## Fanhua Announces Quarterly Cash Dividend of US\$0.25 per ADS for the Fourth Quarter of 2018

GUANGZHOU, China, March 11, 2019 (GLOBE NEWSWIRE) -- Fanhua Inc. ("Fanhua" or "the Company") (Nasdaq: FANH), a leading independent financial services provider in China, today announced that its Board of Directors (the "Board") has declared a quarterly dividend of US\$0.0125 per ordinary share, or US\$0.25 per ADS for the fourth quarter of 2018. The dividend is payable on or around April 3, 2019 to shareholders of record on March 21, 2019.

Mr. Chunlin Wang, Fanhua's chairman and chief executive officer, stated, "The Board and management remain optimistic about the growth prospects of the life insurance market in China and Fanhua. Therefore, we believe that the Company's stocks represent an attractive investment in the long run. We also believe that the Company's solid cash position and strong operating cash flow will enable the Company to continuously maximize shareholders' value through cash dividends and share repurchases while pursuing continued business growth opportunities."

Commenting on the fourth quarter and fiscal year 2018 financial results, Mr. Chunlin Wang, chairman and chief executive officer of Fanhua, stated, “Against the backdrop of tightened regulation focusing on steering the China’s life insurance industry back to its fundamental function of providing protection to the society, and as the Circular No. 134 issued by the CIRC in 2017 continued to exert its impact in 2018, we are glad to report a continued solid set of key operating metrics which beat our prior expectations. Our annualized insurance premiums (“APE”) on regular life insurance products increased by 3.8% year-over-year to RMB1.9 billion in 2018 while the renewal insurance premiums registered a strong growth of 119.3% year-over-year to RMB3.7 billion, leading to a total of RMB6.2 billion life insurance premiums, representing a growth of 46.2% year-over-year.

<sup>1</sup> This announcement contains currency conversions of certain Renminbi (RMB) amounts into U.S. dollars (US\$) at specified rates solely for the convenience of the reader. Unless otherwise noted, all translations from RMB to U.S. dollars are made at a rate of RMB6.8755 to US\$1.00, the effective noon buying rate as of December 31, 2018 in The City of New York for cable transfers of RMB as set forth in the H.10 weekly statistical release of the Federal Reserve Board.

“Our operating income grew by 55.9% year-over-year to RMB425.7 million in 2018, with net income growing by 35.8% year-over-year to RMB609.9 million and earnings per American Depositary Share (“ADS”) up 34.8% year-over-year to US\$1.43. We declared and distributed cash dividend of US\$1.00 per ADS in 2018, representing a dividend payout ratio of 69.9%.

“We wrapped up the year with strong note in the fourth quarter of 2018, with an operating income increasing by 34.3% from the corresponding period in 2017 to RMB83.4 million, primarily driven by a stellar growth of 80.9% year-over-year in total insurance premiums to RMB 1.7 billion, of which APE on regular life insurance products grew by 37.7% to RMB467.9 million and renewal insurance premiums grew 100.4% year-over-year to RMB1.1 billion.

“Looking ahead to 2019, as the complex international geopolitical landscape adds to uncertainty in macroeconomic environment in China and abroad, the China Banking and Insurance Regulatory Commission will highly likely focus on strict regulatory supervision and risk control. However, we are convinced that we are on track towards a continued growth, benefiting from a rapidly expanding middle class in China and accelerated trend of separation of manufacturing from distribution, and based on Fanhua’s scalable platform, rapidly expanding sales force, nationwide footprint and large customer base built over the past 21 years.

“As such, we expect our APE on regular life insurance products to increase by 30% year-over-year and operating income by 40% year-over-year in the first quarter of 2019.

“For 2019, we expect APE on life insurance products to increase by 30% year-over-year to RMB2.5 billion, renewal insurance premiums to grow by 50% year-over-year to RMB5.6 billion, and operating income to grow by 40% to RMB600 million.

“Investment income is expected to drop in 2019 mainly due to a decrease in cash reserve as a result of the Company’s increasing spending on share buyback and cash dividends, and the loans related to the Company’s 521 development plan, while share of income from affiliate may decline in 2019 as CNFinance Holdings Ltd(“CNFinance”), in which Fanhua owns 18.5% equity interests, intends to upgrade its business model from heavy-asset model to light-asset platform model which may impact its profit in 2019.

“As a result of the aforementioned factors, we expect a slight increase in net income attributable to shareholders in 2019 on a year-on-year basis. However, as the shares related to the 521 development plan will be treated as treasury shares which won’t be included in the shares used for calculating basic earnings per share, according to relevant rules under the US GAAP, we anticipate that the growth of our basic earnings per share will be around 10%.

“On March 8, 2019, our board of directors (the “Board”) passed the below resolutions:

Firstly, the Board approved to increase the Company’s annual dividend by 20% from US\$1.0 per ADS in 2018 to US\$1.2 per ADS in 2019, which will be paid on a quarterly basis.

“Secondly, the Board approved a share repurchase program, authorizing the management to execute the repurchase of up to US\$200 million of the Company’s ADSs by December 31, 2019, in any form that the management may deem fit.”

#### **Financial Results for the Fourth Quarter of 2018**

**Total net revenues** were RMB871.9 million (US\$126.8 million) for the fourth quarter of 2018, representing an increase of 26.3% from RMB690.5 million for the corresponding period in 2017.

- **Net revenues for the life insurance business** were RMB735.0 million (US\$106.9 million) for the fourth quarter of 2018, representing an increase of 49.9% from RMB490.3 million for the corresponding period in 2017. The increase was mainly driven by the growth in first year commissions as a result of the rapid growth in the number of sales agents and renewal commissions as a result of high persistency ratio. Revenues generated from our life insurance business accounted for 84.3% of our total net revenues in the fourth quarter of 2018.
- **Net revenues for the P&C insurance business** were RMB 39.3 million (US\$5.7 million) for the fourth quarter of 2018, representing a decrease of 61.4% from RMB101.9 million for the corresponding period in 2017. The decrease was primarily due to i) the suspension of cooperation with an online lending service provider since June 2018; and ii) the transition of our auto insurance business from a commission-based business model towards a platform business model starting from the fourth quarter of 2017. Revenues for the P&C insurance business are mainly derived from commissions generated from Baoxian.com and the technology service fees based on the volume of insurance premiums transacted through CNpad. A technology service fee is typically much smaller than the commission we previously received from insurance companies, though our costs are minimal. Revenues generated from the P&C insurance business accounted for 4.5% of our total net revenues in the fourth quarter of 2018.
- **Net revenues for the claims adjusting business** were RMB97.6 million (US\$14.2 million) for the fourth quarter of 2018, representing a decrease of 0.7% from RMB98.3 million for the corresponding period in 2017. Revenues generated from the claims adjusting business accounted for 11.2% of our total net revenues in the fourth quarter of 2018.

**Total operating costs and expenses** were RMB 788.5 million (US\$114.7 million) for the fourth quarter of 2018, representing an increase of 25.5% from RMB628.3 million for the corresponding period in 2017.

- **Commission costs** were RMB595.6 million (US\$86.6 million) for the fourth quarter of 2018, representing an increase of 30.5% from RMB456.4 million for the corresponding period in 2017. The increase in commission cost was mainly in line with the growth of life insurance business.
  - u **Costs of the life insurance business** were RMB516.7 million (US\$75.1 million) for the fourth quarter of 2018, representing an increase of 64.3% from RMB314.5 million for the corresponding period in 2017. The increase was in line with the growth in sales. Costs incurred by the life insurance business accounted for 86.7% of our total commission costs in the fourth quarter of 2018.
  - u **Costs of the P&C insurance business** were RMB23.1 million (US\$3.4 million) for the fourth quarter of 2018, representing a decrease of 72.6% from RMB84.2 million for the corresponding period in 2017. The decrease was in line with the decrease in sales. The costs of the P&C insurance business for the fourth quarter of 2018, mainly represent commission costs incurred for business on Baoxian.com. Costs incurred by the P&C insurance business accounted for 3.9% of our total commission costs in the fourth quarter of 2018.
  - u **Costs of claims adjusting business** were RMB55.8 million (US\$8.1 million) for the fourth quarter of 2018, representing a decrease of 3.1% from RMB57.6 million for the corresponding period in 2017. Costs incurred by the claims adjusting business accounted for 9.4% of our total commission costs in the fourth quarter of 2018.
- **Selling expenses** were RMB71.5 million (US\$10.4 million) for the fourth quarter of 2018, representing an increase of 16.3% from RMB61.5 million for the corresponding period in 2017. The increase was primarily due to an increase of sales outlets.
- **General and administrative expenses** were RMB121.5 million (US\$17.7 million) for the fourth quarter of 2018, representing an increase of 10.1% from RMB110.4 million for the corresponding period in 2017. The increase was primarily due to an increase in expenses incurred for setting up new offices and staff recruitment as a result of regional expansion of life branches.

As a result of the preceding factors, we had an **operating income** of RMB83.4 million (US\$12.1 million) for the fourth quarter of 2018, representing an increase of 34.3% from RMB62.1 million for the corresponding period in 2017.

**Operating margin** was 9.6% for the fourth quarter of 2018, compared to 9.0% for the corresponding period in 2017.

**Investment income** was RMB42.9 million (US\$6.2 million) for the fourth quarter of 2018, representing an increase of 8.6% from RMB39.5 million for the corresponding period in 2017. The investment income represents yields from short-term investments in financial products which mainly consist of inter-bank deposits or collective trust products with terms ranging from half a year to two years and interest payable on a quarterly, semi-annual or annual basis. Our investment income fluctuates from quarter to quarter because investment income is recognized when received. The decline in the balance of short term investments as of December 31, 2018 was primarily due to a decrease of cash reserve as a result of cash dividend and share buyback executed in 2018 and loans related to the Company's 521 development plan.

**Interest income** was RMB0.8 million (US\$0.1 million) for the fourth quarter of 2018, representing a decrease of 93.5% from RMB12.4 million for the corresponding period in 2017. The decrease in interest income was mainly due to i) the decline in bank interest rate; and ii) the settlement of interest-bearing receivables in the third quarter of 2018.

**Income tax expense** was RMB57.1 million (US\$8.3 million) for the fourth quarter of 2018, representing an increase of 49.9% from RMB38.1 million for the corresponding period in 2017. The effective tax rate for the fourth quarter of 2018 was 41.0% compared with 32.9% for the corresponding period in 2017.

**Share of income of affiliates** was RMB36.0 million (US\$5.2 million) for the fourth quarter of 2018, representing a decrease of 34.8% from RMB55.2 million for the corresponding period in 2017, mainly attributable to a decrease of profits from CNFinance.

**Net income from continuing operations** was RMB118.0 million (US\$17.2 million) for the fourth quarter of 2018, representing a decrease of 11.2% from RMB132.9 million for the corresponding period in 2017. The decrease was mainly attributable to a decrease of RMB19.2 million in share of income of affiliates and a decrease of RMB11.6 million in interest income.

**Net loss from discontinued operations** was nil for the fourth quarter of 2018 and RMB1.2 million for the fourth quarter of 2017, which mainly represents the loss from disposal of the brokerage segment in the fourth quarter of 2017.

**Net income attributable to the Company's shareholders** was RMB112.6 million (US\$16.4 million) for the fourth quarter of 2018, representing a decrease of 11.2% from RMB126.9 million for the corresponding period in 2017. The decrease was mainly attributable to a decrease in share of income of affiliates and a decrease in interest income.

**Net margin** was 12.9% for the fourth quarter of 2018 compared with 18.4% for the corresponding period in 2017.

**Basic and diluted net income per ADS** were RMB1.99 (US\$0.29) and RMB1.99(US\$0.29) for the fourth quarter of 2018, respectively, representing decreases of 0.5% and 0.5% from RMB1.98 and RMB1.98 for the corresponding period in 2017.

## Financial Results for Year 2018

**Total net revenues** were RMB3,471.3 million (US\$504.9 million) for 2018, representing a decrease of 15.1% from RMB4,088.5 million for 2017.

- **Net revenues for the life insurance business** were RMB2,870.8 million (US\$417.5 million) for 2018, representing an increase of 18.4% from RMB2,424.4 million in 2017. The increase was mainly driven by the growth in first year commissions as a result of the rapid growth in the number of sales agents and renewal commissions as a result of high persistency ratio. Revenues generated from our life insurance business accounted for 82.7% of our total net revenues in 2018.
- **Net revenues for the P&C insurance business** were RMB273.1 million (US\$39.7 million) for 2018, representing a decrease of 79.9% from RMB1,355.8 million in 2017. The decrease was primarily due to i) the suspension of cooperation with an online lending service provider since June 2018; and ii) the transition of our auto insurance business from a commission-based business model towards a platform business model starting from the fourth quarter of 2017. Revenues for the P&C insurance business for the year 2018 are mainly derived from commissions generated from Baoxian.com and the technology service fees based on the volume of insurance premiums transacted through CNpad. Revenue generated from our P&C insurance business accounted for 7.9% of our total net revenue in 2018.
- **Net revenues for the claims adjusting business** were RMB327.4 million (US\$47.6 million) for 2018, representing an increase of 6.2% from RMB308.3 million in 2017. Revenues generated from the claims adjusting business accounted for 9.4% of our total net revenues in 2018.

**Total operating costs and expenses** were RMB3,045.5 million (US\$443.0 million) for 2018, representing a decrease of 20.2% from RMB3,815.3 million in 2017.

- **Commission costs** were RMB2,346.0 million (US\$341.2 million) for 2018, representing a decrease of 23.3% from RMB3,059.4 million in 2017. The decrease in commission cost was mainly due to the decrease in our P&C insurance business, partially offset by the growth of our life insurance business.
  - u **Costs of the life insurance business** were RMB1,943.1 million (US\$282.6 million) for 2018, representing an increase of 18.7% from RMB1,636.3 million in 2017. The increase was in line with the growth in sales. Costs incurred by the life insurance business accounted for 82.8% of our total commission costs in 2018.
  - u **Costs of the P&C insurance business** were RMB208.8 million (US\$30.4 million) for 2018, representing a decrease of 83.0% from RMB1,228.5 million in 2017. The decrease was in line with the decrease in revenue. Costs incurred by the P&C insurance business accounted for 8.9% of our total commission costs in 2018.

u **Costs of claims adjusting business** were RMB194.2 million (US\$28.2 million) for 2018, representing a decrease of 0.2% from RMB194.5 million in 2017. Costs incurred by the claims adjusting business accounted for 8.3% of our total commission costs in 2018.

- **Selling expenses** were RMB231.1 million (US\$33.6 million) for 2018, representing an increase of 4.2% from RMB221.8 million in 2017. The increase was primarily due to an increase of sales outlets.
- **General and administrative expenses** were RMB468.4 million (US\$68.1 million) for 2018, representing a decrease of 12.3% from RMB534.1 million in 2017. The decrease was mainly due to a significant reduction in expenses incurred by our P&C insurance agencies as a result of the migration to the platform business model since the fourth quarter of 2017 as well as the disposal of certain P&C insurance agencies, partially offset by an increase in expenses incurred by new offices setup and staff recruitment in relation to regional expansion of life branches.

As a result of the preceding factors, we had an **operating income** of RMB425.7 million (US\$61.9 million) for 2018, representing an increase of 55.9% from RMB273.1 million in 2017.

**Operating margin** was 12.3% for 2018, compared to 6.7% in 2017.

**Investment income** was RMB195.5 million (US\$28.4 million) for 2018, representing an increase of 1.9% from RMB191.8 million in 2017. The investment income represented yields from short-term investments in financial products which mainly consist of inter-bank deposits or collective trust products with terms ranging from half-a-year to two years and interest payable on a quarterly, semi-annual or annual basis. Our investment income fluctuates from quarter to quarter because investment income is recognized when received.

**Interest income** was RMB34.2 million (US\$5.0 million) for 2018, representing an increase of 32.0% from RMB25.9 million in 2017, primarily due to the settlement of one year interest-bearing receivables in the third quarter of 2018.

**Income tax expense** was RMB224.6 million (US\$32.7 million) for 2018, representing an increase of 33.8% from RMB167.8 million in 2017. The effective tax rate for 2018 was 33.7% compared with 33.2% in 2017. The increase in effective tax rate was primarily due to the withholding income tax provision related to dividend payments since the third quarter of 2017.

**Share of income of affiliates** was RMB174.5 million (US\$25.4 million) for 2018, representing an increase of 60.2% from RMB108.9 million in 2017, mainly attributable to an increase of profits from CNFinance in which we own 18.5% of the equity interest.

**Net income from continuing operations** was RMB617.1 million (US\$89.8million) for 2018, representing an increase of 38.3% from RMB446.2 million in 2017.

**Net income from discontinued operations** was nil for 2018 and RMB5.5 million for 2017, mainly representing net income from the divested Brokerage Segment attributable to the Company.

**Net income attributable to the Company's shareholders** was RMB609.9 million (US\$88.7 million) for 2018, representing an increase of 35.8% from RMB449.2 million in 2017.

**Net margin** was 17.6% for 2018 compared with 11.0% in 2017.

**Basic and diluted net income per ADS** were RMB9.84 (US\$1.43) and RMB9.83(US\$1.43) for 2018, respectively, representing increases of 35.0% and 34.8% from RMB7.29 and RMB7.29 in 2017.

As of December 31, 2018, the Company had RMB2,326.9 million (US\$338.4 million) in **cash, cash equivalents and short-term investments**.

## Fanhua Announces US\$200 Million Share Repurchase Program

GUANGZHOU, China, March 11, 2019, Eastern Daylight Time, (GLOBE NEWSWIRE) - Fanhua Inc. ("Fanhua" or "the Company") (Nasdaq: FANH), a leading independent financial services provider in China, today announced that the Company's board of directors (the "Board") has approved a new share repurchase program, which authorized the Company's management to execute the repurchase of up to US\$200 million of its American Depositary Shares ("ADSs") by December 31, 2019, in any form that management may deem fit. The Company's management intends to launch the repurchase on March 13, 2019 and the proposed purchases will be made from time to time depending on market conditions, in accordance with applicable requirements of Rule 10b-18 and/or Rule 10b-5 under the U.S. Securities Exchange Act of 1934, as amended.

Mr. Chunlin Wang, Fanhua's chairman and chief executive officer, stated, "Management remain confident about the Company's growth outlook as we have solid cash position and are on track towards a sustainable profit growth. The share repurchases will help increase shareholder value per share and we believe it is an effective way to reward our shareholders for their support and trust."

## Fanhua Announces 20% Increase in Annual Dividend to US\$1.2 per ADS in 2019

GUANGZHOU, China, March 11, 2019, Eastern Daylight Time, (GLOBE NEWSWIRE) -- Fanhua Inc. ("Fanhua" or "the Company") (Nasdaq: FANH), a leading independent financial services provider in China, today announced that its board of directors has approved its management's proposal to increase its annual aggregate dividend by 20% from US\$1.0 per American Depositary Share ("ADS") in 2018 to US\$1.2 per ADS, or US\$0.06 per ordinary share in 2019. The dividend will be paid on a quarterly basis, with US\$0.3 per ADS, or US\$0.015 per ordinary share, payable in each of the next four quarters.

Mr. Chunlin Wang, Fanhua's chairman and chief executive officer, stated, "Management team believes that our strong cash reserve of RMB2.3 billion as of December 31, 2018 should be sufficient to support our need to drive long term business development primarily via organic growth. In addition, the continued growth of our long term regular life insurance business, which has high embedded value and cash value, will enable the Company to generate sustainable cash flow in the long run while the Company's cash dividends will be determined based on our operating cash flow to make sure that dividend distributions won't eat into the Company's existing cash reserve."
