of directors decides to issue preferred shares, the price of our ADSs may fall and the voting and other rights of the holders of our ordinary shares and ADSs may be materially and adversely affected.

You may have to rely on price appreciation of our ADSs for any return on your investment.

Our board of directors has discretion as to whether to distribute dividends, subject to applicable laws. Even if our board of directors decides to declare and pay dividends, the timing, amount and form of future dividends, if any, will depend on, among other things, our future results of operations and cash flow, our capital requirements and surplus, the amount of distributions, if any, received by us from our subsidiaries, our financial condition, contractual restrictions and other factors deemed relevant by our board of directors. Accordingly, the return on your investment in our ADSs will likely depend entirely upon any future price appreciation of our ADSs. There is no guarantee that our ADSs will appreciate in value or even maintain the price at which you purchased the ADSs. You may not realize a return on your investment in our ADSs and you may even lose your entire investment in our ADSs.

We were a passive foreign investment company for the taxable year ended December 31, 2014, which could result in adverse United States federal income tax consequences to U.S. Holders of our ADSs or ordinary shares.

Based on the market price of our ADSs, the value of our assets, and the composition of our income and assets, we believe we were a “passive foreign investment company,” or PFIC, for U.S. federal income tax purposes for our taxable year ended December 31, 2014. In addition, it is likely that one or more of our subsidiaries were also PFICs for such year. A non-U.S. corporation will be a PFIC for any taxable year if either (1) at least 75% of its gross income for such year is passive income or (2) at least 50% of the value of its assets (based on an average of the quarterly values of the assets) during such year is attributable to assets that produce passive income or are held for the production of passive income. We must make a separate determination after the close of each taxable year as to whether we were a PFIC for that year. Because the value of our assets for purposes of the PFIC test will generally be determined by reference to the market price of our ADSs or ordinary shares, our PFIC status will depend in large part on the market price of the ADSs or ordinary shares, which may fluctuate significantly. Because we believe we were a PFIC for the taxable year ended December 31, 2014, certain adverse U.S. federal income tax consequences could apply to U.S. Holders (as defined in “Item 10. Additional Information — E. Taxation — U.S. Federal Income Taxation”) of our ADSs or ordinary shares with respect to any “excess distribution” received from us and any gain from a sale or other disposition of the ADSs or ordinary shares. See “Item 10. Additional Information — E. Taxation — U.S. Federal Income Taxation — Passive Foreign Investment Company.”

Item 4. Information on the Company

A. History and Development of the Company

Our founders, Mr. Yinan Hu and Mr. Qiuping Lai, formed two PRC companies, Guangzhou Nanyun Car Rental Services Co., Ltd. and Guangdong Nanfeng Automobile Association Co., Ltd., initially to provide automobile-related services, such as car rental and emergency services. In 1999, we began distributing automobile insurance products and automobile loans on an ancillary basis. In 2001, our founders transferred their interests in the two PRC companies to China United Financial Services Holdings Limited (then known as China Automobile Association Holdings Limited), or China United Financial Services, a British Virgin Islands company, as part of a series of transactions in which Cathay Capital Group, a private equity group, made an investment in China United Financial Services by subscribing for 40% of the equity interests.

We established two insurance agencies to distribute insurance products in Beijing and Guangdong in April and May 2002, respectively.

In June 2004, as part of its corporate restructuring to facilitate international fundraising, China United Financial Services incorporated CISG Holdings Ltd., or CISG Holdings, in the British Virgin Islands to be the holding company for its insurance agency and brokerage businesses. China United Financial Services transferred to CISG Holdings all of its rights and interests in four PRC insurance intermediary companies it then controlled. In September 2004, Cathay Capital Group subscribed for approximately 27.8% of the equity interests in CISG Holdings.

From June 2004 to December 2005, we expanded our operations by establishing eight insurance agencies and brokerages in Beijing, Sichuan and Guangdong.

In December 2005, an entity affiliated with CDH Growth Capital Holdings Company Limited, or CDH Growth Capital Holdings, a private equity firm, subscribed for approximately 26.4% of the equity interests in CISG Holdings, through CDH China Holdings Management Company Limited. In January 2015, CDH Growth Capital Holdings agreed to sell all of its equity interests in our company to certain members of our management.

We commenced our life insurance business by acquiring controlling interests in three insurance agencies in Sichuan, Hebei and Fujian in 2006. From 2006 to 2007, we further expanded our operations by establishing five insurance agencies and one insurance brokerage in Shandong, Hunan, Shenzhen, Shanghai, Fujian and Guangdong in 2006.

In anticipation of our initial public offering, we incorporated CNinsure Inc. in the Cayman Islands in April 2007. In July 2007, CNinsure Inc., on a 10,000-for-one basis, issued its ordinary shares to the then existing shareholders of CISG Holdings in exchange for all of the outstanding shares of CISG Holdings. After this restructuring transaction, CNinsure Inc. became the ultimate holding company of our group.

On October 31, 2007, we listed our ADSs on the Nasdaq Global Market under the symbol "CISG." We and certain selling shareholders of our company completed the initial public offering of 13,526,773 ADSs, each representing 20 ordinary shares, on November 5, 2007.

On July 14, 2010, we completed a follow-on public offering of 4,600,000 ADSs, each representing 20 ordinary shares.

Since 2008, we have further extended our distribution and service network by establishing six insurance agencies and acquiring controlling interests in 18 insurance intermediary companies (excluding Datong and its subsidiaries).

We have also further expanded our product and service portfolio. In 2008, we began offering claims adjusting services by acquiring controlling interests in four claims adjusting firms. In October 2009, we invested in CFSG to expand into the consumer financial services sector. In 2010, we acquired a majority equity interest in InsCom Holdings Limited, or InsCom Holdings, to build our e-commerce platform. In June 2010, we established an insurance brokerage business unit to expand our product offerings from retail to commercial lines. In 2012, we started to offer wealth management products to our customers on a referral basis, though for regulatory reasons we have temporarily discontinued such sales since 2014.

In April 2014, we established Dianliang Information, as the holding company for eHuzhu (www.ehuzhu.com), an online mutual aid platform that we launched in July 2014. In June 2014, we established Shenzhen Chetong Network Technology Co., Ltd., or Chetong Network, as the holding company for Chetong.net, an internet-based service platform for the insurance industry, which we launched in August 2014.

As of March 31, 2015, we, through our PRC subsidiaries and our consolidated affiliated entities, directly or indirectly, own majority interests of 37 insurance agencies, two insurance brokerage companies, four insurance claims adjusting firms, one online insurance marketplace, one online insurance service platform and one online mutual aid platform in the PRC. We also own a 20.6% equity interest in a financial services company and a 19.5% equity interest in a wealth management service company.

See "Item 4. Information on the Company-C. Organizational Structure" for more information on our corporate structure changes.

Our principal executive offices are located at 22/F, Yin Hai Building, No. 299 Yanjiang Zhong Road, Guangzhou, Guangdong 510110, People's Republic of China. Our telephone number at this address is +86-20-6122-2777. Our registered office is at the offices of Maples Corporate Services Limited, PO Box 309, Umland House, Grand Cayman, KY1-1104, Cayman Islands, or at such other place as our board of directors may from time to time decide. Our agent for service of process in the United States is CT Corporation System, located at 111 Eighth Avenue, New York, New York 10011.

Recent Acquisitions

In January 2015, we acquired the remaining 49% of the equity interest in Henan CNinsure Anlian Insurance Agency Co., Ltd. or Henan Anlian, for a total consideration of RMB68 million (US\$11.0 million), increasing our shareholdings in Henan Anlian from 51% to 100%.

In January 2015, we acquired an additional 36.5% of the equity interest in Hebei Fanlian Insurance Agency Co., Ltd. or Hebei Fanlian, for a total consideration consisting of RMB40 million (US\$6.4 million) in cash and 12.5% equity interest in the business of Hebei Branch of CNinsure Lianxing Insurance Sales Co., Ltd., increasing our shareholdings in Hebei Fanlian from 51% to 87.5%.

On April 30, 2014, we, through CNinsure Times Insurance & Sales Service Co., Ltd., or CNinsure Times, our wholly-owned subsidiary, acquired an additional 70% of the equity interest in Jiaxing Lianbao Insurance Agency Co., Ltd. or Jiaxing Lianbao, for a total consideration of RMB21 million (US\$3.4 million), increasing our shareholdings in Jiaxing Lianbao from 30% to 100%.

On April 30, 2014, we, through CNinsure Times, acquired 100% of the equity interest in Wenzhou Huilian Insurance Agency Co., Ltd., or Wenzhou Huilian, an insurance agency primarily engaged in the distribution of property and casualty insurance products to individuals, for a total consideration of RMB16 million (US\$2.6 million).

On April 30, 2014, we, through CNinsure Times, acquired 100% of the equity interest in Nanjing Yukai Insurance Agency Co., Ltd., or Nanjing Yukai, an insurance agency primarily engaged in the distribution of property and casualty insurance products to individuals, for a total consideration of RMB27 million (US\$4.4 million).

In July 2014, we also acquired an additional 90% of the equity interest in a claims adjusting firm at its book value of RMB4.2 million (US\$0.7 million) increasing our shareholdings in the claims adjusting firm from 10% to 100%, and 100% of the equity interest in a health management company for a nominal consideration of RMB1.0.

Capital Expenditure

Our capital expenditures have been used primarily to construct our online platforms, including CNpad, Chetong.net, Baoxian.com and eHuzhu, construct our operating platform, including our Core Business System and ERP-based financial and accounting system and to purchase automobiles and office equipment for newly established insurance intermediary companies. See "Item 5. Operating and Financial Review and Prospects – B. Liquidity and Capital Resources."

B. Business Overview

We are a leading independent online-to-offline financial services provider in China. Through our online platforms and offline sales and service network, we distribute to individual and institutional customers in China a wide variety of property, casualty and life insurance products underwritten by domestic and foreign insurance companies operating in China and provide insurance claims adjusting services, such as damage assessments, surveys, authentications and loss estimations. We also provide certain insurance and vehicle-related value-added services, such as 24-hour emergency services in select cities and assistance with claim settlement, to individuals and institutions.

We distribute insurance products to customers primarily through our sales agents and brokers, and provide claims adjustment services through our claims adjusters. With 66,859 sales agents, 26 brokers, 1,434 claims adjusters, 13,724 service representatives and 574 sales and service outlets as of March 31, 2015, our distribution and service network reaches 27 out of 34 provinces in China, including some of the most economically developed regions and affluent cities.

Technological developments and the growth of mobile internet access have significantly changed the way we operate our business. For instance, we develop and implement mobile applications for our sales agents, through which they can access a broad range of auto insurance and life insurance products from multiple insurance companies, and compare prices and purchase insurance products on their mobile devices for their clients.

We also operate an insurance marketplace, www.baoxian.com, which allows customers to directly compare and shop for hundreds of accident, health, travel and homeowner insurance products from dozens of insurance companies online.

In August 2014, we launched Chetong.net, an online service platform for the insurance industry. This online platform integrates auto and insurance service resources across the nation by using location-based services technology. As of March 31, 2015, this platform enables insurance companies to locate the nearest service representative from over 13,724 registered service representatives for various value-added services such as surveys, loss estimations, designated driving, repairing assistance and emergency assistance.

In July 2014, we launched eHuzhu, www.ehuzhu.com, a non-profit online mutual aid platform. eHuzhu provides low-cost alternative risk-protection programs on a mutual aid basis among program members. As of March 31, 2015, eHuzhu has attracted over 291,716 registered members.

We are compensated for our insurance agency, insurance brokerage and claims adjusting services primarily by commissions and fees paid by insurance companies, typically based on a percentage of the premium paid by the insured or a percentage of the amount recovered from insurance companies. Commission and fee rates generally depend on the type of insurance products, the particular insurance company and the region in which the products are sold.

As of March 31, 2015, we had one online insurance marketplace, one online insurance service platform and one online mutual aid platform, and 43 insurance intermediary companies in the PRC, of which 37 are insurance agencies including three with national operating licenses, two are insurance brokerages and four are insurance adjusting firms. We also own 20.6% of the equity interests in a financial service company which is primarily engaged in the origination and management of small loans made to individuals, loan repackaging, asset management-related services to financial institutions and mortgage agency services to individuals, as well as 19.5% of the equity interests in a wealth management service company.

The professional insurance intermediary sector in China is highly fragmented. We believe this offers substantial opportunities for further growth and consolidation. The proliferation of internet access also presents us with huge opportunities to directly reach out to a much broader customer base. We intend to take advantage of these opportunities to increase our market share by aggressively developing and promoting our online platforms, expanding our offline distribution and service network and broadening our product portfolio.

Segment Information

In the first quarter of 2014, we realigned our financial reporting structure to more accurately reflect our organizational structure and changing business mix. Under the realigned business structure, our business is divided into three major reporting operating segments: (1) insurance agency, (2) insurance brokerage, and (3) claims adjusting. The insurance agency segment provides a broad range of property and casualty and life insurance products to individual customers. The insurance brokerage segment primarily provides commercial lines of property and casualty insurance, group life insurance programs and risk management consulting services to businesses and reinsurance brokerage services to insurance companies. The claims adjusting segment provides claims adjusting services to insurance companies that choose to outsource some or all of their claims functions. Our businesses which fall outside of the three principal operating segments are classified as other services, which mainly include non-insurance related services such as the wealth management products we offered in 2012 and 2013.

Insurance Agency Segment

Our insurance agency segment accounted for 82.3%, 80.7% and 75.6% of our net revenues in 2012, 2013 and 2014, respectively. Revenue from this segment is derived from two broad categories of insurance products: (i) property and casualty insurance products, and (ii) life insurance products, both primarily focused on meeting the insurance needs of individuals. The insurance products we sell are underwritten by leading insurance companies in China.

Property and Casualty Insurance Products

Our main property and casualty insurance product is automobile insurance. In addition, we also offer individual accident insurance, travel insurance, disability income insurance, commercial property insurance, construction insurance products and other property and casualty products. The property and casualty insurance products we distribute to individual customers can be further classified into the following categories:

- *Automobile Insurance.* Automobile insurance is the largest segment of property and casualty insurance in the PRC in terms of gross written premiums. We distribute both standard automobile insurance policies and supplemental policies, which we refer to as riders. The standard automobile insurance policies we sell generally have a term of one year and cover damages caused to the insured vehicle by collision and other traffic accidents, falling or flying objects, fire, explosion and natural disasters. We also sell standard third-party liability insurance policies, which cover bodily injury and property damage caused by an accident involving an insured vehicle to a person not in the insured vehicle. The riders we distribute cover additional losses, such as liability to passengers, losses arising from vehicle theft and robbery, broken glass and vehicle body scratches.
- *Individual Accident Insurance.* The individual accident insurance products we distribute generally provide a guaranteed benefit during the coverage period, which usually is one year or a shorter period, in the event of death or disability of the insured as a result of an accident, or a reimbursement of medical expenses to the insured in connection with an accident. These products typically require only a single premium payment for each coverage period. Because most of the individual accident insurance products we distribute are underwritten by property and casualty insurance companies, we classify individual accident insurance products as property and casualty insurance products.
- *Travel Insurance.* The travel insurance products we distribute are short-term insurance providing guaranteed benefit in the event of death or disability and covering travel-related emergencies and losses, either within one's own country, or internationally. These products typically require only a single premium payment for each coverage period.
- *Disability Income Insurance.* The disability income insurance products we distribute generally have a term of one year and provide supplementary income before the insured can get back to their regular employment or for a specified period in the event of illness or disability. These products typically require only a single premium payment for each coverage period. Because most of the disability income insurance products we distribute are underwritten by property and casualty insurance companies, we classify them as property and casualty insurance products.
- *Commercial Property Insurance.* The commercial property insurance products we distribute include basic, comprehensive and all risk policies. Basic commercial property insurance policies generally cover damage to the insured property caused by fire, explosion and thunder and lightning. Comprehensive commercial property insurance policies generally cover damage to the insured property caused by fire, explosion and certain natural disasters. All risk commercial property insurance policies cover all causes of damage to the insured property not specifically excluded from the policies.
- *Homeowner Insurance.* The homeowner insurance products we distribute primarily cover the damage to the insured house, furniture and household electrical appliance caused by a number of standard risks such as fire, flood and explosion.

The property and casualty insurance products we distributed in 2014 were primarily underwritten by PICC P&C, CPIC, Ping An, Taiping and Alltrust.

Life Insurance Products

The life insurance products we distribute can be broadly classified into the categories set forth below. Due to constant product innovation by insurance companies, some of the insurance products we distribute combine features of one or more of the categories listed below:

- *Individual Whole Life Insurance.* The individual whole life insurance products we distribute provide insurance for the insured person's entire life in exchange for the periodic payment of fixed premiums over a pre-determined period, generally ranging from five to 20 years, or until the insured reaches a

certain age. The face amount of the policy or, for some policies, the face amount plus accumulated interest is paid upon the death of the insured.

- *Individual Term Life Insurance.* The individual term life insurance products we distribute provide insurance for the insured for a specified time period or until the attainment of a certain age, in return for the periodic payment of fixed premiums over a pre-determined period, generally ranging from five to 20 years. Term life insurance policies generally expire without value if the insured survives the coverage period.
- *Individual Endowment Life Insurance.* The individual endowment products we distribute generally provide insurance coverage for the insured for a specified time period and maturity benefits if the insured reaches a specified age, and provide to a beneficiary designated by the insured guaranteed benefits upon the death of the insured within the coverage period. In return, the insured makes periodic payment of premiums over a pre-determined period, generally ranging from five to 25 years.
- *Individual Education Annuity.* The individual annuity products we distribute are primarily education related products. They provide annual benefit payments after the insured attains a certain age, or for a fixed time period, and provide a lump payment at the end of the coverage period. In addition, the beneficiary designated in the annuity contract will receive guaranteed benefits upon the death of the insured during the coverage period. In return, the purchaser of the annuity products makes periodic payment of premiums during a pre-determined accumulation period.
- *Universal Insurance.* We distribute certain universal insurance products that provide not only insurance coverage but also a minimum guaranteed return on the amount the insured puts into an individual investment account. In return, the insured makes periodic payment of premiums over a pre-determined period, generally ranging from five to 25 years.
- *Participating Insurance.* The participating insurance products we distribute not only provide insurance coverage but also pay dividends generated from the profits of the insurance company providing the policy. The dividends are typically paid out on an annual basis over the life of the policy. In return, the insured makes periodic payment of premiums over a pre-determined period, generally ranging from five to 25 years.
- *Individual Health Insurance.* The individual health insurance products we distribute primarily consist of catastrophic health insurance products, which provide guaranteed benefits for specified serious illnesses and medical insurance, which provides conditional reimbursement for medical expenses during the coverage period. In return, the insured makes periodic payment of premiums over a pre-determined period.
- *Group Life Insurance.* We distribute several group life insurance products, including group health insurance. These group products generally have a policy period of one year and require a single premium payment.

In addition to the periodic premium payment schedules described above, most of the individual life insurance products we distribute also allow the insured to choose to make a single, lump-sum premium payment at the beginning of the policy term. If a periodic payment schedule is adopted by the insured, a life insurance policy can generate periodic payment of fixed premiums to the insurance company for a specified period of time. This means that once we sell a life insurance policy with a periodic premium payment schedule, we will be able to derive commission and fee income from that policy for an extended period of time, sometimes up to 25 years. Because of this attractive feature and the expected sustained growth of life insurance sales in China, we have focused significant resources since 2006 on developing our capability to distribute individual life insurance products with periodic payment schedules. We expect that sales of life insurance products will continue to become an important source of our revenue in the next several years. The life insurance products we distributed in 2014 were primarily underwritten by AVIVA-COFCO Life Insurance Co., Ltd., Taikang Life Insurance Co., Ltd., Great Wall Life Insurance Co., Ltd., Huaxia Life Insurance Co., Ltd., and Haikang Life Insurance Co., Ltd.

Insurance Brokerage Segment

Our insurance brokerage segment accounted for 3.1%, 3.6% and 10.8% of our net revenues in 2012, 2013 and 2014, respectively. Our insurance brokerage segment primarily markets and sells commercial lines of property and casualty insurance products, group life insurance products, liability insurance products and credit insurance products to corporate clients. This segment also offers risk management services to enterprises in various industries and reinsurance brokerage services to insurance companies. The insurance products that our insurance brokerage segment provides can be broadly classified into the categories set forth below.

- *Cargo Insurance.* The cargo insurance products we distribute cover damage to or loss of goods in transit by sea, land or air.
- *Hull Insurance.* The hull insurance products we distribute cover vessels against losses, liabilities and expenses caused by natural calamities, negligence of crew members and marine accidents, as well as collision liability.
- *Liability Insurance.* The liability insurance products we distribute are primarily product liability, employer's liability, public liability and professional liability insurance products. These products generally cover losses to third parties due to the misconduct or negligence of the insured party, but exclude losses due to fraud or the willful misconduct of the insured party.
- *Construction and Erection Insurance.* The construction and erection insurance products we distribute cover property damages and personal injury losses caused by natural disasters and accidents in connection with construction and erection projects in China and abroad.
- *Credit Insurance.* The credit insurance products we distribute are primarily trade credit insurance, which protects the account receivables of business entities from loss due to credit risk, and consumer credit insurance, which enables the borrower to ensure the repayment of a personal consumption loan in the event of the borrower's death, illness or disability, unemployment or other circumstances that may prevent him or her from earning income to service the debt.
- *Extended Warranty Insurance.* The extended warranty insurance products we distribute provide coverage for expenses associated with any repair or replacement of the sold items, such as an electrical appliance or auto vehicle, after the manufacturer's warranty has expired.
- *Bank Account Crime Insurance.* The bank account crime insurance products we distribute provide for the recovery of funds stolen from bank accounts.

As an insurance broker, we primarily place insurance programs for corporate clients with PICC P&C, China Life Property and Casualty Insurance Company Limited, Beibu Gulf Property and Casualty Insurance Company Limited, CPIC and China Coal Insurance Co., Ltd in 2014.

Claims Adjusting Segment

Total net revenues derived from our claims adjusting segment accounted for 13.7%, 14.9% and 13.6% of our total net revenue in 2012, 2013 and 2014, respectively. We offer the following insurance claims adjusting services:

- *Pre-underwriting Survey.* Before an insurance policy is sold, we conduct a survey of the item to be insured to assess its current value and help our clients determine the insurable value and the amount to be insured. We also help our clients assess the underwriting risk with respect to the item to be insured through surveys, appraisals and analysis.
- *Claims Adjusting.* When an accident involving the insured subject matter has occurred, we conduct an onsite survey to determine the cause of the accident and assess damage. We then determine the extent of the loss to the insured subject matter and prepare and submit a report to the insurance company summarizing our preliminary findings. Upon final conclusion of the case, we prepare and submit a detailed report to the insurance company setting forth details of the accident, cause of the loss, details of the loss, adjustment and determination of loss, an indemnity proposal and, where appropriate, a request for payment.

- *Disposal of Residual Value.* In the course of providing claims adjusting services, we also can appraise the residual value of the insured property and offer suggestions on the disposal of such property. Upon appointment by the insurance company, we handle the actual disposal of the insured property through auction, discounted sale, lease or other means.
- *Loading and Unloading Supervision.* Upon appointment by ship owners, shippers, consignees or insurance companies, we can monitor and record the loading and unloading processes of specific cargos.
- *Consulting Services.* We provide consulting services to both the insured and the insurance companies on risk assessment and management, disaster and damage prevention, investigation, and loss assessment.

We are compensated primarily by insurance companies for our claims adjusting services, which we provide on behalf of insurance companies. The fees we receive are calculated based on the types of insurance involved. For services provided in connection with property and casualty insurance (other than marine cargo insurance and automobile insurance), our fees are calculated as a percentage of the recovered amount from insurance companies plus travel expenses. For services provided in connection with marine cargo insurance, our fees are charged primarily on an hourly basis and, in some cases, as a percentage of the amount recovered from insurance companies. For automobile insurance, our fees are generally fixed on a per case basis and the amounts collected are based on the types of services provided. In some cases, our fees are charged based on the number of claim adjusters engaged in the adjusting service. We primarily provided claims adjusting services to Ping An, PICC P&C, CPIC, and Taiping and Dinghe Property Insurance Co., Ltd. in 2014.

As competition intensifies and the insurance market becomes more mature in China, we believe there will be a further division of labor in the insurance intermediary sector. We expect that more insurance companies will choose to outsource claims adjusting functions to professional service providers while they focus on the core aspects of their business, including product development and asset and risk management. We believe we are well-positioned to capture such outsourcing opportunities.

Other Services

Other services contributed 0.9%, 0.8% and nil of our total net revenue in 2012, 2013 and 2014, respectively, which mainly represented service fees derived from the referral of wealth management products to our insurance customers and the provision of IT services provided to a subsidiary of CFSG.

In conjunction with the sale of automobile insurance products, we provide our customers with a number of value-added services under our service slogan, “You take care of driving, and we’ll take care of the rest.” For example, we assist our customers with obtaining vehicle licenses and subsequent annual inspections. We maintain 24-hour service hotlines in most of our principal markets. When an accident involving an insured vehicle occurs within these markets, our service staff can arrive at the scene quickly after being notified through the 24-hour service hotline and provide onsite assistance to our customers. Fees derived from these services related to insurances products are recorded as net revenues from insurance agency business.

Seasonality

See “Item 5. Operating and Financial Review and Prospects — A. Operating Results — Factors Affecting Our Results of Operations — Seasonality.”

Distribution and Service Network and Marketing

We have an offline distribution and service network that, as of March 31, 2015, consisted of 37 insurance agencies, two insurance brokerages and four claims adjusting firms, with 574 sales and service outlets, 66,707 registered sales agents, 152 in-house sales representatives, 1,434 in-house claims adjusters and 26 in-house insurance brokers. Our distribution and service network covers 27 provinces and reaches some of the most economically developed regions and wealthiest cities in China, such as Beijing, Shanghai, Guangzhou and Shenzhen.

The following table sets forth additional information concerning our distribution and service network as of March 31, 2015, broken down by provinces:

Province	Number of Sales and Service Outlets	Number of Sales Agents	Number of In-house Sales Representatives	Number of In-house Adjustors	Number of In-house Brokers
Guangdong.....	94	11,908	117	233	—
Hebei.....	64	10,882	—	64	—

We market and sell personal lines of property and casualty insurance products and life insurance products to customers through both registered sales agents, who are not our employees, and our in-house sales representatives. We also market and sell accidental, health, travel and homeowner insurance products directly to customers through a website (www.baoxian.com). We market and sell insurance claims adjusting services primarily to insurance companies through our in-house professional claims adjustors and to non-affiliated service representatives through Chetong.net, our online service platform, by bidding for claims adjusting business contracts. We provide insurance brokerage services to customers through both our in-house brokers and non-affiliated independent brokers.

Customers

We sell automobile insurance, individual accident insurance and homeowner insurance products primarily to individual customers. We sell commercial property insurance, cargo insurance, hull insurance, liability insurance and construction insurance products to institutional customers. Customers for the life insurance products we distribute are primarily individuals under 50 years of age. Our customers for the claims adjusting services are primarily insurance companies. For the year ended December 31, 2014, no single customer of insurance products accounted for more than 1% of our net revenues.

As of December 31, 2014, we had accumulated approximately 4.7 million individual customers and 1.0 million institutional customers as compared to 3.6 million individual customers and 0.7 million institutional customers as of December 31, 2013. By providing certain value-added services to these customers at no additional charge, we seek to build a loyal customer base that generates referrals and cross-selling opportunities.

Insurance Company Partners

As of March 31, 2015, we had established business relationships with 76 insurance companies in the PRC. In the Chinese insurance market, local branches of insurance companies generally have the authority to enter into contracts in their own names with insurance intermediaries. Historically, we have entered into and maintained business relationships with insurance companies at the local level. That is, our insurance agencies, brokerages and claims adjusting firms enter into contracts with different local branches of an insurance company that are located within their respective regions. The termination of a business relationship between one of our insurance agencies, brokerages or claims adjusting firms and a local branch of an insurance company generally would have no significant impact on the business relationships between our other insurance agencies, brokerages and claims adjusting firms and the other branches of the same insurance company. Since 2007, we have also sought to establish business relationships with insurance companies at the corporate headquarters level in order to leverage the combined sales volumes of our various affiliated insurance agencies and brokerages located in different parts of the country. As of March 31, 2015, we had outstanding contracts with 17 life insurance companies and 31 property and casualty insurance companies at the corporate headquarters level for the distribution of insurance products and outsourcing of claims adjusting services.

Competition

A number of industry players are involved in the distribution of insurance products in the PRC. We compete for customers on the basis of product offerings, customer services and reputation. Because we primarily distribute individual insurance products, our principal competitors include:

- *Professional insurance intermediaries.* The professional insurance intermediary sector in China is highly fragmented, accounting for only 5.3% of the total insurance premiums generated in China in the first quarter of 2013, according to the latest Chinese Insurance Intermediary Market Report. Several insurance intermediary companies have received private equity or venture capital funding in recent years and are actively pursuing expansion. We believe that we can compete effectively with these insurance intermediary companies because we have a longer operating history, we have a strong and stable team of managers and sales professionals equipped with CNpad (our proprietary sales support workstation), we offer diversified products to our sales agents and clients, we have built a unified operating platform and we were the first to adopt mobile technology to distribute insurance products among professional insurance intermediaries in China. With increasing consolidation expected in the insurance intermediary sector in the coming years, we expect competition within this sector to intensify.
- *Insurance companies.* The distribution of individual life insurance products in China historically has been dominated by insurance companies, which usually use both in-house sales forces and exclusive sales agents to distribute their own products. In addition, in recent years several major insurance companies have increasingly used telemarketing and the internet to distribute auto insurance. We believe that we can compete effectively with insurance companies because we focus only on distribution and offer our customers a broad range of insurance products underwritten by multiple insurance companies.
- *Entities that offer insurance products online.* In recent years, domestic insurance companies, portal websites and professional insurance intermediaries have begun providing online information to consumers interested in purchasing insurance products. However, each of their insurance e-commerce operations has its own limitations. The insurance products offered on an insurance company's website are usually confined to those under its own brand. Most portal websites provide separate product information with little ability to compare among insurance plans. None of the professional insurance intermediaries that organize online product distribution has a nation-wide sales and service network to support after-sale service. We believe that we can compete effectively with these business entities because our independent online insurance marketplace offers a broad range of insurance products underwritten by multiple insurance companies, product comparisons between prices, services and policy benefits and good after-sale services that are backed by our call center and nation-wide service network.
- *Other business entities.* In recent years, business entities that distribute insurance products as an ancillary business, primarily commercial banks and postal offices, have been playing an increasingly important role in the distribution of insurance products, especially life insurance products. However, the insurance products distributed by these entities are mostly confined to those related to their main lines of business, such as investment-related life insurance products. We believe that we can compete effectively with these business entities because we offer our customers a broader variety of products.

In addition to individual insurance products, we also distribute commercial property and casualty insurance products. As a result, we also compete, to a lesser degree, with insurance intermediaries that focus on the distribution of commercial property and casualty insurance products, such as large insurance brokerages backed by state-owned enterprises and major international insurance brokerage companies that have entered the Chinese market, including Marsh & McLennan Companies, Inc., Aon Corporation and Willis Group Holdings Limited. However, those insurance brokerages backed by state-owned enterprises tend to dominantly rely on business from their shareholders or affiliates while the businesses of the international insurance brokerage companies in China, lacking localized operations, are usually confined to the extension of their global businesses. We believe that we can compete effectively with these business entities because our expertise and localized operations allow us to reach out to a broader customer base and better serve customers' needs. In addition, we can leverage our leading position in the distribution of individual insurance products and provision of property-related claims services, including our strong relationship with insurance companies, existing abundant customer resources and large distribution network, to rapidly develop our brokerage business.

We compete primarily with the other major claims adjusting firms in China, particularly Min Tai'an Insurance Surveyors & Loss Adjusters Co., Ltd., or Min Tai'an. We believe that we can compete effectively with Min Tai'an and other major insurance claims adjusting firms because we offer our customers a diversified range of claims adjusting services covering property insurance, automobile insurance and marine and cargo insurance and are able to leverage the business relationships we have developed with insurance companies through the distribution of property and casualty insurance products.

Intellectual Property

Our brand, trade names, trademarks, trade secrets and other intellectual property rights distinguish our business platform, services and products from those of our competitors and contribute to our competitive advantage in the professional insurance intermediary sector. To protect our intellectual property, we rely on a combination of trademark, copyright and trade secret laws as well as confidentiality agreements with our employees, sales agents, contractors and others. As of March 31, 2015, we had 19 registered trademarks in China, including our corporate logo. Our main website is www.cninsure.net.

Regulation

Regulations of the Insurance Industry

The insurance industry in the PRC is highly regulated. CIRC is the regulatory authority responsible for the supervision of the Chinese insurance industry. Insurance activities undertaken within the PRC are primarily governed by the Insurance Law and the related rules and regulations.

Initial Development of Regulatory Framework

The Chinese Insurance Law was enacted in 1995. The original insurance law, which we refer to as the 1995 Insurance Law, provided the initial framework for regulating the domestic insurance industry. Among the steps taken under the 1995 Insurance Law were the following:

- Licensing of insurance companies and insurance intermediaries, such as agencies and brokerages. The 1995 Insurance Law established requirements for minimum registered capital levels, form of organization, qualification of senior management and adequacy of the information systems for insurance companies and insurance agencies and brokerages.
- Separation of property and casualty insurance businesses and life insurance businesses. The 1995 Insurance Law classified insurance between property, casualty, liability and credit insurance businesses, on the one hand, and life, accident and health insurance businesses on the other, and prohibited insurance companies from engaging in both types of businesses.
- Regulation of market conduct by participants. The 1995 Insurance Law prohibited fraudulent and other unlawful conduct by insurance companies, agencies and brokerages.
- Substantive regulation of insurance products. The 1995 Insurance Law gave insurance regulators the authority to approve the basic policy terms and premium rates for major insurance products.

- Financial condition and performance of insurance companies. The 1995 Insurance Law established reserve and solvency standards for insurance companies, imposed restrictions on investment powers and established mandatory reinsurance requirements, and put in place a reporting regime to facilitate monitoring by insurance regulators.
- Supervisory and enforcement powers of the principal regulatory authority. The principal regulatory authority, then the PBOC, was given broad powers under the 1995 Insurance Law to regulate the insurance industry.

Establishment of the CIRC and 2002 Amendments to the Insurance Law

China's insurance regulatory regime was further strengthened with the establishment of the CIRC in 1998. The CIRC was given the mandate to implement reform in the insurance industry, minimize insolvency risk for Chinese insurers and promote the development of the insurance market.

The 1995 Insurance Law was significantly amended in 2002 and the amended insurance law, which we refer to as the 2002 Insurance Law, became effective on January 1, 2003. The major amendments to the 1995 Insurance Law include:

- Authorizing the CIRC to be the insurance supervisory and regulatory body nationwide. The 2002 Insurance Law expressly grants the CIRC the authority to supervise and administer the insurance industry nationwide.
- Expanding the permitted scope of business of property and casualty insurers. Under the 2002 Insurance Law, property and casualty insurance companies may engage in the short-term health insurance and accident insurance businesses upon the CIRC's approval.
- Providing additional guidelines for the relationship between insurance companies and insurance agents. The 2002 Insurance Law requires an insurance company to enter into an agent agreement with each insurance agent that will act as an agent for that insurance company. The agent agreement sets forth the rights and obligations of the parties to the agreement as well as other matters pursuant to law. An insurance company is responsible for the acts of its agents when the acts are within the scope authorized by the insurance company.
- Relaxing restrictions on the use of funds by insurance companies. Under the 2002 Insurance Law, an insurance company may use its funds to make equity investments in insurance-related enterprises, such as asset management companies.
- Allowing greater freedom for insurance companies to develop insurance products. The 2002 Insurance Law allowed insurance companies to set their own policy terms and premium rates, subject to the approval of, or a filing with, the CIRC.

2009 Amendments to the Insurance Law

The 2002 Insurance Law was amended again in 2009 and the amended insurance law, which we refer to as the 2009 Insurance Law, became effective on October 1, 2009. The major amendments to the 2009 Insurance Law include:

- Strengthening protection of the insured's interests. The 2009 Insurance Law added a variety of clauses such as incontestable clause, abstained and estoppels clause, common disaster clause and amending immunity clause, claims-settlement prescription clause, reasons for claims rejection and contract modification clause.
- Strengthening supervision on the qualification of the shareholders of the insurance companies and setting forth specific qualification requirements for the major shareholders, directors, supervisors and senior managers of insurance companies.
- Expanding the business scope of insurers and further relaxing restriction on the use of fund by insurers.

- Strengthening supervision on solvency of insurers with stricter measures.
- Tightening regulations governing the administration of insurance intermediary companies, especially those relating to behaviors of insurance agents.

According to the 2009 Insurance Law, the minimum registered capital required to establish an insurance agency or insurance brokerage as a company must comply with the PRC Company Law. The registered capital or the capital contribution of insurance agencies or insurance brokerages must be paid-up capital in cash. The 2009 Insurance Law also sets forth some specific qualification requirements for insurance agency and brokerage practitioners. The senior managers of insurance agencies or insurance brokerages must meet specific qualification requirements, and their appointments are subject to approval of the CIRC. Personnel of an insurance agency or insurance brokerage engaging in the sales of insurance products must meet the qualification requirements set by the CIRC and obtain a qualification certificate issued by the CIRC. Under the 2009 Insurance Law, the parties to an insurance transaction may engage insurance adjusting firms or other independent appraisal firms that are established in accordance with applicable laws, or persons who possess the requisite professional expertise, to conduct assessment and adjustment of the insured subject matters. Additionally, the 2009 Insurance Law specifies additional legal obligations for insurance agencies and brokerages.

2014 Amendments to the Insurance Law

The 2002 Insurance Law was amended again in 2014 and the amended insurance law, which we refer to as the 2014 Insurance Law, became effective on August 31, 2014. The major amendments to the 2014 Insurance Law include:

- Relaxing restrictions on actuaries. The 2014 Insurance Law no longer requires Insurance companies shall employ actuaries recognized by the insurance regulatory authority under the State Council. However, an insurance company shall also engage professionals, and establish an actuarial reporting system and a compliance reporting system as before.

The CIRC

The CIRC has extensive authority to supervise insurance companies and insurance intermediaries operating in the PRC, including the power to:

- promulgate regulations applicable to the Chinese insurance industry;
- investigate insurance companies and insurance intermediaries;
- establish investment regulations;
- approve policy terms and premium rates for certain insurance products;
- set the standards for measuring the financial soundness of insurance companies and insurance intermediaries;
- require insurance companies and insurance intermediaries to submit reports concerning their business operations and condition of assets;
- order the suspension of all or part of an insurance company or an insurance intermediary's business;
- approve the establishment, change and dissolution of an insurance company, an insurance intermediary or their branches;
- review and approve the appointment of senior managers of an insurance company, an insurance intermediary or their branches; and
- punish insurance companies or intermediaries for improper behaviors or misconducts.

Regulation of Insurance Agencies

The principal regulation governing insurance agencies is the Provisions on the Supervision of Professional Insurance Agencies promulgated by the CIRC on September 18, 2009 and effective on October 1, 2009, which replaced the Provisions on the Administration of Insurance Agencies issued by the CIRC on December 1, 2004 and effective on January 1, 2005. According to the regulation, the establishment of an insurance agency is subject to minimum registered capital requirement and other requirements and to the approval of the CIRC. The term “insurance agency” refers to an entity that meets the qualification requirements specified by the CIRC, has obtained the license to conduct an insurance agency business with the approval of the CIRC, engages in the insurance business by and within the authorization of, and which collects commissions from, insurance companies. An insurance agency may take any of the following forms: (i) a limited liability company; or (ii) a joint stock limited company. According to the CIRC’s Decision on Revising the Regulatory Provisions on Professional Insurance Agencies, or the Insurance Agency Decision, promulgated on April 27, 2013, unless otherwise stipulated by the CIRC, the minimum registered capital for establishing a new insurance agency is RMB50 million instead of RMB2 million for a regional insurance agency and RMB10 million for a nationwide insurance agency as previously required. An additional increase of registered capital is no longer required to establish a branch or sales office. Pursuant to the Notice of the CIRC on Further Clarifying Certain Issues Relating to the Access to the Professional Insurance Intermediary Market, a professional insurance agency that was established prior to the promulgation of the Insurance Agency Decision and has a registered capital of no more than RMB50 million may apply to establish branches only in the province in which it is registered. A professional insurance agency company that was established prior to the promulgation of the Insurance Agency Decision, has a registered capital of not more than RMB50 million and has already established branches in provinces other than its place of registration may apply to establish additional branches in those provinces. An insurance agency may engage in the following insurance agency businesses:

- selling insurance products on behalf of the insurance companies;
- collecting insurance premiums on behalf of the insurance companies;
- conducting loss surveys and handling claims of insurance businesses on behalf of the insurer principal; and
- other business activities approved by the CIRC.

The name of an insurance agency must contain the words “insurance agency” or “insurance sales.” The license of an insurance agency is valid for a period of three years. Division of or merger with an insurance agency or change of organizational form thereof shall be subject to approval by the CIRC. An insurance agency shall submit a written report to the CIRC for approval within five days from the date of occurrence of any of the following matters:(i) change of name or a branch’s name;(ii) change of domicile or a branch’s business premises;(iii) change of names of sponsors or major shareholders;(iv) change of major shareholders;(v) change of registered capital;(vi) major changes to equity structure;(vii) amendment to the articles of association; or (viii) divestment of a branch. According to the Measures on the Supervision and Administration of Insurance Brokers and Insurance Claims Adjustors issued by the CIRC in January 2013, personnel of an insurance agency and its branches engaging in the sales of insurance products or relevant loss survey and claim settlement shall comply with the conditions prescribed by the CIRC and possess the “Qualification Certificate” required by the CIRC. The senior managers of an insurance agency or its branches must meet specific qualification requirements set forth in the revised Regulatory Provisions on Professional Insurance Agencies. The appointment of the senior managers of an insurance agency or its branches is subject to review and approval of the CIRC.

Regulation of Insurance Brokerages

The principal regulation governing insurance brokerages is the Regulatory Provisions on Insurance Brokerages promulgated by the CIRC on September 18, 2009 and effective on October 1, 2009, which replaced the Provisions on the Administration of Insurance Brokerages issued by the CIRC on December 15, 2004 and effective on January 1, 2005. According to this regulation, the establishment of an insurance brokerage is subject to the approval of the CIRC. The term “insurance brokerage” refers to an entity engaging in the insurance brokering business that meets the qualification requirements specified by the CIRC and has obtained the license to operate an insurance brokering business with the approval of the CIRC. Insurance brokering business includes both direct insurance brokering, which refers to brokering activities on behalf of insurance applicants or the insured in their dealings with the insurance companies, and reinsurance brokering, which refers to brokering activities on behalf of insurance

companies in their dealings with reinsurance companies. An insurance brokerage may take any of the following forms: (i) a limited liability company; or (ii) a joint stock limited company. According to the Decision on Revising the Regulatory Provisions on the Supervision of Insurance Brokerages, or the Insurance Brokerage Decision, promulgated on April 27, 2013, unless otherwise stipulated by the CIRC, the minimum registered capital for establishing a new insurance brokerage is RMB50 million instead of RMB10 million as previously required. An additional increase of registered capital is no longer required for establishing a branch or sales office. Pursuant to the Notice of the CIRC on Further Clarifying Certain Issues Relating to the Access for Professional Insurance Intermediary Companies Market, a professional insurance brokerage company that was established prior to the promulgation of the Insurance Brokerage Decision and has a registered capital of no more than RMB50 million may apply to establish branches only in the province in which it is registered. A professional insurance brokerage company that was established prior to the promulgation of the Insurance Brokerage Decision, has a registered capital of not more than RMB50 million and has already established branches in provinces other than its place of registration may apply to establish additional branches in those provinces. Insurance brokerage companies that provide internet insurance services must have a registered capital of not less than RMB50 million, unless they were already engaged in internet insurance services prior to the promulgation of the Insurance Brokerages Decision.

An insurance brokerage may conduct the following insurance brokering businesses:

- making insurance proposals, selecting insurance companies and handling the insurance application procedures for the insurance applicants;
- assisting the insured or the beneficiary to claim compensation;
- reinsurance brokering business;
- providing consulting services to clients with respect to disaster and damage prevention, risk assessment and risk management; and
- other business activities approved by the CIRC.

The name of an insurance brokerage must contain the words “insurance brokerage.” The license of an insurance brokerage is valid for a period of three years. Division of or merger with an insurance brokerage or change of organizational form thereof shall be subject to approval by the CIRC. An insurance brokerage shall submit a written report to the CIRC within five days from the date of occurrence of any of the following matters: (i) change of name or a branch’s name; (ii) change of domicile or a branch's business premises; (iii) change of names of sponsors or major shareholders; (iv) change of major shareholders; (v) change of registered capital; (vi) major changes to equity structure; (vii) amendment to the articles of association; or (viii) divestment of a branch. Personnel of an insurance brokerage and its branches who engage in any of the insurance brokering businesses described above must comply with the qualification requirements prescribed by the CIRC and obtain a qualification certificate for insurance brokering practitioners. The senior managers of an insurance brokerage must meet specific qualification requirements set forth in the Provisions on the Supervision of Insurance Brokerages. Appointment of the senior managers of an insurance brokerage is subject to review and approval by the CIRC.

Regulation of Insurance Claims Adjusting Firms

The principal regulations governing insurance adjusting firms are the Regulatory Provisions on Insurance Claims Adjusting Firms issued by the CIRC on September 18, 2009 and effective on October 1, 2009, which replaced the Provisions on the Administration of Insurance Claims Adjusting Firms promulgated on November 16, 2001 and effective on January 1, 2002, and the Decision on Revising the Regulatory Provisions on Insurance Claims Adjusting Firms issued by the CIRC on September 29, 2013 and effective on December 1, 2013. According to the regulation, the term “insurance adjusting firm” refers to an entity that is established in accordance with applicable laws and regulations and with the approval of the CIRC and engages in the assessment, survey, authentication, loss estimation and adjustment of the insured subject matters upon the entrustment of the parties concerned. An insurance adjusting firm may take any of the following forms: (i) a limited liability company; (ii) a joint stock limited company; or (iii) a partnership. An insurance adjusting firm must have a registered capital or capital contribution of at least RMB2 million. The registered capital must be paid up in cash.

Upon approval of the CIRC, an insurance adjusting firm may engage in the following businesses:

- inspecting, appraising the value of and assessing the risks of the subject matter before it is insured;
- surveying, inspecting, estimating the loss of and adjusting the insured subject matter after loss has been incurred;
- risk management consulting; and
- other business activities approved by the CIRC.

The name of an insurance adjusting firm must contain the words “insurance adjusting” and must avoid duplicating names of existing insurance claims adjusting firms. The license of an insurance adjusting firm is valid for a period of three years. In any of the following situations, an insurance adjusting firm shall submit a written report to the CIRC for approval when it within five days from the date the resolution for change has been passed: (i) change of name or a branch’s name; (ii) change of domicile or a branch's business premises; (iii) change of names of sponsor, major shareholders or capital contributors; (iv) change of major shareholders or capital contributors; (v) major changes to the equity structure or the proportion of capital contributions; (vi) change of registered capital or capital contributions; (vii) amendment to the articles of association or the partnership agreement; (viii) division, merger and dissolution or any change in the form of organization; or (ix) divestment of a branch. Personnel of an insurance adjusting firm or its branches engaged in any of the insurance adjusting businesses described above comply with the qualification requirements prescribed by the CIRC and obtain a qualification certificate for insurance adjusting practitioners. The senior managers of an insurance adjusting firm must meet specific qualification requirements set forth in the Provisions on the Supervision of Insurance Adjusting Firms. Appointment of the senior managers of an insurance adjusting firm or its branches is subject to review and approval by the CIRC.

Regulation of Ancillary-Business Insurance Agencies

The principal regulation governing ancillary-business insurance agencies is the Interim Measures on the Administration of Ancillary-Business Insurance Agency issued by the CIRC on and effective as of August 4, 2000. The term “ancillary-business insurance agencies” refer to entities that are engaged by insurers to handle insurance business on behalf of insurers while concurrently engaging in another non-insurance-related business. Ancillary-business insurance agencies must meet the qualifications requirements set forth in this regulation. Upon reviewing and approving the qualifications of an entity applying to become an ancillary-business insurance agency, the CIRC will issue a “License for Ancillary-Business Insurance Agency,” which will be valid for three years. An ancillary-business insurance agency may only undertake insurance business on behalf of one insurance company, and the scope of the undertaken business is limited to the scope specified in the License for Ancillary- Business Insurance Agency.

Regulation of Insurance Salespersons

The principal regulation governing individual insurance salespersons is the Measures on the Supervision and Administration of Insurance Salespersons issued by the CIRC on January 6, 2013 and effective on July 1, 2013, which replaced the Provisions on the Administration of Insurance Salespersons promulgated on April 6, 2006 and effective on July 1, 2006. Under this regulation, the term “insurance salesperson” refers to an individual who sells insurance products for an insurance company, including those who are engaged by insurance companies or by insurance agencies. In order to engage in insurance sales activities as an insurance salesperson, a person first must pass the qualification examination organized by the CIRC to obtain a “Qualification Certificate.” The person must have a college degree or above to be qualified for the examination. In addition to the qualification certificate, a person must be registered with the CIRC’s Insurance Intermediaries Regulatory Information System and obtain a “Practice Certificate of Insurance Salespersons” issued by the insurance company or insurance agency to which he or she belongs in order to conduct insurance sales activities.

Regulation of Insurance Brokers and Insurance Adjustors

The principal regulation governing insurance brokerage practitioners and insurance adjustment practitioners is the Measures on the Supervision and Administration of Insurance Brokers and Insurance Claims Adjustors issued by the CIRC on January 6, 2013 and effective on July 1, 2013. In order to engage in the insurance brokerage activities as an insurance brokers, or to engage in the insurance adjustment activities as an claims adjustors, a person first must pass the qualification examination organized by the CIRC for the insurance brokers or for the insurance claims adjustors to obtain a “Qualification Certificate of Insurance Brokers” or a “Qualification Certificate of

Claims Adjustors.” The person must have a college degree or above to be qualified for the examination. In addition to the qualification certificate, a person also must be registered with the CIRC’s Insurance Intermediary Supervision Information System and obtain a “Practice Certificate of Insurance Brokers” or “Practice Certificate of Claims Adjustors” issued by the insurance brokerage firm or insurance claims adjusting company to which he or she belongs in order to conduct insurance brokerage or claims adjustment activities. An insurance broker is not allowed to conduct insurance brokerage activities on behalf of himself or herself.

Regulation of Insurance Intermediary Service Group Companies

The principal regulation governing insurance intermediary groups is the Provisional Measures for Supervision and Administration of the Insurance Intermediary Service Group Companies (for Trial Implementation) issued by the CIRC on September 22, 2011 with immediate effect. According to the regulation, the term “insurance intermediary service group company” refers to a professional insurance intermediary company that is established in accordance with applicable laws and regulations and with the approval of the CIRC that exercises sole or shared control of, or is able to exert major influence over, at least two subsidiaries that are professional insurance intermediary companies primarily engaged in the insurance intermediary business.

An insurance intermediary service group company must have:

- a registered capital of at least RMB100 million;
- no record of material violation by investors of applicable laws and regulations in the previous three years; and
- at least five subsidiaries, among which at least two are professional insurance intermediary companies which contribute at least 50% of the total revenues of the group.

The name of an insurance intermediary service group must contain the words “Group” or “Holding.” Its principal business must be equity investment, management and provision of supporting services. An insurance intermediary service group company shall, submit a written report to the CIRC and its local counterparts at the place of registration within five working days after the date of occurrence of the following: (i) changing its registered name or address; (ii) changing its registered capital; (iii) changing its equity structure by more than 5% or shareholders holding more than 5% of shares; (iv) changing its articles of association; (v) establishing, acquiring, merging or closing its subsidiary; (vi) engaging in related party transactions between member companies; (vii) disincorporating; (viii) significantly changing its business scope; or (ix) making a major strategic investment, suffering a significant investment loss or experiencing other material events or emergencies that affect or may affect the business management, financial status or risk control of the group. Senior managers of an insurance intermediary service group company must meet specific qualification requirements and appointment of the senior managers of an insurance intermediary service group company is subject to review and approval by the CIRC.

Content Related to Insurance Industry in the Legal Documents of China’s Accession to the WTO

According to the Circular of the CIRC on Distributing the Content Related to Insurance Industry in the Legal Documents of China’s Accession to the World Trade Organization, or WTO, for the life insurance sector, within three years of China’s accession to the WTO on December 11, 2001, geographical restrictions were to be lifted, equity joint venture companies allowed to provide health insurance, group insurance, and pension/annuity services to Chinese citizens and foreign citizens, and for there to be no other restrictions except those on the proportion of foreign investment (no more than 50%) and establishment conditions. For the non-life insurance sector, within three years of China’s accession, the geographical restrictions were to be lifted and no restrictions allowed other than establishment conditions. For the insurance brokerage sector, within five years of China’s accession, the establishment of wholly foreign-funded subsidiary companies was to be allowed, and no restriction other than establishment conditions and restrictions on business scope.

Content Related to Insurance Industry in the Closer Economic Partnership Arrangements

Under CEPA Supplement IV signed in July 2007 and CEPA Supplement VIII signed in December 2011, local insurance agencies in Hong Kong and Macao are allowed to set up wholly-owned insurance agency companies and conduct insurance intermediary businesses in Guangdong Province (including Shenzhen) on a pilot basis if they fulfill the following criteria:

- The applicant must have operated an insurance brokerage businesses in Hong Kong and Macao for over 10 years;
- The applicant's average annual revenue of insurance brokerage business for the past three years before application must not be less than HKD500,000 and the total assets as at the end of the year before application must not be less than HKD500,000;
- Within the years before application, there has been no serious misconduct or record of disciplinary action; and
- The applicant must have set up a representative office in mainland China for over one year

Regulations on Foreign Exchange

Foreign Currency Exchange

Foreign exchange regulation in China is primarily governed by the following rules:

- Foreign Currency Administration Rules (1996), as amended pursuant to the Decision on Revising the Foreign Currency Administration Rules promulgated by the State Council on January 14, 1997 and the Foreign Currency Administration Rules promulgated by the State Council on August 5, 2008; and
- Administration Rules of the Settlement, Sale and Payment of Foreign Exchange.

Under the Foreign Currency Administration Rules, the RMB is convertible for current account items, including the distribution of dividends, interest payments, trade and service-related foreign exchange transactions. Conversion of RMB for capital account items, such as direct investment, loan, security investment and repatriation of investment, however, is still subject to the approval of the SAFE.

Under the Administration Rules of the Settlement, Sale and Payment of Foreign Exchange, foreign-invested enterprises may only buy, sell or remit foreign currencies at those banks authorized to conduct foreign exchange business after providing valid commercial documents and, in the case of capital account item transactions, obtaining approval from the SAFE. Capital investments by foreign-invested enterprises outside of China are also subject to limitations, which include approvals by the Ministry of Commerce, the SAFE and the State Development and Reform Commission.

Foreign Exchange Registration of Offshore Investment by PRC Residents

Pursuant to the SAFE Circular 37, issued on July 4, 2014, prior to making contribution to a SPC with legitimate holdings of domestic or overseas assets or interests, a PRC resident (including PRC institutions and resident individuals) shall apply to the relevant Foreign Exchange Bureau for foreign exchange registration of overseas investment. A PRC resident who makes contribution with legitimate holdings of domestic assets or interests shall apply for registration to the Foreign Exchange Bureau at its place of registration or the Foreign Exchange Bureau at the locus of the assets or interests of the relevant PRC enterprise. A PRC resident who makes contribution with legitimate holdings of overseas assets or interests shall apply for registration to the Foreign Exchange Bureau at its place of registration or household register. Where a registered overseas SPC experiences changes of its PRC resident individual shareholder, its name, operating period or other basic information, or experiences changes of material matters, such as the increase or reduction of contribution by the PRC resident individual, the transfer or replacement of equity, or merger or division, the PRC resident shall promptly change the foreign exchange registration of overseas investment with the Foreign Exchange Bureau concerned. Under SAFE Circular 37, failure to comply with the registration procedures set forth above may result in the penalties, including imposition of restrictions on a PRC subsidiary's foreign exchange activities and its ability to distribute dividends to the SPV. See "Item 3. Key Information — D. Risk Factors — Risks Related to Doing Business in China — PRC regulations relating to the establishment of offshore special purpose companies by PRC residents and employee stock options granted by overseas-listed companies may increase our administrative burden, restrict our overseas and cross-border investment activity, or otherwise adversely affect us. If our shareholders who are PRC residents, or our PRC employees who are granted or exercise stock options, fail to make any required registrations or filings under such regulations, we may be unable to distribute profits and may become subject to liability under PRC laws.

SAFE Regulations on Employee Share Options

On December 25, 2006, the PBOC promulgated the “Measures for the Administration of Individual Foreign Exchange,” and on January 5, 2007, the SAFE further promulgated the implementation rules on those measures. Both became effective on February 1, 2007. According to the implementation rules, PRC citizens who are granted shares or share options by a company listed on an overseas stock market according to its employee share option or share incentive plan are required, through the PRC subsidiary of such overseas listed company or any other qualified PRC agent, to register with the SAFE and to complete certain other procedures related to the share option or other share incentive plan. Foreign exchange income received from the sale of shares or dividends distributed by the overseas listed company may be remitted into a foreign currency account of such PRC citizen or be exchanged into Renminbi. Our PRC citizen employees who have been granted share options are subject to the Individual Foreign Exchange Rules.

On March 28, 2007, SAFE promulgated the Operating Rules for Administration of Foreign Exchange in Domestic Individuals’ Participation in Employee Stock Ownership Plans and Stock Option plans of Companies Listed Abroad, or the Operating Rules, or the Operating Rules. Stock Option Rule. On February 15, 2012, SAFE promulgated the No. 7 Notice, which supersedes the Stock Option Rule in its entirety and immediately became effective upon circulation. According to the No. 7 Notice, domestic individuals, which include any directors, supervisors, senior managerial personnel or other employees of a domestic company who are Chinese citizens (including citizens of Hong Kong, Macao and Taiwan) or foreign individuals who consecutively reside in the territory of PRC for one year, who participate in the same equity incentive plan of an overseas listed company shall, through the domestic companies they serve, collectively entrust a domestic agency to handle issues like foreign exchange registration, account opening, funds transfer and remittance, and entrust an overseas institution to handle issues like exercise of options, purchasing and sale of related stocks or equity, and funds transfer. Where a domestic agency needs to remit funds out of China as required for individuals’ participation in an equity incentive plan, the domestic agency shall apply with the local office of the SAFE for a foreign exchange payment quota on a yearly basis. A domestic agency shall open a domestic special foreign exchange account in the bank. After repatriation of foreign currency income earned by individuals from participation in an equity incentive plan, the domestic agency shall request the bank to transfer the funds from its special foreign currency account to respective personal foreign currency deposit accounts. In the case of any significant change to the equity incentive plan of a company listed abroad (such as amendment to any major terms of the original plan, addition of a new plan, or other changes to the original plan due to merger, acquisition or reorganization of the overseas listed company or the domestic company or other major events), the domestic agency or the overseas trustee, the domestic agency shall, within three months of the occurrence of such changes, go through procedures for change of foreign exchange registration with the local office of the SAFE. The SAFE and its branches shall supervise, administer and inspect foreign exchange operations related to individuals’ participation in equity incentive plans of companies listed abroad, and may take regulatory measures and impose administrative sanctions on individuals, domestic companies, domestic agencies and banks violating the provisions of the No. 7 Notice.

We and our employees who have been granted applicable equity awards shall be subject to the No. 7 Notice. If we fail to comply with the No. 7 Notice, we and/or our employees who are subject to the No. 7 Notice may face sanctions imposed by foreign exchange authority or any other PRC government authorities.

Regulations on Dividend Distribution

The principal regulations governing dividend distributions of wholly foreign-owned companies include:

- Wholly Foreign-Owned Enterprise Law (1986), as amended pursuant to the Decision of the Standing Committee of the National People's Congress on Revising the Wholly Foreign-Owned Enterprise Law promulgated on October 31, 2000; and
- Wholly Foreign-Owned Enterprise Law Implementing Rules (1990), as amended pursuant to the Decision of the State Council on Amending the Rules for the Implementation of the Law on Foreign-Owned Enterprises promulgated by the State Council on April 12, 2001 and the Decision of the State Council on Revising the "Detailed Implementing Rules for the Wholly Foreign-Owned Enterprise Law which took effect as of the promulgation date of March 1, 2014.

Under these regulations, wholly foreign-owned companies in the PRC may pay dividends only out of their accumulated profits as determined in accordance with PRC accounting standards. In addition, these wholly foreign-owned companies are required to set aside at least 10% of their respective accumulated profits each year, if any, to

fund certain reserve funds, until the accumulative amount of such fund reaches 50% of its registered capital. These reserve funds are not distributable as cash dividends.

Regulation on Overseas Listing

On August 8, 2006, six PRC regulatory agencies, namely, the PRC Ministry of Commerce, the State Assets Supervision and Administration Commission, the State Administration for Taxation, the State Administration for Industry and Commerce, the CSRC and the SAFE, jointly adopted the Provisions on Foreign Investors' Merger with and Acquisition of Domestic Enterprises, or the Order No. 10 (2006) which became effective on September 8, 2006. The Order No. 10 (2006) purports, among other things, to require offshore SPVs, formed for overseas listing purposes and controlled by PRC companies or individuals, to obtain the approval of the CSRC prior to publicly listing their securities on an overseas stock exchange. On September 21, 2006, the CSRC published a notice on its official website specifying documents and materials required to be submitted to it by SPVs seeking CSRC approval of their overseas listings.

At the time of our initial public offering in October 2007, while the application of the M&A Rule remained unclear, our then PRC counsel at the time, Commerce & Finance Law Offices, had advised us that, based on their understanding of the then PRC laws and regulations as well as the procedures announced on September 21, 2006:

- the CSRC had jurisdiction over our initial public offering;
- the CSRC had not issued any definitive rule or interpretation concerning whether offerings like our initial public offering are subject to the M&A Rule; and
- despite the above, given that we had completed our inbound investment before September 8, 2006, the effective date of the M&A Rule, an application was not required under the M&A Rule to be submitted to the CSRC for its approval of the listing and trading of our ADSs on the Nasdaq Global Market, unless we are clearly required to do so by subsequent rules of the CSRC.

See “Item 3. Key Information — D. Risk Factors — Risks Related to Doing Business in China — The approval of the China Securities Regulatory Commission, or the CSRC, may have been required in connection with our initial public offering in October 2007 under a PRC regulation adopted in August 2006. Based on the advice of our PRC counsel, we did not seek CSRC’s approval for our initial public offering. Any requirement to obtain prior CSRC approval and a failure to obtain this approval, if required, could have a material adverse effect on our business, operating results, reputation and trading price of our ADSs.”

Regulations on Tax

PRC Enterprise Income Tax

The PRC EIT is calculated based on the taxable income determined under the PRC accounting standards and regulations, as well as the EIT law. On March 16, 2007, the National People’s Congress of China enacted the EIT Law, a new EIT law which became effective on January 1, 2008. On December 6, 2007, the State Council promulgated the Implementation Rules which also became effective on January 1, 2008. On December 26, 2007, the State Council issued the Notice on Implementation of Enterprise Income Tax Transition Preferential Policy under the EIT Law, or the Transition Preferential Policy Circular, which became effective simultaneously with the EIT Law. The EIT Law imposes a uniform EIT rate of 25% on all domestic enterprises and foreign-invested enterprises unless they qualify under certain exceptions. Under the EIT Law, as further clarified by the Implementation Rules, the Transition Preferential Policy Circular and other related regulations, enterprises that were established and already enjoyed preferential tax treatments before March 16, 2007 will continue to enjoy them in the following manners: (i) in the case of preferential tax rates, for a five-year period starting from January 1, 2008, during which the tax rate will gradually increase to 25%; or (ii) in the case of preferential tax exemption or reduction for a specified term, until the expiration of such term. However, if such an enterprise has not enjoyed the preferential treatments yet because of its failure to make a profit, its term for preferential treatment will be deemed to start from 2008. See “Item 3. Key Information — D. Risk Factors — Risks Related to Doing Business in China — The PRC Enterprise Income Tax Law may increase the enterprise income tax rate applicable to some of our PRC subsidiaries and consolidated affiliated entities, which could have a material adverse effect on our result of operations.”

Under the New Income Tax law, enterprises are classified as either resident or non-resident. A resident enterprise refers to one that is incorporated under the PRC law or under the law of a jurisdiction outside the PRC

with its "de facto management organization" located within the PRC. Non-resident enterprise refers to one that is incorporated under the law of a jurisdiction outside the PRC with its "de facto management organization" located also outside the PRC, but which has either set up institutions or establishments in the PRC or has income originating from the PRC without setting up any institution or establishment in the PRC. Under the New Enterprise Income Tax, Implementation Regulation, or the New EIT Implementation Regulations, "de facto management organization" is defined as the organization of an enterprise through which substantial and comprehensive management and control over the business, operations, personnel, accounting and properties of the enterprise are exercised. Under the New Income Tax Law and the New EIT Implementation Regulation, a resident enterprise's global net income will be subject to a 25% EIT rate. On April 22, 2009, the State Administration of Taxation, or the SAT, issued SAT Circular 82, which provides certain specific criteria for determining whether the "de facto management body" of a PRC-controlled enterprise that is incorporated offshore is located in China. In addition, the SAT issued a bulletin on July 27, 2011 providing more guidance on the implementation of Circular 82 and clarifies matters such as resident status determination. Due to the present uncertainties resulting from the limited PRC tax guidance on this issue and because substantially all of our operations and all of our senior management are located within China, we may be considered a PRC resident enterprise for EIT purposes, in which case: (i) we would be subject to the PRC EIT at the rate of 25% on our worldwide income; and (ii) dividends income received by us from our PRC subsidiaries, however, would be exempt from the PRC withholding tax since such income is exempted under the EIT Law for a PRC resident enterprise recipient. See "Item 3. Key Information — D.Risk Factors — Risks Related to Doing Business in China — Our global income or the dividends we receive from our PRC subsidiaries may be subject to PRC tax under the EIT Law, which could have a material adverse effect on our results of operations."

PRC Business Tax

Taxpayers providing taxable services in China are required to pay a business tax at a normal tax rate of 5% of their revenues, unless otherwise provided. According to the Announcement on the VAT Reform Pilot Program of the Transportation and Selected Modern Service Sectors issued by the State Tax Bureau in July 2012, the transportation and some selected modern service sectors, including research and development and technical services, information technology services, cultural creative services, logistics support services, tangible personal property leasing services, and assurance and consulting service sectors, should pay value-added tax instead of business tax based on a predetermined timetable (hereinafter referred to as the "VAT Reform"), effective September 1, 2012 for entities in Beijing and November 1, 2012 for entities in Guangdong. The VAT Reform expanded nation-wide from August 1, 2013. A total of seven of our entities that engage in consulting and information technology services meet the VAT Reform requirements, and have started to pay value-added tax since the respectively effective days. Total value-added taxes paid during the year ended December 31, 2014 amounted to RMB15.0 million (US\$2.4 million).

Dividend Withholding Tax

Under the PRC tax laws effective prior to January 1, 2008, dividends paid to foreign investors by foreign-invested enterprises are exempt from PRC withholding tax. Pursuant to the EIT Law and the Implementation Rules, dividends generated after January 1, 2008 and distributed to us by our PRC subsidiaries through our BVI subsidiary are subject to a 10% withholding tax, provided that we are determined by the relevant PRC tax authorities to be a "non-resident enterprise" under the EIT Law. Pursuant to the Double Taxation Arrangement, which became effective on January 1, 2007, dividends from our PRC subsidiaries paid to us through our Hong Kong subsidiary InsCom HK Limited, in which we indirectly hold a 65.1% equity interest, may be subject to a withholding tax at a rate of 5%. However, as described above, we may be considered a PRC resident enterprise for EIT purposes, in which case dividends received by us from our PRC subsidiary would be exempt from the PRC withholding tax because such income is exempted under the EIT Law for a PRC resident enterprise recipient.

As there remains uncertainty regarding the interpretation and implementation of the EIT Law and the Implementation Rules, it is uncertain whether any dividends to be distributed by us, if we are deemed a PRC resident enterprise, to our non-PRC shareholders and ADS holders would be subject to any PRC withholding tax. See "Item 3. Key Information — D.Risk Factors — Risks Related to Doing Business in China — Under the EIT Law, dividends payable by us and gains on the disposition of our shares or ADSs could be subject to PRC taxation."

C. Organizational Structure

Principal Changes in Corporate Structure

Historically, PRC laws and regulations restricted foreign investment in and ownership of insurance intermediary companies. Accordingly, we conducted our business in China through contractual arrangements among our PRC subsidiaries, consolidated affiliated entities and their shareholders.

Changes in relation to Meidiya Investment and Yihe Investment

Prior to March 2009, three individuals, Mr. Jianguo Cui, Mr. Zhenyu Wang and Mr. Qiuping Lai held 24.7%, 26.4% and 48.9%, respectively, of the equity interests in each of Meidiya Investment, and Yihe Investment. Mr. Cui and Mr. Zhenyu Wang were designated by two of our shareholders, Cathay Auto Services Limited and CDH Inservice Limited, or CDH Inservice, respectively, and Mr. Lai is our president and co-founder. In March 2009, Mr. Cui and Mr. Zhenyu Wang transferred all of their respective equity interests in Meidiya Investment and Yihe Investment to Mr. Peng Ge, our chief financial officer. Following these transfers, Mr. Lai and Mr. Ge, both of whom are PRC citizens, held 48.9% and 51.1%, respectively, of the equity interests in each of Meidiya Investment and Yihe Investment.

In October 2010 and February 2011, our wholly-owned PRC subsidiary, CNinsure Insurance Sales Service Group Company Limited or CNinsure Group Company formerly known as Shenzhen Fanhua Nanfeng Investment Holding Co., Ltd., our wholly-owned PRC subsidiary, invested to subscribe for 20% of the equity interests in each of Yihe Investment and Meidiya Investment. In February 2012, CNinsure Group Company subscribed for additional interests in Meidiya Investment, increasing its shareholding in Meidiya Investment from 20% to 90%, and diluting the interests of Mr. Lai and Mr. Ge to 5.1% and 4.9%, respectively.

In August 2011, CISG Holdings acquired Minkfair Insurance Management Limited, or Minkfair, a Hong Kong company whose principal business is insurance distribution in Hong Kong. Subsequently, CNinsure Holdings Ltd., or CNinsure Holdings, a wholly-owned subsidiary of CISG Holdings, issued 1,000 of its shares to Minkfair. At the same time, CNinsure Holdings repurchased from CISG Holdings one ordinary share of CNinsure Holdings for total consideration of US\$1.00. As a result of these transactions, Minkfair directly owns 100% of the equity interests in CNinsure Holdings.

In October 2012, we obtained license approval from the CIRC to establish an insurance sales service group company and renamed Nanfeng Investment Shenzhen Fanhua Nanfeng Investment Holding Co., Ltd. as “CNinsure Insurance Sales Service Group Company Limited” to serve as the holding company of our PRC operating entities.

Since May 2012, Meidiya Investment and Yihe Investment have transferred their equity interests in five of our subsidiaries, including CNinsure Lianxing Insurance Sales Co., Ltd. (also known as Fanhua Lianxing Insurance Sales Co., Ltd.), or CNinsure Lianxing, and CNinsure Times Insurance Sales & Service Co., Ltd., or CNinsure Times, both of which have national operating licenses, to CNinsure Group Company. Meidiya Investment and Yihe Investment have also transferred their equity interests in 19 of our affiliated entities to CNinsure Lianxing and CNinsure Times.

In January 2015, Mr. Lai and Mr. Ge transferred their respective equity interests in Meidiya Investment to CNinsure Group Company, our wholly-owned subsidiary. In addition, the contractual arrangements among Meidiya Investment, and their respective shareholders and subsidiaries were terminated. Consequently, Meidiya Investment became our wholly-owned subsidiary and ceased being a consolidated affiliated entity.

We are in the process of converting our insurance agencies, which are our wholly-owned subsidiaries or affiliates, into branches of CNinsure Lianxing and CNinsure Times. As of March 31, 2015, 11 of our 43 insurance intermediary companies have been converted into branches of CNinsure Lianxing and CNinsure Times. Consequently, Yihe Investment also no longer owns controlling interests in any of our insurance intermediary companies.

Changes in relation to InsCom Holdings and its Affiliates

In July 2010, CISG Holdings, our wholly owned subsidiary, acquired a 65.1% interest in InsCom Holdings to build our e-commerce platform.

Prior to April 26, 2011, two individual shareholders, Mr. Chunlin Wang, our chief executive officer, and Mr. Yuan Tian, vice president of our e-commerce insurance unit, held 95% and 5%, respectively, of the equity interests in Xinbao Investment. In April 2011, Ying Si Kang Information Technology (Shenzhen) Co., Ltd., or Ying Si Kang Information, a then wholly-owned PRC subsidiary of InsCom Holdings, Mr. Chunlin Wang and Mr. Tian

contributed RMB2.0 million, RMB7.5 million and RMB0.5 million, respectively, to increase the registered capital of Xinbao Investment. In March 2013, Ying Si Kang Information withdrew its capital contribution in Xinbao investment. As a result, Mr. Chunlin Wang and Mr. Tian now hold 93.75% and 6.25%, respectively, of the equity interests in Xinbao Investment.

In March 2014, InsCom HK Limited, a wholly-owned subsidiary of InsCom Holdings, transferred its 100% equity interest in Ying Si Kang Information to Litian Zhuoyue Software (Beijing) Co., Ltd, or Litian Zhuoyue, and established Bao Si Kang Information.

Corporate Structure

As of March 31, 2015, we, through CNinsure Group Company, have a controlling equity ownership in 37 insurance agencies, four insurance claims adjusting firms, two insurance brokerage companies and one online insurance service company. We also own 20.6% equity interests of a consumer financial service company and 19.5% equity interest of one wealth management company. In addition through contractual arrangements with Yihe Investment, Xinbao Investment and Dianliang Information, our current consolidated affiliated entities, we control one e-commerce insurance intermediary company, and one online mutual aid organization.

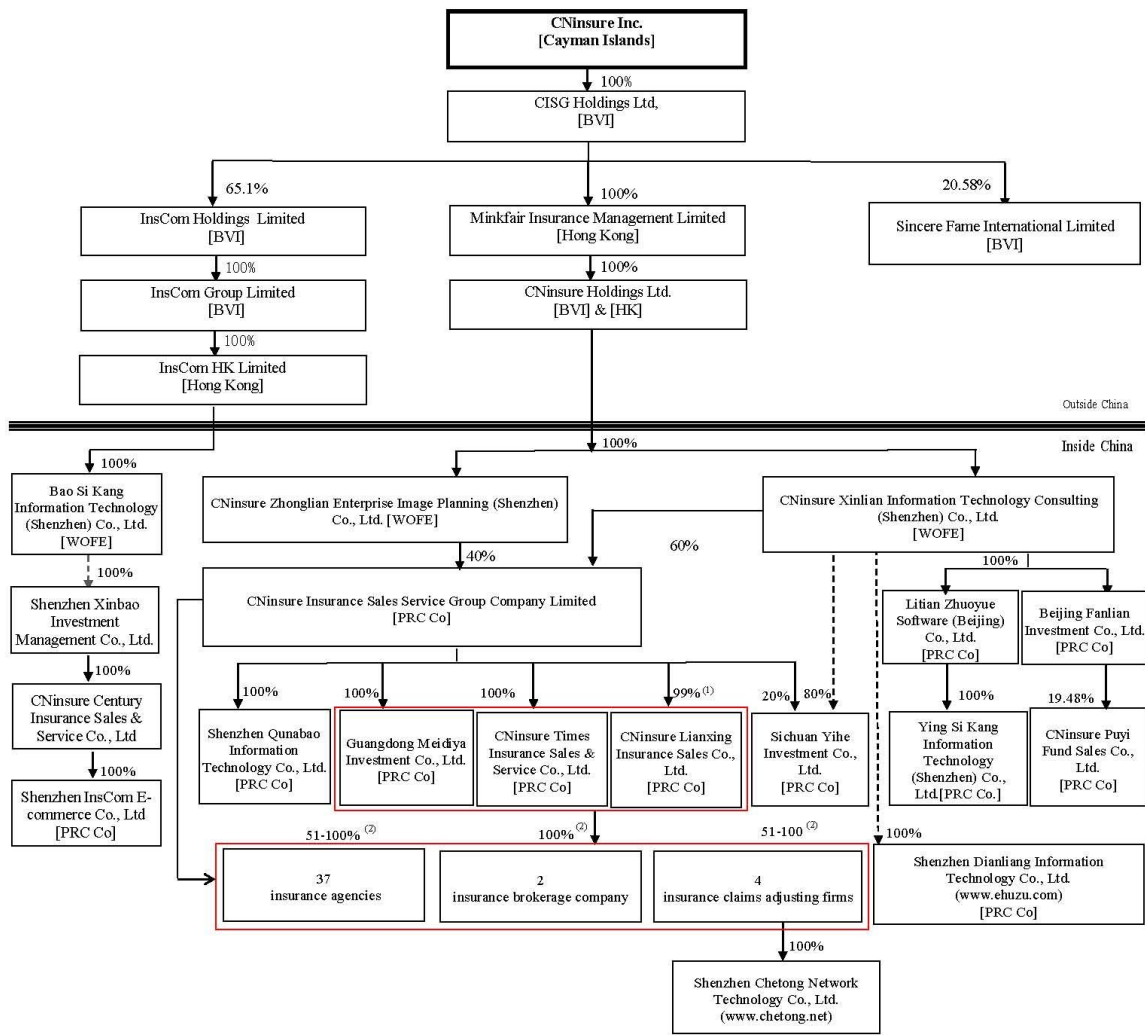

Most of the noncontrolling shareholders of the insurance intermediary companies majority-owned by CNinsure Group Company are the founders of those companies, entrepreneurial agents with whom we jointly set up the company or a venture capital firm who invests in start-up insurance agency companies. Some of those noncontrolling shareholders are in charge of the day-to-day operations of these companies. The direct and indirect subsidiaries or affiliates of CNinsure Group Company, Yihe Investment, Xinbao Investment and Dianliang Information hold the licenses and permits necessary to conduct our insurance intermediary business and internet insurance distribution business in China.

However, because of restrictions under PRC laws and regulations on foreign investment in the internet businesses and on the provision of wealth management products by insurance intermediaries, we rely on contractual arrangements to control and receive economic benefits from our consolidated affiliated entities.

Our contractual arrangements with our consolidated affiliated entities and their shareholders which include loan agreements, equity pledge agreements, powers of attorney, exclusive purchase option agreements, enable us to:

- exercise effective control over our consolidated affiliated entities;
- have an exclusive option to purchase all or part of the equity interests in each of our consolidated affiliated entities when and to the extent permitted by PRC law; and
- receive a substantial portion of the economic benefits from our consolidated affiliated entities in consideration for the services provided by our subsidiaries in China.

The following diagram illustrates our corporate structure, including our principal subsidiaries and consolidated affiliated entities as of March 31, 2015:

--- Ownership through nominee arrangements among Xinlian Information, Bao Si Kang Information, our consolidated entities Yihe Investment, Dianliang Information and Xinbao Investment and their individual shareholders

(1) The remaining 1% is owned by Sichuan Yihe Investment Co., Ltd.

(2) Direct or indirect ownership attributable to CNinsurance Sales Group through Meidiya Investment, CNinsure Times Insurance Sales & Service and CNinsure Lianxing Insurance Sales Co., Ltd.

The diagram above omits the names of subsidiaries and consolidated affiliated entities that are immaterial individually and in the aggregate. For a complete list of our subsidiaries and consolidated affiliated entities as of March 31, 2015, see Exhibit 8.1 to this annual report. In March 2015, we completed converting one insurance agency wholly-owned by Yihe Investment into a branch of CNinsure Lianxing. In January 2015, Mr. Lai and Mr. Ge, transferred their respective equity interests in Meidiya Investment to CNinsure Group Company. As a result, Meidiya Investment becomes our wholly-owned subsidiary and we have obtained direct equity ownership in all of our insurance intermediary businesses in the PRC.

The following is a summary of the key terms of our contractual arrangements with Yihe Investment, Xinbao Investment and Dianliang Information, our consolidated affiliated entities, and their shareholders. We had previously entered into similar contractual agreements with Meidiya Investment. These contractual agreements were terminated in January 2015.

Agreements that Provide Us Effective Control over Our Consolidated Affiliated Entities

Loan Agreements.

Yihe Investment. Each of the original individual shareholders of Yihe Investment, being Mr. Lai, Mr. Zhenyu Wang and Mr. Cui, entered into a loan agreement on December 20, 2005 with our subsidiary Xinlian Information, or the Xinlian Loans, for a zero interest loan from Xinlian Information. On February 27, 2009, in connection with the transfer of their respective equity interests in Yihe Investment to Mr. Ge, both Mr. Cui and Mr. Zhenyu Wang transferred all of their rights and obligations under their respective Xinlian Loan to Mr. Ge. As a result, the principal loan amounts to Mr. Lai and Mr. Ge were RMB9.8 million and RMB10.2 million, respectively, equal to their respective capital contributions in Yihe Investment.

The term of the Xinlian Loans are each ten years and may be extended upon written agreement of the parties, but it does not extend automatically. If the Xinlian Loans are not extended, then upon its expiration and subject to then applicable PRC laws, the loan can be repaid only with the proceeds from a transfer of the individual shareholder's equity interests in Yihe Investment to Xinlian Information or another person designated by Xinlian Information. Xinlian Information may accelerate the loan repayment upon certain events, including if the individual shareholder resigns or is dismissed from employment by us or if Xinlian Information exercises its option to purchase the shareholder's equity interests in Yihe Investment pursuant to the exclusive equity purchase option agreement described below.

The Xinlian Loans contain a number of covenants that restrict the actions the individual shareholder can take or cause Yihe Investment to take, and also requires the individual shareholder to take or cause Yihe Investment to take specific actions. For example, the individual shareholder must:

- not transfer, pledge or otherwise dispose of or encumber his equity interests in Yihe Investment, except for equity pledge for the benefit of Xinlian Information, without the prior written consent of Xinlian Information;
- not take any action that will have a material impact on the assets, business and liabilities of Yihe Investment without the prior written consent of Xinlian Information;
- not vote for, or execute any resolution to approve, the sale, transfer, mortgage, or disposal of, or the creation of any encumbrance on, any legal or beneficial interests in the equity of Yihe Investment, except to Xinlian Information or its designee, without the prior written consent of Xinlian Information;
- not vote for, or execute any resolutions to approve, any merger or consolidation with any person, or any acquisition of or investment in any person by Yihe Investment without the prior written consent of Xinlian Information;
- vote to elect the director candidates nominated by Xinlian Information;
- cause Yihe Investment not to supplement, amend or modify its articles of association in any manner, increase or decrease its registered capital or change the capital structure in any way without the prior written consent of Xinlian Information; and

- cause Yihe Investment not to execute any contract with a value exceeding RMB100,000, except in the ordinary course of business, without the prior written consent of Xinlian Information.

Xinbao Investment. On December 10, 2014, Mr. Chunlin Wang and Mr. Tian, the two shareholders of Xinbao Investment, entered into loan agreements, or, the Bao Si Kang Loans, with our subsidiary, Bao Si Kang Information, in which we indirectly hold a 65.1% equity interest. These loans replace the loan agreements entered into on December 3, 2010 and amended on April 2011 among Mr. Chunlin Wang, Mr. Tian and Bao Si Kang Information. The principal amounts lent to Mr. Chunlin Wang and Mr. Tian are RMB7.5 million and RMB0.5 million, respectively, equal to their respective capital contributions in Xinbao Investment. The terms of the Bao Si Kang Loans are similar to those in the Xinlian Loans described above.

Dianliang Information. The individual shareholder of Dianliang Information, being Mr. Rannuo Hu, who is our employee, entered into a loan agreement on April 2, 2014 with our subsidiary Xinlian Information, or the Dianliang Loan, for a zero interest loan from Xinlian Information. The principal amount lent to Mr. Rannuo Hu is RMB10 million (US\$1.6 million). The terms of the Dianliang Loan are similar to those of the Xinlian Loans described above.

Equity Pledge Agreements.

Yihe Investment. Mr. Lai and Mr. Ge entered into separate equity pledge agreements on December 20, 2005 and March 31, 2009, respectively, pledging their respective equity interests in Yihe Investment to Xinlian Information to secure their obligations under their respective Xinlian Loan. Mr. Lai and Mr. Ge also agreed not to transfer or create any encumbrances adverse to Xinlian Information on their respective equity interests in Yihe Investment. During the term of the equity pledge agreement, Xinlian Information is entitled to all the dividends declared on the pledged equity interests. The equity pledge agreement will expire when the individual shareholder fully performs his obligations under the Xinlian Loan. The equity pledges were recorded on the shareholders register of Yihe Investment, and registered with the relevant local administration of industry and commerce.

Xinbao Investment. Mr. Chunlin Wang and Mr. Tian entered into separate equity pledge agreements on December 10, 2014, pledging their respective equity interests in Xinbao Investment to Bao Si Kang Information to secure their obligations under the Bao Si Kang Loans, replacing the equity pledge agreements as amended in April 2011 and the supplemental agreement entered into in December 2013. The terms of the equity pledge agreements are substantially similar to equity pledge agreements for Yihe Investment. The equity pledges were recorded on the shareholders' register of Xinbao Investment, and registered with the relevant local administration of industry and commerce.

Dianliang Information. Mr. Rannuo Hu, entered into an equity pledge agreement on April 2, 2014, pledging his equity interests in Dianliang Information to Xinlian Information to secure his obligations under the Dianliang Loan. Terms of the equity pledge agreement is substantially similar to equity pledge agreements for Yihe Investment. The equity pledge was recorded on the shareholders' register of Dianliang Information, and registered with the relevant local administration of industry and commerce.

Power of Attorney.

Yihe Investment. Mr. Lai and Mr. Ge executed powers of attorney on December 20, 2005 and March 31, 2009, respectively, each appointing a person designated by Xinlian Information as his attorney-in-fact on all matters requiring shareholder approval. Further, if Xinlian Information designates the shareholder to attend a shareholder's meeting of Yihe Investment, the individual shareholder agrees to vote his shares as instructed by Xinlian Information. The term of the power of attorney is ten years.

Xinbao Investment. Mr. Chunlin Wang and Mr. Tian executed powers of attorney on December 10, 2014, each appointing a person designated by Bao Si Kang Information as his attorney-in-fact on all matters requiring shareholder approval. Further, if Bao Si Kang Information designates the shareholder to attend a shareholder's meeting of Xinbao Investment, the individual shareholder agrees to vote his shares as instructed by Bao Si Kang Information. The term of the power of attorney is for ten years.

Dianliang Information. Mr. Rannuo Hu, the individual shareholders of Dianliang Information, executed powers of attorney on April 2, 2014, appointing a person designated by Xinlian Information as his attorney-in-fact on all matters requiring shareholder approval. Further, if Xinlian Information designates the shareholder to attend a shareholder's meeting of Dianliang Information, the individual shareholder agrees to vote his shares as instructed by Xinlian Information. The term of the power of attorney is for ten years.

Agreements that Provide Us the Option to Purchase the Equity Interests in Our Consolidated Affiliated Entities

Exclusive Purchase Option Agreements.

Yihe Investment. Mr. Lai and Mr. Ge entered into separate exclusive purchase option agreements on December 20, 2005 and March 31, 2009 to irrevocably grant Xinlian Information an exclusive option to purchase part or all of his equity interests in Yihe Investment, when and to the extent permitted by PRC law.

Xinbao Investment. Mr. Chunlin Wang and Mr. Tian entered into separate exclusive purchase option agreements on December 10, 2014 to irrevocably grant Bao Si Kang Information an exclusive option to purchase part or all of his equity interests in Xinbao Investment, when and to the extent permitted by PRC law. The purchase price will be the minimum price permitted under applicable PRC law. These agreements replace the exclusive purchase option agreements and the supplemental agreements entered into between Ying Si Kang Information, Xinbao Investment and each individual shareholder of Xinbao Investment.

Dianliang Information. Mr. Rannuo Hu entered into exclusive purchase option agreement on April 2, 2014 to irrevocably grant Xinlian an exclusive option to purchase part or all of his equity interests in Dianliang Information, when and to the extent permitted by PRC law. The purchase price will be the minimum price permitted under applicable PRC law.

Agreements that Transfer Economic Benefits to Us

Technology Service Agreements. Pursuant to technology service agreements between (i) Ying Si Kang Information, a subsidiary of Xinlian Information, and (ii) a subsidiary of Xinbao Investment, as well as certain other of our subsidiaries and affiliates, Ying Si Kang Information agreed to provide these entities with services to support the use of Mobile Sales Support System, such as transaction support, data maintenance, system security and efficiency maintenance and on-site support. In exchange, these entities each agree to pay a quarterly fee calculated primarily based on a percentage of their revenues. Each of these agreements has a term of one year.

Because of our contractual arrangements with Yihe Investment, Xinbao Investment, Dianliang Information and their shareholders, we are the primary beneficiary of Yihe Investment, Xinbao Investment and its subsidiaries and Dianliang Information and we consolidate them into our consolidated financial statements. In the years ended December 31, 2012, 2013 and 2014, aggregate revenues derived from these and other of our then-existing consolidated affiliated entities contributed 23.6%, 7.2% and 3.4%, respectively, of our total consolidated net revenues, based on our corporate structure as of the end of each year. As of December 31, 2012, 2013 and 2014, our consolidated affiliated entities accounted for an aggregate of 5.4%, 3.2% and 1.7%, respectively, of our consolidated total assets.

Due to the restriction on foreign investment in the internet industry, we expect to continue to rely on contractual arrangements to control and receive economic benefits from our current consolidated affiliated entities. In the opinion of Global Law Office, our PRC legal counsel: the ownership structures of our consolidated affiliated entities and our subsidiaries in China comply with all existing PRC laws and regulations;

- the contractual arrangements among our PRC subsidiaries, our consolidated affiliated entities and their individual shareholders, governed by PRC law are valid, binding and enforceable, and will not result in any violation of PRC laws or regulations currently in effect; and
- the business operations of our PRC subsidiaries and our consolidated affiliated entities comply in all material respects with existing PRC laws and regulations.

We have been advised by our PRC legal counsel, however, that there are substantial uncertainties regarding the interpretation and application of PRC laws and regulations. Accordingly, the PRC regulatory authorities may in the future take a view that is contrary to the above opinion of our PRC legal counsel. We have been further advised by our PRC counsel that if the PRC government finds that the agreements establishing the structure for operating our online operations do not comply with PRC government restrictions on foreign investment in the internet industry, we could be subject to severe penalties including being prohibited from continuing operations. See “Item 3. Key Information — D. Risk Factors — Risks Related to Our Corporate Structure — If the PRC government finds that the agreements that establish the structure for operating part of our China business do not comply with applicable PRC laws and regulations, we could be subject to severe penalties” and “Item 3. Key Information — D. Risk Factors — Risks Related to Doing Business in China — Uncertainties with respect to the PRC legal system could

adversely affect us.” To date we have not encountered any interference or encumbrance from the PRC government on account of operating our business through these agreements.

D. Property, Plant and Equipment

Our headquarters are located in Guangzhou, China, where we leased approximately 2,382.6 square meters of office space as of December 31, 2014. Our subsidiaries and consolidated affiliated entities leased approximately 35,314.5 square meters of office space as of December 31, 2014. In 2014, our total rental expenses were RMB27.5 million (US\$4.4 million).

Item 4A. Unresolved Staff Comments

None.

Item 5. Operating and Financial Review and Prospects

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and the related notes included in this annual report. This discussion and analysis contains forward-looking statements based upon current expectations that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of various factors, including those set forth under “Item 3. Key Information — D. Risk Factors” or in other parts of this annual report.

Following the sale of Datong on March 25, 2011, we present our financial results for the years ended December 31, 2010 and 2011 on both a continuing and discontinued basis. Profits and losses related to Datong were presented as discontinued operations while profits and losses for the remaining business were presented as continuing operations.

A. Operating Results

Factors Affecting Our Results of Operations

As an insurance intermediary in China, our financial condition and results of operations are affected by a variety of factors, including:

- total premium payments to Chinese insurance companies;
- the extent to which insurance companies in the PRC outsource the distribution of their products and claims adjusting functions;
- premium rate levels and commission and fee rates;
- the size and productivity of our sales force;
- acquisitions;
- commission rates for individual sales agents;
- product and service mix;
- share-based compensation expenses; and
- seasonality.

Total Premium Payments to Chinese Insurance Companies

The Chinese insurance industry has grown substantially in the past decade. Between 2003 and 2014, total insurance premiums increased from RMB388.0 billion to RMB2.0 trillion, representing a compound annual growth rate, or CAGR, of 16.2%, according to the CIRC. We believe that certain macroeconomic and demographic factors,

such as increasing per capita GDP and an aging population, have contributed to and will continue to drive the growth of the Chinese insurance industry in the long term.

We derive our revenue primarily from commissions and fees paid by insurance companies, typically calculated as a percentage of premiums paid by our customers to the insurance companies. Accordingly, industry-wide premium growth will have a positive impact on us. However, there is uncertainty when the rapid growth trend will resume. Any continued downturn in the Chinese insurance industry, whether caused by a general slowdown of the PRC economy or otherwise, may adversely affect our financial condition and results of operations.

The Extent to Which Insurance Companies in the PRC Outsource the Distribution of their Products and Claims Adjusting Functions

Historically, insurance companies in the PRC have relied primarily on their exclusive individual sales agents and direct sales force to sell their products. Only in recent years, as a result of increased competition, have some insurance companies gradually expanded their distribution channels to include insurance intermediaries such as commercial banks, postal offices, insurance agencies and insurance brokerages. In addition, because of a lack of established distribution networks of their own, some newly established insurance companies have chosen to rely primarily on insurance intermediaries to distribute their products while they focus on other aspects of their business.

As insurance companies in the PRC become more accustomed to outsourcing the distribution of their products to insurance intermediaries, they may allow insurance intermediaries to distribute a wider variety of insurance products and may provide more monetary incentives to more productive and effective insurance intermediaries. These and other similar measures designed to boost sales through insurance intermediaries can have a positive impact on our financial condition and results of operations. Similarly, as competition intensifies and the insurance market becomes more mature in China, we expect that more insurance companies will choose to outsource claims adjusting functions to professional service providers such as our affiliated claims adjusting firms while they focus on the core aspects of their business, including product development, asset and risk management.

Premium Rate Levels and Commission and Fee Rates

Because the commissions and fees we receive from insurance companies for the distribution of insurance products are generally calculated as a percentage of premiums paid by our customers to the insurance companies, our revenue and results of operations are affected by premium rate levels and commission and fee rates. Premium rate levels and commission and fee rates can change based on the prevailing economic conditions, competitive and regulatory landscape, and other factors that affect insurance companies. These other factors include the ability of insurance companies to place new business, underwriting and non-underwriting profits of insurance companies, consumer demand for insurance products, the availability of comparable products from other insurance companies at a lower cost, and the tax deductibility of commissions and fees. In addition, premium rates for certain insurance products, such as the mandatory automobile liability insurance that each automobile owner in the PRC is legally required to purchase, are tightly regulated by the CIRC. In some instances, we can negotiate for better rates as an incentive for generating a larger volume of business.

Since China's entry into the WTO in December 2001, competition among insurance companies has intensified as a result of a significant increase in the number of insurance companies and the existing insurance companies' expansion into new geographic markets. This competition has led to a gradual increase in the commission and fee rates offered to insurance intermediaries, and such increase has had a positive impact on our results of operations. Meanwhile, the intense competition among insurance companies also has led to a gradual decline in premium rate levels of some property and casualty insurance products. While such decline has had a negative impact on the commissions and fees we earned on a per policy sold basis, it also may have had a positive impact on our total commissions and fees revenue by increasing demand for, and our total sales volume of, those policies.

The Size and Productivity of Our Sales Force

As a distributor of insurance products, we generate revenue primarily through our sales force, which consists of individual sales agents in our distribution and service network and a relatively small number of in-house sales representatives. The size of our sales force and its productivity, as measured by the average number of insurance products sold per person, the average premium per product sold and the average premiums generated per person during any specified period, directly affect our revenue and results of operations. In recent years, some entrepreneurial management staffs or senior sales agents of major insurance companies in China have chosen to leave their employers or principals and become independent agents. We refer to these independent agents as

“entrepreneurial agents.” An entrepreneurial agent is usually able to assemble and lead a team of sales agents. We have been actively recruiting and will continue to recruit entrepreneurial agents to join our distribution and service network as our sales agents. Entrepreneurial agents have been instrumental to the development of our life insurance business.

Acquisitions

The professional insurance intermediary sector in China is still at an early development stage and highly fragmented. Historically, we have expanded our distribution and service network in part through selective acquisitions of high-quality independent insurance intermediary companies. Since 2008, we, through our consolidated affiliated entities in the PRC, acquired controlling interests in 18 insurance agencies (excluding Datong and its subsidiaries), five insurance claims adjusting firms (one of which was restructured into a holding company of the three claims adjusting firms) and one online insurance service company as of March 31, 2015. In recent years, market opportunities for independent insurance intermediaries have expanded rapidly due to the growth of the internet and we have launched several online platforms to embrace these opportunities. In order to strengthen the core competitiveness of our online platforms, we intend to seek acquisitions of businesses including leading wealth management companies engaged in internet finance, or companies that have innovative business models or leading technologies in internet finance. We expect acquisitions to have a positive impact on our results of operations in the long run. However, acquisitions also involve significant risks and uncertainties. See “Item 3. Key Information — Risk Factors — D.Risks Related to Our Business and Our Industry — If we fail to integrate acquired companies efficiently, or if the acquired companies do not perform to our expectations, our business and results of operations may be adversely affected.” In addition, any write-down of goodwill due to impairment and the amortization of intangible assets acquired could have a negative impact on our results of operations. See “Item 3. Key Information — D.Risk Factors — Risks Related to Our Business and Our Industry — If we are required to write down goodwill and other intangible assets, our financial condition and results may be materially and adversely affected.”

Commission Rates for Individual Sales Agents

A large component of our operating costs and expenses is commissions paid to our individual sales agents. In order to retain sales agents, we must pay commissions at a level comparable to the commissions paid by our competitors. Intensified competition for productive sales agents within the Chinese insurance industry and rising salaries in China have led to a significant increase in commission rates in recent years. The increase in commission rates has had a negative impact on our results of operations. If we are forced to further increase our commission rates for individual sales agents due to competition or otherwise, our operating costs and expenses will increase correspondingly.

Product and Service Mix

We began distributing automobile insurance products in 1999 and expanded our product offerings to other property and casualty insurance products in 2002 and then to individual life insurance products in 2006, primarily to individual customers. We further broadened our service offering to cover insurance claims adjusting services in 2008. We started to offer insurance brokerage services for commercial line insurance to corporate clients and reinsurance brokerage services in 2010 and referral services for wealth management products in 2012.

In the first quarter of 2014, we realigned our financial reporting structure into three business segments that more accurately reflect our organizational structure and changing business mix. Under the realigned business structure, our business is divided into three reporting operating segments: (1) insurance agency, (2) insurance brokerage, and (3) claims adjusting.

Insurance Agency Segment

Our largest segment by revenue, the insurance agency segment, provides a broad range of property and casualty and life insurance products to individual customers. The property and casualty insurance policies we distribute are typically for one-year terms, with a single premium payable at the beginning of the term. Accordingly, we receive a single commission or fee for each property and casualty policy our customers purchase. In order for us to have recurring commission and fee revenue from property and casualty insurance products, our customers have to renew their policies or purchase new policies through us every year. Most individual life insurance policies we sell require periodic payment of premiums, typically annually, during a pre-determined payment period, generally ranging from five to 25 years. For each such policy that we sell, insurance companies will pay us a first-year commission and fee based on a percentage of the first year’s gross premiums, and subsequent commissions and fees

based on smaller percentages of the renewal premiums paid by the insured throughout the payment period of the policy. Therefore, once we sell a life insurance policy with a periodic payment schedule, it can bring us a steady flow of commission and fee revenue throughout the payment period as long as the insured meets his or her premium payment commitment.

Because insurance companies pay us first-year commissions and fees for most life insurance products at rates higher than those for property and casualty insurance products, we expect a positive impact on our revenue if our distribution of life insurance products increases in the future. However, we will also incur a corresponding increase in operating costs because we pay our sales agents a higher commission and fee for distributing life insurance products. Hence, gross margin attributable to the agency segment remained relatively stable in 2012, 2013 and 2014.

Insurance Brokerage Segment

For insurance brokerage services in connection with commercial line insurance, insurance companies typically pay us brokerage fees as a percentage of the insurance premiums. We pay our in-house insurance brokers salary or non-affiliated brokers who we assist in the negotiation or placement of insurance programs with underwriters a share of the commissions we receive from insurance companies. Gross margin of this line of business was slightly higher than that of our retail line of property and casualty insurance business and our life insurance business and lower than that of claims adjusting business. We expect the revenues from our insurance brokerage business as a percentage of our total net revenues to increase over the next few years and that such an increase will have a positive impact on our gross margin and operating margin.

Claims Adjusting Segment

The fees we receive for our claims adjusting services are calculated based on the types of insurance involved. For services provided in connection with property and casualty insurance (other than marine cargo insurance and automobile insurance), our fees are calculated as a percentage of the recovered amount from insurance companies plus travel expenses. For services provided in connection with marine cargo insurance, our fees are charged primarily on an hourly basis and, in some cases, as a percentage of the amount recovered from insurance companies. For automobile insurance, our fees are generally fixed and the amounts collected are based on the types of services provided. In some cases, our fees are charged based on the number of claims adjustors involved in providing the services. We pay our in-house claims adjustors a base salary plus a commission calculated based on a small percentage of the service fees we receive from insurance companies or the insured. The claims adjusting business has become and likely will continue to be an important source of our net revenues. The gross margin and operating margin attributable to the claims adjusting business were higher than those for both property and casualty insurance products and life insurance product. We expect that revenues from our claims adjusting business as a percentage of our total net revenues to remain stable over the next few years.

Other Services

During 2012 and 2013, we received service fees from a subsidiary of CFSG for the provision of IT services and referral service fees from our wealth management product supplier if customers referred by our sales agents purchase wealth management products from the supplier. We paid commissions to our sales agents, which are calculated as a percentage of the value of wealth management products purchased by the customers. Gross margin from this business was higher than other business lines except for the claim adjustment business. However, in 2014 we discontinued providing IT services to the subsidiary of CFSG. We also ceased offering wealth management products to our customers because of tightened regulations on the distribution of wealth management products by insurance intermediaries.

Share-based Compensation Expenses

Our historical results of operations have been materially affected by the share-based compensation expenses incurred. In 2012, 2013 and 2014, we incurred share-based compensation expenses of RMB66.9 million, RMB45.3 million and RMB23.6 million (US\$3.8 million), respectively. See “Item 5. Operating and Financial Review and Prospects — A. Operating Results — Key Performance Indicators — Operating Costs and Expenses — Share-based Compensation Expenses” for a more detailed discussion of our historical share-based compensation expenses. In order to attract and retain the best personnel for positions of substantial responsibility, provide additional incentive to employees, directors and consultants and promote the success of our business, we adopted a share incentive plan

in October 2007. Under our 2007 Share Incentive Plan, as amended and restated in December 2008, we may issue an aggregate number of our ordinary shares, equal to 15% of our total number of shares outstanding immediately after the closing of our initial public offering, to cover awards granted under the plan. See “Item 6. Directors, Senior Management and Employees — B. Compensation — Share Incentives — 2007 Share Incentive Plan.” We expect that share-based compensation expenses will continue to be a significant component of our operating expenses.

Seasonality

Our quarterly results of operations are affected by seasonal variations caused by insurance companies’ business practices and consumer demand. Historically, insurance companies, under pressure to meet their annual sales targets, would increase their sales efforts during the fourth quarter of a year by, for example, offering more incentives for insurance intermediaries to increase sales. As a result, our commission and fee revenue for the fourth quarter of a year has generally been the highest among all four quarters. Business activities, including buying and selling insurance, usually slow down during the Chinese New Year festivities, which occur during the first quarter of each year. As a result, our commission and fee revenue for the first quarter of a year has generally been the lowest among all four quarters.

Key Performance Indicators

Before January 1, 2014, we operated in three operating segments: (1) property and casualty insurance; (2) life insurance; and (3) insurance claims adjusting services. In the first quarter of 2014, we realigned our financial reporting structure into four business segments that more accurately reflect our organizational structure and changing business mix. Under the realigned business structure, our business is divided into three reporting operating segments: (1) insurance agency, (2) insurance brokerage, and (3) claims adjusting. The insurance agency segment provides a broad range of property and casualty and life insurance products to individual customers. Historical results reflecting the new business segments for 2012, 2013 and 2014 are also restated.

Net Revenues

Our revenues are net of PRC business tax. In 2012, 2013 and 2014, we generated net revenues of RMB1.6 billion, RMB1.8 billion and RMB2.2 billion (US\$346.5 million), respectively. We derive net revenues from the following sources:

- *Insurance agency segment:* commissions paid by insurance companies for the distribution of (i) property and casualty products, and (ii) life insurance products, primarily to individual customers, which accounted for 82.3%, 80.7% and 75.6% of our net revenues for 2012, 2013 and 2014, respectively;
- *Insurance brokerage segment:* commissions and advisory fees for (i) insurance and reinsurance brokerage services primarily paid by the insurance companies, and (ii) risk management consulting services primarily paid by the insureds, which accounted for 3.1%, 3.6% and 10.8% of our net revenues for 2012, 2013 and 2014, respectively;
- *Claims adjusting segment:* commissions and fees primarily paid by the insurance companies and, to a lesser degree, by the insureds for the provision of claims adjusting services, which accounted for 13.7%, 14.9% and 13.6% of our net revenues for 2012, 2013 and 2014, respectively;
- *Other services:* which consists of fees for non-insurance related services such as service fees derived from the referral of wealth management products and the provision of IT services. These other service fees accounted for 0.9%, 0.8% and nil of our net revenues for 2012, 2013 and 2014, respectively.

The following table sets forth our total net revenues earned from each of our reporting segments both in absolute amounts and as percentages of total net revenues, for the periods indicated:

	Year Ended December 31,						
	2012		2013		2014		
	RMB	%	RMB	%	RMB	US\$	
	(in thousands except percentages)						
Insurance agency segment	1,305,310	82.3	1,418,512	80.7	1,624,410	261,807	75.6
Insurance brokerage segment.....	48,855	3.1	63,418	3.6	232,620	37,492	10.8
Claims adjusting segment.....	217,497	13.7	261,206	14.9	292,981	47,220	13.6
Other services	14,455	0.9	13,888	0.8	—	—	—
Total net revenues	1,586,117	100.0	1,757,024	100.0	2,150,011	346,519	100.0

Net revenues from the insurance agency segment, in particular, automobile insurance products, have been our primary source of revenue since our inception. Net revenues from the insurance agency segment increased from 2012 to 2014. As the per capita automobile ownership in China is still low, automobile sales in China still have significant growth potential. Therefore, we expect that automobile insurance products will continue to be a significant contributor to our total net revenues in the next several years.

We established an insurance brokerage business unit to expand into the business of offering commercial lines of property and casualty insurance in 2010. Net revenues from the insurance brokerage segment increased from 2012 to 2014 in both absolute amounts and as a percentage of our total net revenues, primarily reflecting the strong growth of our insurance brokerage business during the period. As we continue to grow our insurance brokerage business, we expect that net revenues from the insurance brokerage segment will remain stable as a percentage of our total net revenues in the next few years.

We began providing claims adjusting services in 2008. Net revenues from our claims adjusting segment increased from 2012 to 2014 in absolute amounts, primarily reflecting the stable growth of our claims adjusting business during the period. As we continue to grow our claims adjusting business, we expect that net revenues from claims adjusting services will remain stable as a percentage of our total net revenues in the next few years.

Net revenues from other services mainly includes non-insurance related services such as referral services of wealth management products and IT service fees. We began to offer wealth management products to our insurance customers in 2012 and ceased the service in 2014 due to tightened regulations on the distribution of wealth management products by insurance intermediaries. In 2012 and 2013, we provided IT platform and software services to a third party and an affiliated entity through one of our affiliated entities, Litian Zhuoyue, including system operation, data storage, data maintenance, system security and efficiency maintenance, on-site support, software optimization and maintenance and other IT platform related services. We ceased providing IT services to these entities in 2014. We do not expect these service fees to constitute a significant portion of our total net revenues in the future.

The commissions and fees we receive from the distribution of insurance products are based on a percentage of the premiums paid by the insured. Commission and fee rates generally depend on the type of insurance products, the particular insurance company and the region in which the insurance products are sold. We typically receive payment of the commissions and fees from insurance companies for insurance products on a monthly basis. Some of the fees are paid to us annually or semi-annually in the form of performance bonuses after we achieve specified premium volume or policy renewal goals as agreed upon between the insurance companies and us.

We are compensated primarily by insurance companies for our claims adjusting services. The fees we receive for our claims adjusting services depend on the types of insurance involved. For services provided in connection with marine cargo insurance, our fees are charged primarily on an hourly basis and, in some cases, as a percentage of the amount recovered from insurance companies. For claims adjusting services related to automobile insurance, our fees are generally fixed on a per claim basis, or in some cases, on a per head basis. These fees are typically paid to us on a quarterly basis. For services provided in connection with other property and casualty insurance, our fees are calculated as a percentage of the recovered amount from insurance companies plus travel expenses. We typically receive payment for these fees on a semi-annual or annual basis.

Operating Costs and Expenses

Our operating costs and expenses consist of costs incurred in connection with the distribution of insurance products and the provision of claims adjusting services, selling expenses and general and administrative expenses. The following table sets forth the components of our operating costs and expenses, both in absolute amounts and as percentages of our net revenues, for the periods indicated.

	Year Ended December 31,						
	2012		2013		2014		
	RMB	%	RMB	%	RMB	US\$	
	(in thousands except percentages)						
Total net revenues	1,586,117	100.0	1,757,024	100.0	2,150,011	346,519	100.0
Operating costs	(1,085,809)	(68.5)	(1,293,372)	(73.6)	(1,615,157)	(260,316)	(75.1)
Selling expenses	(78,449)	(4.9)	(96,461)	(5.5)	(107,263)	(17,288)	(5.0)
General and administrative expenses	(356,033)	(22.4)	(349,205)	(19.9)	(396,692)	(63,935)	(18.5)
Total operating costs and expenses	(1,520,291)	(95.8)	(1,739,038)	(99.0)	(2,119,112)	(341,539)	(98.6)

Operating Costs

We incur costs primarily in connection with the distributions of insurance products and provisions of insurance brokerage and claims adjusting services. The costs that we incurred increased in absolute amounts each year from 2012 to 2014 primarily as a result of an increase in net revenues and an increase in the size of our sales force and claims adjusters. We rely mainly on individual sales agents and a small number of in-house sales representatives, and to a much lesser degree, on our online insurance marketplace for the distributions of insurance products. For insurance and reinsurance brokerage services, we mainly rely on our in-house brokers and non-affiliated brokers. For claims adjusting services, we rely entirely on our in-house claims adjusters. Costs incurred as a percentage of net revenues increased from 2012 to 2014, primarily due to a significant rise in policy acquisition costs and commission costs as a result of increasing labor cost pressure and greater market competition. We anticipate that our costs will continue to increase in absolute amounts as we further grow our business.

Selling Expenses

Our selling expenses primarily consist of:

- salaries and employment benefits for employees who work in back office below the provincial management level;
- office rental, telecommunications and office supply expenses incurred in connection with sales activities; and
- advertising and marketing expenses.

We expect that our selling expenses will continue to increase as we expand our distribution and service network in both existing markets and new geographic regions. As we grow in size, we also intend to spend more on marketing and advertising to enhance our brand recognition and promote our online platforms.

General and Administrative Expenses

Our general and administrative expenses principally comprise:

- salaries and benefits for our administrative staff;
- share-based compensation expenses for managerial and administrative staff;
- research and development expenses in relation to our mobile and online programs;
- professional fees paid for valuation, market research, legal and auditing services;
- compliance-related expenses, including expenses for professional services;
- depreciations and amortizations;
- office rental expenses;

- travel and telecommunications expenses;
- entertainment expenses;
- office supply expenses for our administrative staff; and
- foreign exchange loss.

We expect that our general and administrative expenses will increase as we hire additional administrative personnel, pay higher labor costs and incur additional costs in connection with the expansion of our business, and our efforts to develop our e-commerce platform.

Share-based compensation expenses. Share-based compensation expenses constituted one of the largest components of our general and administrative expenses in 2012, 2013 and 2014. We incurred share-based compensation with respect to certain managerial and administrative staff and a small number of sales agents in 2012, 2013 and 2014. The following table sets forth our share-based compensation expenses, both in absolute amounts and as percentages of our general and administrative expenses, for the periods indicated.

	For the Year Ended December 31,						
	2012		2013		2014		
	RMB	%	RMB	%	RMB	US\$	%
	(in thousands except percentages)						
Share-based compensation expenses	66,878	18.8	45,317	13.0	23,598	3,803	5.9
Others	289,155	81.2	303,888	87.0	373,094	60,132	94.1
General and administrative expenses	356,033	100.0	349,205	100.0	396,692	63,935	100.0

Our share-based compensation expenses in 2012, 2013 and 2014 were primarily attributable to the options granted in November 2008, March 2009 and March 2012.

For more information about our share-based compensation expenses, please see Note 19 to our audited consolidated financial statements included in this annual report.

Taxation

We and each of our subsidiaries and consolidated affiliated entities file separate income tax returns.

The Cayman Islands, the British Virgin Islands and Hong Kong

Under the current laws of the Cayman Islands and the British Virgin Islands, we and our subsidiaries incorporated in the British Virgin Islands are not subject to income or capital gains taxes. In addition, dividend payments are not subject to withholding tax in those jurisdictions. Our subsidiary incorporated in Hong Kong is subject to a normal profits tax rate of 16.5% of its assessable profits for the years of assessment ending March 31, 2013, 2014 and 2015. Payment of dividends is not subject to withholding tax in Hong Kong.

PRC

Pursuant to the PRC EIT laws in effect before January 1, 2008, most of our subsidiaries and consolidated affiliated entities in China were subject to the standard EIT rate, which was 33%. Our subsidiaries and consolidated affiliated entities located in Shenzhen, a special economic zone, were subject to an EIT rate of 15%. The EIT was calculated based on taxable income under PRC accounting principles. For some entities, the EIT is calculated based on the actual revenue at a deemed tax rate according to the local practices of the respective local tax bureaus in charge. In addition, our subsidiaries and consolidated affiliated entities in China are subject to a 5% business tax on gross revenues generated from providing services and two additional fees, the city construction fee and the education fee, which are generally calculated at 7% and 3%, respectively, on business tax.

On March 16, 2007, the National People's Congress of China enacted the EIT Law which became effective on January 1, 2008. On December 6, 2007, the State Counsel issued the Implementation Rules which became effective

on January 1, 2008. On December 26, 2007, the State Council issued the Transition Preferential Policy Circular which also became effective on January 1, 2008. According to the EIT Law, as further clarified by the Implementation Rules, the Transition Preferential Policy Circular and other related regulations, foreign-invested enterprises and domestic enterprises are subject to EIT at a uniform rate of 25%. The EIT rate of enterprises established before March 16, 2007 that were eligible for preferential tax treatments according to then effective tax laws and regulations will continue to enjoy such preferential tax treatments in the following manners: (1) in the case of preferential tax rates, for a five-year transition period starting from January 1, 2008, during which the EIT rate of such enterprises will gradually increase to the uniform 25% EIT rate by January 1, 2012; or (2) in the case of preferential tax exemption or reduction with a specified term, until the expiration of such term. However, if such an enterprise has not enjoyed the preferential treatments yet because of its failure to make a profit, its term for preferential treatment will be deemed to start from 2008.

As a result of the implementation of the EIT Law, certain preferential tax treatments enjoyed by some of our consolidated affiliated entities expired on January 1, 2008. Our effective tax rate increased significantly in 2008 and 2009 compared to 2007, primarily due to these expirations. According to the EIT Law and related regulations, the preferential tax rates enjoyed by some of our PRC subsidiaries and consolidated affiliated entities incorporated in Shenzhen, a special economic zone, will gradually increase to the uniform 25% EIT rate during the five year transition period. An increase in the EIT rates for those entities pursuant to the EIT Law could result in an increase in our effective tax rate, which could materially and adversely affect our results of operations.

Pursuant to a Notice of Preferential Policies of EIT, jointly issued by the PRC Ministry of Finance and the SAT on February 22, 2008, a newly established software enterprise was entitled to an exemption from EIT for the first two years and a 50% reduction of EIT for the following three years starting from the first profit-making year. Our affiliated entities, Litian Zhuoyue and Shenzhen CNinsure Software Technology Co., Ltd. (also known as Shenzhen Fanhua Software Technology Co., Ltd.), are entitled to the tax holidays under this notice from 2010 to 2014 and 2012 to 2016, respectively.

Critical Accounting Policies

We prepare financial statements in accordance with U.S. GAAP, which requires us to make judgments, estimates and assumptions that affect the reported amounts of our assets and liabilities and the disclosure of our contingent assets and liabilities at the end of each fiscal period, as well as the reported amounts of revenues and expenses during each fiscal period. We continually evaluate these judgments and estimates based on our own historical experience, knowledge and assessment of current business and other conditions, our expectations regarding the future based on available information and assumptions that we believe to be reasonable. This forms our basis for making judgments about matters that are not readily apparent from other sources. Since the use of estimates is an integral component of the financial reporting process, our actual results could differ from those estimates. Some of our accounting policies require a higher degree of judgment than others in their application.

The selection of critical accounting policies, the judgments and other uncertainties affecting application of those policies and the sensitivity of reported results to changes in conditions and assumptions are factors that should be considered when reviewing our financial statements. We believe the following accounting policies involve the most significant judgments and estimates used in the preparation of our financial statements.

Revenue Recognition

Our revenue is derived principally from the provision of insurance brokerage, agency and claims adjusting services. We recognize revenue when all of the following have occurred: persuasive evidence of an agreement with the insurance companies or insurance agencies exists, services have been provided, the fees for such services are fixed or determinable and collectability of the fee is reasonably assured.

Insurance agency services are considered to be rendered and completed, and revenue is recognized, at the time an insurance policy becomes effective, that is, when the signed insurance policy is in place and the premium is collected from the insured. We have met all the four criteria of revenue recognition when the premiums are collected by us or the respective insurance companies and not before, because collectability is not ensured until receipt of the premium. Accordingly, we do not accrue any commission and fees prior to the receipt of the related premiums. Insurance brokerage services revenue is recognized when the signed insurance policy is in place and the premium is collected from the insured and the commission settlement confirmation is received from insurance companies, because the commission rate for brokerage services is negotiated case by case and our fees are fixed when such confirmation is received. No allowance for cancellation has been recognized for agency and brokerage

businesses as we estimate, based on its past experience that the cancellation of policies rarely occurs. Any subsequent commission adjustments in connection with policy cancellations which have been de minimis to date are recognized upon notification from the insurance carriers. Actual commission and fee adjustments in connection with the cancellation of policies were 0.1%, 0.2% and 0.2% of the total commission and fee revenues during years ended December 31, 2012, 2013 and 2014, respectively. For agency and brokerage services, we may receive a performance bonus from insurance companies as agreed and per contract provisions. Once an agency and brokerage company achieves its performance target, typically a certain sales volume, the bonus will become due. The bonus amount is computed based on the insurance premium amount multiplied by an agreed-upon percentage. The contingent commissions are recorded when a performance target is being achieved.

Insurance claims adjusting services are considered to be rendered and completed, and revenue is recognized at the time loss adjusting reports are confirmed being received by insurance companies. We have met all the four criteria of revenue recognition when the service is provided and the loss adjusting report is accepted by insurance companies. We do not accrue any service fee before the receipt of an insurance company's acknowledgement of receiving the adjusting reports. Any subsequent adjustments in connection with discounts which have been de minimis to date are recognized in revenue upon notification from the insurance companies.

Other service fees include commission revenues derived from the referral of wealth management products to our customers. Revenues are recorded when the products have been sold to customers, at which time we have fulfilled all our services obligations.

We present revenue net of sales taxes incurred. The sales taxes amounted to RMB99.0 million, RMB99.9 million and RMB121.0 million (US\$19.5 million) for the years ended December 31, 2012, 2013 and 2014, respectively. According to the Announcement on the VAT Reform Pilot Program of the Transportation and Selected Modern Service Sectors issued by the State Tax Bureau in July 2012, the transportation and some selected modern service sectors, including research and development (R&D) and technical services, information technology services, cultural creative services, logistics support services, tangible personal property leasing services, and assurance and consulting service, should pay value-added tax instead of business tax based on a predetermined timetable (hereinafter referred to as the "VAT Reform"), effective September 1, 2012 for entities in Beijing and November 1, 2012 for entities in Guangdong. The VAT Reform expanded nation-wide in August 1, 2013.

Share-based Compensation

Employee share-based compensation

All forms of share-based payments to employees, including employee stock options and employee stock purchase plans, are treated the same as any other form of compensation by recognizing the related cost in the consolidated statement of income and comprehensive income (loss). Compensation cost related to employee stock options or similar equity instruments is measured at the grant date based on the fair value of the award and is recognized over the service period, which is usually the vesting period. If an award requires satisfaction of one or more performance, or service conditions (or any combination thereof), compensation cost is recognized if the requisite service is rendered, and no compensation cost is recognized if the requisite service is not rendered. We recognize compensation cost for an award with only service conditions that has a graded vesting schedule on a straight-line basis over the requisite service period for the entire award, provided that the amount of compensation cost recognized at any date must at least equal the portion of the grant-date value of the award that is vested at that date.

For awards with both service and performance conditions, if each tranche has an independent performance condition for a specified period of service, we recognize the compensation cost of each tranche as a separate award on a straight-line basis; if each tranche has performance conditions that are dependent of activities that occur in the prior service periods, we recognize the compensation cost on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was, in-substance, multiple awards.

No compensation cost is recognized for instruments that employees forfeit because a service condition or a performance condition is not satisfied.

Non-employee share-based compensation

Share-based compensation related to non-employees is recognized as compensation expenses ratably over the requisite service periods. We measure the cost of non-employee services received in exchange for share-based

compensation based on the fair value of the equity instruments issued. We measure the fair value of the equity instruments in these transactions on the measurement date, which is determined as the earlier of the date at which a commitment for performance by the counterparty to earn the equity instruments is reached, or the date at which the counterparty's performance is complete. The quantity and terms of the equity instruments issued to non-employees are not known up front as they are dependent upon counterparty performance conditions, we measure the equity instruments at their then-current lowest aggregate fair value at each reporting dates, and attributes the changes in those fair values over the future services period until the measurement date has been established.

Modification of an Award

A modification of the terms or conditions of an equity award is treated as an exchange of the original award for a new award. We measure the effects of a modification as follows:

a. Incremental compensation cost shall be measured as the excess, if any, of the fair value of the modified award determined over the fair value of the original award immediately before its terms are modified, measured based on the share price and other pertinent factors at that date; and

b. the total recognized compensation cost for an equity award shall at least equal the fair value of the award at the grant date unless at the date of the modification the performance or service conditions of the original award are not expected to be satisfied.

We record the incremental fair-value-based measure, if any, of the modified award, as compensation cost on the date of modification (for vested awards) or over the remaining service (vesting) period (for unvested awards).

Cancellation of an Award

A cancellation of an award that is not accompanied by the concurrent grant of (or offer to grant) a replacement award or other valuable consideration shall be accounted for as a repurchase for no consideration. Accordingly, any previously unrecognized compensation cost shall be recognized at the cancellation date.

We use the Black-Scholes and Binomial option-pricing model to determine the fair value of stock options. Determining the value of our share-based compensation expense in future periods requires the input of highly subjective assumptions, including estimated forfeitures and the price volatility of the underlying shares. The management estimates the forfeitures of the shares based on past employee retention rates and its expectations of future retention rates, and it will prospectively revise the forfeiture rates based on actual history. The share compensation charges may change based on changes to the actual forfeitures. The actual share-based compensation expenses may be materially different from the current expectations.

Share-based compensation expenses of RMB66.9 million, RMB45.3 million and RMB23.6 million (US\$3.8 million) for the years ended December 31, 2012, 2013 and 2014, respectively, were included in the general and administrative expenses.

Impairment of Goodwill, Intangible Assets and Long-lived Assets

Goodwill and intangible assets with indefinite lives are required to be tested for impairment at least annually or more frequently if events or changes in circumstances indicate that these assets might be impaired. If we determine that the carrying value of our goodwill or acquired intangible assets have been impaired, the carrying value will be written down.

To assess potential impairment of goodwill, we perform an assessment of the carrying value of our reporting units at least on an annual basis or when events and changes in circumstances occur that would more likely than not reduce the fair value of our reporting units below their carrying value. If the carrying value of a reporting unit exceeds its fair value, we would perform the second step in our assessment process and record an impairment loss to earnings to the extent the carrying amount of the reporting unit's goodwill exceeds its implied fair value. We estimate the fair value of our reporting units through internal analysis and external valuations as needed, which utilize income and market valuation approaches through the application of capitalized earnings and discounted cash flow. These valuation techniques are based on a number of estimates and assumptions, including the projected future operating results of the reporting unit, appropriate discount rates and long-term growth rates.

The fair value of each reporting unit is determined by analysis of discounted cash flows. The significant assumptions regarding our future operating performance are revenue growth rates, commission and fees growth rates, discount rates and terminal values. If any of these assumptions changes, the estimated fair value of our reporting units will change, which could affect the amount of goodwill impairment charges, if any.

In 2012, 2013 and 2014, management compared the carrying value of each reporting unit, including assigned goodwill, to its respective fair value, which is step one of the two-step impairment test. The fair values of all reporting units were estimated by using the income approach. Based on this quantitative test, it was determined that the fair value of each reporting unit tested exceeded its carrying amount and, therefore, step two of the two-step goodwill impairment test was not required. Management concluded that goodwill was not impaired as of December 31, 2012, 2013 and 2014.

- For the insurance agency segment, we projected a five-year discounted cash flow. Basic assumptions in the cash flow projection included, among others, an estimated annual growth of between 5% to 15% in net revenues in the coming 5 years with reference to the stabilizing growth rate in 2014 a terminal revenue growth rate of 3%, and gross profit of 23% to 25%, which is similar to the level in 2014. Any projection beyond 5 years by us cannot be estimated with reasonable accuracy, since the business environment is rapidly changing. The discount rate was set at 22%, based on the segment's weighted average cost of capital and adjusted to reflect our and business-specific risks. For the agency segment, we had goodwill of RMB133.5 million (US\$21.5 million) as of December 31, 2014. The estimated fair value of the reporting unit exceeded its carrying value at December 31, 2014. Consequently, no goodwill impairment has been recognized.
- For the claims adjusting segment, related goodwill was completely written off in 2011.

The use of discounted cash flow methodology requires significant judgments including estimating future revenues and costs, industry economic factors, future profitability, determination of our weighted average cost of capital and other variables. Although we believe that the assumptions adopted in our discounted cash flow model are reasonable, those assumptions are inherently unpredictable and uncertain. If the reporting unit is at risk of failing step one of the impairment test, we will describe the material events, trends and uncertainties that affect the reported income and the extent to which income is so affected.

Amortizable intangible assets and long-lived assets are required to be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable from its undiscounted future cash flow. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge shall be recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset.

Impairment of intangible assets with definite lives

We evaluate the recoverability of identifiable intangible assets with determinable useful lives, whenever events or changes in circumstances indicate that these assets' carrying amounts may not be recoverable. We measure the carrying amount of identifiable intangible asset with determinable useful live against the estimated undiscounted future cash flows associated with it. Impairment exists when the sum of the expected future net cash flows is less than the carrying value of the asset being evaluated. Impairment loss is calculated as the amount by which the carrying value of the asset exceeds its fair value. Fair value is estimated based on various valuation techniques, including the discounted value of estimated future cash flows. The evaluation of asset impairment requires us to make assumptions about future cash flows over the life of the asset being evaluated. These assumptions require significant judgment and actual results may differ from assumed and estimated amounts. During the years ended December 31, 2012, 2013 and 2014, no impairment loss on identifiable intangible assets with determinable useful lives was recognized.

Impairment of indefinite-lived intangible assets

An intangible asset that is not subject to amortization is tested for impairment at least annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. Such impairment test is to compare the fair values of assets with their carrying amounts and an impairment loss is recognized if and when the carrying amounts exceed the fair values. The estimates of fair values of intangible assets not subject to amortization are determined using various discounted cash flow valuation methodologies. Significant assumptions are inherent in this process, including estimates of discount rates or market price. Discount rate assumptions are based on an assessment of the risk inherent in the respective intangible assets. Market prices are based on potential purchase quote from third party, if any. During the years ended December 31, 2012, 2013 and 2014, no impairment loss on its indefinite-lived intangible assets was recognized.

Income Taxes

We recognize deferred tax assets and liabilities for temporary differences between the tax basis of assets and liabilities and their reported amounts in the financial statements, net operating loss carry-forwards and credits by applying enacted statutory tax rates applicable to future years. Deferred tax assets are reduced by a valuation allowance when, in our opinion, it is more likely than not that some portion or all of the deferred tax assets will not be realized. We record a valuation allowance to reduce our deferred income tax assets to an amount that we believe will more likely than not be realized. We have considered future taxable income and ongoing prudent and feasible tax planning strategies in assessing the need and amount for the valuation allowance. In the event we were to determine that we would be able to realize our deferred income tax assets in the future in excess of our net recorded amount, an adjustment to our deferred income tax assets would increase income in the period such determination was made. Alternatively, should we determine that we would not be able to realize all or part of our net deferred income tax assets in the future, an adjustment to our deferred income tax assets would decrease income in the period such determination was made. Current income taxes are provided for in accordance with the laws of the relevant taxing authorities. The components of the deferred tax assets and liabilities are individually classified as current and non-current based on their characteristics.

We recognize in our financial statements uncertainties in income taxes by prescribing a recognition threshold and measurement attributes for financial statement disclosure of tax positions taken, or expected to be taken on a tax return, based on the standards of ASC subtopic 740-10 ("ASC 740-10"), *Income taxes*. The impact of an uncertain income tax position on the income tax return is recognized at the largest amount that is more-likely-than- not to be sustained upon audit by the relevant taxing authority. An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained.

In 2014, we have adopted FASB ASU No. 2013-11—Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists prospectively, to present an unrecognized tax benefit, or a portion of an unrecognized tax benefit, in the balance sheets as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except to the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require us to use, and we do not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit is presented in the balance sheets as a liability.

Recent Accounting Pronouncements

In May 2014, the FASB issued a new pronouncement which affects any entity using U.S. GAAP that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets unless those contracts are within the scope of other standards (e.g., insurance contracts or lease contracts). This ASU will supersede the revenue recognition requirements in Topic 605, *Revenue Recognition*, and most industry-specific guidance. This ASU also supersedes some cost guidance included in Subtopic 605-35, *Revenue Recognition—Construction-Type and Production-Type Contracts*. In addition, the existing requirements for the recognition of a gain or loss on the transfer of nonfinancial assets that are not in a contract with a customer (e.g., assets within the scope of Topic 360, *Property, Plant, and Equipment*, and intangible assets within the scope of Topic 350, *Intangibles—Goodwill and Other*) are amended to be consistent with the guidance on recognition and measurement (including the constraint on revenue) in this ASU.

The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the following steps:

- Step 1: Identify the contract(s) with a customer.
- Step 2: Identify the performance obligations in the contract.
- Step 3: Determine the transaction price.
- Step 4: Allocate the transaction price to the performance obligations in the contract.
- Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation.

For a public entity, the amendments in this ASU are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted.

An entity should apply the amendments in this ASU using one of the following two methods:

1. Retrospectively to each prior reporting period presented and the entity may elect any of the following practical expedients:

- For completed contracts, an entity needs not restate contracts that begin and end within the same annual reporting period.
- For completed contracts that have variable consideration, an entity may use the transaction price at the date the contract was completed rather than estimating variable consideration amounts in the comparative reporting periods.
- For all reporting periods presented before the date of initial application, an entity needs not disclose the amount of the transaction price allocated to remaining performance obligations and an explanation of when the entity expects to recognize that amount as revenue.

2. Retrospectively with the cumulative effect of initially applying this ASU recognized at the date of initial application. If an entity elects this transition method it should also provide the additional disclosures in reporting periods that include the date of initial application of:

- The amount by which each financial statement line item is affected in the current reporting period by the application of this ASU as compared to the guidance that was in effect before the change.
- An explanation of the reasons for significant changes.

We are in the process of assessing the impact of adoption of this pronouncement on its consolidated financial condition or results from operations.

In June 2014, the FASB issued a new pronouncement which requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Topic 718, *Compensation – Stock Compensation*, as it relates to awards with performance conditions that affect vesting to account for such awards. The performance target should not be reflected in estimating the grant-date fair value of the award. Compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the period(s) for which the requisite service has already been rendered. If the performance target becomes probable of being achieved before the end of the requisite service period, the remaining unrecognized compensation cost should be recognized prospectively over the remaining requisite service period. The total amount of compensation cost recognized during and after the requisite service period should reflect the number of awards that are expected to vest and should be adjusted to reflect those awards that ultimately vest. The requisite service period ends when the employee can cease rendering service and still be eligible to vest in the award if the performance target is achieved.

The amendments in this ASU are effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. Earlier adoption is permitted.

Entities may apply the amendments in this ASU either: (a) prospectively to all awards granted or modified after the effective date; or (b) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. If retrospective transition is adopted, the cumulative effect of applying this ASU as of the beginning of the earliest annual period presented in the financial statements should be recognized as an adjustment to the opening retained earnings balance at that date. In addition, if retrospective transition is adopted, an entity may use hindsight in measuring and recognizing the compensation cost. We do not expect the adoption of this pronouncement to have a significant impact on our consolidated financial condition or results from operations.

In January 2015, the FASB issued a new pronouncement which eliminates from U.S. GAAP the concept of extraordinary items. Subtopic 225-20, *Income Statement - Extraordinary and Unusual Items*, required that an entity separately classify, present, and disclose extraordinary events and transactions. Presently, an event or transaction is presumed to be an ordinary and usual activity of the reporting entity unless evidence clearly supports its classification as an extraordinary item.

If an event or transaction meets the criteria for extraordinary classification, an entity is required to segregate the extraordinary item from the results of ordinary operations and show the item separately in the income statement, net of tax, after income from continuing operations. The entity also is required to disclose applicable income taxes and either present or disclose earnings-per-share data applicable to the extraordinary item.

The FASB heard from stakeholders that the concept of extraordinary items causes uncertainty because it is unclear when an item should be considered both unusual and infrequent. Additionally, some stakeholders said that although users find information about unusual or infrequent events and transactions useful, they do not find the extraordinary item classification and presentation necessary to identify those events and transactions. Other

stakeholders noted that it is extremely rare in current practice for a transaction or event to meet the requirements to be presented as an extraordinary item.

The amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. A reporting entity may apply the amendments prospectively. A reporting entity also may apply the amendments retrospectively to all prior periods presented in the financial statements. Early adoption is permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. We do not expect the adoption of this pronouncement to have a significant impact on our consolidated financial condition or results from operations.

Results of Operations

The following table sets forth our net revenues, operating costs and expenses and income from operations by reportable segments for the periods indicated.

Before January 1, 2014, we operated in three operating segments: (1) property and casualty insurance; (2) life insurance; and (3) insurance claims adjusting services. In the first quarter of 2014, we realigned our financial reporting structure to more accurately reflect our organizational structure and changing business mix. Under the realigned business structure, our business is divided into three reporting operating segments: (1) insurance agency, (2) insurance brokerage, and (3) claims adjusting. Historical results reflecting the new business segments for 2012, 2013 and 2014 are also restated.

Year ended December 31, 2014 Compared to Year Ended December 31, 2013

Net Revenues

Our total net revenues increased by 22.4% from RMB1.8 billion in 2013 to RMB2.2 billion (US\$346.5 million) in 2014 primarily attributable to increases in net revenues from our insurance agency, claims adjusting and insurance brokerage segments.

- Net revenues from our insurance agency segment increased by 14.5% from RMB1.4 billion in 2013 to RMB1.6 billion (US\$261.8 million) in 2014, primarily resulting from the increases in sales volume and acquisition of three agency companies in April 2014.
- Net revenues from insurance brokerage segment increased by 266.8% from RMB63.4 million in 2013 to RMB232.6 million (US\$37.5 million) in 2014, primarily due to an increase in our customer base as a result of efforts to expand sales channels, develop innovative product offerings and cultivate markets in the past three years and the low base in this segment during year of 2013.
- Net revenues from our claims adjusting segment increased by 12.2% from RMB261.2 million in 2013 to RMB293.0 million (US\$47.2 million) in 2014. The increase primarily resulted from sales volume growth in the auto-related claims adjustment business.

Operating Costs and Expenses

Operating costs and expenses increased by 21.9% from RMB1.7 billion in 2013 to RMB2.1 billion (US\$341.5 million) in 2014.

Operating Costs. Our operating costs increased by 24.9% from RMB1.3 billion in 2013 to RMB1.6 billion (US\$260.3 million) in 2014, primarily because of increases in operating costs for our agency insurance, brokerage insurance and claims adjusting segments.

- Operating costs for our agency insurance segment increased by 15.3% from RMB1.1 billion in 2013 to RMB1.3 billion (US\$203.4 million) in 2014. The significant increase was primarily due to the increase in commissions and fees paid to our sales agents, which reflected higher incentives to sales agents to promote the adoption of CNpad applications.
- Operating costs for our brokerage insurance segment increased by 292.0% from RMB47.4 million in 2013 to RMB185.6 million (US\$29.9 million) in 2014. The increase was primarily due to sales growth.

- Operating costs for our claims adjusting segment increased by 17.9% from RMB142.2 million in 2013 to RMB167.7 million (US\$27.0 million) in 2014. The increase was primarily due to an increase in sales volume and increased salaries for claims adjusters.

Selling Expenses. Our selling expenses increased by 11.2% from RMB96.5 million in 2013 to RMB107.3 million (US\$17.3 million) in 2014 primarily due to an increase in vehicle, office and marketing expenses.

General and Administrative Expenses. Our general and administrative expenses increased by 13.6% from RMB349.2 million in 2013 to RMB396.7 million (US\$63.9 million) in 2014. The increases is mainly due to expenses incurred on research and development of online projects like CNpad, eHuzhu and Chetong.net, offset by a decrease in share-based compensation expense.

Income from Operations

As a result of the foregoing factors, income from operations increased by 71.8% from RMB18.0 million in 2013 to RMB30.9 million (US\$5.0 million) in 2014.

- Income from operations for our agency insurance segment increased by 21.5% from RMB113.2 million in 2013 to RMB137.5 million (US\$22.1 million) in 2014.
- Income from operations for our brokerage insurance segment significantly increased by 267.0% from RMB9.7 million in 2013 to RMB35.6 million (US\$5.7 million) in 2014.
- Income from operations for our claims adjusting segment decreased by 35.6% from RMB27.1 million in 2013 to RMB17.4 million (US\$2.8 million) in 2014.

Other Income

Investment Income. Investment income represents income received from short term investments in collective trust products and interbank deposits. Our investment income increase by 397.9% from RMB8.9 million in 2013 to RMB44.2 million (US\$7.1 million) in 2014. The increase was primarily attributable to an increase in short term investment products.

Interest Income. Our interest income decreased by 2.4% from RMB84.3 million in 2013 to RMB82.3 million (US\$13.3 million) in 2014. The decrease was primarily due to a decrease in term deposits as a result of the increased short-term investments.

Others, Net. Our other income, net, was a loss of RMB4.6 million in 2013 compared to an income of RMB2.3 million(US\$0.4 million) in 2014, primarily due to the write-down of dividends receivables from Datong in 2013.

Income from Operations before Income Taxes and Income of Affiliates

As a result of the foregoing factors, our income from operations before income taxes and income of affiliates increased by 49.9% from RMB106.5 million in 2013 to RMB159.7 million(US\$25.7 million) in 2014.

Income Tax Expense

Our income tax expense decreased by 10.6% from RMB27.2 million in 2013 to RMB24.3 million (US\$3.9 million) in 2014. The effective tax rate in 2014 was 15.2% compared with 25.5% in 2013 due to (1) a tax exemption for two years and a 50% tax reduction for the succeeding three years enjoyed by our subsidiary, Ying Si Kang Information, starting from January 1, 2014; and (2) higher share-based compensation expenses charged for fiscal year 2013 which were non-tax deductible.

Share of Income of Affiliates

Our share of income of affiliates increased by 48.6% from RMB20.6 million in 2013 to RMB30.6 million (US\$4.9 million) in 2014, primarily due to the rapid growth of net income generated by CFSG.

Net Income

As a result of foregoing factors, our net income increased by 66.1% from RMB100.0 million in 2013 to RMB166.1 million (US\$26.8 million) in 2014.

Net Income Attributable to the Noncontrolling Interests

Our net income attributable to the non-controlling interests slightly decreased by 0.5% from RMB4.3 million in 2013 to RMB4.3 million (US\$0.7 million) in 2014.

Net Income Attributable to the Company's Shareholders

As a result of the foregoing, our net income attributable to our shareholders increased by 69.1% from RMB95.6 million in 2013 to RMB161.8 million (US\$26.1 million) in 2014.

Year ended December 31, 2013 Compared to Year Ended December 31, 2012

Net Revenues

Our total net revenues increased by 10.8% from RMB1.6 billion in 2012 to RMB1.8 billion in 2013 primarily attributable to increases in net revenues from our insurance agency segment, claims adjusting segment and insurance brokerage segment.

- Net revenues from our insurance agency segment increased by 8.7% from RMB1.3 billion in 2012 to RMB1.4 billion in 2013, primarily resulting from the increases in both commission rates and sales volume of property and casualty insurance products, offset by a decrease in revenue of life insurance products due to shifted focus to the sales of protection insurance products which have lower average premium per policy compared to participating insurance products.
- Net revenues from our brokerage segment increased by 29.8% from RMB48.9 million in 2012 to RMB63.4 million in 2013, primarily due to an increase of sale volume.
- Net revenues from our claims adjusting segment increased by 20.1% from RMB217.5 million in 2012 to RMB261.2 million in 2013. The increase primarily resulted from sales volume growth in the auto-related claims adjustment business.
- Net revenues from other services decreased by 3.9% from RMB14.5 million in 2012 to RMB13.9 million in 2013. Other services represented commission from wealth management products recommendation and IT services provided to an affiliate.

Operating Costs and Expenses

Operating costs and expenses increased by 14.4% from RMB1.5 billion in 2012 to RMB1.7 billion in 2013. The increase was primarily due to the increase in commissions and fees paid to our property and casualty insurance sales agents, which reflected higher commission rates in the automobile insurance market and higher policy acquisition costs due to increased competition from telemarketing by insurance companies, offset by the decrease of commission paid to life insurance agency due to the decrease in sales volume of life insurance products.

Operating Costs. Our operating costs increased by 19.1% from RMB1.1 billion in 2012 to RMB1.3 billion in 2013, primarily because of increases in operating costs for our agency insurance, brokerage insurance and claims adjusting segments.

- Operating costs for our agency insurance segment increased by 16.9% from RMB936.2 million in 2012 to RMB1.1 billion in 2013. The increase was primarily due to the increase in commissions and fees paid to our property and casualty insurance sales agents, which reflected higher commission rates in the automobile insurance market and higher policy acquisition costs due to increased competition from telemarketing by insurance companies, offset by the decrease of commission paid to life insurance agency due to the decrease in sales volume of life insurance products.
- Operating costs for our brokerage insurance segment increased by 59.3% from RMB29.7 million in 2012 to RMB47.4 million in 2013. The increase was primarily due to an increase in sales volume.

- Operating costs for our claims adjusting segment increased by 25.1% from RMB113.7 million in 2012 to RMB142.2 million in 2013. The increase was primarily due to increases in sales volume.
- Operating costs for other services increased by 45.3% from RMB6.1 million in 2012 to RMB8.9 million in 2013. Other services represented costs from wealth management products.

Selling Expenses. Our selling expenses increased by 23.0% from RMB78.4 million in 2012 to RMB96.5 million in 2013 primarily due to sales increases and increases in staff salary, travel, gasoline and office expenses mostly incurred by the claims adjusting segment due to staff increase.

General and Administrative Expenses. Our general and administrative expenses decreased slightly by 1.9% from RMB356.0 million in 2012 to RMB349.2 million in 2013.

Income from Operations

As a result of the foregoing factors, income from operations decreased by 72.7% from RMB65.8 million in 2012 to RMB18.0 million in 2013.

- Income from operations for our agency insurance segment decreased by 32.3 % from RMB167.2 million in 2012 to RMB113.2 million in 2013.
- Income from operations for our brokerage insurance segment significantly decreased by 32.5% from RMB14.4 million in 2012 to RMB9.7 million in 2013.
- Income from operations for our claims adjusting segment decreased by 12.1% from RMB30.8 million in 2012 to RMB27.1 million in 2013

Other Income

Interest Income. Our interest income decreased by 6.7% from RMB90.3 million in 2012 to RMB84.3 million in 2013. The decrease was primarily due to a decrease in the bank deposits as we increased short-term investment.

Others, Net. Our other income, net, decreased by 168.2% from RMB6.7 million in 2012 to a loss of RMB4.6 million in 2013, primarily due to the write-down of dividends receivables from Datong.

Income from Operations before Income Taxes and Income of Affiliates

As a result of the foregoing factors, our income from operations before income taxes and income of affiliates decreased by 33.6% from RMB160.5 million in 2012 to RMB106.5 million in 2013.

Income Tax Expense

Our income tax expense decreased from RMB50.4 million in 2012 to RMB27.2 million in 2013, primarily due to decrease in operating income. The effective tax rate in 2013 was 25.5% compared with 31.4% in 2012 due to higher share-based compensation expenses charged in 2012 which were non-tax deductible.

Share of Income of Affiliate

Our share of income of affiliates increased from RMB14.7 million in 2012 to RMB20.6 million in 2013, primarily due to the rapid growth of net income generated by CFSG.

Net Income

As a result of foregoing factors, our net income decreased by 19.8% from RMB124.7 million in 2012 to RMB100.0 million in 2013.

Net Income Attributable to the Noncontrolling Interests

We recorded RMB4.3 million in net income attributable to noncontrolling interests in 2013. In comparison, we recorded a RMB5.8 million net loss attributable to noncontrolling interests in 2012. The increase was primarily due to certain noncontrolling interest holding entities generated profit in 2013.

Net Income Attributable to the Company's Shareholders

As a result of the foregoing, our net income attributable to our shareholders decreased by 26.7% from RMB130.5 million in 2012 to RMB95.6 million in 2013.

Inflation

Inflation in China has impacted our results of operations. According to the National Bureau of Statistics of China, the consumer price index in China increased by 2.6% and 2.6% and 2.0% in 2012, 2013, and 2014, respectively. Our operating costs and expenses, such as sales agent and employee compensation and office operating expenses, increased significantly partly as a result of inflation in 2013 and 2014. Additionally, because a substantial portion of our assets consists of cash and cash equivalents, high inflation significantly reduced the value and purchasing power of these assets. We are not able to hedge our exposures to higher inflation in China. If high inflation persists in China in the future, our operational results may continue to be significantly affected.

Foreign Currency

The exchange rate between U.S. dollar and RMB has declined from an average of RMB8.2264 per U.S. dollar in July 2005 to RMB6.1886 per U.S. dollar in December 2014. The fluctuation of the exchange rate between the RMB and U.S. dollar and HK dollar resulted in foreign currency translation gain of RMB6.0 million (US\$1.0 million) in 2014, when we translated our financial assets from U.S. dollar and HK dollar into RMB. We have not hedged exposures to exchange fluctuations using any hedging instruments. See “Item 3. Key Information — D.Risk Factors — Risks Related to Doing Business in China — Fluctuation in the value of the RMB may have a material adverse effect on your investment.” and “Item 11. Quantitative and Qualitative Disclosures about Market Risk — Foreign Exchange Risk.”

B. Liquidity and Capital Resources

Cash Flows and Working Capital

Our principal sources of liquidity have been cash generated from our operating activities. As of December 31, 2014, we had RMB2.1 billion (US\$339.0 million) in cash. Our cash and cash equivalents consist of cash on hand, bank deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash, and have insignificant risk of changes in value related to changes in interest rates. Our principal uses of cash have been to fund acquisitions, developments of online projects including CNpad, Chetong.net, eHuzhu, establishing sales outlets, working capital requirements, automobiles and office equipment purchases, office renovation and rental deposits.

Although we consolidate the results of our PRC consolidated affiliated entities, we do not have direct access to their cash and cash equivalents or future earnings. But we can direct the use of their cash through agreements that provide us with effective control of these entities. Moreover, we receive quarterly fees from some of these consolidated affiliated entities in exchange for certain consulting and other services provided by us. See “Item 4. Information on the Company — C. Organizational Structure.” We expect to require cash to fund our ongoing business needs, particularly the further expansion of our distribution and service network, expansion into the financial services business and development of online platforms.

We believe that our current cash and cash equivalents and anticipated cash flow from operations will be sufficient to meet our anticipated cash needs, including our cash needs for working capital and capital expenditures, for at least the next 12 months. We may, however, require additional cash due to changing business conditions or other future developments, including any investments or acquisitions we may decide to pursue. If our existing cash is insufficient to meet our requirements, we may seek to sell additional equity securities, debt securities or borrow from lending institutions. Financing may be unavailable in the amounts we need or on terms acceptable to us, if at all. The sale of additional equity securities, including convertible debt securities, would dilute our earnings per share. The incurrence of debt would divert cash for working capital and capital expenditures to service debt obligations and could result in operating and financial covenants that restrict our operations and our ability to pay dividends to

our shareholders. If we are unable to obtain additional equity or debt financing as required, our business operations and prospects may suffer.

The following table sets forth a summary of our cash flows for the periods indicated:

	Year Ended December 31,			
	2012	2013	2014	
	RMB	RMB	RMB	US\$
	(in thousands)			
Net cash generated from operating activities	157,808	185,945	261,649	42,170
Net cash (used in) generated from investing activities.....	234,914	(419,308)	(445,395)	(71,784)
Net cash (used in) generated from financing activities	(86,696)	3,350	(7,817)	(1,260)
Net increase (decrease) in cash and cash equivalents	306,026	(230,013)	(191,563)	(30,874)
Cash and cash equivalents at the beginning of the year	2,222,160	2,525,618	2,288,623	368,859
Cash and cash equivalents at the end of the year	2,525,618	2,288,623	2,103,068	338,953

Operating Activities

Net cash generated from operating activities amounted to RMB261.6 million (US\$42.2 million) for the year ended December 31, 2014, primarily attributable to (i) a net income of RMB166.1 million (US\$26.8 million), (ii) an add-back of depreciation of RMB28.2 million (US\$4.6 million), amortization of acquired intangible assets of RMB16.8 million and compensation expenses associated with stock options of RMB23.6 million (US\$3.8 million), which were non-cash items, and (iii) an increase of accounts payable of RMB27.5 million (US\$4.4 million), partially offset by (i) share of income of affiliates of RMB30.6 million (US\$4.9 million) which was also included in net income but did not have cash flow effect during the period and (ii) RMB15.4 million (US\$ 2.5 million) in investment income from investment in collective trust funds and inter-bank deposit.

Net cash generated from operating activities amounted to RMB185.9 million for the year ended December 31, 2013, primarily attributable to (i) a net income of RMB100.0 million; (ii) RMB45.3 million of share-based compensation cost which decreased from 2012 mainly because options granted to employees in March 2012 were recognized on an accelerated basis, (iii) RMB31.3 million of depreciation of fixed assets which increased significantly from 2012 due to the purchase of more fixed assets for our e-commerce operations in late 2012 and (iv) RMB13.7 million of amortization of acquired intangible assets, which were included in net income but did not affect cash flow during the period, offset by (i) share of income of affiliates amounting to RMB20.6 million, which was also included in net income but did not have cash flow effect during the period; and (ii) an increase of RMB12.5 million in accounts receivable, which negatively affected operating cash flow, primarily as a result of more bonuses due from insurance companies not yet collected as of December 31, 2013.

Net cash generated from operating activities amounted to RMB157.8 million for the year ended December 31, 2012, primarily attributable to (i) a net income of RMB124.7 million; and (ii) RMB66.9 million of share-based compensation cost, RMB26.3 million of depreciation of fixed assets and RMB15.3 million of amortization of acquired intangible assets, which were included in net income but did not affect cash flow during the period, offset by (i) share of income of affiliates amounting to RMB14.7 million, which was also included in net income but did not have cash flow effect during the period; and (ii) an increase of RMB34.4 million in accounts receivable, which negatively affected operating cash flow, primarily as a result of more bonuses due from insurance companies not yet collected as of December 31, 2012.

Investing Activities

Net cash used in investing activities for the year ended December 31, 2014 was RMB445.4 million (US\$71.8 million), primarily attributable to (i) cash used to purchase short term investments in financial products of RMB546.6 million (US\$88.1 million), (ii) cash paid out for acquisitions of subsidiaries of RMB62.7 million (US\$10.1 million), and (iii) cash advance to related parties of RMB62.7 million (US\$10.1 million), which mainly consisted of advances made to Sincere Fame, partially offset by (i) proceeds from disposal of short term investments of RMB118.2 million (US\$ 19.1 million) and (ii) a decrease in other receivables of RMB113.6 million (US\$18.3 million), mainly representing a repayment in loans from Jintaiping.

Net cash used in investing activities for the year ended December 31, 2013 was RMB419.3 million, primarily attributable to (i) purchases of short term investments in financial products of RMB283.9 million, (ii) payment for the purchase of office equipment of RMB36.2 million, (iii) increase in other receivables of RMB67.7 million,

mainly representing an increase in loans to Jintaiping, and (iv) advance made to related parties of RMB62.3 million, of which mainly consist of advances made to CFSG.

Net cash generated from investing activities for the year ended December 31, 2012 was RMB234.9 million, primarily attributable to (i) net repayment of RMB205.9 million from an affiliate, CFSG, during the year, and (ii) proceeds from disposal of short term investments of RMB71.1 million, offset by purchases of short term investments and office equipment of RMB40.6 million and RMB11.6 million, respectively.

Financing Activities

Net cash used in financing activities was RMB7.8 million (US\$1.3 million) for the year ended December 31, 2014, attributable to payment of RMB11.0 million (US\$1.8 million) for acquisitions of noncontrolling interests in subsidiaries, offset by proceeds received on exercise of stock options of RMB3.2 million (US\$0.5 million).

Net cash generated from financing activities was RMB3.4 million for the year ended December 31, 2013, attributable to a capital injection from noncontrolling interests of RMB3.4 million.

Net cash used in financing activities was RMB86.7 million for the year ended December 31, 2012, primarily attributable to (i) payment of RMB90.5 million for acquisitions of noncontrolling interests in subsidiaries; and (ii) a share repurchase amounting to RMB9.2 million, partially offset by a capital injection from noncontrolling interests of RMB12.7 million.

Capital Expenditures

We incurred capital expenditures of RMB41.5 million, RMB6.3 million and RMB6.2 million (US\$1.0 million) for the years ended December 31, 2012, 2013 and 2014, respectively. Our capital expenditures have been used primarily to construct our online platforms including CNpad, Chetong.net, Baoxian.com and eHuzhu, construct our operating platform, including our Core Business System and ERP-based financial and accounting system and to purchase automobiles and office equipment for newly established insurance intermediary companies. We estimate that our capital expenditures will increase in the following two or three years as we further expand our distribution and service network in China, and construct our e-commerce insurance platform. We anticipate funding our future capital expenditures primarily with net cash flows from financing and operating activities.

Borrowings

As of each of December 31, 2013 and 2014, we had no short-term or long-term bank borrowings.

Holding Company Structure

We are a holding company with no material operations of our own. We conduct our operations primarily through our subsidiaries in China and our consolidated affiliated entities, Yihe Investment, Xinbao Investment and its subsidiaries and Dianliang Information. As a result, our ability to pay dividends and to finance any debt we may incur depends upon dividends paid by our subsidiaries and consulting and service fees paid by our subsidiaries and consolidated affiliated entities. If our subsidiaries or any consolidated affiliated entities incur debt on their own behalf in the future, the instruments governing their debt may restrict their ability to pay dividends to us. Our wholly owned subsidiaries are permitted to pay dividends to us only out of their retained earnings, if any, as determined in accordance with PRC accounting standards and regulations. Under PRC law, each of our subsidiaries and consolidated affiliated entities in China is required to set aside at least 10% of its after-tax profits as reported in the PRC statutory financial statements each year, if any, to fund a statutory reserve until such reserve reach 50% of its registered capital, and to further set aside a portion of its after-tax profits to fund the employee welfare fund at the discretion of its board. Although the statutory reserves can be used, among other ways, to increase the registered capital and eliminate future losses in excess of retained earnings of the respective companies, the reserve funds are not distributable as cash dividends except in the event of liquidation of the companies. Furthermore, the EIT Law that took effect on January 1, 2008 has eliminated the exemption of EIT on dividend derived by foreign investors from foreign-invested enterprises and imposes on foreign-invested enterprises an obligation to withhold tax on dividend distributed by such foreign-invested enterprises. As of December 31, 2014, our restricted net asset was RMB2.1 billion (US\$331.3 million), including RMB131.3 million (US\$21.2 million) restricted net assets of our consolidated affiliated entities. This amount is composed of the registered equity of our PRC subsidiaries and consolidated affiliated entities and the statutory reserves described above.

We conduct part of our operations through our consolidated affiliated entities. In the years ended December 31, 2012, 2013 and 2014, aggregate revenues derived from our consolidated affiliated entities contributed 23.6%, 7.2% and 3.4%, respectively, of our total consolidated net revenues, based on our corporate structure as of the end of each year. Our operations that are not conducted through contractual arrangements with our consolidated affiliated entities primarily consist of our insurance agency, insurance brokerage and claims adjusting businesses. As of December 31, 2013 and 2014, our consolidated affiliated entities accounted for an aggregate of 3.2% and 1.7%, respectively, of our consolidated total assets. The assets that are not associated with our consolidated affiliated entities primarily consists of cash and cash equivalents, restricted cash, short term investments, accounts receivable, insurance premium receivables, other receivables, deferred tax assets, amounts due from related parties, other current assets, property, plant and equipment, goodwill, intangible assets, deferred tax assets, investments in affiliates and other non-current assets. As of December 31, 2013 and 2014, our consolidated affiliated entities accounted for an aggregate of 10.7% and 9.3%, respectively, of our consolidated current liabilities. Our ability to pay dividends depends upon dividends paid by our subsidiaries, which in turn partially depend upon earnings of our consolidated affiliated entities transferred to our subsidiaries in the form of payments under the technology consulting and services agreements. As of December 31, 2014, the total amount of service fees payable to our wholly owned subsidiaries from our consolidated affiliated entities was nil. As of December 31, 2014, we had aggregate undistributed earnings of approximately RMB1.9 billion (US\$317.1 million) that were available for distribution, including RMB50.6 million (US\$8.2 million) undistributed earnings of our consolidated affiliated entities. These undistributed earnings are considered to be indefinitely reinvested, and will be subject to PRC dividend withholding taxes upon distribution.

C. Research and Development, Patents and Licenses, etc.

None.

D. Trend Information

Other than as disclosed elsewhere in this annual report, we are not aware of any trends, uncertainties, demands, commitments or events for the period from January 1, 2014 to December 31, 2014 that are reasonably likely to have a material adverse effect on our net revenues, income, profitability, liquidity or capital resources, or that would cause the disclosed financial information to be not necessarily indicative of future operating results or financial conditions.

E. Off-Balance Sheet Commitments and Arrangements

We have not entered into any financial guarantees or other commitments to guarantee the payment obligations of third parties. We have not entered into any derivative contracts that are indexed to our shares and classified as shareholders' equity, or that are not reflected in our consolidated financial statements. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity. We do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or that engages in leasing, hedging or research and development services with us. As a result, as of December 31, 2014, we did not have any off-balance sheet arrangements that had or were reasonably likely to have a current or future effect on our financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

F. Contractual Obligations

The following table sets forth our contractual obligations and commercial commitments as of December 31, 2014:

	Payment Due by Period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
	(in thousands of RMB)				
Operating lease obligations.....	42,456	20,598	21,231	627	—
Total	<u>42,456</u>	<u>20,598</u>	<u>21,231</u>	<u>627</u>	<u>—</u>

Not included in the table above are uncertain tax liabilities of RMB53.9 million (US\$8.7 million). As we are unable to make reasonably reliable estimates of the period of cash settlement with the respective taxing authority, such liabilities are excluded from the contractual obligations table above.

Other than the contractual obligations and commercial commitments set forth above, we did not have any other material long-term debt obligations, operating lease obligations, purchase obligations or other material long-term liabilities as of December 31, 2014.

G. Safe Harbor

This annual report on Form 20-F contains statements of a forward-looking nature. These statements are made under the “safe harbor” provisions of the U.S. Private Securities Litigation Reform Act of 1995. You can identify some of these forward-looking statements by words or phrases such as “may,” “will,” “expect,” “anticipate,” “aim,” “estimate,” “intend,” “plan,” “believe,” “is/are likely to” or other similar expressions. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy and financial needs. These forward-looking statements include statements relating to:

- our anticipated growth strategies;
- the anticipated growth of our life insurance business;
- the anticipated growth of our e-commerce business;
- our future business development, results of operations and financial condition;
- factors that affect our future revenues and expenses;
- the future growth of the Chinese insurance industry as a whole and the professional insurance intermediary sector in particular;
- trends and competition in the Chinese insurance industry; and
- economic and demographic trends in the PRC.

You should thoroughly read this annual report and the documents that we refer to with the understanding that our actual future results may be materially different from and worse than what we expect. We qualify all of our forward-looking statements by these cautionary statements. We would like to caution you not to place undue reliance on forward-looking statements and you should read these statements in conjunction with the risk factors disclosed in “Item 3. Key Information — D. Risk Factors” of this annual report. Those risks are not exhaustive. We operate in an emerging and evolving environment. New risk factors emerge from time to time and it is impossible for our management to predict all risk factors, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statement.

You should not rely upon forward-looking statements as predictions of future events. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required under applicable law.

Item 6. Directors, Senior Management and Employees

A. Directors and Senior Management

The following table sets forth information regarding our directors and executive officers as of the date of this annual report.

Directors and Executive Officers	Age	Position/Title
Chunlin Wang.....	45	Chief Executive Officer
Qiuping Lai.....	61	President and Director
Peng Ge.....	43	Chief Financial Officer
Yinan Hu.....	49	Chairman
Xiaojun Shang.....	41	Director
Yunxiang Tang.....	69	Independent Director
Stephen Markscheid.....	61	Independent Director
Allen Warren Lueth.....	46	Independent Director
Mengbo Yin.....	59	Independent Director

Mr. Chunlin Wang became our chief executive officer in October 2011. From April 2011 to October 2011, he was our chief operating officer. From January 2007 to October 2011, he was vice president and head of the property and casualty insurance unit of our company. From 2003 to January 2007, he served as assistant to our chairman. From 2002 to 2005, he served as the general manager of Guangdong Nanfeng, one of our first affiliated insurance intermediaries in the PRC. From 1998 to 2002, Mr. Wang served as a branch manager at Guangzhou Nanyun Car Rental Services Co., Ltd. and later Guangdong Nanfeng Automobile Association Co., Ltd., our predecessors. Mr. Wang received his bachelor's degree in law from Central-Southern University of Politics and Law in China.

Mr. Qiuping Lai is our co-founder and has been our president and director since 2004. Mr. Lai has served as chairman of the board of directors of Guangdong Nanfeng, one of our first affiliated insurance intermediaries in the PRC, since 2002. From 1998 to 2002, he served as the general manager of Guangdong Nanfeng Automobile Association Co., Ltd., one of our predecessor companies that he co-founded in 1998. From 1994 to 1998, he served as the general manager of Guangdong Nanfeng Enterprises Co., Ltd., a company he co-founded that engaged in import and export, manufacturing of wooden doors and construction. From 1990 to 1994, Mr. Lai was an instructor of philosophy and later an associate dean of the department of law at Guangdong Institute for Managers in Finance and Trade. Mr. Lai received his bachelor's degree in philosophy from Jiangxi University in China.

Mr. Peng Ge has been our chief financial officer since April 2008. From 2005 to April 2008, he served as the general manager of the finance and accounting department and vice president of our company. From August 2007 to September 2008, he was also a director of our company. From 1999 to 2005, Mr. Ge headed our Beijing operations. From 1994 to 1999, Mr. Ge was a financial manager at a subsidiary of China National Native Produce and Animal By-Products Import & Export Corporation. Mr. Ge received his bachelor's degree in international accounting and his MBA degree from the University of International Business and Economics in China.

Mr. Yinan Hu is our co-founder and has been chairman of our board of directors since our inception in 1998. From 1998 to October 2011, Mr. Hu served as our chief executive officer. From 1993 to 1998, Mr. Hu served as chairman of the board of directors of Guangdong Nanfeng Enterprises Co., Ltd., a company he co-founded that engaged in import and export, manufacturing of wooden doors and construction. From 1991 to 1995, Mr. Hu was an instructor of money and banking at Guangdong Institute for Managers in Finance and Trade. Mr. Hu received a bachelor's degree and a master's degree in economics from Southwestern University of Finance and Economics in China.

Ms. Xiaojun Shang has been our director since August 2012. Ms. Shang has been an executive director of CDH Investments Management (Hong Kong) Limited, an asset management company based in Hong Kong, since October 2010. Prior to that, She was an executive director of CDH Investment Advisory Private Limited, a private equity fund management company based in Singapore, from 2009 to 2010, a vice president of CDH Investments Management (Hong Kong) Limited from 2007 to 2009 and a vice president of CDH China Management Company Limited from 2003 to 2007. Prior to joining CDH China Management Company Limited in 2003, Ms. Shang was an assistant vice president of GIC Special Investments' Asia Pacific private equity group, focusing on direct investment opportunities in China. From 1997 to 2001, she worked for DBS Land Limited and CapitaLand Residential Limited in business development, strategic planning, asset management and corporate planning areas.

Ms. Shang graduated with a Bachelor's degree in Business Administration with first class honors in 1996 from the National University of Singapore.

Mr. Yunxiang Tang, a senior economist, has been our independent director since May 2012. Mr. Tang served as general manager of the People's Insurance Company (Group) of China Limited, or the PICC and chairman of the Board of Directors of PICC P&C, PICC Asset Management Company Limited, PICC Life Insurance Company Limited and PICC Health Insurance Company Limited from 2000 to 2007. He was the president of Insurance Association of China from 2001 to 2003 and vice chairman of the CIRC from 1998 to 2000. Prior to that, he served in different senior leadership roles in the financial regulatory authorities, including head of the PBOC Guangdong Branch and chief of State Administration of Foreign Exchange, Guangdong Branch and assistant governor of the PBOC.

Mr. Stephen Markscheid has been our independent director since August 2007. Mr. Markscheid is currently a member of the board of directors and a member of the audit committee, compensation committee and/or nomination committee of Jinko Solar, Inc., China Ming Yang Wind Group Limited and ChinaCast Education Corporation and receiver of China Clean Energy Inc., all of which are public companies listed in U.S. He is currently the chief executive officer of Synergenz BioScience, Inc., a genomics company based in Hong Kong. Prior to that, Mr. Markscheid was the chief executive officer of HuaMei Capital Company, Inc., a Sino-U.S. investment advisory firm from 2006 to 2007. From 1998 to 2006, Mr. Markscheid served as senior vice president for global risk for GE Healthcare Financial Services and director of business development of GE Capital. Prior to joining GE, Mr. Markscheid worked as case leader for the Boston Consulting Group throughout Asia from 1994 to 1997. Prior to that, Mr. Markscheid had been a commercial banker for ten years in London, Chicago, New York, Hong Kong and Beijing with Chase Manhattan Bank and First National Bank of Chicago. Mr. Markscheid received his bachelor's degree in East Asian studies from Princeton University, a master's degree in international affairs and economics from the School of Advanced International Studies at Johns Hopkins University, and an MBA degree from Columbia University.

Mr. Allen Lueth has been our independent director since August 2007. Mr. Lueth is currently a member of the board of director, the remuneration committee and the audit committee of Greatview Aseptic Packaging Company Limited, a company listed in Hong Kong. Since December 2010, he has been the head of finance of Cardinal Health China, one of the world's leading pharmaceutical distributors, which acquired Zuellig Pharma China in November 2010. Prior to that, he was the vice president of finance and strategy of Zuellig Pharma China, a private company focused on pharmaceutical distribution, and was its chief financial officer from 2005 to February 2009. Mr. Lueth worked for GE Capital from 1998 to 2004 in a variety of roles, including chief financial officer and chief executive officer for the Taiwan operations, and the representative for China. Earlier, he served with Coopers & Lybrand as an auditor. Mr. Lueth obtained his certificate as a certified public accountant in 1991 and a certified management accountant in 1994. Mr. Lueth received his bachelor of science in accounting degree from the University of Minnesota and an MBA degree from the J.L. Kellogg School of Management.

Dr. Mengbo Yin has been our independent director since September 2008. He is currently a PhD advisor at Southwestern University of Finance and Economics in China, where he also serves as head of the university's postgraduate department. Previously, he was the dean of the university's school of finance from 1996 to 2007. Professor Yin received his master's and PhD degrees in finance from Southwestern University of Finance and Economics in China.

Employment Agreements

Each of our executive officers has entered into an employment agreement with us. Under these agreements, each of our executive officers is employed for a specified time period. We may terminate the employment for cause, at any time, without notice or remuneration, for certain acts of the employee, including but not limited to a conviction or plea of guilty to a felony, negligence or dishonesty to our detriment, failure to perform the agreed-to duties after a reasonable opportunity to cure the failure and failure to achieve the performance measures specified in the employment agreement. An executive officer may terminate his employment at any time with one-month prior written notice if there is a material reduction in his authority, duties and responsibilities or in his annual salary before the next annual salary review. Furthermore, we may terminate an executive officer's employment at any time without cause upon two-month advance written notice. In the event of a termination without cause by us, we will provide the executive officer a lump-sum severance payment in the amount of RMB500,000, unless otherwise specifically required by applicable law.

Each executive officer has agreed to hold, both during and after the employment agreement expires or is earlier terminated, in strict confidence and not to use, except as required in the performance of his duties in connection with the employment, any confidential information, trade secrets and know-how of our company or the confidential information of any third-party, including our consolidated affiliated entities and our subsidiaries, received by us. In addition, each executive officer has agreed to be bound by non-competition restrictions set forth in his employment agreement. Specifically, each executive officer has agreed not to, while employed by us and for one year following the termination or expiration of the employment agreement, (i) approach our clients, customers or contacts or other persons or entities introduced to the executive officer for the purpose of doing business with such person or entities, and will not interfere with the business relationship between us and such persons and/or entities; (ii) assume employment with or provide services as a director for any of our competitors, or engage, whether as principal, partner or otherwise, in any business which is in direct or indirect competition with our business; or (iii) seek directly or indirectly, to solicit the services of any of our employees who is employed by us at the date of the executive officer's termination, or in the year preceding such termination.

B. Compensation

In 2014, the aggregate cash compensation, including reimbursement of expenses, to our executive officers was approximately RMB2.3 million (US\$0.4 million), and the aggregate cash compensation to our non-executive directors was approximately RMB2.2 million (US\$0.4 million).

Share Incentives

2007 Share Incentive Plan

Our 2007 Share Incentive Plan is intended to attract and retain the best available personnel for positions of substantial responsibility, provide additional incentive to employees, directors and consultants and promote the success of our business. We have reserved 136,874,658 ordinary shares for issuance under our 2007 Share Incentive Plan, which was approximately 15% of our outstanding ordinary shares at the time we authorized the number of ordinary shares reserved for issuance.

On November 21, 2008, our board of directors approved the grant of options to purchase an aggregate of 32,000,000 ordinary shares to various directors, officers and employees pursuant to the 2007 Share Incentive Plan (the "2008 Option"). The exercise price of these options is US\$0.28 per ordinary share, equal to the closing price of our ADS on the Nasdaq Global Market at the grant date (after adjusting for the 20 ordinary shares to 1 ADS ratio). The options are scheduled to vest over a four-year period starting from March 31, 2010, subject to the achievement of certain key performance indicators by the option holders and their continued employment with us. As of December 31, 2014, in connection with the 2008 Option, options to purchase 2,685,300 ordinary shares had been exercised and options to purchase 1,314,220 ordinary shares had been forfeited due to certain employee's failure to meet performance target or to render the requisite service.

On March 9, 2009, our board of directors voted to grant options to purchase an aggregate of 10,000,000 ordinary shares to employees under the amended and restated 2007 Share Incentive Plan (the "2009 Option"). The exercise price of these options is US\$0.34 per ordinary share, equal to the closing price of our ADS on the Nasdaq Global Select Market at the grant date (after adjusting for the 20 ordinary shares to 1 ADS ratio). These options are scheduled to vest over a four-year period starting from March 31, 2010, subject to the achievement of certain key performance indicators by the option holders and their continued employment with us. As of December 31, 2014, in connection with the 2009 Option, options to purchase 1,348,280 ordinary shares had been exercised, and options to purchase 1,651,720 ordinary shares had been forfeited due to certain employee's failure to meet performance target or to render the requisite service.

On February 8, 2010, our board of directors approved the grant of options to purchase an aggregate of 48,000,000 ordinary shares to various directors, officers and employees pursuant to the amended and restated 2007 Share Incentive Plan. The exercise price of these options is US\$0.84 per ordinary share, equal to the closing price of our ADS on the Nasdaq Global Select Market at the grant date (after adjusting for the 20 ordinary shares to 1 ADS ratio). These options were scheduled to vest over a four-year period starting from March 31, 2011, subject to the achievement of certain key performance indicators by the option holders and their continued employment with our company. None of the options were exercised. Options to purchase 20,328,116 ordinary shares were forfeited due to a cessation of the option holders' employment and failure to fulfill certain key performance indicators by certain option holders during 2011. Options to purchase an aggregate of 27,671,884 ordinary shares, which represented all the remaining options granted on February 8, 2010, were cancelled in November 2011.

On April 28, 2011, our board of directors approved the grant of options to purchase an aggregate of 28,400,000 ordinary shares to certain directors, officers and employees pursuant to the amended and restated 2007 Share Incentive Plan (the “2011 Option”). The exercise price of these options is US\$0.73 per ordinary share, equal to the closing price of our ADS on the Nasdaq Global Select Market at the grant date (after adjusting for the 20 ordinary shares to one ADS ratio). These options were scheduled to vest over a four-year period starting from March 31, 2012, subject to the achievement of certain key performance indicators by the option holders and their continued employment with us. None of the options were exercised. Options to purchase 11,425,400 ordinary shares were forfeited due to a cessation of the option holders’ employment and failure to fulfill certain key performance indicators by certain option holders during 2011. Options to purchase an aggregate of 16,974,600 ordinary shares, which represented all the remaining 2011 Options, were cancelled in November 2011.

On March 12, 2012, pursuant to the amended and restated 2007 Share Incentive Plan, our board of directors approved the grant of options to certain directors, officers, key employees and sales agents to purchase an aggregate of 93,445,000 ordinary shares at an exercise price of US\$0.30 per ordinary share and approved the grant of options to two independent directors who are residents of the United States in an aggregate of 3,200,000 ordinary shares at an exercise price of US\$0.31 per ordinary share (the “2012 Options”). These options are scheduled to vest over a five-year period starting from May 31, 2012, subject to the achievement of certain key performance indicators by certain option holders and all option holders' continued employment with us. As of December 31, 2014, options to purchase 972,640 ordinary shares had been exercised and 2,761,379 ordinary shares had been forfeited due to option holders’ failure to meet the performance target or termination of employment or agency contracts.

In December 2013, the board of directors approved an option modification to extend the expiration dates of the outstanding 2008 Options and 2009 Options to December 31, 2017.

In November 2014, the board and compensation committee passed a resolution to modify the exercise price of the 2012 Options. The exercise price of the rest of the 2012 Options was reduced from US\$0.30 per ordinary share (for certain directors, officers, key employees and sales agents) and US\$0.31 per ordinary share (for two independent directors who are residents of the United States) to US\$0.001 per ordinary share while the maximum aggregate award of 96,645,000 ordinary shares was reduced to 46,722,500 ordinary shares. The options are subject to the same service period. As of December 31, 2014, except for the options granted to one of the independent directors, outstanding options to purchase 91,327,722 ordinary shares were modified into 45,663,861 shares options. There was no incremental cost as a result of such option modification. The following paragraphs describe the principal terms of our amended and restated 2007 Share Incentive Plan as currently in effect.

Types of Awards. The types of awards we may grant under our 2007 Share Incentive Plan include the following:

- options to purchase our ordinary shares;
- restricted shares, which represent non-transferable ordinary shares, that may be subject to forfeiture, restrictions on transferability and other restrictions; and
- restricted share units, which represent the right to receive our ordinary shares at a specified date in the future, which may be subject to forfeiture.

Awards may be designated in the form of ADSs instead of ordinary shares. If we designate an award in the form of ADSs, the number of shares issuable under the 2007 Share Incentive Plan will be adjusted to reflect the ratio of ADSs to ordinary shares.

Eligibility. We may grant awards to employees, directors and consultants of our company or any of our related entities, which include our subsidiaries or any entities in which we hold a substantial ownership interest. However, we may grant options that are intended to qualify as incentive share options, or ISOs, only to our employees and employees of our majority-owned subsidiaries.

Plan Administration. The compensation committee of our board of directors, or a committee designated by the compensation committee, will administer the 2007 Share Incentive Plan. However, awards made to our independent directors must be approved by the entire board of directors. The compensation committee or the full board of directors, as appropriate, will determine the individuals who will receive grants, the types of awards to be granted and terms and conditions of each award grant, including any vesting or forfeiture restrictions.

Award Agreement. Awards granted under our 2007 Share Incentive Plan will be evidenced by an award agreement that will set forth the terms, conditions and limitations for each award. In addition, in the case of options, the award agreement may also specify whether the option constitutes an ISO or a non-qualifying share option.

Acceleration of Awards upon Corporate Transactions. The outstanding awards will accelerate upon occurrence of a change-of-control corporate transaction where the successor entity does not assume our outstanding awards under the 2007 Share Incentive Plan. In such event, each outstanding award will become fully vested and immediately exercisable, and the transfer restrictions on the awards will be released and any forfeiture provisions will terminate immediately before the date of the change-of-control transaction. If the successor entity assumes our outstanding awards and later terminates the grantee's service without cause within 12 months of the change-of-control transaction, the outstanding awards will automatically become fully vested and exercisable.

Exercise Price and Term of Awards. The exercise price per share subject to an option will be determined by the plan administrator and set forth in the award agreement which may be a fixed or variable price related to the fair market value of our ordinary shares; *provided, however*, that no options may be granted to an individual subject to taxation in the United States at less than the fair market value on the date of grant. To the extent not prohibited by applicable laws or any exchange rule, a downward adjustment of the exercise prices of any outstanding options may be made in the absolute discretion of the plan administrator and will be effective without the approval of our shareholders or the approval of the affected participants. If we grant an ISO to an employee who, at the time of that grant, owns shares representing more than 10% of the voting power of all classes of our share capital, the exercise price cannot be less than 110% of the fair market value of our ordinary shares on the date of that grant. The term of each award will be stated in the award agreement. The term of an award shall not exceed 10 years from the date of the grant, except that five years is maximum term of an ISO granted to an employee who holds more than 10% of the voting power of our share capital.

Amendment and Termination. Our board of directors may at any time amend, suspend or terminate the 2007 Share Incentive Plan. Amendments to the 2007 Share Incentive Plan are subject to shareholder approval to the extent required by law, or stock exchange rules or regulations. Additionally, shareholder approval will be specifically required to increase the number of shares available for issuance under the 2007 Share Incentive Plan or to extend the term of an option beyond ten years. Unless terminated earlier, the 2007 Share Incentive Plan will expire and no further awards may be granted after the tenth anniversary of the shareholder approval of the 2007 Share Incentive Plan.

As of March 31, 2015, options to purchase 82,247,600 ordinary shares of CNinsure were outstanding. The following table summarizes, as of March 31, 2015, the outstanding options that we granted to our directors and executive officers and to other individuals as a group.

<u>Name</u>	<u>Options Outstanding</u>	<u>Exercise Price (Per Ordinary Share)(US\$)</u>	<u>Grant Date</u>	<u>Expiration Date</u>

InsCom Holdings Options

On March 29, 2012, the shareholders of InsCom Holdings, a subsidiary in which we hold 65.1% equity interests, adopted a share incentive plan, under which a maximum number of 202,400,000 ordinary shares of InsCom Holdings can be granted as options, equal to 20% of the total number of ordinary shares outstanding of InsCom Holdings as at March 28, 2012.

On April 2, 2012, InsCom Holdings granted options to purchase 36,515,586 ordinary shares of InsCom Holdings to certain property and casualty insurance sales agents and options to purchase 24,492,750 ordinary shares of InsCom Holdings to certain employees of InsCom Holdings and the headquarter at an exercise price of RMB1.00 per ordinary share. Pursuant to the option agreements entered into between InsCom Holdings and the option grantees, the options are scheduled to vest over a two-year period from 2012 to 2013. The number of options that the grantees are entitled to in each year will be calculated based on the key performance indicator scores of the grantees in the respective prior year and subject to their continued services. The expiration dates for options granted to agents and employees are December 31, 2014 and June 30, 2017, respectively.

On June 24, 2013, InsCom Holdings granted stock options to purchase 5,914,312 of its ordinary shares to certain sales agents and 14,744,000 of its ordinary shares to the employees of InsCom Holdings and its affiliates and the headquarter at an exercise price of RMB1.2 per ordinary share. Pursuant to the option agreements entered into between InsCom Holdings and the option grantees, the options are scheduled to vest over a two-year period from 2013 to 2014. The number of options that the grantees are entitled to in each year will be calculated based on the key performance indicator scores of the grantees in the respective prior year and subject to their continued services. The expiration dates for options granted to agents and employees are December 31, 2014 and June 30, 2018, respectively.

In December, 2013, the chairman of InsCom Holdings approved an option modification to extend the expiration dates of all InsCom options for one year and revised the exercise price of the options to RMB0.025 per ordinary share, the fair value as of the modification date.

On July 1, 2014, InsCom Holdings granted stock options to purchase 3,477,281 of its ordinary shares to its entrepreneurial agents and 8,189,000 ordinary shares to the employees of InsCom Holdings and CNinsure at an exercise price of RMB0.028 per ordinary share. Pursuant to the option agreements entered into between InsCom Holdings and the option grantees, the options are scheduled to vest over a two-year period from 2014 to 2015. The number of options that the grantees are entitled to in each year will be calculated based on the key performance indicator scores of the grantees in the respective prior year and subject to their continued services. The expiration dates for options granted to agents and employees are December 31, 2016 and June 30, 2018, respectively.

C. Board Practices

Board of Directors

Our board of directors consists of seven directors. Under our currently effective memorandum and articles of association, a director is not required to hold any shares in our company by way of qualification. A director may vote with respect to any contract, proposed contract or arrangement in which he is materially interested. The directors may exercise all the powers of our company to borrow money, mortgage its undertaking, property and uncalled capital, and issue debentures or other securities whenever money is borrowed or as security for any obligation of our company or of any third-party. The directors may receive such remuneration as our board of directors may determine from time to time. There is no age limit requirement for directors.

In compliance with Rule 5605 of the Nasdaq Listing Rules, a majority of our directors and all of the committee members of our board of directors are independent directors. During 2014, our board of directors met in person or passed resolutions by unanimous written consent nine times. In addition, our independent directors held executive sessions without the presence of non-independent directors or members of management twice during 2014. We have no specific policy with respect to director attendance at our annual general meetings of shareholders.

Committees of the Board of Directors

We have established three committees under the board of directors: the audit committee, the compensation committee and the corporate governance and nominating committee, and have adopted a charter for each of the committees. Each committee's members and functions are described below.

Audit Committee. Our audit committee consists of Allen Lueth (chairman), Stephen Markscheid and Mengbo Yin, all of whom satisfy the "independence" requirements of Rule 5605 of the Nasdaq Listing Rules and Rule 10A-3 under the Securities Exchange Act of 1934. The audit committee oversees our accounting and financial reporting processes and the audits of the financial statements of our company. The audit committee is responsible for, among other things:

- selecting the independent auditors and pre-approving all auditing and non-auditing services permitted to be performed by the independent auditors;
- reviewing with the independent auditors any audit problems or difficulties and management's response;
- reviewing and approving all proposed related-party transactions;
- discussing the annual audited financial statements with management and the independent auditors;
- reviewing major issues as to the adequacy of our internal controls and any special audit steps adopted in light of material control deficiencies;
- annually reviewing and reassessing the adequacy of our audit committee charter;
- meeting separately and periodically with management, the independent auditors and the internal auditor; and
- reporting regularly to the full board of directors.

In 2014, our audit committee held meetings or passed resolutions by unanimous written consent seven times.

Compensation Committee. Our compensation committee consists of Stephen Markscheid (chairman), Allen Lueth and Yunxiang Tang, all of whom satisfy the “independence” requirements of Rule 5605 of the Nasdaq Listing Rules. Our compensation committee assists the board of directors in reviewing and approving the compensation structure of our directors and executive officers, including all forms of compensation to be provided to our directors and executive officers. Our chief executive officer may not be present at any committee meeting during which his compensation is deliberated. The compensation committee is responsible for, among other things:

- reviewing and recommending to the board with respect to the total compensation package for our chief executive officer;
- approving and overseeing the total compensation package for our executives other than the chief executive officer;
- reviewing and making recommendations to the board with respect to the compensation of our directors; and
- reviewing periodically and approving any long-term incentive compensation or equity plans, programs or similar arrangements, annual bonuses, employee pension and welfare benefit plans.

In 2014, our compensation committee held meetings or passed resolutions by unanimous written consent four times.

Corporate Governance and Nominating Committee. Our corporate governance and nominating committee consists of Mengbo Yin (chairman), Allen Lueth and Stephen Markscheid, all of whom satisfy the “independence” requirements of Rule 5605 of the Nasdaq Listing Rules. The corporate governance and nominating committee assists our board of directors in identifying individuals qualified to become our directors and in determining the composition of the board and its committees. The corporate governance and nominating committee is responsible for, among other things:

- identifying and recommending to the board nominees for election or re-election to the board, or for appointment to fill any vacancy;
- reviewing annually with the board the current composition of the board in light of the characteristics of independence, skills, experience and availability of service to us;
- identifying and recommending to the board the names of directors to serve as members of the audit committee and the compensation committee, as well as the corporate governance and nominating committee itself;
- advising the board periodically with respect to significant developments in the law and practice of corporate governance, as well as our compliance with applicable laws and regulations, and making recommendations to the board on all matters of corporate governance and on any corrective action to be taken; and
- monitoring compliance with our code of business conduct and ethics, including reviewing the adequacy and effectiveness of our procedures to ensure proper compliance.

In 2014, our corporate governance and nominating committee held meetings or passed resolutions by unanimous written consent twice.

Duties of Directors

Under Cayman Islands law, our directors have a fiduciary duty to act honestly, in good faith and with a view to our best interests. Our directors also owe to our company a duty to act with skill and care. It was previously considered that a director need not exhibit in the performance of his duties a greater degree of skill than may reasonably be expected from a person of his knowledge and experience. However, English and Commonwealth courts have moved towards an objective standard with regard to the required skill and care and these authorities are likely to be followed in the Cayman Islands. In fulfilling their duty of care to us, our directors must ensure compliance with our memorandum and articles of association as amended and restated from time to time. In certain

limited circumstances, it may be possible for our shareholders to bring a derivative action on behalf of our company if a duty owed by the directors to our company is breached.

Terms of Directors and Executive Officers

All directors hold office until their successors have been duly elected and qualified. Outside of certain specified circumstances, including a director becoming bankrupt or of unsound mind or being absent from board meetings without special leave of absence for six consecutive months, a director may only be removed by the shareholders. Officers are elected by and serve at the discretion of the board of directors. We do not have contracts in place with any of our directors providing for benefits upon termination of employment. For the period during which the directors and executives have served in the office, please see “Item 6. Directors, Senior Management and Employees — A. Directors and Senior Management.”

D. Employees

Employees, Sales Agents and Training

We had 4,108, 4,288 and 3,867 employees as of December 31, 2012, 2013 and 2014, respectively. We consider our relations with our employees to be good. The following table sets forth the number of our employees by function as of December 31, 2014:

	<u>Number of Employees</u>	<u>% of Total</u>
Management and administrative staff	1,879	48.6
Financial and accounting staff	345	8.9
Sales and marketing staff	178	4.6
Professional claims adjustors	1,372	35.5
Information technology staff.....	93	2.4
Total	<u>3,867</u>	<u>100</u>

As of December 31, 2012, 2013 and 2014, we had contractual relationships with 46,795, 51,416 and 62,248 sales agents, respectively. The sales agents are not our employees and are only compensated by commissions. For the sale of each property and casualty insurance policy or life insurance policy with a single premium payment schedule, we pay the sales agent who has generated the sale a single commission based on a percentage of the commission and fee we receive from the insurance company for the sale of that policy. For the sale of each life insurance policy with a periodic premium payment schedule, we pay the sales agent who has generated the sale periodic commissions based on a percentage of the commissions and fees we receive from the insurance company for the sale and renewal of that policy, up to the first five years of the premium payment period, and retain all commissions and fees we continue to receive from insurance companies for the rest of the premium payment period.

Our life insurance sales agents are typically organized into sales teams with a multilevel hierarchy, though we are reducing this hierarchy to only two layers in certain cities. A life insurance sales agent not only receives a commission for the insurance policies that he or she sells, but also a smaller commission for insurance policies sold by agents under his or her management.

Our sales agents, in-house sales representatives and claims adjustors are our most valuable asset and are instrumental in helping us build and maintain long-term relationships with our customers. Therefore, we place a strong emphasis on training our sales force. We provide trainings to both new sales agents and existing sales agents, on a monthly or quarterly basis, with a different emphasis. For new sales agents, we offer orientation courses that are designed to familiarize them with the industry background, regulatory environment, corporate culture, insurance products, and sales skills. For the existing sales agents, we offer on-the-job training courses that aim to enhance their sales skills and knowledge of different insurance products.

E. Share Ownership

The following table sets forth information with respect to the beneficial ownership of our shares, as of March 31, 2015, by:

- each of our current directors and executive officers; and

- each person known to us to own beneficially more than 5% of our shares.

As of March 31, 2015, there were 1,150,565,906 ordinary shares outstanding. Beneficial ownership is determined in accordance with the rules and regulations of the SEC. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, we include shares that the person has the right to acquire within 60 days, including through the exercise of any option, warrant or other right or the conversion of any other security. These shares, however, are not included in the computation of the percentage ownership of any other person.

	Ordinary Shares Beneficially Owned ^{(1) (2)}	
	Number	%
Directors and Executive Officers:		
Chunlin Wang ⁽³⁾	14,772,560	1.3

* Less than 0.5% of our total outstanding ordinary shares.

† Except for Ms. Shang and independent directors, the business address of our directors and executive officers is c/o 22/F, Yin Hai Building, No. 299 Yanjiang Zhong Road, Guangzhou, Guangdong 510110, People's Republic of China.

- (1) The number of shares beneficially owned by each director and executive officer includes the shares beneficially owned by such person, the shares underlying all options held by such person that have vested or will vest within 60 days after March 31, 2015.
- (2) Percentage of beneficial ownership of each director and executive officer is based on 1,150,565,906 ordinary shares outstanding as of March 31, 2015, and the number of ordinary shares underlying options held by such person that have vested or will vest within 60 days after March 31, 2015.
- (3) Mr. Chunlin Wang holds approximately 32.9% of the total outstanding shares of Better Rise Investments. Better Rise Investments owns approximately 30.6% of Kingsford Resources Limited, or Kingsford Resources. Kingsford Resources holds 38,172,080 ordinary shares and 75,342,980 ordinary shares in the form of ADSs of our company. Therefore, Mr. Chunlin Wang may be deemed to beneficially own, indirectly through Better Rise Investments and Kingsford Resources, approximately 3,841,100 ordinary shares and 7,581,460 ordinary shares in the form of ADSs of our company. 3,350,000 ordinary shares held by Mr. Chunlin Wang are issuable upon exercise of options

within 60 days after March 31, 2015. Mr. Wang disclaims direct beneficial ownership of all of our shares held by Kingsford Resources except to the extent of his pecuniary interest through Better Rise Investment therein.

- (4) Includes 26,487,130 ordinary shares, 52,279,560 ordinary shares in the form of ADSs of our Company and 4,650,000 ordinary shares issuable upon exercise of options within 60 days after March 30, 2015 held by Mr. Lai who is the sole shareholder of High Rank Investments Limited, or High Rank Investments. High Rank Investments holds approximately 69.4% of the total outstanding shares of Kingsford Resources. Mr. Lai disclaims beneficial ownership of all of our shares held by Kingsford Resources except to the extent of his pecuniary interest therein.
- (5) Mr. Ge holds approximately 67.3% of the total outstanding shares of Better Rise Investments. Therefore, Mr. Ge may be deemed to beneficially own, indirectly through Better Rise Investments and Kingsford Resources, approximately 7,843,850 ordinary shares and 15,481,960 ordinary shares in the form of ADSs of our company. 4,650,000 ordinary shares held by Mr. Ge are issuable upon exercise of options within 60 days after March 31, 2015. Mr. Ge disclaims beneficial ownership of all of our shares held by Kingsford Resources except to the extent of his pecuniary interest therein.
- (6) Includes 10,070,000 ordinary shares in the form of ADSs of our Company acquired by Mr. Hu on the open market, 5,800,000 ordinary shares issuable upon exercise of options within 60 days after March 31, 2015 held by Mr. Hu and 183,198,110 ordinary shares of our Company directly held by Sea Synergy Limited, or Sea Synergy. Mr. Hu and his wife hold approximately 98.6% and 1.4%, respectively, of the total outstanding shares of Sea Synergy. Mr. Hu disclaims beneficial ownership of all of our shares held by Sea Synergy except to the extent of his pecuniary interest therein. 54,959,433 of the ordinary shares beneficially owned by Mr. Hu through Sea Synergy have been pledged under a loan from an individual entered into in November 2012.
- (7) Includes ordinary shares beneficially owned by all of our directors and executive officers as a group and ordinary shares underlying all options held by such persons that have vested or will vest within 60 days after March 31, 2015.
- (8) Includes 183,198,110 ordinary shares of our Company directly held by Sea Synergy. Mr. Hu and his wife hold approximately 98.6% and 1.4%, respectively, of the total outstanding shares of Sea Synergy. The registered address of Sea Synergy is P.O. Box 957, Offshore Incorporations Centre, Road Town, Tortola, British Virgin Islands.
- (9) Includes 38,172,080 ordinary share and 75,342,980 ordinary shares in the form of ADSs of our Company directly held by Kingsford Resources. High Rank Investments and Better Rise Investments hold 69.4% and 30.6% of the total outstanding shares of Kingsford Resources, respectively. Mr. Lai holds 100% of the outstanding shares of High Rank Investments. Mr. Chunlin Wang and Mr. Ge hold 32.9% and 67.1% of the outstanding shares of Better Rise Investments, respectively. Mr. Lai, Mr. Chunlin Wang and Mr. Ge hold 69.4%, 10.1% and 20.5% shared voting power of Kingsford Resources, respectively, and each has the authority to vote the percentage of shares owned by Kingsford Resources that is proportionate to their respective interests in Kingsford Resources. The registered address of Kingsford Resources is Beaufort House, P.O. Box 438, Road Town, Tortola, British Virgin Islands. The principal business address for High Rank Investments is P.O. Box 957, Offshore Incorporations Centre, Road Town, Tortola, British Virgin Islands. The principal business address for Better Rise Investments is P.O. Box 957, Offshore Incorporations Centre, Road Town, Tortola, British Virgin Islands.
- (10) As reported on Schedule 13D/A filed by CDH Inservice Limited, or CDH Inservice, on January 14, 2015, the number includes 77,311,480 ordinary shares of our Company held by CDH Inservice, a British Virgin Islands company. All of the issued and outstanding shares of CDH Inservice are owned by CDH China Growth Capital Fund II, L.P., or CDH Fund II, a Cayman Islands exempted limited partnership. CDH China Growth Capital Holdings Company Limited, or CDH China Growth, a Cayman Islands exempted limited liability company, is the general partner of CDH Fund II and has the power to direct CDH Fund II as to the voting and disposition of shares directly and indirectly held by CDH Fund II. The percentage of beneficial ownership was calculated based on the total number of our ordinary shares outstanding as of March 31, 2015. The business address of CDH Inservice is One Temasek Avenue #18-02, Millenia Tower, Singapore 039192.
- (11) As reported on Schedule 13D/A filed by Cathay Capital Holdings II, L.P., or Cathay Capital, on January 8, 2013, the number includes (1) 21,511,600 ordinary shares in the form of ADS of our Company directly held by Mr. Sussman, (2) 271,320 ordinary shares in the form of ADS of our Company held by a grantor retained annuity trust, of which Mr. Sussman is a co-trustee, acquired through transfers of ordinary shares from Mr. Sussman to the grantor retained annuity trust, (3) 4,292,420 ordinary shares in the form of ADSs of our Company held by Caremi Partners Ltd., of which Mr. Sussman is the sole shareholder, (4) 10,013,120 ordinary shares in the form of ADS of our Company directly held collectively by Paloma Partners LLC, or Paloma Partners, and Paloma International Limited, or Paloma Limited. Mr. Sussman is Chairman and founder of Paloma Partners Management Company, or PPMC, and co-owns PPMC with certain of its senior employees. PPMC is the special member of Paloma Partners, provides advisory and non-advisory services to Paloma Limited and Paloma Partners based on a services agreement, (5) 32,294,420 ordinary shares of in the form of ADS of our Company directly held by Cathay Capital. Mr. Sussman is the co-owner of Cathay Master GP, Ltd., the general partner of Cathay Capital. He is also the owner of New China Capital Management, LP, the investment manager for Cathay Capital, and (6) 104,400 ordinary shares in the form of ADS of our Company directly held by Cathay Investment Fund, Limited, or CIF. Mr. Sussman directly and/or indirectly owns 50% of New China Investment Management, Inc., the investment manager for CIF. The percentage of beneficial ownership was calculated based on the total number of our ordinary shares outstanding as of March 31, 2015. The business address of Mr. Sussman is 6100 Red Hook Quarters, Suite C1-C6 St. Thomas, United Virgin Islands 00802-1348.
- (12) Represents 78,300,000 ordinary shares in the form of ADSs of our Company held by Norges Bank, as reported on Schedule 13G/A filed by Norges Bank on February 7, 2013. The percentage of beneficial ownership was calculated based on the total number of our ordinary shares outstanding as of March 31, 2015. The address of Norges Bank is Bankplassen 2, PO Box 1179 Sentrum, NO 0107 Oslo, Norway.

In January 5, 2015, Kingsford Resources entered into a share purchase and sale agreement with CDH Inservice in a privately negotiated transaction, pursuant to which Kingsford Resources, collectively held by Mr. Qiuping Lai, Mr. Chunlin Wang and Mr. Peng Ge, has agreed to purchase from CDH Inservice 7,731,149 ADSs, or its equivalent in ordinary shares of our company, at a price of US\$7 per ADS, or US\$0.35 per ordinary share, for total

compensation of US\$54.1 million. The 7,731,149 ADSs represent the entire interests in our company held by CDH Inservice as of January 5, 2015. 3,865,575 ADSs or its equivalent in ordinary shares were delivered by CDH Inservice to Kingsford Resources on January 15, 2015 and the remaining 3,865,574 ADSs or its equivalent in ordinary shares will be delivered on or prior to January 15, 2016.

None of our existing shareholders have different voting rights from other shareholders. We are not aware of any arrangement that may, at a subsequent date, result in a change of control of our company. As of March 31, 2015, J.P. Morgan Chase Bank, N.A., or J.P. Morgan, the depository for our ADS program, is our only record holder in the United States, holding approximately 61.0% of our total outstanding ordinary shares. The number of beneficial owners of our ADSs in the United States is likely much larger than the number of record holders of our ordinary shares in the United States.

Item 7. Major Shareholders and Related Party Transactions

A. Major Shareholders

Please refer to “Item 6. Directors, Senior Management and Employees — E. Share Ownership.”

B. Related Party Transactions

Amounts Due from an Affiliate and its Subsidiaries

We agreed to grant a revolving loan with a maximum amount of US\$50.0 million (equivalent to RMB318.0 million as per the agreement) to Sincere Fame, and its subsidiaries, pursuant to a facility letter, or the Facility entered in October 2011. The facility is valid for two years and was renewed for another two years in October 2013. On January 1, 2012, we and Sincere Fame further entered into a supplemental loan agreement, which established the legal rights to offset the interests and amounts receivable and payable between us and Sincere Fame, and all subsidiaries of us and Sincere Fame. As of December 31, 2014, the amount due from Sincere Fame and its subsidiaries represented RMB179.7 million (US\$29.0 million) principal receivable, RMB28.4 million (US\$4.6 million) interest receivable and RMB1.5 million (US\$0.2 million) account receivables. These amounts are unsecured, bear interest at 7.3% and are repayable on demand.

Shares Sold to Employee Companies and Subscription Receivables from Employee Companies

In November 2014, we entered into share purchase agreements with companies established on behalf of our employees, or the Employee Companies, for the issuance of up to 100,000,000 ordinary shares of our company. In December 2014, we increased the new shares issued to the employees to 150,000,000 ordinary shares, representing approximately 15% of our then total outstanding share capital. The purchase price for the 100,000,000 ordinary shares is US\$0.27 per ordinary share or US\$5.40 per ADS, while the purchase price for the additional 50,000,000 ordinary shares is US\$0.29 per ordinary share or US\$5.8 per ADS, both of which are the average closing prices for the 20 trading days prior to the board approvals. The shares purchased by the Employee Companies are subject to a 180 days lock-up. The sale of shares to the Employee Companies was completed on December 17, 2014.

In order to facilitate the purchase of shares by our employees pursuant to the share purchase agreement as described above, we also obtained approval from our board of directors to grant a US\$41.5 million loan to the Employee Companies. The loan bears interest at a rate of 3% per annum, is guaranteed by the individual employees and is repayable upon the sale of the shares by employees, termination of employment or within two years, whichever comes first. According to FASB ASC 505-10-45, the loan is recorded as a separate line of deduction from equity in our consolidated balance sheet as of December 31, 2014. Interest income accruing from the loan is recognized as non-operating income and other receivables. None of the loan to Employee Companies has been repaid as of March 31, 2015 and the total balance thereof as of December 31, 2014 was RMB257.5 million (US\$41.5 million).

Revenues and Other Incomes from Affiliates

We charged affiliates interest of RMB12.2 million (US\$2.0 million) for loans receivable during the year ended December 31, 2014.

Equity Interest Held on Behalf of an Affiliate

One of our subsidiaries held a 30% equity interest of Beijing Fanhua Micro-credit Company Limited, a subsidiary of Sincere Fame, on behalf of Shenzhen Fanhua United Investment Group, which is also a subsidiary of Sincere Fame.

Contractual Arrangements with Our Consolidated Affiliated Entities and Their Shareholders

Historically, PRC laws and regulations have restricted foreign investment in and ownership of insurance agencies and brokerages and internet business. Accordingly, we conducted part of our operations in China through contractual arrangements among our PRC subsidiaries, two affiliated entities in China, Yihe Investment and Xinbao Investment, their shareholders and their subsidiaries. In April 2014, we entered into similar contractual arrangements with Dianliang Information and its individual shareholder. For a description of these contractual arrangements, see “Item 4. Information on the Company — C. Organizational Structure.”

Employment Agreements

See “Item 6. Directors, Senior Management and Employees — A. Directors and Senior Management — Employment Agreements” for a description of the employment agreements we have entered into with our senior executive officers.

Share Options

Please refer to “Item 6. Directors, Senior Management and Employees — B. Compensation.”

C. Interests of Experts and Counsel

Not applicable.

Item 8. Financial Information

A. Consolidated Statements and Other Financial Information

See “Item 18. Financial Statements.”

Legal Proceedings

On October 17, 2011, Pieter Van Dongen, individually and on behalf of an alleged class of similarly situated holders of our ADSs, filed a class action lawsuit in the United States District Court for the Southern District of New York, or the Court, against us and three of our then executive officers. The complaint alleges that we made a series of false or misleading statements or omissions regarding our business, prospects and operations. The complaint principally alleges that we improperly accounted for the compensation that we paid to our insurance agents, thereby understating our expenses and overstating our net income. The complaint asserts claims under Section 10(b) of the Security Exchange Act of 1934, or the Exchange Act, and Rule 10b-5 thereunder and under Section 20(a) of the Exchange Act.

On March 19, 2014, we signed a settlement agreement with the plaintiff to settle the lawsuit at US\$6.6 million (approximately RMB40.1 million), to be paid as consideration for full and complete settlement of all the released claims. The settlement agreement contains no admission of liability, fault or wrongdoing by our company. On April 7, 2014, the Court preliminarily approved the settlement. On April 23, 2014, we and the individual defendants executed an agreement with XL Insurance Company PLC (Singapore Branch), or XL Insurance, in which, inter alia, XL Insurance agreed to pay the settlement amount of US\$6.6 million pursuant to the Directors and Officers and Company Reimbursement Insurance policy purchased by us, and the parties exchanged certain releases. On August 15, 2014, the Court granted final approval of the settlement agreement and entered a final judgment dismissing the case.

Except as disclosed above, we are not currently a party to any material litigation or other legal proceeding that may have a material adverse impact on our business or operations. However, we are and may continue to be subject to various claims and legal actions arising in the ordinary course of business.

Dividend Policy

Our board of directors has discretion as to whether to distribute dividends, subject to applicable laws. Even if our board of directors decides to pay dividends, the timing, amount and form of future dividends, if any, will depend on, among other things, our future results of operations and cash flow, our capital requirements and surplus, the amount of distributions, if any, received by us from our subsidiaries, our financial condition, contractual restrictions and other factors deemed relevant by our board of directors.

If we pay any dividends, we will pay our ADS holders to the same extent as holders of our ordinary shares, subject to the terms of the deposit agreement, including the fees and expenses payable thereunder. Any dividend we declare will be distributed by the depository bank to the holders of our ADSs. Cash dividends on our ordinary shares, if any, will be paid in U.S. dollars.

We are a holding company incorporated in the Cayman Islands. We rely on dividends from our subsidiaries in China to fund our payment of dividends, if any, to our shareholders. Current PRC regulations permit our subsidiaries to pay dividends to us only out of their accumulated profits, if any, determined in accordance with PRC accounting standards and regulations. In addition, each of our subsidiaries in China is required to set aside a certain amount of its accumulated after-tax profits each year, if any, to fund certain statutory reserves. These reserves may not be distributed as cash dividends. Further, if our subsidiaries in China incur debt on their own behalf, the instruments governing the debt may restrict their ability to pay dividends or make other payments to us. Furthermore, there are still uncertainties under the new PRC EIT law and the related regulations regarding whether the dividends we receive from our PRC subsidiaries or dividends paid to our shareholders will be subject to PRC withholding tax. See “Item 3. Key Information — D. Risk Factors — Risks Related to Doing Business in China — Our global income or the dividends we receive from our PRC subsidiaries may be subject to PRC tax under the EIT Law, which could have a material adverse effect on our results of operations.” and “Item 3. Key Information — D. Risk Factors — Risks Related to Doing Business in China — Under the EIT Law, dividends payable by us and gains on the disposition of our shares or ADSs could be subject to PRC taxation.”

B. Significant Changes

We have not experienced any significant changes since the date of our audited consolidated financial statements included in this annual report.

Item 9. The Offer and Listing

A. Offer and Listing Details

The following table provides the high and low trading prices for our ADSs on the Nasdaq Global Select Market since January 4, 2010 for the periods indicated.

	Sales Price	
	High	Low
	US\$	US\$
Annual High and Low		
2010	28.62	15.33
2011	20.88	5.28
2012	9.02	5.00
2013	7.00	4.75
2014	9.44	4.90
Quarterly Highs and Lows		
First Quarter of 2013	7.00	5.73
Second Quarter of 2013	6.77	5.99
Third Quarter of 2013	6.31	4.75
Fourth Quarter of 2013	6.10	4.85
First Quarter of 2014	9.44	5.50
Second Quarter of 2014	7.94	5.97
Third Quarter of 2014	7.56	5.47
Fourth Quarter of 2014	7.29	4.90
First Quarter of 2015	9.30	6.60

	Sales Price	
	High	Low
Monthly Highs and Lows		
October 2014	5.81	5.20
November 2014	6.89	4.90
December 2014.....	7.29	5.70
January 2015.....	8.59	6.60
February 2015.....	8.38	7.70
March 2015.....	9.30	7.74
April 2015 (through April 22)	10.13	8.55

B. Plan of Distribution

Not applicable.

C. Markets

Our ADSs, each representing 20 ordinary shares, have been listed on the Nasdaq Global Select Market since January 2, 2009 under the symbol “CISG.” From October 31, 2007 until January 1, 2009, our ADSs were listed on the Nasdaq Global Market.

D. Selling Shareholders

Not applicable.

E. Dilution

Not applicable.

F. Expenses of the Issue

Not applicable.

Item 10. Additional Information

A. Share Capital

Not applicable.

B. Memorandum and Articles of Association

The following are summaries of material provisions of our amended and restated memorandum and articles of association, including certain amendments adopted by our shareholders at the annual general meeting of shareholders held on December 18, 2008, as well as the Companies Law (2013 Revision) insofar as they relate to the material terms of our ordinary shares.

Registered Office and Objects

The registered office of our company is at the offices of Maples Corporate Services Limited, PO Box 309, Ugland House, Grand Cayman, KY1-1104, Cayman Islands, or at such other place as our board of directors may from time to time decide. The objects for which our company is established are unrestricted and we have full power and authority to carry out any object not prohibited by the Companies Law (2013 Revision) or as the same may be revised from time to time, or any other law of the Cayman Islands.

Board of Directors

See “Item 6. Directors, Senior Management and Employees — C. Board Practices — Board of Directors.”

Ordinary Shares

General. Our authorized share capital consists of 10,000,000,000 shares, with a par value of US\$0.001 each. All of our outstanding ordinary shares are fully paid and non-assessable. Certificates representing the ordinary shares are issued in registered form. Our shareholders who are nonresidents of the Cayman Islands may freely hold and vote their shares.

Dividend Rights. The holders of our ordinary shares are entitled to such dividends as may be declared by our board of directors subject to the Companies Law.

Voting Rights. On a show of hands, each shareholder present in person or by proxy (or, for a corporation or other non-natural person, present by its duly authorized representative or proxy) at general meeting shall have one vote and on a poll, shall have one vote for each share registered in his name in the register of members of our company. Voting at any meeting of shareholders is by show of hands unless a poll is demanded. A poll may be demanded by the chairman of the meeting or by any one or more shareholders together holding at least ten percent of our paid up voting share capital, present in person or by proxy.

A quorum required for a meeting of shareholders consists of shareholders holding in aggregate not less than one-third of our issued voting share capital present in person or by proxy or, if a corporation or other non-natural person, by its duly authorized representative. We may, but are not obliged, to hold an annual general meeting of shareholders. General meetings may be convened by our board of directors on its own initiative or upon a request to the directors by shareholders holding in aggregate not less than one-third of our voting share capital. Advance notice of at least 14 days is required for the convening of our annual general meeting and other shareholders meetings.

An ordinary resolution to be passed by the shareholders requires the affirmative vote of a simple majority of the votes attaching to the ordinary shares cast in a general meeting, while a special resolution requires the affirmative vote of no less than two-thirds of the votes attaching to the ordinary shares cast in a general meeting. A special resolution is required for important matters such as a change of name. Holders of the ordinary shares may effect certain changes by ordinary resolution, including consolidating and dividing all or any of our share capital into shares of larger amount than our existing shares, and canceling any shares which have not been taken or agreed to be taken.

Transfer of Shares. Subject to the restrictions of our articles of association, as applicable, any of our shareholders may transfer all or any of his or her ordinary shares by an instrument of transfer in the usual or common form or any other form approved by our board.

Liquidation. On a return of capital on winding up or otherwise (other than on conversion, redemption or purchase of shares), assets available for distribution among the holders of ordinary shares may be distributed among the holders of the ordinary shares as determined by the liquidator, subject to sanction of an ordinary resolution of our company.

Calls on Shares and Forfeiture of Shares. Our board of directors may from time to time make calls upon shareholders for any amounts unpaid on their shares in a notice served to such shareholders at least 14 days prior to the specified time of payment. The shares that have been called upon and remain unpaid on the specified time are subject to forfeiture.

Redemption and Repurchase of Shares. Subject to the provisions of the Companies Law and our articles of association, we may issue shares on terms that they are subject to redemption, at our option or at the option of the holders, on such terms and in such manner as our board of directors may determine before the issue of such shares. We also may purchase our own shares, provided that our shareholders have approved the manner of purchase by ordinary resolution or the manner of purchase is in accordance with that specified in our articles of association. The manner of purchase specified in our articles of association, which cover purchases of shares listed on an internationally recognized stock exchange and shares not so listed, is in accordance with Section 37(2) of the Companies Law or any modification or reenactment thereof for the time being in force. Pursuant to Companies Law (2013 Revision) as amended, upon the repurchase, redemption or surrender of shares, instead of cancelling them the board of directors can determine whether or not cancel those shares or hold them as treasury shares pending cancellation, transfer or sale. The company must obtain authorization to hold such shares as treasury shares either in accordance with the procedures set out in the company's articles of association or (if there are none) by a board resolution before being repurchased, redeemed or surrendered in accordance with the usual rules and articles.

Variations of Rights of Shares. All or any of the special rights attached to any class of shares may, subject to the provisions of the Companies Law, be varied either with the written consent of the holders of a majority of the issued shares of that class or with the sanction of a special resolution passed at a general meeting of the holders of the shares of that class.

Inspection of Books and Records. Holders of our ordinary shares have no general right under Cayman Islands law to inspect or obtain copies of our list of shareholders or our corporate records. However, we make our annual reports, which contain our audited financial statements, available to our shareholders. See “Item 10. Additional Information — H. Documents on Display.”

C. Material Contracts

We have not entered into any material contracts other than in the ordinary course of business and other than those described in “Item 4. Information on the Company” or elsewhere in this annual report.

D. Exchange Controls

See “Item 4. Information on the Company — B. Business Overview — Regulation — Regulations on Foreign Exchange.”

E. Taxation

The following summary of the material Cayman Islands, PRC and United States federal income tax consequences of an investment in our ADSs or ordinary shares is based upon laws and relevant interpretations thereof in effect as of the date of this annual report, all of which are subject to change. This summary does not deal with all possible tax consequences relating to an investment in our ADSs or ordinary shares, such as the tax consequences under state, local and other tax laws.

Cayman Islands Taxation

According to Maples and Calder, our Cayman Islands counsel, the Cayman Islands currently levies no taxes on individuals or corporations based upon profits, income, gains or appreciation and there is no taxation in the nature of inheritance tax or estate duty. No Cayman Islands stamp duty will be payable unless an instrument is executed in, or brought within the jurisdiction of the Cayman Islands, or produced before a court of the Cayman Islands. The Cayman Islands is not party to any double tax treaties that are applicable to any payment made to or by our Company. There are no exchange control regulations or currency restrictions in the Cayman Islands.

PRC Taxation

Under the former PRC Income Tax Law for Enterprises with Foreign Investment and Foreign Enterprises, any dividends payable by foreign-invested enterprises to non-PRC investors were exempt from any PRC withholding tax. In addition, any interest or dividends payable, or distributions made, by us to holders or beneficial owners of our ADSs or ordinary shares would not have been subject to any PRC tax, provided that such holders or beneficial owners, including individuals and enterprises, were not deemed to be PRC residents under the PRC tax law and had not become subject to PRC tax.

Under the EIT Law, which took effect as of January 1, 2008, enterprises established under the laws of non-PRC jurisdictions but whose “de facto management body” is located in China are considered “resident enterprises” for PRC tax purposes. Under the implementation regulations issued by the State Council relating to the new law, “de facto management bodies” are defined as the bodies that have material and overall management control over the business, personnel, accounts and properties of an enterprise. On April 22, 2009, SAT, issued SAT Circular 82, which provides certain specific criteria for determining whether the “de facto management body” of a PRC-controlled enterprise that is incorporated offshore is located in China. In addition, the SAT issued a bulletin on July 27, 2011 providing more guidance on the implementation of Circular 82 and clarifies matters such as resident status determination. Substantially all of our management are currently based in China, and may remain in China in the future. If we were treated as a “resident enterprise” for PRC tax purposes, we would be subject to PRC income tax on our worldwide income at a uniform tax rate of 25%, but dividends received by us from our PRC subsidiaries may be exempt from the income tax.

Under the new law and its implementation regulations, dividends paid to a non-PRC investor are generally subject to a 10% PRC withholding tax, if such dividends are derived from sources within China and the non-PRC investor is considered to be a non-resident enterprise without any establishment or place of business within China or if the dividends paid have no connection with the non-PRC investor's establishment or place of business within China, unless such tax is eliminated or reduced under an applicable tax treaty. Similarly, any gain realized on the transfer of ADSs or shares by such investor is also subject to a 10% PRC withholding tax if such gain is regarded as income derived from sources within China, unless such tax is eliminated or reduced under an applicable tax treaty. Pursuant to the Double Taxation Arrangement, which became effective on January 1, 2007, dividends from our PRC subsidiaries paid to us through our Hong Kong subsidiary, InsCom HK Limited, in which we indirectly hold a 65.1% equity interest, or CNinsure Holdings, which is 100% owned by our wholly-owned Hong Kong subsidiary, Minkfair, may be subject to a withholding tax at a rate of 5%.

If we were considered a PRC "resident enterprise," it is possible that the dividends we pay with respect to our ADSs or ordinary shares, or the gain you may realize from the transfer of our ADSs or ordinary shares, would be treated as income derived from sources within China and be subject to the 10% PRC withholding tax.

U.S. Federal Income Taxation

The following discussion describes material U.S. federal income tax consequences to U.S. Holders (as defined below) of an investment in our ADSs or ordinary shares under current law. This discussion applies only to U.S. Holders that hold the ADSs or ordinary shares as capital assets (generally, property held for investment) and have the U.S. dollar as their functional currency. This discussion is based on the tax laws of the United States as in effect on the date of this annual report and on U.S. Treasury regulations in effect or, in some cases, proposed as of the date of this annual report, as well as judicial and administrative interpretations thereof available on or before such date. All of the foregoing authorities are subject to change, which change could apply retroactively and could affect the tax consequences described below.

The following discussion does not deal with the tax consequences to any particular investor or to persons in special tax situations such as:

- banks and other financial institutions;
- insurance companies;
- broker-dealers;
- traders that elect to use a mark-to-market method of accounting;
- tax-exempt entities;
- persons liable for alternative minimum tax;
- U.S. expatriates;
- entities subject to the United States anti-inversion rules;
- regulated investment companies or real estate investment trusts;
- persons holding an ADS or ordinary share as part of a straddle, hedging, conversion or integrated transaction;
- persons holding ADSs or ordinary shares through a bank, financial institution or other entity, or a branch thereof, located, organized or resident outside the United States;
- persons who acquired ADSs or ordinary shares pursuant to the exercise of any employee stock options or otherwise as compensation;
- persons that actually or constructively own 10% or more of the total combined voting power of all classes of our voting stock; or

- partnerships or other pass-through entities, or persons holding ADSs or ordinary shares through such entities.

In addition, the discussion below does not describe any tax consequences arising out of the recently enacted Medicare tax on certain “net investment income.”

INVESTORS SHOULD CONSULT THEIR TAX ADVISORS REGARDING THE APPLICATION OF THE U.S. FEDERAL TAX RULES TO THEIR PARTICULAR CIRCUMSTANCES AS WELL AS THE STATE, LOCAL, FOREIGN AND OTHER TAX CONSEQUENCES TO THEM OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF OUR ADSs OR ORDINARY SHARES.

The discussion below of the U.S. federal income tax consequences to “U.S. Holders” will apply to you if you are a beneficial owner of our ADSs or ordinary shares and you are, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) organized under the laws of the United States, any state thereof or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust that (i) is subject to the primary supervision of a court within the United States and the control of one or more U.S. persons for all substantial decisions; or (ii) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

If you are a partner in a partnership (or other entity treated as a partnership for U.S. federal income tax purposes) that holds our ADSs or ordinary shares, your tax treatment will generally depend on your status and the activities of the partnership.

The discussion below assumes that the representations contained in the deposit agreement are true and that the obligations in the deposit agreement and any related agreement have been and will be complied with in accordance with their terms. If you hold our ADSs, you should be treated as the beneficial owner of the underlying ordinary shares represented by those ADSs for U.S. federal income tax purposes.

The U.S. Treasury has expressed concerns that U.S. holders of ADSs may be claiming foreign tax credits in situations where an intermediary in the chain of ownership between the holder of an ADS and the issuer of the security underlying the ADS has taken actions inconsistent with the ownership of the underlying security by the person claiming the credit. Such actions (for example, a pre-release of an ADS by a depository) may also be inconsistent with the claiming of the reduced rate of tax applicable to dividends received by certain non-corporate U.S. holders of ADSs, including individual U.S. holders (discussed below). Accordingly, the availability of foreign tax credits or the reduced tax rate for dividends received by certain non-corporate U.S. Holders, including individual U.S. Holders, could be affected by actions taken by the U.S. Treasury or the depository.

Passive Foreign Investment Company

Based on the market price of our ADSs, the value of our assets, and the composition of our income and assets, we believe we were a “passive foreign investment company,” or PFIC, for U.S. federal income tax purposes for our taxable year ended December 31, 2014. A non-U.S. corporation will be a PFIC for any taxable year if either:

- at least 75% of its gross income for such year is passive income; or
- at least 50% of the value of its assets (based on an average of the quarterly values of the assets) during such year is attributable to assets that produce passive income or are held for the production of passive income (the “asset test”).
- For this purpose, we will be treated as owning our proportionate share of the assets and earning our proportionate share of the income of any other corporation in which we own, directly or indirectly, at least 25% (by value) of the stock. We must make a separate determination after the close of each taxable year as to whether we were a PFIC for that year. The composition of our income and assets will be affected by

how, and how quickly, we use the cash we generate from our operations and raise in any offering. Because the value of our assets for purposes of the asset test will generally be determined by reference to the market price of our ADSs or ordinary shares, fluctuations in the market price of the ADSs or ordinary shares may affect our status as a PFIC. If we are a PFIC for any taxable year during which you hold ADSs or ordinary shares (as we believe we were for 2014), we will generally continue to be treated as a PFIC with respect to you for all succeeding years during which you hold the ADSs or ordinary shares, unless we cease to be a PFIC and you make a “deemed sale” election with respect to the ADSs or ordinary shares, as applicable. If such election is made, you will be deemed to have sold the ADSs or ordinary shares you hold at their fair market value and any gain from such deemed sale would be subject to the rules described in the following two paragraphs. After the deemed sale election, your ADSs or ordinary shares with respect to which such election was made will not be treated as shares in a PFIC unless we subsequently become a PFIC. **You are strongly urged to consult your tax advisors as to the possibility and consequences of making a deemed sale election if we cease to be a PFIC and such election becomes available to you.**

For each taxable year that we are treated as a PFIC with respect to you, you will be subject to special tax rules with respect to any “excess distribution” you receive and any gain you recognize from a sale or other disposition (including a pledge) of the ADSs or ordinary shares, unless you make a “mark-to-market” election as discussed below. Distributions you receive in a taxable year that are greater than 125% of the average annual distributions you received during the shorter of the three preceding taxable years or your holding period for the ADSs or ordinary shares will be treated as an excess distribution. Under these special tax rules:

- the excess distribution or recognized gain will be allocated ratably over your holding period for the ADSs or ordinary shares;
- the amount allocated to the current taxable year, and any taxable years in your holding period prior to the first taxable year in which we were a PFIC, will be treated as ordinary income; and
- the amount allocated to each other year will be subject to the highest tax rate in effect for individuals or corporations, as applicable, for each such year, and the interest charge generally applicable to underpayments of tax will be imposed on the resulting tax attributable to each such year.

The tax liability for amounts allocated to years prior to the year of disposition or excess distribution cannot be offset by any net operating losses for such years, and gains (but not losses) from a sale or other disposition of the ADSs or ordinary shares cannot be treated as capital, even if you hold the ADSs or ordinary shares as capital assets.

If we are treated as a PFIC with respect to you for any taxable year (as we believe we were for 2014), to the extent any of our subsidiaries are also PFICs or we make direct or indirect equity investments in other entities that are PFICs, you will be deemed to own shares in such lower-tier PFICs directly or indirectly owned by us in the proportion that the value of the ADSs or ordinary shares you own bears to the value of all of our ADSs and ordinary shares, and you may be subject to the rules described in the preceding two paragraphs with respect to the shares of such lower-tier PFICs that you would be deemed to own. It is likely that one or more of our subsidiaries were PFICs for the taxable year ended December 31, 2014. You should consult your tax advisors regarding the application of the PFIC rules to any of our subsidiaries.

A U.S. Holder of “marketable stock” (as defined below) of a PFIC may make a mark-to-market election for such stock to elect out of the PFIC rules regarding excess distributions and recognized gains described above. If you make a mark-to-market election for our ADSs or ordinary shares, you will include in income for each year that we are a PFIC an amount equal to the excess, if any, of the fair market value of the ADSs or ordinary shares you hold as of the close of your taxable year over your adjusted basis in such ADSs or ordinary shares. You will be allowed a deduction for the excess, if any, of the adjusted basis of the ADSs or ordinary shares over their fair market value as of the close of the taxable year. However, deductions will be allowable only to the extent of any net mark-to-market gains on the ADSs or ordinary shares included in your income for prior taxable years. Amounts included in your income under a mark-to-market election, as well as any gain from the actual sale or other disposition of the ADSs or ordinary shares, will be treated as ordinary income. Ordinary loss treatment will apply to the deductible portion of any mark-to-market loss on the ADSs or ordinary shares, as well as to any loss from the actual sale or other disposition of the ADSs or ordinary shares, to the extent that the amount of such loss does not exceed the net mark-to-market gains previously included for such ADSs or ordinary shares. Your basis in the ADSs or ordinary shares will be adjusted to reflect any such income or loss amounts. If you make a valid mark-to-market election, any distributions we make would generally be subject to the tax rules discussed above under “ — Taxation of Dividends

and Other Distributions on the ADSs or Ordinary Shares,” except the lower capital gains rate applicable to qualified dividend income would not apply.

The mark-to-market election is available only for “marketable stock,” which is stock that is traded in greater than *de minimis* quantities on at least 15 days during each calendar quarter (“regularly traded”) on a qualified exchange or other market, as defined in applicable U.S. Treasury regulations. Our ADSs are listed on the Nasdaq Global Select Market, which is a qualified exchange or other market for these purposes. Consequently, if the ADSs continue to be listed on the Nasdaq Global Select Market and are regularly traded, and you are a holder of ADSs, we expect the mark-to-market election would be available to you. Because a mark-to-market election cannot be made for equity interests in any lower-tier PFICs that we own, a U.S. Holder may continue to be subject to the PFIC rules described above regarding excess distributions and recognized gains with respect to its indirect interest in any investments held by us that are treated as an equity interest in a PFIC for U.S. federal income tax purposes.

Alternatively, a U.S. Holder of stock of a PFIC may make a “qualified electing fund” election with respect to such corporation to elect out of the PFIC rules described above regarding excess distributions and recognized gains. A U.S. Holder that makes a valid qualified electing fund election with respect to a PFIC will generally include in income for a taxable year such holder’s *pro rata* share of the corporation’s income for the taxable year. However, the qualified electing fund election is available only if the PFIC provides such U.S. Holder with certain tax information as required under applicable U.S. Treasury regulations. We do not intend to prepare or provide the information that would enable you to make a qualified electing fund election.

Unless otherwise provided by the U.S. Treasury, each U.S. shareholder of a PFIC is required to file an annual report containing such information as the U.S. Treasury may require. If we are a PFIC (as we believe we were for 2014), you should consult your tax advisors regarding any reporting requirements that may apply to you.

YOU ARE STRONGLY URGED TO CONSULT YOUR TAX ADVISORS REGARDING THE IMPACT OF OUR BEING A PFIC FOR 2014 ON YOUR INVESTMENT IN OUR ADSs AND ORDINARY SHARES AS WELL AS THE APPLICATION OF THE PFIC RULES AND THE ELECTIONS DISCUSSED ABOVE.

Taxation of Dividends and Other Distributions on the ADSs or Ordinary Shares

Subject to the passive foreign investment company rules discussed above, the gross amount of any distributions we make to you with respect to our ADSs or ordinary shares (including the amount of any taxes withheld therefrom) will generally be included in your gross income as dividend income on the date of actual or constructive receipt by the depository, in the case of ADSs, or by you, in the case of ordinary shares, but only to the extent the distribution is paid out of our current or accumulated earnings and profits (as determined under U.S. federal income tax principles). To the extent the amount of the distribution exceeds our current and accumulated earnings and profits (as determined under U.S. federal income tax principles), such excess amount will be treated first as a tax-free return of your tax basis in your ADSs or ordinary shares, and then, to the extent such excess amount exceeds your tax basis, as capital gain. We currently do not, and we do not intend to, calculate our earnings and profits under U.S. federal income tax principles. Therefore, a U.S. Holder should expect that a distribution will generally be treated as a dividend even if that distribution would otherwise be reported as a non-taxable return of capital or as capital gain under the rules described above. Any dividends we pay will not be eligible for the dividends-received deduction allowed to corporations in respect of dividends received from other U.S. corporations.

With respect to certain non-corporate U.S. Holders, including individual U.S. Holders, dividends generally will be “qualified dividend income” that is taxed at the lower applicable capital gains rate, provided certain conditions are satisfied, including (1) our ADSs or ordinary shares are readily tradable on an established securities market in the United States, or we are eligible for the benefits of a qualifying income tax treaty with the United States that includes an exchange of information program, (2) we are neither a passive foreign investment company nor treated as such with respect to you for our taxable year in which the dividend is paid and the preceding taxable year, and (3) certain holding period and other requirements are met. Based on U.S. Treasury guidance, we expect the ADSs will be considered readily tradable on an established securities market in the United States for purposes of clause (1) above so long as they remain listed on the Nasdaq Global Select Market. If we are deemed to be a “resident enterprise” under PRC tax law (see “Item 10. Additional Information — E. Taxation — PRC Taxation”), we may be eligible for the benefits of the income tax treaty between the United States and the PRC. As discussed above in “—Passive Foreign Investment Company,” we believe we were a PFIC for the taxable year ending December 31, 2014, and there is a significant risk that we will be a PFIC for future taxable years. You should consult your tax advisors regarding the availability of the lower capital gains rate applicable to qualified dividend income for any

dividends paid with respect to the ADSs or ordinary shares and any possible change in law relating to the availability of such lower rate for dividends paid by us.

Dividends we pay generally will constitute foreign source income for foreign tax credit limitation purposes. If the dividends are qualified dividend income (discussed above), the amount of the dividend taken into account for purposes of calculating the foreign tax credit limitation will generally be limited to the gross amount of the dividend, multiplied by the reduced tax rate applicable to qualified dividend income and divided by the highest tax rate normally applicable to dividends. The limitation on foreign taxes eligible for credit is calculated separately with respect to specific classes of income. For this purpose, any dividends distributed by us with respect to our ADSs or ordinary shares will be “passive category income” or, in the case of certain U.S. Holders, “general category income.” In addition, if PRC withholding taxes apply to dividends paid to you with respect to the ADSs or ordinary shares (see “Item 10. Additional Information — E. Taxation — PRC Taxation”), subject to certain conditions and limitations, such PRC withholding taxes may be treated as foreign taxes eligible for credit against your U.S. federal income tax liability. The rules relating to the determination of the foreign tax credit are complex, and you should consult your tax advisors regarding the availability of a foreign tax credit in your particular circumstances, as well as the effects of any change in applicable law after the date of this annual report.

Taxation of Disposition of the ADSs or Ordinary Shares

You will recognize taxable gain or loss on any sale, exchange or other taxable disposition of an ADS or ordinary share equal to the difference between the amount realized (in U.S. dollars) for the ADS or ordinary share and your tax basis (in U.S. dollars) in the ADS or ordinary share, subject to the passive foreign investment company rules discussed above. The gain or loss will be capital gain or loss. If you are a non-corporate U.S. Holder, including an individual U.S. Holder, who has held the ADS or ordinary share for more than one year, you will be eligible for reduced tax rates on capital gains. The deductibility of capital losses is subject to limitations.

Any gain or loss you recognize on a disposition of our ADSs or ordinary shares will generally be treated as U.S. source income or loss for foreign tax credit limitation purposes. However, if we are deemed to be a “resident enterprise” under PRC tax law and PRC tax were to be imposed on any gain from the disposition of the ADSs or ordinary shares (see “Item 10. Additional Information — E. Taxation — PRC Taxation”), a U.S. Holder that is eligible for the benefits of the treaty may elect to treat such gain as PRC source income. You should consult your tax advisors regarding the proper treatment of gain or loss in your particular circumstances.

Information Reporting and Backup Withholding

Dividend payments with respect to ADSs or ordinary shares and proceeds from the sale, exchange or other disposition of ADSs or ordinary shares may be subject to information reporting to the Internal Revenue Service and possible U.S. backup withholding, unless the conditions of an applicable exception are satisfied. Backup withholding will not apply to a U.S. Holder that furnishes a correct taxpayer identification number and makes any other required certification on Internal Revenue Service Form W-9 or that is otherwise exempt from backup withholding. U.S. Holders that are required to establish their exempt status generally must provide such certification on Internal Revenue Service Form W-9. Certain individuals holding the ADSs or ordinary shares other than in an account at certain financial institutions may be subject to additional information reporting requirements.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against your U.S. federal income tax liability, and you may obtain a refund of any excess amounts withheld under the backup withholding rules by filing the appropriate claim for refund with the Internal Revenue Service and furnishing any required information in a timely manner.

Certain U.S. Holders who are individuals are required to report information relating to an interest in our ADSs or ordinary shares, subject to certain exceptions (including an exception for ADSs or ordinary shares held in accounts maintained by certain financial institutions). U.S. Holders should consult their tax advisors regarding the effect, if any, of this legislation on their ownership and disposition of the ADSs or ordinary shares.

U.S. Holders should consult their tax advisors regarding the application of the U.S. information reporting and backup withholding rules.

F. Dividends and Paying Agents

Not applicable.

G. Statement by Experts

Not applicable.

H. Documents on Display

We previously filed with the SEC a registration statement on Form F-1 (File No. 333-146605) and a prospectus under the Securities Act with respect to the ordinary shares represented by the ADSs. We also filed with the SEC a related registration statement on Form F-6 (File Number 333-146765) with respect to the ADSs.

We are subject to periodic reporting and other informational requirements of the Exchange Act as applicable to foreign private issuers. Accordingly, we are required to file reports, including annual reports on Form 20-F, and other information with the SEC. All documents filed by us with the SEC can be inspected and copied at the public reference facilities maintained by the SEC at 100 F Street, N.E., Washington, D.C. 20549. You can request copies of these documents, upon payment of a duplicating fee, by writing to the SEC. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference rooms. The SEC also maintains a web site at www.sec.gov that contains reports, proxy and information statements, and other information regarding registrants that make electronic filings with the SEC using its EDGAR system.

As a foreign private issuer, we are exempt from the rules of the Exchange Act prescribing the furnishing and content of quarterly reports and proxy statements, and our executive officers, directors and principal shareholders are exempt from the reporting and short-swing profit recovery provisions contained in Section 16 of the Exchange Act. In addition, we are not required under the Exchange Act to file periodic reports and financial statements with the SEC as frequently or as promptly as U.S. companies whose securities are registered under the Exchange Act.

We intend to furnish J.P. Morgan, the depository of our ADSs, with all notices of shareholders' meeting and other reports and communications that are made generally available to our shareholders. The depository will make such notices, reports and communications available to holders of ADSs and, upon our written request, will mail to all record holders of ADSs the information contained in any notice of a shareholders' meeting received by the depository from us.

In accordance with Rule 5250(d) of the Nasdaq Listing Rules, we will post this annual report on Form 20-F on our website at <http://ir.cninsure.net/sec.cfm>. In addition, we will provide hard copies of our annual report free of charge to shareholders and ADS holders upon request.

I. Subsidiary Information

For a list of our subsidiaries as of March 31, 2015, see Exhibit 8.1 to this annual report.

Item 11. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

Our exposure to interest rate risk primarily relates to the interest income generated by bank deposits and short-term, highly-liquid investments with original maturities of 90 days or less. Interest-earning instruments carry a degree of interest rate risk, and our future interest income may be lower than expected. We have not been exposed nor do we anticipate being exposed to material risks due to changes in interest rates. We have not used any derivative financial instruments to manage our interest risk exposure. As of December 31, 2014, we had no short-term or long-term bank borrowings. If we borrow money in future periods, we may be exposed to additional interest rate risk.

Foreign Exchange Risk

Substantially all of our revenues and expenses are denominated in RMB. Our exposure to foreign exchange risk primarily relates to a small amount of cash and cash equivalent denominated in U.S. dollars resulting from the remaining proceeds from our follow-on offering completed in July 2010. We have not hedged exposures denominated in foreign currencies using any derivative financial instruments. Although in general, our exposure to foreign exchange risks should be limited, the value of your investment in our ADSs will be affected by the foreign exchange rate between U.S. dollars and RMB because the value of our business is effectively denominated in RMB, while the ADSs will be traded in U.S. dollars.

The value of the RMB against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in China's political and economic conditions. The conversion of RMB into foreign currencies, including U.S. dollars, has been based on rates set by the PBOC. On July 21, 2005, the PRC government changed its decade-old policy of pegging the value of the RMB to the U.S. dollar. Under the current policy, the RMB is permitted to fluctuate within a narrow and managed band against a basket of certain foreign currencies. This change in policy has resulted in an approximately more than 25.0% appreciation of the RMB against the U.S. dollar over the following eight years. To the extent that we need to convert our U.S. dollar or other currencies-denominated assets into RMB for our operations, appreciation of the RMB against the U.S. dollar or other currencies would have an adverse effect on the RMB amount we receive from the conversion. We had U.S. dollar-denominated financial assets amounting to US\$3.4 million and HK dollar-denominated financial assets amounting to HK\$1.7 million as of December 31, 2014. A 10% appreciation of the RMB against the U.S. dollar and HK dollar would have resulted in a decrease of RMB2.2 million (US\$0.4 million) in the value of our U.S. dollar-denominated and HK dollar-denominated financial assets. Conversely, if we decide to convert our RMB denominated cash amounts into U.S. dollars amounts or other currencies amounts for the purpose of making payments for dividends on our ordinary shares or ADSs or for other business purposes, appreciation of the U.S. dollar or other currencies against the RMB would have a negative effect on the U.S. dollar or other currencies amount available to us.

Item 12. Description of Securities Other than Equity Securities

A. Debt Securities

Not applicable.

B. Warrants and Rights

Not applicable.

C. Other Securities

Not applicable.

D. American Depositary Shares

Fees Payable by ADS Holders

We have appointed J.P. Morgan as our depository. A copy of our Form of Deposit Agreement with J.P. Morgan was filed with the SEC as an exhibit to our Form F-6 registration statement initially filed on October 17, 2007, or the Deposit Agreement. Pursuant to the Deposit Agreement, holders of our ADSs may have to pay to J.P. Morgan, either directly or indirectly, fees or charges up to the amounts set forth in the table below.

<u>Category</u>	<u>Depository Actions</u>	<u>Associated Fees</u>
(a) Depositing or substituting the underlying shares	Each person to whom ADRs are issued against deposits of shares, including deposits and issuances in respect of: <ul style="list-style-type: none"> • Share distributions, stock split, rights, merger • Exchange of securities or any other transaction or event or other distribution affecting the ADSs or the Deposited Securities 	US\$5.00 for each 100 ADSs (or portion thereof) evidenced by the new ADRs delivered
(b) Receiving or distributing dividends	Distribution of dividends	US\$0.02 or less per ADS
(c) Selling or exercising rights	Distribution or sale of securities, the fee being in an amount equal to the fee for the execution and delivery of ADSs which would have been charged as a result of the deposit of such securities	US\$5.00 for each 100 ADSs (or portion thereof)
(d) Withdrawing an underlying security	Acceptance of ADRs surrendered for withdrawal of deposited securities	US\$5.00 for each 100 ADSs (or portion thereof) evidenced by the ADRs surrendered

(e) Transferring, splitting or grouping receipts	Transfers, combining or grouping of depositary receipts	US\$1.50 per ADS
(f) General depositary services, particularly those charged on an annual basis.	<ul style="list-style-type: none"> • Other services performed by the depositary in administering the ADRs • Provide information about the depositary's right, if any, to collect fees and charges by offsetting them against dividends received and deposited securities 	US\$0.02 per ADS (or portion thereof) not more than once each calendar year and payable at the sole discretion of the depositary by billing Holders or by deducting such charge from one or more cash dividends or other cash distributions
(g) Expenses of the depositary	<p>Expenses incurred on behalf of Holders in connection with</p> <ul style="list-style-type: none"> • Compliance with foreign exchange control regulations or any law or regulation relating to foreign investment • The depositary's or its custodian's compliance with applicable law, rule or regulation • Stock transfer or other taxes and other governmental charges • Cable, telex, facsimile transmission/delivery • Expenses of the depositary in connection with the conversion of foreign currency into U.S. dollars (which are paid out of such foreign currency) • Any other charge payable by depositary or its agents 	Expenses payable at the sole discretion of the depositary by billing Holders or by deducting charges from one or more cash dividends or other cash distributions

Payment from the Depositary

Direct Payments

J.P. Morgan, as depositary, has agreed to reimburse certain reasonable company expenses related to our ADR program and incurred by us in connection with the program. For the years ended December 31, 2013 and 2014, the depositary reimbursed US\$0.2 million and US\$0.1 million, respectively. For the year ended December 31, 2013 and 2014, the depositary reimbursement has been deducted US\$0.1 million and US\$0.1 million withholding income tax, respectively. The amounts the depositary reimbursed are not perforce related to the fees collected by the depositary from ADR holders. The table below sets forth the types of expenses that J.P. Morgan has agreed to reimburse and the amounts reimbursed for the year ended December 31, 2013 and 2014.

	For the Year Ended December 31,

(1) Includes expenses in relation with roadshows, press release distribution, maintenance of investor relations website and printing.

PART II

Item 13. Defaults, Dividend Arrearages and Delinquencies

None.

Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds

A. – D. Material Modifications to the Rights of Security Holders

None.

E. Use of Proceeds

On July 14, 2010, we completed a follow-on public offering of 4,600,000 ADSs, each representing 20 ordinary shares. The ordinary shares underlying the ADSs offered and sold were registered pursuant to our automatic shelf registration statement on Form F-3 (File No. 333-168009) filed with the SEC on July 7, 2010. Morgan Stanley and BofA Merrill Lynch acted as joint bookrunners of this offering. We received net proceeds of approximately US\$109.7 million. As of December 31, 2014, we used the net proceeds as follows:

- approximately US\$23.2 million to fund development of our online and mobile platforms including CNpad, Baoxian.com, Chetong.net and eHuzhu;
- approximately US\$55.8 million to fund acquisitions; and
- approximately US\$1.3 million to fund development of wealth management business.;

None of the net proceeds from the follow-on offering were paid directly or indirectly to directors or officers of our company or their associates, persons owning 10% or more of our equity securities or our affiliates.

Item 15. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, has performed an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report, as required by Rule 13a-15(b) under the Exchange Act.

Based upon that evaluation, our chief executive officer and chief financial officer have concluded that, as of December 31, 2014, our disclosure controls and procedures were effective in ensuring that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act was recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our chief executive officer and chief financial officer, to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such item is defined in Rules 13a-15(f) under the Exchange Act, for our company. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements in accordance with U.S. GAAP and includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of a company's assets, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that a company's receipts and expenditures are being made only in accordance with authorizations of a company's management and directors, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of a company's assets that could have a material effect on the consolidated financial statements.

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper override. Because of

such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process, and it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

As required by Section 404 of the Sarbanes-Oxley Act and related rules as promulgated by the SEC, our management assessed the effectiveness of the internal control over financial reporting as of December 31, 2014 using criteria established in “Internal Control — Integrated Framework (2013)” issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Based on this assessment, management concluded that our internal control over financial reporting was effective as of December 31, 2014, based on the criteria established in “Internal Control—Integrated Framework (2013)” issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Report of the Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of CNinsure Inc.:

We have audited the internal control over financial reporting of CNinsure Inc., its subsidiaries and variable interest entities (collectively, the “Group”) as of December 31, 2014, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Group’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Group’s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company’s internal control over financial reporting is a process designed by, or under the supervision of, the company’s principal executive and principal financial officers, or persons performing similar functions, and effected by the company’s board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Group maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on the criteria established in *Internal Control - Integrated Framework(2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended December 31, 2014 of the Group, and our report dated April 23, 2015 expressed an unqualified opinion on those consolidated financial statements and financial statement schedule.

Changes in Internal Control over Financial Reporting

Management has evaluated, with the participation of our chief executive officer and chief financial officer, whether any changes in our internal control over financial reporting that occurred during our last fiscal year have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Based on the evaluation we conducted, management has concluded that no such changes occurred during the period covered by this annual report on Form 20-F.

Item 16A. Audit Committee Financial Expert

Our board of directors has determined that Allen Lueth, an independent director (under the standards set forth in Rule 5605 of the Nasdaq Listing Rules and Rule 10A-3 under the Exchange Act) and member of our audit committee, is an audit committee financial expert.

Item 16B. Code of Ethics

Our board of directors adopted a code of business conduct and ethics that applies to our directors, officers and employees. We have posted a copy of our code of business conduct and ethics on our investor relations website [at http://ir.cninsure.net/governance.cfm](http://ir.cninsure.net/governance.cfm).

Item 16C. Principal Accountant Fees and Services

The following table sets forth the aggregate fees by categories specified below in connection with certain professional services rendered by Deloitte Touche Tohmatsu Certified Public Accountants, our independent registered public accounting firm, for the periods indicated.

	For the Year Ended December 31,	
	2013	2014
	(in thousands of US\$)	
Audit fees ⁽¹⁾	1,770.9	1,475.0
Audit-related fees ⁽²⁾	—	—
Tax fees ⁽³⁾	28.1	—

(1) "Audit fees" meant the aggregate fees billed and expected to be billed in each of the fiscal years listed for professional services rendered by our independent registered public accounting firm for the audit of our annual financial statements and review of quarterly financial statements included in our reports on Form 6-K, services that are normally provided in connection with statutory and regulatory filings or engagements for those fiscal years.

(2) "Audit-related fees" meant the aggregate fees billed in each of the fiscal years listed for assurance and related services by our independent registered public accounting firm that are reasonably related to the performance of the audit or review of our financial statements and are not reported under "Audit fees."

(3) "Tax fees" meant the aggregate fees billed in each of the fiscal years listed for professional services rendered by our independent registered public accounting firm for tax compliance, tax advice, and tax planning.

The policy of our audit committee is to pre-approve all audit and non-audit services provided by our independent registered public accounting firm, including audit services, audit-related services, tax services and other services as described above, other than those for *de minimis* services which are approved by the Audit Committee prior to the completion of the audit.

Item 16D. Exemptions from the Listing Standards for Audit Committees

Not applicable.

Item 16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers

None

Item 16F. Change in Registrant's Certifying Accountant

Not applicable.

Item 16G. Corporate Governance

NASDAQ Stock Market Rule 5620(a) requires each issuer to hold an annual meeting of shareholders no later than one year after the end of the issuer's fiscal year-end. However, NASDAQ Stock Market Rule 5615(a)(3) permits foreign private issuers like us to follow "home country practice" in certain corporate governance matters. Maples and Calder, our Cayman Islands counsel, has provided a letter to the NASDAQ Stock Market certifying that under Cayman Islands law, we are not required to hold annual shareholder meetings every year. We follow home country practice with respect to annual meetings and did not hold an annual meeting of shareholders in 2009, 2010, 2011, 2012, 2013 and 2014. We may, however, hold annual shareholder meetings in the future if there are significant issues that require shareholders' approvals.

We obtained approvals from the board of directors on November 27, 2014 and December 12, 2014 to issue up to 150,000,000 ordinary shares of the Company (the "Shares") to our employees, excluding directors and officers. The purchase prices for the Shares are based on the average closing prices for the then 20 trading days prior to the board approvals. See "Item 7. Major Shareholders and Related Party Transactions — B. Related Party Transactions — Shares Sold to Employee Companies and Subscription Receivables from Employee Companies."

Pursuant to the NASDAQ Stock Market Rule 5635(c), shareholder approval is required prior to the issuance of securities when a stock option or purchase plan is to be established or materially amended or other equity compensation arrangement made or materially amended, pursuant to which stock may be acquired by officers, directors, employees, or consultants, except for a few situations stated thereunder. Maples and Calder, our Cayman Island counsel, has provided a letter to the NASDAQ Stock Market certifying that under Cayman Islands law, we are not required to obtain shareholder approval in respect of the issuance of securities in the circumstances set out in NASDAQ Stock Market Rule 5635(C). We follow home country practice accordingly.

Other than the annual meeting and share purchase plan to employees practices described above, there are no significant differences between our corporate governance practices and those followed by U.S. domestic companies under NASDAQ Stock Market Rules.

Item 16H. Mine Safety Disclosure

Not applicable

PART III

Item 17. Financial Statements

We have elected to provide financial statements pursuant to Item 18.

Item 18. Financial Statements

The consolidated financial statements of CNinsure Inc. and its subsidiaries are included at the end of this annual report.

CNINSURE INC.
INDEX TO CONSOLIDATED FINANCIAL STATEMENTS

	<u>Page</u>
Report of Independent Registered Public Accounting Firm	F-2
Consolidated Balance Sheets as of December 31, 2013 and 2014	F-3
Consolidated Statements of Income and Comprehensive Income (Loss) for the Years Ended December 31, 2012, 2013 and 2014	F-6
Consolidated Statements of Shareholder’s Equity for the Years Ended December 31, 2012, 2013 and 2014	F-8
Consolidated Statements of Cash Flows for the Years Ended December 31, 2012, 2013 and 2014	F-10
Notes to the Consolidated Financial Statements	F-12
Schedule 1—Condensed Financial Statements of CNinsure Inc.	F-52

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of CNinsure Inc.:

We have audited the accompanying consolidated balance sheets of CNinsure Inc. (the "Company"), its subsidiaries and variable interest entities (the "Group") as of December 31, 2013 and 2014, and the related consolidated statements of income and comprehensive income (loss), shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2014. Our audits also include the financial statement schedule included in schedule 1. These consolidated financial statements and the financial statement schedule are the responsibilities of the Group's management. Our responsibility is to express an opinion on the consolidated financial statements and the financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of CNinsure Inc., its subsidiaries and variable interest entities as of December 31, 2013 and 2014, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2014 in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Group's internal control over financial reporting as of December 31, 2014, based on the criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated April 23, 2015 expressed an unqualified opinion on the Group's internal control over financial reporting.

Our audits also comprehended the translation of Renminbi amounts into United States dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 2. Such United States dollar amounts are presented solely for the convenience of readers in the United States of America.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

(1) Organization and Description of Business

CISG Holdings Ltd ("CISG") was incorporated in the British Virgin Islands ("BVI") on June 8, 2004. CISG undertook a separate restructuring in anticipation of an initial public offering ("IPO") involving CNinsure Inc. (the "Company") that was incorporated in the Cayman Islands on April 10, 2007 as a shell company for listing purpose. On July 31, 2007, prior to its IPO, the Company issued 684,210,526 ordinary shares to the existing shareholders of CISG for exchange of their shares of CISG on a 10,000-for-1 basis and thereafter, became the ultimate holding company of CISG. The Company, its subsidiaries and variable interest entities (the "VIEs") are collectively referred to as the "Group". The Group is principally engaged in the provision of insurance brokerage and agency services, and insurance claims adjusting services, and services for wealth management products in the People's Republic of China (the "PRC").

Current PRC laws and regulations place certain restrictions on foreign investment in and ownership of insurance agencies, brokerages and on-line business. Accordingly, the Group conducts some of its operations in China through contractual arrangements among its PRC subsidiaries, two PRC affiliated entities and the equity shareholders of these PRC affiliated entities, who are PRC nationals. The contractual arrangements include a series of contracts entered into between the Group's PRC subsidiaries and the equity shareholders of these PRC affiliated entities and these PRC affiliated entities, including loan agreements, equity pledge agreements, irrevocable powers of attorney, exclusive purchase option agreements, consulting and service agreements, information technology ("IT") platform service agreements and technology service agreements. The consulting and service agreements and IT platform service agreements were not renewed since 2013. Through these contractual arrangements, the Group is entitled to: (1) receive service fees from the subsidiaries of these PRC affiliated entities; (2) exercise all of the voting powers of the owners of these PRC affiliated entities; (3) receive dividends declared by these PRC affiliated entities and their subsidiaries; (4) acquire all the equity interests of these PRC affiliated entities and their subsidiaries once PRC laws permit; and (5) exercise its substantive kick out right under the terms of the exclusive purchase option agreement. As the Company is the sole primary beneficiary of these VIEs, the Company consolidates them into its consolidated financial statements (See note 8).

(2) Summary of Significant Accounting Policies

(a) *Basis of Presentation and Consolidation*

The consolidated financial statements of the Group have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). The consolidated financial statements include the financial statements of the Company, all its majority-owned subsidiaries and those VIEs of which the Company is the primary beneficiary, from the dates they were acquired or incorporated. All intercompany balances and transactions have been eliminated in consolidation. In addition, the Group consolidates VIEs of which it is deemed to be the primary beneficiary and absorbs all of the expected losses and residual returns of the entity.

(b) *Use of Estimates*

The preparation of the consolidated financial statements in conformity with US GAAP requires management of the Group to make a number of estimates and assumptions relating to the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. Significant accounting estimates reflected in the Group's consolidated financial statements included the valuation of deferred tax assets, valuation of goodwill and intangible assets and liabilities of acquired businesses on acquisition day for impairment analysis, allowance for doubtful receivables, fair values of the subsidiaries being transferred within the Group at the dates of transactions, the valuation of non-controlling interests acquired from related parties at acquisition dates, valuation of transfer pricing and fair value of share based compensation. Actual results could differ from those estimates.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

(c) Cash and Cash Equivalents and Restricted Cash

Cash and cash equivalents consist of cash on hand, bank deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash, and have insignificant risk of changes in value related to changes in interest rates.

In its capacity as an insurance agent and broker, the Group collects premiums from certain insureds and remits the premiums to the appropriate insurance companies. Accordingly, as reported in the consolidated balance sheets, "premiums" are receivables from the insureds. Unremitted net insurance premiums are held in a fiduciary capacity until disbursed by the Group. The Group invests these unremitted funds only in cash accounts held for a short term, and reports such amounts as restricted cash in the consolidated balance sheets. Also included in the restricted cash is a guarantee deposits required by China Insurance Regulatory Commission ("CIRC") in order to protect insurance premium appropriation by insurance agency of RMB7,034 and RMB4,536 as of December 31, 2013 and 2014, respectively.

(d) Short Term Investment

Short term investments are mainly available-for-sale investments in debt securities that do not have a quoted market price in an active market. They are measured at costs which approximate their fair values in the consolidated balance sheets. The Group benchmark the costs against fair values of comparable investments as of balance sheet date, and categorized all fair value measures of short term investments as level 2 of the fair value hierarchy. No impairment loss on short term investments was identified for each of the years ended December 31, 2013 and 2014.

(e) Accounts Receivable and Insurance Premium Receivables

Accounts receivable are recorded at the invoiced amount and do not bear interest. Accounts receivable represent fees receivable on agency, brokerage and claims adjusting services primarily from insurance companies. Amounts collected on accounts receivable are included in net cash provided by operating activities in the consolidated statements of cash flows. The allowance for doubtful accounts is the Group's best estimate of the amount of probable credit losses in the Group's existing accounts receivable. The Group determines the allowance based on historical write-off experience. The Group reviews its allowance for doubtful accounts regularly. Past due balances over 90 days and over a specified amount are reviewed individually for collectability.

Accounts receivable, net is analyzed as follows:

	As of December 31,	
	2013	2014
	RMB	RMB
Accounts receivable	212,137	202,737
Allowance for doubtful accounts	(12,655)	(16,587)
Accounts receivable, net	199,482	186,150

The following table summarizes the movement of the Group's allowance for doubtful accounts:

	2012	2013	2014
	RMB	RMB	RMB
Balance at the beginning of the year	9,348	9,903	12,655
Provision for doubtful accounts	4,523	5,303	3,932
Write-offs	(3,968)	(2,551)	—
Balance at the ending of the year	9,903	12,655	16,587

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

Insurance premium receivables consist of insurance premium to be collected from insured, and is recorded at the invoiced amount and do not bear interest. Amounts collected on insurance premium receivables are included in net cash provided by operating activities in the consolidated statements of cash flows.

(f) Property, Plant and Equipment

Property, plant and equipment are stated at cost. Depreciation and amortization are calculated using the straight-line method over the following estimated useful lives, taking into account residual value:

	Estimated useful life (Years)	Estimated residual value
Building	20-36	0%
Office equipment, furniture and fixtures	3-5	0%-3%
Motor vehicles	5-10	0%-3%
Leasehold improvements	5	0%

The depreciation methods and estimated useful lives are reviewed regularly. The following table summarizes the depreciation recognized in the consolidated statement of income and comprehensive income (loss):

	2012	2013	2014
	RMB	RMB	RMB
Commission and fees under operating costs	3,585	4,988	5,508
Selling expenses.....	1,880	1,636	1,282
General and administrative expenses	20,884	24,629	21,445
Depreciation for the year	<u>26,349</u>	<u>31,253</u>	<u>28,235</u>

(g) Goodwill and Other Intangible Assets

Goodwill represents the excess of costs over fair value of net assets of businesses acquired. Goodwill is not amortized, but is tested for impairment at the reporting unit level at least on an annual basis at the balance sheet date or more frequently if certain indicators arise. The Group operated in three reporting units for the year ended December 31, 2014. The goodwill impairment review is a two-step process. Step 1 consists of a comparison of the fair value of a reporting unit with its carrying amount. An impairment loss may be recognized if the review indicates that the carrying value of a reporting unit exceeds its fair value. Estimates of fair value are primarily determined by using discounted cash flows. If the carrying amount of a reporting unit exceeds its fair value, step 2 requires the fair value of the reporting unit to be allocated to the underlying assets and liabilities of that reporting unit, resulting in an implied fair value of goodwill. If the carrying amount of the goodwill of the reporting unit exceeds the implied fair value, an impairment charge is recorded equal to the excess of the carrying amount over the implied fair value.

The impairment review is highly judgmental and involves the use of significant estimates and assumptions. These estimates and assumptions have a significant impact on the amount of any impairment charge recorded. Discounted cash flow methods are dependent upon assumptions of future sales trends, market conditions and cash flows of each reporting unit over several years. Actual cash flows in the future may differ significantly from those previously forecasted. Other significant assumptions include growth rates and the discount rate applicable to future cash flows.

In 2012, 2013 and 2014, management compared the carrying value of each reporting unit, inclusive of assigned goodwill, to its respective fair value which is the step one of the two-step impairment test. The fair value of all reporting units was estimated

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

by using the income approach. Based on this quantitative test, it was determined that the fair value of each reporting unit tested exceeded its carrying amount and, therefore, step 2 of the two-step goodwill impairment test was unnecessary. The management concluded that goodwill was not impaired as of December 31, 2012, 2013 and 2014.

Identifiable intangibles assets are required to be determined separately from goodwill based on their fair values. In particular, an intangible asset acquired in a business combination should be recognized as an asset separate from goodwill if it satisfies either the “contractual-legal” or “separability” criterion. Intangible assets with a finite economic life are carried at cost less accumulated amortization. Amortization for identifiable intangibles assets of customer relationship is computed using the accelerated method, while amortization for other identifiable intangibles assets is computed using the straight-line method over the intangible assets' economic lives. Intangible assets with indefinite economic lives are not amortized but carried at cost less any subsequent accumulated impairment losses. If an intangible asset that is not being amortized is subsequently determined to have a finite economic life, it will be tested for impairment and then amortized prospectively over its estimated remaining economic life and accounted for in the same manner as other intangible assets that are subject to amortization. Intangible assets with indefinite economic lives are tested for impairment annually or more frequently if events or changes in circumstances indicate that they might be impaired.

Separately identifiable intangible assets consist of brand name, trade name, customer relationship, non-compete agreement, agency agreement and license, and software and system.

CNINSURE INC.

		196,963	(103,948)	(61,417)	31,598

Aggregate amortization expenses for intangible assets were RMB15,285, RMB13,665 and RMB16,826 for the years ended December 31, 2012, 2013 and 2014, respectively.

Impairment of intangible assets with definite lives

The Group evaluates the recoverability of identifiable intangible assets with determinable useful lives, whenever events or changes in circumstances indicate that these assets' carrying amounts may not be recoverable. The Group measures the carrying amount of identifiable intangible asset with determinable useful live against the estimated undiscounted future cash flows associated with it. Impairment exists when the sum of the expected future net cash flows is less than the carrying value of the asset being evaluated. Impairment loss is calculated as the amount by which the carrying value of the asset exceeds its fair value. Fair value is estimated based on various valuation techniques, including the discounted value of estimated future cash flows. The evaluation of asset impairment requires the Group to make assumptions about future cash flows over the life of the asset being evaluated. These assumptions require significant judgment and actual results may differ from assumed and estimated amounts. During the years ended December 31, 2012, 2013 and 2014, the Group recognized no impairment losses on identifiable intangible assets with determinable useful lives.

Impairment of indefinite-lived intangible assets

An intangible asset that is not subject to amortization is tested for impairment at least annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. Such impairment test is to compare the fair values of assets with their carrying amounts and an impairment loss is recognized if and when the carrying amounts exceed the fair values. The estimates of fair values of intangible assets not subject to amortization are determined using various discounted cash flow

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

valuation methodologies. Significant assumptions are inherent in this process, including estimates of discount rates or market price. Discount rate assumptions are based on an assessment of the risk inherent in the respective intangible assets. Market prices are based on potential purchase quote from third party, if any. During the years ended December 31, 2012, 2013 and 2014, the Group recognized no impairment losses on its indefinite-lived intangible assets.

The estimated amortization expenses for the next five years are: RMB11,626 in 2015, RMB5,259 in 2016, RMB3,936 in 2017, RMB3,722 in 2018 and RMB2,557 in 2019, and an aggregate amount of RMB791 in years thereafter.

(h) Other Receivables and Other Current Assets

Other receivables and other current assets mainly consist of receivables from third parties, advances, deposits, interest receivables, value-added tax recoverable and prepaid expenses.

(i) Investment in Affiliates

Investments in affiliates are accounted for using the equity method. The Group does not control the affiliates but exerts significant influence over them.

(j) Other Non-current Assets

Other non-current assets represent investments in equity security of private companies which the group owns equity interest of less than 20%, over which the Group exerts no significant influence and are measured initially at cost. As of December 31, 2012, the other non-current assets also included dividend receivable from Datong of RMB7,561, recorded at amortized cost after discounting with the effective interest rate. As of December 31, 2013, dividend receivable from Datong of RMB7,561 was fully impaired.

(k) Impairment of Long-Lived Assets

Property, plant, and equipment, and purchased intangible assets with definite life, subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset.

(l) Insurance Premium Payables

Insurance premium payables are insurance premiums collected on behalf of insurance companies but not yet remitted as of the balance sheet dates.

(m) Subscription Receivables

The Group entered into share purchase agreements with companies established on behalf of our employees (the "Employee Companies") for the issuance of 100,000,000 ordinary shares with US\$0.27 per ordinary share and 50,000,000 ordinary shares with US\$0.29 per ordinary share in 2014. The issue prices are the average closing prices for the 20 trading days prior to the board approval dates of such subscriptions. The sale of shares to the Employee Companies was completed on December 17, 2014.

In order to facilitate the purchase of shares by employees as described above, the Group has granted a loan to the Employee Companies. The loan bears interest at a rate of 3% per annum and is repayable upon the sale of the shares by employees,

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

termination of employment or within two years, whichever comes first. Please refer to note 12 for details. The interest rate is determined with reference to fair market prices and therefore no interest-related compensation expense is recorded.

According to FASB ASC 505-10-45, the loan is recorded as a separate line of deduction from equity in the Group's consolidated balance sheet as of December 31, 2014. Interest income accruing from the loan is recognized as non-operating income. None of the loans to employees have been repaid up to the date of this report and total balance thereof as of year-end was RMB257,491 (US\$41,500).

(n) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred income taxes are recognized for temporary differences between the tax bases of assets and liabilities and their reported amounts in the consolidated financial statements, net operating loss carryforwards and credits by applying enacted statutory tax rates applicable to future years. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

In 2014, the Group has adopted FASB ASU No. 2013-11—Income Taxes (Topic 740): *Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists prospectively*, to present an unrecognized tax benefit, or a portion of an unrecognized tax benefit, in the balance sheets as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except to the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require the Group to use, and the Group does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit is presented in the balance sheets as a liability.

(o) Share-based Compensation

Employee share-based compensation

All forms of share-based payments to employees, including employee stock options and employee stock purchase plans, are treated the same as any other form of compensation by recognizing the related cost in the consolidated statement of income and comprehensive income (loss). Compensation cost related to employee stock options or similar equity instruments is measured at the grant date based on the fair value of the award and is recognized over the service period, which is usually the vesting period. If an award requires satisfaction of one or more performance, or service conditions (or any combination thereof), compensation cost is recognized if the requisite service is rendered, and no compensation cost is recognized if the requisite service is not rendered. The Group recognizes compensation cost for an award with only service conditions that has a graded vesting schedule on a straight-line basis over the requisite service period for the entire award, provided that the amount of compensation cost recognized at any date must at least equal the portion of the grant-date value of the award that is vested at that date. For awards with both service and performance conditions, if each tranche has an independent performance condition for a specified period of service, the Group recognizes the compensation cost of each tranche as a separate award on a straight-line basis; if each tranche has performance conditions that are dependent of activities that occur in the prior service periods, the Group recognizes the compensation cost on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was, in-substance, multiple awards. No compensation cost is recognized for instruments that employees forfeit because a service condition or a performance condition is not satisfied.

Non-employee share-based compensation

Share-based compensation related to non-employees is recognized as compensation expenses ratably over the requisite service periods. The Group measures the cost of non-employee services received in exchange for share-based compensation based on the fair value of the equity instruments issued. The Group measures the fair value of the equity instruments in these transactions on the measurement date, which is determined as the earlier of the date at which a commitment for performance by the counterparty to earn the equity instruments is reached, or the date at which the counterparty's performance is complete. The

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

quantity and terms of the equity instruments issued to non-employees are not known up front as they are dependent upon counterparty performance conditions, the Group measures the equity instruments at their then-current lowest aggregate fair value at each reporting dates, and attributes the changes in those fair values over the future services period until the measurement date has been established.

Modification of an Award

A modification of the terms or conditions of an equity award is treated as an exchange of the original award for a new award. The Group measures the effects of a modification as follows:

c. Incremental compensation cost shall be measured as the excess, if any, of the fair value of the modified award determined over the fair value of the original award immediately before its terms are modified, measured based on the share price and other pertinent factors at that date; and

d. The total recognized compensation cost for an equity award shall at least equal the fair value of the award at the grant date unless at the date of the modification the performance or service conditions of the original award are not expected to be satisfied.

The Group records the incremental fair-value-based measure, if any, of the modified award, as compensation cost on the date of modification (for vested awards) or over the remaining service (vesting) period (for unvested awards).

Cancellation of an Award

A cancellation of an award that is not accompanied by the concurrent grant of (or offer to grant) a replacement award or other valuable consideration shall be accounted for as a repurchase for no consideration. Accordingly, any previously unrecognized compensation cost shall be recognized at the cancellation date.

The Group uses the Black-Scholes or the Binominal option-pricing model to determine the fair value of stock options. Determining the value of share-based compensation expense in future periods requires the input of highly subjective assumptions, including estimated forfeitures and the price volatility of the underlying shares. The Group estimates the forfeitures of the shares based on past employee retention rates and its expectations of future retention rates, and prospectively revises the forfeiture rates based on actual history. The share compensation charges may change based on changes to the actual forfeitures. The actual share-based compensation expenses may be materially different from the current expectations.

Share-based compensation expenses of RMB66,878, RMB45,317 and RMB23,598 for the years ended December 31, 2012, 2013 and 2014, respectively, were included in the general and administrative expenses.

(p) Employee Benefit Plans

As stipulated by the regulations of the PRC, the Group's subsidiaries and VIEs in the PRC participate in various defined contribution plans organized by municipal and provincial governments for its employees. The Group is required to make contributions to these plans at a percentage of the salaries, bonuses and certain allowances of the employees. Under these plans, certain pension, medical and other welfare benefits are provided to employees. The Group has no other material obligation for the payment of employee benefits associated with these plans other than the annual contributions described above. The contributions are charged to the consolidated statement of income and comprehensive income (loss) as they become payable in accordance with the rules of the above mentioned defined contribution plans.

(q) Revenue Recognition

The Group's revenue is derived principally from the provision of insurance brokerage, agency and claims adjusting services. The Group recognizes revenue when all of the following have occurred: persuasive evidence of an agreement with the insurance companies or insurance agencies exists, services have been provided, the fees for such services are fixed or determinable and collectability of the fee is reasonably assured.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

Insurance agency services are considered to be rendered and completed, and revenue is recognized, at the time an insurance policy becomes effective, that is, when the signed insurance policy is in place and the premium is collected from the insured. The Group has met all the four criteria of revenue recognition when the premiums are collected by the Group or the respective insurance companies and not before, because collectability is not ensured until receipt of the premium. Accordingly, the Group does not accrue any commission and fees prior to the receipt of the related premiums. Insurance brokerage services revenue is recognized when the signed insurance policy is in place and the premium is collected from the insured and the commission settlement confirmation is received from insurance companies, because the commission rate for brokerage services is negotiated case by case and the Group's fees are fixed when such confirmation is received. No allowance for cancellation has been recognized for agency and brokerage businesses as the management of the Group estimates, based on its past experience that the cancellation of policies rarely occurs. Any subsequent commission adjustments in connection with policy cancellations which have been de minimis to date are recognized upon notification from the insurance carriers. Actual commission and fee adjustments in connection with the cancellation of policies were 0.1%, 0.2% and 0.2% of the total commission and fee revenues during years ended December 31, 2012, 2013 and 2014, respectively. For property insurance and life insurance, agency and brokerage services, the Group may receive a performance bonus from insurance companies as agreed and per contract provisions. Once an agency and brokerage company achieves its performance target, typically a certain sales volume, the bonus will become due. The bonus amount is computed based on the insurance premium amount multiplied by an agreed-upon percentage. The contingent commissions are recorded when a performance target is being achieved. Insurance claims adjusting services are considered to be rendered and completed, and revenue is recognized at the time loss adjusting reports are confirmed being received by insurance companies. The Group has met all the four criteria of revenue recognition when the service is provided and the loss adjusting report is accepted by insurance companies. The Group does not accrue any service fee before the receipt of an insurance company's acknowledgement of receiving the adjusting reports. Any subsequent adjustments in connection with discounts which have been de minimis to date are recognized in revenue upon notification from the insurance companies.

Other service fees include commission revenues earned from distribution of wealth management products and revenue from the provision of IT services. Commission from distribution of wealth management products are recorded when the products have been sold to customers, at which time the Group has fulfilled all its services obligations. Revenue from the provision of IT services is recognized when the services are rendered.

The Group presents revenue net of sales taxes incurred. The sales taxes amounted to RMB99,001, RMB99,931 and RMB120,965 for the years ended December 31, 2012, 2013 and 2014, respectively. According to the Announcement on the VAT Reform Pilot Program of the Transportation and Selected Modern Service Sectors issued by the State Tax Bureau in July 2012, the transportation and some selected modern service sectors, including research and development (R&D) and technical services, information technology services, cultural creative services, logistics support services, tangible personal property leasing services, and assurance and consulting service, should pay value-added tax instead of business tax based on a predetermined timetable (hereinafter referred to as the "VAT Reform"), effective September 1, 2012 for entities in Beijing and November 1, 2012 for entities in Guangdong. The VAT Reform expanded nation-wide from August 1, 2013. A total of seven subsidiaries or VIEs in the Group that engage in consulting and information technology services met the VAT Reform requirements, and have started to pay value-added tax since the respectively effective days. Total Value-added taxes paid by the Group during the year ended December 31, 2013 and 2014 amounted to RMB12,013 and RMB14,997.

(r) *Contingent Consideration*

The Group recognizes all the assets acquired and liabilities assumed in a business combination at the acquisition-date fair values, which will include an estimation of the fair value of contingent consideration payables if any. Subsequent changes in the fair value of contingent consideration payables will be recorded in the consolidated statement of income and comprehensive income (loss) when incurred. No change in fair value of contingent consideration payable was charged to consolidated statement of income and comprehensive income (loss) for the years ended December 31, 2012, 2013 and 2014.

The selling shareholders of the acquired entities agreed to return part of considerations to the Group, if certain performance criteria cannot be met. The fair value of such contingent arrangements was charged to consolidated statement of income and

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

comprehensive income (loss) in the amount of RMB4,500, nil and nil for the years ended December 31, 2012, 2013 and 2014, respectively.

(s) *Fair Value of Financial Instruments.*

Authoritative literature provides a fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The level in the hierarchy within which the fair value measurement in its entirety falls is based upon the lowest level of input that is significant to the fair value measurement as follows:

Level 1-inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.

Level 2-inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3-inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques. The carrying amounts of accounts receivable, insurance premium receivables, other receivables, accounts payable, other payables, amounts due from (to) related parties and insurance premium payables are approximate their fair values due to the short-term maturity of these instruments.

Measured at fair value on a recurring basis

The Group measured its short-term investments at fair value on a recurring basis as of December 31, 2013 and 2014.

Short-term investments are measured at costs which approximate their fair values in the consolidated balance sheets. The Group benchmarks the costs against fair values of comparable investments as of balance sheet date, and categorized all fair value measures of short term investments as Level 2 of the fair value hierarchy. The fair value of the Company's short-term investments measured at recurring basis was RMB253,900 and RMB688,900, as of December 31, 2013 and 2014, respectively, all classified as Level 2 with fair value measurement at reporting date using significant other observable inputs.

The Group did not have Level 3 investments as of December 31, 2013 and 2014.

Measured at fair value on a non-recurring basis

Goodwill and intangible assets are measured at fair value on a nonrecurring basis and they are recorded at fair value only when impairment is recognized.

The Group measures certain assets, including the cost method investments, equity method investments and intangible assets, at fair value on a nonrecurring basis when they are deemed to be impaired. The fair values of these investments and intangible assets are determined based on valuation techniques using the best information available, and may include management judgments, future performance projections, etc. An impairment charge to these investments is recorded when the cost of the investment exceeds its fair value and this condition is determined to be other-than-temporary, and impairment charge to the intangible assets is recorded when their carrying amounts may not be recoverable.

(t) *Foreign Currencies*

The functional currency of the Company is the United States dollar ("USD"). Assets and liabilities are translated at the exchange rates at the balance sheet date, equity accounts are translated at historical exchange rates and revenues, expenses, gains and losses are translated using the average rate for the year. Translation adjustments are reported as cumulative translation adjustments and

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

are shown as a separate component of other comprehensive income or loss in the consolidated statements of income and comprehensive income (loss). The Group has chosen the Renminbi ("RMB") as their reporting currency.

The functional currency of the most of the Company's subsidiaries and VIEs is RMB. Transactions in other currencies are recorded in RMB at the rates of exchange prevailing when the transactions occur. Monetary assets and liabilities denominated in other currencies are translated into RMB at rates of exchange in effect at the balance sheet dates. Exchange gains and losses are recorded in the consolidated statements of income and comprehensive income (loss).

(u) *Foreign Currency Risk*

The RMB is not a freely convertible currency. The State Administration for Foreign Exchange, under the authority of the People's Bank of China, controls the conversion of RMB into foreign currencies. The value of RMB is subject to changes in central government policies and international economic and political developments that affect supply and demand in the China Foreign Exchange Trading System market of cash and cash equivalents. The Group had aggregate amounts of RMB2,262,712 and RMB2,080,842 of cash and cash equivalents denominated in RMB as of December 31, 2013 and 2014, respectively.

(v) *Translation into United States Dollars*

The consolidated financial statements of the Group are stated in RMB. Translations of amounts from RMB into U.S. dollars are solely for the convenience of the readers and were calculated at the rate of US\$1.00 = RMB6.2046, representing the noon buying rate in the City of New York for cable transfers of RMB on December 31, 2014, as set forth in H.10 statistical release of the Federal Reserve Board. The translation is not intended to imply that the RMB amounts could have been, or could be, converted, realized or settled into U.S. dollars at that rate on December 31, 2014, or at any other rate.

(w) *Segment Reporting*

The Group distributes a variety of property and casualty, and life insurance products underwritten by domestic and foreign insurance companies operating in the PRC, and provides insurance claims adjusting services as well as other insurance-related services and distribution of wealth management products. Before January 1, 2014, the Group operated three operating segments: (1) property and casualty insurance ("P&C"), (2) life insurance ("Life"), and (3) insurance claims adjusting services ("Claims Adjusting"). From January 1, 2014, the Group realigned its financial reporting structure into three business segments that more accurately reflect its organizational structure and changing business mix. Historical results reflecting the new business segments for the corresponding period of the previous year have been restated. The new business segments are as follows: (1) insurance agency segment, which mainly consists of providing agency services for P&C insurance products and life insurance products to individual clients, (2) insurance brokerage segment, which mainly consists of providing P&C and life insurance brokerage services to institutional clients, and (3) claims adjusting segment, which consists of providing pre-underwriting survey, claim adjusting, disposal of residual value, loading and unloading supervision and consulting services. Details of these operating segments are described in note 21. Operating segments are defined as components of an enterprise about which separate financial information is available and evaluated regularly by the Group's chief operating decision maker in deciding how to allocate resources and in assessing performance.

Substantially all revenues are derived in the PRC and all long-lived assets are located in the PRC.

(x) *Earnings per Share ("EPS") or ADS*

Basic EPS is calculated by dividing the net income available to common shareholders by the weighted average number of ordinary shares /ADS outstanding during the year. Diluted EPS is calculated by using the weighted average number of ordinary shares /ADS outstanding adjusted to include the potentially dilutive effect of outstanding share-based awards, unless their inclusion in the calculation is anti-dilutive.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

(y) *Advertising Costs*

Advertising costs are expensed as incurred. Advertising costs amounted to RMB5,048, RMB5,724 and RMB6,553 for the years ended December 31, 2012, 2013 and 2014, respectively.

(z) *Operating Leases*

Leases where substantially all the rewards and risks of ownership of assets remain with the leasing company are accounted for as operating leases. Payments made under operating leases are charged to the consolidated statements of income and comprehensive income (loss) over the lease period.

(aa) *Accumulated Other Comprehensive Income (Loss)*

The Group presents comprehensive income in the consolidated statements of income and comprehensive income (loss) with net income in a continuous statement.

Accumulated other comprehensive income (loss) represents foreign currency translation adjustments for the period.

(ab) *Recently Issued Accounting Standards*

In May 2014, the FASB issued a new pronouncement which affects any entity using U.S. GAAP that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets unless those contracts are within the scope of other standards (e.g., insurance contracts or lease contracts). This ASU will supersede the revenue recognition requirements in Topic 605, *Revenue Recognition*, and most industry-specific guidance. This ASU also supersedes some cost guidance included in Subtopic 605-35, *Revenue Recognition—Construction-Type and Production-Type Contracts*. In addition, the existing requirements for the recognition of a gain or loss on the transfer of nonfinancial assets that are not in a contract with a customer (e.g., assets within the scope of Topic 360, *Property, Plant, and Equipment*, and intangible assets within the scope of Topic 350, *Intangibles—Goodwill and Other*) are amended to be consistent with the guidance on recognition and measurement (including the constraint on revenue) in this ASU.

The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the following steps:

- Step 1: Identify the contract(s) with a customer.
- Step 2: Identify the performance obligations in the contract.
- Step 3: Determine the transaction price.
- Step 4: Allocate the transaction price to the performance obligations in the contract.
- Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation.

For a public entity, the amendments in this ASU are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted.

An entity should apply the amendments in this ASU using one of the following two methods:

1. Retrospectively to each prior reporting period presented and the entity may elect any of the following practical expedients:

- For completed contracts, an entity need not restate contracts that begin and end within the same annual reporting period.
- For completed contracts that have variable consideration, an entity may use the transaction price at the date the

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

contract was completed rather than estimating variable consideration amounts in the comparative reporting periods.

- For all reporting periods presented before the date of initial application, an entity need not disclose the amount of the transaction price allocated to remaining performance obligations and an explanation of when the entity expects to recognize that amount as revenue.

2. Retrospectively with the cumulative effect of initially applying this ASU recognized at the date of initial application. If an entity elects this transition method it also should provide the additional disclosures in reporting periods that include the date of initial application of:

- The amount by which each financial statement line item is affected in the current reporting period by the application of this ASU as compared to the guidance that was in effect before the change.
- An explanation of the reasons for significant changes.

The Group is in the process of assessing the impact of adoption of this pronouncement on its consolidated financial condition or results from operations.

In June 2014, the FASB issued a new pronouncement which requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Topic 718, *Compensation – Stock Compensation*, as it relates to awards with performance conditions that affect vesting to account for such awards. The performance target should not be reflected in estimating the grant-date fair value of the award. Compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the period(s) for which the requisite service has already been rendered. If the performance target becomes probable of being achieved before the end of the requisite service period, the remaining unrecognized compensation cost should be recognized prospectively over the remaining requisite service period. The total amount of compensation cost recognized during and after the requisite service period should reflect the number of awards that are expected to vest and should be adjusted to reflect those awards that ultimately vest. The requisite service period ends when the employee can cease rendering service and still be eligible to vest in the award if the performance target is achieved.

The amendments in this ASU are effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. Earlier adoption is permitted.

Entities may apply the amendments in this ASU either: (a) prospectively to all awards granted or modified after the effective date; or (b) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. If retrospective transition is adopted, the cumulative effect of applying this ASU as of the beginning of the earliest annual period presented in the financial statements should be recognized as an adjustment to the opening retained earnings balance at that date. In addition, if retrospective transition is adopted, an entity may use hindsight in measuring and recognizing the compensation cost. The Group does not expect the adoption of this pronouncement to have a significant impact on its consolidated financial condition or results from operations.

In January 2015, the FASB issued a new pronouncement which eliminates from U.S. GAAP the concept of extraordinary items. Subtopic 225-20, *Income Statement - Extraordinary and Unusual Items*, required that an entity separately classify, present, and disclose extraordinary events and transactions. Presently, an event or transaction is presumed to be an ordinary and usual activity of the reporting entity unless evidence clearly supports its classification as an extraordinary item.

If an event or transaction meets the criteria for extraordinary classification, an entity is required to segregate the extraordinary item from the results of ordinary operations and show the item separately in the income statement, net of tax, after income from continuing operations. The entity also is required to disclose applicable income taxes and either present or disclose earnings-per-share data applicable to the extraordinary item.

The FASB heard from stakeholders that the concept of extraordinary items causes uncertainty because it is unclear when an item should be considered both unusual and infrequent. Additionally, some stakeholders said that although users find information about unusual or infrequent events and transactions useful, they do not find the extraordinary item classification and

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

presentation necessary to identify those events and transactions. Other stakeholders noted that it is extremely rare in current practice for a transaction or event to meet the requirements to be presented as an extraordinary item.

The amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. A reporting entity may apply the amendments prospectively. A reporting entity also may apply the amendments retrospectively to all prior periods presented in the financial statements. Early adoption is permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. The Group does not expect the adoption of this pronouncement to have a significant impact on its consolidated financial condition or results from operations.

CNINSURE INC.

(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

(3) Acquisitions

Acquisitions in 2014

In April 2014, the Group entered into agreements to acquire 100% equity interests in Nanjing Yukai Insurance Agency Co., Ltd. ("Nanjing") and Wenzhou Huilian Insurance Agency Co., Ltd ("Wenzhou") at the cash consideration of RMB27,000 and RMB16,000, respectively.

In April 2014, the Group also entered into an agreement to acquire the remaining 70% equity interests in Jiaxing Lianbao Insurance Agency Co., Ltd ("Jiaxing") at the cash consideration of RMB21,000. The fair value of 30% equity interests in Jiaxing previously held by the Group was remeasured to RMB9,000, hence the Group recognized gain from step acquisition of RMB8,812 at acquisition date.

The acquisitions of Nanjing, Wenzhou and Jiaxing were completed on May 1, 2014. Pursuant to the agreements, the selling shareholders of Nanjing, Wenzhou and Jiaxing agreed to return part of considerations to the Group, if the performance criteria of Nanjing, Wenzhou and Jiaxing for years 2014 to 2016 cannot be met. The fair value of such contingent arrangements approximates to zero at the acquisition date. As for the year ended December 31, 2014, Wenzhou has met the performance criteria but Nanjing and Jiaxing has failed to meet the performance criteria. The Group has issued waivers to the sellers of Nanjing and Jiaxing to release the return of considerations related to these two companies' under-performance for fiscal 2014.

The following table summarizes the estimated fair values for major classes of assets acquired and liabilities assumed at the date of acquisition:

	<u>Nanjing</u>	<u>Wenzhou</u>	<u>Jiaxing</u>
	RMB	RMB	RMB
Net tangible assets (liabilities) acquired	(4,116)	2,708	3,670
Intangible assets	7,650	4,110	7,290
Goodwill	23,850	10,209	20,862
Deferred tax assets	1,529	—	—
Deferred tax liabilities.....	(1,913)	(1,027)	(1,822)
Total consideration	<u>27,000</u>	<u>16,000</u>	<u>30,000</u>

The excess of purchase price over tangible assets and identifiable intangible assets acquired and liabilities assumed was recorded as goodwill. The goodwill of RMB54,921 arising from the acquisitions consists largely of the synergies and economies of scale expected from combining the operations of the Group and the acquired companies. All of the goodwill was assigned to the Group's agency segment. None of the goodwill recognized is expected to be deductible for income tax purposes.

The acquired intangible assets were composed of the following:

	<u>Useful life</u>	<u>Fair Value Acquired</u>		
		<u>RMB</u>		
	<u>(Years)</u>	<u>Nanjing</u>	<u>Wenzhou</u>	<u>Jiaxing</u>
Customer relationship	6.7	4,840	2,920	4,630
Non-compete agreement	3.0	520	270	480
Agency agreement	6	2,290	920	2,180
Total.....		<u>7,650</u>	<u>4,110</u>	<u>7,290</u>

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

The weighted average amortization period of the intangible asset acquired is 6.3 years

The following unaudited pro forma information summarizes the effect of the acquisitions, as if the acquisitions had occurred as of January 1, 2013. This unaudited pro forma information is presented for information purposes only. It is based on historical information and does not purport to represent the actual results that may have occurred had the Group consummated the acquisitions on January 1, 2013, nor is it necessarily indicative of future results of operations of the consolidated enterprises:

Pro forma for year ended December 31, 2013

	<u>Nanjing</u>	<u>Wenzhou</u>	<u>Jiaying</u>
	RMB	RMB	RMB
	(unaudited)	(unaudited)	unaudited)
Pro forma net revenues	1,769,665	1,769,4	1,780,360
Pro forma income from operations	16,563	17,553	16,348
Pro forma net income	94,541	95,289	94,215
Pro forma net income per share	0.09	0.10	0.09

Pro forma for year ended December 31, 2014

	<u>Nanjing</u>	<u>Wenzhou</u>	<u>Jiaying</u>
	RMB	RMB	RMB
	(unaudited)	(unaudited)	(unaudited)
Pro forma net revenues	2,159,466	2,155,319	2,163,231
Pro forma income from operations	30,613	30,840	31,355
Pro forma net income	161,793	161,736	162,318
Pro forma net income per share	0.16	0.16	0.16

The amounts of Nanjing, Wenzhou and Jiaying's net revenue and earnings included in the Group's consolidated income statement from May 1, 2014 to December 31, 2014 are RMB19,060, RMB11,902 and RMB22,136, respectively and RMB2,323, RMB1,151 and RMB619, respectively.

(4) Other Receivables

Other receivables, net are analyzed as follows:

	<u>As of December 31,</u>	
	<u>2013</u>	<u>2014</u>
	RMB	RMB
Advances to staff (i).....	9,494	8,159
Advances to entrepreneurial agents (ii).....	1,984	981
Rental deposits	6,213	5,701
Interest income receivables (iii).....	47,273	46,472
Value-added tax recoverable (iv).....	1,867	2,786
Receivable from third parties(v)	141,938	17,020

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

	As of December 31,	
	2013	2014
	RMB	RMB
Reimbursement from insurance company (vi)	40,106	—
Other	5,901	7,030
	254,776	88,149

- (i) This represented advances to staff of the Group for daily business operations which are unsecured, interest-free and repayable on demand.
- (ii) This represented advances to entrepreneurial agents who provide services to the Group. The advances are used by agents to develop business. The advances were unsecured, interest-free and repayable on demand.
- (iii) This represented accrued interest income on bank deposits and interest bearing receivable from third parties as described in (v).
- (iv) As of December 31, 2013 and December 31, 2014, the amount represented value-added tax to be refunded from tax bureau. The amount of value-added tax outstanding as of December 31, 2013 had been refunded during the year 2014, and the amount as of December 31, 2014 had not been refunded up to this report date.
- (v) Receivable from third parties mainly included receivables from two third parties: 1) receivable from Guangdong Jintaiping Asset Management Co. Ltd (“Jintaiping”). The Group held 19.5% equity interest of Jintaiping before December 2013. In December 2013, the Group disposed of the equity share of Jintaiping. Accordingly, receivable from Jintaiping was reclassified from amount due from related parties to other receivables. The loan receivable from Jintaiping is payable within one year and bears annual interest rate at 8%. As of December 31, 2014, the amount due from Jintaiping was 17,020 (2013: RMB130,651). The receivable were unsecured and repayable on demand; and 2) other receivable from third parties as of December 31, 2013 also included receivable from Shanghai Puyi Investment Consulting Co.,Ltd (“Shanghai Puyi”). On December 2, 2013, the Group signed an equity transfer agreement to sell its 19.5% shareholdings of Jintaiping to Shanghai Puyi at a consideration of RMB7,987, which should be settled within 30 days after the legal registration of equity transfer and had been settled in 2014.
- (vi) On April 23, 2014, the company has signed a settlement agreement with an insurance company. Please refer to note 16 (iii) for details. The legal case has been settled in August 2014.

(5) Property, Plant and Equipment

Property, plant and equipment, net, is comprised of the following:

	As of December 31,	
	2013	2014
	RMB	RMB
Building	11,346	12,317
Office equipment, furniture and fixtures.....	127,849	127,498
Motor vehicles	40,039	35,229

Total.....	188,267	185,861
Less: Accumulated depreciation	(118,705)	(138,690)
Property, plant and equipment, net	69,562	47,171

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

No impairment for property, plant and equipment was recorded for the years ended December 31, 2012, 2013 and 2014.

(6) Goodwill

The movements in carrying amount of goodwill by reportable segments are as follows:

Goodwill of the P&C and Life insurance operating segments as of December 31, 2012 and 2013 has been grouped together under the agency segment due to the Group's realignment of its financial reporting structure in 2014 (see note 2(w)).

	Agency segment
	RMB
Balance as of January 1, 2013 & 2014.....	78,553
Addition for acquisitions in 2014.....	54,921
Balance as of December 31, 2014.....	133,474

The gross amount and accumulated impairment losses by segment as of December 31, 2013 and 2014 are as follows:

	Agency segment	Claims Adjusting segment	Total
	RMB	RMB	RMB
Goodwill, gross as of January 1, 2013	1,041,181	38,077	1,079,258
Accumulated impairment loss	(962,628)	(38,077)	(1,000,705)
Goodwill, net as of December 31, 2013.....	78,553	—	78,553
Goodwill, gross as of January 1, 2014	1,096,102	38,077	1,134,179
Accumulated impairment loss	(962,628)	(38,077)	(1,000,705)
Goodwill, net as of December 31, 2014.....	133,474	—	133,474

The Group performed the annual impairment analysis as of the balance sheet date. There has been no impairment loss recognized in goodwill for the years ended December 31, 2012, 2013 and 2014, respectively.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

(7) Investment in Affiliates

As of December 31, 2013, investments in affiliates represent (i) 40% equity interest in Shanghai Teamhead Automobile Surveyors Co., Ltd. ("Teamhead Automobile") which is a PRC registered company that provides insurance surveyor and loss adjustors services, (ii) 30% equity interest in Jiaxing which is a PRC registered company that distributes property and casualty insurance products and (iii) 20.6% equity interest in Sincere Fame International Limited ("Sincere Fame") which is a BVI company that is a financial services company, primarily engages in the origination and management of small loans made to individuals, loan repackaging transaction, asset management-related services to financial institutions and mortgage agency services to individuals based in Guangzhou, PRC.

During the year of 2014, the Group acquired the remaining 70% equity interest in Jiaxing and become 100% owner of Jiaxing. Hence Jiaxing is derecognized from investment in affiliates.

During the years ended December 31, 2012, 2013 and 2014, the Group recognized its share of income of affiliates in the amount of RMB14,658, RMB20,621 and RMB30,649 respectively.

Investment as of December 31, 2013 and 2014 were as follows:

	As of December 31,	
	2013	2014
	RMB	RMB
Teamhead Automobile	473	498
Jiaxing	192	—
Sincere Fame	188,576	219,205
Total	189,241	219,703

The summarized financial information of equity method investees is illustrated as below:

	As of December 31,	
	2013	2014
	RMB	RMB
Balance sheet		
Current assets	641,314	364,045
Non-current assets	556,067	1,335,315

Non-current liabilities	1,057	2,904

	Year Ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Results of operation			
Net Revenues	328,385	365,521	403,908
Gross profit	240,644	295,954	346,688
Income from operations	89,963	139,211	184,531
Net profit	73,869	116,674	148,891

(8) Variable Interest Entities

Historically, PRC laws and regulations place certain restrictions on foreign investment in and ownership of insurance agencies and brokerages. As a Cayman Islands corporation, the Company is deemed a foreign legal person under PRC laws. Accordingly, the Group had conducted its business in China through contractual arrangements.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

In recent years, some rules and regulations governing the insurance intermediary sector in China have begun to encourage foreign investment. The Group has commenced a restructuring which has resulted in obtaining controlling equity ownership in a majority of its affiliated insurance intermediary companies. However, there remains uncertainty regarding the interpretation and implementation of the relevant regulations and the timing of the restructuring process. In addition, restrictions by PRC laws and regulations on foreign investments in and ownership of internet businesses still exists and the Group is still in the process to complete its restructuring plan. Therefore, the Group still conducts part of its operations in China through contractual arrangements among its PRC subsidiaries and consolidated affiliated entities, Sichuan Yihe Investment Co., Ltd. ("Yihe Investment") and Shenzhen Xinbao Investment Management Co., Ltd. ("Xinbao Investment") and Shenzhen Dianliang Information Technology Co., Ltd ("Dianliang Information") (collectively referred as the "Three PRC Affiliated Entities") and the equity holders of the Three PRC Affiliated Entities who are PRC nationals. To provide the Company effective control over the Three PRC Affiliated Entities, and the ability to receive substantially all of the economic benefits of the Three PRC Affiliated Entities and their subsidiaries, a series of contractual arrangements were entered amongst CNinsure Xinlian Information Technology Consulting (Shenzhen) Co., Ltd. ("Xinlian Information"), CNinsure Zhonglian Enterprise Image Planning (Shenzhen) Co., Ltd. ("Zhonglian Enterprise"), Litian Zhuoyue Software (Beijing) Co., Ltd ("Litian") and Ying Si Kang Information Technology (Shenzhen) Co., Ltd. ("Ying Si Kang Information"), which are PRC subsidiaries of the Company, and the Three PRC Affiliated Entities and their direct equity holders, refer to as the "VIE arrangements".

Agreements that provide the Group effective control over the Three PRC Affiliated Entities

Loan Agreements

Each of the equity holders of Yihe Investment entered into loan agreements with Xinlian Information, evidencing a zero interest loan granted to them, equal to their respective capital contributions to Yihe Investment. The term of the loan agreement is ten years and may be extended upon written agreement of the parties, but it is not extended automatically. In the event that the loan is not renewed, then upon the expiration of its term and subject to then applicable PRC laws, the loan can be repaid only with the proceeds from the transfer of the individual shareholder's equity interests in Yihe Investment to Xinlian Information or another person designated by Xinlian Information. In addition, the loan agreements contain a number of covenants that restrict the actions the individual shareholder can take or cause Yihe Investment to take specific actions.

Each of the individual shareholders of Xinbao Investment entered into a loan agreement with the Group's subsidiary Ying Si Kang Information, evidencing a zero interest loan granted to them, equal to their respective capital contributions to Xinbao Investment. Since Ying Si Kang is transferred to Litian during the year, each of the individual shareholders of Xinbao Investment has been released from the agreement with Ying Si Kang and entered into a new loan agreement with another Group's subsidiary Bao Si Kang Information Technology (Shenzhen) Co., Ltd. ("Bao Si Kang Information"). The terms of the loan agreement are substantially similar to those in the loan agreements of Yihe Investment described above.

The individual shareholder of Dianliang Information entered into a loan agreement with the Group's subsidiary Xinlian Information. The terms of the loan agreement are substantially similar to those in the loan agreements of Yihe Investment described above.

Equity Pledge Agreements

Pursuant to the equity pledge agreements between (1) Yihe Investment, Xinlian Information and the equity holders of Yihe Investment; and (2) Xinbao Investment, Ying Si Kang Information, and from the later year of 2014 Bao Si Kang Information and the equity holders of Xinbao Investment; and (3) Dianliang Information, Xinlian Information and the equity holder of Dianliang Information, the equity holders of the Three PRC Affiliated Entities have pledged their equity interests in the Three PRC Affiliated Entities to Xinlian Information and Ying Si Kang Information (later year of 2014 to Bao Si Kang Information) to secure their obligations under the loan agreements between (1) Yihe Investment and Xinlian Information; and (2) Xinbao Investment and

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

Ying Si Kang Information (later year of 2014 replaced with Bao Si Kang Information); (3) Dianliang Information and Xinlian Information. During the term of the equity pledge agreements, Xinlian Information and Ying Si Kang Information (later year of 2014 replaced with Bao Si Kang Information) are entitled to all the dividends declared on the pledged equity interests. The equity pledge agreements will expire when the individual shareholder fully performed his obligations under the loan agreements.

Irrevocable Power of attorney

Pursuant to the power of attorney, the nominee equity holders of the Three PRC Affiliated Entities each executed an irrevocable power of attorney, appointing a person designated by Xinlian Information or Ying Si Kang Information (later year of 2014 replaced with Bao Si Kang Information) as their attorney-in-fact to vote on their behalf on all matters of the Three PRC Affiliated Entities requiring equity holder approval. If Xinlian Information or Ying Si Kang Information (later year of 2014 replaced with Bao Si Kang Information) designates the individual shareholders of the Three PRC Affiliated Entities to attend a shareholder's meeting of the Three PRC Affiliated Entities, the individual shareholder agrees to vote his shares as instructed by Xinlian Information or Ying Si Kang information (later year of 2014 replaced with Bao Si Kang Information).

The Articles of Association of the Three PRC Affiliated Entities state that the major rights of the equity holders include the power to review and approve annual budget, operating strategy and investment plan, elect the members of board of directors and approve their compensation plan. Therefore, through the power of attorney arrangement, Xinlian Information and Ying Si Kang Information (later year of 2014 replaced with Bao Si Kang Information) have the ability to exercise effective control over the Three PRC Affiliated Entities through equity holder votes and, through such votes, to also control the composition of the board of directors. In addition, the senior management teams of the Three PRC Affiliated Entities are the same as that of Xinlian Information and Ying Si Kang Information (later year of 2014 replaced with Bao Si Kang Information).

Agreements that provide the Group the option to purchase the equity interests in the Three PRC Affiliated Entities

Exclusive Purchase Option Agreements

Pursuant to the exclusive purchase right agreements, Xinlian Information and Ying Si Kang Information (later year of 2014 replaced with Bao Si Kang Information) may purchase the entire equity interests in, or all the assets of the Three PRC Affiliated Entities, for a purchase price equal to the amount of the individual shareholder's actual capital contributions to the Three PRC Affiliated Entities or the minimum price permitted by PRC laws, if and when PRC laws are amended to permit such a transaction.

Agreements that transfer economic benefits to Xinlian Information, Zhonglian Enterprise, and Litian

IT platform related service, consulting service and technology service agreements

Pursuant to IT platform service, technology service and consulting service agreements entered into between the Group's PRC subsidiaries Litian, Xilian Information, Zhonglian Enterprise (collectively referred as the "Three Service Providers") and Ying Si Kang Information and most of the subsidiaries of the Three PRC Affiliated Entities, the Three Service Providers and Ying Si Kang Information agreed to grant rights to use the "CNinsure" brand and provide consulting and training services related to finance, taxation, IT platform and internal control compliance and services to ensure the normal operation of the mobile sales support system to most of subsidiaries of the Three PRC Affiliated Entities in exchange for fees payable quarterly calculated as a percentage of revenues of each insurance intermediary. Each of these agreements has an initial term of one year from the signing date. The consulting service and IT platform service agreements will be automatically renewed for one-year term unless the three Service Providers decides not to renew the agreement. Each agreement may be terminated by the insurance intermediary companies only upon gross negligence, fraud, other illegal conduct or bankruptcy, or by the Three Service Providers with 30 days' notice. The consulting service and IT platform service agreements have not been renewed since 2013.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

These contractual arrangements allow the Group to effectively control the Three PRC Affiliated Entities and their subsidiaries, and to derive substantially all of the economic benefits from them. Accordingly, the Group treats the Three PRC Affiliated Entities as VIEs and because the Group is the primary beneficiary of the Three PRC Affiliated Entities, the Group has consolidated the financial results of the Three PRC Affiliated Entities and their subsidiaries.

In addition to the above agreements, which allow the Group to exercise effective control, have an exclusive option to purchase all or part of the equity interests and receive a substantial portion of the economic benefits from the Three PRC Affiliated Entities and their subsidiaries, before January 2015, the Group had also entered into similar contractual arrangements with the non-controlling interest shareholders of Guangdong Meidiya Investment Co., Ltd. ("Meidiya Investments"). As a result of these contractual arrangements, the Company has the right to exercise control over, purchase and receive the economic benefits from all of the equity interests in Meidiya Investments that it currently did not directly hold. In January 2015, the individual minority shareholders of Meidiya Investment transferred their respective equity interests in Meidiya Investment to CNinsure Insurance Sales Service Group Company Limited, a wholly-owned subsidiary of the Group. In addition, the contractual arrangements among Meidiya Investment, and their respective shareholders and subsidiaries were terminated.

-
- **Risks in relation to VIE Arrangement**

The Company believes that the contractual arrangements with PRC Affiliated Entities and their subsidiaries and their current shareholders are in compliance with PRC laws and regulations and are legally enforceable. However, uncertainties in the PRC legal system could limit the Company's ability to enforce the contractual arrangements. If the legal structure and contractual arrangements were found to be in violation of PRC laws and regulations, the PRC government could:

- revoking the business and operating licenses of the Group's PRC subsidiaries and VIEs;
- restricting or prohibiting any related-party transactions among the Group's PRC subsidiaries and VIEs;
- imposing fines or other requirements with which the Group may not be able to comply;
- requiring the Group to restructure the relevant ownership structure or operations; or
- restricting or prohibiting the Group from providing additional funding for its business and operations in China.

The Company's ability to conduct its business may be negatively affected if the PRC government were to carry out any of the aforementioned actions. As a result, the Company may not be able to consolidate the VIEs and their subsidiaries in its financial statements as it may lose the ability to exert effective control over the VIEs and their subsidiaries and its shareholders, and it may lose the ability to receive economic benefits from the VIEs and their subsidiaries.

The interests of the shareholders of the PRC Affiliated Entities may diverge from that of the Company and that may potentially increase the risk that they would seek to act contrary to the contractual terms, for example by influencing the PRC Affiliated Entities not to pay the service fees when required to do so. The Company cannot assure that when conflicts of interest arise, shareholders of the PRC Affiliated Entities will act in the best interests of the Company or that conflicts of interests will be resolved in the Company's favor. Currently, the Company does not have existing arrangements to address potential conflicts of interest the shareholders of PRC Affiliated Entities may encounter in their capacity as beneficial owners and directors of PRC Affiliated Entities, on the one hand, and as beneficial owners and directors of the Company, on the other hand. The Company believes the shareholders of PRC Affiliated Entities will not act contrary to any of the contractual arrangements and the exclusive option agreements provide the Company with a mechanism to remove the current shareholders of PRC Affiliated Entities should they act to the detriment of the Company. The Company relies on certain current shareholders of PRC Affiliated Entities, as directors and executive officers of the Company, to fulfill their fiduciary duties and abide by laws of the PRC and Cayman Islands and act in the best interest of the Company. If the Company cannot resolve any conflicts of interest or disputes between the Company and the shareholders of PRC Affiliated Entities, the Company would have to rely on legal proceedings, which could result in disruption of its business, and there is substantial uncertainty as to the outcome of any such legal proceedings.

The VIEs are principally engaged in the provision of agency and e-business in the PRC.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

Relevant PRC laws and regulations restrict the VIE from transferring a portion of its net assets, equivalent to the balance of its statutory reserve and its share capital, to the Company in the form of loans and advances or cash dividends. Please refer to Note 20 for disclosure of restricted net assets.

The financial information of the Company's VIEs and VIEs' subsidiaries as of December 31, 2013 and 2014 and for the years ended December 31, 2012, 2013 and 2014, before adjustments for intercompany eliminations, is as follows:

	As of December 31,		
	2013	2014	
	RMB	RMB	
Total assets.....	114,232	63,090	
Total liabilities	110,133	38,716	

	Year Ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Net Revenues	374,529	125,961	72,645
Net loss	(4,755)	(3,767)	(9,636)

Net cash generated from investing activities	81,593	12,041	14,709
Net cash (used in) generated from financing activities	(38,305)	—	33,370

In order to simplify the Group's corporate structure to enable more effective control over the PRC affiliated subsidiaries, the Group commenced a corporate restructuring onshore and offshore in October 2011.

In August 2011, CISG Holdings Ltd. ("CISG Holdings"), a wholly-owned subsidiary of the Company, acquired Minkfair Insurance Management Limited ("Minkfair"), a Hong Kong incorporated company whose principal business is insurance distribution in Hong Kong, for a total consideration of HK\$1,200. Subsequently, CNinsure Holdings Ltd. ("CNinsure Holdings"), a wholly-owned subsidiary of CISG Holdings, issued 1,000 of its shares with par value of US\$0.001 to Minkfair. At the same time, CNinsure Holdings repurchased from CISG Holdings one issued and fully paid ordinary share of par value US\$0.001 of CISG Holdings for a total consideration of US\$0.001. As a result of these transactions, Minkfair directly owns 100% of the equity interests in CNinsure Holdings.

- In February 2012, CNinsure Group Company, subscribed for a share capital of RMB52,500 in Meidiya. As a result, CNinsure Group Company's shareholdings in Meidiya increased from 20% to 90%, and the equity holders' shareholdings in Meidiya decreased to 10%.

In October 2012, the Group obtained license approval from the CIRC to establish CNinsure Group Company as an insurance sales service group company.

Ying Si Kang Information withdrew all its capital contribution at cost of RMB2,000 in Xinbao Investment in December 2012. After the transaction, the two nominee equity shareholders collectively hold 100% equity interests in Xinbao Investment.

On various dates since May 2012, Meidiya and Yihe Investment transferred their equity interests in five of the Group's affiliated subsidiaries, including CNinsure Lianxing Insurance Sales Co., Ltd. ("CNinsure Lianxing") and CNinsure Times Insurance Sales & Service Co., Ltd., (or CNinsure Times, formerly known as Guangzhou Fanhua Insurance Agency Co., Ltd.) to CNinsure Group

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

Company, Meidiya and Yihe have also transferred their equity interests in 19 of our affiliated entities to CNinsure Lianxing and CNinsure Times.

On July 1, 2013, Xinbao Investment transferred its equity interests in six of the Group's affiliated subsidiaries to CNinsure Times.

As a result of these equity transfers, the Group through contractual arrangements with Yihe Investment, Dianliang Information and Xinbao Investment, it controls the remaining seven VIEs as of December 31, 2013 and 2014.

(9) Other Payables and Accrued Expenses

Components of other payables and accrued expenses are as follows:

	As of December 31,	
	2013	2014
	RMB	RMB
Business and other tax payable.....	28,313	24,987
Refundable deposits from employees and agents.....	12,452	9,705
Professional fees	11,818	17,340
Advances from third parties.....	22,490	32,219
Payables for addition of office equipment, furniture and fixtures	8,618	8,618
Insurance compensation claim payable to customers	1,487	1,563
Payable for equity transfers of investment in affiliates/subsidiaries.....	15,006	4,685
Consideration payable to settle the lawsuit (i)	40,106	—
Contributions from members of eHuzhu mutual aid program	—	2,341
Others.....	7,664	7,954
Total.....	147,954	109,412

Other payables and accrued expenses are unsecured, interest-free and repayable on demand.

(i) On March 19, 2014, the Company signed a settlement agreement with the plaintiff to settle the lawsuit at US\$6,625 (approximately RMB40,106) and the lawsuit has been fully settled in August 2014. Please refer to note (16) (iii) for details of the lawsuit.

(10) Employee Benefit Plans

Employees of the Group located in the PRC are covered by the retirement schemes defined by local practice and regulations, which are essentially defined contribution plans. The calculation of contributions for these eligible employees is based on 10% to 22% of the applicable payroll cost according to the specific requirements of the local regime government.

In addition, the Group is required by law to contribute certain percentage of applicable salaries for medical insurance benefits, unemployment and other statutory benefits. The contribution percentages may differ from district to district which is subject to the specific requirement of local regime government. The PRC government is directly responsible for the payments of the benefits to these employees.

For the years ended December 31, 2012, 2013 and 2014, the Group contributed RMB34,931, RMB42,919 and RMB45,467, respectively.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

(11) Income Taxes

The Company is a tax exempted company incorporated in the Cayman Islands. Under the current laws of the Cayman Islands, the Company is not subject to tax on their income or capital gains. In addition, upon any payments of dividends by the Group to its shareholders, no Cayman Islands withholding tax is imposed.

The Group's subsidiaries and VIEs incorporated in PRC are subject to Income Tax in the PRC.

The provision for current income taxes of the subsidiaries operating in Hong Kong has been calculated by applying the current rate of taxation of 16.5% for the years ended December 31, 2012, 2013 and 2014, if applicable.

On March 16, 2007, the PRC promulgated New Enterprise Income Tax Law (the "New Taxation Law"). The New Taxation Law which becomes effective from January 1, 2008. Under the New Taxation Law, all enterprises (both domestic enterprises and FIEs) have one unified income tax rate of 25%. On December 6, 2007, the State Council of the PRC issued Implementation Regulations on the New Taxation Law. The New Taxation Law and Implementation Regulations have changed the tax rate from 15% to 18%, 20%, 22%, 24% and 25% for the years ending December 31, 2008, 2009, 2010, 2011 and 2012, respectively, for Shenzhen PRC subsidiaries.

Pursuant to the relevant laws and regulations in the PRC, Litian, Shenzhen CNinsure Software Technology Co., Ltd ("CNinsure Software") and Ying Si Kang Information, the subsidiaries of the Group, were regarded as software companies and thus exempted from PRC Income Tax for two years starting from its first profit-making year, followed by a 50% reduction for the next three years. For Litian, year 2010 was the first profit-making year and accordingly, Litian has not made any provision for PRC income tax for the year ended December 31, 2010 and 2011, and has made a 12.5% tax provision for its profits for the years ended December 31, 2012, 2013 and 2014. For CNinsure Software, year 2012 was the first profit-making year and accordingly, CNinsure Software has not made any provision for PRC income tax for the years ended December 31, 2012 and 2013, and has made a 12.5% tax provision for its profits for the year ended December 31, 2014. For Ying Si Kang Information, year 2014 is the first profit-making year and accordingly it has not made any provision for PRC income tax for the year ended December 31, 2014.

The Group accounts for uncertain income tax positions by prescribing a minimum recognition threshold in the financial statements.

As of December 31, 2014, the Group's liabilities for unrecognized tax benefits were included in other tax liabilities. The movements of unrecognized tax benefits are as follows:

	RMB
Balance as of January 1, 2012.....	43,586
Gross increase in prior-period tax positions.....	4,003
Balance as of December 31, 2012.....	47,589
Gross increase in prior-period tax positions.....	3,146
Balance as of December 31, 2013.....	50,735
Offset per FASB ASU No. 2013-11—Income Taxes (Topic 740)	(4,808)
Gross increase in prior-period tax positions.....	7,928
Balance as of December 31, 2014.....	53,855

The uncertain tax positions are related to tax years that remain subject to examination by the relevant tax authorities. Based on the outcome of any future examinations, or as a result of the expiration of statute of limitations for specific jurisdictions, it is reasonably possible that the related unrecognized tax benefits for tax positions taken regarding previously filed tax returns, might materially change from those recorded as liabilities for uncertain tax positions in the Group's consolidated financial statements as of December 31, 2013 and 2014. In addition, the outcome of these examinations may impact the valuation of certain deferred tax assets (such as net operating losses) in future periods. The Group's policy is to recognize interest and penalties accrued on any unrecognized tax benefits, if any, as a component of income tax expense. The Company does not anticipate any significant increases or decreases to its liability for unrecognized tax benefit within the next twelve months.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

According to the PRC Tax Administration and Collection Law, the statute of limitations is three years if the underpayment of income taxes is due to computational errors made by the taxpayer. The statute of limitations will be extended to five years under special circumstances, which are not clearly defined, but an underpayment of income tax liability exceeding RMB100 is specifically listed as a special circumstance. In the case of a transfer pricing related adjustment, the statute of limitations is ten years. There is no statute of limitations in the case of tax evasion.

Income tax expenses are comprised of the following:

	Year Ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Current tax expense.....	56,467	29,436	25,607
Deferred tax income.....	(6,094)	(2,278)	(1,318)
Income tax expense.....	50,373	27,158	24,289

The principal components of the deferred income tax assets and liabilities are as follows:

	As of December 31,	
	2013	2014
	RMB	RMB
Current deferred tax assets:		
Operating loss carryforward	4,858	4,313
Less: valuation allowances	—	(4,313)
Current deferred tax asset, net.....	4,858	—
Non-current deferred tax assets:		
Operating loss carryforward	36,053	33,930
Less: valuation allowances	(32,671)	(31,292)
Non-current deferred tax asset, net.....	3,382	2,638
Total	8,240	2,638
Deferred tax liabilities:		
Intangible assets, net	5,646	6,769
Investment income	18,162	18,162
Total.....	23,808	24,931

Due to the uncertainty of the level of PRC subsidiaries or VIEs' taxable income, management does not believe certain subsidiaries or VIEs will generate sufficient taxable income such that it is more likely than not that the deferred tax assets will not be realized. As such, a valuation allowance has been established for these deferred tax assets as of December 31, 2013 and 2014. The Group had total operating loss carry-forwards of RMB164,108 and RMB166,557 for the years ended December 31, 2013 and 2014, respectively. Such operating loss carry-forwards expire five years after the PRC subsidiaries or VIEs incur the loss unless utilized. As of December 31, 2014, the operating loss carry-forwards of RMB10,086, RMB30,860, RMB32,400, RMB40,546 and RMB52,665 is to expire for the years ended December 31, 2015, 2016, 2017, 2018 and 2019, respectively.

Reconciliation between the provision for income taxes computed by applying the PRC enterprise income rate of 25% to net income before income taxes and income of affiliates, and the actual provision for income taxes is as follows:

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

	Year Ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Net income before income taxes and income of affiliates and discontinued operations	160,452	106,521	159,720
PRC statutory tax rate	25%	25%	25%
Income tax at statutory tax rate	40,113	26,630	39,930
Expenses not deductible for tax purposes:			
Entertainment.....	668	494	579
Other	3,312	1,635	1,664
Tax exemption and tax relief:			
Tax rate differential	(3,947)	(16,347)	(29,497)
Change in valuation allowance	5,003	13,812	2,934
Uncertain tax provisions	4,003	3,148	7,928
Other	1,221	(2,214)	751
Income tax expense.....	<u>50,373</u>	<u>27,158</u>	<u>24,289</u>

Additional PRC income taxes that would have been payable without the tax exemption amounted to approximately RMB26,784, RMB19,364 and RMB17,054 for the years ended December 31, 2012, 2013 and 2014, respectively. Without such exemption, the Group's basic and diluted net profit per share for the year ended December 31, 2014 would have been decreased by RMB0.02.

Under the New Taxation Law, enterprises are classified as either resident or non-resident. A resident enterprise refers to one that is incorporated under the PRC law or under the law of a jurisdiction outside the PRC with its "de facto management organization" located within the PRC. Non-resident enterprise refers to one that is incorporated under the law of a jurisdiction outside the PRC with its "de facto management organization" located also outside the PRC, but which has either set up institutions or establishments in the PRC or has income originating from the PRC without setting up any institution or establishment in the PRC. Under the New Enterprise Income Tax ("EIT") Implementation Regulation, "de facto management organization" is defined as the organization of an enterprise through which substantial and comprehensive management and control over the business, operations, personnel, accounting and properties of the enterprise are exercised. Under the New Taxation Law and the New EIT Implementation Regulation, a resident enterprise's global net income will be subject to a 25% EIT rate. On April 22, 2009, the State Administration of Taxation (the "SAT"), issued SAT Circular 82, which provides certain specific criteria for determining whether the "de facto management body" of a PRC-controlled enterprise that is incorporated offshore is located in China. In addition, the SAT issued a bulletin on July 27, 2012 providing more guidance on the implementation of Circular 82 and clarifies matters such as resident status determination. Due to the present uncertainties resulting from the limited PRC tax guidance on this issue, it is unclear that the legal entities organized outside of PRC should be treated as residents for New Taxation Law purposes. Nevertheless, even if one or more of those entities were characterized as PRC tax residents, no significant impact would be expected on the net current tax payable balance and the net deferred tax balance.

If the entities were to be non-resident for PRC tax purpose, dividends paid to it out of profits earned after January 1, 2008 would be subject to a withholding tax. In the case of dividends paid by PRC subsidiaries the withholding tax would be 10% whereas in the case of dividends paid by PRC subsidiaries which are 25% or more directly owned by tax residents in the Hong Kong SAR, the withholding tax would be 5%.

Aggregate undistributed earnings of the Group's subsidiaries and VIEs in the PRC that are available for distribution to the Group of approximately RMB1,882,224 and RMB1,967,287 as of December 31, 2013 and 2014 respectively, are considered to be indefinitely reinvested, and accordingly, no provision for has been made for the dividend withholding taxes that would be payable upon the distribution of those amounts to the Group. If those earnings were to be distributed or they were determined to be no longer permanently reinvested, the Group would have to record a deferred tax liability in respect of those undistributed earnings of approximately RMB188,222 and RMB196,729 respectively.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

Under applicable accounting principles, a deferred tax liability should be recorded for taxable temporary differences attributable to the excess of financial reporting over tax basis, including those differences attributable to a more than 50% interest in a domestic subsidiary. However, recognition is not required in situations where the tax law provides a means by which the reported amount of that investment can be recovered tax-free and the enterprise expects that it will ultimately use that means. The Group has not recorded any such deferred tax liability attributable to the undistributed earnings of its financial interest in VIE affiliates because the Group believes such excess earnings can be distributed in a manner that would not be subject to tax.

(12) Capital Structure

During 2012, the Company issued 183,380 new shares for the exercise of options, representing 0.01% of the total shares outstanding as of December 31, 2012.

During 2012, the Company had repurchased 193,165 ADS (equal to 3,863,300 ordinary shares), representing 0.38% of the total shares outstanding as of December 31, 2012, for an aggregate price of approximately RMB9,244 on the open market.

During 2014, the Company issued 1,704,380 new shares for the exercise of options, representing 0.15% of the total shares outstanding as of December 31, 2014.

In November 2014, the Group entered into share purchase agreements with the Employee Companies, for the issuance of up to 100,000,000 ordinary shares of the Group. In December 2014, the Group increased the new shares issued to the Employee Companies to 150,000,000 ordinary shares. The total 150,000,000 ordinary shares represented approximately 13.04% of the total enlarged outstanding share capital as of December 31, 2014. The subscription price for the 100,000,000 ordinary shares is US\$0.27 per ordinary share or US\$5.40 per ADS, while the subscription price for the additional 50,000,000 ordinary shares is US\$0.29 per ordinary share or US\$5.8 per ADS, both of which were the average closing prices for the 20 trading days prior to the board approvals of such transactions. Accordingly, the Group considers that the employees have subscribed these shares at prices that were set at the best estimation of the future market prices on issuance date, and the Group has no intention to compensate the employees with a below market price subscription; therefore, the Group has not recorded any share-based compensation expenses related to any price deviations of the Group's ordinary shares from the board approval dates to issuances of these shares. The shares purchased by the Employee Companies are subject to 180 days lock-up. The sale of shares to the Employee Companies was completed on December 17, 2014.

In order to facilitate the purchase of shares by employees as described above, the Group has granted a loan to Employee Companies. The loans bear interest at a rate of 3% per annum and is repayable upon the sale of the shares by employees, termination of employment or within two years, whichever comes first. The interest rate is determined with reference to fair market prices and therefore no interest-related compensation expense is recorded. Please refer to note 2(m) for accounting policy details.

(13) Net Income per Share

The computation of basic and diluted net income per ordinary share is as follows:

	Year Ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
<i>Basic:</i>			
Net income.....	124,737	99,984	166,080
Less: Net (loss) income attributable to the noncontrolling interests	(5,773)	4,341	4,320
Net income attributable to the Company's shareholders ..	130,510	95,643	161,760
Weighted average number of ordinary shares outstanding	1,002,308,275	998,861,526	1,005,842,212

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

	Year Ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Basic net income per ordinary share.....	0.13	0.10	0.16
Basic net income per ADS.....	2.60	1.92	3.22
<i>Diluted:</i>			
Net income.....	124,737	99,984	166,080
Less: Net (loss) income attributable to the noncontrolling interests.....	(5,773)	4,341	4,320
Net income attributable to the Company's shareholders ..	130,510	95,643	161,760
Weighted average number of ordinary shares outstanding.....	1,002,308,275	998,861,526	1,005,842,212
Share options.....	2,993,694	1,708,492	6,749,175
Total.....	1,005,301,969	1,000,570,018	1,012,591,387
Diluted net income per ordinary share.....	0.13	0.10	0.16
Diluted net income per ADS.....	2.60	1.91	3.19

During the years ended December 31, 2012, 2013 and 2014, the Company had share options of which would potentially dilute earnings per share in the future, but which were excluded from the computation of diluted earnings per share as their effect would have been antidilutive, such share options consist of 46,225,381, 38,222,880 and 16,920, respectively.

(14) Distribution of Profits

As stipulated by the relevant PRC laws and regulations applicable to China's foreign investment enterprise, the Group's subsidiaries and VIEs in the PRC are required to maintain non-distributable reserves which include a statutory surplus reserve as of December 31, 2014. Appropriations to the statutory surplus reserve are required to be made at not less than 10% of individual company's net profit as reported in the PRC statutory financial statements of the Company's subsidiaries and VIEs. The appropriations to statutory surplus reserve are required until the balance reaches 50% of the registered capital of respective subsidiaries and VIEs.

The statutory surplus reserve is used to offset future losses. These reserves represent appropriations of retained earnings determined according to PRC law and may not be distributed. There are no appropriations to reserves by the Company other than the Group's subsidiaries and VIEs in the PRC during the periods presented. Amounts contributed to the statutory reserves were RMB182,740 and RMB198,422 as of December 31, 2013 and 2014, respectively.

(15) Related Party Balances and Transactions

The principal related party balances and transactions as of and for the years ended December 31, 2013 and 2014 are as follows:

- a) Amounts due from related parties:

	As of December 31,	
	2013	2014
	RMB	RMB
Amount due from an affiliate and its subsidiaries, net (i) ...	144,371	209,601
Subscription receivables(note 2(m) & note 12)	—	257,491

- (i) The Group agreed to grant a revolving loan with a maximum amount of US\$50,000 (equivalent to RMB317,990 as per the agreement) to Sincere Fame and its subsidiaries pursuant to a facility letter entered in October 2011 (the "Facility"). The

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

Facility is valid for two years and is renewed upon mutual agreement for another two years in October 2013. On January 1, 2012, the Group and Sincere Fame further entered into a supplemental loan agreement, which established the legal rights to offset the interests and amounts receivable or payable between the Group and Sincere Fame, and all the subsidiaries of the Group and Sincere Fame. As of December 31, 2013 and 2014, the amount due from Sincere Fame and its subsidiaries represented RMB126,621 and RMB179,681 (US\$28,959) principal receivable, RMB16,250 and RMB28,420 (US\$4,580) interest receivable and RMB1,500 and RMB1,500 (US\$242) account receivables. These amounts are unsecured, bear interest at 7.3% and are repayable on demand.

- b) A subsidiary of the Company provided information technology service to an affiliate and charged RMB5,660 RMB1,415 and nil for the years ended December 31, 2012, 2013, and 2014, respectively.

The Group charged affiliates interest income of RMB10,298, RMB6,843 and RMB12,170 for loans receivable for the years ended December 31, 2012, 2013, and 2014, respectively.

- c) A subsidiary of the Group held a 30% equity interest in Beijing Fanhua Micro-credit Company Limited, on behalf of Shenzhen Fanhua United Investment Group, which is a subsidiary of Sincere Fame.
- d) The Group had acquired non-controlling interests of a number of its subsidiaries from shareholders who are also employees of the Group in 2012. The excess of the fair values of these non-controlling interests acquired from these equity shareholders over the transaction prices as of the respective transaction dates were considered to be compensation expenses, which amounted to RMB7,900, and had been charged to the consolidated statement of income and comprehensive income (loss) for the years ended December 31, 2012. The valuation of the equity of a private company is highly judgmental, so changes in the significant assumptions related to these valuations could materially affect the fair values of these entities and the related compensation expenses. There was no such transaction for the year ended December 31, 2013 and 2014.
- e) Puyi Asset Management Co., Ltd (“Puyi Asset”), previously one of its subsidiaries, distributed certain wealth management products supplied by one of our affiliates. Commission revenues generated from such affiliate were RMB7,522, RMB13,112 and nil for the years ended December 31, 2012, 2013 and 2014. However, Puyi Asset was disposed of in December, 2013 and no longer a subsidiary of the Group as of December 31, 2013.

(16) Commitments and Contingencies

- (i) The Group has several non-cancelable operating leases, primarily for office premises.

Future minimum lease payments under non-cancelable operating leases (with initial or remaining lease terms in excess of one year) and future minimum operating lease payments as of December 31, 2014 are:

	Minimum Lease Payment
	RMB
Year ending December 31:	
2015.....	20,598
2016.....	15,203
2017.....	6,028
2018.....	516
2019.....	111
Total	42,456

Rental expenses incurred under operating leases for the years ended December 31, 2012, 2013 and 2014 amounted to RMB31,858, RMB30,509 and RMB27,455, respectively.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

(ii) The Group entered into various acquisition agreements which contain certain purchase considerations that are contingent upon future performance of the acquired companies. Please refer to note 3 for more details.

(iii) On October 17, 2011, Pieter Van Dongen, individually and on behalf of an alleged class of similarly situated holders of our ADSs, filed a class action lawsuit in the United States District Court for the Southern District of New York against the Group and three of our then executive officers. On March 19, 2014, the Company signed a settlement agreement with the plaintiff, to settle the lawsuit at US\$6,625 (approximately RMB40,106), to be paid as consideration for full and complete settlement of all the released claims. The settlement has been fully settled subsequently during 2014. On August 15, 2014, the Court granted final approval of the settlement agreement.

(17) Concentrations of Credit Risk

Concentration risks

Details of the customers accounting for 10% or more of total net revenues from commissions and fees are as follows:

	Year ended December 31,					
	2012		2013		2014	
	RMB	% of sales	RMB	% of sales	RMB	% of sales
PICC Property and Casualty Company Limited ("PICC") ..	330,699	21%	346,405	20%	442,608	21%

	<u>80,846</u>	<u>40%</u>	<u>83,947</u>	<u>45%</u>

The Group performs ongoing credit evaluations of its customers and related parties and generally does not require collateral on accounts receivable.

The Group places its cash and cash equivalents with financial institutions with high-credit ratings and quality.

The Group performs ongoing credit evaluations on the amounts due from Sincere Fame and its subsidiaries (note 15(a)(i)). As the Group has significant influences over the operations of Sincere Fame through its equity investment in Sincere Fame, and the historically positive operating results of Sincere Fame and its subsidiaries, the Group considered that the credit risks on the amounts due from an affiliate and its subsidiaries are not significant.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

Currency risk

Except for the proceeds from the initial public offering and the follow-on offering (which were in USD), substantially all of the revenue-generating operations of the Group are transacted in RMB, which is not freely convertible into foreign currencies. On January 1, 1994, the PRC government abolished the dual rate system and introduced a single rate of exchange as quoted by the People's Bank of China. However, the unification of the exchange rate does not imply convertibility of RMB into USD or other foreign currencies. All foreign exchange transactions must take place either through the People's Bank of China or other institutions authorized to buy and sell foreign exchange or at a swap center. Approval of foreign currency payments by the People's Bank of China or other institutions requires submitting a payment application form together with suppliers' invoices, shipping documents and signed contracts.

(18) Non-Cash Transactions

The Group entered into the following non-cash investing and financing activities:

	Year ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB

Considerations payable in connection with other investment	3,030	3,720	—
Payables for addition of office equipment, furniture and fixtures	38,537	—	—
Subscription receivables from employee companies(Note 2(m) & Note 12).....	—	—	257,491

(19) Share-based Compensation

2014 InsCom Options

On March 29, 2012, the shareholders of InsCom Holdings Limited ("InsCom"), a private subsidiary of which the Group has a 65.10% equity interest, has resolved on the adoption of a share incentive plan, under which the maximum number of ordinary shares that can be granted is 202,400,000 shares, equal to 20% of the total number of ordinary shares outstanding at InsCom as at March 28, 2012, and that the board of directors are authorized to grant such options.

On July 1, 2014, InsCom granted stock options to purchase 3,477,281 of its ordinary shares to its entrepreneurial agents and 8,189,000 ordinary shares to its employees (the "2014 InsCom Options"). The number of options that the grantees are entitled to in each year will be calculated based on the key performance indicator scores of the grantees in the respective prior year and subject to their continued services to the InsCom and the Group. For options granted to agents, 3,477,281 ordinary shares ("Option K1") shall vest on June 30, 2015, and the expiration date is December 31, 2016. For options granted to employees, ordinary shares of 4,259,000 ("Option K2") shall vest on July 1, 2014, and the remaining ordinary shares of 3,930,000 ("Option K3") shall vest on June 30, 2015, the expiration date is June 30, 2020. The 2014 InsCom Options have an exercise price of RMB0.028 per ordinary share. There is no intrinsic value of the options as of the date of grant.

As of the grant date and December 31, 2014, the fair values of the 2014 InsCom Options were estimated to be of nominal values. The share-based compensation expenses related to the 2014 InsCom Options was RMB109 for the year ended December 31, 2014. No shares of 2014 InsCom Options had been exercised.

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

2013 InsCom Options

On June 24, 2013, InsCom granted stock options to purchase 5,914,312 of its ordinary shares to its entrepreneurial agents and 14,744,000 ordinary shares to its and the Group's employees (the "2013 InsCom Options"). The number of options that the grantees are entitled to in each year will be calculated based on the key performance indicator scores of the grantees in the respective prior year and subject to their continued services to the InsCom and the Group. For options granted to agents, 60,000 ordinary shares ("Option J1") was vested immediately on June 24, 2013, and the remaining ("Option J2") of the award options shall vest on June 30, 2014, the expiration date for options granted to agents is December 31, 2014. For options granted to employees ("Option J3"), the vesting date is June 30, 2014, and the expiration date is June 30, 2018. The 2013 InsCom Options have an exercise price of RMB1.20 per ordinary share. The exercise price and expiration date for 2013 InsCom Options was later modified) (See "option modification" section of the note). There is no intrinsic value of the options as of the date of grant.

As of the grant date and December 31, 2014, the fair values of the 2013 InsCom Options were estimated to be of nominal values. The share-based compensation expenses related to the 2013 InsCom Options was RMB6 and nil for the year ended December 31, 2013 and 2014, respectively. No shares of 2013 InsCom Options had been exercised.

2012 InsCom Options

On April 2, 2012, InsCom granted stock options to purchase 36,515,586 of its ordinary shares to its entrepreneurial agents and 24,492,750 ordinary shares to its and the Group's employees (the "2012 InsCom Options"). Pursuant to the option agreements entered into between the Company and the option grantees, the options shall vest over a two-year period from 2012 to 2013. The number of options that the grantees are entitled to in each year will be calculated based on the key performance indicator scores of the grantees in the respective prior year and subject to their continued services to the InsCom and the Group. For options granted to agents, 86% ("Option I1") was vested immediately on April 2, 2012, and the remaining 14% ("Option I2") of the award options shall vest on June 30, 2013. The expiration date for options granted to agents is December 31, 2014. For options granted to employees, 36% ("Option I3") was vested immediately on April 2, 2012, and the remaining 64% ("Option I4") of the award options shall vest on June 30, 2013, and the expiration date for options granted to employees is June 30, 2017. The 2012 InsCom Options have an exercise price of RMB1.00 per ordinary share. The exercise price and expiration date for 2012 InsCom Options was later modified) (See "option modification" section of the note). There is no intrinsic value of the options as of the date of grant.

As of the grant date and the periods presented, the fair values of the 2012 InsCom Options were estimated to be of nominal values. The share-based compensation expenses related to the 2012 InsCom Options was RMB3, RMB6 and nil for the years ended December 31, 2012, 2013 and 2014 respectively. As of December 31, 2014, no shares of 2012 InsCom Options had been exercised.

2012 Option

a. 2012 Options G

On March 12, 2012, the Company granted options ("2012 Options G") to its directors and employees to purchase up to 92,845,000 ordinary shares of the Company. Pursuant to the option agreements entered into between the Company and the option grantees, the options shall vest over a five-year service period from 2012 to 2016. The members of the board of directors of the Company received 8,800,000 stock options, which require continued services to the Company but with no other performance conditions. For the rest of the 2012 Option G awards, the number of options that the grantees are entitled to in each year will be calculated based on the key performance indicator scores of the grantees in the respective prior year and subject to their continued employment with the Company. Accordingly, 20% ("Option G1"), 20% ("Option G2"), 25% ("Option G3"), 20% ("Option G4") and 15% ("Option G5") of the award options shall vest on May 31 each of the years 2012 to 2016, respectively. The expiration date of the 2012 Options is March 12, 2022. The 2012 Options G had an exercise price of US\$0.30 (RMB1.90) and an intrinsic value of US\$0.04 (RMB0.26) per ordinary share, except for the 3,200,000 options granted to the two independent directors which had an exercise price of US\$0.31 (RMB1.98) and an intrinsic value of US\$0.03 (RMB0.17) per ordinary share. The exercise price

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

for Option G was later modified to US\$0.001 (RMB0.006) and the number of shares are reduced by half (See "option modification" section of the note). The fair value of the options was determined by using the Black-Scholes option pricing model with the following assumptions:

	Option G1	Option G2	Option G3	Option G4	Option G5
Weight average assumptions – expected dividend yield	0%	0%	0%	0%	0%
Risk-free interest rate	2.02%	2.16%	2.29%	2.42%	2.55%
Expected life (years)	5.11	5.61	6.11	6.61	7.11
Expected volatility	74.54%	74.54%	74.54%	74.54%	74.54%

The expected dividend yield was estimated by the Company based on its dividend policy over the expected life of the options. Risk-free interest rate was estimated based on the USD Treasury Bond Yield and pro-rated according to the tenor of the options plus a risk premium of 1.05% to cater the higher sovereign risk of China. The expected term was estimated by taking into consideration the expiration period and the vesting terms. Expected volatility was estimated based on the longest available historical annualized daily volatilities of the Company.

For the year ended December 31, 2012, 2013 and 2014, share-based compensation expenses of RMB60,666, RMB35,732 and RMB22,200 were recognized in connection with the 2012 Options G, respectively. As of December 31, 2014, 972,640 shares of 2012 Options G had been exercised. During the years ended December 31, 2012, 2013 and 2014, nil, 786,670 and 932,305 shares of 2012 Options G, respectively, were forfeited due to employee resignations. No share-based compensation expense related to the forfeited options was recognized.

b. 2012 Options H

On March 12, 2012, the Company granted options ("2012 Options H") to its entrepreneurial agents and captains (non-employees) to purchase 3,800,000 ordinary shares of the Company, of which 3,000,000 and 800,000 options were granted to agents and captains respectively. Pursuant to the option agreements entered into between the Company and the option grantees, 40% ("Option H1"), 40% ("Option H2") and 20% ("Option H3") of the 3,000,000 award options granted to agents shall vest in May 31, 2014, 2015 and 2016 of each year respectively; and 40% ("Option H4"), 40% ("Option H5") and 20% ("Option H6") of the 800,000 award options granted to captains shall vest in May 31, 2013, 2014 and 2015 of each year respectively. The number of options that the grantees are entitled to in each year of 2013 to 2016 will be calculated based on the key performance indicator scores of the grantees in the respective prior year and subject to their continued agent services with the Company. The expiration date of the 2012 Options H is March 12, 2022. The 2012 Options H had an exercise price of US\$0.30 (RMB1.90), which was later modified to US\$0.001 (RMB0.006) (See "option modification" section of the note) and an intrinsic value of US\$0.04 (RMB0.26) per ordinary share as of the date of grant.

The fair value of the options was determined by using the Black-Scholes option pricing model with the following assumptions as of December 31, 2014, exclude Option H1, H4 and H5 which were vested on May 31, 2013 and May 31, 2014:

	Option H2	Option H3	Option H6
Stock price per ordinary shares	US\$0.30	US\$0.30	US\$0.30
Weight average assumptions – expected dividend yield.....	0%	0%	0%
Risk-free interest rate	1.43%	1.60%	1.43%
Expected life (years)	4.81	5.31	4.81
Expected volatility	60.32%	64.83%	60.32%

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

The expected dividend yield was estimated by the Company based on its dividend policy over the expected life of the options. Risk-free interest rate was estimated based on the USD Treasury Bond Yield and pro-rated according to the tenor of the options plus a risk premium of 1.05% to cater the higher sovereign risk of China. The expected term was estimated by taking into consideration the expiration period and the vesting terms. Expected volatility was estimated based on daily stock prices of comparable companies for a period with length commensurate to expected term.

For the years ended December 31, 2012, 2013 and 2014, share-based compensation expenses of RMB1,100, RMB1,288 and RMB1,289 were recognized in connection with the 2012 Options H, respectively. As of December 31, 2014, no shares of 2012 Options H had been exercised. During the years ended December 31, 2012, 2013 and 2014, nil, 143,664 and 898,740 shares of 2012 Options H, respectively, were forfeited due to termination of agency contracts. No share-based compensation expense related to the forfeited options was recognized.

2009 Options

On March 9, 2009, the Company granted options ("2009 Options") to its employees to purchase 10,000,000 ordinary shares of the Company. Pursuant to the option agreements entered into between the Company and the option grantees, the options shall vest over a four-year period, with 30% ("Option D1"), 30% ("Option D2"), 20% ("Option D3") and the remaining 20% ("Option D4") of the options vesting on March 31 of each of the years 2010 to 2013, respectively, subject to the continuous employment of the option grantees and their key performance indicators ("KPI") results for the years 2009. The expiration date of the 2009 Options is March 31, 2015, which was later modified to December 31, 2017 (See "option modification" section of the note). The 2009 Options have an exercise price of US\$0.34 (RMB2.30) per ordinary share, equal to the price per ordinary share quoted on the Nasdaq Global Select Market at the date of passing the resolutions. There is no intrinsic value of the options as of the date of grant. The fair value of the options was determined by using the Black-Scholes option pricing model with the following assumptions:

	Option D1	Option D2	Option D3	Option D4
Weight average assumptions – expected dividend yield.....	0%	0%	0%	0%
Risk-free interest rate.....	3.35%	3.51%	3.55%	3.61%
Expected life (years).....	3.56	4.06	4.56	5.06
Expected volatility.....	33.0%	31.9 %	32.2%	31.2%

As of December 31, 2014, 1,348,280 shares of 2009 Options had been exercised. The expected term was estimated by taking into consideration the expiration period and the vesting terms. Expected volatility was estimated based on daily stock prices of comparable companies for a period with length commensurate to expected term.

For the years ended December 31, 2012, 2013 and 2014, share-based compensation expenses of RMB1,353, RMB238 and nil was recognized in connection with the 2009 Options respectively, excluding the incremental expenses related to the option modification in December 2013 (See "option modification" section of the note). During the years ended December 31, 2012, 2013 and 2014, 200,410, 231,600 and 110,900 shares of 2009 Options, respectively, were forfeited due to employee resignations. No share-based compensation expense related to the forfeited options was recognized.

2008 Options

On November 21, 2008, the Company granted options to purchase 32,000,000 ordinary shares of the Company to certain directors and employees ("2008 Options"). Pursuant to the option agreements entered into between the Company and the option grantees, the options shall vest over a four-year period, with 30% ("Option C1"), 30% ("Option C2"), 20% ("Option C3") and the remaining 20% ("Option C4") of the options vesting on March 31 of each of the years 2010 to 2013, respectively, subject to the

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

continuous employment of the option grantees and their KPI results for the years 2009. The expiration date of the 2008 Options is March 31, 2015, which was later modified to December 31, 2017 (See "option modification" section of the note). The 2008 Options have an exercise price of US\$0.28 (RMB1.90), equal to the fair value of the Company's share price at the grant date. There is no intrinsic value of the options as of the date of grant. The fair value of the options was determined by using the Black-Scholes option pricing model with the following assumptions:

	Option C1	Option C2	Option C3	Option C4
Weight average assumptions – expected dividend yield.....	0%	0%	0%	0%
Risk-free interest rate.....	3.70%	3.71%	3.93%	4.07%
Expected life (years).....	3.86	4.36	4.86	5.36
Expected volatility.....	28.2%	28.9%	28.0%	27.6%

As of December 31, 2014, 2,685,300 shares of 2008 Options had been exercised. The expected term was estimated by taking into consideration the expiration period and the vesting terms. Expected volatility was estimated based on daily stock prices of comparable companies for a period with length commensurate to expected term.

For the years ended December 31, 2012, 2013 and 2014, share-based compensation expenses of RMB3,756, RMB946 and nil was recognized in connection with 2008 Options, excluding the incremental expenses related to the option modification in December 2013 (See "option modification" section of the note). During the years ended December 31, 2012, 2013 and 2014 respectively, 211,080, 269,800 and 171,700 shares of 2008 Options, respectively, were forfeited due to employee resignations. No share-based compensation expense related to the forfeited options was recognized.

2007 Options

Option A

On February 3, 2007, CISG granted share options ("2007 Option A") to the Company's former Chief Financial Officer, Mr. David Tang to purchase 5,473,684 ordinary shares. The options grant represents 0.8% of the issued share capital of CISG on a fully diluted basis upon full exercise of all outstanding options. The options vest over a two-year period, with 40% of the options vesting upon public listing of the Company and 30% on each of the first and second anniversaries of his employment. The 2007 Option A has an exercise price of RMB2.32 per ordinary share, equal to the fair value of CISG's share price at the grant date, as determined by using the Black-Scholes option pricing model. The management of the Company determined the value of the Company's shares as of January 31, 2007, with the assistance of a third party valuation company. There was no intrinsic value of the option as of the date of grant.

The assumptions used in determining the fair value of the options were as follows:

Weighted average assumptions—expected dividend yield.....	0%
Risk-free interest rate.....	2.71%
Expected life (years).....	5.6
Expected volatility.....	28.5%

The expected term was estimated by taking into consideration the expiration period and the vesting terms. Expected volatility is estimated based on daily stock prices of comparable companies for a period with length commensurate to expected term. As of December 31, 2014, 4,652,620 shares of 2007 Option A had been exercised.

Option modification

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

In December, 2013, the board of directors approved an option modification to extend the expiration dates of the outstanding 2008 Options and 2009 Options to December 31, 2017. Other terms of the options grants remain unchanged. The Company had taken a modification charge for the incremental compensation cost of RMB6,700 to the consolidated statement of income and comprehensive income (loss) for the year ended December 31, 2013, the period in which the modification occurred.

In December, 2013, the chairman of InsCom approved an option modification to extend the expiration dates of all InsCom options for one year and revised the exercise price of the options to RMB0.025 per ordinary share, the fair value as of the modification date. The Company had taken a modification charge for the incremental compensation cost of RMB401 to the consolidated statement of income and comprehensive income (loss) for the year ended December 31, 2013, the period in which the modification occurred.

In November 2014, the board and compensation committee passed a resolution to modify the exercise price of the 2012 Options that the exercise price of the rest of the 2012 Options was reduced from \$0.30 per ordinary share (for certain directors, officers, key employees and sales agents) and \$0.31 per ordinary share (for two independent directors who are residents of the United States) to \$0.001 per ordinary share while the maximum aggregate award of 96,645,000 ordinary shares was reduced to 46,722,500 ordinary shares. The options are subject to the same service period. As of December 31, 2014, except for the options granted to one of the independent directors, outstanding options to purchase 91,327,722 ordinary shares were modified into 45,663,861 shares options. There was no incremental cost as a result of such option modification.

For each of the three years ended December 31, 2012, 2013 and 2014, changes in the status of outstanding options, excluding the InsCom options, were as follows:

	Number of options	Weighted average exercise price in RMB	Aggregate Intrinsic Value RMB
Outstanding as of January 1, 2012	37,111,101	1.99	7,070
Granted on March 12, 2012	96,645,000	1.90	
Exercised.....	(183,380)	1.95	
Forfeited.....	(411,490)	2.09	
Outstanding as of December 31, 2012	133,161,231	1.92	15,436
Forfeited.....	(1,431,734)	1.96	
Outstanding as of December 31, 2013	131,729,497	1.92	15,436
Exercised.....	(1,704,380)	2.09	
Forfeited.....	(2,113,656)	1.92	
Modification of the 2012 Options	(45,663,861)	1.90	
Outstanding as of December 31, 2014	82,247,600	1.93	10,177
Exercisable as of December 31, 2014.....	65,234,609	1.94	7,517

As of December 31, 2014, there were a total of 17,012,991 outstanding unvested options for the Group. As of December 31, 2014, there was RMB18,793 of total unrecognized compensation cost related to share options granted in 2012, which was expected to be recognized over a period of 1.5 years as of December 31, 2014.

No 2012 InsCom Options was exercised, or cancelled during the year ended December 31, 2013 and 2014. There was negligible unrecognized cost as of December 31, 2014. As of December 31, 2014, 4,476,505 shares of 2012 InsCom Options were forfeited because of resignation of the option holders. As of December 31, 2014, 56,531,831 shares of the 2012 InsCom Options are outstanding and exercisable, with weighted average remaining contractual life of 2 years and exercise price of RMB0.025 per ordinary share.

No 2013 InsCom Options was exercised or cancelled during the year ended December 31, 2014, and there was nil of unrecognized cost expected to be recognized over a period of one year as of December 31, 2014. As of December 31, 2014, 3,036,879 shares

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA)

were forfeited. As of December 31, 2014, 17,621,433 shares of the 2013 InsCom Options are outstanding and exercisable, with weighted average remaining contractual life of 3.5 years and exercise price of RMB0.025 per ordinary share.

No 2014 InsCom Options was exercised or cancelled during the year ended December 31, 2014, and there was nil of unrecognized cost expected to be recognized over a period of one year as of December 31, 2014. During the year of 2014, 120,000 shares were forfeited. As of December 31, 2014, 11,546,281 shares of the 2014 InsCom Options are outstanding, 4,259,000 options are exercisable, with weighted average remaining contractual life of 4.5 years and exercise price of RMB0.028 per ordinary share.

The following table summarizes information about the Company's share option plans for the years ended December 31, 2012, 2013 and 2014, excluding the InsCom options, were:

	Year ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Weighted-average grant-date fair value per share of options granted	1.48	—	—
Total intrinsic value of options exercised	74	—	837
Total fair value of share options vested	30,513	34,362	44,912

The following table summarizes information about the Company's stock option plans as of December 31, 2014, excluding the InsCom options, were:

	Options outstanding	Weighted average remaining contractual life (Years)	Weighted average exercise price in RMB	Options Exercisable
2012 Options G.....	45,876,692	7.3	0.006	29,663,817
2012 Options H.....	1,370,428	7.3	0.006	570,312
2009 Options	7,000,000	3.0	2.30	7,000,000
2008 Options	28,000,480	3.0	1.90	28,000,480
Total	82,247,600			65,234,609

There is no 2007 Options A outstanding as of December 31, 2014.

(20) Restricted Net Assets

Relevant PRC statutory laws and regulations permit payments of dividends by the Group's PRC subsidiaries only out of their retained earnings, if any, as determined in accordance with PRC accounting standards and regulations. As a result of these PRC laws and regulations, the Group's PRC subsidiaries are restricted in their ability to transfer a portion of their net assets either in the form of dividends, loans or advances. As of December 31, 2013 and 2014, the Company had restricted net assets of RMB1,907,730 and RMB2,055,417 (including RMB135,678 and RMB131,313 restricted net assets of the VIEs), respectively, which were not eligible to be distributed. These amounts were comprised of the registered capital of the Company's PRC subsidiaries and the statutory reserves disclosed in note 14.

(21) Segment Reporting

Before January 1, 2014, the Group operated three operating segments: (1) property and casualty insurance ("P&C"), (2) life insurance ("Life"), and (3) insurance claims adjusting services ("Claims Adjusting"). From January 1, 2014, the Group realigned its financial reporting structure into three principal business segments that more accurately reflect its organizational

CNINSURE INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(*IN THOUSANDS, EXCEPT FOR SHARES AND PER SHARE DATA*)

structure and changing business mix. Historical results reflecting the new business segments for the corresponding period of the previous year have been restated.

The new principal business segments are as follows: (1) insurance agency business segment, which mainly consists of providing agency services for P&C insurance products and life insurance products to individual clients, (2) insurance brokerage business segment, which mainly consists of providing P&C and life insurance brokerage services to institutional clients, and (3) claims adjusting segment, which consists of providing pre-underwriting survey, claim adjusting, disposal of residual value, loading and unloading supervision and consulting services. Operating segments are defined as components of an enterprise about which separate financial information is available and evaluated regularly by the Group's chief operating decision maker in deciding how to allocate resources and in assessing performance.

The following table shows the Group's operations by business segment for the years ended December 31, 2012, 2013 and 2014. Other includes revenue and expenses that are not allocated to reportable segments and corporate related items.

Substantially all of the Group's revenues for the three years ended December 31, 2012, 2013 and 2014 were generated from the PRC. A substantial portion of the identifiable assets of the Group is located in the PRC. Accordingly, no geographical segments are presented.

(22) Subsequent event

(a) In January 5, 2015, Kingsford Resources Limited ("Kingsford Resources") entered into a share purchase and sale agreement with CDH Inservice Limited ("CDH Inservice") in a privately negotiated transaction, pursuant to which Kingsford Resources, collectively held by Mr. Qiuping Lai, Mr. Chunlin Wang and Mr. Peng Ge, has agreed to purchase from CDH Inservice 7,731,149 ADSs, or its equivalent in ordinary shares of our company, at a price of US\$7 per ADS, or US\$0.35 per ordinary share, for total compensation of US\$54.1 million. The 7,731,149 ADSs represent the entire interests in our company held by CDH Inservice as of January 5, 2015. 3,865,575 ADSs or its equivalent in ordinary shares were delivered by CDH Inservice to Kingsford Resources on January 15, 2015 and the remaining 3,865,574 ADSs or its equivalent in ordinary shares will be delivered on or prior to January 15, 2016.

(b) In January, 2015, the Group acquired the remaining 49% equity share of Henan Fanhua Anlian Insurance Agency Co., Ltd. ("Henan Anlian") for a cash consideration of RMB68,000, increasing our shareholdings in Henan Anlian from 51% to 100%. The Group also acquired 36.5% equity share of Hebei Fanlian Insurance Agency Co., Ltd. ("Hebei Fanlian") for a total consideration including cash consideration of RMB40,000 and 12.5% equity interest in business of Hebei branch of Fanhua Lianxing Insurance Sales Co., Ltd., increasing our shareholdings in Hebei Fanlian from 51% to 87.5%.

Note to Schedule 1
(In thousands, except for shares)

Schedule 1 has been provided pursuant to the requirements of Rule 12-04(a), 5-04(c) and 4-08(e)(3) of Regulation S-X, which require condensed financial statements as to the financial position, changes in financial position and results of operations of a parent company as of the same dates and for the same periods for which audited consolidated financial statements have been presented when the restricted net assets of the consolidated and unconsolidated subsidiaries (including variable interest entities) together exceed 25 percent of consolidated net assets as of the end of the most recently completed fiscal year. As of December 31, 2014, RMB2,055,417 of the restricted capital and reserves are not available for distribution, and as such, the condensed financial statements of the Company have been presented for the years ended December 31, 2013 and 2014.
